THE FORT RECORD

VOL. 39 No. 5 FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY APRIL 30, 1947 Subscription $2.00 per year in Canada U.S. $2.50

Around the Town

Mrs. Fred Sherman, who has been visiting her daughter Miss Ida in Toronto, returned home last week.

Mrs. Ellen Allen is spending a few days with friends at Niagara Falls and Buffalo.

* * *

The regular meeting of the United Church W.A. will be held at the home of Mrs. Gus Hines on Wednesday, May 7 at 7 p.m.

* * *

Mr. A. E. Potts and son Bob arrived Monday morning to visit Rev. and Mrs. W. Baxter.

They left Thursday night, with Mrs. Potts who has been visiting her daughter and son-in-law for the last week, for their summer cottage in Saskatchewan.

* * *

Congratulations go to Mr. and Mrs. Earl Sherman of Lethbridge on the birth of a son, Saturday, April 26.

* * *

Mrs. L. Sandwell had her sister, Miss Rennie Cigon from Fairbanks, Alaska over the week-end.

* * *

Mrs. A. Bloch entertained at the annual meeting of the Ivy Indian Bridge Club on Wednesday evening. Prize were won by Mrs. V. Baxter and D. Cobbledick.

This is 5th annual get-together of these two clubs. The Indian donated $4.25 to the Cancer Fund.

* * *

Fort Couple Mark Diamond Anniversary

On Sunday, April 20th Mr. and Mrs. A. Sauvage of Fort Saskatchewan celebrated their Diamond Wedding Anniversary; very quietly at the home of their son and daughter-in-law, Mr. and Mrs. M. L. Stetson 9620 95 Avenue, Edmonton.

The immediate family including one brother and sister-in-law of Mrs. Stetson, Mr. and Mrs. J. B. Howard of Edmonton sat down to a one o'clock lunch.

The bride's table was centered with a 5-tiered wedding cake beautifully decorated and bearing the inscription sixty years. Lacey in the afternoon a few very near neighbors and close friends called to extend their congratulations and best wishes.

Mr. and Mrs. Stetson have four sons and one daughter, seven grandchildren and one great grandchild, all being present with the exception of one grandchild, Steven Stetson of Ottawa, only child of Mr. and Mrs. T. F. Stetson.

Mr. and Mrs. Stetson were both born and married in Prince Edward Island near Charlottetown.

Mr. Stetson began his career by teaching school and farming a small acreage. Perhaps not going any further than to work in Boston they were forced for six years, to then moved to Vancouver where he was engaged in business for four years, afterwhich they came once moved to Alberta, settling in the Fort Saskatchewan district where all the family have since resided.

* * *

Baseball Practice Soon

At a meeting of the Fort Baseball Club held last week the club passed a motion to sponsor the Girls' Soft Ball Team and the Boys' Junior Baseball Team. They will supply them with their uniforms, etc.

Practices up to the present have been few but plans are afoot to have three practices a week, Monday, Wednesday and Friday for the Senior Baseball team. All players are urged to attend the practices

* * *

TOOTH EXTRACTION

If teeth are bad, and possibly spreading infection through the body, doctors and dental surgeons agree that they are better extracted.

With the modern skill of dentistry in replacing teeth, this is not an unhappy a situation as it once was. Properly fitted dentures are said to be preferred to faulty teeth.

USE THE WANT-ADS.

* * *

Record rain produces record sprouts. No system in local produces a record man.

PROCLAMATION

The Council of the Town of Fort Saskatchewan request that on and after Midnight Saturday, May 3rd, the residents and business places observe Daylight Saving Time.

Signed
Mayor and Town Council.

Minutes of April Meeting of The Strathcona M. D. Council

The Statutory meeting of the Council of the Municipal District of Strathcona, No. 20, was held in the municipal office on the 3rd of April, and then adjourned to the 10th, 16th and 28th, making it a four day meeting.

Mr. Schaefer took the oath of office on re-assuming his duties as councillor and R. M Parker was also sworn in as the new councillor for Division No. 1.

E. Keith was re-elected Reeve for the ensuing year and H. Schiefer as Deputy Reeve for the ensuing six months.

The following [illegible] were made: Winspear & Co., Auditors, Rebt. Law, Assessor; Messrs. Donaldson, Fleming, J. B. Cameron, Jr., Mark Lalom and Chas. Naundorf, fire guardians. In addition to these appointments the Reeve and the councillor for each division were appointed committees to investigate any claim for damages done by an estray animal.

The Reeve was appointed the Council's representative on the Agricultural Service Board and Fred E. McCain the reasspayers' representative.

Considerable time was spent in adopting the estimates for the current year which was finally set at $287, 579.50 of which sum $180, 231.00 for school purposes. The necessary by-law was then passed authorizing all rate of taxation, two mills for [illegible] and twenty-two for schools.

Numerous small parcels of land and lots owned by the district were rented for the year 1947.

Tenders for supplying road made to have the grading outfit start work as soon as road and weather conditions will permit.

After routine matters, correspondence and payments and accounts had been dealt with the meeting adjourned to meet on the 12th May.

Josephburg

Superintendent J. J. Lellima paid a visit to the Senior Room on Monday last. His shy-like stories are always really recognized. He was surprised to find our landscape free of snow having left a heavy spring fall that morning in the city.

* * *

An old-timer in the person of Mr. Cantrell has passed on. He was a wizard with edged tools and has made many a youngster happy by repairing gramophone and hockey sticks and the like in truly masterly fashion.

Previous to retirement Mr. Cantrell had a farm at Redwater but it was as a mechanic that he excelled. We shall miss his kindly face. Our sympathy goes sincerely to his widow and to his family generally.

* * *

Bert Hartell grain buyer of Elk Island paid his home a surprise visit this week-end. Mr. Hartell is receiving elevator engines for the company in the south of the province. He reports that his wife is on the road to recovery from years of ill-health and that he hopes to re-assemble his family in the near future. We wish Mrs. Hartell a speedy return to home and health.

* * *

The Y.P.A. of the Reformed Church held a meeting at the church on Sunday night. This organization is in a flourishing condition.

* * *

Farm tractors are likely to have very little time for rest if the warm weather continues. The fields cramp for lap spots are drying well and some farmers have been on the land already.

* * *

Several men produce sound opinions. No system in local produces a sound man.

Ardrossan

It was erroneously stated in last week's paper that Ardrossan would not be held on 11 a.m. on Sunday, May 4. This should have read—church will be held at 11 a.m. instead of usual time due to the Sub-Deanery Anniversary service.

* * *

The last meeting of the Community League was well attended in spite of bad roads, some residential members walking quite a distance. How can we fail in our objectives with spirits such as these. The finance committee brought in their collections and report nearly everyone approached as giving a cash donation or a promise for fall.

It was decided to keep all donations separate and put them in a Memorial Hall Fund to be used for that purpose only.

Cement will be purchased immediately if weather and plans are completed for the basement of the building.

No date for the next general meeting was set due to work pressure. The meeting ended with doughnuts and coffee.

* * *

At the "bee" on the recreation grounds on Saturday, a good crowd was on hand assisted by several trucks and a tractor. The old stove was moved to the grounds and the roof taken off in readiness for the construction of a booth. A cellar was placed in the ditch and the rest of the roadway cleared. The ladies worked in the old hall cutting out aprons and making a quilt for the picnic bazaar. Lunch was served to all the workers by the ladies committee.

* * *

During the calendar year 1946, 101 million pounds of beef were exported from Canada to the United Kingdom, the equivalent of almost 611,000 head of cattle.

Daylight Saving Time Will Go Into Effect Midnight Saturday, May 3rd

Large Crowd Attend Show and Dance Fri.

A large crowd attended both afternoon and evening shows of the McColl-Frontenac Co. last Friday, which was sponsored by Mr. Enid Elliott.

Mr. [illegible] showed a number of old and [illegible] films which would have a good time at a dance which followed the evening show. Mr Haverstock gave a resume of the pictures and also told of the many prizes to be made by the company and gave demonstrations of the quality of their products.

Four pictures were shown during the evening A comic, a sports picture, "Magic Agriculture" and "Jean a Farmer".

"Magic Agriculture" was an [illegible] showing [illegible] It showed how economics through research have been fostered and developed many useful and essential products from grain and produce grown on farms.

"Jean a Farmer" indicated quite clearly why farmers should run hundred dollars being their share of the amount required, $900.00, to purchase a recreation ground for all people.

Authority was granted G. W. Moyer to make a grant from his share appropriation towards the cost of building up a high grade on the range line four miles south from Deep Creek school

The Reeve was instructed to make application to the government for a road grant of $20,000.00; and seven new bridges.

Residents of the Town are requested to set their clocks one hour ahead at midnight Saturday, May 3rd

The question was discussed at a Service Club Meeting in t month and upon a vote beat taken was rejected. Due to Edmonton going on fast time it has caused considerable confusion, thus the Council at their meeting Monday considered it wise to request residents to conform with daylight saving time.

CHURCH SERVICES

Church services in the Town will be held on Sunday at the new time, but the church services at country points will be held on standard time the Sunday if church services are changed, a notice will be published in the Record next week.

NO CHANGE IN SCHOOL

Parents are advised that until the Clover Bar School Division hold their meeting, which will be some time the next week, school will commence on standard time.

This no doubt will cause some confusion, but it is hoped that the division will act on this matter as soon as possible.

Tennis Club Prepare For Coming Season

About 14 members and prospective members of the Fort Tennis Club met in the Legion Hall Monday evening to lay plans for the coming season and to elect officers.

The president, Mr Keyden called the meeting to order at 7:30 and the minutes of the last annual meeting were read and adopted. Funds on hand to start the new season amount to $102.42.

The following were elected back to office for another season, Hon. Pres. Mr. J. D. McLean; Pres. Ben Leavins, Vice Pres. Mrs. Fisher, Sec. Treas. Helen Reay, Executive, Ken Robinson and newly elected were Ada Wilkinson, Ted Pezarski, Norma Robertson, Social Convener, Ada Wilkinson.

It was decided that in order to cover club expenses this year, to raise the Senior fees to $6.00 and Junior fees to $4.00 (play off 5 p.m. every day except [illegible] holidays).

Other fees are Part Time (non-resident) $2.50, Visitors 25c per day or $1.00 per month (the member to be responsible for visitor's fee).

After a discussion of repairs to the courts the committee were given power to make any necessary repairs, also to purchase one new net and tree if it was found necessary to do so.

Mr. A Gray will look after the courts this year for the same remuneration that was paid last year.

The meeting adjourned at 9:15.

* * *

It's not more pleas we need but more application of the plans we have.

Minutes of Regular Council Meeting

The regular monthly meeting of the Town Council of Fort Saskatchewan was held in the Town Hall on Monday night the 28th of April, 1947, with the following members present: Mayor Moyer and Councillors Wallace, Lowe, Dawson, Jacobs and Janet.

Mr. and Mrs. Demeetz were also present asking that the option that Mr. N. Bitz had on Lot 5 and N½ lot 6 in Block A Plan 6th be transferred to them as they had taken over this property from Mr. Bitz. Option was given permission to keep this man on until after the 24th of May next. Constable Thomson was also given permission to help in preparing the Agricultural Grounds for the 24th of May, 1947.

The [illegible] then went into a Court of Revision to deal with three appeals of assessment and tax notices.

The meeting was then resumed and the financial statements of the Town and Community Hall for March were read and adopted.

The Council endorsed the Old Age Pension for Ed Wetzel.

Permission to canvass the Town for the Omerkonis family of Mundare who were burnt out to a point was not granted. Council were of the opinion that this could be met by the canvass the residents of the Province.

The meeting was then adjourned.

Old Time Resident Passes Friday, Apr. 25

The deceased early Friday morning, April 25th of Mr. Andrew Jackson Cantrell, at an advanced age. Born in the state of Virginia, Mr. Cantrell had been a resident of the district in the year 1907 to 1917. He then moved to Redwater, where he continued to ply his trade until quite recent years, when he returned to live near his daughter, Mrs. Ira Fisher of Josephburg. His last illness was very brief, and he was bedfast only a few days last week at the airport wood-carving for which he was well-known.

The funeral service was conducted at Howard and McBride Chapel Edmonton, by Rev. W. H. Rees, on Monday, April 28th. Pall-bearers were: Wm. H. Fisher, Reg. Fisher, Wm. R. Moore, John McFadden, Lorin Morris, Jos. Landy, Interment was made in the Edmonton [illegible]

* * *

Those survive to mourn Mr. Cantrell's loss are his wife, two daughters, Mrs. Ira Fisher of Josephburg and Mrs. David Nicol of Buraland, and two sons, Charles of Sandy and Glen of Edmonton. There are also 9 grandchildren and 3 great grandchildren.

Rebuilding of Church To Commence Soon

Important decisions were reached at a meeting of First United Church officials, Sunday, April 27, Rebuilding of the church, which was destroyed by fire recently, will be commenced as soon. A Finance and steps committee about 10 by 64 feet, with full new basement, will be erected on the same site, but further to the back of the lot. J. H. Wilkie, architect of the building [illegible] will be busy working out [illegible] cations so that construction work can be started in a few days. At the same time, a canvass of all former members and friends is in progress throughout the town and surrounding country led by the building fund committee, of which C. F. Lowe is chairman. It is confidently expected that subscriptions received at this time will sufficiently supplement funds previously on hand to enable the Board of Trustees to pay cash for most construction costs. Great care has been given to working out plans that are modest and yet adequate to the different needs of the congregation and its organizations. It is hoped that construction progress will be rapid on the building by October 1947, when there will be celebrated the Diamond Jubilee of the founding of the first church, the little [illegible] which served the Presbyterian coming masses and is dear still.

The president, Mr Keyden called of the meeting to order at 7:30 and the minutes of the last annual meeting were read and adopted. Funds on hand to start the new season amount to $102.42.

The following were elected back to office for another season, Hon. Pres. Mr. J. D. McLean; Pres. Ben Leavins, Vice Pres. Mrs. Fisher, Sec. Treas. Helen Reay, Executive, Ken Robinson and newly elected were Ada Wilkinson, Ted Pezarski, Norma Robertson, Social Convener, Ada Wilkinson.

It was decided that in order to cover club expenses this year, to raise the Senior fees to $6.00 and Junior fees to $4.00 (play off 5 p.m. every day except [illegible] holidays).

Other fees are Part Time (non-resident) $2.50, Visitors 25c per day or $1.00 per month (the member to be responsible for visitor's fee).

After a discussion of repairs to the courts the committee were given power to make any necessary repairs, also to purchase one new net and tree if it was found necessary to do so.

Mr. A Gray will look after the courts this year for the same remuneration that was paid last year.

The meeting adjourned at 9:15.

It's not more pleas we need but more application of the plans we have.

Mobile X-ray Unit to Visit Bruderheim Mon., May 14

All ratepayers of Chubb, Bolton, Lamont, Deep Creek and Mundare School Districts, are invited to have their X-Rays taken by the Mobile X-Ray Unit in Bruderheim on May 14. It is hoped that every person will turn out, and any one unable to walk still in front of the camera will be X-rayed. Cards stating the hour on which to report for the x-ray will be sent to every home. Should householder from the Edmonton Rural Health District office. If any householder is missed, he has family should go for x-rays at sometime between 9 and 5 p.m. on May 14th anyway.

School Flashes

Ronald Laverne Lacelle Moore was born in Edmonton on June 30, 1928. His great ambition is to be a geologist. Since he has had the opportunity of residing in the fair city he has been able to participate actively in school sports. He also likes to dance. His outstanding characteristic and high standing in school makes him an inspiration to all. He dislikes square dancing but as far as we know he likes nearly everything else.

* * *

On Wednesday evening a good time was had by all at the party held in the hall. Several interesting games were shown, after which dancing was enjoyed. We were glad to see so many participating in the dancing.

* * *

Ball is in full swing now. Every enthusiast is seen playing the game at noon when the weather is good.

* * *

A mass meeting was held on Tuesday to discuss the great party which we had Wednesday evening.

* * *

Students are busy this week writing essays on whether we favor Standard Time or Daylight Saving Time. What a controversy.

* * *

Thought for this week:
"I can't" is the byword of the fellow who seldom does.

* * *

The school sitting was taken from Admiral to that we do not know how it is.

TWO GREAT CHICK STARTERS

NORTH WEST CHICK STARTER

There is no other chick starter on the market like North West Starter. It contains VITABLEND which insures that there are 2700 units of Vitamin A, 300 units of Vitamin D, 2000 units of Vitamin G, as well as correct proportions of B1 and B2. It is an 18 per cent protein starter that will give you confidence in the health and growth that every poultryman delights to see in his flock. The amount of starter is popular for each chick is so small that you cannot afford to feed anything but the best. There is no better chick starter than North West.

BIG CHIEF CHICK STARTER

Big Chief Chick Starter is an 18 per cent protein starter. It is a lower priced product and is equal in quality to other lower priced Chick Starters. It contains fish meal, meat meal, and liver oil, Riboflavin, milk powder, selected cereals, and mineral crude. When you buy Big Chief Starter you get a superior product for somewhat less cost. It is especially useful for those raising broilers and market poultry where the pens are brooders in quick growth.

REMEMBER IT TAKES ONLY TWO POUNDS OF CHICK STARTER TO FEED A CHICK FOR SIX WEEKS

Radiograms

OUR THANKS TO YOU!

The radio industry was only two years old when CJCA sent the first signal through the airways. Celebrating our 25th birthday is a milestone shared only by two radio stations in the continent.

Since that memorable day CJCA has established a enviable reputation for popularity, effectiveness and public service.

The power increase is another step to keep abreast with the tremendous consumer growth of this area—a happy situation with which the management and staff of CJCA are proud to be associated.

Canadian Co. Conducts Weed Control Test in California

Discoveries made during the 1945 growing season indicated the urgent necessity for further experimental work to gain all possible knowledge of chemical weed control before embarking on the 1947 program. To ensure the securing of every member of Western Canada to conduct these experiments would mean a year's delay before the practical application could be adapted to Western Canadian conditions. To avoid this loss of time National Grain Company Ltd., dispatched chemicals and spray rigs to the Sacramento Valley in California and conducted a series of tests in February.

These tests involved the use of several chemicals and the method of application with particular reference to the most desirable strength of the solutions applied, and the most effective means of applying with due regard to Western Canada conditions. As a result of these experiments it is hoped that it will be possible to put into practice early in 1947 methods found most desirable in these early experiments. While no definite statement can be made for another season, the results indicate that equipment now in use can be adapted to the new and improved methods with only a modest expense.

As soon as the results are determined they will be made available to all producers in order that the most efficient methods of weed eradication may be adopted in the 1947 program. Practitioners with report in the final results would be unwise at this time, but it seems safely certain that correctly scientific weed control can be obtained using a much smaller volume of water than has been recommended to date.

« Recipes for Milady »

It is with a happy smile that housewives accept a visitor who come back into their menus more and better cream. For several years, due to war conditions, use of heavier creams has been prohibited as a means of conserving the butter-fat for butter production. Butter is an indispensable item of both war and peace-time menus.

Cream is pure fat, but rather than part of milk which contains the most fat. It is usually sold according to the percentage of fat it contains. The kinds of cream commonly sold on the market are cereal cream, coffee or table cream, and whipping cream.

The home economists of the Consumer Section, Dominion Department of Agriculture say that there are several factors which influence the successful whipping of cream such as age, temperature and richness. Cream for whipping should contain about 30 per cent butter-fat and should be from 12 to 24 hours old. It will whip more easily if thoroughly chilled to below 40 degrees F. Do not whip for too long a time, otherwise the fat globules may collect and form butter. Cream should at least double its bulk when whipped.

The fat contained in cream is in an easily digested form and therefore may be used to add richness and flavor to the normal diet, as well as that of the invalid or convalescent.

Whipped cream may be used as a garnish or as one of the ingredients in fruit or jelley desserts, ice creams and sauces. When freezing ice cream or sherbet in a mechanical refrigerator it is necessary to temperature six hour to minutes to give a smooth, velvety texture. The machine must frequently be used for this purpose if whipped cream. Always freeze ice cream and sherbets with the lowest temperature control set at the coldest point.

COFFEE TAPIOCA FLUFF

4 tablespoons fine tapioca
½ teaspoon salt
1/3 cup seedless raisins
2 cups coffee
1 teaspoon vanilla
1 cup whipping cream

Cook tapioca, salt and raisins with coffee in top of double boiler until tapioca is clear—about 15 minutes. Stir frequently. Add sugar and vanilla. Chill. Whip cream and fold into mixture. Pile into serving glasses and chill thoroughly. Six servings.

MAPLE BISQUE

1 tablespoon granulated gelatine
2 tablespoons cold water
2 egg yolks
½ cup maple syrup
1½ cups whipping cream
½ cup walnuts chopped

Soak gelatine in cold water. Beat egg yolks into maple syrup and cook in top of double boiler until mixture thickens. Add gelatine and stir until dissolved. Chill mixture until partially set and fold in whipped cream and nuts. Turn into serving glasses and chill thoroughly.

MOULDED FRUIT CREAM

1 tablespoon granulated gelatine
½ cup cold water
1 cup fruit syrup
½ cup sugar
1 cup mixed fruit, diced
1 tablespoon lemon juice
1 cup whipping cream

Soak gelatine in cold water. Bring fruit syrup to boiling point, add sugar and cook potatoes. Stir until dissolved. Cool. When mixture is partially set, add lemon juice and diced fruit. Fold in whipped cream and turn into a moistened mould. Chill thoroughly before serving. Six servings.

Pen-View Fodder

With the increase of pen cookery in Australia, pen vines are gaining popularity as a stand-by food, says the Australian News. Two bales of pen vine fodder were exhibited at the Sydney Show Grand Champion Royal sheep, the fodder containing about 12 per cent protein. This is twice as much, says the News, as in oats or wheat hay, and only 3 per cent less than in alfalfa.

British Women to Fly With Airforce

Ranking new careers for women are forecast in a statement made in the United Kingdom House of Commons on Monday by the Air Minister, Mr. Philip Noel-Baker. For the first time their will be enrolled in the Royal Air Force in a non-combatant capacity as pilots, navigators, radio officers and flight engineers. This revolutionary advance is part of a plan to integrate the Women's Auxiliary Air Force permanently into the R.A.F. for service at home and abroad. The R.A.F. Reserve Organization will also have a woman's flying branch in which they will fly their own planes in their own squadrons. Recruits will be mainly women who already hold pilot licenses, and those who flew in the ferry pool of the Air Transport Auxiliary during the war.

Q. I am 20 pounds over weight and wish to reduce. What foods had I best cut down on? A. I presume by cutting three good meals a day with a glass of milk with each one!

A First of all do away with the milk at meals. The fats, sugars and starchy foods usually are the weight-producing foods

Q. What diet would you recommend in order to reduce in weight.

A. No special diet can be recommended. Usually eating less food, especially fats and starches, and, of hours, eating the leafy vegetables will be satisfactory

Q. Are carefully graduated sun baths now regarded as beneficial in cases of pulmonary tuberculosis?

A Sun baths probably have no direct influence on the pulmonary tuberculosis, but by benefiting the general condition of the patient, if properly taken under the guidance of a physician, indirect benefit after results.

Will You Pay This Price for Bread?

Food has become an ideological weapon. In many nations men have sold their freedom for bread. Because their economic ground food they have conquered them which their hearts and minds rejected. The power to withhold or supply food has become a mainstay of totalitarian government.

Millions of bewildered men and women ask why in the era of greatest productivity in man's history there can be such famine and want. The answer is that man's first material need is being used to enslave him. Food and greed have led to starvation and waste through the centuries, but today their exploitation and waste through the centuries, but today their exploitation by organized force has vastly increased famine and overwhelmed man.

This state of affairs neither man wants, nor God intended. Frank Buchman has said, "When men and nations learn to care enough and share enough, everyone will have enough." Wherever that truth has been allowed to operate, the abundance of God's economy has been proved.

Farmers who have put care of their land before profits have earned both profits for themselves and plenty for their country. Manufacturers who have worked for the proper feeding of the public have prospered and set a new pattern for industry. Retailers who have fought for honesty and just distribution, have gained the gratitude of their community. Families of every clime in many lands who have put loyalty to God and care for their neighbors first have found their own needs met and enough for generous hospitality.

Food in the next few years can be the means of setting neighbor against neighbor, class against class, nation against nation to the violent end of civilization. Or it can be means of forging lasting links of caring and gratitude between neighbors and nations.

The real choice before us is not simply of the price of slavery as against freedom at the price of famine. It is between the materialist economy of scarcity inspired by the spirit of "gimme" and God's economy of abundance inspired by the spirit of "give".

From 1935 to 1937 average Canadian wheat production was 247 million bus. From 1938 to 1946 the average production was 470 million bushels.

Love Canada First

By R. J. MEACHEAM

Is there a national point of view—Is it ever presented?

What do I mean by a national point of view? One which considers the country as a whole.

The general interest is the basis of prosperity. Prosperous individuals result from prosperous nations. The national economy is on a par with the individual's economy.

World of Wheat

By R. G. L. STRANGE

Director "The Crop Testing Plan"

Quite a lot of interest has been aroused by a new method of sun-sterilizing that has been practised in the present season by a number of farmers in west-central Saskatchewan.

It appears that a farmer several years ago, probably by accident, neglected to summerfallow his land, and so a heavy growth of weed plants covered much of it to seed. Early the next spring the farmer burned off the area of weeds and covered the land to wheat, probably not expecting to get much crop. To his astonishment he had quite as good a crop as his neighbor and his field apparently had fewer weed plants. Other farmers noticing this have practised this method and report good results.

The Dominion Experimental Farm at Scott took note of this and, being always alert for new things, laid down some plots for study. The results gave them enough justification to carry on with their experimental work.

More information is needed about this new method, if it really is worth while save the cost of summerfallowing. At present some soil-blowing in some districts. These farmers who are to try this new method of summerfallowing on a small field should write to Mr. G. D. Matthews, Superintendent, Dominion Experimental Farm at Scott, and tell him about their results.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The United States Government is now making plans to allot foreign shortages some 500,000,000 bushels of wheat from this year's crop—feeding of spring wheat has been reported from scattered points in Western Canada, but it will be from one to two weeks before seeding becomes general.

The world corn crop for 1946-47 is estimated at 5.4 billion bushels, the largest crop ever produced, record out turn in the United States of 3.2 billion bushels was 49 per cent of the world's production—Mexico and Canada also had above average crops, while Europe and the Soviet Union crops were considerably below average.

Take the case of electromagnetism, it has been under discussion in the last few weeks. The farmers of Canada have been low tariffs advocates with the best of them but farmers and tariffs. Yet, here they are in favor, not only of tariffs on imports but prohibition of imports that which competes against them!

I was in town a few years ago, when the discussion on the tariff was at its sharpest. A college professor had made an investigation of the subject and published a report suggesting abolition of restrictions. He could see no danger to the dairy industry in this program. The farmers had been fired. A bright young chap with whom I discussed the issue told me that the farmers and their butter at good prices, brought "class" for their own consumption. "They mean," he said, "security in favor of guaranteeing the butter industry from fortunately rights to fortunately men. On farmers' tables they brought their "class" and they wanted it at the lowest possible price."

The farmers, of course, are not an exception to the general rule. Labor has precisely the same code. Labor wants security in everything but wage rates. Only recently one of the leaders came out with the statement that if prices were going up labor would demand higher wage rates, a warning to farmers and others that labor would not be in favor of lower wages, nothing else contented. Yet common sense should tell them that, in Canada, a prosperous agriculture is the surest basis for full employment of labor.

I am satisfied a guess that 90 per cent of those who do not own homes and so must pay rent want the ownership of their own. Why? It means lower rents. They are not in the slightest interested in the landlord, to them he is Shylock, the villain in the piece. How are we going to have more homes if prices of all other commodities are to be driven half down? Has anybody asked that question? If so, I have not heard the answer. Some think new homes will be built cheaper. This means that they would endure pay rent to the government, and pay taxes to the landlord in rent. That they must pay, in some form is self evident.

When I was a boy my livelihood was that of a farmer. I was content to stick to land in the sand belief that because it is land we are to stand by it. Farmers have better now, men in the only calling of which does that. Of course, like the others, I am not sure of my ground, but I am quite certain that the countenance of the pre-

LETTERS TO THE EDITOR

April 29, 1947.

Dear Sir:

Now that those who voted for protracted milk have got it, I hope they are satisfied with it; many of us are "dissatisfied" but

Every day I hear of people complain that it does not taste like real milk and that it does not agree with them. As nobody is permitted to sell milk, even if he has a cow or two and cannot carry over it all, we are all forced to use this pasteurized stuff and fetch the bottles to the depot on wait.

This is regimentation.

So called "Whipping Cream" costs a dollar a quart, and the top of your milk bottle has come the half pint. It is worse than poor cream it would cost ten times as much or four dollars a quart

This is extortion Here what we are going to do about it?

Yours, E. D. van Iffland

Editor:

GRATITUDE

"And friends and guests hearts". kindly allow me to express my gratitude for the kindness and comfort and support with which I have been favored for 25 years. For it is poor satisfaction to serve without the knowledge of fellow workers, and stow their graves with flowers. If you will kindly insert this notification and request at the end of my life, you can do it just as well, as fast better, without flowers, by sending subscriptions to the Salvation Army for the benefit of children, including the bad boy who gets the knots of the palms.

One bad boy is worth 10 dead ones. I am same one and boy, so bad that he was expelled from six Ontario high school. He was born 50 feet north of the line of 49 parallel and 50 feet west of the line of 100 degrees west longitude. He was one of the greatest friends of humanity who ever lived, and he starved in Canada, the U.S.A. and Britain. He had a spirit of benevolence, with an God's money, outstanding to his fellows, from their birth and before, to the end of their lives, even the lives of those over 90 years or to 100, as that of his mostly mother's. He was known throughout the civilized world as "Dr. William Barnardo".

With he insensibility of an outsider, I can assure you that all my contributions to the Salvation Army will be used to good advantage for the benefit of suffering humanity.

The may be read by many in Ontario, Alberta and British Columbia with who I have no acquaintance, but by none who are out of touch with childre'n, nor out of touch of the Salvation Army.

Children are our greatest wealth, the glory and strength of the nation.

John Galloway,
Bremner, Alberta.

Letters to the Editor

Writing of housing, isn't it surprising hazy little we know? Here a month has the cost of housing risen since 1939? If we had the total we might get a breakdown of the division. Suppose we ask a simple question. Here is a house which could, in 1939, be built for $6,000. How much would have to be paid for the building of it today? Strange isn't it how, in these things to which we are so accustomed, we know so little!

I come back to my question: Is there a national point of view? In making a decision does the average man, or woman, consider the effect of this contract upon the nation as a whole? Should it be better if he did? The answer is obvious. I believe it with my soul. SAS' over the years we have made considered proposals, at times, of the material kind—it might be grimmest of it, considering our own interests, to struggle, at times, against the inertia of nations upon the lines of others.

To us, who values everything by dollars needs plenty if change.

AUCTION SALE
OF
53 HEAD DAIRY CATTLE
THE PROPERTY OF
JOHN WILLIAMS
As Mr. Williams is quitting the dairy business on account of his health, he has instructed us to sell by Public Auction on Sec. 36, Tp. 51, Rge. 23, W4th M., 2½ miles East of Railway Store on Vegreville Lake Highway, or 13 miles South East of Post Office at South Edmonton.
TUES., MAY 6th
SALE STARTS IMMEDIATELY AFTER LUNCH
53 HEAD OF DAIRY CATTLE, including 13 Calves; 4 Heifers, rising 2 years old, bred; 6 Heifers, 2 years old, bred, to freshen in the fall; 30 head of Milking Cows.
This herd has been inspected by the Anniversary, and we consider it to be one of the best herds of dairy cattle offered for sale for some considerable time. Nearly all these cattle have been raised by Mr. Williams. He has always kept purebred bulls and has raised his own herd bull. These cattle are all young dispersal lines and will be fresh by time of sale, some have been fresh a few weeks, and some will freshen later on. Any dairy man looking for an addition to his herd will do well to attend this sale.
MILK AVERAGE—Mr. Williams has a 365th Average of 386-lbs. milk, which is for sale privately.
MACHINERY stacks of Alfalfa; 1 stack of Timothy.
BUILDINGS A 700 CEMENT—Sufficient lumber to build a barn 34 by 100 ft. This lumber has been dry piled for one year, 250 sacks of Cement; A quantity of Shingles.
DAIRY EQUIPMENT—DeLaval 3-unit Milking Machine with pipe line for 21 cows; A number of 5-gal. Milk Cans; 1 Separator; Other Dairy equipment.
Other Stock, All Goods to be Settled For on Element of Purchase.
Lunch at Noon. Bring your own Cups.

WHAT is the Horse Co-operative Marketing Ass'n?

It is owned by 14,500 farmers and ranchers in Alberta and Saskatchewan.

The organization in 1946 remitted to a bill mount of 2.5c per lb. for "A" horses. Initial payment was 2c per lb. 50c per 100 is now being paid, and 30c per 100 is being held in reserve.

Two subsidiaries now own the plants at Edmonton, Alta., and South Calgary, Sask. There is no debt.

What About 1947-

The Co-operative is now making an initial payment of 2.5c per lb. for grade A horses, f.o.b. shipping point, commencing May 1, 1947—an increase of 50c per lb. On finished No. shrink allowances on all horses. You will also participate in net proceeds of 1947.

New C.P.R. Diesel Locomotive

Road tests now being carried out by the Canadian Pacific Railway with diesel-electric locomotive 1501 if successful may revolutionize rail motive power in the Dominion. In this layout (left), the engine is having the Fareham, Que. puzzle on its first test hauling 20 loaded box cars, with engineer H. Boy (top right) at the throttle in the speaker cab, while engineer W. R. Patterson (bottom right) works at the chronograph table of the C.P.R.'s dynamometer car, only one of its type in North America. This car, designed by Canadian Pacific technicians, gives a complete picture of the performance of any locomotive through a complete system of dials and meters. Results recorded, following others, on the heavy-traffic Farnham division, 1501 will run on the level Montreal-Quebec subdivision of the Montreal-Toronto main line and on the curves and grades of the Laurentian division.

The Cracker Barrel

By Pauline Minors

OUR NATIONAL DEFENCE

The discussion on the extent, importance and implications of Canada's National Defence scheme received fresh impetus in the session to an address made in England by a former Prime Minister of Canada, now Viscount Bennett. Because of its geographical and trade position, Canada's defense problems (and many of her other problems) are unique in the world and our actions must be based on realities rather than theories. Perhaps this is why it is difficult to have an approach to considered opinion on any phase of our military or defense policies.

There are three main schools of thought on the question with the lines of division not always clearly drawn. The two extremes are: 1. those who believe that we should do our utmost to contribute to British Commonwealth connections in order that the empire shall speak and act as a unit in International Affairs and defense. This seems to be the policy advocated by Mr. Bennett. 2. those who believe that we should act in those matters entirely as a North American nation regardless of the position this would place us in with respect to our large and powerful neighbor, the United States.

Probably only a small minority take these clearcut extremes but a larger number are inclined toward them. The third school of thought is composed of those with both extreme positions. Is there a truly Canadian position emerging, on which our people can unite? Is the question in many minds concerning this complicated problem.

* * *

A CANADIAN POLICY?

There are some obstacles to clear thinking on the question. Communists and left wing nonsolicits see the threat of a war with Russia in every consideration of any defense road for Canada and particularly when it involves our northern boundaries. Believers in the value of British imperialism see a threat to the empire every time Canada and the United States find a basis to cooperate for mutual defence. Both groups are indoctrinate victims of "Matters to the editor" but it is safe to say that neither represent real Canadian opinion. There was some surprise when the Socialist Minister of Agriculture followed the Communist line and attended the United States in Saskatchewan legislature.

The realities of our situation demand a defense policy primarily Canadian, which will recognize, when the interests of Canada require it, with the British Commonwealth and the United States and which will not be dominated by either. This means balance that such a policy is the objective of the great majority of our people but it is much easier to state the objective than to obtain it.

There are many signs that Canadians realize, consciously or otherwise, this problem.

* * *

OUR NATIONAL HEALTH

Four of disease and untimely death has been, perhaps the greatest menace of humanity and perhaps few realize the extent to which the need for this fear has been conquered by medical science. One by one the dread diseases such as diphtheria, smallpox and tuberculosis have been brought under control until today only one preventable disease, cancer seems to defy all efforts and has rightly become the concern of all governments.

The Federal Minister of National Health and Welfare Hon. Paul Martin dramatically outlined the extent of the problem when he showed that deaths from cancer among Canadians was more than double our losses from war in the same period. He has declared it a state of "total war" on the disease.

Horse Co-operative Assn. Hold Annual Meeting

The third annual meeting of the Horse Co-operative Marketing Association recently held at Swift Current, Saskatchewan, reported marked progress in the activities for 1946 and which is of vital interest to Western farmers.

The financial position of the association has progressed to a point where it is now out of debt. A year ago the capital debt was over half a million dollars. The position has enabled the Board of Directors to advance the net proceeds to further payments on horses shipped to the Edmonton and Swift Current Plant in 1946. The final statistics 1946 adjustment will be 2.5 cents per pound during 1947, 0.5 cents per pound will be paid on these horses. This final return to farmers, or twice the price received a year ago.

Following the annual meeting, the Board of Directors has decided to increase the initial payment to 2½ cents per pound for grade A horses, f.o.b. shipping points, commencing May 1st. Farmers, who have shipped horses to the plants prior to May 1st in 1947, will receive further payments at a later date in order to equalize the price increase. All net proceeds from plant operations will be allocated to horses shipped in 1947 on an equalized basis.

The above plans have been made possible by the improved financial position of the co-operative Farmers are urged to ship their surplus horses to the co-operative A continuity of supply in May and June will greatly assist the co-operative to improve its position further. The final success in 1947 is dependent upon farmers' support. There are many incorrect statements made at country points respecting the operations of the association Farmers, who ship horses to the co-operative will fully participate in all proceeds.

The markets for all products in 1947 are encouraging. The association through its management has now an excellent sales staff in their employ of horse

Nearly $10,000,000 Loaned Under The Farm Improvement Loans Act

During 1946, 12,000 farmers obtained loans totalling nearly $10,000,000 under the Farm Improvement Loans Act. A report covering the first full year's operation of this Act was tabled in Parliament by the Minister of Finance, Honorable Douglas Abbott.

Loans are made through the 3,100 branches of the chartered banks for the improvement and development of farms and for the improvement of living conditions on farms. The interest rate is 5 per cent simple interest per annum, and loans may be made for periods up to ten years. The legislation aims at assisting particularly the average farmer who in the past has not always been able to obtain bank credit for farm improvement purposes.

Farm improvements and farm trucks account for $7,469,347 of loans made during 1946. These loans represent an actual sales volume of approximately $12,500,000. From information available it is reasonable to assume that practically all farm implement sales in Canada requiring financing are now being financed either through loans obtainable under the Farm Improvement Loans Act or through regular bank loans. The result should be a substantial saving to the farmer, not only in the purchase price of his farm implements but also in finance charges and interest rates previously prevailing for this type of financing.

Included in the total are loans to 1,000 farmers to clear and break an estimated 50,000 acres of new land, mostly in the pioneer sections of western Canada. Loans for foundations and breaking totalled accounted for 326 loans totalling $787,347.

One of the most important classes of loans is that for the construction, alteration and repair of farm buildings including farm dwellings and separate houses for farm help. As the supply of material and labor becomes more adequate, it is expected that loans for these purposes will be greatly augmented.

As shown in the following table, the Act has been particularly successful in the three Prairie Provinces, Manitoba, Saskatchewan, and Alberta:

	No.	Amount
Alberta	4,709	$4,688,115
Saskatchewan	4,076	3,140,157
Manitoba	1,926	1,597,550
Ontario	1,048	1,203,371
British Columbia	227	343,794
Quebec	202	146,699
Nova Scotia	70	58,617
New Brunswick	31	34,841
Prince Edward Is.	3	4,000
Total	12,292	$9,999,505

An acute shortage of beef will probably develop across Canada for the next 2 months, according to E. J. Dinning, president of P. Burns and Company, meat packers. The cause is the necessity of moving many cattle onto pastures after a severe winter.

Canada's Textile Industry is not generally regarded as being anything very exciting. It is true that its annual peace-time years sensibe but all other industries in employment and wages paid. But that means we are just a part of regular daily living in Canada. It makes us about as exciting as a kitchen table.

DURING THE WAR, Canada's hundreds of textile plants turned out millions of yards of urgently-needed supplies. Today we are working hard to catch up with the heavy and pressing civilian demands of the post-war. We provide thousands of jobs to Canadian citizens at new high wage levels. True, these facets do not seem exciting but it is nice to know that we have a place in Canada's way of living. A kitchen table may not be exciting but it is important to the household.

The Merry Islanders

Here they are at last ... The Merry Islanders, famous Ukrainian-Canadian dance band, as it is the extreme right, and Chester Chamberlain ... and guitar (at the extreme left). Others in the picture are Joe Tymchuk, clarinetist, and announcer, Warren Horne, drummer, Margaret Osborne, violinist, Julius Nelson tenor vocal, and John Doyle, pianist.

Springtime is Clean-up Paint-up Time

Yes, it's been a long hard winter —long for all Canadians and hard for our property which has had to [illegible] months of rain, snow, rain, hail, sleet and snow. With spring in command of the weather situation at last, we would do well to think about giving a brush with paint and repairs, to the buildings which stood us in such good stead all winter.

The ravages which winter weather brings to buildings can be seen on all sides. On exterior surface bare wood is showing, iron is rusting and masonry is chipping off. Interior walls have become soiled and smeared. Floors have become shabby, especially where traffic has been heavy. Putty on windows and doors has shrunk so that they no longer can do their proper job.

In other words, spring is here—and springtime means clean-up, paint-up, fix-up time.

Before any painting is done, all necessary carpentry, masonry and other work should be attended to. Loose boards should be securely fastened, badly split or rotted lumber replaced, mortar joints pointed, loose chimney bricks cemented, corroded gutters and downspouts replaced, shingles installed where needed, roof coatings and where necessary, windows and doors caulked, new window panes substituted for broken ones; all these preliminary jobs should be done.

Next, surfaces must be properly prepared. All loose paint and all foreign material must be removed. Loose paint may be removed with a scraper or wire brush. Scrubbing with a cleaning solution may be necessary for the removal of mold and grease.

Where old paint is rather thick, as under eaves and at other places not reached by the sun, rain and dew, future trouble may be avoided by its complete removal, or at least by cutting it down with sandpaper. This treatment also improves the adhesion of the new coat of paint.

Many hinges, screws, nuts, bolts and other metal articles need loose paint, rust and scale removed with a wire brush or scraper. Holes over countersunk nails should be filled with putty. When finishing wood surfaces two thinned and flowed coats are better than one heavy coat.

If the wear and tear on a floor finish has been quite general but not very severe, cleaning with paint thinner and simple refinishing will probably be satisfactory.

"Empties" Still Eluding Capture

Authorities at Deliveries Limited, agents for the Brewing Industry, said today that the co-operating of many thousands is essential to the success of their search for E. H. Bottles who escaped from work recently.

The recapture of E. H. Bottles, alias "Empties", is imperative, if the brewing industry is to maintain its normal output.

Anxious to assist in the search for "Empties" to every part of Alberta, authorities at Deliveries Limited said anyone approaching "Empties" for payment on the re-possession of empty bottles, will receive same cured from rural customers. Freight charges will be paid by Deliveries Limited, so be sure to Ship "Freight Collect".

A reward of 20 cents per dozen is offered the person or persons responsible for the capture of Bottles. Rewards will be paid by return mail, or may be used by Deliveries Limited that Bottles into custody.

A.M.A. to Issue Road Maps

More than 100,000 "strip" or sectional road maps will be issued shortly by the Alberta Motor Association. Now that Alberta is preparing for a big post-war year, with the biggest road building program in its history in sight, the demand for these maps will

The A.M.A. has followed the policy of providing sectional maps that are of great value to motorists. They are checked with the public works department in order that the latest official information is given as to road mileages, type of road surfacing and other data.

However, in many cases, traffic has been concentrated in several centered areas, the finish has been worn away entirely, and the wood itself damaged. Refinishing will result in a non-uniform appearance. The best procedure is to use a sanding machine to remove all of the old finish and eliminate the scarred wood.

FULLER BRUSHES will light up your household duties! Write for free catalog.

WHY JUVENILE ASSURANCE?

The value of insuring your child's life with the Sun Life of Canada is illustrated by the following provisions of the new Sun Life Junior Adjustable Assurance.

- The child receives the advantage of low-cost insurance for the remainder of his life.
- You are protected against expenses of child's death before age 21 by a death benefit in keeping with the amount of protection annually required at younger ages.
- At 21, each $1,000 of child's assurance automatically becomes $1,000 Ordinary Life (Endowment or Limited Payment Life plans may be selected if preferred) without medical examination or increase in premium.

MAIL THIS COUPON TODAY

S. S. Sanderson, 220 Empire Bldg., Edmonton, Alta.

SOFT LIGHTS

Members of the fair sex, (and nobody will know with whom you're dancing) agree with those that these soft overhead lights which "do so much" for the ladies, are quite unflattering for the normal individual, to prevent eyestrain.

Health authorities do advise, however, that lighting of the ball-room should be sufficient to allow dancers to see their partners clearly.

Many dance halls are now using daylight bulbs in their overhead lights which "do so much" for the ladies, are quite unflattering for the normal individual, to prevent eyestrain.

Health authorities do advise, however, that lighting of the ball-room should be sufficient to allow dancers to see their partners clearly.

Bach Festival

On Sunday April 6, the CBC began a "Festival" series of five one-hour broadcasts of the music of the "father of music" Johann Sebastian Bach. The series originates in Vancouver, and will continue in April and early May. Here are three of the prominent musicians taking part: Left to right — Dorothy Keith, choral conductor; Norma Abernethy, pianist; and Hugh Bancroft formerly of Winnipeg, choral conductor and organist.

Alberta Wheat Pool to Help Farm Young People

In order that the educational facilities in the University of Alberta may be made available to a wider circle of talented farm young people, the Alberta Wheat Pool is assisting in the extension of 50 farm boys or girls at the Short Courses for Farm Young People to be held at the university from June 30th to 12th.

Applications may be secured from each of the 55 even numbered Wheat Pool sub districts.

Any bona fide resident of the United Farmers of Alberta, Alberta Farmers' Union, or any farm co-operative or other farmer organization which may be approved of by the board of directors of the Alberta Pool, may nominate one farm boy or girl between the ages of 16 and 27 inclusive.

Nominations must reach the head office of the Alberta Wheat Pool in Calgary not later than 5 p.m., May 1, 1947. The Alberta Wheat Pool will pay fifty dollars a year of each of the 55 selected candidates and $10 towards the cost of each student's board and room at the university during the course.

In case more than one nomination is received, a draw will be made by some disinterested person.

Any students interested should consult their local Alberta Pool Elevator agent.

Those who want for a better society to produce better men will never become the better men who can produce a better society.

SEND IN THE NEWS!

Barley Contest to close Sunday, June 15

With duration of the Brooming and Milling Industries to continue for four years, Barrows Barley Competition will continue. Contestants are preparing for a big increase in this year.

Entries will close June 15th. As was the case last year, intending contestants will mail their entries to E. Greenway, the Provincial Commissioner of Agriculture, Regina, Sask., or to S. H. Vigor, Field Crops Commissioner, Dept. of Agriculture, Regina, Alberta, A. M. Wilson, Field Crops Commissioner, Dept. of Agriculture, Edmonton.

Subject to slight change, rules and regulations of the contest are the same as in 1946. Printed copies are already available from elevator operators at all country points in the three Western provinces or from local Agricultural representatives.

8. Cooking Lake

Jos Bidoul, conductor of our new-born harmonic orchestra, which is giving daily performances at the new hall, reports that the vocalists, noted in last week's edition of the Record, for professional and amateur artists, are still open.

The hall is hastily covering up its melodious ear though it were intended to be dressed for its first happy birthday—opening night, soon to be advertised. Rumor has it, however, that another happy event is dated for the same evening—a wedding dance to celebrate the marriage of—well, we are not definitely certain which of two, prospective couples have consigned this ball, to make opening night a double happy occasion. We hope to have more definite news later.

Franklin School has a softball team this year that is "quite for a height, as it is", 21 has been greatly strengthened by the arrival of three pupils from Leamo, Vista:—the Kosh children: Walter, a good pitcher and all-round player of excellence; Wanda and Tommy, both quite good either batting or fielding. Note this, you teams of Fultonvale, Douglas, Mirvish, Leamo, Vista and Sherry Creek! Note this carefully and prepare to meet your—deserts!

Other new arrivals at Franklin School reported last week—Mr. and Mrs. Rinaldini! They have taken a cozy little home to enliven established a home and set up housekeeping in a true au cleo style.

Around the Town

Miss Ghersons Davies, who completed her course in pharmacy at the University of Alberta this spring, has accepted a position with the Merrick Drug Store.

Dennie Lepage, who has been working in Prince George, B.C. for the past few months returned to the Fort last Monday. He plans to make his home here.

Alfred Lorey left last week for Yellowknife where he has accepted a position for the summer months.

Mrs. T. E. H. Patteson and son Brian are visiting their parents Mr. and Mrs. — Iffland.

A U.F.W.A. luncheon was held at the Corona Hotel last week, followed by a meeting to plan the annual conference to be held in Edmonton early in June.

About forty ladies were present. Those from the Fort were Mesdames C. P. Bradshaw, R. M. Bacon, George Williams, H. L. Stetson, Chas. Galloway, A. Geymer and —.

Dick Bacon Jr. who has been employed in the Edmonton Electric Welding Shop for the past two months, has returned to the farm to put in the crop.

Mr. and Mrs. Arthur Galloway have moved into a suite in the Percy Williams house.

The regular monthly meeting of the W.I. will be held at the home of Mrs. D. Gelshenen, Wednesday, May 14 at 2 p.m.

A cordial invitation is extended to all, especially to former members who will be the guests of honor.

"Members, please remember to bring your housewife or small bag containing housewife articles."

In Junior Baseball games played in the past week the Town Team took the Junior High School into camp by a score of 12 to 6 on Tuesday night.

Last Sunday afternoon Joseph-burg Juniors suffered defeat at the hand of the Fort High School Team.

HAIR FOR THE HEADLESS

A consignment of seven head of Canadian pure bred, registered Southdown rams recently shipped to New Zealand. On arrival there, the rams were sold by auction at an average price of about $200.

Fort and Gibbons Showings of Operetta "Jeanie" Highly Successful

On Tuesday and Wednesday evening of this week, residents of Fort Saskatchewan and district had the opportunity to see and hear the operetta "Jeanie" presented by St. George's Parish.

The operetta was presented to a full house at Gibbons last Saturday evening.

This is the first operetta that has been presented here for a number of years and from the many comments heard was greatly appreciated.

In order to preserve the Anglican Church, considerable repairs will have to be done, and it is hoped to start on these in the near future. All proceeds from the operetta will be put into the Building and Repair Fund to be used for this purpose.

Following the Wednesday evening performance the entire cast went to the home of Mr and Mrs. J. A Dawson and a very enjoyable time was had by all.

Members of the cast are as follows: Betty Beggs, W. W. Buxton, Ted Paradis, Donald Webb, Tom Holt, Frances Knowles, Mrs. J. A Dawson, Bill Oliver, Ronald Mann, Mrs. H. Brunton, Dick Mager

Ladies of the Chorus: Marion Parker, Helen Kray, Maureen Stannard, Jean Wiebe, Robin Oliver Meadames. H de Rouw, T Holt, J. Allsbrook, R. Mager, H Wensley, J. Jenkins, R. Webb, R Wentworth. W. W Buxton, H Oxley

Gentlemen of the Chorus. B Knowles, B. Stannard, G. Paradis, F. Paradis, R. Wentworth, L. Bradshaw, H. Taylor, E Palmer.

Musical Director, Mrs. C. P. Bradshaw; Pianist, Mrs C. D Jessel; Dancing Director, Mrs. R. —.

Flashes is extended to all who helped make this a success and special thanks is extended to Bob Robinson for the excellent work he did to painting the scenery.

An invitation has been issued by St. Peter's Parish to present the operetta at Westmount Community Hall on Wednesday, May 14th and on May 16th the show will be staged at Ben Accord.

West Elk Island

The winter's activities were neatly wound up last week with a very successful Whist Drive, held at Mannfield Schoo.

Spring sports are beginning to take shape, but the chief activity in the community at the moment is ploughing and seeding.

Mr. Wm. Ashton has been very ill at Lamont Hospital, but is reported to be improving satisfactorily.

Mr. W. Werner left last week for Washington, U.S.A., to see his mother, who is very ill.

Treatment of Home Garden Seeds Urged

Home gardeners will find they will get a better stand of plants from the vegetable and flower seeds they sow by dusting the seeds with one of several preparations of chemical compounds for the purpose, which can be bought at any seed store, says W. H. Wright, Chief Seed Analyst, Plant Production Service, Dominion Department of Agriculture. Such dusting helps to prevent attacks of fungi or moulds that cause seeds to rot or young seedlings to die before they come up. Small packets of seeds can be easily treated by opening the corner of the packet then adding as much of the chemical dust as can be held on the point of a penknife. Close the packet and shake well. Care should be taken not to inhale any of the dust and to wash the hands with soap and water after handling the seeds.

To treat larger quantities of seeds a glass jar or other air-tight container should be used. Put enough seeds in the jar to about half fill it. Then add the required amount of dust, close the container tightly, shake and turn for about two minutes. Screen or sift off the extra dust and the seeds are ready to plant.

Chemical dusts for treating seeds are sold under trade names as Arasan, Semesan, Spergon and Cuprocide. The last show'd not be used to treat seeds of such crops as cabbage and broccoli or on lima beans. Whatever dusting compounds are used the instructions on the container should be strictly followed.

The Regular Meeting of the

Fort Community Service Club

will be held in the Community Hall

Wednesday, May 14

at 8:30 p.m.

All Members are Requested to Attend

Fire Prevention Films Shown Monday Night

A goodly number attended the Fire Prevention Pictures shown by the Fort Fire Brigade last Monday evening.

The pictures shown were "Fire Wise" which illustrated how fires in the home are started due to carelessness in burning trash on farmsteps and stoves open and forgetting about them It then showed how to prevent those fires by keeping your home free from all rubbish and cobwebs and that all stove pipes are in perfect condition.

"The Chemistry of Fire"; the second picture to be shown demonstrated how liquids and solids become liquid. Fires from those liquids and solids are caused from the vapors which rise from them when over heated.

Other pictures shown dealt with forest fires and how most of them were started due to careless campers and of the results which follow such fires.

It is claimed that many floods are due to the after effects of forest fires. Forest fires kill the growing things on the hills that normally absorb much of the rain fall, thus when the ground is left bare the rain does not sink in, but instead flows down to the valleys below.

These pictures were an education and should serve as a lesson to all, that fire, although one of man's best friends can be one of the nations worst enemies.

District Youth Awarded Scholarship

Word was received by Ronald Galloway last week that he had been awarded the Boys' Experimental Union Scholarship of $50.00 from the Olds School of Agriculture for making the best use of his educational opportunities and also contributing to the athletic, social and literary life of the —.

Ronald also won first prize in the Calf Judging Contest at the Junior Calf Club Show.

Fultonvale

The district extends sympathy to the family of Mr. Fred Williams who died in Edmonton in April. Fred will be greatly missed by his many friends.

The Goodwill Club meet at the home of Mrs. Ralph Lyne, May 16th. Everybody welcome.

We wish Mrs. Sommers and Mrs. L. Holland speedy recovery from their recent illnesses.

Mr. and Mrs. Goodwin and Mrs. Sommers were guests in the district last week-end. Mrs. Goodwin is convalescing after a rather serious illness.

Mrs. M. A. Mills (nee) Marjorie Turnbull, is the proud mother of a baby girl, Eleanor Gail, Mr. and Mrs. Mills reside in South Edmonton.

Mr. Zilke has returned from the coast and reposts his preference for our climate.

Mr. and Mrs. Clarence Dreher have returned after three months in the city.

Mr. Bill Thomson has bought the green coupe from Mr. Porter. Good luck with the new car Bill.

Mrs. Geary entertained her family at a reunion, the occasion being the birthdays of Lester and Chester.

Miss Mabel Geary was a weekend guest at her home. Miss Geary teaches in the University hospital and we enjoyed her company over the week-end.

Uneas

The dance sponsored by E. Heaney and L. R. Fletcher on Friday, May 2, in aid of the Annual Uneas School Picnic was well attended. After expenses were paid, $82.82 was turned over to the school board. Mr. T. L. Amiel won the raffle.

Many thanks go to those who helped to make this dance possible.

Miss G. Sperger was a week-end guest of Mr. and Mrs. R. B. Sherborne.

Fire Sunday Evening Destroys Small Shed

Small boys playing with matches were the cause of a fire which destroyed an empty shed at the rear of I. Pierce's home last Sunday evening.

Firemen responding to the alarm were quickly on the scene, but were unable to save the shed.

Josephburg

The neighborhood was shocked to learn of the death of Mrs. Nardell, wife of a grain buyer at E'k Island, who has been a resident of this locality for the past fifteen years. Mrs. Hartell had taken an active part in the affairs of the United Church of Beverly Hills. For many years now she has been in poor health, and, after consulting many of the leading physicians of Edmonton, her husband had taken her south to High River to visit her relatives for a month. We learned only recently that they had run down the cause of her illness and that she was well on the way to normal health and her family was expecting a reunion in the very near future. Suddenly came the news that she had passed away on May 1.

She leaves behind to mourn her loss, her husband and three sons. To them, the sincerest sympathy of all is extended.

Mrs. Hartell was interred at High River on May 5th.

Our Young People meet regularly twice a month in the church basement. The meeting nights are on the first Sunday and the third Wednesday of each month. On May 4 we had a good turn out with a lively discussion on the beautification of the church grounds. It is hoped that the enthusiasm will last long enough to take some of the kinks out of the worn back-breaking tasks.

Tree Planting Car To Visit Fort May 16

Residents of Fort Saskatchewan and surrounding district will have the opportunity on Friday, May 16th to hear a talk and see moving pictures on Tree Planting, Home Beautification, Fishing Adventures and Wild Life, when the Tree Planting Car of the Canadian Forestry Association visits here that day.

Arrangements will be made so that school children will have an opportunity to see the show in the afternoon. The show will start in the evening at 8 o'clock for the older folks.

Partridge Hill

Congratulations to Mr. and Mrs. Ed McKnight on the birth of a son, Wednesday, May 7 at the Royal Alex.

Mrs. Flissoff has been visiting relatives in the district for the past week and guest at the home of her sister, Mrs. George Oshal-denton, also Mr. and Mrs. Bob Meimeth and family of Edmonton were visitors at the George Oshaldenton home on Sunday.

Following the closing of the University, Vernon Oshaldenton has returned to the district for the coming summer.

Mrs. Gus Frey returned home last week from Chauvin where she has been visiting her daughter and son-in-law, Mr. and Mrs. Clarence Cranston, for two weeks.

Mrs. Warring of Edmonton representing the West-over Brush Co. held two very successful demonstration parties in the district recently.

Mrs. Frank Kulak entertained the W.A. and W.M.S. at her home last Thursday afternoon. Mrs. Hale, nee Lottie Pearce, who is an old timer of the district unexpectedly called and a pleasant half hour was spent renewing old acquaintances.

At the Junior Grain Club meeting held at the hall last Monday evening, the club reorganized with Stuart Shackleton as president and Garth Oshaldenton as secretary. The club has chosen Registered Thatcher wheat for their grain crops this year.

Mr. and Mrs. Alf Frey and family were Lamont visitors last Sunday.

Minutes of Regular Legion Meeting

The regular monthly meeting of the Fort Saskatchewan Branch No. 57 of the Canadian Legion B.E.S.L. was held in the club room on the evening of May 6th, 1947, with eleven members present.

Com'rade President Henry Lemoureux in the chair.

The meeting opened with the customary 2 minutes silence and the chairman called upon the secretary to read the minutes of the last regular monthly meeting also the executive meeting held on the 17th of April, 1947.

The minutes of the last regular monthly meeting, executive meeting and financial statement were read and adopted.

The secretary was instructed to again write the Midwest Shows asking them for a reply to our letter of the 18th of April last, stating that we want some dates around the middle of August 1947 to put on a carnival here, also a reply to our enquiry re liability in case anyone gets hurt at the said —.

A motion was moved that after being up in the club room.

The matter of the Provincial Convening of the Legion to be held in Edmonton, in June stating that we could send a delegate to this convention was tabled as no ware to make the book shelves and contract some carpenters who are members of the Branch to donate their labor in making the said book shelves.

It is moved that the monthly meetings of the Branch during the months of June, July and August be discontinued, but should occasion arise we call a general meeting to discuss such matters.

It was moved that a dance be held the first convenient day.

A general discussion then took place in regards to the purchasing of the chesterfields and floor lamps for the club room. Prices have been obtained from various firms, but it was decided to postpone the purchase of same till a later date.

It was moved that Alex Adamson's services be retained, at the same salary as last year, to take care of the Memorial Pier for 1947.

A hearty vote of thanks was given Comrade George Walsh for donating labor and material on the frame for the Charter of this Branch. The secretary stated that Comrade Walsh was making frames for the pictures of "Vimy Ridge" and "The Vanguard of Freedom," the said pictures to be arrangements had been made with

Meeting Wednesday night on one item—one girl. She wasn't lost, but we found her! Note—this was going home.

We are indebted to several of the businessmen in the Fort, who have provided us with several interesting afternoons of movies.

An interesting movie on Atomic Energy and one showing Paderewski playing the final Rhapsody Hungarely were shown last Friday.

Mr. Richardson: Doug, give me a sentence showing the meaning of "archaic".

Doug: "We can't have archaic and eat it too."

We are glad to see our president, Elwood Calloway back at last.

School Flashes

Eva Jane Fawcett was born on February 7th, 1939. Eva is fond of skating, cycling. She definitely abhors mice. Her ambition is to be a stenographer although she dreads her job of typing and eating and sleeping (who does?!). Her pet saying is "oh, pet!" Eva works hard, so we know she'll succeed.

Missing Wednesday night on one item—one girl. She wasn't lost, but we found her! Note—this was going home.

We are indebted to several of the businessmen in the Fort, who have provided us with several interesting afternoons of movies.

An interesting movie on Atomic Energy and one showing Paderewski playing the final Rhapsody Hungarely were shown last Friday.

Mr. Richardson: Doug, give me a sentence showing the meaning of "archaic".

Doug: "We can't have archaic and eat it too."

North West Growing Mash

This fine growing mash is especially prepared to promote quick even growth; strong bone and a good digestive system in the pullet.

You can count on good development here that will be profitable if you neglect the correct food for the growing pullet.

It is a great advantage to have a large variety of ingredients such as is only possible in a large feed manufacturing plant such as this, where everything of value in poultry feed is available.

It will pay you to sell your grain at present high prices and buy North West Growing Mash so as to be ready for high and steady egg production this fall and winter.

Alfalfa Hay

We still require a considerable quantity of alfalfa hay suitable for grinding. Even if you have only 3 or 4 tons left for sale, please let us know, and we will arrange for trucking, if desired.

Alfalfa for grinding must be green, dry and reasonably free of other varieties of hay.

Do not delay get in touch with us now.

Radiograms

"LISTENER IS RING."

Don Renshaw, Toronto, electrified 300 guests at CJCA's 20th anniversary dinner, when he spoke on "Your Community Station", in tribute to CJCA's 20 years of public service in Edmonton and Northern Alberta. A few quotes by Renshaw follow:

"Radio today is taken for granted but the people to radio don't take it for g need.

Radio is young in its attitude toward things and people. This makes it a great organ of service in any community where it is intimate.

Radio is personality youthful and the young men in it are not afraid to do things which have never been done before. They have a capacity for enthusiasm and a high sense of service and determination to make people like them in their homes.

Radio is a product of free enterprise and the keen competition among radio stations is a continuous challenge to the industry.

Radio has believed in itself and in the community so much that now, have invested vast sums to establish and improve it.

In free enterprise radio, the listener is king, and when he says thumbs down, radio admits itself to his wishes."

So spoke Don Renshaw, when paying tribute to CJCA. There are indeed words of wisdom, applicable to any community station.

ARTIFICIAL DAYLIGHT FOR BRITAIN'S MINES

Britain's coalminers will soon be the first in the world to work in bright daylight. Tests with fluorescent lighting proved so successful that the National Coal Board plans to install it first in selected pits in South Wales, Yorkshire and Scotland, and ultimately in all suitable mines. It is eminently practical along main haulage roads, effective in speeding up transport along the pit bottom, and, above all, it is safe. Up to now the danger of explosions has hampered the development of electric lighting in mines, but this danger has been overcome. New machines will be in use shortly in as the most up-to-date of London's underground railways.

COOKING UNDER PRESSURE

Time tells could mean that the person hoping after the cooking of the foods has to to do it under great difficulty or is hard pressed for time. But, in this case the meaning is the exact opposite. By cooking the modern way, which is in a pressure saucepan, more and more housemakers find they have extra time to themselves, besides cle-covering thus many foods, especially vegetables, have a better color and flavor with less time spent on them.

Cooking under pressure has been practiced for many years by housemakers throughout Canada. They have been able, in the canning season, to appreciate the advantages of this method, and, since the principle involved is the same in the new smaller pressure saucepans, they are ready, willing and able to use them

Time is a factor of great importance to every homemaker since there never seem to be enough hours in a day to accomplish all the tasks that fall on her shoulders. So, if this new method of cooking did nothing but shorten her time spent over the stove in the kitchen, it would then and there become a favorite. Since it also produces foods with good flavor and color, it pleases the whole family and does something towards keeping mother from tired and in good humor

There are several makes of pressure saucepans on the Canadian market. The manufacturer of each make supplies a recipe book with complete directions which should always be closely followed. Those suggested recipes should be used until the saucepan and methods are familiar. When one has thorough knowledge of the mechanics of the saucepan, then and only then personal recipes may be tried.

The home economists of the Consumer Section of the Dominion Department of Agriculture, after testing recipes suggested by the manufacturers have adapted the following recipes from their

B E S

BARBECUED SPARERIBS

2 lbs. spareribs
1½ tablespoons fat
2 cups canned tomatoes
Salt and pepper
½ teaspoon curry powder
Dash of cloves
½ teaspoon paprika
Dash of celery salt or 1 tbsp. finally chopped celery
2 tablespoons chopped onion
2 small carrots thinly sliced
1 teaspoon H.P. or Worchester.

Cut spareribs into servings. Melt fat in pressure saucepan and brown meat thoroughly on all sides. Add tomatoes, seasonings and vegetables. Follow directions given by manufacturer and cook for 15 minutes. Thicken gravy if desired. Four to six servings

B E S

BAKED BEANS

2 cups white navy beans
¼ lb. salt pork diced or smoked pork fat
2 tablespoons brown sugar
2 tablespoons molasses
½ teaspoons salt
½ teaspoon mustard
¼ cup chopped onion
2 tablespoons catsup
2½ cups water

Pick over beans and soak in water overnight. Drain and put in bottom of pressure saucepan with all the ingredients. Cook for 50 minutes. Six servings.

B E S

BRAISED STEAKS

2 lbs. cutails, cut in 2-in. pieces
¼ cup flour
¼ cup fat
1½ cups hot water
1½ cups canned tomatoes
1 teaspoon salt
¼ teaspoon pepper
1 teaspoon celery salt
4 whole onions
Piece of bay leaf
1½ cups diced carrots
½ cup chopped onion

Wipe meat, trim off excess fat and cut pieces of cutail in four. Saute in the hot fat in the pressure saucepan until well browned. Add water, tomatoes and seasonings and cook under pressure for 50 minutes. Cool pressure saucepan according to directions given by manufacturer, add vegetables and cook under pressure for 5 minutes more. Six servings.

THE INFALLIBLE ALARM

To be shown for the first time at the British Industries Fair will be a new electrical alarm clock that needs no resetting. Unlike the standard alarm which fails to go off if its owner forgets to set it, this one is 24-hour fully automatic. Once set for "revelle" it will automatically go off at that time every day until readjusted.

Keep Down Crises

It is often easier to fight and die for your country than to work and live for it. In war man's spirit rises to meet obstacles. But in peace danger hides beneath the surface. The spirit is not self-rousing. Unless, in fact, you happen to feel "victimized," your spirit does not rise in peace even during economical crisis.

Totalitarians, therefore, keep their home folk stirred to spiritual pitch by constantly painting the danger of attack by "capitalistic powers", while, to hasten the fall of capitalism in other countries, they feed into engineering a series of recurring crisis in a constant "war of nerves"

There are economic crisis, racial crisis, strikes and labor conflict, civil war (as in Greece), food, fuel and housing shortages, obstructions to long term planning and investment, and uncertainty about the future. Even when these crises are not deliberately engineered they play their part in ideological war.

We need to see the game of conquest that is going on, and to see that we can deal with it only as we rouse the human spirit to halt crises.

This can be done if we each begin to care so much for the other fellow—for employer or employee, for representatives in government, for our competitors, customers and families that our relations with them cannot be strained or broken in this way we can build a crisis-proof society secure from attack from within. Friendly, yet invulnerable, without.

Teamwork is a method of production even more productive than machines.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

CONDITIONS IN EUROPE

[illegible] in recent months [illegible] restrictions reports about whether the people of Britain and Europe were well or poorly fed, about whether Britain and other countries were rapidly reviving, or whether they were slipping further back, and about what the chances were for Canada to sell wheat and other products in Europe in the future. The Searle Grain Company, therefore, some time ago decided to send one to Britain and Europe to observe at first hand just what the conditions were.

After some seven weeks away I have now returned with many very definite impressions about what I saw and heard in those countries. For the benefit of the readers of this "World of Wheat" column, I will relate from time to time what I have seen, and I will take the liberty of making suggestions which I think should be adopted in order to help Europe once again to resume her rightful place as the greatest market for Canada's products

The most vivid and first impression I took to country of Canada is the best country in the whole world in which to be living today. Our people are far far better fed than those in Europe and the opportunities here for success, for prosperity and advancement, are miles and miles ahead of any opportunities in Britain, or in the other countries of Europe.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The United Kingdom's loss of winter wheat acreage is estimated to 770,000 acres, and it is now assumed that the harvest will be taken by a maximum of 1,700,000 acres, which with an average yield of 35 bushels per acre should produce 59,500,000 bushels of wheat.

In the Soviet Union 24,500,000 acres are under spring cultivation, some 482,000 acres more than last year—Italy recently purchased some 2,500,000 bushels of wheat, 1,450,000 bushels of barley and 882,000 bushels of oats from Turkey—The United Kingdom, according to recent reports, is attempting to purchase wheat from Russia in order to ease the country's bread ration.

Dirty Eggs Mean Loss of Profits

Many [illegible] selling nearly too many dirty eggs being delivered to some of the Registered Egg Grading Stations. One of the chief causes of dirty eggs is soiling of the eggs already in the nest by hens with wet or dirty feet. A specific recommendation is under consideration by the Canadian Department of Agriculture, that only a certain number of hens should be supplied for a given number of birds. The prevention of hens going into the nests with dirty feet can be attained by keeping the litter dry and the hens inside the poultry house on wet days.

It is a waste of time to clean very dirty eggs The use of water for cleaning tends to carry bacteria and mould into the egg and hastens spoilage The use of cleaning machines, whether on the washing or abrasive principle, is not recommended. Eggs with small spots of dirt or stain may be cleaned by using fine abrasive material, but such cleaning must be carefully applied to the spots of the shell on which the actual dirt or staining is. In a majority of cases, this type of cleaning can do a very satisfactory job on very dirty or stained eggs. In addition, any kind of cleaning to any egg tends to remove the protective coating of the shell and hasten the deterioration of egg quality The solution of the difficulty is to keep the nests, litter, and feet of the hens clean.

Another common cause of selling of eggs is dusty packing material. Sound clean, fillers, flats, and trays should always be used As soon as eggs are collected, they should be taken to a clean cool room with a temperature between 55 and 60 degrees. They should be left there in the wire collection pails (if these are used) or laid out on trays for about 12 hours to cool thoroughly Only after that time, should they be packed in shipping cases. Under no circumstances should the eggs be kept on the farm more than a week. Also more frequent marketing is desirable if the best financial returns are to be realized.

Search is Underway for E. B. Bottles

E. B. Bottles, believed hiding in cities, basements and garages became subject for intensive search by Fort Saskatchewan citizens.

Commonly known by the full name of Empty Beer Bottles, this culprit is responsible for the present shortage of bottled brewery products, and consequently a reward of 10 cents per dozen is being offered for successful apprehension.

Housewives are taking the lead in this search for E. B. Bottles, realizing that recovery will serve a three-fold purpose. It will help consumers to get more of their favorite brews again; it will provide more space in cupboards, pantries, basements and garages, and it will get badly needed bottles back on the job and enable bottlers to continue full operation.

All citizens are urged to be on the lookout for the fugitive. His favorite hunting places around the home should be thoroughly searched, and in the event of apprehension, Dalbrew Limited, Agents for Alberta Brewing Industry, should be notified.

Cash Reward Waiting

Arrangements have been made in the cities for taking possession of bottles once the place he is discovered, and attached to each bottle is a reward of 10 cents per dozen. Several cars are operating and all rural vigilantes need to do is turn "Bottles" over to one of these agents and he will be escorted collect to nearest Dalbrew Limited Depot at Camrose, Calgary, Edmonton, Lethbridge, Medicine Hat, Red Deer or Lethbridge.

LIME WOOL PRODUCED

Total wool production in Canada in 1946 amounted to 19,000,000 pounds, reduction of 600,000 pounds from the 1945 output. The reduction was attributable to a decline in short wool production which was 600,000 pounds below that of 1945.

The domestic disappearance of wool in Canada in 1946 amounted to 112.6 million pounds as against 97.2 million pounds in 1945. The large increase was due to importation of slightly over 100 million pounds (greasy basis) of wool.

Gross income from sheep and wool in 1946 amounted to $9,500,000, compared with $8,345,000 in 1945. Lifting, cash income from sales of wool in 1946 declined to $5,625,000 from the 1945 level of $5,850,000.

SUNDING THE BABY

When a baby is being given one bottle or planed out in the sun, heath authorities urge mothers to ensure that the eyes are protected.

An infant should be shielded from direct rays of the sun, they point out, until able to move about easily. The baby should be planed with the feet pointing away from the sun, so that eyebrows and upper lids screen the eyes. It is also a good idea to line the hood of a baby carriage with some dull, preferably dark material to entire protection.

W.D. QUESTION

CONDUCTED BY THE CANADIAN PUBLIC HEALTH ASSOCIATION

Q. I have a untreated pulmonary tuberculosis. I have no elevation of temperature, but do I cough or raise. I have never had a cavity. My left lung is practically clear and right shows some considerable calcification. Would you consider sun treatments or my body harmful or beneficial?

A. Those who have pulmonary tuberculosis should not take sun treatments except under medical advice and supervision of a competent physician, and this regardless of the extent and character of the disease.

Q. Is pneumonia now an established form of treatment in all sections up-to-date sanatoriums of average capacity?

A. Yes.

Britain Cleans Up After Winter Floods

Work goes on night and day to the reclamation of Britain's 21 inundated counties. Emergency control measures helped by army "crawlers" and floodlights are clearing these 600,000 acres with the utmost energy, knowing that not only are the farmers concerned threatened with ruin but that the millions of dollars being spent on their speed. Plans of the Ministry of Agriculture Crisis Committee, after consultations with technical experts, army engineers and government departments, include:—

Drying of seeds from Scotland, special Allocations of coal to the factories to ensure supplies of nitration, extra acreage payments to affected farmers, and new leases due to low yield. The army is assisting with the loan of mechanistic equipment and lighting sets to enable every possible acre of ground to be sown with maximum crops of potatoes, potatoes and suitable vegetables.

Tattooing Favored For Marking Animals

Individual marking of animals is essential in live stock registration, in scientifically controlled breeding programs, in the transfer of ownership, and in the recovery of lost or stolen animals. Various methods of identification are used in many countries, such as branding, bars and marking, but in Canada the method having the widest application is tattooing.

Among the advantages of tattooing are that a correctly tattooed animal carries the marks for its lifetime; any unauthorized attempts to alter registered tattoo marks are detectable and the cost of the tattooing outfit itself is moderate and replacement materials are readily available. A considerable proportion of animals can be successfully tattooed with specially prepared black inks or fluids. They are shaved, a clip of an animal may reduce the contrast, the symbols in many cases may be deciphered by a pen-light being held behind the tattoo.

Moreover, some breeds of sheep present a special problem in that, with increasing age, black tattoos deteriorate. The development of a green tattoo ink by the Chemistry Division, Canada Science Transition Department of Agriculture, has largely overcome this difficulty and has been shown to be satisfactory in Southdowns and Ryeberettes.

Its application to other sheep breeds and to other species is expected to give similar results Other marking methods being tested by the Biological Division of Chemistry (ink marking, millotone, and stability, and, used in conjunction with paint, marking medians for special circumstances.

For successful tattooing, one skilled operator controls chamber is cleaned with alcohol, carbon tetrachloride, gasoline, or kerosene, and wiped dry. After the ink has been applied to the tattoo needles and the tattoo made, a further quantity of the ink should be applied to the skin and thoroughly rubbed in. Tattoo needles should be kept clean and sterilized before and after tattooing

THE FORT RECORD

VOL. 39. No. 5. — FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, MAY 14, 1947 — Subscription $2.00 year, U.S. $3.00

Around the Town

The Fort High School Girls Softball Team and the Boy Scouts team are camp to the tune of 27 to 26 at Ben Accord in a friendly game played Tuesday evening.

Nobie McEachan, son of Mr. and Mrs. A. McEachan of Fort Saskatchewan, formerly barbering in Edmonton is now located with Bob Price.

Word has been received by Charlie Rang that he was successful in passing tests to join the R.C.M.P. He leaves Friday for their training school at Regina.

The United Church W.M.S. will hold their May meeting at the home of Mrs. R.B. Scott, 9 Street, Andrassan, May 20 at 8 o'clock

The subject, "The World on Our Doorstep" will be the theme for study and thought at this meeting.

Mr. and Mrs. Arthur Galloway have moved into a suite in the Fred Wilkins home.

The Ladies' Reading Club will hold a meeting at the Legion Hall, Saturday night, May 17 at 7:30 for the purpose of exchanging books.

Mrs. Jack Miles of Grande Prairie, a former Fort resident was a visitor at the home of Mr. and Mrs. Fred Robinson recently.

Rev. and Mrs. W. W. Buxton have as their guest, Mr. Buxton's cousin, Mr. Lyle Howarth of New Westminster, B.C.

Mr. and Mrs. Robert Lapage are receiving congratulations on the birth of a son, born Wednesday, May 14th at Lamont Hospital.

All United Church services led by Rev. W. D. Rose on Sunday, May 18th will be on daylight saving time. The evening service of the town congregations will be held in the Fort Community Hall because of a special feature, the showing of a film "Western Islands Are Serv". This picture, actually produced in sound and color last year at Lamont, tells the story of Dr. Archer's romantic career as a medical missionary, and of the growth of the Lamont Hospital which continues to be a source of pride to the church which sponsors it. It is expected that a number of families from the country churches will come to town to see this film, which is being shown through the courtesy of the Young Married Couples group of Knox Church, Edmonton. There is no admission charge, and all interested are welcome. The service is at 7:00 p.m.

We have some beautiful earrings, necklets, glamour dolls, "Bulova" watches and other items, L. D. Von Hagel & Co. — advt.

School Flashes

Harold Archibald Reynolds, the crow cut fan, was born at Edmonton on October 24, 1938. His ambition is to be an engineer (when school). He likes to greet people with "Howdy doodles!" His activities range from dancing, to all sorts of sports. He dislikes turnips, garlic and getting up in the morning. Likes: Brown eyed brunette bicycles and phoning girls.

Final exams have been written in several subjects—some correspondence and some options. This leaves those students free to concentrate on the more important academic subjects.

The Year Book Staff worked overtime last Thursday. We partook of a wonderful banquet at the Fort Hotel. We think we accomplished a great deal toward completing the book.

On Wednesday afternoon an interesting movie on Java and China were shown.

Elizabeth: "Hey, what's a synonym?"

Lois: "Oh that's the word you use when you don't know how to spell the other one."

Richard Turner Buried Tuesday

Funeral services were held Tuesday at 2:30 p.m. at the Fort Community Hall for Richard (Dick) Turner who passed away Saturday, May 10 at the age of 47 years, following a heart course

Dick was born and raised here and for a number of years was caddie on the baseball team. He was a veteran of World War I and a member of the Canadian Legion.

He is survived by five brothers and one sister, Reg, Peter, Carl all of Edmonton, Phillip of Spruce Grove, Ben of West Wetbham, East, England, Mrs. Ray Robinson of Edmonton.

Pall bearers were: Tom Charlton, C. R. W. Magor, Adolphus Lamoreux, H. J. Brenton, Raymond Wallis and L. Diamond.

The grave-side service was conducted by the Canadian Legion, Fort Saskatchewan Branch Park Memorial Ltd. were in charge of flowers arrangements.

The Canadian Legion wish to thank Rev. Race also Jack Brenton who played the "Last Post" and all who loaned their cars for the occasion.

Mother and Daughter Banquet Held Tuesday

Members of the First United Church CGIT held a mother and daughter banquet in the Union Hall Tuesday evening.

Alice Tree gave the address of welcome and the program following the dinner consisted of speeches, a sing-song and contest. The enjoyable evening closed with the singing of "Taps".

Ardrossan

The Ardrossan Guild held their final meeting last week at the home of Mrs. McKay. This organization was created for the purpose of war services so seems no longer necessary. The ladies have just reason to be proud of their achievements during the war years. At one time nearly 30 of our district boys were supplied with boxes and cigarettes regularly. Besides quantities of knitting and sewing done for the Red Cross and regular donations of cash to charitable institutions. All funds on hand have been turned over to the Community League and the ladies will lend their efforts in that direction now. A hearty lunch was served by the hostess at the close of the meeting.

The East Clover Bar school children walked out on Friday afternoon as a protest. They want school hours changed to daylight saving time.

The Ardrossan church was packed to the doors on Sunday for the special thingsgiving service.

The Willing Workers donated an engraved silver christening cup to the church, dedicated to the memory of Mrs. E. Jacques. This is a fitting memorial to her untiring devotion to duty during her twenty years in our midst.

A total of eight youngsters were christened and made a most impressive addition to our congregation. The children were as follows:—Dorothy Dawn, daughter of Mr. and Mrs. R. Parker; Judy Elaine, daughter of Mr. and Mrs. W. Matheson; Marylin Dianne, daughter of Mr. and Mrs. E. Lenwitt; Ian Richard, son of Mr. and Mrs. W. Carey; Brian Ross, son of Mr. and Mrs. D. Horton; Brian, son of Mr. and Mrs. N. Matheson; Robert Harry and Kenneth Dale, sons of Mr. and Mrs. M. Patton.

Rev. Johnson announced that a representative of the Cancer Society would be at church next Sunday and will speak a few words on that subject. Donations to this worthy cause will be appreciated.

Josephburg vs Gibbons	12 noon

Agricultural Service Board

A series of evening meetings, under the auspices of the Agricultural Service board, were held in school houses in the Municipal Districts of Strathcona and Sturgeon Plain during the months of December to March. The main topics discussed were tillage, fallow crops and weed control. This is a necessary account of these meetings, something you may use as a reference before needing any weedy land. If you are in any doubt as to working out a cropping system making use of the weed eradication methods outlined below, do not hesitate to call your Municipal Field Supervisor or District Agriculturist.

Tillage, it was pointed out, is necessary as a form of summary evil and is justified only where necessary for weed control. Improper tillage is responsible for most of our soil erosion and is wasteful of plant food and moisture. Deep cultivation mixes weed seed through the soil. Once mixed it will take years to grow them out. Shallow tillage to the depth of three to four inches is sufficient to provide a seed bed and if carefully done with serious tillage implements will anchor trash on the surface and prevent wind and water erosion.

Forage crops, bush grasses and legumes, were discussed at the meetings. Grasses restore fibre to the soil while legume crops increase soil fertility. The legume essence of their fleshy tap roots are valuable also for opening up tight sub-soils. Forage crops are valuable in fighting weeds and will control or eradicate most of our perennial annuals and perennials.

Alfalfa, partly because it is cut twice per season is very effective and control Hay. Last but not least properly handled forage crops are a necessity in the production of good live stock. At least one-fifth of every farm should be in forage crops if soil fertility is to be maintained.

WEED CONTROL METHODS (Annuals)

Wild Mustard, Tartary Buckwheat and Wild Oats occur rather generally over the two municipalities. These weeds have certain characteristics in common.

1.—They are intermittent in germination.

2.—They grow rapidly during the early part of the season and then compete strongly with sown crops.

3.—They can be effectively controlled by summerfallowing.

We wish to give special emphasis to pre-seeding cultivation to control annual weeds, particularly Wild Oats, Tartarian Buckwheat and Wild (Ontario) Mustard.

POST SEEDING CULTIVATION

This consists of seeding a cereal crop, preferably barley, 3½ to 4

Continued on Page Four

Attention Mr. and Mrs. Taxpayer

The new mill rate is before you, and your Council knows that you will with some explanation of the new basis of taxation desire to know.

First Taxes are now being levied on 100% of assessment instead of on 66⅔ of assessment as in previous years. This is to place and plan of taxation on a similar basis to that of the municipal school division, of which we are now a part.

Second—The enlarged school division, The Clover Bar School Division is requiring a much greater sum of money from the town of Fort Saskatchewan than has ever before been raised by this town for educational purposes. The following table gives the information concerning this expenditure and the mill rate which it necessitates

SCHOOL REQUISITION SUBMITTED BY CLOVER BAR SCHOOL DIVISION

Assessed Values Land	77,850.00
Improvements	356,420.00
Electric Power Co.	18,300.00
Total	450,570.00
At basic rate for the Division $16,275.00 plus $7,500.00 as per agreement. Total	13,775.00
To Supply the Amount	13,775.00
Plus 10% Discount Allowed for Prepayment of Taxes	1,377.00
Plus 5% for Non Collection	688.00
It is necessary to levy for	14,980.00
Which requires on total Town Assessment of $750,720.00 a levy of 19 mills	

Third From the year 1926 for a period of many years the capital assets of the town were used to reduce the annual levy on the taxpayer. One glaring example was the use of the money derived from the sale of the power plant for the purpose of reducing taxes This sum was amounted to $15,640.26 and the mill rate was thus maintained at a slightly higher level we would now have that sum plus interest and other capital accounting to approximately $30,000.00 to apply to some worthwhile municipal project

This means that our capital assets were entirely dissipated, so that now we are only taking care of necessary current expenses as by taxation The following information is now provided to show the estimated revenue and expenditures for municipal purposes, and you will note that it has been necessary to budget for a deficit to avoid making a still greater increase in taxation

ESTIMATED REVENUE FOR MUNICIPAL PURPOSES

From Tax Levy of 31 mills on 100% Assessment of $439,726.00	$ 9,213.24
From Business Tax Assessment of $19,350.00 at 10%	1,935.00
From Calgary Power Co. at 10 mills	130.50
From Power Co. $15,000.00 rate set by Act)	
From Poll Tax	376.00
From Building Permits	50.00
From Dog and Bicycle Tax	100.00
From Fines	25.00
From Skating Rink	250.00
From Cemetery Plots	50.00
Total	12,282.74
Deficit	1,421.66
	13,703.74

ESTIMATED EXPENDITURES FOR MUNICIPAL PURPOSES

GENERAL GOVERNMENT—	
Secretary-Treasurer's Salary	1,500.00
Town Police	1,000.00
Assessor's Salary or Fee	150.00
Postage, Telegrams, Telephone	225.00
Printing, Stationery, Telephone	60.00
Audit Fees $120.00; Bond, Insurance $8.00	128.00
Land Titles Office $25.00; Advertising $20.00	45.00
Elections $160.00; Association Fees $10.00	170.00
Town Improvements	1,200.00
PROTECTION TO PERSONS AND PROPERTY—	
Fire (Equipment valued at possibly $4000.00 procured from W.A.C.	1,000.00
Street Lighting	900.00
THE STREETS—	
Streets $400.00; Workmens Compensation Board $100.00	500.00
Snow Removal, including Snow Plow	70.00
Sanitary Conveniences, Sewers	50.00
Truck Expenses	200.00
PUBLIC WELFARE—	
Hospitalization, Medical Services incl. Medical Health Officer	800.00
Aged and Blind Pensions	225.00
Charitable Grants—Care of Cemetery	50.00
RECREATION AND COMMUNITY SERVICES—	
Skating Rink	200.00
DEBT CHARGES—	
Interest on Loans	50.00
Total	11,743.00

Placing this information before the taxpayer at this time is a new departure, but the members of your council feel it to be appropriate, and that it should be an annual report on the part of any council serving the town.

Plan Big Day for May 24th Sports

Considerable work is being done on the stadium enlargement and most of it will, and when finished, will be one of the best in the district. It is planned to have everything ready at the fair grounds for the big May 24 day

There will be rides and games of all kinds also races for children of all ages.

Feature race will be the three mile race for men for the Record Trophy

Following the picture show which starts at 7 p.m., there will be a dance

Plan to make a day of it at Fort Saskatchewan on May 24.

Dr. Siemens to Visit Quebec Next Week

Dr. Siemens, Medical Health Officer of Edmonton Rural Health District will be in Quebec from May 17 to 24 inclusive and therefore will not be at his office for clinic days. He will be home the following week and clinic days will be held as usual

Funeral Services for G. Williams Monday

Funeral services for Mr George Frederick Williams of 7576 111 Ave. who passed away on May 9 at his residence were held at Fowler and McGarvey's Funeral Chapel on Monday afternoon at 1:45 p.m. The Rev. W. W. Buxton officiated and interment was made in the Namao Cemetery.

The pallbearers were Messrs Jas Keilan, A. G. Kirkstone, Rory Marpole, R. T. Williams, Fred Simmonson, Art Young; members of the Lions Club. Mrs. Kinbert sang a solo, "The Old Rugged Cross." Many beautiful floral tributes were received

He leaves to mourn his loss besides his loving wife, 2 daughters, Mrs. J. Colmod, Telfield, Mrs. R. R. Davies, Ardrossan; 2 sons Charles E. Williams, Edmonton, Frederick John Williams, Fort Saskatchewan; 18 grandchildren, 2 great grandchildren, one brother Charles H Williams, Fort Saskatchewan, 3 sisters in England.

S. Cooking Lake

We are glad to announce the commencement of our summer—full Sunday School and Service of Worship at St. Mark's Church. Mr. Roy Chubb, our student minister again this year, opened the season last Sunday afternoon, only a few were present. It is expected that many more will attend next Sunday to welcome and support Roy in his work among us.

The services will be held:—
Sunday School 2:00 p.m.
Public Worship 3:30 p.m.

Roy will not be alone this year, for Mrs. Chubb will be with him in one of the "King" cottages at Sylvan Beach, where they will be centrally placed for Miss-ith, Lorena Vista, and Cooking Lake. However, it would be impossible to secure a home centrally located for all four appointments.

It is a pleasure to report that Mrs. Alexh Bloomsan has returned home from an Edmonton hospital and is now surely regaining her health and strength.

Mrs. Uglow has been visiting her daughter, Miss Amy Uglow in

Continued on Page Four

Senior Ball Team Win Practice Game

On Tuesday evening the Fort Senior and Junior Baseball teams tangled on a practice game at the fair grounds The score was 5-3 for the Seniors.

Considering the few practices held, the Junior team is shaping up well and will no doubt be displaying a good brand of ball before the season is over.

The Senior team line being shortened is getting started. If they hope to go places they will really have to dig in and attend all practices.

Mrs. Rodway, Bremner Laid to Rest Monday

Funeral services for Mrs. Etta Hannah Rodway of Bremner who passed away May 3rd at the age of 78, were held Monday afternoon at Howard and McBride Funeral Chapel.

Rev M A. Johnson officiated assisted by Rev. Berry and interment took place in the Clover Bar cemetery.

Pallbearers were five grandsons, Garnet, Neil, Reggie, Basil Marler, Frank Rodway and Alfred Vihan.

Many beautiful floral tributes were received.

Besides her loving husband she is survived by one son Robert of Bremner and one daughter Mrs. C. H Williams of Clover Bar, three brothers, Frank Flake of Beaverton Oregon, U.S.A., James and Reg of Aberdeen, S.D., U.S.A., one sister Dott Flake, Aberdeen, S.D., 10 grandchildren and 1 great grandchildren

W. I. Meeting Wed.

The members of the W.I. met at the home of Mrs Dan Gabbenhaw for their regular monthly meeting on Wednesday afternoon.

Following the business meeting Mrs Wm. Bates and Mrs. Henry Lamoureux entertained the members and friends with several duets. Mrs Donald Cameron of Edmonton rendered two solos accompanied by Mrs. Race at the piano.

Besides the many members present were a number of ladies from Edmonton who were formerly residents and members of the W.I.

Partridge Hill

At the regular club meeting held Monday evening it was decided to hold the Annual Picnic early in July. Mrs Ivor Carter, convenor of the club appointed a committee to organize a baseball game. Come on boys put Partridge Hill on the map in the baseball world.

Mr. and Mrs. Elsch Chesmore and Mr and Mrs Roland Bohr of Edmonton were Sunday visitors at the home of Mr. and Mrs. C. I. Alton.

Mr. and Mrs. W. Alton attended the sale of household effects of Mrs. W. G. Alton of Lamont Thursday afternoon. Mrs. Alton is moving to Craigmyle where she will make her future home.

Mr. and Mrs. H. T. Howard, Reds and Gilbert Lawrence and Mr. Phil Gabriel of Edmonton were visitors at the home of Mr. and Mrs. Ottewell on Sunday.

Mr. Calhoun Gordon is a patient in the University Hospital taking treatment for eye trouble. We wish him a speedy recovery.

Mrs. Ed McKnight and infant son Robert Edward arrived home Thursday from the Royal Alex Hospital.

North West Growing Mash

This fine growing mash is especially prepared to promote quick even growth: strong bone and a good digestive system in the pullet.

You cannot expect a well developed hen that will be profitable if you neglect the correct feed for the growing pullet.

It is a great advantage to have a large variety of ingredients such as is only possible in a large feed manufacturing plant such as this, where everything of value in poultry feed is available.

It will pay you to sell your grain at present high prices and buy North West Growing Mash so as to be ready for high and steady egg production this fall and winter.

EDMONTON

Alfalfa Hay

We still require a considerable quantity of alfalfa hay suitable for grinding. Even if you have only 3 or 4 tons left for sale, please let us know, and we will arrange for trucking, if desired.

Alfalfa for grinding must be green, dry and reasonably free of other varieties of hay.

Do not delay get in touch with us now.

NORTH WEST MILL & FEED CO. LIMITED

PHONE 72611

Apparently there has been severe winter killing of winter wheat, which is grown mostly in southern Alberta. Reports from this locality indicate that considerable reseeding to spring wheat will have to be done. This is the first locality winter wheat has received in a number of years. The area under winter wheat is about 120000 acres.

CANADA'S SIXTH LARGEST

Is preparation for CJCA's 20th anniversary broadcasting delights which went back to the twenties and thirties. One bit of research produced an amazing story—the tremendous growth of business in the area centering around Edmonton.

Using statistical information supplied by Sanford Evans for the years 1926 and 1946 here are some highlights:

In the two years the gross manufacturing income in CJCA's listening area has increased 218 per cent; farm income has gone up 304 per cent and retail and wholesale sales are up 325 per cent. These figures are based on a very conservative estimate and cover the major portion of Alberta, a portion of west-central Saskatchewan and a part of the Peace River Block.

In the same ten-year period Edmonton's growth has been even more impressive. The capital city's population is up 124 per cent; bank clearings have increased 284 per cent and construction is really booming, increasing from an annual outlay of less than one million to 1946 investment of more than 15 million—an increase of 1026 per cent!

All this, plus proportionate increases in most other business, makes Northern Alberta the sixth largest market in Canada—a market in which CJCA is the major sales and entertainment medium.

« Recipes for Milady »

Every ration book holder will have more sugar this year because syrups and commercially canned fruits are no longer rationed. The homemaker who does little canning of fruit will find that she may buy her supply of canned fruit and have more sugar on hand for other uses. The woman who prefers to can her own fruit will now find sugar for that purpose and perhaps supplement her regular sugar supply with syrup. Also for variety she may use some commercially canned fruits which were not plentiful in the fresh state.

Fire canning compote will become valid in May, some of which will take care of the first fruit, rhubarb. Although rhubarb is often canned without sugar, the Home Economics Service, Dominion Department of Agriculture say that a little sugar gives better results, in color and flavor, than none.

They recommend using a medium syrup, that is a syrup with 1 cup sugar to 1 cup water. The rhubarb should be thoroughly washed, then cut in 1-in. pieces. The cold pack method is preferred for rhubarb. Pack the jars, cover with boiling syrup leaving a headspace of half an inch. Process in the boiling water bath—pint cookers 10 minutes, quart cookers 15 minutes. If an oven with automatic heat control is used, pints are processed 30 minutes and quarts 25 minutes.

After numerous experiments the Consumer Section has found that the use of tin cans for rhubarb is not as satisfactory as cookers, and that only enamel tins should be used.

RHUBARB CONSERVE

14 cups rhubarb (4 lbs.) cut in ½-in pieces
3 cups raisins
7 cups sugar
Rind of 2 oranges
Rind of 2 oranges, thinly sliced
1 cup walnuts

Combine thoroughly, measure sugar, orange rind and juice. Let stand ½ hour. Bring to boil and boil, uncovered, 40 minutes, stirring frequently. Add walnuts, coarsely chopped, and boil to sets stage—about 5 minutes. Pour into hot, sterilized jars. Cool and seal. Yield, about 12 cups.

RHUBARB PUDDING

4 cups diced raw rhubarb
2 tablespoons flour
½ teaspoon salt
½ cup sugar
2 egg yolks
2 egg whites
2 tablespoons sugar

Mix diced rhubarb, flour, salt and ½ cup sugar. Let stand one hour then cook over hot water for 15 minutes, stirring occasionally. Beat egg yolk until light. Pour rhubarb sauce over egg yolk, mixing mean while. Turn into a double boiler and cook 5 minutes. Fold in meringue made with stiffly beaten egg whites and 2 tablespoons sugar. Pour into sherbet glasses. Chill. Six servings.

The Anti-Mentality

"They shall not pass," was the watchword of the United Nations during the war. It still seems to be their watchword — leveled against each other during peace. We are still fighting against something instead of for anything. We are still trying to prove what's wrong instead of proving a great right. In this widespread anti-mentality even the freedom we so dearly preserved is only freedom from oppression. What is freedom for?

Do we use freedom to build sounder, happier homes or just to give free rein to wives and husbands, parents and children, cause dissensions, split homes? Do we use free enterprise in trade to make all men secure or happy or just as the privilege by which some grow more prosperous than others? Do we make democracy a framework in which to build the character of men, or do we just let lush of character in men undermine democracy? Do we assume that "As I am, so is my nation," or do we complain that the nation ought to be different as we could be better off?

We could make our nation so different, if we ourselves began to live differently, the free and democratic way of life would appeal to all mankind. Then the world's clashing anti-mentalities would end, rising around into a positive thing full and merry in the refreshing atmosphere of this new and desirable way of life.

The only recommended wheat variation for Alberta are: Marquis, Canus, Red Bobs and Thatcher. Other varieties which give promise are Regent, Renown and Redman.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"
IN BRITAIN

British facts the most serious crisis she has ever encountered in her history. She is faced with two grave difficulties. The first is to secure sufficient food of nutritive quality for her people abroad, eggs, butter and milk, cheese, meats and fruit juices that supply physical and mental energy, and enable a good day's work; the second Britain's other difficulty is to import, mainly from the United States and Canada, sufficient of her factories to regain their output was destroyed or damaged during the war. The present loans from Canada and the United States are nothing like sufficient for them purposes.

I was shocked at the appearance of the British people. They are obviously suffering from malnutrition. They walk in their heels, their faces are grey and lined, they appear to be from 5 to 10 years older than their age. They are startled in the morning as when they go to bed. They are incapable of a week's work. Better food, then and more of it, is Britain's very first requirement. Can Canada do anything to help? For myself I think she can and ought to do something because Britain, as Canada's greatest single market for wheat, meats and many other products

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Italy's new wheat crop is semi-officially estimated at 186 million bushels, compared with last year's production of 245 million bushels, and large imports will probably be necessary to fulfil domestic requirements—India's wheat crop has been seriously damaged by rust and private reports now estimate production at 320 million bushels, a drop of 56 million from earlier hopes.

Australia's 1946-47 wheat crop is now officially estimated at 116,000,000 bushels from about 12½ million acres—The Australian Wheat Board expects to receive 100 million bushels of the crop, production of which some 60 million bushels will be required for home consumption, leaving approximately 40 million bushels available for export.

Dragnet Extended For E. B. Bottles
Peace arranges for search in Alberta rural centres.

The dragnet for E. B. Bottles, alias "Empties", widened today as search extends to Alberta's many towns and villages.

E. B. Bottles, commonly known as Empty Beer Bottles, became the subject of this intensive hunt following disappearance from essential duty in the bottling and beverage industry. Citizens are co-operating by an all-out effort to see that this culprit is brought to justice and returned to work so that the demand for Brewery products can be met.

It is believed that "Empties" may be lying low in basements, closets, attics, garages, or other places about the home, and for this reason, the co-operation of housewives in aiding the search is particularly requested.

Cash Reward Offered

Housewives in cities, towns, and villages are urged to search their premises throughout. In the event of apprehension, Deliveries Limited should be notified at once. They have arranged to take "Empties" into custody—pay 30 cents per dozen cash reward on the spot and provide escort to the nearest bottle depot.

Rural citizens who may come across "Empties" can have him escorted, freight collect to the nearest Deliveries Limited depot and cash reward will be mailed immediately he is in custody. Depots are located at Camrose, Banff, Calgary, Edmonton, Blairmore, Red Deer, Strathcona, Drumheller and Lethbridge. McLennan is nearest depot for Peace River District.

Agricultural Service Board Continued

Continued from Page One

inches deep and then examining the kernels daily until the first evidence of the kernels in 1 inch long. The field is then rod-weeded or thoroughly surface worked by some other method to a depth of 2 to 2½ inches. Moisture will start the annuals which have germinated at that time. Under normal growing conditions the barley will be through the ground and shading it before the second crop of weeds can germinate. This has proved most effective on Wild Mustard and Tartary Buckwheat. Wild oats germinate readily early in the season but practically stop germinating about the 15 of June. If an unfallowed field can be thoroughly cultivated about the middle of June, and seeded immediately to early maturing barley the wild oat problem can be largely eliminated.

THISTLE CONTROL

Thistles start to grow rather late in the spring. Oil barley seeded on thistle ground preferably with fertilizer will ripen under normal conditions, before the thistles go to seed. The thistles are at their weakest stage about the time the barley is cut. Thorough fall cultivation will ordinarily control them. This method saves the expense of much of the cultivation necessary on a fallow. It allows a crop to be grown in place of a bare fallow and above all it saves the soil a great deal of needless working which encourages soil drifting.

FALL RYE

This crop is excellent for controlling thistles and practically all annual weeds. It can be seeded following an early harvested barley or greenfeed crop is an excellent crop to seed on fallow to complete the weed kill there.

CHEMICAL WEEDS

The introduction of Bitosn and 2, 4-D, two selective chemical sprays, has aroused a great deal of interest. While Bitosn is effective on some broad-leaded annuals particularly Wild Mustard it is rather expensive and requires some 80 to 100 gallons of water per acre in applying. On the other hand 2, 4-D is available either as a liquid spray or a dust and is considerably cheaper. It also has more effect on perennial weeds. Unfortunately not enough is known about 2, 4-D to pursuit on making definite recommendations for all weeds. Dusting equipment may be available in the Edmonton district to dust crops at about three dollars per acre.

THE PROVINCIAL FORAGE CROP SEED POLICY

The Provincial Forage Crop Seed Policy through which Alsikeweds, Alfalfa, Brome and other forage crop seed can be purchased at reduced prices is designed for your assistance. Orders are receivable at your Municipal Office.

Since the main summary of this weed control account was prepared we have had opportunity to investigate in the fields just how prevalent annual weeds are and we wish to especially give warning not to seed summerfallow too soon. All fallow fields are showing up green indicating that this might be a very bad wild oat year. They will have about enough growth to be killed most effectively from May 12 to 17, after which time crops needing to be seeds as early as possible can be sown. Crops which can wait longer before being sown. Allow another week for the Wild Oats to grow before killing out and seeding is done.

Do not hesitate to call your Municipal Field Supervisor or District Agriculturist if wishing to discuss any farm problem relating to crop or livestock.

UNITED KINGDOM DESIGNED ROCKET

Details of Britain's first pilotless radio-controlled rocket missile have recently been released. This guided missile weighs only 726 pounds and can be assembled by four men in less than one and one-half minutes. Propelled by eight rockets, it is capable of a speed of over 850 miles per hour, control being maintained by the operator from the ground or a ship's deck by means of a "joystick" or control column mounted on a control box. The missile which has been successfully completed trial flights, was designed and developed by a United Kingdom firm.

GROW MORE BARLEY

FARMERS! There is a ROOM PRICE ON BARLEY OF 90 CENTS basis No. 1 Feed, delivered FORT WILLIAM — PORT ARTHUR or VANCOUVER for all barley sold between August 1, 1947 and July 31, 1948. The price may be higher but it cannot go lower.

Canada is short of barley as feed for live stock. More barley is necessary for the maintenance of Canadian live stock and the production of urgently needed live stock products. Farmers can grow barley this year with the assurance that all barley sold until July 31, 1948 will bring not less than 90 cents a bushel, basis No. 1 Feed, at Fort William—Port Arthur or Vancouver.

Alfalfa Hay

We require increasing amounts of green, dry, reasonably pure alfalfa hay suitable for grinding. In case you have a few tons of last year's alfalfa still on hand you should get in touch with us right away. You can haul it yourself or we can arrange for trucks.

New Crop Alfalfa

We will require 2,000 tons. It must be green, dry, and suitable for grinding. First cut should be made just before it comes into bloom. The second cutting (if any) should be equal to the first cutting, and both will be of good quality if well put up. The weather the last part of June and the first week of July is usually good haying weather. Try to get your alfalfa put up then.

Seeding Alfalfa

The land should be free of weeds and well packed. Twelve pounds of seed per acre will give the best results when the alfalfa is to be sold for grinding. This gives a good coverage and helps keep the weeds out. Seed without nurse crop and try to sow just before a rain.

Radiograms

DIRECTIVE FIGURES

There were two major objectives behind CJCA's boost in power (5kw, to service a greater area; 10m, to offer a more intensified service through a clearer signal

From letters reaching us daily, it is quite clear that both objectives are being fulfilled even in the short time we have been operating on 5000 watts.

Communications from points beyond the former outer zone have been postmarked at such distant communities as Duncan Vimy and Keith, Sask.; Beaver Hill and Moose Jaw, Saskatchewan and Beaverlodge, Hagwell, Foothills and Bowden in Alberta—as well as Yellowknife, N.W.T.

It is very evident that the signal is coming in with greater intensity in many communities formerly listed by the technical staff as "pocket areas".

Ever hear of Vine, Camp Crush, Sendro, Freedom, Mapova, Dorling, Evergreen, Chesley, Gregg River or Sandy Rapids? Neither did we, prior to our increase in power. Those good people now report that CJCA is stronger—clearer—better

To the independent radio station "Listener is King" whether he be at Gregg River or Camp Crush, or by short wave VE9AI in Hawaii or Timbuktu.

The first issue of the first Boston paper, Vedomosti, published under supervision of Peter the Great, appeared Jan. 13, 1703.

U.N.

Q. What is your opinion of the value of the anti toxin in the treatment of pulmonary tuberculosis?

A. The cow lump or attenuvirus vay apparently has no direct benefit upon the pulmonary tuberculosis. It does seem to have a beneficial effect upon some of the complications, such as bronchial or laryngeal tuberculosis. However, one must not forget the effect of the ultraviolet ray treatments upon the general health, which in some instances seems to be very much improved, and in this way the tuberculosis may be benefited.

* * *

Q. What is tuberculin?

A. Tuberculin is made from tubercle bacilli which have been killed by heat or other means. It may consist of the bacilli themselves or extracts of the tubercle bacilli, or both.

« Recipes for Milady »

Chicken has become a 52-week "must" on Canadian menus. It is the most versatile of meats and may be served with the simple, unconventional meal or for "company" dinners. Chicken has fare equals when it comes to delicious flavor and appetite appeal.

The time of year is almost at hand when the old birds will be culled from the chicken flocks and these birds may be used in several ways. They may be steamed, stewed, fricasseed or canned for later use.

These older birds are prepared as for roasting, but require a long, slow cooking using moist heat to soften and make tender the tough connective tissue. Chickens cooked in this manner will lose some of their juice and flavor, but this is regained when the broth is served as gravy with the meat.

Fowl is usually cut into serving pieces before stewing and then placed in a kettle, half-filled with lightly salted water. It should be simmered, covered, until the meat is tender. It should never boil. The pan should be heated occasionally to ensure even cooking throughout. A tablespoon of vinegar added to the water helps to make the meat more tender. It is sometimes necessary to replenish the water during the cooking period. A young fowl will require from 2 to 3 hours to cook tender

Pressure-cooking is another method of cooking fowl. The bird may be cut into serving pieces, rolled in flour and browned on all sides in hot fat. Then simmered in a small quantity of water or tomato juice.

If stewed fowl is to be served cold, it should be allowed to cool for an hour or more in the broth after it will be much more moist. Three to four cups of cooked meat will be obtained from a four to five pound chicken.

There are many ways in which the meat stewed or broiled until on may be used in appetizing combinations. The home economists of the Consumer Section, Dominion Department of Agriculture, suggest chicken shortcake, chicken pie, or chicken croquettes if you like it served hot. For those who like it cold, a chicken salad, sandwich or jellied aspic may be appealing.

* * *

CREAMED CHICKEN WITH SIDE CREAM

1 4-lb. chicken, cut into serving pieces
2 tablespoons vinegar
¼ cup flour
1 teaspoon salt
⅛ teaspoon pepper
¼ cup fat
1½ cup chopped onion
¼ cup chopped parsley or celery leaves
1½ cups sour cream

Rub chicken with vinegar and roll in mixture of flour, salt and pepper. Melt fat and brown chicken on all sides in hot fat. Place the chicken in large casserol, add onions, celery leaves and cover with sour cream. Cook covered in a moderately slow oven 325 degrees F. until tender 2½ to 3 hours. Six servings.

* * *

CHICKEN MOUSSE

1½ tablespoons granulated gelatine
2 tablespoons cold water
2 cups milk
1½ cups chicken broth
½ teaspoon salt
½ teaspoon pepper
2 cups cooked chicken chopped
½ cup chopped sweet pickle
½ cup heavy cream, whipped

Soak gelatine in cold water for 5 minutes. Heat egg yolks and add chicken broth. Cook in top of double boiler until mixture coats spoon. Add salt, pepper and cooked gelatine. Mix until dissolved. Cool mixture until slightly set. Add chopped chicken, pickles and fold in the whipped cream. Pour into a greased mould and chill until firm. Unmould on bed of lettuce and garnish with sliced tomatoes, sliced hard cooked egg, watercress and radishes. Serve with mayonnaise. Six to eight servings.

USE THE WANT-ADS.

Summer Activities at Schools of Agriculture

Through the summer months, the Schools of Agriculture at Olds and Vermilion will be open for conferences and meetings of agricultural and rural women's organizations, and recreational groups. A list of dates, accommodations, and attendance is drawn particularly to Young Farmer's Week and Farm Women's Week.

Those are invited to write to the Director, across your district for particulars and application forms.

Schedule of Courses for Olds

June 16 to 21—Young Farmer's Week

June 30 to July 5—Quantity Cookery Course and Sewing Course
July 7 to 12—Live Stock and Crop Week
July 14 to 19—Girls' Club Week.
July 21 to 26—Farm Women's Week
July 28 to Aug 2—Women's Institutes Girls' Clubs
Aug 4 to 6—Club Leaders' Conference

* * *

Schedules of Courses at Vermilion

June 16 to 21—Young Farmer's Week
July 2 to 5—Farm Women's Week.
July 7 to 12—Girls' Club Week.
July 14 to 19—Live Stock and Crop Week.
July 21 to 26—Vermilion Exhibition Camp.
July 28 to 30—Club Leaders' Conference.
July 31 to Aug 2—Alumni Short Course and Reunion.

The disputes that yet separate nations can hinder, but they must not prohibit attainment of the common goal of all peoples. If there is room in our own country for every shade of political and social religious thinking and expression, there is room in the world for different philosophies of government, so long as none is dedicated to the forceful imposition of its political creed on others.—Dwight D. Eisenhower.

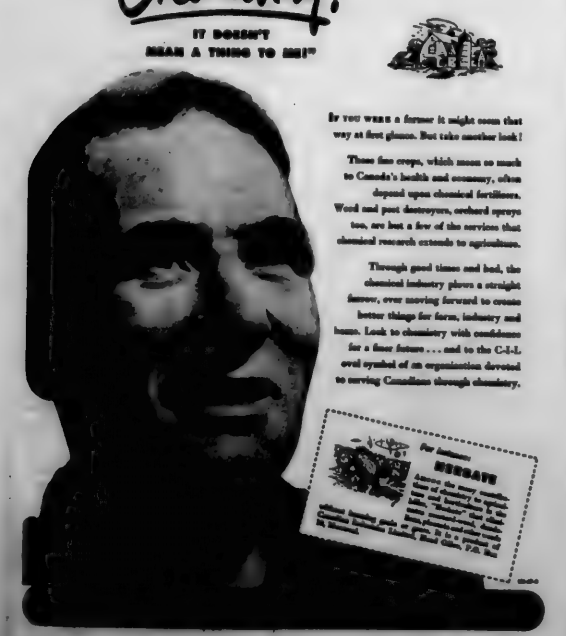
SERVING CANADIANS CIL THROUGH CHEMISTRY

"Chemistry?"
IT DOESN'T MEAN A THING TO ME!"



IF YOU WERE a farmer it might seem that way at first glance. But take another look!

These fine crops, which mean so much to Canada's health and economy, often depend upon chemical fertilizers.

Weed and pest destroyers, orchard sprays too, are but a few of the services that chemical research extends to agriculture.

Through good times and bad, the chemical industry plows a straight furrow, ever moving forward to create better things for farm, industry and home. Look to chemistry with confidence for a finer future . . . and to the C-I-L oval symbol of an organization devoted to serving Canadians through chemistry.

What is Inspired Democracy?

The word democracy has suffered much discredit from over misuse. First, it has been misused and twisted by extremists of right and left who have made it by turns a bat for their ethos and a cloak for their totalitarian aims. Second, it has sometimes stood for nothing much except inefficiency because we, who inherited the benefits of democracy, have failed to live in a way that makes democracy possible.

For democracy in its true sense can only be made up of those who deliberately prefer the good of the whole to their own selfishness. Its essence is not the wide sharing of privilege but the wide sharing of responsibility. The strength of democracy is thus the strength of human character. But the evidence of history is that, even at its best, human character is not enough.

And so today we must look beyond the purely human conception of democracy to the further vision of an inspired democracy in which every individual not only contributes his own best but is also instructed and guided by God Himself.

Inspired democracy will not come about by the action of a few leaders appealing to the self-interest of those masses, playing down to human nature instead of pointing men to their true destiny. I can and will come to the leaders and to the millions of ordinary people and families through the new quality of life and the new teamwork which God gives to Him and obey Him.

In an inspired democracy every individual obeys to the full the "perfect freedom" of obedience to His will found in the Law of God. Freedom to realize his highest ideals and the best that is in him. In an inspired democracy every individual, whatever his background or brain power, has an equal chance of playing a decisive part. For everyone can listen to God. And everyone whose heart is willing can be used by God here and now in the remaking of the world.

FLOUR HOARDING?

The prices board has moved to prevent hoarding of flour at trade levels by limiting the amount of flour and other wheat products which may be milled or processed for domestic human consumption to 105 per cent of the amount processed in the corresponding period of 1946. It seems there have been indications of excessive accumulations of flour stocks by merchants, wholesalers and millers, following rumors that wheat and flour were likely to be decontrolled at an early date.

Every Man Can Share the Future

Among the United Nations discussions at present are many having bearing on the economic and social future of the common people. The issues of peace are not yet fixed.

But within the countries of the world, in peace, the public must believe, and collectively is shaped into something we want—or don't want.

What ideas will mold our decisions in domestic and foreign affairs? What will happen to form the future of democracy?

Two wars, a fallen beam, and a real depression have broken many of our old molds. We have had to learn the hard way.

We know now that we cannot turn back to "normalcy." We know that legislation cannot make men good. We know that democracy has to be fought for. We know that Leagues and treaties alone cannot preserve peace. Or we ought to.

The middle of the road democracy, of insistent, of peace-by-pacts sorts are not so tempting as they were.

We have re-learned the great lesson of this century: that democracy cannot stand still, or contract, or maintain, in a dead-end street!

Every man and every nation for himself, and death take the blindest, is then the record of this century of agony. Whole nations has destroyed, home after home destroyed. Hundreds of millions are helpless and hopeless as a result of world hatred.

International murder of all kinds, is a worn-out motive. It does not even produce the materials. Yet, behind a Christian facade, it has been the fundamental idea of 20th Century men and nations. Now other forces, without any facade, are using competition, mistrust and malignant, into every land and every nation.

Democracy needs a change, from the inert, laggard democracy—inert under the governments of the past few years—to a democracy of fair dealing, and justice as the only mold which holds the hope for the future. It is the promise of our inheritance. But it must become the passion of our living and the framework for every decision.

The choice is between materialistic nations and moral standards. That is the basic issue of our times and one which shapes all other decisions.

Every man can shape the future by placing himself under the govern-

Signs Mislead Search for E. B. Bentley

Pendleton Responsible, Say Authorities.

Crude signs reputedly "forgeries" of those used by Edward Bentley, recently appearing in hundreds of places in the Province, and almost all over Alberta are being misread and misinterpreted, it was stated Aug. 15, by Police Magistrate Pendleton.

Authorities at Edmonton Lethbridge, Calgary, Medicine Hat, Drumheller, Red Deer, Wetaskiwin, Vermilion, Camrose, Lloydminster, Wainwright, Vegreville, Innisfail, Stettler, Provost, Hanna, Taber and Vauxhall have been notified that the signs are not Bentley's.

Pendleton declared: "Bentley is only wanted for questioning in connection with the murder of Constable Millard. He is not wanted for any other crime, and there is no charge against him. It is the belief of the police that the murder will be brought to justice and not just hushed up as some.

Dalhousie Limited are offering a reward of $5 cash for information leading to the arrest of Edward Bentley. Bentley is a man about 5 feet 7 inches in height, dark complexion, brown hair, brown eyes, and is supposed to be wearing a navy serge suit, grey tweed overcoat, and a brown felt hat. Information should be sent direct to Dalhousie Limited Co., Calgary, Edmonton, Lethbridge, Medicine Hat, Drumheller, Red Deer or Banff.

Mount Archibald Named for Agricultural Leader

The man who directs the extension of Canada's northern agricultural frontiers has been honored by the Geographic Board of Canada, which recently gave his name to that Yukon mountain, Mount Archibald.

Above here are the 8000-foot peak and Dr. R. S. Archibald, Director, Experimental Farms Service, Dominion Department of Agriculture, for whom it was named.

An outstanding leader in experimental agriculture, Dr. Archibald directs the operation of 37 experimental farms and stations, 13 sub-stations, four laboratories, 125 illustration stations and 23 district experiment substations. In recent years, the Experimental Farms service has been extended by the establishment of experimental sub-stations in both the Yukon and North west Territories for the study of northern agriculture.

Located in Latitude 60°, 45', 05", Longitude 137° 25', Mount Archibald overlooks the experimental station at Mile 1019 on the Alaskan Highway.

Cut Hay When Ripe to Avoid Loss

Fully half the fresh value of native hays is commonly lost through late cutting and exposure to the weather. Since great quantities of native hay are produced in Canada, the loss of feed is a serious one, says E. W. Tisdale, Dominion Experimental Station, Swift River, Saskatchewan.

At present the feeding value of much native hay is extremely low, often not better than that of straw. The poor quality is due mainly to the common practice of cutting too late in the season. Additional loss may be done by exposure to the weather before stacking or baling, but this is often unavoidable. Similarly late cutting may be necessary in low-lying areas which do not dry out till late in the season.

The feeding value of native hay plants, like that of other forages, changes considerably during the season. The early leaf growth is a rich feed, high in protein and other nutrients, and highly digestible. The quality of the forage declines from this high point as the plants mature. The yield, of course, increases rapidly during the early part of the season, but there is little or no increase after the plants come into head.

The best time for cutting is that which gives satisfactory yields along with good feed value. The best time to cut is early, when the plants come into head.

Numerous tests have shown the decline in feeding value that is caused by late cutting. In one set of lowland hay plants, the protein content dropped from 17 per cent in the leaf stage to 10 per cent in head and only 5 per cent in the seed stage. The datas of cutting for these stages were June 16, July 15 and August 5.

Upland native hays, while generally yielding less than lowland hays, are usually considered to be better feed. This is true in most cases, although the quality of lowland hay cut at the proper time is better than is generally recognized. On the other hand, the quality of upland hay drops greatly as the plants mature; moreover curing when they begin to dry and cure. Upland hay cut late is usually low in feeding value.

Stemwall—stiff hay often contains a high proportion of sedges and fine grasses as well as true grasses. The feeding value of the sedges and related plants is usually considered to be slight but this is true only when they are cut late. Cut at the right time, they compare favorably with most lowland grasses in quality. Samples of native hay, consisting mainly of sedges, were found to have a protein content of 12 per cent when cut in the heading stage early in July. Hay cut from the same meadows late in September was much poorer, with only 6 per cent protein, and deficient in phosphorus.

Most native hay plants are capable of producing feed of fair to good quality, if cut at the proper time and handled carefully. Delay in cutting after the plants have headed results in serious losses in feeding value without any worthwhile increase in yield.

Under the new explosives act, rockets are no longer classed as shop goods and their retail sale to the general public is prohibited.—R.C.M.P.

President of A.I.C.

J. F. Booth, Ph.D., of Ottawa, Assistant Director, Meat Research Division, Dominion Department of Agriculture, has been appointed President of the Agricultural Institute of Canada, by John Ross Jardine, Minister of Agriculture, at the annual meeting of the Institute in Manitoba, and Head of the Department of Agriculture at the University of Saskatchewan in 1935. After graduating in Agriculture at Macdonald College in Montreal, Mr. Booth was appointed to Agriculture for a period in the war service in 1917. Commissioner of the organization and Manitoba Branch for that province. A few years later he took post graduate work at Cornell University, N.Y., and subsequently became assistant professor in the Department of Agricultural Economics, United States Department of Agriculture.

In 1930 he was appointed head of the Economics Division, Dominion Department of Agriculture, and since then has been a constructive worker in behalf of Canadian agriculture.

WHY JUVENILE ASSURANCE?

The value of insuring your child's life with the Sun Life of Canada is illustrated by the following provisions of the new Sun Life Junior Adjustable Assurance.

- The child receives the advantage of low-cost insurance for the remainder of his life.
- You are protected against expenses of child's death before age 21 by a death benefit in keeping with the amount of protection originally required at younger ages.
- At 21, each $1,000 of child's assurance automatically becomes $5,000 Ordinary Life (Endowment or Limited Payment Life plans may be selected if preferred) without medical examination or increase in premium.

—SEND THIS COUPON TODAY!—

S. S. Sanderson, 220 Empire Bldg., Edmonton, Alta.

New Flash Bulb Boon to Photographers

Professional photographers, and serious amateurs too, will be especially interested in the new "Magnaflash", on view at the British Industries Fair, which does the work of 10,000 of the traditional type of flash bulb. This bulb, which is manufactured by a London firm, is an electronic flash unit employing a specially designed gas-filled bulb which gives a minimum of 10,000 flashes as against a ordinary flash of the standard type. The peak light-output is enormous, being in the region of 20,000,000 lumens. So frequent that refill may be taken in stock beverages, in milk puddings and even sauces. It doesn't matter, so long as the edible gets from half a pint to a pint of milk a day.

Those who have studied the relation of sports to development of young Canadians find that games involving team-play teach self-mastery and cooperativeness. Such friendly duels as tennis, badminton, fencing and handball encourage self-confidence, grow out of participation in nearly all forms of sports.

"There are many gains in playing games" say the experts.

S A S

MILK NUTRITIOUS

Adults, as well as children, need the nutrients supplied by milk. Even after bones and bodies are formed, milk continues to supply some of the protein required for the continual breakdown of body tissues, and it also helps in maintaining normal functioning of the nervous system.

National Health authorities suggest that milk may be taken in cooked dishes, in milk puddings and even sauces. It doesn't matter, so long as the edible gets from half a pint to a pint of milk a day.

S A S

THE EGG AND YOU

Medical science finds a hint for good health in the title of a popular story and song, "The Egg and I". They point out that cooked inside egg-shells are high-quality proteins, important for physical well-being.

Nutritionists advise that two medium-sized eggs substitute satisfactorily for one serving of meat, as far as protein is concerned. The yolk is packed with vitamins and minerals, too. Canadians should aim at eating at least three eggs a week, in addition to any they may use as meat substitutes.

S A S

FIVE FOOD FORMS

Each of five main food groups is essential to physical well-being. For real health, authorities say that it is necessary to consume daily from half to one pint of milk, a citrus fruit and one other fruit, some potatoes and some other kinds of vegetable, whole-grain cereal, as well as a meat or fish dish, and, at least three times a week, some eggs or cheese.

S A S

GOOD SPORTS

You can't have everything your own way—unless you are a genius or a hermit—says National Health authorities.

Growing children need to be taught that they aren't the only "problem on the bench", and can't expect to hold life's spotlight all the time.

Medical science warns that the self-centered child will most likely grow up moody and lonely. The experts recommend careful training in childhood to develop healthful personalities. They approve organized games, participation in which will bring out traits of cooperation and team-play so essential to success in all walks of life.

S A S

VALUE OF GAMES

Properly-directed play activity is credited with being more than merely building healthy young bodies. It also helps to develop positive and properly "adjusted" personalities.

Those who have studied the relation of sports to development of young Canadians find that games involving team-play teach self-mastery and cooperativeness. Such friendly duels as tennis, badminton, fencing and handball encourage self-confidence, grow out of participation in nearly all forms of sports.

"There are many gains in playing games" say the experts.

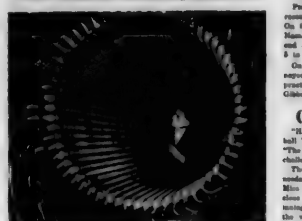
British Electrical Generating Equipment



The highest priority is being given for the manufacture of steam-driven generating equipment in Britain During 1947-48 as surveys progress, the project which on account of the war has not been completed will be taken, out of commission to make way for a new plant in one of Britain's huge General Electrical works the theme is "full steam ahead" to the production of the much needed generating plants, both for home and overseas This picture shows: Work in progress on one of the vertical machines. This is a 30,000 kilowatt alternator running at 3,000 revolutions per minute.

Lighter Wick That Will Not Wear Out

It sounds like a contradiction, but it is true—a lighter wick which burns, but will not burn out. Made from glass fiber, it is the first time it has been successfully produced anywhere in the world, and is a United Kingdom development which might never have occurred had it not been for the war in the Empire. It was in 1939 that it was found that ordinary cotton wicks were quickly eaten away by temperatures over seven hundred degrees when issued from stores. At the request of Britain's Ministry of Supply, the makers of lighters and manufacturers in Britain were asked to provide something that would withstand the heat—and—discovered that is addi-

IN MEMORIAM

In loving memory of our dear son Norman Page who passed away May 27th, 1946.

He can leave how much we miss you,

He can know the bitter pain;

We have suffered since we lost you

Life has never been the same.

In our hearts your memory lingers

Sweetly today, fond and true;

There is not a day, dear son

That we do not think of you.

Ever remembered by his loving mom, dad and sister.

Practice Ball Played

Practice games have been held recently by the Fort Ball Team. On Sunday last the boys took to Namao and rounded on the short end of the stick with a score of 5 to 6.

On Tuesday evening they journeyed to Gibbons to play another practice game and defeated the Gibbon's boys 9 to 6.

Cooking Lake

"Hats off to Stoney Creek Softball Team!" say Franklin players "The first school to talk up our challenge to a softball contest!"

The game was played on Wednesday, May 14th at Stoney Creek Miss Lacroix was umpire. It was a close struggle for the first few innings until fair fortune favored the visitors to send them so far ahead that Stoney Creek found it impossible to get abreast again before time was called with the score at 18 to 4 for Franklin. However, Stoney Creek, undismayed by the heavy balloon against them, will soon be ready to take you on to such revenge, "Hats off," we say again, "to Stoney Creek!"

The good news has come that Mr. and Mrs. Clifford Noonan, have landed safely in England after an indescribably happy voyage. Here we await further news that they have reached the Channel Islands, native home of Mr. and Mrs. Norman, where they are to have the very great pleasure of looking into the lives of their grandchildren and other relatives of the family Happy meetings, Blanche and Bernard.

Hat right to feel right.

NEW SHAMPOO MAS LINK WITH PENICILLIN

A new hair shampoo which owes its existence to Britain's discovery of penicillin is now being shown at the British Industries Fair. In the early days of penicillin, production [illegible] experiments to increase the yield of the "wonder drug." The use of Cystine, a substance extracted from human hair was found to give particularly successful results and arrangements were made with hairdressers for regular [illegible] of hair Every known method of cleansing and shampooing this hair was tried but none came up to the unprecedently high standard laid down. Finally scientific workers [illegible] this shampoo, with a delicate perfume as the only addition, which can be now at the Fair

Some lenders play down to human nature. Others point men up to their high destiny

VOL. III. No. 7. FORT SASKATCHEWAN, ALBERTA, [illegible] WEDNESDAY, MAY 28, 1947 Subscription $2.00 year, U.S. $2.50

Around the Town

Mr. D. Meikle of Fairview, Alberta has arrived to take over the management of the Royal Bank here. Mr. Meikle's family will arrive here sometime in June.

Mr and Mrs. Allen Larose of Vermilion spent the week-end at the home of the former's parents, Mr. and Mrs. J. C. Larose.

Miss L. Wawrow is visiting Mr. and Mrs. D. Smith and friends at Wainwright.

Mrs. S. Thorne, District Convenor, Mrs. J. D. McLean, Official Delegate, Mrs. Fred Sharman, and Mrs. Harry Byers of the W.I. left Wednesday morning to attend the W.I Convention at Calgary The ladies took a number of pieces of needlework and fancy work to be entered in the competition against other W. I. Branches.

Mrs. Gibbs Hamel spent the week-end visiting her sister and brother-in-law, Dr. and Mrs. R. H. Parsons of Red Deer.

A service for St. George's W.A. will be held at the Church, Thursday, June 5 at 8 p.m. Following the service the regular monthly meeting will be held at the home of Mrs. E. Hager.

Mrs. R. Simmons of Innisfail and Mrs. Hugh Watt of Edmonton were visitors at the home of Mr. and Mrs. A. Black on May 24th.

Mr. and Mrs. Robert Simmons and son Bobbie spent May 25th visiting with Mr. and Mrs. Willcutt.

We are happy to see Dick Magor up and around once more after his illness.

Mr. and Mrs. George Reimer are receiving congratulations on the birth of a son, George Henry Jr., born Friday, May 16th at the Royal Alexander Hospital.

Congratulations are also being extended to Mr. and Mrs. Hugh Staples on the birth of a daughter, born Saturday, May 24th at the University Hospital.

The United Church W.A. will meet at the home of Mrs. Chas. Glover, Wednesday, June 4th at 2 p.m.

The Fort Baseball Team will be playing at Josephburg on Friday, May 30 and at North Edmonton on Sunday, June 1. On Wednesday, June 4 Beverly will play here. Turn out and support your home team.

David McIlmoyl of Coal Valley, Alberta is spending a holiday with his parents, Mr. and Mrs. McIlmoyl.

When the choir of Central United Church, Edmonton, presents a Variety Concert in the Fort Commencement Hall this coming Friday evening, they will be assisted by Miss Lolay Tourjansk, violinist (a pupil of Ronald Shaen) by Mr Phillips playing vocal new numbers, and by Mrs. Floyd Baker giving readings. The concert is in aid of First United Church Building Fund, and starts at 8:15 p.m.

Leather Goods at British Industries Fair

2,000 manufacturers exhibitor at the [illegible] in London and Birmingham this month Among the leather goods shown were many attractive and inexpensive men's dressing cases This picture shows men's dressing cases being assembled by hand. Each case contains everything a man would require for habit purposes, neatly housed in a strong leather case, fitted with zip-fastener.

Minutes of Town Council Meeting

The regular monthly meeting of the Town Council of Fort Saskatchewan, was held in the Town Hall on May 26, 1947 with the following members present: Mayor Magnor in the chair, and Councillors Walton, Lowe, Jacobs, Jacus, Dr Robertson and Simmons.

Cecil Banks who was present stated that he would not pay his taxes on his property in Lots 26, 27, 28 and 29 in Block 7 Plan 94 until the road on Lanarer Avenue has been levelled for gravel purposes.

The minutes of the regular monthly meeting held on the 28th of April, 1947 and the special meeting held on the 12th and 13th of May, 1947 were adopted as read.

The Financial Statements for the month of April, 1947 of the Town and Community Hall Committee were read and accepted as read.

A letter, [illegible] and admitting that Collector Jacus be appointed to representative of the Town Council for the Clover Bar School Division School Board.

It was moved that in the absence of the Mayor or Secretary-Treasurer the Deputy Mayor sign all cheques.

Letters from the Department of Trade and Industry re views and opinion of the Council in the matter of the sale of Farm Implements by Robert E. Lepage and A. Bruton of Fort Saskatchewan, read, and the Secretary was instructed to write the Trade and Industry advising that the Council had no objection for this firm to sell farm Implements.

The question of appointing a Legal Advisor for the Town was discussed, and as the Mayor was going up to Hillcrest on the 30th now, the matter was left in his hands to see a solicitor to No, and get him retained for this Town, also to see if the Town was responsible for any delinquencies [illegible] that may arise

It was moved that the Town Council give the Fort Community Service Club permission to use the Agricultural Grounds for sports days and stampede free of any rents for 1947 in view of the fact that work done was [illegible] 1947 in [illegible]

The Secretary was instructed to write the Town Planning Commission for full information re building in this Town.

The accounts were read and passed for payment.

Letter from the Shut-Ins Day Association of Canada, read, and Secretary instructed to advise them we endorse the project.

It was moved and adopted that Monday, June 9th, 1947 be declared a general holiday.

The meeting then adjourned.

Bremner

The third annual monthly meeting of the "Two by Two Club" was held at the home of Mr. and Mrs. Alfred Valnes.

The meeting opened with the roll call and the minutes of the last meeting were read by the secretary.

Discussions took place regarding the tennis court, which they hope to have repaired by the first of June. Frank and Hazel Bearce were elected to draw up a tennis schedule.

Nomination for a Flower Fund Committee was held, with Mrs. M. A. Johnson and Mrs. Wilfred Hirschorn being elected.

There new couples joined the club: Mr. and Mrs. Alvin Latam; Mr. and Mrs. Sam Davidson and Mr. and Mrs. Edwin Osterud.

After the meeting adjourned the evening was spent playing cards which everyone enjoyed. A very lovely lunch was served by the hostess.

The club will meet at the home of Mr. and Mrs. Wm. Schreier on June 18 for the next meeting.

Sandy Lake

As spring is here everything is beginning to come to life, and even the reporter has just woken up to put some of the district happenings in the paper.

The high lights of the district are those of the two new arrivals in the W. V. Elliot home. Double congratulations are extended to Mr. and Mrs. Elliot on the birth of twin daughters. It usually takes something to choose one name but now that time will be doubled.

The 20th of May brought another happy day for Tom Villeneuf as he raced around the track in his Model T and carried off the top prize again. Number 38 must be a lucky number for Tom as he seems to always be out in front of those other th limies.

Mr. and Mrs. Jack Debolt spent the week-end at the home of Mr. and Mrs. A. C. Ibbet.

Just now the impossible is necessary.

Beef Calf Show To Be Held Here

On Tuesday, June 10th residents of the Fort and district are urged to attend the Clover Bar Fort Beef Calf Show at the Skating Rink.

The boys and girls of the club have been raising these calves during the winter and following the show here they will be taken to the city to compete with other clubs in the many prizes awarded

The program here will consist of Boys and Girls Judging Competition, Showmanship Competition, and a General Proficiency Competition and Movies. The prize for this competition is being presented by Mr Percy Williams

Lethbridge will be served by the ladies of the U.F.W.A. and an invitation is extended to everyone to come and enjoy the evening with these young people do in raising beef calves.

East Edmonton

Mr. and Mrs. Robert Broad of Assiniboia, Saskatchewan, and Mrs Hugh Young of Chauvin have been recent guests of Mr. and Mrs M. Watson

These four little girls of the district took part in the Y.W.C.A. festival which was held recently: Florence Anne Scoffield, Irene Weir, Norma Underwood and June Prather

The Willing Workers Club met on May 14 at the home of Mrs Jackman, ten members were present.

Much discussion on the appointment of officers for the annual evening took place and it was decided to have a nominating executive, Mrs. Chamberlain was appointed to take charge of this.

The club donated $40.00 to the Cancer fun, $10.00 to the Greek Fund and purchased a Bible for one and 2 dozen spoons for the ball kitchen.

They now open discussion on plans for the Community Picnic to take place sometime in June.

The June meeting will be held on June 11th at the hall, Mrs. Anderson, will be hostess.

The community is really having activity in the form of softball games. The senior softball team played Colchester and came out on top with a good score.

The East Edmonton League team played Salisbury but were defeated. Cheer up boys and better luck next time, the community is really pulling for you.

The dance sponsored by the Board of Control, to raise funds to buy equipment for the ball team, was a huge success, everybody reports having a good time.

Sunday School Classes are being held at the home of Mrs. Peck on Sunday afternoon at 2:30. All children are welcome.

The community wishes a speedy recovery to Barabra Bainbrook who went rounds in bed for three months.

The community wishes to extend it's sympathy to Mrs. E. Gravrin in her recent bereavement.

Congratulations of the district go to Mr. and Mrs. Alan Martin of Edmonton on the birth of a son William Alan, born April 28.

Mrs. Jean Beardsmo, left last Wednesday for Swift River to join her husband, who is stationed there.

Residents Urged to Clean Up Premises

Once again residents are reminded that under the Provincial Health regulations they are obliged to have metal containers with lids for their garbage, also that these with an outside toilet are required under those same regulations to make them fly proof, Many are to a dilapidated condition but could, with a hammer and a few nails be repaired to meet these regulations.

Ardrossan

Mr. and Mrs. G. Martz of Minneapolis, Minnisota, were guests at the home of Mr. and Mrs. Hugh Hutchison recently.

Some men talk a great deal about very little. Great men talk little but say much.

May 24 Sports Well Attended Despite Unfavourable Weather

May 24th celebrations here were somewhat marred by intermission downpours of rain during the afternoon but despite this a fairly large crowd was on hand to join in the fun.

The day got underway at 10 a.m. when Namao vs Fort and RCAF [illegible] had the honours, Namao won 6-1 and RCAF captured their first game 5-1

At 12.30 the parade got underway but was not the success it should have been due to such a few entries.

Float prizes were won by Imperial Oil Harrowtry, I. R. Trubenow and Robbins and Wanless. Lois Simes and Parker Motors won the decorated car prizes. Robinson and Jacobs won the comic prize for the old jalopy. Stuart Sanchelson received a prize for a saddle horse and Art Simmons for a decorated bicycle.

Other baseball games were won by Horse Hills when they defeated Ben Arnord 15-2 and by Josephburg when they won from Gibbons 10-4. Josephburg also trounced the RCAF team 7-6 Final games in baseball were postponed due to rain.

In the football events the Fort Girls won from Lamont 5-4, the Bremner boys beat Lamontown team 14-2 Due to the rain the football series were not completed.

There were nine entries for the men's three mile feature race for the Fort Record Trophy Winners in this event were Hugh Dunca first, with Elwood Galloway second and Harwood Duncan third. Others on this race were Helmut Koch, Ronnie Eagleson, Bill Oliver, Bob Graf, Lorne Underwhain and Kneth Galloway.

The following are the first, second and third winners in the boys and girls races:

Boys 4 and under—David Phillips, Medvin Williams, Billy Robinson.

Girls 4 and under—Gladys Bailey, Joyce Melville.

Boys 5 and under—David Cranston, Terry Thomas, Kieth Thomas.

Girls 5 and under—Audrey Melville, Gladys Holt, Joyce Melville.

Boys 10 and under—Godfried Webber, Frank Smith, Elden Sumnik.

Girls 10 and under—Diane Wanless, Audrey Melville, Fay Jones.

Boys 15 and under—Jim Gunn, Godfried Webber, Vernon Lewis.

Girls 15 and under—Lucy Hood, Doreen Sumnik, Clara Orey

Boys 14 and under—Allan Bleak, Bernard Krebs, Robert MacPherson.

Girls 14 and under—Marjorie Milligan, Lucy Hood, Helen Koch.

Boys 16 and under—Bennie Eagleson, Ernest O'Brien, George Gray.

Girls 16 and under—Christine Dunca, Marjorie Milligan, Marlene Wanless.

THE FORT RECORD

Visitors remaining in Canada for more than seven days may obtain sugar and butter coupons by application to the Ration Board [illegible] while in Canada. Sugar for canning is not available to tourists.

Boys open—Don Bruker, Alan Krebs, George Gray.

Girls open—Christine Dunca, Gladys Duncan, Lorraine Krebs.

The following are the first, second and third winners in the boys and girls bicycle races:

Boys 10 and under—Allan Bleak, George Grey, Tom Hoh.

Girls 10 and under—Helen Koch.

Boys open—Allan Bleak, Tom Hoh, Jerry Stannard

The following are the first, second and third winners of the boys and girls three legged races.

Boys 10 and under—Godfried Webber and Gerald Larsen; Frank Smith and Bob McBride.

Boys 12 and under—Fred Nelson and Leon Bellefleur; Bob McBride and Ray Harrison; Ronald Theune and Dick Duncan.

Boys 14 and under—Victor Boyer and Allan Bleak; Donald Theune and Dick Duncan; Dick McBride and Kenneth Grasso.

Girls 14 and under—Pearl Thomlinson and Agatha Weisgarbe.

Boys 16 and under—Allan Bleak and Ken Rebalkowski, George Gray and Victor Boyer; Ronald Theune and Dick Duncan.

Girls 16 and under—Donna Stetson and Maureen Pimpernel; Hildred Alexander and Pearl Thomlinson.

The following are the first and second winners in the married men and women's races:

Married men—A. Schneider, Joe Pierce.

Married ladies—Mrs. Bankwell, Mrs. Vollrath.

To wind up a successful day a big dance was held in the evening.

School Flashes

Hilda Elenor Jacques, the entertaining Editor of our Year Book, will be 19 on August 5th. Among her many ambitions, dancing ranks high. Hilda's pet hate is a 1940 Chevrolet runs a close second. Her favorite pastimes are playing shorthand and sweetheart. She is often heard exclaiming "Oh, it's gosie!" Hilda is one of this year's graduates so we certainly wish her all success in her chosen career—"To be a school-marm".

Entries are being filled out for the Track Meet on Friday. After the meet the results will round off the day with a weiner roast.

On May 24th Sask. High School Girls' Football comes out on the sheet and of the score is a game of 5-5.

Tuesday they hall play a game against Lamont's team team on Lamont's field the score, at the time of writing, is yet unknown, so good luck girls!

Plans are going ahead for the Graduation Banquet and Dance. From all reports it will be truly something to remember!

Closing thought for all Grade twelvers:

There are exactly 16 more days before exams commence! What a grim thought!

COME AND HAVE A GOOD TIME

Notice to Councilmen

Of M.D. No. 83

Due to the fact that Monday, the 9th of June, has been declared a holiday, the monthly meeting of the Council of the Municipal District of Strathcona, No. 83, will be held on Thursday, June 5th.

Secretary

DECLARE HOLIDAY MON., JUNE 9th

Monday, June 9, having been declared a Statutory Holiday by the Dominion Government for the observance of the King's Birthday, all stores in Fort Saskatchewan will remain closed.

Alfalfa Hay

We require increasing amounts of green, dry, reasonably pure alfalfa hay suitable for grinding. In case you have a few tons of last year's alfalfa still on hand you should get in touch with us right away. You can haul it yourself or we can arrange for trucks.

New Crop Alfalfa

We will require 3,000 tons. It must be green, dry, and suitable for grinding. First cut should be made just before it comes into bloom. Early seeding will give the best chance to the first cutting, and both will be of good quality if well put up. The weather the last part of June and the first week of July is usually good haying weather. Try to get your alfalfa put up then.

Seeding Alfalfa

The land should be free of weeds and well packed. Twelve pounds of seed per acre will give the best results where the alfalfa is to be used for grazing. This gives a good coverage and helps keep down the weeds out. Seed without nurse crop and try to sow just before a rain.

STAFF GOINGS-ON

The CJCA staff, individually and collectively, has been doing things of late.

Another president has been added to the already impressive list of community-service heads the CJCA staff Doug Homershan, assistant production manager, is president of the Edmonton Junior Chamber of Commerce. Simultaneously, manager Gordon Henry is "head boss" of the Edmonton Golf and Country Club and Tom Sheridan is "prez" of the Edmonton Kinsmen Club.

A fourth president has just left the staff. He is Ed Bryant, president of the Northern Alberta "Exos". He followed through on one of his maritime ambitions, namely to enter the advertising agency business. He has joined the Edmonton office of Stewart-Lovatt and MacPherson Ltd. as radio representative.

Ed was given a most appropriate send-off at his departure coincided with the annual staff party at the Edmonton Golf and Country Club. In farewell tribute the staff presented Ed with three "Presidents"—a serious attempt by his golfing at-staff buddies at bringing his handicap into line. Counting his six years in the Navy, Ed has spent nearly 14 years with CJCA.

TOURISTS THREATENED BY LOSS OF IMPORTED WHEAT

From Roumania, once the famed bread basket of Europe, there comes the same dismal story of food shortages. In that country citizens are worried over an American threat to cut off imports. The United States government holds that Russia is taking "grain flour from Roumania for her own use. Then the United States promised to send wheat to Rehmania it was with the understanding that Roumania would not export it.

« Recipes for Milady »

Bread may be the staff of life, but nobody can live on bread alone. To the modern homemaker the future welfare of a great nation has been entrusted. Since we are what we eat, health may be measured in terms of well-cooked, appetizing, nutritional food.

Milk is a food and not a beverage. In fact it is one of the most valuable foods, particularly for children. No other food can be substituted for milk without disastrous results. It gives the proper balance to the ration and helps to correct the deficiencies of the average modern diet. It is the building material from which the solid wholesome meals for the whole family.

Growing children require generous proportions of food and the greatest of such foods is milk. It is a rich and valuable source of a high grade protein and supplies an abundance of nutrients for sound teeth and bones. For healthy eyes, clear skin and sleek coat of its products in various forms, should be served daily in liberal amounts.

Cooking with milk is an easy way of meeting the family's daily requirements. This can be accomplished by serving milk soups, cream sauces, custards, puddings, ice cream or creamed meat dishes.

The value of milk makes the cure of this food of the utmost importance to the nation's health. It should be stored in scrupulously clean containers in as cool a place as possible. A refrigerator or ice box where the temperature is below 50 degrees F. provides the ideal storage. This is accomplished by the growth of bacteria in the milk which causes it to sour. If the milk still does not look desirable it, its food value has not been altered and when used in baking gives a delightful product with a fine, tender texture. Milk should also be covered when stored to prevent the absorption of other food flavors.

The home economists of the Consumer Section, Dominion Department of Agriculture offer a few of their favorite milk dessert recipes, which will prove the delight of all members of the family both young and old.

* * *

BUTTERSCOTCH SPONGE

1 pkg. gelatin
½ cup cold water
½ cup brown sugar
2 tablespoons butter
1½ cups hot milk
2 egg yolks
½ teaspoon salt
1 teaspoon vanilla
2 egg whites
4 tablespoons sugar

Soak gelatin in cold water for 5 minutes. Caramelize the sugar and butter. Add hot milk and stir until caramel mixture is dissolved. Add a little of the hot mixture to the beaten egg yolks and return to the first mixture. Cook until smooth, but do not boil. Add soaked gelatin and stir until dissolved. Add flavoring and chill until partially set. Beat egg whites with salt until stiff and gradually add the two tablespoons sugar continuing to beat until mixture will form peaks. Fold meringue into partially set mixture and pour into slightly greased moulds. Chill until firm and serve with plain or whipped cream. Six servings.

* * *

BANANA-RHUBARB PUDDING

4 cups rhubarb, cut in ½-in. pieces
1 cup sugar
3 bananas, sliced
1 cup fine dry bread crumbs
2 cups milk
2 eggs, slightly beaten
¼ cup sugar
¼ teaspoon salt
1 teaspoon vanilla

Combine rhubarb with sugar and let stand 10 minutes. Add bananas and mix well. In a large greased baking dish, place a layer of fruit and sprinkle with one-half the bread crumbs. Cover with remaining fruit and top with remaining crumbs. Combine the milk, eggs, sugar, salt and vanilla and pour over fruit. Oven-poach in a moderate oven, 350 degrees F., for 1 hour. Eight servings.

* * *

MINT BAVARIAN

4 teaspoons gelatin
¼ cup cold water
2 cups milk
½ cup sugar
¼ teaspoon salt
1 to 2 drops oil of peppermint
Few drops green vegetable coloring
½ cup whipping cream

Soak gelatin in cold water for 5 minutes. Scald milk, add sugar and salt. Add soaked gelatin and stir until dissolved. Cool slightly, add flavoring and green vegetable coloring. Chill mixture until partially set, then beat in cream, which has been whipped until stiff. Line slightly greased mould with chocolate cookies or thinly sliced chocolate cake and pour pudding mixture over. Chill until firm. Six servings.

CONDITIONS IN EUROPE

Crop prospects in the British Isles indicate substantially lower production this year. The general outlook is poor and the food situation is serious.

In continental Europe some improvement in the winter grain crops is noted. The immediate situation is characterized by a dearth of all kinds of food, and millions of people are existing on a semi-starvation diet.

There appears to be no prospect of any material improvement in the food situation in Europe for many months to come. That continent will depend on large imports of food for another year at least.

Production of rye in the United States this year is estimated at 24,000,000 bushels as compared with 35,000,000 bushels produced in 1946.

New Booklet on Food Quality now Available

Don't guess at the quality of the food you are going to buy; buy by grade. Many Canadian foods sold to the public are graded according to quality. Such foods carry a distinct grade marking, either on the container or on the product itself, which indicates the quality. Thus, the buyer who buys by grade may buy with confidence.

The grading system is of inestimable value to the Canadian consumer, the farmer, and the producer. Grade standards are established and regulations covering these standards are enforced by the Dominion Department of Agriculture. For buyers who want to know facts which will aid in better buying of foods, the Consumer Section, Marketing Service, Dominion Department of Agriculture, has prepared a booklet containing information concerning Canadian food products which are graded.

In the booklet, short descriptions of the various qualities of the products graded are given, together with instructions in identifying the grade marks and where to look for them. This information covers beef, butter, eggs, canned fruits and vegetables, standard sizes of jams, fruit and vegetable juices, frozen fruits and vegetables, dehydrated fruits, fresh fruits, fresh vegetables, jams and jellies, standard sizes of containers, maple syrup, poultry and canned poultry. A copy of the booklet "Buy by Grade", may be obtained by writing to the Dominion Department of Agriculture, Ottawa.

RADIO-ACTIVE PHOSPHORUS

Dr. A. W. G. Spinks of the University of Saskatchewan, said experiments have been conducted in putting radio-active phosphorus in fertilizer seeds with wheat. When the plant is full grown it is possible to trace the distribution of the phosphorus in the plant parts and in the dark to sensitive photographic plates. By this means it is possible to discover how much phosphorus comes from the soil and how much from the fertilizer.

SPEED COUNTS AT Milking Time

Faster milking, according to dairy men, helps increase milk production. Records of thousands of McCormick-Deering Milkers bulge your cows full down their milk flow—and gives more milk. McCormick-Deering Milkers are dependable, sanitary, and easy to clean. Installs quickly, too. Take good care of your milker. Ask us for suggestions on keeping it operating efficiently.

Living Control

To call on the machinery of the United Nations to end discussion between nations is like calling on a cooking thermometer to heat the room. A thermometer does not produce but responds to the temperature of the room. And machinery does not produce but responds to the temper of people. Bad temper-ed people will ruin the UN or any other machinery into a wreck. And, unless there be changes in the temper of the people, the only way to stop a discovering nation is through war.

Those who do not want the United States to provoke war by its stand in Greece and Turkey, therefore, must think of something better than recourse to UN machinery. The men who have the kindle new spirit in the men who run this machinery and in the nations they represent "in the connection," says Rear-Admiral Richard E. Byrd, " I would like to draw attention to a world force which from my personal observation, I believe, is building an organic life in and between the United Nations. I refer to the work of the men and women in Moral Re-Armament."

"We should not, however, wait for Moral Re-Armament to do the job we ourselves should be doing. There can be no organic life in and between the United Nations till we ourselves build organic life in and between members of our own families, communities and industries. Discussion will end between nations, and the UN machinery will work when discussion ends in us and we learn how to run, without friction, our own machines. It is difficult to control world affairs through control of our own living. But not so difficult as the alternative of war

During the war and post-war period international prices of sugar were regulated by the world agreement. Cuba, the main producer, now proposes to pull away from this agreement and sell her product to the highest bidder. Cuban sugar producers say this step has become necessary because other sugar producing countries have violated the agreement.

Josephburg Reformed Church Scene of Impressive Service Sunday

A fitting ceremonial in the [illegible] of confirmation took place last Sunday morning at Josephburg Reformed Church when English for the first time was a very beautiful program of songs and readings presented by the Josephburg Young People of the congregation under the chairmanship of Donald Berker. The whole program was recorded without a hitch thanks to the commendable leadership of the organist Elizabeth Krieger, who, at piano or organ, never missed a beat. The platform was filled by the young people who were the members of the Y.P.A. The conference with their immediate relatives occupied the two front pews, the junior class the next pew and the body of the church was filled by the congregation.

The guest speaker of the evening was Mr Larson, Principal of the Fort High and Mossay, Ed.

A New London Is Being Born

Three great reconstruction schemes from which a new London will emerge were discussed and adopted recently by the London County Council. These constitute the first steps towards full implementation of the County of London Plan—prepared by Sir Patrick Abercrombie, Britain's noted town planning expert. The object of the plan is to co-ordinate all building and development projects into an environmental unity which will ensure that the regeneration of London's bomb-shattered areas shall take a pleasing and dignified shape worthy of the world's largest capital city. The first project is the construction of a new mall between Westminster and Waterloo Bridges as a prelude to the development and replanning of the south bank of the Thames. The second project calls for the redevelopment of some 40 acres at Elephant and Castle at a cost of £4,000,000 in order to speed the flow of traffic at one of London's most congested points. Another of London's busiest road junctions is also being replanned and this is catered for by the third project which proposes a half-mile-long viaduct at Hammersmith.

London Fashion News

Bell-like skirts supported by stiffened canvas petticoats, off-the-shoulder necklines and even small-er waists are features of summer fashions that are coming into production in Britain's dress industry. Vivacity of design and suppleness of line and detail characterize the prototypes of summer clothes now being shown in London. Pale pink marcelle—a fine cotton—brings sophistication to the summer dress in one model; another has been made in a navy and white checked duster cotton model completed by a fitted cornflower violet and a frill round the shoulders. White sharkskin is being used for tailored dresses highlighted by bolts of bright-colored webbing, and white marcella is used for a tailored beach suit with knee-length shorts (gentlemenly turn-ups are a feature of these) and a bare midriff "monkey" jacket with sleeves and cornelet front cut in one.

Mass Production of Fish

For the past five years, United Kingdom scientists have been experimenting with the mass production of fish in a man-made sea, in the hope of bringing more food to the empty tables of Britain and the continent. They are speeding the natural cycle of breeding the sea water with chemicals. The results have been dramatic. Some fish are growing at twice their normal rate, and sometimes even more quickly. A loch on the west coast of Scotland has been dammed off to provide an enclosed experimental area, and the water is fertilized by the continual addition of nitrogen and phosphorus, which causes the small sea plants on which fish feed to grow in greater abundance. In the fertilized water, fish reach a marketable size in three years instead of the normal six. Once operations can be extended to a really large field, it is expected that fish market will be doubled.

Father's Day Sunday, June 15th

In cities, towns and villages throughout the Dominion and United States and Canada, Father's Day will be marked on Sunday, June 15 according to H. L. Duvall, of Toronto, chairman of the Canadian Father's Day committee. The committee includes representatives of all Canada. Orders are coming in "hearty God-speeder of our children's future."

Named three years before the United States' Father's Day, Father's Day was conceived in 1909 by Miss Sonora Dodd of Spokane, Washington, who felt the need of a special day to honor father and "to call attention to father's place in the home, the responsibility of children, the sole rearing of the parentage, the, the protection of motherhood and childhood."

Hon. Dana Porter has written in a letter to a Minister: Alliance which received it favorably from the Dominion Government's day of remembrance goes to national interests, gaining support throughout the United States and Canada. It soon became the custom to wear on Father's Day, a white rose for remembrance and a red rose for living tribute. The Father's Day tribute on June 15 marks the first official celebration of the day in Canada since before the war, during which period, with so many fathers in the uniform, it was not widely marked.

As chairman of the Father's Day Committee, Mr. Duvall himself typifies an average Canadian father. He is the father of two sons and a daughter and has owned and operated his own business since he was 23. Prominent in lacrosse and hockey circles, Mr. Duvall and his son John are great sport fans. An ardent curling a hockey game at Toronto Maple Leaf Gardens.

Construction of Sand Filters for Dugouts

Water from a dugout will normally require filtering and purifying for domestic use, states T. S. Forsaith, Dominion Experimental Station, South Current, Sask. A properly constructed sand filter will remove suspended dirt and other foreign matter but will also remove a portion, but not all, of the bacteria and other minute organisms present. A type of gravel filter constructed in the bottom of the dugout and leading to a well at the side has been recommended in many publications, but has several serious disadvantages.

A type of clear sand filter, which is recommended in preference to the above, can be constructed as follows: One square foot of area is required for each 50 gallons filtered in a 24-hour period. Five square feet of area should do for the normal household. Any clean, rust-proof and watertight container or suitable size can be used. A perforated pipe connecting to the outlet pipe is laid on the bottom. This is covered with a 6-in. layer of clean gravel ranging from one-quarter inch to three-quarter inch in size. A 12-in. layer of clean coarse sand, of a size that will pass an ordinary window screen, is placed on the gravel layer.

The water pipe from the filter to the dugout water tank is arranged so that the filter is always covered with water. The filter and water tank should be placed so that at any convenient location. A pump and piping are required to convey the water from the dugout to filter. It is again emphasized that filter water is not necessarily safe for household use, and must be purified before use. Boiling for ten minutes, or chlorination will accomplish this. The Provincial Dept. of Public Health should be consulted for the method of chlorination, and also in regard to sending in water samples for test.

SUBSTANTIAL REWARDS PAID IN SEARCH FOR "EMPTIES"

Substantial rewards have been paid to Edmonton citizens by B. C. Breweries in connection with their campaign for empties, which is now being conducted today by an Edmonton Committee of Independent Citizens, appointed by the Brewing Industry of which these breweries comprise.

During the past month, rural districts in Alberta have been canvassed in an intensified search for bottles, investigations of the trade's distributing methods and a number carried out. Recently Dalhousie Limited, a corporation of 20 units participated in the campaign by placing empties in the Dalhousie and surrounding districts to their country.

The success of the "empties" drive depended much on the moving industry as well as the brewing industry, with Besides now held on the job, the industry appears to be able to maintain the normal output. However, Dalhousie Limited, while experiencing success in the current drive, feels that more bottles are needed to keep a steady balance, and request another drive will be held next year to forward being made.

Harry Somers, one of Toronto's youngest composers, who has had a number of his works performed in recent CBC network broadcasts. Reaping on a grant given by the Department of Veterans Affairs at the Toronto Conservatory of Music, the 21 year-old musician has also won attention as a pianist, appearing in both concert and CBC radio.

One of Toronto's leading violists, Robert Warburton, is a member of the concert orchestras heard on numerous CBC programs. Currently he leads the viola section on the Edmund Haslridge Show and in Symphony for Strings, Mr. Warburton studied with William Primrose, modern master of the viola.

Egg Breakage May be Reduced with Rural Cases

Many Registered Egg Stations now stock a quantity of boxing what are known as "Rural Cases" available for sale to their producer customers. "Rural Cases" are made of thicker lumber than the cases in ordinary commercial cases and for that reason are more durable and better able to protect eggs during marketing. These cases also have a "lock top" lid which will last as long as the case.

Poultry authorities recommend the use of "Rural Cases", and discourage the use of pails, baskets and such like receptacles for delivering eggs because considerable breakage results. "Rural Cases" may usually be obtained in 15 to 30 dozen sizes. A producer may get the size best suited to the size of his flock and need not use pails or baskets, even if his flock is small.

Attend the Fort Stampede, June 9.

Red Cross Society Plans Free Peacetime Blood Transfusion Service

Plans for the operation of the Canadian Red Cross Society's free peacetime Blood Transfusion Service in Alberta were announced in Calgary by Dr. R. C. Riley, Chairman of the Blood Transfusion Service in Alberta.

"Our plans for Alberta," said Dr. Riley, "are in line with the National Red Cross Society's proposals for obtaining a supply of donations of blood from the citizens of Canada along the same lines as during the war years when mobile units, operated by Red Cross personnel, collected blood from volunteers. The same system will be used in the peacetime undertaking.

"In order to be sure of a sufficient number of donors to support the needs of our hospitals," continued Dr Riley, "the Alberta Division of the Canadian Red Cross Society will conduct a registration of voluntary donors during the week of June 16 to June 21 to give a week to be known as Donor Enrolment Week throughout the province. Following the registration, at a time to be announced later, the mobile units will begin, their work in this manner and station.

"It will be the responsibility of the Red Cross Branches in Alberta to enrol as many voluntary donors as possible during the week of June 15 to 20 during the Donor Enrolment Week period.

"The question has often arisen: What sort of examination or test can be done to tell whether a person can donate blood without risk of his own health. Much research has been given to this matter and the vast experience gained during the war has provided the answer. The total number of blood donations collected in the allied nations during the last two years was several millions. The number of individuals who suffered any considerable adverse effects after donation were so small that there is no doubt that the ill effects are to be considered as being entirely coincidental. There is no doubt that the volunteer donor receives the most thorough scrutiny of the population, and that the portable donation of blood by the healthy individual has no adverse effect on his health.

"When it comes to determining whether the blood is fit for good health, the individual himself is usually as good a judge as any. A person who enjoys a continued state of well-being and has had a history of good health can safely be assumed to be healthy.

"Under the national organization plan each province is to provide suitable premises for a blood transfusion depot and laboratory and bear the cost of maintenance while the Red Cross Society will bear the total operational costs.

"The processing and supplying of the blood to the hospitals will be handled from a main depot in Edmonton and a sub-depot in Calgary. It is reported that the Edmonton Depot will be ready for operation early in July with the Calgary sub-depot following close by.

"Under the new plan," said Dr Riley, "every active treatment hospital in Alberta will receive the full benefits of free transfusion therapy, the one stipulation being that the hospitals must supply the blood and plasma absolutely free to the patients they serve. The Association of Alberta Hospitals have agreed to give this service throughout the province.

"The need for a complete blood transfusion service available to all hospitals is urgent," continued Dr Riley. "A survey made in Canada in 1945 by Dr. W. Stuart Stanbury, National Director of the Blood Transfusion Service, showed that many rural and some city hospitals were inadequately supplied. In some cases the expense was so great that only the needs of small-set hospitals with a maximum of patients could be served.

"This new service," he said, "will permit the hospitals to have blood free of charge on the understanding that the blood will be given to the patients without any cost to them.

"The immediate concern," said Dr Riley, "is the registration of voluntary donors throughout the province during the week of June 15 to June 21 Speaking on behalf of the society in Alberta and its executive, whose responsibility it will be to register the donors, I am confident that the citizens of Alberta will rally strongly to this most worthy cause. Accommodations must be made as they did during the war years."

A DRIP-PROOF TAP

A drip-proof tap, the washer of which can be changed without turning the water off at the main, has recently appeared in Britain. Consisting of only six parts, it is based on a new principle resulting from wartime advances in hydraulic equipment in aircraft. Two washers, made of a new synthetic resilient material, replace the normal one. Sealing is effected by water pressure. After being turned on and off 1,000,000 times in laboratory tests—the equivalent of 60 years of household use—the tap was as good as new.

BIG TOURIST SEASON AHEAD!

THE THOMPSONS are busy as bees, getting their plans in shape for the tourist season. This year, with three more cabins, electricity and a modernized kitchen, they hope to do even better than before.

They were able to make these additions because last fall Mr. Thompson drove to town to see his bank manager. He knew about the nice little business the Thompsons had built up; a bank loan was quickly arranged.

Now the Thompsons can handle more tourists and increase their income. At the same time Canada will benefit from the extra tourist dollars they take in.

Level Crossing Toll Mounts in Alberta

Level crossing dangers and the need of exercising every care have been emphasized by a number of those fatalities in Alberta during recent weeks, according to officials of the Alberta Motor Association.

Two persons were killed in a recent crash at a level crossing when their car was struck by a train while in another accident, one was fatally injured.

Thus, despite the educational campaigns carried on by different organizations, the level crossing menace still is as great as years ago. This condition also prevails in other provinces.

The volume of vehicular traffic is on the increase, making it all the more necessary to adhere to safe driving principles. The appeal to all motorists to "Stop, Look and Listen" at railway crossings is worthy of the utmost possible observance if the fatal accidents at these crossings is to be reduced.

While elimination of grade crossings has been undertaken to a limited extent, there are thousands still in existence. Such crossings should be approached with safe driving rules kept constantly in mind because death or serious injury lurks there.

CANADA'S health

COLOR VISION

Sufferers from color blindness will be glad to learn from authorities that, in many cases, what they have thought of as an incurable affliction may, in fact, be due merely to defective troubles which can be corrected.

In this modern age of speed and multiple machinery, science acknowledges that faulty color vision is a serious handicap, but urges all those afflicted to consult medical authorities, in the hope that something can be done about it.

Defect in color vision is usually hereditary, and is more common in males than females. Many cases are definitely beyond correction, unfortunately, when it is impossible for a person to distinguish between the primary colors at any time.

* * *

FOOT SPRINGS

Authorities have said those medical specialists which treat the feet disapprove of the term "arch", as applied to the structure of the human foot and pedal extremities. They are not arches in the true sense, since they are not static. They are, in fact, more like the springs of an expensive automobile, and, as such, must be treated with due respect for their flexibility.

The type of footwear people adopt has a important bearing on comfort and strength of all feet. It is urged that footwear be such as to allow full play of all the foot's functions.

* * *

HEARING IN CLASS

A large number of previously unsuspected cases of defective hearing have been uncovered by tests conducted in schools in Saskatchewan, where medical officers working among the children and teachers have acquired concerning the relation of such troubles to schooling in class. In some schools hearing aids are being employed for children who have been having difficulty in following the courses, and a notable improvement is reported.

Health authorities urge Canadian parents to consult their family doctors, to assure that their children are not handicapped in their studies by defects which can be remedied.

* * *

TIPS FOR TOTS

For the growing part of the day, our feet are kept in unhygienic surroundings. Specialists in footcare urge that we remember this fact when we are thinking of exercise and bathing.

The food need rest, relaxation and special attention after wearing. Medical authorities pass on these tips, to add to the obvious injunction to adopt footwear which permits free play of all the foot's functions.

"After washing the feet, be sure to dry the toes separately. Moisture there favors infection. And wiggle the toes for a few minutes. It's good for them."

* * *

HABITS AND HEALTH

Until healthful habits and routines are universally accepted and practised, health authorities admit that it won't always be easy for those who understand the finer points of living to adhere to sound programs.

Many of man's worst habits are rooted in superstition, ignorance and custom. As a case in point, the medical people indicate the difficulty of bringing up children according to approved principles of hygiene when the vast majority of youngsters are allowed to find their own feet in a haphazard society.

The authorities are agreed that education is necessary to develop public understanding and cooperation with habits that favor health.

* * *

SEED PROTECTION

By their "defeating" action, such industrial solvents as gasoline, kerosene, petroleum spirits, and paint-thinners, can cause skin inflammation, and industrial health officers warn against their use on skin abrasions.

Workers handling such solvents are urged to wear solvent-proof gloves, and to remove exposed skin surfaces with a protective cream before there is a danger of solvent-ing or ab-bsorbing.

THE 1947 Special Allowance of SUGAR FOR CANNING will be 10 LBS. PER PERSON

As in previous years the special allowance of sugar for canning will be in addition to the regular sugar ration. It will be made available in two amounts of 5 pounds each.

THESE ARE THE COUPONS THAT PROVIDE THE EXTRA SUGAR

VALID MAY 15th Coupon No. 13, 14, 15, 16, 17 | VALID JULY 17th Coupon No. 18, 19, 20, 21, 22

Consumers using the special sugar ration coupons valid for canning sugar, will not receive valid coupons for regular sugar ration.

Each coupon is good for the purchase of 1 pound of sugar.

The world sugar situation has been improved, and has made possible the restoration in the Canadian allocation. Wise consumers, however, can still help materially to avoid shortages by using conserved allowances.

Iris Useful for Canadian Gardens

The tall bearded varieties of Iris are amongst the most useful flowers for Canadian gardens. There are the ones generally found in the old fashioned garden. They are easy to grow, and are to be found in a great number of colors, blues, the varieties found by each one possessing a garden will be sure to have a good display of flowers. Most people realize that the bulbs should be planted in September, but if given very little care, perhaps a few dahlias and other spring bulbs are added to have a continuous flower garden all summer.

The majority of gardeners like a few varieties of Iris in the perennial borders and they are quite suitable for this purpose, if given well-drained soil and kept free from rampant growing neighbors, so that the crowns (the enlarged underground stems) will become well ripened in summer, the bulbs will bloom well for several years before one set particularly should

"Look! There's the Fort Confectionery!"

WHAT A DIFFERENCE!

W. F. Hallett, farmer of the district, recently sold a quarter section of land for $40. He recalls that in 1903 he sold a 160 acre half for $5.00—a cash of $2.50 per acre. He would have framed the $5.00 cheque but he needed the money.

Barley Entries to Close on June 15th

Siding of a late spring season have apparently slowed up entries in the Fifth Annual Edmonton Barley Contest sponsored by the Edmonton Exhibition Association.

According to the secretary of 1947 contest may substantially exceed those of last year, the National Barley Improvement Committee is forwarding prospective contestants that entries close less than three weeks hence. The final date is June 15.

As was the case last year entry forms have to be mailed to the secretary of the association from points in the province in which the contestant lives.

For Hectolitre, they should be mailed to N. C. MacKay, Department of Agriculture, Extension Service, Winnipeg; for Saskatchewan to R. H. Vigor, Department of Agriculture, Regina; and for Alberta to A. M. Wilson, Department of Agriculture, Edmonton.

Suggest Methods of Retaining Enamel Finish

Enamel is tough but it will stain, scratch and chip if used roughly. To preserve the charming beauty of enamel finishes in bathroom and kitchen, Eatons list the following suggestions are offered in the home:

Avoid use of harsh, abrasive cleaners, or steel wool. Gets the enamel finish dull and makes it more increasingly hard to keep clean.

The best rule to preserve the finish is to clean it frequently, and hot water using a coarse cloth or brush. For stubborn stains use a mild abrasive cleaner on a soft cotton cloth. Chlorinated preparations especially for plumbing fixtures may be obtained from most plumbers.

It is better to dispose of garbage than to use a waterproof cement that permits the action of acids from fruits, vegetables, tea leaves and coffee grounds to rot them.

Using the sink for shipping ice, chopping meat, slicing and shredding vegetables will dull the finish. Avoid hard blows by heavy pots or pans or sliding them across the enamelled surface.

If it is necessary to stand in the bath tub while dressing or shaving, protect the walls. Some protective cover should be used in the bottom.

Spilled medicines, cosmetics, hair rinses, drain pipe solvent and

Coming Events

The Annual Sub-District Membership Convention of the Alberta Provincial Police, Sub-District No. 1 of District 4 comprising the R.D. of Strathcona will be held on Wednesday, June 11 in the South Edmonton Library, 1:30 p.m. Members and Friends welcome. 23-2c

The Good Hope A.F.U. Local will hold their regular meeting on Tuesday, June 3rd at 8:30 p.m. in the Good Hope School 23c

Great Strides in Automobile Painting in Last Few Years

There once was a time when somebody got 12 coats of paint in so many years before they left the factory. Now they get three coats in less than an hour—and the finished job is more durable and more appealing too. All this brilliance is the result of a great technology brought about in synthetic resins and enamels, but also in improvements in the old machines of trying to keep in time with changing preferences.

Many an automobile is bought because of a color preference even in these days of car shortages, so color is important to manufacturers. Just how important it is was demonstrated a few years ago when one company brought out a model in Chinese gold—only to have sales fall off sharply. The experiment hasn't been repeated since.

Of the seven standard colors now used on new cars, black is by far the most popular, followed by preferences of about 20 per cent. Maroon blue is first choice for about 10 per cent of customers, followed by dark blue, light blue, maroon and grey in that order.

Interesting photographic selections should always be tinged up immediately.

Have clothing and bedding repaired promptly to avoid stains reaching from mildewed in the water.

The authorities' par quote given upon the point of view you hold.

NOTICE

NOTICE IS HEREBY GIVEN that pursuant to a special resolution of the shareholders Jacobs Motors Limited, Portland Company with Head Office at Fort Saskatchewan, in the Province of Alberta, intends to apply to the Registrar of Companies for the Province of Alberta to have the name of the Company changed from Jacobs Limited Motors to Parker Motors Limited.

AND FURTHER TAKE NOTICE that the said Company, pursuant to the said resolution, intends to apply forthwith after the publication of this Notice for such change to name and will, in the event of such application being granted, continue to carry on its business as aforesaid under the proposed name of Parker Motors Limited.

Highway Improvement Under Way In Fort Saskatchewan District

During the past week surveyors have been busy staking out the new highway which [illegible] will eliminate the level railway crossing.

The new road will cut across the top of the hill on the north side of the track past the Byers and Gaumont farms then across on the road that the Snodgrass farm is on, and continue south to the high way. Plans are not yet complete which road going east will be used for the new highway.

Some machinery is already on the ground and it is expected that construction of the road will start immediately.

To date nothing could be learned whether the new part of the highway which was built last year will be hard surfaced this year. However, are in hopes that the contractor which men are now working on will be completed in plenty of time and the whole section of the highway a hard surfaced.

School Flashes

The following are the winners in the measurement held on Friday, Girls—Mona Mader 15 points; Irene Solander 13 points; Mary Thomson 12 points Pearl Chamberlain 9 points.

Boys—Elwood Galloway 20 points, Bill Oliver 14 points Victor Rego 12 points; George Gray and Mervin Galloway each 12 points.

Although the weather was not entirely favorable, sports were not too damp.

After the tracktrest a Weiner Roast was held down by the bridge We enjoyed several games before actually participant in the main event of the evening, eating Um Good!! We enjoyed a sing-sing(!) after the eats. We are sorry that this was our last outdoor party this year.

Our Under-Grads

We are proud to present
The names of all those
Who seem to be bent
On school's early close. (for them)

Clifford Corcoran, Dougie Davies, Mannie Domericosky, Bill Dowling, Elwood Galloway, Bob Gauf, Marjie Gunn, Joe Hoole, Elizabeth Krieger, Merna Marler, Joey McLellan, Graham O'Brien, Bill Oliver, Cecile Paradis, Eileen Rice, Ruth Rye, Victoria Ryan, Frances Schreier, Ellen Scott, Isabel Smith, Amie Strembicki, Kathrine Wahl and Diane Wood.

Our girls football team came out on the winning end of the score in the game with Lamont. The score was 23-15. Congratulations!

Willie: "When rain falls, does it never come again?"
Nicholas: (funny boy) "Yes, in dew time."

An untimely joke is a source of bitter regret always. Sometimes it may run a man: not because it is a joke, but because it is untimely. —Joseph Conrad.

The main hunt—Right vs Wrong. Every other fight is secondary.

Around the Town

Mr Albert Todd of Los Angeles, California has been visiting at the farm of his sister and brother-in-law, Mr and Mrs Hugh Stewart, and with his brother Tom of the Fort.

Mr. Todd left the Fort about 25 years ago for the States, but will be remembered by many of the old timers here.

Mr. and Mrs C. D. Janes left Sunday for Banff to attend the Manufacturers Convention. They expect to be back home by Saturday.

Mr. and Mrs M. Downs left last week for a three week visit to Rainy River, Ontario

Miss Jackie Sutherland of Edmonton spent last week-end at the home of Mr. and Mrs. H. Cranston

Mrs. Fred Sherman returned home Tuesday from Lethbridge where she has been visiting her son and daughter-in-law, Mr. and Mrs [illegible] Sherman and their new baby son, Frederick Thad.

The regular monthly meeting of the W.I. will be held on Wednesday, June 11 in the Usiko Hall at 8 p.m. Mrs. McLellan will give a talk on Home Economics, also a demonstration of work done by the

Mrs. A. Avery and son of Tabor, Alberta are visiting with Mrs. Avery's parents, Mr. and Mrs. Leonard Brown.

Mr. and Mrs. H. Boisjal are leaving the Fort to live with Mr and Mrs. B. Belair on their farm.

Any old or new friends wishing to call on them may do so at the farm.

10 Commandments For Shooting Safety

In an effort to curb shooting accidents, the Canadian Small Bore Association has issued the following ten commandments for shooting safety:—

1.—Treat every gun with the respect due a loaded gun.
2.—Carry only empty guns, taken down or with action open, into your automobile, camp or home.
3.—Be sure the barrel and action are always clear of obstructions.
4.—Always carry your gun so you can control the direction of the muzzle even if you stumble.
5.—Be sure of your target before you pull the trigger.
6.—Never point a gun at anything you do not wish to shoot.
7.—Never leave a gun unattended unless you first unload it.
8.—Never climb a tree or a fence with a loaded gun.
9.—Never shoot at a flat surface or the surface of water.
10.—Do not mix gunpowder, alcohol and gasoline.

S. Cooking Lake

May 31st will be a memorable day for South Cooking Lake, for that was the occasion of the [illegible] of the bowling of W. [illegible] and Ray Murdock and the opening of the new Community Hall.

The marriage ceremony was in Edmonton, so those unfortunates among us who were denied the privilege of being eye-witnesses of the proceedings and of seeing the bride and bridesmaid — all their lovely raiment Therefore we cannot do justice to the scene and the principal characters. But we did see the bride and bridesmaid at the wedding dance that evening, and we wish we had the knowledge and facility of a lady reporter that we might describe in detail those wedding dresses and their wearers. All that a mere man can say, we do say—that both bride and bridesmaid were everything that one may imagine.

The second memorable event for South Cooking Lake was the opening of the new hall. Visitors and residents alike were amazed and delighted to find, in place of the empty, uninteresting corner opposite the filling station, a brightly illuminated, spacious hall welcoming them with wide open doors to a gaily festooned interior full of happy dancers, all tripping merrily to the lilting music of a fine orchestra from Leduc. And we at once think of another wedding scene, described by Coleridge in his Ancient Mariner and two lines of his come uncought to our memory:

"And nodding their heads before them goes,
The merry minstrelsy."

The wedding guests were here, too. All conspicuous among the dancers were the bride and bridesmaid, visions of loveliness, completely eclipsing of course the bridegroom and best man, indistinguishable from the many other mere men assembled there—except, of course, for their greater happiness.

On Saturday, May 24th, and again on the following Saturday, equally happy and animated dances were assembled in the new building leaving no doubt in the minds of the officials and their supporters as to the popularity and success of the new hall.

Alfalfa Hay

We require increasing amounts of green, dry, reasonably pure alfalfa hay suitable for grinding. In case you have a few tons of last year's alfalfa still on hand you should get in touch with us right away. You can haul it yourself or we can arrange for trucks.

New Crop Alfalfa

We will require 2,000 tons. It must be green, dry, and suitable for grinding. First cut should be made before it comes into bloom. The second cutting will then be about equal to the first cutting, and both will be of good quality if well put up. We consider the best part of each the first half of July is usually good haying weather. Try to get your alfalfa put up then.

Seeding Alfalfa

The land should be free of weeds and well packed. Twelve pounds of wood per acre will give the best results where the alfalfa is to be sold for grinding. This gives a good coverage and helps keep the weeds out. Seed without nurse crop and try to sow just before a rain.

East Edmonton

The district whelan Irene Watt, who had the misfortune to fall and fracture her knee cap, a speedy recovery.

* * *

The boys softball team of the senior room played Colchester last Friday, the score was 16-12 in favor of East Edmonton. Good work boys keep it up.

* * *

The front of the post few nights did considerable damage to the fruit blossoms and gardens that were up. It is not known as yet to what extent the crops are damaged.

* * *

The senior schoolgirls basketball team played a game with Clover Bar but were defeated by a score of 14 to 6. Better luck next time girls.

* * *

The school children of the district are busy these days practising jumping, racing and ball games to take part next week in a track meet to be held at Clover Bar.

* * *

Marvin Hoddinott has returned home from Pennsylvania, U.S.A. where he has been attending college.

* * *

A Silver Tea was held on Wednesday afternoon, May 28 at the home of Mrs. J. Fitz in aid of the East Edmonton Baseball Team. Mrs. R. Faulkner and Mrs. W. Hoddinott assisted in serving.

* * *

Mr. and Mrs. L. R. Stubbrook wish to thank all their neighbors and members of the Willing Workers of East Edmonton for their kind deeds and thoughtfulness they have shown in the illness of their daughter Barbra May Stubbrook. The many thoughtfulness shown will long be remembered throughout the Stubbrook household.

Futonvale

Mrs. Frank Hosking was hostess to a "brush party" one evening recently. About sixteen ladies were present.

* * *

Miss Cassy Williams has completed her second year at the university and is now at home for the summer.

* * *

Mr. Josh Holland suffered a severe injury at his work in the city. We wish him a speedy and complete recovery.

* * *

We notice a goodly number of Futonvale boys playing softball in neighboring towns. Why not a Futonvale team?

* * *

Congratulations to Miss Irene Gardiner upon the engagement to Mr. Snider of Thorsby. Good luck to the young couple.

* * *

Many Futonvale people attended the opening of the new hall at South Cooking lake, and report a very nice hall and sociable crowd.

* * *

The Goodwill Club will meet June 11th at the home of Mrs. Jack Lyon. Everybody welcome.

FREEZING AND CANNING STRAWBERRIES

It may seem rather early to be talking about strawberries, but in some parts of Canada, the season for them has arrived. It is hoped that the strawberry crop will be better this year than it has been for the last two or three years, and the housewife will want to make the best use of this most delicious fruit.

According to facilities available and taking into account personal tastes, strawberries may be frozen, canned or made up into jam.

If there is a quick-freezing locker or plant in your community, frozen strawberries will most probably be your choice either in freezing, the color, flavor and shape is so well retained that it is a joy to have frozen berries to serve out of season. Another variation of strawberries frozen more successfully than others, so it is recommended to check with your provincial Department of Agriculture

CJCA SCHOLARSHIP AWARDS

Two youthful winners at the 45th Alberta Musical Festival received CJCA Scholarships. The awards, valued at $50 each are given annually by CJCA, as part of this station's policy to promote and encourage the development of talent in Alberta.

Miss Ruth Bialka of Edmonton won the Speech Arts Scholarship and Lorraine Butchart, also of Edmonton, won the other award for the highest marks in the Intermediate instrumental class.

CJCA also offers a $100 scholarship annually to the winner of the piano class in the Edmonton Musical Festival. This was won last year by Gladys Rhymer of Edmonton.

* * *

Last year's winners were David Rose in Speech Arts and Hazel Hamilton in the instrumental class.

COLD PACK METHOD

The syrup is made then the washed and hulled strawberries are added and slowly brought to the boil and simmered for 1 minute. The kettle is then removed from the heat and allowed to stand for one hour. Then the sealers are packed, leaving the required headspace of a half-inch and sealed according to the type of sealer used. The processing is done in the boiling water bath, pint sealers are processed 15 minutes and quart sealers 20 minutes.

* * *

HOT PACK METHOD

The syrup is brought to the boil in the kettle, then the strawberries are added, the kettle covered and removed from the heat. Allowed to stand for one hour. The strawberries in the freezing can brought to the boil, packed hot, with the required headspace and then processed for 15 minutes in both pint and quart sealers in the boiling water bath.

WEDNESDAY, JUNE 4, 1947

A Service Free to All

Whole blood and blood plasma are now firmly established as life-saving agents in the field of therapeutic medicine and science.

Guided by the experience gained in World War II, when thousands upon thousands of lives were saved by means of transfusion therapy, the Canadian Red Cross Society is organizing a Blood Transfusion Service to insure that all Canadians, present and future, will have ready access to an emergency life-saving medium.

The value of such a program leaves nothing to the imagination. The life-saving possibilities of such a service can be drawn from the 1944 accident mortality figures in Canada, when over 6800 persons met violent death. Based on wartime experience, consider how many of these lives would have been saved by immediate transfusion therapy. Again, in 1943, over 21 per cent of all maternal deaths were due to hemorrhage. It is safe to say, with adequate transfusion therapy, that fully three-quarters of these lives might have been saved.

Under such a program, donors must be between the ages of 21 and 60 years, no younger than 21 and no older than a maximum age of 17 years.

Fraser Mackie, Provincial Director of Extension Services of Agriculture, says that the Province of Alberta in 1930 for the particular benefit of the farm women interested. The beauty of the school grounds, consisting of the 222 districts and the type of practical farmhouse and outdoor equipment offered for all competitors in an interesting and educational way.

The Boys' and Girls' Camp" is a special short course sponsored by the Vermilion Agricultural Society in connection with the Provincial Fair. In addition to a program of lectures, competitions and demonstrations in Agricultural and Home Economics subjects the young people will be entertained at the fair by the Agricultural Society and will have an excellent opportunity to see the exhibits and the

Former students and their friends will collect their annual re-union and inspect the summer work at the school over a three-day period, July 31 to August 2.

Further particulars on any of the courses may be obtained by writing to the School of Agriculture, Vermilion, but since accommodation is limited those planning to attend should make their reservations as soon as possible.

Dominion to Aid Land Development

Increased development of farm lands from British Columbia to Nova Scotia may be undertaken with financial assistance as the result of a government announcement in the House of Commons, May 31, by the Right Hon. J. G. Gardiner, Dominion Minister of Agriculture.

The Dominion government is prepared to discuss with the provinces concerned plans under which development could proceed over a period to be agreed upon, sufficiently long to bring about the desired results, but not to exceed five years.

Among the possible projects are reclamation of Nova Scotia and New Brunswick dykelands; flood control, land drainage and irrigation in British Columbia; the clearing and breaking of new land for farming all across Canada.

"Any expenditure of money on these projects will be brought before Parliament and legislated through an item on the estimates", said Mr. Gardiner.

In making this announcement, Mr. Gardiner said that the Government has decided not to extend the principles of the Prairie Farm Rehabilitation Act beyond the established drought and soil-drifting PFRA area in the three prairie provinces.

Attend the Fort Stampede, June 9.

Short Courses at Agricultural School

An entire programme of summer Short Courses has been planned for the Vermilion School of Agriculture. Many farm people will welcome the opportunity for a visit to the school offered by the following program of courses:

Young Farmers' Week—June 16 to 21.

Farm Women's Week—July 3 to 8

Girls' Club Week—July 7 to 12

Junior Farm Clubs—July 14 to 19

Boys' and Girls' Camp—July 21 to 26.

Club Leaders' Conference—July 28 to 30

V.S.A. Alumni Re-Union—July 31 to August 2.

"Young Farmers' Week" is a special course being offered for the particular benefit of our young Alberta farmers who are anxious to improve their technical knowledge, of farming. Young men who can leave the farm for a short time this spring should not fail that their course a profitable and enjoyable holiday after the strenuous days of spring work. There are no entrance requirements other than a minimum age of 17 years.

Fraser Mackie, Provincial Director of Extension Services of Agriculture, says that the Province of Alberta in 1930 for the particular benefit of the farm women interested. The beauty of the school grounds, consisting of the 222 districts and the type of practical farmhouse and outdoor equipment offered for all competitors in an interesting and educational way.

The Boys' and Girls' Camp" is a special short course sponsored by the Vermilion Agricultural Society in connection with the Provincial Fair. In addition to a program of lectures, competitions and demonstrations in Agricultural and Home Economics subjects the young people will be entertained at the fair by the Agricultural Society and will have an excellent opportunity to see the exhibits and the

Former students and their friends will collect their annual re-union and inspect the summer work at the school over a three-day period, July 31 to August 2.

Further particulars on any of the courses may be obtained by writing to the School of Agriculture, Vermilion, but since accommodation is limited those planning to attend should make their reservations as soon as possible.

Dominion to Aid Land Development

Increased development of farm lands from British Columbia to Nova Scotia may be undertaken with financial assistance as the result of a government announcement in the House of Commons, May 31, by the Right Hon. J. G. Gardiner, Dominion Minister of Agriculture.

The Dominion government is prepared to discuss with the provinces concerned plans under which development could proceed over a period to be agreed upon, sufficiently long to bring about the desired results, but not to exceed five years.

Among the possible projects are reclamation of Nova Scotia and New Brunswick dykelands; flood control, land drainage and irrigation in British Columbia; the clearing and breaking of new land for farming all across Canada.

"Any expenditure of money on these projects will be brought before Parliament and legislated through an item on the estimates", said Mr. Gardiner.

In making this announcement, Mr. Gardiner said that the Government has decided not to extend the principles of the Prairie Farm Rehabilitation Act beyond the established drought and soil-drifting PFRA area in the three prairie provinces.

Attend the Fort Stampede, June 9.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

THE PRICE OF WHEAT

Quite a controversy seems to be taking place about the price of wheat. Last August the price at which wheat was sold by the Wheat Board to overseas buyers other than Britain was $2.05, compared with $1.26 for 1 Northern being paid to our farmers—which equals $1.18 at the average country point. Since then, however, the price of so-called Class 2 wheat, which means wheat being sold by our Wheat Board to all countries of the world excepting Great Britain has gone up by leaps and bounds. A few weeks ago it touched $3.10. Today it is $2.05.

It can be taken for granted, I for one think, that when the government set the price of $3.55 to our farmers it had no idea that our Wheat Board would be selling a large quantity of wheat to many countries up to $3.10 a bushel. Some people think, like, and I am among them, that the time has come when the government should reconsider the whole situation, and give our farmers a considerable increase on the price they are now receiving for wheat at country elevators. Unexportedly large surpluses of wheat, wanted from the sale of high priced wheat would, I suggest, be better in the hands of our farmers here, than lying in the Government Treasury at Ottawa for four or five long years.

* * *

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The Canadian Department of Agriculture has officially placed winter-kill in Manitoba. Since the bulk of the Canadian fall wheat crop is grown, at 60,000 acres or 9 per cent of the sown acreage, leaving 611,000 acres for harvest this year. The bare brood raisers in the British and American zones of Germany was cut from 8 lbs. 8 ozs. on 5 lbs. 8 ozs. per week on May 1st.

Moroeco is expected to have a surplus of 1,250,000 bushels of wheat, and 12,750,000 bushels of barley this year. The surplus wheat will be loaned to France, while the barley will go to Tunis and Algeria if production in these countries, falls below normal.

The bush wheat prices prevailing in the United States are due to government purchases, according to the Millers' National Federation. The United States government has complete control over exports of wheat and flour but none any cause on the open market.

Raspberry Diseases

The most serious diseases of the raspberry crop in Canada are the virus diseases found throughout the Dominion on both the wild and cultivated varieties. These virus

The infection principle permeates all parts of the affected plants and causes a reduction in growth and yield. It is pointed out by G. H. Berkeley and S. C. Chamberlain of the Dominion Laboratory of Plant Pathology, St. Catherines, Ontario, that the affected plants never recover nor persist from year to year, constituting a source of infection from which serious

may spread these diseases. The

Besides the virus diseases there are many of the fungous type, which is entirely different from that of the virus. Fungus diseases are caused by fungi parasitizing different parts of the plant. Descriptions of the various diseases and information as to methods of control are given in the Publication No. 769 "Diseases of the Raspberry", a copy of which may be obtained by writing to the Dominion Department of Agriculture, Ottawa. Information on the dis-

ENGAGEMENTS
Mr. and Mrs. J. P. Galloway of Fort Saskatchewan wish to announce the engagement of their daughter Isabel, to Donald J. Roper of Rocky Mountain House, son of Mr. and Mrs. A. Roper of Edmonton. The wedding will take place in Edmonton on June 14th.

Mr. and Mrs. J. M. Lang of Olds, Alberta, announce the engagement of their only daughter Mabyn Gladys to John Milton Hoyer, youngest son of Mrs. K. Hoyer and the late Mr. Hoyer. The wedding will take place June 27 at St. Stephens College Chapel, Edmonton.

IN MEMORIAM
In loving memory of my dear mother, Margaret Ann Simmons, who passed away June 7, 1942. God knows how much I miss her.
Never shall her memory fade,
Loving thoughts shall ever wander
To the spot where she is laid.
Ever remembered by her loving daughter, Minnie.

In loving memory of my loving brother Edward Dennis who passed away June 7, 1946.
We have only your memory, dear brother,
To remember our whole life through;
But the sweetness will linger forever
As we treasure the image of you.
Every remembered by his loving sister Ruth.

In loving memory of our beloved father, Gustav Berg, who died June 2, 1945.
Nothing can ever take away
The love a heart holds dear.
Fond memories linger every day,
Remembrance keeps him near.
Ever remembered by his loving sons and daughters.

Annual Banquet and Dance of Fort High Held Friday, June 6

The Graduation Banquet and Dance of the Fort High School was held last Friday evening, and for eleven of those present was the final get-together with fellow students.

It is one sight that is looked forward to, especially by the girls, because on this occasion formal dresses are worn and for many it is often their first formal it is also a night that brings home to those who are graduating the realization that the friendships they have made throughout the years are about to be broken. Some will drift away to other cities and countries, and for them the case will never be seen or heard from again.

Elwood Galloway, President of the Students' Union was chairman, and opened the program with "O Canada," followed by the invocation by Rev. W. W. Buxton. An excellent dinner was then served by the ladies of the First United Church W.A.

A toast to the King was then proposed by Major Mayer.

Elwood Galloway in his remarks as president, outlined some of the activities and projects undertaken by the students and thanked them for the splendid support he had received during his term of office.

Isabel Smith proposed the toast to the School Board expressing her thanks on behalf of the students for the co-operation they had always received.

Mrs. Bradbina, in her reply, stated the board was ready and willing at all times to do what they could to aid the students in obtaining a better education.

Mr. R. Hemsley, chairman of the Divisional Board extended greetings from that board and wished the graduates every success in their various undertakings. He stressed the point, however, that remaining a great deal of money did not necessarily mean success. To be a success in 1950, he said, one should do what they can to bring happiness to those less fortunate and thus help to make a better world.

Bill Parker in toasting the teachers thanked them for the aid and assistance they had rendered and voiced in helping them to further their education.

Mr. Richardson, in his reply, wished the graduating class every success and said he was proud of them.

Marguerite Burnfield in her Valedictory address expressed her pleasure of being given this honor. She paid a glowing tribute to the teachers and the school and stated one should be proud to say "I graduated from Fort High".

Mr. E. A. Rouque expressed his pleasure at having the opportunity of making a toast to the students. He praised them for the fine boys and girls they were and also wished them every success in future occupations.

Ellen Scott replying to the toast thanked Mr. Rouque for his kind remarks.

Mr. Lazear, in his remarks also paid a tribute to the students for their fine school spirit. He thanked both the local and divisional boards for the co-operation he had received in any undertaking that would be beneficial to the school.

Mr. J. J. LaBlanc, Superintendent of Schools, proposed the toast. He stated the Fort school had a record of holding its own and was greatly satisfied.

He touched on the progress made in bring in more pupils by bus and hoped that still more students could be brought in.

At present most subjects taught are academic he said, but thought that pupils who go to farming are not receiving enough consideration. Practical farming should be taught which would assist those students when they come out on their own farms. He urged the students not to show disgodeamy but to hitch their wagon to a star.

During the program Jeannette Clark played a piano solo and Cecile Paradis, Frances Schuster and Norma Marler sang two songs.

At the close of the program a cup was awarded to Bill Oliver for the one mile race, to Elwood Galloway for the Boy's Aggregate and to Norma Marler for the Girls Aggregate, winners in the recent school field meet.

Dancing got underway shortly after 9 p.m. and was enjoyed till small hours of the morning.

The entire proceeds from the midnight lunch, served by the ladies of the W.A. were given to the students to help defray expenses. The students wish to take this opportunity of expressing their sincere thanks to the ladies for the consideration.

Around the Town

The tea and sale of home baking held Saturday last at the home of Mrs. J. D. McLean was well attended both afternoon and evening.

The handicraft work which was for the W.I. ladies the W.I. Shield and many 1st, 2nd and 3rd prizes was also on display and many complimentary comments were heard on the excellent work displayed.

Mr. Harry Atkinson and Miss Atkinson and Mr. and Mrs. Shears of Lamont left Sunday morning for an extended visit to California

Mr. A. B. King left Friday morning for a week-end visit with his son and daughter-in-law, Mr. and Mrs. Edgerton King at Fernie, B.C.

Mr. J. Siddall paid a short visit with his brother Tom here Saturday. Mr. Siddall is on the staff of the Canadian Research Council, Ottawa. He is at present on research work at the Namao Airport on the new "Flying Wing".

Miss Jean Agnew of Grande Prairie, spent the week-end with her aunt and uncle, Mr. and Mrs. von Iffland.

Mr. and Mrs. K. Boyce Wallis are receiving the sympathy of Fort Saskatchewan friends on the death of their infant daughter Gwendolyn Mae, which occurred June 6th in Edmonton. Buried was Mae in Fort Saskatchewan Cemetery on Saturday afternoon, June 7, after private service conducted by Rev. W. D. Race. The baby, never strong since her birth, April 2nd, was the only grandchild of Mr. and Mrs. J. Raymond Wallis.

Mr. and Mrs. Walter Sherman are receiving congratulations on the birth of a daughter, Jane Dale, born Monday, June 9th at the Royal Alex Hospital.

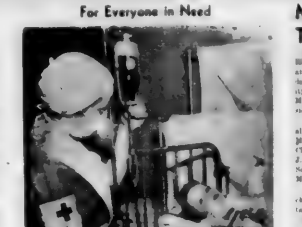
Mr. and Mrs. B. Lazear and family spent the long week-end visiting relatives and friends at Irma and Killam.

Mr. D. C. Miller is visiting with Mr. Gordon, Gallant this week.

Dr. and Mrs. W. A. Johnstone left Wednesday morning for Banff to attend a three-day convention of the Dental Association.

A constituency conference of the W.I. will be held on Wednesday, June 18 at 2 p.m. in the Union Hall. Following the meeting the ladies will go to the home of Mrs. D. Colchehouse for dinner.

For Everyone in Need



Free blood for everyone in need is the aim of the Canadian Red Cross Society's free peacetime Blood Transfusion Service now being organized in the province of Alberta. When in full operation hospital patients like the badly burned little girl shown above will benefit from the service. A province-wide campaign to enrol voluntary donors will be undertaken from June 15 to 21. Everyone between the ages of 18 and 65 are urged to register with the Red Cross. All hospitals in Alberta will be included in the

$50.00 in Prizes Awarded to Members of Clover Bar-Fort Calf Club

Over thirteen calves raised by members of the Clover Bar-Fort Junior Calf Club were on show in the skating rink here Tuesday afternoon.

Approximately $50.00 in prizes were awarded to the boys for Judging Contest, Showmanship, Best Dressed Calf and Novice Display.

Mr. R. H. Byers of Clover Bar, who, along with Mr. Charles Gallop is a club leader of the Club opened the show by telling the members of the club about the various contests and what they were to do in regards to showing their animals. He then introduced Mr. H. Bland of the Department of Agriculture, Edmonton who was the judge.

Mr. Black gave a brief talk to the boys and girls on some of the most important points on how to judge cattle.

Winners of the event are as follows:

Judging Contest
1st Roy Galloway, 2nd Stewart Shackleton, 3rd Ed Lawrence, 4th Elwood Galloway. The prize for this event was $10.00, donated by the Fort Co-op Service Club.

Showmanship
1st Allan Marler, 2nd Joyce Alkarch, 3rd Elwood Galloway, 4th Don Jackman. The prize for this event was $15.00 also donated by the Co-op.

Best Dressed Calf
Don Hutchinson who won the $5.00 prize donated by Mr. Charles F. Lowe

Novice Display
Halford Pearce won the $5.00 prize donated by Mr P. Williams

Weight of Calves
A prize of $10.00 was donated by the D. and J. Stores for calves gaining the greatest weight. The following were successful in this event: 1st Ron Pearce, 2nd Delford Pearce, 3rd Ray Stetson, 4th Ray Rispel, 5th Don Jackson, 6th Willie Kerscher

Allan Marler the youngest member also received a prize, a show halter, donated by the Service Club.

All members of the club were also invited to the Fort Confectionery by Henry Wensley who treated them to their favorite ice cream dish.

Following the show the young people took their calves to the city for the Junior Calf Club Contest on the following day.

This is the first time since the club was formed that prizes have been shown here, and it is to be hoped that it will now become an annual event.

S. Cooking Lake

Mr. and Mrs. Comrie, Bob, Sue, and Gordon have recently enjoyed a visit from Miss Betty E. Bowman, Mrs. Comrie's sister, who broke her journey here as she travelled from Toronto to Trail, B.C.

Miss Bowman, who has been studying two years at the United Church Training School in Toronto, has graduated with the following honors: General Proficiency Scholarship and the Lucas Scholarship.

Miss Bowman is one of the seven western students to whom special tribute was paid by Mrs. J. D. Hutchinson, Principal of the Training School, at the Graduation Service held on May 16th.

Quoting from the current "Observer" — "They" (the students from B.C.) "are a gifted, competent, trustworthy group of young women."

Knox United Church, Trail, is to be congratulated on securing the devoted talents and training of Miss Bowman.

It's an ill wind—you all know the old adage. And it's quite applicable to the fortunes of South Cooking Lake at this time, for the Edmonton housing shortage (an ill wind indeed) has blown several families to take over cottages at our popular summer resort. They are: Mr. and Mrs. Beakly, Connie and baby; Mr. and Mrs. Dunsdale; Mr. and Mrs. Lisgall and Mr. and Mrs. Kirkham, Tommy and baby. We take this opportunity to welcome them on behalf of the community.

Other new comers are Mr. and Mrs. Lorer and Doreen, who have taken over the cafe from Mr. and Mrs. Millard; and Mrs. Beamgartner and Steve, who have bought the Bowman home. Steve's welcome there, also to South Cooking Lake.

Franklin Softball players remain unbeaten, but not unbeatable; and there are three weeks yet to go before they are "out of the wood". The second game with Stoney Creek gave them an even more decisive victory than the first: 51 to 7. But Stoney Creek, good sports through and through, undismayed and hopeful, are eager to try their fortunes again.

The Minnitik players are the latest to be defeated by Franklin — 25 to 6. But Minnitik, like Stoney Creek are not "counted out", but ready to come up again.

On Saturday evening last our student minister, Roy Chubb, entertained the young folk at a weiner roast on the farm of Mr. and Mrs. Westniak. A softball game opened the proceedings and provided interest and amusement as long as the daylight held. Then the fire was lit, and, by the light of its leaping, crackling flames, games were played until everyone was tired, but not too tired to put the wieners to the bottom—the ordeal by fire. No one survived—not one wiener of course.

After a few songs, grace and gay, Roy bowed off the party with a few well chosen thoughts suggested by the change wrought by the purifying fire on a pile of brush, once upon a time green, living trees.

Much Interest Shown by Municipal Taxpayers at Meeting Here Wed.

Ninety odd taxpayers of the Municipal District of Strathcona attended a meeting held Wednesday evening in the Fort Common ity Hall to ask members of the M.D. Council and Clover Bar Division why taxes had been increased.

All councillors were present, also Mr Dave Roberts, Secretary, Mr. R. Hemsley, Chairman of the Clover Bar School Division, Mr. J. J. LaBlanc, Superintendent of Schools and Mr. Floyd Baker M.L.A.

Mr. Ray Marler was appointed chairman and Mr. McCalla, Secretary for the evening.

The meeting decided to hear speakers from the Council, School Board and Government first, after which there would be a question period.

Mr. Keith, Reeve of Strathcona M.D. was the first speaker and expressed his satisfaction at seeing so many present and hoped that many more such meetings would be held. He then referred to figures on the budget sheets that had been passed out and explained that due to the rising costs of machinery, supplies and repairs more money was required to give the taxpayers the service they demanded. He said that if these present could show the Council how they could make further reductions in the amount required to operate, the council would be only too willing to try and carry out their suggestions.

Mr. Baker was then called upon and said he was only too willing to do all he could to aid in helping to lower taxes. He did not agree with the high taxes farmers and other workers were forced to pay at present.

He called it confiscation and blamed it on the financial institutions. He said, although the government were in office, finance was in power, and until the people demand their rights he saw no hope of reduction in taxes.

Mr. Hemsley in his talk quoted many figures showing quite plainly the reason taxes for educational purposes had increased in almost every instance the cost of materials, wages, fuel, etc. had more than doubled. In 1926 when the division was first opened the amount of money expended was $110,020, this year it will require $286,000 to operate.

LaBlanc also confirmed Mr. Hemsley's statements. In 1926, he said, a small school could be built for $2,000, today that same school would cost $11,000 to build.

The meeting was then opened for a question period, and many and varied were the questions asked.

In answer to a question "How are assessment values arrived at?" Mr Roberts explained that in 1942 the provincial government asked for a new assessment. He said the council have no control whatever over the assessing of property, this is done by men trained for this work by the government. The only thing taxpayers could do was to appeal to the court of revision and if no reduction was made and the party appealing was still not satisfied they could appeal their case to the assessment commissioner.

Asked why one poor piece of land should be assessed higher than a better piece, it was again explained that this was done by the assessor, and the council could do anything with it.

It was explained to the meeting that the council had on more than one occasion requested government officials when they requested a new assessment to be made, and requested them not to do so for a new assessment. The government explained to Cane gentlemen that due to the wide spread of taxes in the various districts they wanted more uniformity and the only way this could be accomplished was by having each district assess their land.

Gravelling, grading and building of roads also came under fire from various members in the audience. It was explained to them that due to the government supplying road grants the council had to undertake work on the roads according to the grants, which in all cases were roads that would not with standard deliveries.

The amount of money needed for educational purposes also was brought up and caused considerable discussion. A motion was finally moved and passed that "The government pay 50% of the educational costs."

Several other questions were asked and answered. The meeting then adjourned.

Bon Accord Suffers 7-6 Setback at Fort

Tuesday night the Fort was the scene of a good game between the Fort and Bon Accord Baseball teams.

Getting into the ninth inning, one run down, the Fort defeated the visitors by a score of 7 to 6 on hits by Tom Cuby, Ed Richardson and Roy Berg.

The Highway 16 Baseball League standing is as follows:

Team	P	W	L	Pts.
Horse Hill	3	3	0	1.000
North Edmonton	4	3	1	.750
Josephburg	3	2	1	.666
Namao	4	2	2	.500
Bon Accord	4	2	2	.500
Fort	3	2	1	.666
Beverly	3	1	4	.200

The following are games to be played:
Sunday, June 15
Namao at Horse Hill
Beverly at Bon Accord
North Edmonton at Fort
Tuesday, June 17
Josephburg at Namao
Wednesday, June 18
Horse Hill at Bon Accord
Fort at Beverly
Thursday, June 19
North Edmonton at Josephburg

Old Time Resident Mrs. Ketterborn Passes

Friends of Mr. Ed Ketterborn will be sorry to learn of the death of his mother, which occured on Tuesday, June 10th.

Mr and Mrs. Ketterborn resided here since 1906 and were well known throughout the district. In 1944 Mr Ketterborn sold his business and they went to Ontario to make their home.

Mrs Ketterborn leaves to mourn her loss besides her husband, two daughters, Mrs. Jack Salt of Edmonton, and Mrs. D. Gilles of Toronto, Ontario.

SPECIAL SUNDAY SERVICE AT ST. ELIZABETH CHURCH

A special worship service of Sung Eucharist will be held at St. George's Anglican Church on Sunday evening, June 15 at 8 p.m. when St. Peter's choir of Edmonton under the direction of Mr. Harry Taylor will visit the church.

A cordial invitation is extended to all who wish to hear this choir.

Alfalfa Hay

We require increasing amounts of green, dry, reasonably pure alfalfa hay suitable for grinding. In case you have a few tons of last year's alfalfa still on hand you should get in touch with us right away. You can haul it yourself or we can arrange for trucks.

New Crop Alfalfa

We will require 2,000 tons. It must be green, dry, and suitable for grinding. First cut should be made just before it comes into bloom. The second cutting will then be about equal to the first cutting, and both will be of good quality if well cured. The remainder the last part of June and the first week of July is usually good haying weather. Try to get your alfalfa put up then.

Seeding Alfalfa

The land should be free of weeds and well packed. Twelve pounds of good per acre will give the best results where the alfalfa is to be sold for grinding. This gives a good coverage and helps keep the weeds out. Seed without nurse crop and irrigate if you can.

KEITH B'

"Men may come, and men may go, but the show must go on." That hearty conglomeration of off-spoken "lines" fairly well defines CJCA's staff activities during the month of May.

Ross Henry is now at Calgary, and shortly after his return is due to discover another life interest. Secretary of the Canadian Association of Broadcasters Merle Bay, secretary; Paul Gay, announcer; Lionel Williamson, announcer; and Lloyd Cooper, pianist will accompany Mr. Henry to participate in their various capacities in the course of the convention.

Doug Somerham, president-elect of the Edmonton Junior Board of Commerce has just returned from the provincial convention at Calgary; and Shandro Staff Ritso paid his respects in Waterton Lakes for the Kinsmen District Convention. Nice time, eh, Fred Gowen, announcer, is now on holidays and other holiday seekers during the month will be Audrey Fergusson and Edna Patterson from the general office; Elson Farrier, continuity; Bob Keith Wally Everitt and Jack Fry, technical; Andy Phillip, announcer; and Russ Sheppard, sports.

In reverse procedure Norm Fisher, Lethbridge, spent several days at CJCA, absorbing the why's and wherefor's of radio promotion. Yes, with spring in the air, travel abounds.

« Recipes for Milady »

According to Canada's Food rules, fruits and vegetables are essential items of family meals. They form one of the key stones around which the menu should be built. They should frequently be served raw. During the summer months this can readily be done, but what about that longer period of the year when fresh fruits and vegetables are not available except at imported prices?

The problem was first solved several years ago by Mrs. Nicholas, by Nicholas Appert when canning was used as a means of preserving food for the army. Since the time canning methods have been simplified and perfected after much experimental work, until today thousands of Canadian housewives are successfully conserving their summer's bounty in the light and delicious variety to suit the taste.

Canning methods, like everything else, have changed greatly during the past decade or so. They are no longer haphazard affairs. Each step is followed with care there should be no worry about the keeping quality of the canned product — success is assured. For up-to-the-minute canning information, the home economists of the Canada Department of Agriculture recommend their new, revised bulletin "Home Canning of Fruits and Vegetables."

In this booklet you will find the essential steps of canning outlined in a clear, concise and easy-to-follow manner. It gives detailed information on each topic as the equipment used in canning; the preparation of containers, the selection and preparation of the product to be canned; packing the product, along with the processing, cooling and storing of the canned product. It also contains a question and answer section, where the reason for many failures may be found. Information on the making of jam, jelly and pickles has also been included together with a number of "quick" recipes.

To both the experienced and inexperienced homemaker, the new revised bulletin "Home Canning of Fruits and Vegetables" will prove a reliable source of needful information on how to successfully conserve nature's harvest for winter months. You may obtain your copy by writing to the Dominion Department of Agriculture, Ottawa.

STRAWBERRY JAM

4 quart basne strawberries
OR 3 cups crushed strawberries
6 cups sugar

Wash, hull, crush and measure strawberries Bring to boiling point and prepare uncovered, for 15 minutes. Add sugar, bring to boil and boil, uncovered, until jam stage is reached- about 12 to 15 minutes. Yield 6¼ pints.

TO CAN ASPARAGUS

Wash, break off tough ends of stalks. Scrape scales if necessary. Cut in lengths to fit containers. Blanch each stem in followed with care there should be no worry about the keeping quality of the canned product — success is assured. For up-to-the-minute canning information, the home economists of the Canada Department of Agriculture recommend their new, revised bulletin "Home Canning of Fruits and Vegetables."

Boiling Water Bath—
Pints and 20 oz. cans—2 hours
Quarts and 28 oz. cans—3 hours
Pressure Canner (10 lbs.)—
Pints and 20 oz. cans—30 mins.
Quarts and 28 oz. cans—40 mins.

RHUBARB CHUTNEY

2 lbs. rhubarb (7 cups)
1 large onion
Few grains cayenne pepper
1 teaspoon salt
1 teaspoons ground ginger
1 teaspoon cinnamon
½ teaspoon cloves
½ teaspoon allspice
2 tablespoons whole pickling spices (tied in cheesecloth bag)
1 cup vinegar
1¼ cups sugar

Wash and cut rhubarb into ½-in. pieces. Peel, slice and chop the onion in a small quantity of water for 20 minutes in a covered pan. Add rhubarb, seasonings and ¾ the vinegar. Cook until rhubarb is tender. Add sugar and remaining vinegar. Continue boiling over low heat, uncovered, until the chutney is of the consistency of jam—about 45 minutes. Yield: 2 pints.

T.B. CHRISTMAS SEALS
SALE OPENS NOV. 15th
ALBERTA TUBERCULOSIS ASSOCIATION
Canada's Volunteer Fund

Q. Are the sun lamps advertised for the treatment of tuberculosis suitable for reading light or are they harmful to the eyes?

A. Ultraviolet ray of any great intensity should never be in the eyes as it is extremely likely to do some harm or that it may produce a severe conjunctivitis. Some of the lamps which are being sold to the laity do not produce the ultraviolet light in sufficient quantity to have the effect, provided reading is not done directly facing the source of the light.

Q. Has tuberculin been used successfully in the treatment of pulmonary tuberculosis?

A. Most tuberculosis physicians think the value of tuberculin in the treatment of pulmonary tuberculosis has not, as a general thing, been proved. Individual patients have, in the opinion of some capable physicians, shown marked benefit.

TUBULAR SPRING HEEL FOR LADIES' FOOTWEAR

A revolutionary design in ladies' shoes embodying a steel tubular spring heel has been developed by Dunsmore. It said to give an effect of buoyancy to the wearer of the shoe and should allow wide scope in the creation of new designs.

DDT on the Prairie Farm

Pure DDT is a complex chemical compound called dichloro-diphenyl-trichloroethane. For convenience the first letter of each word of the chemical name is used—DDT. Undoubtedly DDT will eventually prove of the control of many of our most important agricultural insects, but at the present time persons interested will be interested chiefly in its use for the control of insects in the house, in the barn and on livestock.

Important Facts. DDT is not a cure-all. In many cases it will not replace standard insecticides now in use. Owing to the possible dangers of DDT it should be used with study. Knowing what DDT is, what form to buy, how best to apply it, and against what insects it is most effective is the key to its successful use. The following are some facts on these points.

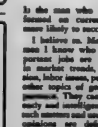
DDT Concoctions. In response to the widespread demand from farmers and others for information on DDT the Live Elevators Farm Service prepared to announce the publication of a circular entitled, "DDT—Its Use on the Prairie Farm." This circular deals with the use of DDT for the control of household pests, livestock parasites in the barn, and some of the more common insects of livestock. The information it contains is authoritative and up-to-date having been prepared by Mr. W. S. McLeod, Lecturer in Entomology, University of Manitoba. A list of preventions to be exercised in using DDT preparations is included.

Copies of the DDT circular are available to farmers. They may be obtained through local Line Elevator agents, or from Line Elevator Farm Service, Winnipeg or Calgary.

ATTENTION: Seed Growers Fit to your applications for field inspection of standing crops for Registration and Certification not later than the 20th, preferably before June 30th, with the Dominion Supervisor, Plant Products Division, at Winnipeg, Saskatoon, or Calgary.

EVERYBODY'S BUSINESS

by



Don Graham

Is the man who keeps his chequing account balance more likely to succeed?

I believe so. Most of the men I know who hold important positions are men who keep in market trends, sell ovations, labor issues, politics and other topics of general interest. They can talk fluently and unwittingly about such matters and their views and opinions are definite and well thought out.

The man who makes no entries, I think, it is an indication of a quality of mind which "shilly-shallys."

"But I'm not interested in politics. They don't concern me," you may say.

The point is — they do concern you and everyone interested in preserving our democratic way of life. Many other vital current issues have a similar bearing on your individual world.

Enlarging our interests in these ways is not only good citizenship, but helping you accomplish a worthwhile end. It also helps you get ahead.

C.N.R. Receives Conscience Money

The Canadian National Railways have received a donation that was described as conscience money. The donation was accompanied by a letter stating that the donor had defrauded the railway company of a certain amount of money and asked for pardon. The letter was sent to the railway company's head office in Montreal. What was done with the money is not known, but it is believed that the railway company used the money to help pay for the cost of the railway's operations.

A Challenging Opportunity

Next week the Canadian Red Cross Society places a new and vital appeal before the citizens of Alberta. The appeal is not for money — it is for voluntary blood donors, people who are willing to give their blood so that every hospital patient in Alberta who needs transfusion therapy because of accident, illness or other medical reasons, may have it free of any charge.

Most of us are familiar with Canada's wartime blood donor program to supply the blood plasma which saved the lives of countless wounded Canadians. During the war years the people of Alberta established an outstanding record in this field of activity which was the envy of many provinces.

A survey of Canadian hospitals, including those in Alberta, emphasized the postwar need for the same kind of service — a service that will benefit all of us. It is up to us to do our part so that we may share with others the knowledge that our willingness to volunteer our blood will mean many lives saved.

The advancement in the safe use of human blood and its derivatives has brought about outstanding medical advances. Human blood and plasma have been used with great effectiveness in the treatment of those injured and burned.

The Canadian Red Cross has undertaken to provide this penetime Blood Transfusion Service. With farsighted community spirit the Fort Saskatchewan Red Cross Branch has accepted the responsibility of undertaking the registration of our citizens as voluntary donors.

This newspaper goes on record as standing wholeheartedly behind the Red Cross Transfusion Service as a challenging opportunity for the citizens of this community to take an active and essential part in a great humanitarian effort.

Register next week with the Canadian Red Cross as a voluntary blood donor and help save lives.

The Good Road

"People everywhere are trying to find the good road that will lead them to security. Anxiety now surrounds everyone. It stalks the most Tantalizing fillers confidence but peace comes no nearer. Menacing economic problems face both the old world and the new. The young sag United States sags under the weight of its problems and the lack of the right spirit in which to meet them. People have faith in their leaders, and statesmen —corrupt, able men—toil but see no harvest."

These are the opening words in a world shortwave broadcast given by Dr. Frank N. D. Buchman from Canx-sur-Montreux on his birthday, June 4th.

Dr. Buchman, the Initiator and founder of the Oxford Group and its program of Moral Re-Armament is now in Switzerland preparing for the second European Assembly of Moral Re-Armament. The assembly last year was attended by representatives from twenty-five nations. Over the last twenty-five years Frank Buchman has perseveringly built a world-wide force of committed people, morally, spiritually and ideologically equipped to bring an answer to the material and ideological confusion of today.

In this shortwave broadcast, Dr. Buchman says, "The truth is that our problems goes deeper than economics or politics. It is ideological. Divisive ideologies strive for the mastery of men's minds. Thousands follow their banners only because they see no convincing alternative. Not all governments have grasped the paramount importance of ideological preparedness. A nation which is materially strong may be ideologically divided against itself, and therefore in danger. Leaders who ignore this fact will sell us short."

He reiterates his conviction that "there is a road, a road among many false ways, a good road unkind must find and follow. It is the great high road of democracy's inspired ideology. It is valid for every nation. It is essential for world peace."

Dr. Buchman quotes an Arab foreign minister who said, "The world is at the cross-roads. One road leads to revolution and chaos. The other to reunion and despair. Moral Re-Armament is the third way—the way of an inspired democracy that will unite the world."

"Democracy's inspired ideology is a life to be lived", concluded Dr. Buchman, "a road to be followed. A whole new order of statesmanship is required. Cabinet ministers to rule well must choose people destiny, rulers do not have that art. As men change, nations find a new level of living that makes problems melt.

"As men listen to God and obey His voice, nations find a pattern that make plans God's will for government.

"Here is the good road. Anyone can travel it. Everyone must travel it—ordinary men and the statesmen alike.

"As we step out upon it, God becomes real. Fear vanishes and life opens out. There is no need for detours: the good road lies straight ahead.

"When ye turn to the right hand and when ye turn to the left, thine ears shall hear a Word behind thee saying, 'This is the way, walk ye in it'.

"Nation shall run unto thee because of the Lord thy God . . . And great shall be the peace of thy children'."

Paint Was One Time Symbol of Prestige

In the early days of settlement in North America, paint was a symbol of social prestige. The owner of even a poor cabin or cottage could be recognized by their gleaming paint coatings, and "economy" people were not employed to distinguish their homes as to the use of paint.

Time changes all things, but paint might still well be regarded as a "badge of economy" for any property, for, fortunately, merely a distinguishing feature for the residences of the very well-to-do.

• • •

Painting or enamelling of the interior of kitchen cabinets, cupboards and dressers is many times a matter of making them a true convenience where there are open, although also justify that is an important consideration. Finishing of the interiors of kitchen storage equipment with enamel that will resist frequent scrubbing is a definite aid to sanitation.

Their Excellencies at Polymer

Examining a finished bale of man-made rubber during a tour of the government-owned Polymer Corporation at Sarnia, Ontario, Their Excellencies the Governor General and Viscountess Alexander listen with interest to J. R. Nicholson, Vice-President and General Manager of the plant as he explains the differences between two main types of rubber produced at Polymer. The 75-pound block which His Excellency is sampling is buna-S the general-purpose rubber used in tires and over thirty thousand other items. The second main type is butyl, used chiefly in inner tubes.

Brookville Man Buried June 4th

On June 1 one district was shocked at the tragic death of one of our young men, Neil Neufeld. His car overturned, pinning him underneath causing instant death.

Neil came to this district with his father and three brothers in 1943. He received his schooling in the district and at Clover Bar Village. He later served in the Army and on his discharge has farmed here.

He is survived by his father, one sister Anne of Calgary three brothers, Tony and Eddie of Calgary and Walter of Fort Saskatchewan.

Funeral services were conducted by Rev. Rose on June 4 from Park Memorial Chapel Interment took place in the cadets plot in Beechmount Cemetery.

Pallbearers were Messers Tom Kinch, Chesley Hardy, Herb Horton, Kenneth Horton, Gordon Chase and Walter Faulkner.

Beautiful floral tributes were received from Mother and Dad, Anton, Edward Bertha and Joseph the Uncle Fred, Mr. and Mrs. Vickerson and family Mr. and Mrs. Joseph Frimshe and family, John Rieger and family Hopper family, Ma Faulkner, Al Kay, Ben and Dougt Walter and Bertha; The Harvey family; Mr. and Mrs Fred Field; Holden, Ruth and Dot Kinch; The Hately family, The Olson family, Mrs. Horton, Kenneth, Mollie, Herb and many others and Canoe Lansing, Carrie, Jerry, Darlene, David and James, Maxine English, Brookville Busy Bees

n n n

Frank Stanley spent the holiday week-end with the Horton clan.

n n n

On Sunday, June 1st Miss Margaret entertained at the home of Mrs. Horton Sr. in honor of Miss Mary Kraus, a bride elect of this month.

The guest of honor was the recipient of many beautiful cups and saucers At the conclusion a lovely lunch was served by the hostess.

Eating habits changed somewhat during the war years in the United States. There was an increase in the consumption of dairy products, fruits, vegetables and eggs, and a decrease in the consumption of grain products, sugars, syrups, fats and oils. Consumption of potatoes remained about the same

Josephburg

The Athletic Club dance at the school last Friday was well attended to the tune of the Bruderheim Orchestra and all reports indicate that all present had an enjoyable evening.

n n n

Our recreation grounds have recently received a clean up with paint brushes, hammers, scythes, tractors, etc. with the result that we now see a newly painted booth, a newly constructed ladies rest room, a ball diamond as good as the best and general surroundings which we can be proud of. By next week we hope to see a score board on the ball diamond.

MUTATIONS FROM ATOMIC BOMBING

The U.S. government has sent a research team to Nagasaki, Japan, where strange results have been observed from growth of ordinary seeds planted in soil effected by the atom bomb. Such seeds have grown into agricultural monstrosities, including deformed pumpkins, 2-headed ear plants and 3-[illegible]

WHY JUVENILE ASSURANCE?

The value of insuring your child's life with the Sun Life of Canada is illustrated by the following provisions of the new Sun Life Junior Adjustable Assurance.

- The child receives the advantage of low-cost insurance for the remainder of his life.
- You are protected against expenses of child's death before age 21 by a death benefit in keeping with the amount of premium usually required at younger ages.
- At 21, each $1,000 of child's assurance automatically becomes $1,000 Ordinary Life (Endowment or Limited Payment Life plans may be selected if preferred) without medical examination or increase in premium.

MAIL THIS COUPON TODAY!

S. S. Sanderson, 320 Empire Bldg., Edmonton, Alta.

Please send me, without obligation, details of the Junior Adjustable Assurance for my son, age

THE AMAZING DEVELOPMENT in farm machinery

1000 YEARS AGO, two good men with a sickle and nine could cut and bind three acres of grain in a day. Then there still remained the laborious task of threshing the grain with a flail on the barn floor.

Today, one man with a Massey-Harris self-propelled combine can cut and thresh up to 50 acres in a day.

Just think of the endless, back-breaking labor in cultivating, seeding, harvesting and threshing which has been eliminated through the use of modern farm machinery.

The development of labor-saving farm machinery in which Massey-Harris has played a leading part since 1847 has been an important factor in our daily lives. Farmers 1000 the country over depend mainly for himself and his family, today he raises crops chiefly to sell. The large measure of farm production brought about by farm machinery during the last century has made an important factor behind the rapid climb in the standard of living both on the farm and in the city.

Today on the beginning of the 101st century of its history, this company looks forward to a time of increased use of farm power to lighten the burdens of farmers and to bring better crops, easier, quicker and at lower cost.

Protect Your Health

VEGETABLES, TOO

Such edibles as macaroni and spaghetti are not adequate substitutes in the diet for vegetables, nutritionists assert.

Approving macaroni and spaghetti mainly as "calorie boosters", the food specialists endorse their use in combination with nutritious foods such as milk, tomatoes and cheese, but that is all. It is also necessary, according to the experts, to include real vegetables in a meal in order to ensure sufficient essential vitamins and minerals in the diet.

n n n

Health is stressed by his father, one sister Anne of Calgary three brothers, Tony and Eddie of Calgary and Walter of Fort Saskatchewan.

FOOD FUNCTIONS

Food supplies human beings with fuel for heat and motion, material for building and repair, and substances for regulating body processes.

Nutrition authorities tell us that food has also other special uses like an human milk contains which supply them needs are called "protective foods" and we all must have our share of them if we are to keep healthy and live well.

n n n

SAFETY AT PLAY

In view of the coincidence now hor of accidents which occur around homes, particularly where there are young children, maintenance, health, authorities have few precautions which, if taken, may save much suffering and loss of life.

Care should be taken, they say to provide protection at the head of flights of stairs and at windows. Play apparatus should be such that the youngsters cannot hurt themselves with or in it too easily. Inside the house the lack of loose mats, carpets and rugs may avert nasty falls.

n n n

ADEQUATE LIGHT

While it may be effective and economical for some purpose, indirect lighting in the home is likely to be poor for reading and study purposes. Health officers specialize in illumination research declare that semi-direct reading lamps, preferably of the floor type should be considered a normal article of equipment of a room for any form of close work.

Where there is likelihood of severe reflection of a family's small taneously reading, sewing or engaging in occupations requiring at least as detailed vision, table lamps should be available at their favorite chairs or tables. The overhead globes won't give all of them proper illumination where it is most needed.

LIME IN KETTLES

Lime deposits in any cooking utensil can be removed by boiling strong vinegar in water in it. or water to which cream of tartar has been added—one teaspoon per quart of water.

Ask Potato Growers To Report Ring Rot

Growers of table stock and table stock potatoes are requested by the Dominion Department of Agriculture to report any cases coming to their notice of bacterial ring rot of potatoes.

The ministry explains it is encountered much as internal disease, and the latter has announced to the potato inspection service, better call it the Dominion Department of Plant Protection. It says:

"Ring rot is [illegible] than to go along wondering whether you have it or not. If you do not you are [illegible]."

Inspection branches of Plant Pathology and [illegible] Service in Ottawa, Fredericton, Truro, St. Anne de la Pocatiere, Lennoxville, Guelph, Winnipeg, Saskatoon, Edmonton, Vancouver and Agassiz.

SURVEY OF BRITISH FARMS

In a recent survey of British farms [illegible] farms [illegible] were found to have [illegible] water supply. Only one farm in [illegible] had [illegible] supplies of running water. Only one farm in [illegible] had [illegible] electricity, either from public supply or private generation. Many other farms [illegible] dependent on these farm dwellings on them 42 per cent are described as "unsatisfactory". There are 35 farm cottages for every 100 male adult workers.

Notwithstanding these conditions only one farmer in every 100 [illegible] as a total farm. 67 per cent of single farm men [illegible] are classed as "good" and 26 per cent as "fair". Only six per cent are classed as "poor". Average building is between 35 and 100 acres

Hourly Nectar Storage Records

Daily records for a colony of [illegible] bees, from May 1 until September 30, provides the beekeeper with much useful information for colony management purposes. Three average strength colonies, one each of the Caucasian, Carniolan and Italian races, have been maintained on scales at the Dominion Experimental Farm, Beaverlodge, Manitoba, since 1938. Hourly weighings (7 a.m. until 6 p.m.) were taken during the months of July, August and September, when the main honeyflow from mixed clover was being harvested. The hourly records for the month of July 1938 indicate that loss in weight of bees going to the field may vary from one-half pound to 1½ pounds between 7 and 9 a.m. Small gains of ¼ or ½ a pound may be recorded at the 7 o'clock weighing on certain days, but more generally an appreciable increase in weight is not recorded until 10 or 11 o'clock a.m. and then may continue until 7 o'clock p.m. or even later, depending upon the weather conditions and the season of the year. The highest increase recorded was 5 pounds in one hour and fifty minutes in a 12 hour period. During a heavy honeyflow the hourly increase ranged, more generally, between 2 and 3 pounds. Occasionally losses were observed during early or late afternoons indicating a possible temporary cessation of bee activity or lack of available nectar in the plants. In a 5-day period, July 6 to 10 inclusive, one colony stored 150 pounds of nectar or sufficient to fill 3 10-frame Langstroth supers. The same colony stored slightly over 200 pounds during the month of July and would require 6 or 7 supers to hold the nectar stored, not making any allowance for the normal ripening process which increases additional storage space in the hive. The honeyflow in 1938 was exceptionally heavy but it does indicate to the beekeeper the amount of super space that may be necessary to have available should it be required by the bees. There was relatively little difference between the hourly records of the three years of bees for the same period.

Of all Canadian women who die in childbirth, every fourth mother dies of hemorrhage. Three-quarters of these mothers can be saved [illegible] with but a small gift from you.

A great new civilian Blood Transfusion Service has been opened by the Canadian Red Cross. This Service will supply hospital patients across Canada with whole blood and plasma . . . FREE . . . not even a Hospital Service charge, to be used for life-saving transfusions.

Volunteer donors are urgently needed to build up the blood bank. After you register you will be asked to donate blood only two or three times a year. And each time you donate, you help save someone's life and remove that person to friends and loved ones.

Contact your local Red Cross Branch or Clinic and tell them—"Yes, please enroll me as a blood donor. I want to give blood to save someone's life!"

Give blood that others may live

Mrs. H. S. Peters is visiting in Edmonton over the week-end at the home of her son and daughter-in-law, Mr. and Mrs. Tom Peters.

* * *

At the home of Mrs. T. F. Gastonguay, Secretary, on Thursday afternoon, June 5, Mrs. T. F. Gastonguay, Mrs. H. O. Anga and Mrs. R. Hutton, Edmonton, entertained at a miscellaneous shower in honor of Miss Alice Galloway, whose marriage takes place this week.

During the afternoon two contests, conducted by Mrs. M. L. Gannon, were enjoyed by the guests. The first prize went to Mrs. J. P. Galloway and Mrs. R. H. Bacon, the second going to Mrs. Leonard Galloway and Mrs. George Ingram-Johnson.

The tea table was decorated in pink, white and blue. Mrs. A. E. Rodell of Bremner and Mrs. Leonard Galloway, aunt and cousin of Miss Galloway, poured tea and coffee, and the Misses Dorothy Armstrong, Dorothy Galloway and Joyce Galloway served refreshments.

Misses Lorene Winkle and Miss Dorothy Armstrong presented the guest of honor with a very pretty decorated basket in pink and white crossbearing with gifts. A very pleasant half hour was spent over opening and viewing the many varied and lovely gifts after which Alice, in a few well chosen words thanked all those present.

* * *

Mr. and Mrs. Henry Frechlger are enjoying a visit from Mrs. Frechlger's brother and sister-in-law of Nelson, Mr. and Mrs. A. Frechlger.

* * *

On Sunday, Graham Mr. and Mrs. J. F. Galloway entertained their relatives in honor of their daughter Alice, whose marriage takes place on Thursday of this week in Edmonton. During the afternoon a large number from Spruce Grove, Edmonton, Bremner, Busell and The Pott called to extend their congratulations and best wishes. After a very pleasant half hour spent in conversation and admiring the many and beautiful gifts, a lovely buffet lunch was served. Mrs. C. H. Galloway and Miss A. E. Rodell of Bremner, aunts of the bride-elect poured tea and coffee.

Honor Salisbury Pair On Silver Anniversary

A very pleasant event took place Saturday evening, June 7 in East Edmonton Community Hall, when friends and neighbors gathered to congratulate Mr. and Mrs. Percy Hipkin upon the occasion of their 25th wedding anniversary.

Appropriate songs were sung, led by Miss Hazel Bumble, followed by an address given by Rev. Johnson, who expressed the sentiments of those present in appreciation words of esteem and affection.

Mr. Hazlehorne then addressed the assembled guests and the honored people were presented by the community with a beautiful floor lamp.

Mr. and Mrs. Hipkin replied and expressed their deep appreciation of the honor extended to them. They have been residents of the district for the past 19 years and adherents of Salisbury church.

The family consisting of Mr. Richard Hipkin, Mr. and Mrs. Geo. Hipkin, Mr. Gerald Hipkin and the Misses Jeanne and Barbara Hipkin, presented their father and mother with a case of silver, a token of their love and esteem. The presentation was made by the eldest son Richard.

Dancing, songs and refreshments followed to end a very happy evening for all.

Mrs. W. G. Carey of Edmonton, assisted by her mother Mrs. H. McKay, entertained Saturday afternoon and evening at a miscellaneous tea for her sister Miss Beryl McKay, a June bride elect.

Mrs. Carey received her guests in a black crepe ensemble with touches of silver embroidery and a corsage of American Beauty roses. Miss McKay chose a cream gown frock with touches of white and a corsage of pink carnations. The bride's table was decorated with pink and white streamers and clusters of white bells and were fragrant with spring blossoms. In the dining room the table was laid with an ecru lace cloth, centered with a silver basket of carnations and tall pink tapers in crystal candle holders.

Mrs. R. Parker and Mrs. E. Hanlan presided at the tea and coffee urns during the afternoon, with Misses Pat Brown, Madeline Carey, Dorothy Emond and Pat Walters as servitors. Mrs. C. Binnally showed the wedding gifts. Mrs. H. Goebel displayed the trousseau and Miss Clare Brickman was in charge of the register. About sixty guests attended.

Mrs. E. Dowling and Mrs. Gordon Olson were in charge of the dining room for the afternoon and evening.

* * *

The Rev. Elgin Turnbull gave an inspiring and impressive sermon on Sunday. Five more children were christened. Catherine Ruth and Margaret Ann Wilkinson, children of Mr. and Mrs. W. R. Wilkinson; Wendy Jean and Garth Edgar, children of Mr. and Mrs. H. Fleming, and Donna Marie, daughter of Mr. and Mrs. Jos Reynolds.

* * *

The Willing Workers banner and tea was the usual success. Rev. Johnston closed the Quizzes and Mrs. Ralph Reynolds won at the conch box. The banner consisted of a multitude of beautiful and useful household articles made by the ladies. Mrs. Johnstone entertained with song.

Tea was enjoyed by everyone with a basin of happy chatting. The ladies realized a profit of $39.80

* * *

In Appreciation

Mr and Mrs. Percy J Hipkin of Woodland Farm wish to extend to Rev. Johnston, Mrs. Johnston, and friends of Salisbury, the very deepest thanks and appreciation for the honor accorded them at the presentation and greetings extended them on the 25th wedding anniversary in East Edmonton Community Hall on Saturday June 7th.

It is long to be remembered as one of the most precious memories each one received with their many years spent in fellowship and the friends which have made these years so happy.

Bellamy - Erwin Pledge Vows

Central United Church, Edmonton was the scene of a pretty wedding Thursday, June 12th when Miss Mary Erwin, second daughter of Mr. and Mrs. A. Erwin of Ypres Valley and Mr. Ralph Bellamy of Arena, Saskatchewan were united in marriage. Rev. E. H. Birdsall performed the ceremony.

Given in marriage by her father, the bride wore a slipper length gown of white satin, below the high set yoke, satin ribbon were embroidered on the gown, which featured a full skirt and long sleeves. Her floor length embroidered veil of illusion, tulle was held in place by a floral coronet and she carried a flower bouquet of red roses and white sweet peas. She wore a drop pendant belonging to her mother, and a bracelet locket, a gift from the groom.

Miss Bessie Irwin, youngest sister of the bride was her only attendant and wore a floor length gown, featuring a satin bodice with a sweetheart neckline, long sleeves and a full skirt. She wore a pink shaped veil, held in place with pink carnations and carried a colonial bouquet.

Mr. Hugh Irwin, brother of the bride was best man.

After the ceremony a wedding supper was held at the home of the bride's aunt, Mrs. E. E. Horton of Brookville.

The bride's mother chose a dress of grey crepe trimmed with black sequins. Her accessories were black and she wore a corsage of red roses. Mrs. Horton received in a brown tailleur and red roses.

The room was decorated with spring flowers and under a canopy of pink and white streamers, the bride's table was laid with white linen, centered with a three tiered wedding cake, flanked with cherry blossoms.

Mrs. Margaret Walker, aunt of the bride poured tea.

Mr. Jack Corcoran proposed the toast to the bride.

Later in the evening a public reception was held in the Partridge Hill Hall.

After spending the week-end in Edmonton, the newly weds left on a wedding trip to Saskatoon en route to Arena.

W. I. Conference Held Here Wed.

The W.I. Constituency Conference of the Edmonton Victoria Sturgeon Constituency was held in the Union Hall, Wednesday, June 18 with Mrs. R. H. Thorne Constituency Convenor in the chair. Delegates and visitors were present from Edmonton, St. Albert and Wostgate, Mrs. Lefevad of Viking, Director of District No. 1 was present and addressed the meeting. Also present was Miss. H. J. Montgomery, Provincial Publicity Convenor for Northern Alberta.

Mrs. C. R. W. Magor welcomed the visitors in a few well chosen words. Mrs. Atkins of St. Albert replied.

Mrs. J. F. White of Edmonton, Home Economics convenor for Alberta, gave an interesting talk, stressing our responsibility towards the health of the children in our community.

Mrs. R. M. Bacon gave two amusing readings and at the close of the business meeting Mrs. McLellan, Home Economics teacher, displayed some of the fine work done by her class during the year.

Following this a very enjoyable hour was spent in the home of Mrs. D. Gobbelsmen where a delicious buffet supper was served to 56 visitors and members.

Miss Annabelle MacCrimmon and Mrs. Kitzlitz sang two numbers each during the supper hour.

Mr. King Honored By Lodge Members

Members of the Victoria Lodge No. 13 met at the Union Hall, Tuesday evening, in honor of Mr. A. B. King, who plans to leave here in the near future.

Entertainment was provided by Mr. Johnstone, who showed a series of pictures of his movie camera.

Mr. J. D. McLean acted as chairman for the evening. He paid a tribute to Mr. King for his untiring efforts as a member and hoped that he would often come to visit the lodge. Other members also expressed their regret that Mr. King was leaving.

Lunch was then served, which brought a pleasant evening to a close.

School Flashes

Grade Ten

Our jolly Grade Ten seems in Room Six,
Are very handy at playing tricks
And though we know they most study too,
We often wonder when they do.
Ann Atchison, Nancy Brenton, Florence Coal, Shirley Gordon, Helen Grandehl, Eunice Houston, Eileen Hutchison, Annette Hosie, Gordon Jacot, John Jacot, Willie Kercher, Evelyn Kitlitz, Helmut Koch, Lorraine Krebs, Jim Kulak, Melba Loren, David Oshaldeston, Garth Oshaldeston, Muriel Robinson, Donna Stetson, Alice Tree, Edith Wilson.

* * *

While Grade Twelves are studying for their exams next week, Grade Tens and Elevens are starting at theirs now. We might add that Grade Twelve's are having some strenuous double period classes (to say nothing of the teachers!)

* * *

Mr. Richardson: "Jimmy, why is your essay on milk only half a page? The others wrote eight or nine pages."

Jimmy: "I wrote about condensed milk."

* * *

Congratulations to Mr. and Mrs. Len Jol (nee Peggy Friel) on the birth of a son, born Friday, June 13.

Delford Pearce Grand Champion Winner at Calf Club Show in City

The seventeen club calves after being on display in Fort Saskatchewan on Tuesday, June 10 were shown the following day in Edmonton and prizes awarded. The three top winners in the calf show were:

1st—Delford Pearce—This calf was Grand Champion of the show. It sold to the T. Eaton Company for 59c per lb. It also won a $15.00 special from the Alberta Hereford Breeders Association.

2nd—Don Pearce
3rd—Raymond Riegel

Each of these Juniors were now members in the club and are to be congratulated on their excellent showing.

Some $44.00 were subscribed in prize moneys jointly by the Provincial and Dominion Departments of Agriculture and the club share by the Fort Community Club and special donors.

The Hereford Breeders Association gave each member cash prize by virtue of showing a Hereford calf.

Total cash awards of prizes amounted to approximately $80.00.

Delford Pearce won the Edmonton Junior Chamber of Commerce trophy for the best fitted calf of the show.

Don Hutchison won their rep offered for Showmanship annually.

Club officials in charge of all arrangements were C. H. Galloway and R. H Byers

GIBBONS JUNIOR CALF CLUB

Gibbons district took twenty calves to the Edmonton Exhibition for the Show and Sale, June 11th. Their top calves were shown by:

1st—David Hood—owners Grand Champion of the show which sold to T. Eaton Co. at 59c per lb.
2nd—Vivian Hall
3rd—Ronald Sleigyn

JUDGING CONTEST AWARDS

1st—Stanley Fraser
2nd—Shirley Hood
3rd—Fay Fraser

The Provincial and Dominion Departments of Agriculture cash awards together with those subscribed by local supporters amounted to $80.00

Of the top ten special awards made by the Alberta Hereford Breeders Association, Gibbons Club won five places. Total cash donated to this club by the Hereford Breeders Association was $47.00.

Total cash award for the Edmonton show-ring was over $100.00.

Local leaders in charge of this club were George Holmes and L. M. Fraser.

William Lyons, Edmonton was judge of the above events and B. J. Whitbread, District Agriculturist was Supervisor in charge of arrangements for the show.

East Edmonton

Congratulations are going to Mr. and Mrs. J. Buffel on the birth of a daughter, born Sunday, June 8.

* * *

The Willing Workers Club held their monthly meeting on Wednesday, June 11 in the hall. A good attendance of members were present. The main topic for discussion was plans for the point community picnic which the Board of Control and the Willing Workers are holding later this month at the school and hall grounds for the closing of school. The annual meeting of the Willing Workers Club will be held in the hall on July 9, all members are requested to attend. Mrs. Prather will be hostess.

* * *

Congratulations are also going to Mr. and Mrs. Jim Cowlet of Vancouver on the birth of a daughter, Janice Lynn on Sunday, June 8.

* * *

A small crowd was in attendance at the dance held June 12, due to the heavy rain in the evening, however all had a good time. The dance will be opened up with a dance after the community picnic till post fall.

* * *

Congratulations to Mr. and Mrs. Len Jol (nee Peggy Friel) on the birth of a son, born Friday, June 13.

Hurley - Mackey Married Saturday

In a setting of gladioli, pompon and ferns, a pretty June wedding took place Saturday afternoon at Macdougall United Church when Janet Beryl, younger daughter of Mr and Mrs. E. J. Hurley of Ardrossan became the bride of Charles Henry Hurley, youngest son of Mr and Mrs. T. D. Hurley of Rose Creek, N.B. The ceremony was performed by Rev Wesley Hinkley.

Given in marriage by her father, the bride chose a gown of white nylon taffeta. The bodice was fashioned with a sweetheart neckline, trimmed with net lace and tiny buttons, with lily-point sleeves and bouffant floor length skirt. Her floor length veil was held with a coronet of orange blossoms. She carried a cascade bouquet of American Beauty roses and white sweet peas. The white ribbon streamers were tied with tiny bouquets of pink carnations and baby's-breath was of real lace and had been in the paternal family for centuries. A gold bracelet watch completed the groom's gift to the bride was a gold watch and an pompon bracelet and to the bridesmaid a string of pearls.

Attending the bride was Miss Clare Brickman, who chose a floral print gown of crepe with short puff sleeves and inserts of lace on the bodice and full skipper length skirt. With her pink shaped veil she wore a bandeau of tiny rose buds and ribbon. Her bouquet was of gladioli and snapdragons.

The groom was attended by Mr Carl McNally and the ushers were Mr Walter Carey and Mr. Ted Fitzpatrick, the wedding music was played by Miss Helen Barbour.

Following the ceremony, they received at a reception in the Corona Hotel. Receiving with the bride's party was Mrs. Mackay, mother of the bride, who wore a dress of peacock blue faisonne and sheer with white hat and accessories and corsage of red roses.

The bride's table was centered with a tiered wedding cake flanked by carnations and sweet peas. The toast to the bride was proposed by Mr. H. E. Parker.

The couple left by bridal trip to Banff and Lake Louise.

Their wedding trip to New Brunswick. The bride travelled in a chocolate brown, tailored suit with matching hat, gray coat and accessories and corsage of pink roses. Upon their return they will make their home in Edmonton where the groom is stationed in the R.C.A.F.

Good Hope

The Happy Gang honored Miss Mabyn Lang and Mr. Milton Moyer at a miscellaneous shower in the Good Hope school opening.

The former part of the evening was spent with games and appropriate contests. Miss Alex Brant and Mr. Frank Kulak taking the honors.

The honored couple took their place beneath an arch of evergreens and roses, while the Misses Leona and Violet Miller sang "I Love You Truly". Mr. Cecil Dinning in a few well chosen words presented the young couple with a large tabletful of lovely gifts.

Mabyn and Milton expressed their appreciation for the lovely gifts, and the effort which had been put forth to make the evening a success. Everyone joined in singing "For They Are Jolly Good Fellows" after which lunch was served.

The remainder of the evening was spent dancing.

* * *

Mr. Alex Gourlay of Calgary and Mr. and Mrs. D. Woodbury of Edmonton were visitors at the home of Mr. and Mrs. D. Bushell and family, recently.

* * *

Messrs. Gordon Miller and Alvin Frey returned home last week-end from Edmonton, where they had attended the University Farm Young Peoples' Week. Alvin Frey was delegated from the Happy Gang.

* * *

Mrs. S. Moyer returned home last week after spending two weeks holiday with her daughter and son-in-law Mr. and Mrs. Fred Bennett of Viking.

* * *

Milton Moyer and Mabyn Lang extend a cordial invitation to all their friends and neighbors to attend their wedding dance in Partridge Hill Community Hall on Friday, June 27.

* * *

Mr. Matt Kuhn underwent a minor eye operation in the Royal Alex hospital, over the week-end.

* * *

Mr. and Mrs. A. J. Whale, who have been visiting Mr. Torrens, returned to Edmonton last Sunday.

Around the Town

Miss Doris Simpson of South Bay, Ontario, spent a few days visiting with her aunt and uncle, Mr. and Mrs. R. Butler. On her way home she will visit with her cousins Mr. and Mrs. Bill Brenton of Calgary.

* * *

On Wednesday evening Mr. and Mrs. Alf Frey lind no their guests Rev. and Mrs. G. Larue and Mrs. L. E. Hicks of Edmonton. Rev. Larue is minister of Jasper Place United Church.

* * *

Mr. and Mrs. C. D. Jones and sons, David, Gordon, and John will leave Friday on a holiday trip to the United States They expect to be home the middle of August.

* * *

Miss Norma Robertson who has been holidaying at Calgary is now back at her desk in the Royal Bank.

* * *

Mr. and Mrs. Jack Lucas have as their guest for the past three weeks, Mr. Lorne's aunt, Miss Regina Gunderson of Spokane, Washington.

* * *

Mrs. J Brenton-Higgins of Lethbridge, mother of Mr. Harry Brenton arrived here last week for an extended visit.

* * *

Mrs. Brenton-Higgins who is 88 years old has made the trip many times before by train and car, but this time she decided to go modern and took the plane to the city. It resulted to her the speed travelled in the old days and that of today She made the first trip on a bike in 1895 travelling by wagon which took two weeks. On her recent trip it took just two hours.

* * *

Now members will be received into the United Church congregation of Fort Saskatchewan and Bremner and at one of the latter.

* * *

The regular monthly meeting of the United Church W.M.S. will be held at the home of Mrs. Logan O'Brien on Tuesday, June 24th at 2:30 o'clock. There will be the half yearly review of the W.M.S. work, and the study leaflet, "The Church Comes Back to Asia".

* * *

Miss Jean Williams of Edmonton is spending her three week holiday at the home of her parents, Mr. and Mrs. Logan O'Brien.

* * *

Mr. Jim MacIntyre, who is stationed with the R.C.A.F. in Edmonton, is spending his 28-day leave at the home of Mr. and Mrs. Logan O'Brien.

Students Display Work

For the past two weeks residents of the town have had the opportunity of viewing the work done by the students of the Fort High School which was displayed in the windows of the Red and White Store.

The display consisted of woodwork, sewing and needlework, etc. Some of woodwork was done by girls and some of the sewing by boys. The excellent way in which these articles were made is something they may well be proud of, and speaks well for the talents they possessed.

* * *

Mr. Matt Kuhn underwent a minor eye operation in the Royal Alex hospital, over the week-end.

* * *

Mr. and Mrs. A. J. Whale, who have been visiting Mr. Torrens, returned to Edmonton last Sunday.

Discontinue Club Meetings Till Fall

The regular monthly meeting of the Fort Community Service Club was held Wednesday evening with only a few members present.

The meeting was brought to order by the president, Walter Sherman. It was decided to postpone these meetings till September.

The president then requested the treasurer to read the financial statement for the 30th of May. It was disclosed the total receipts amounted to $1,472.39 and expenses amounted to $1,325.59 leaving a balance of $267.30. From this amount $100 will also into or three small accounts to be paid.

After going over all the outstanding accounts it was agreed that the treasurer pay all necessary accounts.

Money received from the two-day campaign held here amounted to $76.05.

* * *

PARTY FOR A. B. KING

In honor of Mr. King, who will be leaving town in the near future it was decided to hold a party next Thursday, June 26th in the Community Hall.

An invitation is extended to everyone in the town and surrounding districts to come to this party.

Mr. King, who was manager of the Royal Bank here for over eight years, is well known throughout the entire district. He has always been active here and active part in all the various organizations and will be greatly missed

Once again, an invitation is extended to everyone to come and make this a hang-up party

Honor Lament Couple On 25th Anniversary

A happy reunion took place last Wednesday evening when Mr. and Mrs. Wilmot Allen entertained at the dinner hour in honor of Mr. and Mrs. J. A. Allen of Lamont, who observed their 25th Wedding Anniversary.

Covers were laid for 14 guests at the table, centered with an Irish linen cloth and centered with a decorated cake.

After dinner Miss. A. E. Peay, on behalf of those present, presented the bride and groom with a beautiful electric clock, silver plaque, which were mounted to show the number of the anniversary. Both of which were suitably inscribed.

Dr. Allan is well known in the district, having lived and grown up at Partridge Hill where he also taught school.

For the past 22 years Dr. Allen has been associated with the Lamont hospital.

United Church Manse Scene of Wedding

Miss Edith Bernice Wagner and Thomas Charles Henry Binns were married quietly at the United Church manse, Fort Saskatchewan on Thursday afternoon, June 12th with Rev. W. D. Rose officiating. Supporting the couple were Mrs. George Webb and Mr. A. E. Lagnaise.

Mr. and Mrs. Binns are temporarily living in the Upper Valley district, but hope shortly to take up residence in the town of Fort Saskatchewan, where Mr. Binns is employed with Mr. Lagnaise.

Sunday, June 29
Josephburg at Ben Assord
Beverly at Namao
Horse Hill at North Edmonton
Tuesday, June 24
Josephburg at Namao HH
Wednesday, June 25
Namao at Fort
Josephburg at June 26
Beverly at Josephburg

NOTICE

TO ALL RATEPAYERS IN THE MUNICIPAL DISTRICT OF STRATHCONA, No. 20

Mr. Dan Tuske of Bruderna is now in a position to offer a weed spraying service at a fee of $2.00 per acre. This work should be done before crops are too far advanced.

When grain is from 5 to 7 inches high and weeds in the two to eight leafed stage is approximately the correct time.

Phone 972-3021.

Alfalfa Hay

We require harvesting contracts of green, dry, reasonably pure alfalfa hay suitable for grinding. In case you have a few tons of last year's alfalfa still on hand you should get in touch with us right away. You can haul it yourself or we can arrange for trucks.

New Crop Alfalfa

We will require 3,000 tons. It must be green, dry, and suitable for grinding. First cut should be made just before coming into bloom. The second cutting will then be ready for cutting in the first cutting, and both will be of good quality if well put up. The weather the last part of June and the first week of July is usually good haying weather. Try to get your alfalfa put up then.

Seeding Alfalfa

The land should be free of weeds and well packed. Twelve pounds of seed per acre will give the best results where the alfalfa is to be used for grinding. This gives a good coverage and helps keep the weeds out. Seed without nurse crop and try to sow just before a rain.

AMAZING RESPONSE!

Uncle Sol's family of youthful listeners is sure deserving of praising for generosity in sending fruit. And once again the Red Cross will benefit.

It all started most innocently a few weeks ago, when his invitation to the Noon Hour Hills Kiddies Program, shower a strong preference for Wilf Carter recordings. Many asked for his songs, or his picture. Uncle Sol passed a proposition.

"Okay, kiddies and pals," he said, "Here's what we'll do. You send a statement of like to the Red Cross and in appreciation we'll send you a Wilf Carter souvenir containing Wilf's life story, some pictures, and words for five of his most popular songs. Is it a deal?"

The kiddies replies instantly with enactors and dollars. Surprises are not still on the press, but the first two weeks' mail response stands at 4,000 letters! An amazing response and the campaign has hardly begun.

NEW GRASSHOPPER POISON

A new grasshopper poison has been developed which has proven far more deadly than anything ever used before. It is a benzene hexachloride poison, and tests made in Saskatchewan last summer show it to be unusually effective against grasshoppers. During the war 300 pounds of this chemical was effective in stopping an overwhelming grasshopper invasion of the island of Sardinia.

YOUR BLOOD MAY SAVE LIVES

Every civilization route on a set of premises . . . If the premises be broken too often, the civilization dies, no matter how rich it may be, or how mechanically clever. Hope and faith alone are the premises: if hope and faith go, everything goes.—Herbert Agar.

Barley Contest Entry Date Extended to July

A late and unfavorable seeding season has made necessary an extension of the final entry date for this year's $25,000 National Barley Contest sponsored by the brewing and malting industries.

Chairman of the contest committee, T. J. Harrison announces that the date for receiving entries has been extended from June 15 to July 15.

Entry forms are to be mailed as previously announced to the chairman of the provincial committees, in Manitoba to N. C. Mackay, Department of Agriculture, Winnipeg; in Saskatchewan to B. H. Vigor, Saskatchewan Field Crops Commissioner, Regina; and in Alberta to A. M. Wilson, Alberta Field Crops Commissioner, Edmonton.

Contestants in the Peace River Block of British Columbia should mail their entries to Mr. Wilson at Edmonton.

« Recipes for Milady »

It is said that in the spring a young man's fancy turns to love, it might be said that in the spring the housewife's fancy turns to food. The spell of veal in the tender stage is a welcome one since it heralds a new season, however hilly it is, and brings variety in the meat centres of Canadian homes.

Veal and chicken both being white meats, they served in meats, have much in common and are often used interchangeably. At this time of the year, the supermarket shows good scenes and good taste in using well cooked veal as the basis for substantial supper salads and casserole dishes.

For the tender cuts of veal, which are legs, loins and shoulders, the home economist of the Consumer Section, Dominion Department of Agriculture, recommends cooking at a low to moderate temperature in dry heat. A moderate oven, 325-350 degrees F. should be used for the entire cooking period. Since veal is a dry meat with really little fat, it is recommended that the top of the roast be lightly covered with fat. Pork fat, either fresh or smoked is excellent for the purpose as it adds a certain flavor to the meat. It will also mean that more gravy of good color can be made. Salted or fat roasts are placed in a rack and rolled oven are turned every half hour. All veal roasts should be heated occasionally. For well-done veal, roast approximately 30 to 35 minutes per pound in a moderate oven 325-350 degrees F., which you will notice is longer than the time allowed for either beef or lamb.

Less tender cuts like breast, flank, neck or stewing veal require long, slow cooking in moist heat, this means either braising or stewing. When these cuts are ground they may be pan-fried or made into an oven-cooked meat loaf just like any other minced meat.

Sandy Lake

The Sandy Lake Softball team picked right up where it left off last year on the most victorious ruhnel ball team in South Edmonton.

On Friday, May 30 Sandy Lake easily took the game from Winkler in the tune of 20 to 5. Then on Tuesday, June 3rd Otterhaven went down in defeat by a 22-21 count. In this game Kieth Kadatz playing in the absence of Clarence Janis put Sandy Lake in the lead in the second inning of the game when bases were loaded he landed the ball into centre field for a second base hit.

On Friday Winkhlen would not play in the return game. Sound bad?

Under the arrangement of C. Carins, teacher, the Sandy Lake line up is as follows:

Catcher, Leonard Schubert; Pitcher, Allan Kantz; 1st Base Denby Kadatz; 2nd Base Violet Orsens; 3rd Base, Gerrard Kantz; Right Short, Clarence Janis; Short Stop, Kubic; Right Fielder, Kenneth Kosens, Centre Fielder, Alex Gardner; Left Fielder Louis Sudzilak.

Veal Paprika

2½ lbs. veal shoulder chops cut [illegible]
1 cup [illegible]
1 tablespoon salt
¼ teaspoon pepper
½ cup dry fine bread crumbs
½ cup chopped onion
¼ cup fat
1 cup water
1 cup sour cream
2 tablespoons paprika

Cut shoulder chops into serving size pieces. Roll gently with salt and water. Dip meat pieces in it, then roll in bread crumbs. Cook chopped onion in fat until golden brown, using heavy frying pan. Add meat and cook until lightly brown. Add water, cover and simmer about 1½ hours or until tender. Add sour cream and [illegible]. Sprinkle paprika over all, cover and cook 15 minutes. Six servings.

Veal Shanks Piquante

6 8-in. pieces of veal shrank, [illegible]
1 tbs. [illegible]
¼ cup flour
½ teaspoon salt
½ cup fat

In braising, the meat is seasoned, then browned in a small amount of hot fat in a heavy pan. The meat may be flavored before browning if desired. The liquid, which may be water, meat stock, milk, water from cooked vegetables, tomatoes or vegetable juice is added, the pan covered and the cooking done either on top of the stove very low heat or in a slow oven 325 degrees F., until meat is tender. Raw vegetables are sometimes cooked along with meat. The liquid in the pan serves as the base for the gravy

Everybody's Business

by Don Graham

"Milk bottles *don't* have to be round!"

In some such words a progressive young man challenged tradition and devised a new, space-saving *square* milk bottle recently adopted by several leading dairies.

This reflects the kind of cautious, creative thinking that makes for greater success in any line of business.

Time-saving, money-saving ideas are often surprisingly simple. And they may occur to anyone. But chances are they won't occur to you unless you look for them and develop a habit of accepting nothing "as is".

No matter where you work, there are countless articles, products, systems, methods capable of improvement, and needs for new inventions and ideas.

When looking for things to improve, it's best to start with those most closely related to your job. Your first idea may not succeed. But keep on trying. Your efforts will be appreciated and eventually rewarded.

Men of vision are incredibly great bargains in Life Insurance. They see it as the coolest, most economic way to save and thus provide security for their loved ones.

Three Essentials for Today

The following is quoted from a recent speech given by Gladstone Murry, former manager of the Canadian Broadcasting Corporation:

"Three things are necessary. And by far the most important of these is the return to religious faith. No crime either in the affairs of an individual or of a community can be satisfactorily resolved by ignoring the spiritual side. Unsatisfied soul-hunger corrodes character breeds distrust and hatred, yielding a bitter harvest of frustration and despair. It is said of a well-known trade union leader of Britain that he made it an unbreakable rule to say nothing alone for a few minutes before entering any conference with the representatives of management. The record shows that the workers for whom he spoke had every reason to be thankful . . . The practice of such personal communion dissolves arrogance and restores the wholesome humility essential to the art of harmonious living. I give absolute priority, therefore, to the power of faith and prayer.

"With the practical application of the precept of the Golden Rule, the other things are made easier. There are two and they are closely associated. The first is a new spirit of co-operation between labor and management. The blame for the well known failure of management is not all on one side . . .

"What is needed is a new sense of community work. Where there is an active and well-spread civic responsibility, there is correspondingly better spirit in the factories . . . Successful efforts to create good human relations in a plant or office always enlist the support and help of the right *kind* of trade union leaders.

"There is a third essential. I mean the sense of world citizenship without which the United Nations will get nowhere . . . Once the free world demonstrates that it is really applying the Golden Rule, that it is building the good society on the foundations of eternal truth, the changes of heart may prove irresistible; at least some of those who now seek to destroy freedom and religion, may join in the common effort to create and strengthen a real brotherhood of mankind.

"By voluntarily putting our affairs in order, reconciling difference, moral, religious and industrial, we may provide a model for the rest of the world. Let's get on with the big job, resting with confidence on Divine guidance to help us to carry the beacon that may lead the multitudes of mankind out of the wilderness of ignorance, tyranny and misery."

Farm Fires Cause Heavy Damage

A total of 3,346 farm fires in Canada in 1946 caused a property loss valued at $4,300,151, according to returns compiled by W. L. Chalmers, Dominion Fire Commissioner.

Ontario had the most farm fires, 1,084, which destroyed property worth $2,413,235. Quebec was next with 799 farm fires and a property loss of $721,654. Then came Saskatchewan with 276 fires, with a loss of $211,222; Manitoba, 261 fires, loss $149,654; Alberta, 129 fires, loss $149,239, Nova Scotia, 65 fires, loss $100,578, Prince Edward Island, 81 fires, loss $83,688; British Columbia, 57 fires, loss $313,815.

At the Lacombe boll sale the average price received was $315.55, the highest in the history of the sale. A hereford bull brought top price of $1,370.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan" CANADA AND FARMERS LOSE U.S.A. MARKET

Canada owns the United States a lot of American dollars, for Canada is buying more from the United States each year than Canada is selling to the United States. In the last decade [illegible] Canada has [illegible] these exports that country has lost 70 million American dollars, and our prairie farmers have lost in real cash at least 30 million dollar. Why not re-open this international trade to the great benefit of all? Canada can easily give sufficient additional feed barley for her hogs by means of paying just over 20 cents per bushel more for it. Is this worth all the [illegible] acres of the existing 15 million acres of idle summerfallow, in lieu of which summerfallow, in my humble opinion, is quite unnecessary? To allow at once the export of Canadian malting barley to the United States is something the Canadian government can do and should do to the great benefit of all.

Americans want our barley. We have it. Why not sell it to them? This trade took years to build up. If we don't ship our barley the Americans will surely start to grow their own.

ITEMS OF INTEREST IN THE WORLD OF FARMING

The International Emergency Food Council has estimated that imports of 200 million bushels of wheat will be required between now and September to maintain Europe's bread ration at last winter's level. Available export supplies, however, are estimated at 250 million bushels. Erie recently purchased 10 million bushels of wheat from Argentine, the price and date of shipment, however, were not revealed.

France's wheat production this year is expected to be well below the average. France will require imports of wheat. Wheat production in India for 1947 is now placed at 306 million bushels, somewhat below last year's poor harvest, and the lowest on record since 1939.

NEVER TAKE A CHANCE

The tractor is a real mankiller. You should exercise the greatest of care in operating this machine, particularly when pulling a tiller. Do not make a single movement which might be dangerous. Do not work when you are completely fatigued. It is better to have a smaller crop than a funeral.

"The Diary of Our Own Pepys"

A BOOK REVIEW BY R. J. DEACHMAN

Samuel Pepys was born in 1633, died in 1703. He was secretary of the Navy in his day, a member of the Royal Society and a sufferer. He was the first great diarist and, more or less set the fashion in that line of literature. Many have followed in his train but I doubt if in all the intervening years there has been published one of greater human interest than "The Diary of Our Own Pepys" just off the press and written by the late R. W. Harrold, Associate Editor of the Ottawa Citizen.

I first met Mr. Harrold in 1926. I shall see Mr. Harrold together frequently. We worked around the same corners of the city. He wasn't a great deal taller than I, but that twisted [illegible] constitution gets to the weak corners of life. We were grateful when they were many years. There were at least differences in matters of [illegible] and I never [illegible] and I never bore trifles mattered not at all. I enjoyed his company. He [illegible] his humor. His wide knowledge [illegible] literature.

He had the knack of taking a [illegible] and making it live. He could [illegible] of which "commercial" he, in my humble opinion, [illegible] unnecessary.) To allow at once the export of Canadian malting barley to the United States is something the Canadian government can do and should do to the great benefit of all.

Americans want our barley. We have it. Why not sell it to them? This trade took years to build up. If we don't ship our barley the Americans will surely start to grow their own.

FREE SERVICES FOR FARMERS

For the purpose of assisting the farmers of Canada to meet the economic problems with which they are constantly confronted and to carry on the industry of Canadian agriculture to the advantage of the nation as a whole, the Dominion Government has several millions of dollars invested in free services and facilities.

No other industry has at its disposal such a wide and varied range of services and facilities provided by the Government. They include the Dominion-wide system of Experimental Farms and Stations, the divisions of Dairy Husbandry, Botany and Plant Pathology, Chemistry, Entomology and Plant Protection of the Science Service, the divisions of Health of Animals, Plant Production and Livestock with their field services of the Production and Marketing Service, in which is centralized the administration of all grading services of livestock and livestock products, dairy products, poultry, eggs, fruit, vegetables, canned goods, maple products and honey, and the Division of Agricultural Economics, which serves as a fact-finding body concerning production and marketing.

Results of the research work and experiments of all these services of the Dominion Department of Agriculture are made known to farmers and the people of Canada generally through free publications, the press and radio, exhibits and other ways directed by the Publicity and Extension Division.

These engaged in the industry of Agriculture, whether directly or indirectly, are invited to make full use of the services and facilities so outlined. They are free.

For further information write to:

Dominion Department of Agriculture

"Pepys Diary" Continued

each morning at six, making up my household, and on coming had I got to work then half a dozen neighbours appeared and chuffed me, but the business carried."

Quarterly habit! Ah yes, but it involved a big issue, the right of a subscriber to his list or the denial of a right to make itself a public convenience to him and his fellow subscribers. Such is the power of a dangerous but useful monopoly.

Here ends these brief notes anent. I have omitted only the war, the Blitz and a troublesome but true Diary of Mrs. Pepys. Those "Pepys" contributed for fifteen years with more will for holidays. It then needed it was, into 500,000 words. Its compression into 200,000 was the work of a year, and a difficult one. The tremendous task of condensation was performed by lovable, brilliant, unbalanced, Arthur Bryant.

Creeping Apple Trees

At the Bunsen government agricultural station at Geneva, Illinois, it has been found feasible to grow apple, pear, plum and other fruit bearing trees in the north where temperatures drop as low as 40 to 50 below zero. These trees creep 15 to 20 inches above ground instead of growing vertically. Although only protection against blizzards, winter rain, thaw, spells of sleet and a heavy blanket of snow, these creeping apple trees produce more than 100 pounds of fruit per tree every year.

PRICE CEILINGS REMOVED

Price ceilings were removed on a wide list of commodities. Instead of wool, leather, cheese, evaporated milk, ice cream, honey, jellies marmalade and jams.

Hon. Douglas Abbott, federal minister of finance, announced that ceiling prices would remain on all agricultural equipment and supplies except brushes and other poultry equipment.

* * *

The Corcoran family spent Sunday visiting in Gibbons.

* * *

Mrs. Fred Schwarz underwent an operation recently. We wish her a speedy recovery.

* * *

Mrs. Robt. Wareing (nee Gertrude Fraser) Brother of the hostess of Mrs. Jack Brooks, Fraser Lake, formerly of this district, entertained friends over the week-end. Many happy days were spent by their cheerful hostess, late at least the small brush party is limited to one.

* * *

Mr. and Mrs. R. Ferguson and family of Regal Park visited at the home of Mr. and Mrs. Hugh Fish.

* * *

A miscellaneous shower was given in honor of Miss Jean Gregory on Wednesday, June 11 at the home of Mrs. H. Olson.

Many lovely and useful gifts were showered on her and many beautiful gifts from an appreciated umbrella decorated in the colors of the bride.

Mrs. Cooper (nee Frances Gregory) and her two daughters Lois and Sheila, of Edmonton, U.S.A., were present. Mrs. Cooper leaving next week to attend her sister's wedding.

* * *

Record Lake district completes of the city postal contract, spent Sunday in the district.

* * *

A record number finished serving the quilt top together, the busy Bees—got ready for quilting in the fall.

* * *

In the show and theme it took two dollars worth of groceries to hold the dollars worth of groceries.

Annual Conferences Held by U.F.W.A.

Ill spite of the inclement weather over 100 U.F.W.A. members and friends of the Josephburg Beach Edmonton constituency attended the annual conference conference held at the Women's Temple in Edmonton on June 11th.

Mrs. H. E. Lowe of Namao, the provincial president, spoke briefly on organization, and the necessity appreciation of the many experiences of kindness and sympathy in the hour of sorrow. Mrs. Christianson Minister of Welfare in Manitoba Community, contacted the advantages of Community Clubs and Local Unions. Mrs. D. C. Smith, Director, brought greetings from Dominion.

Mrs. R. Fleeceyllyn, a member of the Edmonton bowl, gave a very interesting talk on Psychology, the Parent and the Child. A thought provoking panel discussion on immigrating, and the Ruthenia problem was conducted by Mesdames F. C. Butterworth, E. Shoutcliffe and A. Scott was part of the morning's program.

Pictures on Cancer and Appendicitis were shown by Mr. Floyd Baker M.L.A. A very fine inspirational address on Man's Duty to Make Choices and Resolutions was given by Rev. H. H. Bindell, pastor of the United Church of Canada.

A presentation was made by Mrs. J. Beesley of Horse Hill to Mrs. A.P. Cowley, who, with Mrs. Simms had resigned from the position of secretary. A wish for her speedy recovery and regret at her not being able to continue in her secretarial capacity was expressed. Mrs. Cowley replied in appreciative terms.

Mrs. H. Stetson, Director, acting as chairman, expressed the appreciation of the assistance of the various conveners and assistants, especially Mesdames J. J. Jackson, J. Appleby, H. M. Clark, D. Dunbar the pianist, Mrs. S. Presbyterian and others who had helped in any way.

Josephburg

The Young People's committee is in charge of camp arrangements next on Monday evening to draw up the program if the present enthusiasm exists. The 20th Edmonton constituency will be present to lecture and demonstrate. All interested are invited to attend

* * *

PLATES OF BEAUTY

Serve yourself a spoonful of (meat and beauty). Yes, the government says Canadians should eat more fruit and vegetables. Suppose that's a hint, and Mrs. Consumer, wondering what we can have for lunch, and how we feel

Particularly important is "beauty food", they say, are vegetables and fruits, which can do more for women than all the beauty shops, and the other "protective foods", which not only provide energy, but also help make for preservation of the "characteristics of youth".

* * *

Grant Brilain has closed its eaten exchanges and will buy its requirements on a contract basis

IN MEMORIAM

In loving memory of mother, Mrs. Clara Osmond, who passed away June 20, 1946.

Through all the days that's passing

She rests her loving head,

While sister, brother, husband

Her loved family mourned by all its family.

Obituary

REMEMBER

Although she had not enjoyed the best of health for the past five or six years, the sudden passing of Mrs. Edward Kelterborn came as a shock to her family, relatives and friends. Mrs. Kelterborn, who was in her 66th year, had been around as usual and was about to leave her home to spend any her brother-in-law and sister, Mr. and Mrs. John Deery, of Blyth, a visit at the home of her sister, Mrs. Albert Cowley, of Edmonton, when she suffered a severe heart attack and passed away without medical assistance.

The former Susan Catherine Shin, she was born at Bruxner on Hanlan Bed, 1881, the youngest daughter of the late George and Magdalene (Shaider) Bain. She spent her younger days at Bruxner but came to Riverdale with her parents about 1902. She spent a number of years as a dressmaker in Riverdale and for a time was employed in Prince Albert and Toronto. On Nov. 26th, 1913, she was married at Wetaskiwin to Mr. Edward Kelterborn, youngest son of the late Mr. and Mrs. August Kelterborn of Wetaskiwin. Following her marriage she resided at Fort Saskatchewan, where Mr. Kelterborn operated a butcher shop. While residing in the town she took an active interest in church work, being a member of the choir of the United Church and a past president of the Ladies' Aid. For a time she was a member of the Rebekah Lodge, being a past Noble Grand. She also took an active part in curling, the Women's Institute and other community activities.

About two and a half years ago Mrs. Kelterborn and her husband came to the west and have been residing in Edmonton since.

She is survived by her husband, Edward (Skipper) Kelterborn, Dennis Gillen, of Truscon and (Wanda) Mrs. Jack Bain of Edmonton; one sister, Mrs. Orvald, of St. John Bird, 1944. She is also

Around the Town

Congratulations to Mr. and Mrs. Allan Schneider on the birth of a daughter Arlene Gail, on Sunday, June 22.

* * *

Bill Walton has been notified by the University of Western Ontario, that he has been awarded the French Embassy Scholarship for 1947, and will study this summer in Quebec.

* * *

Mrs. A. H. Rogers of Edmonton and her son, Mr. Jack Rogers of Fort St. John visited Mr. and Mrs. F. H. Walton last Sunday.

* * *

Mr. and Mrs. Emil Mansdorf, Misses Gibbs and Betty Hoidal, Win Hotel, and Miss Clara Fischer and Mr Richard Fischer left Monday by car for a two-week trip to Vancouver and Washington.

* * *

Lyle Haverstock, who has been staying at the home of Rev and Mrs. W. W. Baxter left Friday for his home in New Westminster, B.C.

* * *

Messrs Dick Bonin, Keith Galloway, Leo LaPage, Herbert and Bob Gudbout left early Monday morning with two trucks and two combines for the United States. The boys will first go to Dodge City, Kansas, they will then be directed to various parts of the country to help in the wheat harvest. The expect to be away about two months.

* * *

Mrs. Boyter and Mrs. Borns of Caledonia visited at the home of Mrs. Quackenbush of Perry Sound, Ontario are guests at the home of Mr. and Mrs. T. J. Jamieson.

* * *

Arthur Abraham will leave here Sunday for his mode's ranch ranch in the city.

* * *

Mrs. F. Barron, daughter of Mr. and Mrs. A. McNamee who is visiting with her parents, will return to her home in Waskatenau, Friday.

* * *

Gary Westover is now to be seen in the Fort Confectionery jerking sodas for the summer months.

* * *

Dr. and Mrs. H. M. Bacon attended the Shriners conference, banquet and ball held last Saturday at the Macdonald Hotel.

* * *

The Clover Bar Community League invite everyone to attend their picnic to be held Wednesday, July 9th. There will be men's and ladies' baseball, horseshoes, dancing and races for all. Everybody come and have a good time.

* * *

Mr. Dick Magor accompanied by his son, Trevor left Sunday with Mr. and Mrs. Hilliard of Edmonton for a vacation at Jasper. Mrs. Magor and daughter plan to join them there next Sunday and will stay at the Y.M.C.A. Camp at Lake Edith for a few days.

* * *

Nineteen members of the Fort Ladies Curling Club held an enjoyable social evening last Thursday when they went to the Fort Shoe to see "Pride of the Blue Grass" and later partook of a delicious lunch at the Fort Confectionery.

* * *

Mr. and Mrs. Selby Thorne will leave Sunday on a four-week motor trip to Los Angeles, California.

On their return trip Mrs. Thorne will attend a three-week course at the Banff School of Fine Arts

Minutes of Regular Monthly Meeting of Town Council Held Mon.

The regular monthly meeting was held on the 23rd June 1947 with the following members present: Deputy Mayor Dr. Johnstone and Councillors Jacobs, Lowe, Walton and Dawson.

Mr Harry Polachenuk was present in regards to the Lot 18 in Block 2 Plan "O" between his lot and the Cold Storage Plant and the Council decided that this lot had to be cleaned up as soon as the Sanitary Inspector visited this town. In regards to his Business Tax of $5.00 per year this matter was explained to him and the Council regretted that they were sorry for owning that all the beauty shops, and the other "protective foods", which not only provide energy, but also help make for preservation of the "characteristics of youth".

* * *

Grant Britain has closed its eaten exchanges and will buy its requirements on a contract basis

Ardrossan

The Ardrossan Women's Institute met June meeting at the home of Mrs. Gladden Rae. Plans were made for a tea to be held at the Empire room of the Hudson Bay Store.

A dainty lunch was served at the completion of the meeting.

* * *

We are glad to report that Eileen Rice is home again after her operation.

* * *

About three score of her friends and neighbors gathered to greet Mrs. Peeler, senior, on her birthday, June 20.

* * *

Mrs. Parker is one of our most [illegible] and pleasant fellows and we are pleased to have an opportunity to pay tribute to her in this way. May you have many more, birthdays Mrs. Parker.

* * *

On July 2 a joint meeting of the wheels field will be held at the home of Mrs. Johnson, 2 miles east of Mundare, the Ardrossan, United Workers plan to attend.

* * *

Miss Hayden, a missionary from Africa, will be guest speaker.

* * *

Look in the Coming Events column and get more of the Ardrossan Picnic. Any donations of pies or any baking will be gratefully accepted by the ladies in charge of the supper.

* * *

as a delegate from the W.I. here. Miss Simms, Plimbell and Mrs. Ada Williston will accompany Mr. and Mrs. Thorne to Peachland, B.C., where they will be the guests of Mr. and Mrs. Archie Plimbell.

Ada will then leave for Vancouver where she plans to make her home in the future.

* * *

Damage to the extent of two front tires and wiring of his tractor, resulted Monday morning at the farm of Stan Walker when his tractor caught on fire.

The tractor which was near the barn was headed by Stan to the centre of the yard thus eliminating any danger of the barn catching on fire.

Neighbors and residents of the Fort rushed to give assistance when the fire alrm sounded.

* * *

Mrs. A. Hnat will leave Monday for Gull Lake to spend a week visiting friends there.

* * *

Due to shortage of space, it was necessary to omit the church notices. The regular services will be held.

Minutes of M. D. Council Meeting

The Council of the Municipal District of Strathcona, No. 185 held a meeting on the 16th of June, 1947.

The meeting commenced with adoption of the minutes of the May meeting and the Financial Statement for the month of May.

The Council as a committee considered its investigation of the district Northeast of Alberga. [illegible] road in the Municipal District. It was decided that the Sutherland Road follow a route as suggested by local residents who had agreed to do the brushing without cost to the district. Nothing definite was arrived at regarding the Albert-Bonnie road as there appeared to be a conflict of interest. It is to be assumed if traffic the road carried. Further consideration will be given the matter at a later meeting.

Instructions were given to the road foreman to submit complete detailed reports of the cost of any work done during the preceding month.

A letter from the Superintendent of Maintenance, Department of Public Works was read in which he outlined the terms and conditions under which such road grants could be secured. Applications for such grants must be made in order of posterance, together with boundaries and a statement showing the need for such grants.

The application of Clarence Draker for recommendation to obtain a permit to operate a garage and repair shop at Salisbury Corner was approved.

A suggestion from the Secretary that a collector be appointed to enforce the collection of Personal and Property tax was acted on and authority given to make the appointment.

The Council [illegible] in the Board of Public Utility Commission that the property owned by I. D. Cote, King Edward Addition by consolidated into one block in accordance with a plan suggested by the Secretary to the Commission.

School Flashes

For the next two months, the doors of F.H.S. will be closed to the hard-working teachers and students for the well-worn path will become overgrown with grass and the abandoned brick building will have a decidedly deserted appearance.

* * *

The graduates, we hope, will have entered our classrooms for the last time to study, however, as for the others, there will be a welcome sign on the door next September and labor was accepted, the town to dig the necessary trench required.

The first Monday in August 1947 was declared the Civic Holiday

The meeting adjourned

Daylight Trains To be Discontinued

Edmonton, June 23—Canadian National trains 82 and 84 between Edmonton and Lloydminster will be re-christened at the end of the month, Assistant G. M. J. Dupuis, district passengeragent.

The last trip of train 84 will leave Edmonton at 7:30 a.m. Passenger and intermediate stations on Saturday, June 28, while the last trip of train 82 from Lloydminster and intermediate stations to Edmonton will be on Sunday, June 29.

Council Meeting

Authority was granted to Mrs. Gosling, Cooking Lake to cut sufficient logs on the N.W. of 2-54-20 to produce 4,000 feet of lumber on a stumpage basis at $2.00 per thousand.

A letter from Mr. C. E. Bowker, Secretary, Clover Bar School Division was read in which he approved the request of his board to ask the Council to construct a gravelled road from Brookville to Josephburg. It was pointed out that the school bus could be kept running on scheduled time. In the rendering discussion it was pointed out that application had been made to the Minister of Public Works for a grant towards the cost of this work.

The application of Leroy Willston to purchase Lots 31 and 32 Block 40, Kenilworth on the basis of $500.00 per acre was approved. The necessary by-law was passed authorizing this sale.

A delegation attended to request that an improvement be made in the present traveled road allowance between Sections 20 and 29-51-54-4. The road now travelled was formerly the old Calgary trail which was cancelled when the present Calgary Highway was located.

Mr. Marshall of the Imperial Paving Company attended to submit a proposition regarding removal of silt on the present low bridge was leased by the District from the Provincial Government. He was advised that it would be very difficult for the Company to give a definite, until they had all seen the site and the gravel bar so that they could clearly understand the nature of the work involved.

The Council also passed the necessary by-law confirming the revised estimates on the basis of twenty mills for school purposes, twenty mills for municipal purposes and four mills as a reserve for a reserve fund.

With the passing of paychecks and accounts and the reading of correspondence, the meeting adjourned to meet again on Monday, the fourteenth of July.

N. Edmonton Takes Over First Place in '16' League Standing

On Sunday, June 22 North Edmonton, and Horse Hill played 11 innings, with North Edmonton coming out on top of a 7 to 6 score By winning the game North Edmonton climbed to first place in league standing.

On Tuesday June 24 Josephburg crossed Horse Hill at Horse Hill with a score of 10 to 3. The latter four Horse Hill on third place and moved Josephburg to second

Mr. A. B. King Honored at Farewell Party Wednesday Night

A. B. KING

Many citizens of town and surrounding districts gathered in the Fort Community Hall, Wednesday evening in honor of Mr. A. B. King, recently retired on bank manager here

Mr King has been a resident of the Fort for the past nine years and will shortly be leaving here to make his home in the city.

Walter Sherman, president of the Community Club, acted as chairman for the occasion and introduced Mr. J. D McLean

Mr J D McLean, on behalf of all present, expressed his regret that Mr. King was leaving our midst.

As one of the leading citizens of the Fort, Mr. King has always taken a keen and active interest in all the various sports, organizations and a staunch worth.

Always willing to give a helping hand where needed, he will be greatly missed.

Mr. King was presented with a credit note which is to be applied on a moving picture machine.

In replying, Mr. King expressed his sincere thanks to the people of this town and district for the

Alfalfa Hay

We require hundreds of tons of green, dry, reasonably pure alfalfa hay suitable for grinding. In case you have a few tons of last year's alfalfa still on hand you should get in touch with us right away. You can haul it yourself or we can arrange for trucks.

New Crop Alfalfa

We will require 3,000 tons. It must be green, dry, and suitable for grinding. First cut should be cured just before it comes into bloom. The second cutting will then be somewhat equal to the first cutting, and both will be of good quality and will put up. The weather the last part of June and the first week of July is usually good haying weather. Try to get your alfalfa put up then.

Seeding Alfalfa

The land should be free of weeds and well packed. Twelve pounds of seed per acre will give the best results where the alfalfa is to be used for grinding. This gives a good coverage and helps keep the weeds out. Seed without nurse crop and try to sow just before a rain.

Validity Dates for Canning Sugar Manual

For the information and guidance of housewives and home canners generally, the Wartime Prices and Trade Board has pointed out that the validity dates for canning sugar coupons has been moved forward from July 17 to July 31, thus enabling canners to preserve early fruit packs as they ripen in various parts of the country.

Two validity dates for all sugar during the month of July will be as follows:

Thursday, July 3—VB, VC, VD, VE, VM, 36M, 36N

Thursday, July 17—36O

The Board officials observed that moving the validity date for canning sugar forward will enable many women, planning to do early canning, to take advantage of the earlier date and use the extra sugar for such small fruits as strawberries and raspberries, and for pineapple also. "It would appear that a great number of people prefer the sugar for these purposes instead of using it for the later fruits," a Prime Board official explained.

made with Sprudrops.

All this is part of the Reisner service offered by CJCA's sports department, in the interest of more sports and better sports in Northern Alberta.

Edmonton Exhibition to Open July 14th

The greatest galaxy of attractions and entertainment ever assembled will be staged during the week of the 69th annual summer fair sponsored by the Edmonton Exhibition Association. The fair will open on Monday, July 14th, and will continue through the week.

There will be six days of horse racing seven times daily, and scores of the world's leading stars of Western Canada and the mid-west United States will be competing for the greatest harness prize money offered this year.

Livestock exhibits are the biggest and in respect longer. Every province has sent exhibits to compete against livestock entered from British Columbia, Ontario, Quebec and the United States. As usual there will be the annual parade of livestock on Friday morning of July week.

In the agricultural sections there will be exhibits of grain and grasses from noted exhibitors, and a splendid array of flowers also is expected to be on display.

On the entertainment side will be the Royal American Shows with bigger and better rides and side shows.

The grandstand attractions this year are outstanding, and will be one of the finest seen ever presented in Western Canada.

Reduced fares will be available from all stations in Saskatchewan, Alberta and British Columbia, on regular train service. Buses and Edmonton round service These fares will be available from July 12th with the return limit set for July 21st, or the first available train after that date

Program for Women at School of Agriculture

A program of interest to many women will open at Vermilion School of Agriculture on Thursday, July 3rd, and a good attendance from widely scattered points in rural Alberta is expected.

Plans to present lectures and demonstrations that in a variety of timely subjects have been prepared by the Women's Extension Branch of the Department of Agriculture and the staff at the School of Agriculture. Topics include: "Household Textiles"; "Leathercraft and Glove Making"; "Happy Family Living"; "Soap Making in the Home"; "Enjoy Living with Flowers"; etc.

The members of the school staff will be available during the week to discuss special topics and items of interest with the guests.

A banquet will be held on Monday evening, July 7th, at which Miss Mabel Patrick, Professor of Home Economics, University of Alberta, will be the guest speaker. On the same evening Mr. S. C. Acheson will relate experiences and observations of life in British Guiana.

A special invitation is extended to the women of rural Alberta who are welcome to attend all or any feature of the program.

Why do Men Work?

"Work or Want" is the new slogan which appears on British posters. It is an effort to arouse the nation to meet the crisis of underproduction. But will appealing to men's fears produce the work that is wanted? Is this the inspiration that will make men equal to work?

"It is not true that men have lost their will to work," says Mr. Forrar Vickers, a British business man. "But we are trying to whip them to work by fear or lure them to work by greed. Fear and greed are motives which rebuke and blind, and set man against man and nation against nation. Those motives are what we are trying to use as incentives and it just won't work."

What will work? Why do men work?

Men work and work hard, says Mr. Vickers, not when you arouse their greed and fear but when you free them from greed and fear. "Only free men give full production. Our economic fight now, weakens all of us. In the fight for freedom of spirit. The responsibility of industrial leadership is to free men at heart to give their best work, and then to make this gift available to meet the needs of the nation."

In the Vickers' plant, apparently, there are men who want to work. And the hopeful spectacle of men who want to work would seem to us more inspiring to work everywhere than the grim spectacle of "Work or Want"

Overseas clearances of Canadian wheat from August 1st to June 8th totalled 127 million bushels. This does not include wheat shipped in the form of flour

CROPS ARE BEING IMPROVED

The "Crop Testing Plan", which commenced a commercial seed distribution during the past year between professional seed growers and farmers, 64 per cent more Registered and Certified seed than it did last year, and how your field showed the highest sales in seventeen years. This means that the quality of prairie crops, particularly of wheat, is certainly being improved year by year. The ever-growing publicity to farmers by Crop Improvement Associations, including the "Crop Testing Plan" has undoubtedly had much to do with these increased sales.

Of the wheats, Thatcher was in the greatest demand. Next to Thatcher came [illegible]. Rush topped in third place. With the oats, as usual Victory was far and away in advance of all other varieties, with Vanguard coming Eagle, with Laraia third With the barleys, O.A.C.21 again was the most popular variety sought by farmers, with Olli next and Warrior in third place

It will be observed by this that farmers tend to follow the advice of Sir Paul to "Hold fast to that which is good" New varieties, therefore, becoming available will have to prove themselves to be better in the field than existing ones before they will displace the present varieties.

EVERYBODY'S BUSINESS

by Don Graham

"Find out where your job fits in!"

This, I think, would make an excellent message for a signpost on the road to success.

Money a man is so absorbed in his immediate task that he fails to make a study of the history and nature of his business, and the contribution of successful competitors. Years from now, he will still be doing the same "immediate" thing.

But the man who is ambitious is usually curious. He asks questions. He is observant. And he reads.

There are many good books on almost every commercial operation. I have read many and invariably found them more interesting and more interesting than I had expected.

Yes, such information-seeking pays—always in the long run, and often in early promotion.

• • •

A business every year should know something about its Life Insurance. It protects the future of more than four million Canadian policyholders and their families. It offers an attractive, agreeable way to save and achieve security.

W-127

Company, who sponsor the Money Makers, mailed their cheques for One Thousand Dollars The program is released over a chain of Canadian stations, and is heard over CFRN every Thursday immediately following the Bing Crosby Hour.

SUMMER

Heat shimmering over green fields . . . the good smell of rain on warm earth . . . and of drying timothy and clover . . . the barn a shadowy refuge from the sun . . .

Time now to be making arrangements for extra help, for harvesting and threshing crews . . . and money to finance operations till the crop is sold. Money to meet this need is always available at the Royal Bank. Call on your nearest branch manager and discuss your loan requirements with him. Ask him, too, about Farm Improvement Loans and how they can be used for the benefit of the farm, the farmer and his family.

Around the Town

Mr. and Mrs. E. Tinkess returned to the Fort last Friday after spending several weeks at Portland Oregon

Mrs. A. Williston is leaving Saturday on an extended holiday at Loggieville, New Brunswick.

Mrs. D Meshie and Pat, wife and daughter of Mr. D Meshie, manager of the Royal Bank, arrived from Fairview, Alberta, to make their home here.

The staff and pupils of the First United Church Sunday School held a jolly picnic on Thursday after noon from 4 to 6 o'clock on the picnic grounds near the bridge.

Games were conducted by Mrs. W. Hare after which the kiddies were fed a delicious lunch by their teacher, Mrs. W. Fisher, Mrs. W Johnston, Mrs. Earl Phillips, Mrs. H. Byers and Mr. Jack Sime A holiday from Sunday School will now be observed until next

On Sunday, June 29 Mr. A. E. Porsild, Chief Botanist at the National Museum in Ottawa accompanied by Dr. E. H. Moss, Professor of Botany at the University of Alberta, spent the afternoon with Dr. and Mrs. G. H. Hurrell.

Dr. Porsild is on his way north to inspect a Canadian reindeer herd of some 3,000 animals on their grazing grounds east of the Mackenzie River delta. He will do botanical work on the way, especially in connection with our northern forests.

Rev. and Mrs. W. D. Rose and family left this week for a month's holiday at one of the lakes.

United Church services will be largely dropped in their absence. However, on Sunday, July 6th at 11 a.m., Rev. Dr. Thos. Hart will lead a combined service for the people from all the appointments in the Union Hall, Fort Saskatchewan, and on Sunday, July 13th at 11 a.m., Rev. Roy C. Taylor will lead a similar combined service in Partridge Hill Church.

Farmers, business men, high school boys and even a retired banker have been sharing this week in volunteer work by hoeing the cement walks of the new United Church basement have been completed.

The Clover Bar Constituency Annual Basket Picnic will be held at Wesluk's Beach on Hasting Lake will take place early this month. There will be sports, races and ballgames for all. Speakers for the picnic are Hon. C. C. Manning and Mr. F. M. Baker, M.L.A.

Betty Fleming, who has been on holidays for the past two weeks returned to her post in the Teller's cage at the Royal Bank, Monday.

Mr. T. Siddall who has been on the High School Staff here for the past two years, resigned his position to teach at Jasper, Alberta.

Before going to Jasper Mr. Siddall will mark some papers in the city for the next two weeks and will then proceed to Banff to attend the French Oral Class at the Banff School of Fine Arts.

Dr. and Mrs. W. A. Johnstone and family left Monday for their cottage at Pigeon Lake. Dr. Johnstone will be away two weeks.

Mr. and Mrs. J. A. Hirvon and family left Sunday for Pigeon Lake, Mr. Duncan returned home Wednesday evening but Mrs. Hirvon and children will remain there for two months.

Cecile Pozzale has now joined the staff of the Royal Bank here. She relieved her new duties Wednesday.

The staff of Fort Saskatchewan School held a farewell party for Mr. T. Siddall and Mrs. C. Dwyer, at the home of Mrs. G. Hosker last Friday. Mrs. Hosker and Mrs. Larson were hostesses, and served a very delicious lunch. Appropriate gifts were presented by Mr. Larson on behalf of the staff.

Mr. and Mrs. R. Larson and family left for the city today where Mr. Larson will attend summer school for the month of July.

Mr. and Mrs. Forrester will make their home in Edmonton after a visit to relatives in Scotland. The people of Loons join again in wishing them a "Bon Voyage".

School days are just about over and grade nines of the district are travelling to different schools to write their exams. Good luck to all pupils of the various grades, with their exams.

Two ball games were held at Lakeview on Sunday, Colchester came out on the short end of a

Field Day at Knott's Farm, Gibbons Friday

Eighty per cent of the one-way discs in Alberta are not properly adjusted. As a result they could be doing much better work than they are. Many of the operators are aware of this situation, particularly where their machine jumps out of the furrow, pulls heavily or fails to cut off all the weeds in its path However, maybe you are one of hundreds of farmers who believe that their one-way discs are working efficiently. That odds are against you. Experience has shown that minor adjustments often result in major improvements by way of lighter draft, quality of the job and ease in operation.

A Field Day has been arranged at which a specialist in farm machinery will demonstrate the correct hitching and proper adjustment of tillage implements. Draft and slipping tests may also be conducted. Come and be with your neighbor. Action starts at 1:30 p.m., Friday, July 4th at the farm of Mr. Edward Knott, 4 miles south of Gibbons.

Farewell Party Held in Honor Ada Williston

A number of young ladies met at the home of Mrs. Sobly Thorne last Saturday evening to bid Fern well in their esteemed friend, Ada

The evening was spent in music and games. At the conclusion, the guest of honour was presented with a basket containing dainty handkerchiefs from each of her friends present.

A delicy lunch was served by Mrs. Thorne, assisted by Mrs. W. H. Wensley, Miss Norma Flintoff, Miss Joyce Williston and Miss Grace Wilson.

Fultonvale

Mr. and Mrs. Tom Reed and Mr. and Mrs. Chas. Martin, also Mrs. James Lyon are holidaying at the coast. Happy time folks.

The school's closing picnic was held at Lakeview, the children had a wonderful time. We wish Miss Siddall will much success happy in the city for the next two weeks and will then proceed to Banff to attend the French Oral Class at the Banff School of Fine Arts.

Mr. and Mrs. Walter Geary are proud parents of a baby daughter, congratulations.

summer school for the next six weeks.

Bob Sherman arrived home Wednesday evening from Brule, Alberta. He plans to spend his two-week vacation with his parents, Mr. and Mrs. F. Sherman.

Mr. and Mrs. Larson and family were the guests of Miss Mary Grumbaugh at her home at Gascoss for the week-end.

Mr. and Mrs. J. T. Lalonde, who have been holidaying at the Pacific Coast and in the United States for the past six weeks, returned home this week.

Mrs. O'Brien and son Michael are spending their holiday visiting Mrs. O'Brien's daughter and son-in-law, Mr. and Mrs. J. Pinchery.

Earl Sherman Pilots First Plane on T.C.A. Western Route

The honor of piloting the first T.C.A. plane on the new Edmonton-Winnipeg Route was given to Earl Sherman, son of Mr. and Mrs. Fred Sherman of Fort Saskatchewan

Earl is the eldest of three sons of Mr and Mrs F Sherman He joined the Canadian Air Force in 1940 and fought in Africa He is married to the former Miss Gladys and has a son and a daughter.

Following the completion of the first twenty hours he is to be accepted by the T.C.A. and after completing a course on Canso aircraft, acting pilot flew the Winnipeg - Edmonton He was then transferred to the Lethbridge-Winnipeg route where he has remained since the inauguration of the new service.

The inauguration of the new service took place on Tuesday along with a new fifteen hour service, and the combined two new routes will be known as Empress Trans-Canada. He was then transferred to the Lethbridge-Winnipeg route where he has remained since the inauguration of the new service.

East Edmonton

Mr and Mrs. M. Watson left recently on a motor trip to the coast.

Mrs. W Kowalczuk is at the coast visiting her parents, Mr. and Mrs. J Henry

Miss I. E. Briggs arrived home from the coast Sunday evening to visit her parents Mr. and Mrs (

The community picnic was held Friday, June 27 in the hall and school grounds. Races and ball games were some of the thrilling events of the day A vote of thanks goes to Mrs. J Anderson on the wonderful convenorship in the

The day was brought to a close by the last dance of the season. A large crowd was in attendance and everybody had a wonderful time from all reports The dances will start again next September.

Thanks goes to Sonder's Store for their donation given to the school children.

Mr. and Mrs. G Stewart and family have sold their property and have moved to South Cooking Lake for the summer months.

GIRLS SOFTBALL

The Fort girls defeated Morinville to the tune of 20 to 17. The The Fort girls played Gibbons and were the victors with a score of 19 to 8.

The next game will take place at Morinville, Wednesday, July 9.

At the Bruderheim Sports day held Tuesday, the Josephburg ball Team clearly demonstrated that they had the best team on the field as in each of the three ball games scheduled of games that day they were defeated. The scores were as follows:

1st game—Josephburg 14, Bruderheim 7.

2nd game—Andrew by default

4th game—Josephburg 13, Andrew 6.

5th game—Josephburg 16, West Elk Island 6.

Josephburg Team won first prize money of $70.

Visible supplies of Canadian wheat on June 5th totalled 77,-948,154 bushels as compared with 10,926,626 bushels on the same date a year ago.

Crop Spraying from Plane Proves Success

To Mr Red McCrimmon goes the distinction of being the first farmer in this district to attempt the eradication of Wild Mustard and Canada Thistle by spraying from aircraft.

Mr. McCrimmon tried this new method over the week-end on 160 acres of wheat and says that it is proving very successful

He stated that the pilot of the plane, Ted Holmes, did an excellent job. The chill he showed in handling the plane, eight to ten feet from the ground and hopping the fences, was something to marvel at.

A second application will be given the 160 acres and later Mr. McCrimmon plans to treat all his crops by this method.

Canadian Built Ships Offered for Sale

Vessels built in Canadian shipyards and afterwards employed in commercial and naval services are now being placed on the market by the Park Steamship Company Ltd., acting as agent for the War Assets Corporation. There are 31 ships coming up for sale, 20 of them being 10,000-ton dry-cargo vessels of the "North Sands" type, which are coal burners, and one 10,000-ton oil-burning "Victory" type vessel.

All of these ships entered British service as they left Canadian ports on their first voyage, under the provisions of Mutual Aid, and after that agreement terminated on September 1, 1945, all the "North Sands" ships remained under the charter of the United Kingdom Ministry of Transport, and the "Victory" ships remained on duty with the Royal Navy.

The ships are to be returned to the ownership of the Park Steamship Company during 1948, and tenders are now being invited for units of two and three. The agreement of sale includes safe delivery to a Canadian port, or elsewhere, as may be agreed upon, and the ships are sold on the condition that they be operated under Canadian registry.

DIRECT PARCEL POST TO FRANCE RESUMED

Direct parcel post service from Canada to France has been resumed and parcels up to a weight limit of 20 pounds may now be sent. Parcels may be dispatched via ordinary steamship, as well as via the United Kingdom, subject to the conditions at present in effect for parcels to France.

It's not the amount of our salary but what we do with it that counts.

Milton Moyer and Mabyn Long Wed at St. Stephens College Chapel

In a late afternoon ceremony on Friday, June 27th, in St. Stephen's College chapel, Edmonton, Miss Mabyn Gladys Long, only daughter of Mr. and Mrs. J. M Long of Olds, became the bride of Mr John Milton Moyer, youngest son of Mrs. E. Moyer of Fort Saskatchewan and the late Mr Moyer Rev H. C Burkholder of Calgary performed the double ring ceremony

The bride, who was given in marriage by her grandfather, Mr. H. S. Fraps, entered the chapel to the strains of Lohengrin's wedding march played by Mr. Graham Tipple of Toronto. The bride was lovely in a floor length, Victorian model gown of white slipper satin and a full length veil which was held in place by a coronet of orange blossoms Her bouquet was of red and white roses and she wore as her only jewelry a double strand of pearls, the gift of the groom.

As maid of honor, Miss Joan Chappuis of Calgary, wore a gown of pastel blue sheer with matching chapel veil and carried a bouquet of pink and rose carnations. The bridesmaid, Miss Hilda Moyer, twin sister of the groom, was gowned in coral sheer with matching chapel veil. Her flowers were yellow and mauve carnations. The flower girl, little Dorothy Fraps, cousin of the bride, was dressed in a long dress of yellow nylon sheer and shoulder veil. She carried a Colonial bouquet of sweet peas.

The best man was Mr Stanley Fraps, cousin of the bride, and Mr. John Kuhn ushered the guests.

During the signing of the register Mrs. H. C. Burkholder of Calgary sang "I Walk Beside You".

A reception to sixty guests was held at the home of Madame P. A. Dea. To receive with the bridal couple, Mrs. Long, mother of the bride, chose a dress of salmon pink with white embroidery, and wore a corsage of pink roses Mrs. Moyer, mother of the groom, wore navy crepe trimmed blush rose with blush and white accessories Her corsage was of American Beauty roses.

The bride's table was laid in navy and rose and centred with a tiered wedding cake, decorated in white. The room was tastefully decorated with spring flowers. Presiding at the urns were Miss Chalmers Bowen of Vancouver, and Miss K. S. McLaren of Buxton, Saskatoon were Mrs. J. Cox, Mrs. A. J. Leitch and the Misses Frances Lotter, Selma Ure, Margaret Lindale and Kay Starr. The toast to the bride was proposed by Rev. H. C. Burkholder and was responded to by the groom.

Mrs. Long received a wedding dance was held in the Partridge Hill Community Hall.

Mr. and Mrs. Moyer left on a motor trip to the mountains, the bride travelling in a grey suit with pink and white accessories. Later they will live at Vegreville.

The couple will reside at Fort Saskatchewan.

Modify Regulations For Meatless Days

The WPTB has announced that throughout the months of July, August and September, the meatless day regulations are being modified to permit the serving of weiners or frankfurters on Tuesdays and Fridays in order to allow them to be sold at sumer campings or fairs, exhibitions, picnics or out-door conventions.

The new order makes no change in the meatless day observance regulations as they apply to hotels, restaurants or any public eating place where meals are regularly served, and where families are such that other foods are easily prepared.

The order specified that "hot dogs" may be served or supplied as a meal or as refreshments at any exhibition, fair, picnic, outdoor convention or other gathering held under the auspices of

1. Any municipality or other civic organization or society
2. The Canadian Legion or any other veteran's organization or society.
3. Any Service Club or fraternal society.
4. Any Church organization or society.
5. Any agricultural or labor organization or society.

The weiners or frankfurters must be served and supplied on the grounds where such exhibition, picnic or other outdoor gathering is held.

Britain Seeks Bigger Yields Of Fish from Arctic Ocean

A team of United Kingdom scientists are preparing to explore little-known areas of the Arctic ocean for data which will solve many deep-sea fishing problems and result in much bigger catches. The purpose of the expedition is to discover why large shoals of cod and haddock regularly gather in waters around Bear Island. It will also seek to find out what effect currents and temperatures have on the movements of the fish. This information will enable trawling fleets to locate shoals with great accuracy and will eliminate time now lost in searching for them. A special ship is being built by the Ministry of Agriculture and Fisheries and will be ready for launching early next year. It is being modelled on a well-tried type of Arctic trawler with a length of 176 feet and a speed of 12 knots. The hull is being specially designed to resist pressure from ice-packs. There will be accommodation for a crew of 16 and fishings include the very latest type of scientific instruments for examining sea life.

The answer to "Work or Want" is "Want to Work".

Wimbledon

The Wimbledon Softball Tourney was held on Friday, June 27 at Riverdale Park. The games were played on the diamond by eleven men from the district.

Lunch was served at noon and the afternoon was spent in sports, swimming and visits to the zoo.

This being the tourney's (Mr. H. Lorie) last month as the school's representative of a lovely tablecloth was made up, consist of the pupils by Colby Quillinan. The tablecloth was presented prizes to the pupils with the highest standing in the various division:

The highest standing in the first division went to Colby Quillinan a first year pupil at school, nine week young fellow. Second was Dividon 2 went to George Bulmer, Dividon 3 to Bobby Adamson Best attendance prize went to Rita Kohan with a 100 per cent attendance, quite a feat for a grade 8 pupil with 1½ miles to travel to school

The first prizes were served at 4 p.m. and plenty of ice cream was the order of the day. Children and parents alike wished it the best school picnic ever.

Man Given New Hand

A skilled surgeon attached to the Birmingham Accident Hospital in Britain's Midlands carried out what is believed to be the world's first successful operation and needle life worth living again for an unfortunate workman. This workman, who was quite young, lost the mid-fortune to have all the fingers of his right hand cut off by a machine. Only the thumb was saved, so that the hand was maimed and the youngster could never apparently have competed to do anything and a most interesting operation was carried out. He grafted a finger from the left hand on to the metallical right one and then began the tendons of the finger so [illegible] chain of like [illegible] that the finger functioning like their opposite number. The whole treatment, including training, lasted almost a year, but great accuracy and will eliminate time now lost in searching for them. A special ship is being built by the Ministry of Agriculture and Fisheries and will be ready for launching early next year. It is being modelled on a well-tried type of Arctic trawler with a length of 176 feet and a speed of 12 knots. The hull is being specially designed to resist pressure from ice-packs. There will be accommodation for a crew of 16 and fishings include the very latest type of scientific instruments for examining sea life.

WHEAT FLOUR

Wheat used in the manufacture of flour during the first nine months of the present crop year, which ends July 31, 1947, amounted to 94,305,000 bushels in the corresponding nine months of the 1946-46 crop year. Production of flour for the first nine months of the present crop year amounted to 21,121,130 barrels compared with 20,760,781 barrels.

« Recipes for Milady »

Let us pretend that we are going to have a picnic in a secluded spot under a tree or lake with the water and food and you are trying for something to do with a good picnic on the beach, so that, if you wish, you may build a small fire without danger of doing any harm; when there is a very keen grassy green on which to spread the picnic food. And this idea shine and sandwiches, sometimes building a picnic, the range next is set.

Now, to decide, would say, what about the picnic, consisting of about the contents of the picnic basket. For those, after all, are the things that are packed, eating with relish, and which, if well packed, should not be spoiled. Some basic really make the picnic.

The home economists of the Dominion Department of Agriculture have been busy with the picnic basket and have some sound planning for your picnic to their kitchen. Here is one of their picnic suggestions for your approval.

Picnic Jaunt—Salt to the tea and pepper in your lunch. Pack the Lettuce, Radishes and Olives in Crisp Moist Paper Towels. Tea or Coffee—for the grownups—in Thermos bottles.

PICNIC HAMPER SALAD

2 cups diced cooked ham, veal or tongue
2 hard-cooked eggs, chopped
½ cup cooked peas, well drained
½ cup chopped pickle
Boiled dressing
Salt and pepper to taste

Toss all ingredients together. Mix slightly with enough boiled dressing to moisten. Serve on lettuce with radishes and olives.

* * *

CHEESE SPREAD

1 cake cream cheese
Milk
1 tbsp. fruit juice
2 cups liquid (water, milk or canned tomato)
1 tablespoon sugar
1 tablespoon salt
1 tablespoon onion
1 tablespoon chopped green pepper
2 cups grated cheese
2 tablespoons fat, melted
2 cups flour, sifted

Soften cheese with milk, adding fruit juice, then rest of ingredients, to dissolve yeast. Dissolve sugar and salt in remaining liquid and add to yeast mixture. Add 1½ cups of the flour, beat well and add melted fat; beat hot, then add remaining flour, mixing with flour, mixed with the cheese, making a stiff dough. Turn on floured board and knead well. Place in a large greased bowl and let rise until double in bulk. Knead slightly, shape into loaves, cover and set in a warm place to rise until double in bulk, about an hour. Bake in a moderately hot oven, 375 degrees F., until the loaves shrink from the sides of the pan and give a hollow sound when tested—about one hour. Makes 2 loaves, approximately 1½ pounds each.

Pioneers tested by 5-4-D weed killer are not guinea pigs to grow potatoes. This conclusion has been reached after extensive investigation by the United States Department of Agriculture.

President Truman at Montebello, Que.

Taking a well-earned rest from his official tour of duty, President Truman informally met Commodore and United Nations newspaperman at the Seigniory Club, Montebello, Quebec. In this picture left to right are President Truman, J. Hugh Cambell, manager of the Canadian Pacific Railway hotels department of public relations and Prime Minister Mackenzie King.

CANADA'S health

DISEASE IN SMOKE

Disease lurks in the smoke which contaminates the air of many large cities. Canadian Health authorities have evidence that differences in certain sickness rates between city and rural areas are attributable, in some degree, to the smoky atmosphere of the cities.

Since pollution of the air by smoke and gases from coal in industrial and domestic use thus constitutes a definite health hazard, authorities are asking the cooperation of all concerned in minimizing smoke and fume emission. [illegible] and proper cooking techniques are expected to improve the situation, and civic and public service bodies are organizing to make war on the nuisance.

* * *

PRE-NATAL CARE

Prospective mothers are reminded by Canadian health experts that proper pre-natal care has an important bearing on the health and chances of survival, of both mother and infant.

Since it is after months old when born, expert attention is essential from the outset, and the mother who maintains close liaison with the family physician throughout her pregnancy is conceded a far better chance for a successful outcome of her experience, and for a healthier baby.

Medical authorities believe that more general adoption of the facilities for consultating and care arising from pre-natal direction will do much to reduce the infant mortality rate in this country.

* * *

FOOD THAT PAYS

Since food has a direct bearing on health, which, in turn, is reflected directly in earning ability, nutrition authorities urge workers to "eat to earn". Producting raise, safety records, quality of output, and, of course, profits from labor, are all often in direct relation to the worker's physical condition. Proper nourishing foodstuffs, the experts, produces more and profit most.

* * *

TREATING BURNS

Warning against inadequate and possibly dangerous first aid for burns, is issued by Canadian health authorities. It is essential, they point out, that burns be covered and the wound kept covered until expert medical attention is obtained.

Burns are sterile when sustained, but they can be infected by careless handling immediately afterwards. They should NOT be dabbed, by the inexperienced, with any old ointment intended to relieve pain. Only sterilized dressings, such as a Boston will apply, should be put on them. The medical people repeat—don't remove dirt, or oppose the burned surface, until professional treatment can be given.

* * *

HOLIDAY HEALTH

Need for a complete rest, change and reasonable recreation, at least once a year is emphasized by National Health leaders in commenting upon the growing tendency in some quarters of regard annual holidays as a waste of time.

Since most people have an opportunity, in modern society, of taking a real holiday yearly, the medical people urge all who can do so to take full advantage of this cessation of normal activities. Their very health and welfare, demand it. Both mind and body need a letdown, it is stated, if they are to continue to give the service expected of them throughout the rest of the year.

* * *

HEALTH ARMY

Public Health Officers [illegible] since mainly in the anonymity of civilian attire, and in office, laboratory and clinic, but they make up an alert and well-trained army. Front line soldiers of health are the physicians, nurses, dentists and other professional people dealing directly with the public.

Canada is proud of her fighters in the field, and it is gratified that there is no finer corps in the world than that which includes Canadian scientists, engineers, inspectors and administrators, who stand behind the disease attackers and who furnish them with the weapons to war on human ailments.

* * *

ANT NUISANCE

Suggestions for defence against ants, annoying summer pests, are offered by health authorities at Ottawa. Ants may be discouraged by keeping [illegible] floors free [illegible] and public [illegible] food [illegible] ... [illegible] ... [illegible] ... [illegible] ... [illegible] ... [illegible] ... Stainless Rath

A dozen metropolitan railroad stations can only have a rapid rush service if the signalling is automatic. An electric current flows over rail A and another from the wheels and axles of the train to the other rail and automatically operates the signal. The train rider on the corresponding signal or the nearest signal box. This device is used to a limited degree of satisfaction, makes it possible for trains to run, for instance, on Sunday Underground, at 45-second intervals at the peak hours. On the lone need however, this automatic signalling system does not work with absolute efficiency. If the rails are rusty, the passage of the current is hindered. United Kingdom railway engineers have now overcome this danger and experiments are to be carried out in London with stainless steel strips as fitting road rails to insure all the tracks rails for automatic signalling.

IN MEMORIAM

In loving memory of our husband and father, Mr. Hugh McQuarrie, who passed away June 28, 1945.

Sorrowed long our lives may last,
Whatever pain or grief be ours,
We will always think of you,
Ever remembered by his loving wife, daughter and son-in-law, Annie and Tom Bolt and family.

In loving memory of James Kerwood Goldney who passed away July 3, 1945.

Sometimes it's hard to understand
Why some things have to be,
But in life wishes No has pleased
Beyond our power to see.
Fondly remembered by his loving wife and family.

In loving memory of our mother (Mrs.) Gostick who passed away July 3, 1945.

O how oft she comes before us,
Her dear face so sweet and true;
Resting now in peace with Jesus,
Loving hearts still long for you.
Ever remembered by her loving family.

Secretary-Treasurer.

Home Accidents take Heavy Toll

Accident records show conclusively that Home Sweet Home isn't the safe retreat it is commonly cracked up to be, but ordinary care combined with proper illumination, and correctly painted light-reflecting backgrounds can be big help in cutting down the total of home injuries.

The statistics show that falls account for a large proportion of home injuries, with stairways of various kinds as the worst offenders. Edges of stairways, treads of ladders and study ceilings should be painted in contrasting colours as constant warnings against the pandemonium that breeds accidents. White or light tints should be used to reflect light from ceilings and side walls, stairways, closets, store rooms and other dimly lighted parts of the home.

Aside from stairways, the most dangerous parts of a home seem to be the kitchen, the living room, porch, bedroom, basement and dining room in that order. In all of them, the careful use of correct colours and lighting can increase visibility and lessen the chances of accidents.

The bathroom, incidentally, is well down in the list of places around the home where accidents are most likely to occur. It would seem that people are less likely to injure themselves in the cosy white porcelain part of the hub.

Ships pointed white have been found to remain, as much as eight or ten degrees cooler in tropical waters than those with black hulls.

Nutrition Question Box

Can we get too much salt?

Miss Joyce Lewis, Nutritionist for the Home Economics Service of the Alberta Department of Agriculture, says that we can. Salt is moderation in all right, she says, but the habit of always reaching for the salt shaker before we even taste our food is a bad one. Too much salt may overtax the digestive system and interfere with the absorption of other minerals and cause a retention of water in the tissues, interfering with other body processes requiring water.

Salt is composed of sodium and chlorine, two minerals both essential for our bodies, but both widely distributed in our natural foods. Perhaps cooking deprives the body of salt, so a good supply of salt is desirable in very hot weather or when doing strenuous work which causes sweating. Ordinarily, the amount of salt in our natural foods and taking it too zealously is a questionable practice.

Announce Removal of More Price Restrictions

The WPTB has announced the removal of price ceilings on six classes of goods. These are:

1—Bakery products of which soft wheat flour is a primary or principal ingredient, i.e., cakes, pies, and pastries; 2—Tea; 3—Coffee; 4—Leather garments other than gloves; 5—Partitions; 6—Gopher poison. The Board has announced new ceiling prices on soft wheat flour at $1.80 per barrel above such seller's basic period price, and an increase of ¼ cent per lb. in the manufacturer's selling prices of all biscuits.

The new ceilings on soft wheat flour reflects the adjustment in winter wheat prices announced in the House of Commons by the Minister of Finance, and the adjustment on biscuits covers the increase in the soft wheat flour prices. However, since other bakery products in which winter wheat flour is a principal ingredient are of great variety, kinds and sizes, it has been decided to decontrol these commodities rather than attempt the heavy administrative burden of working out new ceiling prices for each and every item.

Tea and coffee are being decontrolled as a result of the Board's decision six months ago to withdraw from wartime bulk purchasing. At that time the trade was informed that the Board's stock of tea were sufficient to last until mid-summer and of coffee until early fall and that the trade would have to take immediate steps to purchase on their own account the supplies they would require after that time. The trade has planned accordingly and there should be no interruption of supply as a result of the change-over in private trade.

The principal chemicals entering the production of Gopher Poison were decontrolled last April, and it has now been decided that the price of fertilizers themselves should be decontrolled.

A small sodbuck has hitherto been held on strychnine entering into gopher poison. This subsidy has now been discontinued and the price ceiling removed.

GET YOUR CARROTS

Popularity of foods high in vitamin A, will probably put other sight-fighters during the War, government officials believe. Carrots, spinach and other foods which provide worthwhile amounts of this important vitamin.

The wettest spot on earth is on the island of Kauai, one of the Hawaiian group. Around Mount Waialeale, 5,000 ft. high, the average rainfall is 1½ ins. daily, according to Hawaii Press Bureau.

Britain's First Radio-Controlled Projectile

This picture shows — Making some adjustments to Fairey guided missile while it is on launch beam.

The first United Kingdom pilotless [illegible] missile [illegible] Fairey Aviation Co. [illegible] development for 18 months has now successfully completed a full range flight trial. This new missile has been designed and developed by a private firm in Britain. It has been developed to the stage where a controller on the ground can exercise full flight control and pass the pilotless missile through a predetermined program of aerial manoeuvres.

Using four 76 lb. thrust rockets, the maximum speed is far in excess of 500 miles per hour. Smaller rockets fed on the rocket gave a top speed of 750 miles per hour.

It is of orthodox monoplane design its fuselage is cylindrical 7 feet 6½ inches long and 12½ inches in diameter. The nose is streamlined in accordance with [illegible] practices. The tail unit of the fuselage is unstayered and spec ended to allow room for [illegible] from venture of main rocket motor assembly. The main plane, comprised of port and starboard wings, is set in mid wing position with a total span of 6 feet 10 inches. The tail plane which is similar in plan to the main plane has a span of 4 feet.

Fort Team Fighting For Play-Off Berth

The Fort Rovers Team finished another step closer to the top of the ladder when they defeated Horse Hill 12 to 9 last Sunday. The boys are now tied for third place with Horse Hills and Namao. A win against Josephburg on Friday will put them in the semi-finals.

Following is the League Standing

Team	G	W	L	T	Pts.
N. Edmonton	8	6	1	1	.800
Josephburg	11	6	3	2	.545
Fort	11	5	5	1	.500
Horse Hill	11	5	5	1	.500

SUNDAY'S BASEBALL

In the game played between Partridge Hill and the Fort Lewis Saturday, the Partridge Hill team won 8 to 5.

In the game between Fort and Bremner, Monday, the Fort girls won 23 to 12.

Barley Contest has 1,000 Entries to Date

Figures from Alberta and Manitoba up to late June showed nearly 1,000 entries from the two provinces in this year's $25,000 National Barley Contest.

By June 15 there had been 662 entries received in Alberta as compared with a total of 291 entries in the 1946 contest. The final date for receiving entries in the whole Western Division is July 15 and it is expected the Alberta list will be considerably increased.

In Manitoba there were 447 entries at June 30. Figures from Saskatchewan up to the end of the month had not been received by the contest committee.

The 1946 entries are 327 from Manitoba, 286 from Saskatchewan and 201 from Alberta.

The saddest thing we learn from history is that we do not learn from it.

Watch Clothes Moths

Spring cleaning has been completed in many homes and winter garments have been stored away for the season. The housewife may feel that once she has sprayed garments or bedding with DDT, or has brushed them and sifted naphthalene flakes or paradichlorobenzene crystals among them that she has won the war against moths. But she hasn't.

According to entomologists of the Dominion Department of Agriculture, one of the worst breeding places of moths is often overlooked, if there is a hot air furnace, there are propably whole colonies of months in its cool air pipes. In these pipes moths feed and flourish on the accumulation of lint. A vacuum cleaner with a long extension will remove the lint easily, but failing that, a long-handled broom or brush will serve.

Garments and heavy bedding may be stored as safely as possible, but other fabrics in the house may still be attacked by moths. Chair covers, upholstery and bedding will be subject to attack all summer unless the moths still at large are eradicated. And those woollen garments or fabrics containing wool, or feather pillows or furs which have been discarded are another breeding place for moths. If, unwanted and unprotected against moths, they are left lying about in the attic and quickly become a source of infestation.

Homeowners are advised either to get rid of these discarded fabrics or to store them with the same protection given to new garments. For there is no real safety until the last moth has been driven from the home.

Hurt feelings are the children of too much self-will.

Rural "Dead-Eye Dicks"

Probably the "sheutingest" town of its size in Canada is Wyoming, Ontario. Sharpshooters in this small "metropolis" have run up consistently high scores in Dominion-wide shooting competitions over the last few years and the rifle club has held more championships than any other similar organization in the country. The entire population of 550 take an interest in shooting activities and the club itself is one of the main community organizations.

Both farmers and townfolk participate in local shoots with very keen competition between the men and women, reports the Dominion Marksmen national shooting organization. In past years the ladies captured an equal, if not greater number of championships than have the men. Last year the Wyoming women took the Dominion Ladies Team championship and this year have so far corraled the eastern zone honors.

Mr. J. E. Richardson left last week to attend a six weeks commerce school course at Calgary. His brother Ted who came up to holiday at Colinton, Alberta while he is away.

N E S

Mr. and Mrs. Orville Robinson and daughter Phyllis of Vancouver are spending a two-week vacation at the home of Mr. Robinson's parents Mr. and Mrs Fred Robinson.

N E S

Graham O'Brien is working at the Bus Depot in Edmonton for the summer holidays.

N E S

Mr. and Mrs. Elliott and Mr. Elliott left Monday on an extended holiday trip to Vancouver and the United States.

N E S

Mr. and Mrs. Earl Campo are receiving congratulations upon the birth of a daughter born July 7 at the Royal Alex hospital.

N E S

Congratulations are also being received by Mr. and Mrs. Albert Thomas of Josephburg, on the birth of a daughter, at the Royal Alex on July 5.

N E S

Mr. and Mrs. Tom Wall Jr. and children of Victoria, B.C. are visiting at the home of Mr Wall's parents, Mr. and Mrs. Tom Wall Sr.

N E S

Mr. and Mrs. Albert Mohr of Josephburg are spending the week in Calgary. Mr. and Mrs. Wm. Campo are looking after their farm while they are away.

N E S

Mr. and Mrs. H. R. Smith of Partridge Hill are receiving congratulations on the birth of a son at the Misericordia on July 8.

Fr. Garnier of Lamoureux Honored by Residents on Retirement from Church

More than 400 residents of Lamoureux and Fort Saskatchewan gathered in the Parish Hall of the Notre de Lourdes Church in Lamoureux on Sunday evening June 29 to honor Rev. Father J. M Garnier upon his retirement after 46 years as a priest.

Father Garnier, who came here from Vegreville in 1913, has been in charge of the church at Lamoureux for the past 34 years and will be greatly missed by the members of his parish and his many friends.

He always promised his people that he would not retire until the church was free of debt. This promise was fulfilled two years ago when the final payment on the church mortgage was made. In the years he has been here over $30,000 has been paid off. He saw to the erecting of a priest residence in 1916 and the parish hall in 1926 and in 1928 the church was enlarged and remodelled.

Ledue Man Fined On Cruelty Charge

Norman Lambert of Ledue, Alberta was fined $50 and costs and a charge of cruelty to animals, when he appeared before Magistrate Miller in Edmonton last week.

The charge arose after complaints had been received by Constable Thomas from farmers around the district regarding dead horses lying in their fields and in the roads.

Officials of the Alberta Humane Society were notified and they in turn notified the R.C.M.P. and upon investigation it was found that the above named man had contracted to move 600 head of horses from North Edmonton to North Cooking Lake, and that in that distance, approximately 65 miles, 16 head of horses had died due to ill treatment.

GREEN GRASS VALUE

Investigations at the Range Experiment Station, Manyberries, Alberta, have shown that growing cattle make daily gains of two or three pounds per head during the early and early summer when the grass is green. The grass contains a high percentage of protein which gradually diminishes as the range matures and reaches the mural state. This change in the composition of range feed results in a corresponding change in the gains made by cattle. By early September, daily gains are reduced to less than one pound per day, with a further reduction until cattle may only hold their weight in the late fall months.

EFFECTIVE SPRAY

Ordinary tractor distillate has been found to be the cheapest and an effective spray material for the control of weeds in carrots in experiments carried out by the Dominion Experimental Station, Morden, Manitoba.

SWIM SAFELY

This summer, when you go bathing or swimming, don't choose an isolated spot, where help won't be available if you get into difficulties. And, the medical authorities remind Canadians, don't swim immediately after meals, don't go in the water for at least an hour after a meal.

Russia says her prospects for a bumper crop of grain this season are bright. Heavy rains fell recently in almost every part of the grain growing section of that nation. Last year the Russian crop was a poor one.

Salt at Windsor Will Last Centuries

White salt deposits have been found in eight of the nine Canadian provinces, but the purest salt in the Windsor, Ontario, area alone is to last the requirements of this continent for several thousand years.

The salt is extracted from layers 1500 feet below the earth's surface and processed for a great variety of purposes. Besides being used widely on the farm for curing meats, as table salt and blocks and licks for animals, the commodity is employed in the manufacture of glass, soap, paper, chlorine, caustic soda, hydrochloric acid, ammonia, dynamite, cereals and leather and a multitude of other goods.

The largest of salt on civilization is south that London, England, is said to owe its beginning centuries ago to salt cattle trains, journeying from mid-England to southern England and northern France. The early Greeks worshipped salt. Athens, Alberta, however, sees home babies were rubbed with it to ensure continued health. In the Far East children are still be seen with small bags of salt worn about their necks to ward off the evil eye and protect them from danger. In Abyssinia, coins called "amonies" were small salt tablets. It is some fond folk include the standard price of two pigs in half a sack of salt and in the interior of Africa salt is still a medium of exchange.

MORE FLY PACIFIC

on queer hops, valued at $800, were flown from the Philippines to California at San Francisco in a whirling, lurching, four-motor Douglas C-54 Skymaster. Hops, for experimental breeding purposes, enjoy the Australian climate. During the journey of 9½ days, the bees were kept within a temperature range from 70 to 82 degrees F. Each bee occupied a separate compartment in a large cardboard box.

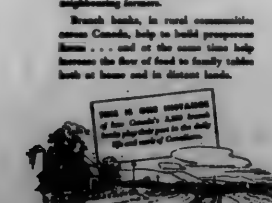
"NOW WATCH ME WIN THAT RIBBON!"

SANDY SIMPSON has been patiently improving his dairy herd. He saw his chance to buy a pure bred bull — and the manager of his bank lent him the ready cash to close the deal. Now he's expecting great things of his new calf; already he sees her winning her class at next year's Fall Fair. A few more like her and he can also see his milk production rising — as well as a nice extra income from selling his surplus stock to neighbouring farmers.

Branch banks, in rural communities across Canada, help to build prosperous farms . . . and at the same time help increase the flow of food to family tables both at home and in distant lands.



THE CANADIAN BANK OF COMMERCE

« Recipes for Milady »

A few months ago, leading food authorities recommended the use of fruit and vegetable juices in the daily menu. At that time, many a person considered this recommendation merely a fad of the moment, but recent nutritional tests sanctioned by stag chefs' palates, have demonstrated to better than before the value of fruit and vegetable juices, as well as fed the flavor and color which they added to a meal. Today, juices are a very popular and reduced item of our daily fare.

Speaking of juices native to Canada, tomato juice and apple juice rate the two which are used to the greatest extent, being served most often at the beginning of a meal. Grape juice is also popular while many like the blended vegetable juice, a refreshing combination of two or more juices made from garden fresh vegetables, such as tomatoes, celery, carrots, lettuce, spinach, watercress, parsley and onions.

Serving a five ounce glass of vitamized apple juice or of tomato juice or blended juice is an excellent way to get each member of the family off to a good start for the day, for this generous glass of vitamized apple juice will provide half of the daily requirement of Vitamin C, while the tomato juice will give approximately one third of the amount needed for the day.

When buying apple juice, be sure to read the label carefully. If the juice has been vitamized, you will find the word "Vitamized" on the label. The label will also tell you whether the juice is of the clear or unclarified type. Read the labels on cans of tomato juice too. Both apple and tomato juice are graded and sold as "Fancy Quality" and "Choice Quality". Choice Quality is usually priced, but this your cash of it is manufactured to the premium of salt during the processing of the juice.

Juices are packed in three sizes of 20 oz., 48 oz. and 300 oz., the 20 oz. cup is popular with small families, while the 48 oz. can is considered a practical size for larger families. To open a can of juice, simply remove the lid with a small hole on either side and pour out the juice required. The remainder can be left in the can in a cool place. If, however, the juice has been poured out of the can into another container, it should be covered before storing.

The home economists, Canneries Section, Dominion Department of Agriculture, suggest a few ways of using apple and tomato juice, in addition to serving them just as they come from the can. Many delicious cocktail salads may be made by using tomato juice or apple juice in the gelatine base. Furthermore, apple juice makes a delicious pudding sauce, its tangy flavor making it a very acceptable partner for sweet puddings.

S S S

MULLED APPLE JUICE

1 20-oz. can vitamized apple juice (2 1/2 cups)
½ teaspoon cider vinegar
4 cloves
¼ teaspoon cinnamon
1 teaspoon sugar
Cardamom flavor if desired

Combine all ingredients in order given. Bring to the boiling point and serve hot.

S S S

MULLED CHERRY TOMATO SALAD

2 tablespoons gelatine
½ cup cold water
1 20-oz. can tomato juice
1 teaspoon Worchestershire sauce
1 tablespoon vinegar
Salt to taste
1½ cups cottage cheese
½ teaspoon onion juice
½ cup mayonnaise

Soak gelatine in cold water. Heat tomato juice with Worcestershire sauce, vinegar and salt to the boiling point. Add soaked gelatine and stir until dissolved. Pour half the mixture into a lightly greased mould and allow to set until firm. In the meantime blend cottage cheese, onion juice and mayonnaise until light and fluffy. Season to taste. Spread over tomato jelly to within ¼ inch of the sides of the mould. Pour remaining half of the tomato jelly over the cheese and let stand until firm. Unmould on crisp lettuce and garnish with mayonnaise and sliced hard-cooked egg. Six servings.

New Discoveries in Weed Control

A revolutionary new development in weed control which cuts the volume of water needed for cereal crop spraying by 80 per cent has been announced by National Grain Company Ltd.

After thorough tests of many commercial weed controls, the National Grain Co. state that a cheap, safe and sure weed kill can be obtained by spraying 2,4-D on grain fields using a very small amount of water per acre, with a hand type sprayer.

Members need by National Grain Co. to achieve these results are being produced as rapidly as possible, but it probably will be several months before they are actual sale in sufficient quantity to meet the demand. The method is simple, economical, and easy to install on spray rigs already in use on Canadian fields.

Spray boom application of 2,4-D chemical not only does for less water under the new system of operation, but exhaustive tests on 40 different field plots showed that it makes possible uniform application of the chemical, and avoids the risk of reduced yields for un-

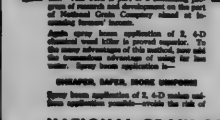
99% WEED KILL! 1½ GALS. WATER AN ACRE! Using 2, 4-D with Spray Boom



Extensive experiments last spring in California, conducted by National Grain Company's own research department, have disclosed that satisfactory methods of killing mustard and other weeds with 2,4-D, using as little as 1½ gallons of water per acre. Methods for volume or by application are not yet available in quantities. This work is part of a continuing program of research and development on the part of National Grain Company aimed at increasing farmers' income.

Again spray boom application of 2, 4-D chemical weed killer is proved successful. Of the many advantages of this method, that of the tremendous advantage of using far less water. Spray boom application is...

reduced yields from uneven application—saves time, work, money and WATER.

SAME BIG SPRAY BOOM AND 2, 4-D

Since, first successful liquid weed killer introduced in Western Canada by National Grain Company in 1944, and 2, 4-D can also be applied by same rig, using interchangeable nozzles. Use Skew or "even" nozzles for grain, and flat where water is not a problem, for 2, 4-D only on grain.

To-morrow, it May be You!

If you were suddenly faced with a situation where you could save someone's life if you gave your blood what would you do . . . I'm reality this situation faces you this minute, for somewhere in Canada there is someone dying for lack of blood—blood which you can give painlessly and without discomfort to yourself.

It may be a little child broken and crushed as it played on the streets, it may be a young mother whose life is in jeopardy after childbirth, or a workman injured in a plant accident. It may be your neighbor who is at deaths door—or a member of your own family—but it is a fellow Canadian! To-morrow, it may be you!

The Canadian Red Cross is setting up in Alberta a new peacetime Blood Transfusion Service. Mobile Units will move out from central clinics. They will visit your community. These clinics and mobile units will be the sole sources of life-giving blood to the Alberta Hospitals—and the hospitals will in turn give this blood to whoever needs it, entirely free of charge.

To carry out this great humanitarian work, the Red Cross needs your help . . . It needs you as a voluntary blood donor. If you have not yet registered, contact your local Red Cross Branch, tell them you will be glad to help save a life!

A Global Ideology

Officers and men of the Allied Armies of occupation met a tough question in Germany. "We know what Berlin stood for. We know what Moscow stands for But what do London and Washington stand for?" they were asked The Allied Armies were faced with the need for a big enough ideology Many men are faced with it now It is not enough to speak vaguely about "democracy" or to be merely on the defensive against other ideologies

The task of statesmanship is to find a global ideology bigger than any other It must be as universal as human nature It may involve a month change for the democracies as for other nations For by the quality of our own national life and deeds we must convince the passionate adherents of other ideologies that we have something better than they.

What should London and Wash[illegible] stand for? What must our ideology be if we are to win the world's millions to the ways of life they turn in despair; ways that promise security in exchange for freedom? The statesman who can express the ideology of inspired democracy and fire his people to live it up, give it to the world will fashion a new day "Integrated democracy," he might say, "stands for four principles"

1. People matter more than things. That means a revolution for Capitalism and Communism.
2. As I am, so is my nation If I were multiplied by millions what would my nation be like?
3. Everyone change and spread a team spirit. The place to start changing the world is yourself then you can build human[illegible] anywhere
4. The Voice of God must become the will of the people "Nations," said William Penn "must be governed by God or they will be ruled by tyrants"

Lived by millions this ideology will bring about the classless society that no "ism" of Left or Right has yet demonstrated—a revolution in human nature and in every sphere of human life that outdoes and outdates all other revolutions.

Although Canada is a great fishing nation, Canadians consume only 9½ pounds per capita per year—less than the people of most nations of the world.

Keep Elbows in When Driving Cars

Watch that elbow! When driving on of the busy roads safe!

This was the warning issued by an official of the Canadian Automobile Association, that the number of fatal accidents caused by arms protruding from car windows is on the increase. Of the 14 different types of accidents have been fishing in Antarctic waters More than 2,000 whales were caught by United Kingdom owners 185,000 barrels of oil were produced in addition to sperm oil and other by-products Another way in which the expedition distinguished itself was in the pioneer use of aircraft for whale-spotting and for weather reconnaissance.

Waste time in living that is unrelated to the nation's need.

"A case of this kind was the subject of a recent court decision," the official said. "Just before the driver of a passenger car and the cars in question were due to pass each other, protruding from the window of one car was the arm of the man who had been driving with his elbow protruding from the window. The judge held that the motorist could not recover damages for injury because of the contributory negligence in having part of his arm outside the car.

"It's a good idea therefore, for motorists to break themselves of the habit of driving with an elbow in the wind when they get their new cars. Any children riding in the car should be cautioned against putting their arms out the window. The margin of safety provided by the running boards and wide fenders is no longer there on new-type passenger cars."

TRUE PREVENTION

Once upon a time the role of the physician was almost exclusively treatment In modern days, while still engaged much of his time in healing is limiting the sick and curing man's mental and physical ills, the physician practices preventive medicine wherever possible, in an attempt to forestall disease altogether

Canada's health authorities invite a positive approach to the subject of health They point out that medical science can do much, if given an opportunity to turn aside disease and to waste Disease It has highly-developed means of diagnosis, immunization and preventive treatment at its command But the barter can keep people well only if consulted before sickness strikes.

EVERYBODY'S BUSINESS

by Don Graham

One of the small but important things that helps a man succeed is the ability to remember names.

When you call a man by his name you show an interest that strikes a responsive spark. He feels that he has registered with you and then, in your opinion, he is important. And it needs to many you as observant, alert and on the job.

The value of this habit in dealing with customers and people in higher positions is obvious. In fact, the principle can and should be applied to everyone we meet.

There is an almost magical influence in the tones of "Good morning, Mr. Jones" and "Good morning, Mr. Perrin!"

Try improving your remembrancy and see if it doesn't help to advance you in your career.

• • •

When you think of your future, think about Life Insurance, too. No other investment offers such an easy, economic way to save. And the security it provides for your family brings priceless peace of mind.

These hassles are enjoyed by over four million policyholders in Canada.

New Publication On Gladiolus Thrips

A post of perennial interest to gladiolus growers, the gladiolus thrips is the most serious enemy known to successful production of this unsurpassingly beautiful flower, says Alan G. Dustan, Division of Entomology, Dominion Department of Agriculture, Ottawa. After years of study and months' observation the best has become generally accepted that the gladiolus thrips is not able to pass the winter in the open in any part of Canada. Only those thrips carried over winter on the stems the storage cellar in the outside.

This at once suggests a logical method of control, namely, the treatment of the corms with some fumigant or insecticide to destroy all the thrips before the corms are set out in the field in the spring. Growers have become familiar with this procedure, and almost all now treat the corms in one way or another before planting them. Only Dusting the universal treatment of corms can the thrips be controlled.

A full description of the various treatments of corms is given in the publication, "Control Recommendations for the Gladiolus Thrips," by Alan G. Dustan, copies of which are available from the Publications Branch, Dominion Department of Agriculture, Ottawa.

In the publication, the treatment of growing plants and the ages of the plants in the field is also fully discussed. A copy of the publication (processed publication, No. 69 of the Division of Entomology) may be obtained by writing to the Dominion Department of Agriculture, Ottawa.

NEW PERMITS

Permits to build are fast in coupe and shingles have been developed which make faded, discolored kitchen walls look as new as long as it problem. Blues and reds, favorite colors for kitchen linoleums, can now be had without fear of color fading off or changing color.

Some people have a good background but it's too far in the background.

Tomorrow is the groundwork for a world that works.

Wheat Pool Patronage

The Alberta Wheat Pool intends to carry on for the crop year 1947-48 on a co-operative basis paying a patronage dividend out of the earnings which the Pool was formed. The following notice is published to comply with the provisions of the Income War Tax Act.

"As required by the Income War Tax Act, this will advise our members, as referred to in the said Act as persons, that, in accordance with the provisions and within the limits of the restrictions contained in the said Act as amended, it is our intention to pay a dividend in proportion to the 1947-48 patronage out of the year's earnings of the Alberta Wheat Pool, with other funds as may be permitted by the said Act, and we have hereby held out the prerequisite of the payment of a patronage dividend to you the recipient."

The Proper Time to Harvest Hay Crops

Many arguments have been advanced by producers against early harvesting of hay crops, chief of which is that they get a higher yield by cutting later. From a strictly tonnage of material point of view, this contention is of course true. Also in seasons favoring heavy rainfall during midsummer, the additional growth of hay crops is often very valuable.

There is, however, another side to this story. Investigations during recent years have shown that the highest yield in terms of total nutrients is not necessarily the highest yield in terms of livestock feeding value. It is a well known fact that young forage is highest in proteins, minerals and vitamins than old forage. While there are very important exceptions, as in livestock feed, reduction in the percentage content of the forage in these materials does not always act on actual loss. On the contrary, head, carbohydrates, the starches, fats and other forms, which are the heat, energy and fat producing foods, usually increase with maturity of the plant However, it is more important that a very appreciable portion of the carbohydrates is turned into lignum as the plant ages, which is indigestible by livestock. Lignum is the structural material used in the cell walls of the plant. It is highly indigestible. In digestible itself, it surrounds other valuable digestible nutrients and often prevents the animal from utilizing them. From a livestock feeding point of view, this represents a very serious loss. Hence the only source of preventing this loss is to harvest the hay crop at an early stage of development. The best indication available at present indicates that the highest yield of livestock nutrients is obtained when grasses are cut for hay soon after heading, long before they have flowered. Legumes likewise should be harvested at an early bloom stage. Mixtures should be harvested when the grass is ready, since the loss on account maturity of the grass will be greater than the gains made by the legume crop.

FILTHY FLIES

The season is warming is up, at Ottawa, against flies. Health authorities, in calling for a war on the pests, point out that conditions that flies pass on infection directly from filth to food. Thorough sewage and eventually complete destruction of all garbage, is essential to maintenance of healthful environment. The use of screens is also effective. Keep all children away from food is also advised.

Poison Ivy

Every year many adults, and apparently children, are accidentally poisoned from contact with Poison Ivy. Susceptible persons need only touch a plant to be afflicted with severe skin inflammations and water blisters Persons who learn to recognize and then to avoid Poison Ivy are more thoroughly enjoy the comfort and recuperation.

Description. Poison Ivy is a woody perennial shrub which multiplies by seed and underground root stocks. In the prairie provinces it is usually not over 12 to 18 inches in height. The leaves of Poison Ivy always consist of three leaflets. The old saying, "Leaflets three, let it be," reminds us of the one sure way to spot Poison Ivy. The leaflets are usually oval in shape. They are smooth, at least on the upper surface, and have even margins (not toothed or notched). The flowers and berries are clustered in the axils of the leaves. The berries are usually creamy-white in colour. A photograph of Poison Ivy has been reproduced on a printed leaflet Copies may be obtained, free of charge, from Line Elevator grain buyers. School teachers should avail themselves of this opportunity.

Control. Poison Ivy is largely confined to the moister areas, sometimes in ditches. Here over, when found in picnic grounds, summer resorts, and other places frequented by people, particularly children, it should be rooted out and burned. If hand pulling is undertaken, rubber boots and gloves should be worn, and all clothing washed after the job is completed. Spraying with sodium chlorate will afford effective control of Poison Ivy, though at least two applications are usually necessary.

Treatment for Poisoning. Many remedies have been suggested to ease the burning and irritation caused by Poison Ivy. The United States Public Health Service recommends a 10 per cent alcoholic solution of tannic acid applied as a lotion. If possible the affected portion should be immersed in hot soapy water. Remedies are applied

Sawfly Control Explained

By the use of trap strips and their timely cutting, farmers in the sawfly area have saved thousands of bushels of grain. The purpose of the traps is to encourage egg laying in those earlier sown strips in preference to the main crop. If the trap strips are to serve efficiently however, they must be cut as soon as the sawfly flight is past. J. L. Eaglesham, Supervisor of Pest Control, advises that in normal years the flight is practically over by July 15th, but due to the lateness of the present season the flies may still be busy with their egg laying for a few days after that.

Mr. Eaglesham says that the farmer himself is the best judge of the time to cut. Keep close watch on the traps around the middle of July. Check them around that time for the tell-tale saw-dust in the stems, which shows that the eggs have been laid and hatched and the grubs are active. As soon as the sawfly flight is over, the trap strips should be mown for hay or cultivated down. This cutting or cultivation is just as important as cutting the strips. If the grubs are allowed to mature in the traps by allowing the grain to stand until fall, a heavy infestation is built up for the following year.

We need more than an answer to our problems. We need a whole new way of life in which these problems don't occur

Willing Workers Appoint New Officers

A good attendance was present at the annual meeting of the Willing Workers Club, held on Wednesday, July 9th. The business of the year was brought to a close, showing a very successful year for the club.

The following officers were appointed to hold office for the year: President Mrs. R. Isherwood; 1st Vice Pres. Mrs. Sedfield, 2nd Vice Pres. Mrs. Pascal; Secretary Mrs. Jack Weir; Treasurer Mrs. Geo. Briggs. Catering Committee, consisting of three, Mrs. James Anderson, Mrs. Chas. Prather and Mrs. Roy Trimble.

The new business was the planning of a tea, auction and sale of home cooking to be held at the hall in the near future

The next meeting will be held in the hall on Wednesday, August 13, with Mrs. McIntosh as hostess.

Mrs. A. F. McDonald accompanied by her grandson Glen McDonald, left on Monday for High Prairie to visit her daughter and son-in-law, Edith and Phil O'Leary.

The district extends a welcome to a new comer to the district Mr. Kim McPherson who, in the near future, will build a new house on the property next to the hall

On Sunday, July 6, a large family gathering was held at the home of Mr. and Mrs. Chas. Briggs. All of Mr. and Mrs. Brigg's children, and grandchildren, also a large number of neighbors and their families were present.

Thirty-nine relatives were seated for a picnic supper at one long table on the lawn beneath the shady trees.

After everyone had done justice to supper, the younger ones played ball. The youngest one present was two months old and the oldest 83 years. This gathering will long be remembered by all present.

Mr. Betve Parren and the misfortune of breaking his foot last week, a speedy recovery is wished him.

CANADA BUILDING NEW SHIPS FOR CHIPS

Abandonment will function the design and construction of nine ships building in Canada for operation on the Yangtze Kiang, one of China's most important arterial waterways. The superstructure, hullsheets, engines, boilers, masts and furniture will be made of this metal, in order to save weight and provide for additional payload. Five of the ships are being built at Levis, Quebec, and the other four at Quebec City. Provision for the construction of these vessels was made through the establishment of a credit in favor of the China Industrial Co. Ltd., whose commitments are guaranteed by the Central Government of China. Arrangements were made with three Canadian banks to obtain a credit of $12,750,000 under the Export Credits Insurance Act. This sum represents 80 per cent of the funds required to finance the shipbuilding program, the balance being provided by the company in cash.

MARKING FISH

Adult salmon and sea trout are being marked in the North Sea off the mouth of the Yorkshire Esk during June, July and August, to get information about their movements. It is estimated that some of the marked fish will be recovered off Britain's East Coast and in adjoining rivers.

DANCING FROM 9 TILL 12

Around the Town

Under the supervision of the Women's Institute the local community is undergoing a thorough cleaning up. A caretaker is employed and work will continue throughout the summer

As more money is needed for this work, any contributions may be accepted. Contributions may be sent to Mrs. H. E. Thorne or Mrs. F. H. Walton.

Mrs. M Goodfellow and children of Marcelin, Saskatchewan arrived Thursday to join her husband who is the new agent at the National Grain Co. elevator

Mr. A. J. Dawson left Monday evening to spend a few days at Pigeon Lake with his wife and family.

The service at St. George's Anglican Church will be held at 11 a.m. Sunday, July 20, instead of the regular evening service.

Mr and Mrs. Ken Robinson and infant son left Friday for Vancouver to visit with Mrs. Robinson's

Mrs. Gregg and daughter Shirley of Mackie, Alberta are visiting Mrs. Gregg's sister and brother-in-law Mr. and Mrs. B. Stannard.

Mr. T. Siddall was a week-end guest at the home of Mr. and Mrs. L. O'Brien.

Mrs. Grandahl and Jeannette of Victoria, B.C. are visiting with her daughters and sons-in-law and

Mr. and Mrs. L. Diamond left Tuesday for a 5-week holiday to visit their daughter and son-in-law Mr. and Mrs. Lloyd Lesnik of Myrnam, Alberta.

Mr. and Mrs. Jay Shackleton and Mr. and Mrs. Frank Smith accompanied by Mr. and Mrs. Bob Tatnall of Clyde, motored to High Prairie and other points in the north.

They spent a week camping at Shaw's Point on Lesser Slave Lake and also attended the High Prairie Stampede. On their way home they report meeting many Americans on their way to or Alaska via the Alaska Highway.

Marjorie Diamond and Dorothy Cranston are attending the Girl Guide Camp at Silver Lake.

Miss Freda Strobbein of Josephburg is the new receptionist in Dr. W. A. Johnstone's office. She started her duties Monday.

Mr. and Mrs. Norman Fisher and Mrs. Geo. Rose visited friends in Calgary. While there they attended the Calgary Stampede.

Mr. and Mrs. Percy Williams and son Gary of Seattle, were guests last week at the home of Dr. and Mrs. E. M. Bacon and the Hon. Senator

Mr. and Mrs. Williams are originally from this district and will be remembered by many of the old timers here.

Frank Ritchie, Dr. Bacon, Fred Trevier and Jim Allcock traveled to Bonnyville last week on a fishing trip and report a very fine catch.

Mr. Bill Faulkner and daughter Margaret of Powell River, B.C. are visiting at the home of Mr. and Mrs. J. D. McLeod.

The superior man is the providence of the inferior, he is sun for the blind, strength for the weak, and a shield for the defenseless. He stands erect by bending above the fallen. He rises by lifting others.—Robert Ingersoll.

Josephburg Young People Hold Successful Outing at Elk Island Park

Elk Island Park was the camp site for the successful outing planned Josephburg Young People's Society Camp. The holiday time was put in time to best advantage. Many events of those indulged in educational and agricultural duties. Friday evening, June 27, was full of hustle when young and old were found in the midst of about a dozen tents and a whole truck load of food and baskets.

Saturday's activities included a Bible discussion period in the morning and I hail pause in the afternoon and evening Members from Vegreville and Stony Plain were all present by evening, making a sixty person attendance to receive Dr. and Mrs. Love as special guests for an evening of singing and entertainment. Sunday morning a special church service was held for the benefit of all parents and friends in the camp.

Tuesday morning, July 1, saw the happy departure of all present from Vegreville and Josephburg. They left tired but not underfed, many thanks to the workers' committee for their efforts. Mrs. Carl Unterschutz and Mrs. Albert Mohr

Ardrossan

The Ardrossan Community League Annual Picnic held July 1st was a huge success, with a large attendance due to the weather. Rained being held to on. Not pre cords were approximately 9000 day to-day. Among the 30 items her son Hugh, in Kansas that some parts were missing from the new combine he had taken down to help in the harvesting

The necessary parts were secured by Dr. Barnes and Mr. Love in order to avoid any delay at the customs office Mrs Bacon left at 2 p.m. in the afternoon for Great Falls where the parts were put on a plane for Kansas

Mr. Bacon was away ten days On her return trip she took in the Calgary Stampede While in Calgary she saw Jack Oakie, Jimmy Durante, Phil Wells and Ann Leslie and many other movie personnel who are making a picture at the Duke of Windsor Ranch. Many stars took part in the Calgary Stampede parade

Mrs. Margaret Foley of Windsor, Ontario, arrived by plane to visit her parents Mr. and Mrs. M. Trial of Ardrossan.

Last Friday afternoon the United Workers held a very successful tea and bazaar in the Empire room of the Hudson Bay store in Edmonton. They also had a table of delicious home cooking for sale. It was the scene of many reunions of old acquaintances.

The loss of a highly respected friend was felt by neighbor, Mr. Rose Horton who passed away on July 8, will be felt by all. Our deepest sympathy is extended to Mrs. Horton and family.

Look at the Coming Events Column for the baseball tournament, to be held August 6th.

Mr. and Mrs. T. Wall of Victoria were visiting in Edmonton and in the Ardrossan vicinity for a few days.

We are glad to welcome the newlyweds, Mr. and Mrs. C. Hurley, back from their honeymoon in New Brunswick.

May Exports Highest Since End of the War

Canadian exports in May were valued at $367.5 million, which is the highest point since the final month of the war, August 1945. They represent an increase of $74.2 million over the previous month, and are $70.5 million higher than the average for the first four months of 1947. The cumulative total for the first five months of 1947 amounted to $1,585.3 million, 18 per cent higher than that recorded for the same period in 1946, and well over three times the 1938 total of $481.1 million.

The agreement dated July 2, provides that the following classifications of stock will not require an export permit:—

(a) Purebred stock for breeding purposes, when accompanied by documents giving proof of registration.

(b) Dairy cattle, females, of dairy breeding, which are milking or show evidence of freshening within a few weeks, when covered by Health of Animals Certificate as From PMA-USA.

It's more important to amend to greatness than to demand from the great.

There is a high cost to low living.

Mrs. Bacon Makes Fast Trip to Montana

Mrs. R. H Bacon returned home last Thursday after an unexpected trip to Great Falls, Montana.

A phone call was received Monday morning from Mrs. Bacon's son Hugh, in Kansas that some parts were missing from the new combine he had taken down to help in the harvesting

The necessary parts were secured by Dr. Barnes and Mr. Love in order to avoid any delay at the customs office Mrs Bacon left at 2 p.m. in the afternoon for Great Falls where the parts were put on a plane for Kansas

Mrs. Bacon was away ten days On her return trip she took in the Calgary Stampede While in Calgary she saw Jack Oakie, Jimmy Durante, Phil Wells and Ann Leslie and many other movie personnel who are making a picture at the Duke of Windsor Ranch. Many stars took part in the Calgary Stampede parade

British Fashion Note

Simple in effort are the new evening gowns recently shown in London. The skirt with the draped hem has made a tentative appearance. An evening gown in gold tissue in the Norman Hartnell collection aroused considerable comment but it is likely to be developed further before it becomes a fashion. Hip drapery of all kinds is popular just now, and it is interesting to see how designers have used it for the older woman who has increased in girth and weight. One designer showed a collection of clothes for the older woman which made so skilful a use of the draped line that the management—both of them women in their early thirties who were what the English manufacturer terms autsize—appeared to be much slimmer than they were. Typical was a dress with suspended drapery in the form of a wide scarf which hung nearly to the hem of the dress from front to back with both ends caught into a clever inset waistband. Colors, too, were excellent. So often the stout woman is solemnly warned that she cannot wear anything but black, but this designer deliberately put her mannequins in such shades as powder blue, soft green, purple, and trusted to subtle cutting to eliminate inches apparently.

SOME CLASSES CATTLE EXEMPT FROM EXPORT PERMIT

Effective June 30, purebred cattle for breeding purposes, and dairy cattle may be shipped from Canada to any destination without an export permit, according to the Export Division of the Department of Trade and Commerce.

The amendment dated July 2, provides that the following classifications of stock will not require an export permit:—

(a) Purebred stock for breeding purposes, when accompanied by documents giving proof of registration.

(b) Dairy cattle, females, of dairy breeding, which are milking or show evidence of freshening within a few weeks, when covered by Health of Animals Certificate as From PMA-USA.

It's more important to amend to greatness than to demand from the great.

There is a high cost to low living.

CONDUCTS STRINGS

One of Toronto's violinists and ensemble conductors, Harold Nunberg, is directing the weekly broadcast programs, "Symphony for Strings," in its second season on the CBC Trans-Canada network

Partridge Hill

Mr and Mrs. Joe Aten of Lamont spent several days recently in the district visiting relatives and friends

Mackie Dunbow of Edmonton spent last week with Mr and Mrs A. Krebs. Mackie sings on the Magic Shop program over CFRN. Mackie very kindly consented to sing on the Glee Club program last Monday evening and his numbers were greatly enjoyed along with the rest of the program.

The annual picnic is over for this year, due to two other picnics the same day. The attendance was not quite so large as other years, but the supper was well patronized and final totals, we believe, will be satisfactory.

Mr. and Mrs. W. W. Gillison, Mrs. F. Pocock and children of Wetaskiwin, Mr. J. Webb and Mr. and Mrs. R. H. Warring of Edmonton returned to the home district for the picnic.

Miss Rhoda Lawrence and Gilbert, Messrs. Phil Crawford and Gordon Hughes of Edmonton were last week-end visitors at the Alfred Brown home.

The wedding dance given by Mr. and Mrs. W. Unterobuhn, last Friday evening holds the record for the largest crowd at this hall. It was estimated that 600 or over were in attendance.

Mr. and Mrs. Earl Aiten, Mr. and Mrs. R. Mohr, Mr. and Mrs. Karth Cranston and families of Edmonton spend the week-end at their parents' home's here.

Vardon and Edwin Lawrence and Garth Cobbledick left by car last Thursday to take in the Calgary Stampede They expect to return home Monday.

Mr. J. H. Lawrence left last Monday for a vacation at the Pacific Coast.

Mr. and Mrs. F. Kulak and Mr. and Mrs. Dave Buskard attended the wedding dance held for their nephew Donald Kulak at Woodbend last Wednesday evening.

How Hill vs Josephburg, game starts at 3 p.m.

We regret the sudden passing of a one time resident of this district in the person of Mr. Rose Horton of Ardrossan. Mr. and Mrs. Horton grew up in this district, moving to Ardrossan district after their marriage in 1911. The sincere sympathy of the district is extended to Mrs. Horton and family in their loss.

Belair-Logan Nuptials Held Sat. Afternoon

A pretty wedding took place in Central Lutheran church Saturday afternoon at 3:00 p.m. when Miss Eileen Bertram Logan, daughter of Mrs. J. H. Logan of Edmonton, was married to Mr R. L. Belair, son of Mr and Mrs. P Belair of Fort Saskatchewan. Rev. T. W. Mashwood performed the ceremony. The church was decorated with peonies for the occasion.

Given in marriage by her uncle, Mr George Vales, the bride wore a white dreamasher suit of fine wool, with small white hat and accessories and corsage of red roses.

Bridesmaid was Mrs. I. Myers, of Stony Plain, who wore a blue dreamasher suit and white accessories.

Mr. Edgar Belair, brother of the groom, was best man.

Mrs. Fred Veida played the wedding music, and while the register was being signed Mrs. Jack Pletcher sang "I Love You Truly."

A reception was held later at the home of the bride's mother where the bride's table was laid in white linen and centred with tall tapers and bouquets of carnations flanking the three-tiered wedding cake Posties were used as decorations throughout the rooms Mrs. J. P Berg poured tea, assisted by Mrs. Ella Grandal.

Mr. Elmer Logan proposed the toast to the bride.

Leaving later for a wedding trip to Nelson, B.C., the bride changed to a soft blue suit, made with a long coat trimmed with brown fur. Her hat was of matching blue and she wore a corsage of roses.

The newlyweds will be at home later in Edmonton.

Fultonvale

The district was well represented at the Calgary Stampede and by all accounts an enjoyable time was had by one and all.

Mr. Lionel Holland and son John are spending a holiday in the mountains.

Mr. R. Southern visited old friends for a few days before returning to his work on the University of Alberta Farm.

Congratulations go to Mr. and Mrs. C. C. Ewer on the birth of a son "Bobbie"

The Goodwill Club will hold the July meeting at the home of Mrs. Josh Lyne, Wednesday, July 23rd. Ready officers.

Miss Peggie Long spent last week-end in the city, guest of Miss Jim Stannard

Mr. Tom Purvis formerly a resident of East Edmonton arrived from England recently and is staying with his friends Mr. and Mrs. John Long. Tom comes from Blythe, North Welland, England.

BALL'S TEAM DEFEATED IN JR. BASEBALL TOURNAMENT

The following is the draw for the games to be played at the Josephburg Junior Baseball Tournament to be held Sunday, July 20:—

Partridge Hill vs West Elk Island, game starts at 1 p.m.

How Hill vs Josephburg, game starts at 3 p.m.

HAY FEVER HINT

If you suffer from hay-fever or so-called "rose colds" it may be wise for you to avoid swimming during seasons when you are most subject to such attacks. Doctors believe that those suffering severe attacks of hay fever should stay out of the water altogether, to escape complications arising from chronic inflammation of the nose and throat.

MAKE

SANITARY — DELICIOUS — NUTRITIOUS
Smoker's Supplies — Soft Drinks — Fresh Fruits

« Recipes for Milady »

The two words "freezing and canning" are being greatly used by practically all housewives throughout the country these days. When friends meet, the natural question to follow the usual greeting is "Are you canning or freezing this today?" This seasonal change in exchange of views as to the advantage of one method over another, typical of seasonal host is one, and so on. A little boasting too is often indulged as to the amount of fruits and vegetables being put up or down.

In canning commercially, both freezing and canning are topics of great interest to conversation while in others, where freezing facilities are not available, canning still rules the day.

With most fruits and vegetables, nothing so far can beat the frozen product which retains so much of the flavor, color and texture of the fresh fruit or vegetable. However, when canning is still between one or a large scale, the home economists of the Consumer Section, Dominion Department of Agriculture, give the following cards during the first four weeks of their visit if they are staying in an establishment which provides meals visitors who do not stay in catering establishments will still need to obtain the usual documents. The procedure is now over very simple and takes little time. Temporary ration cards are issued by any local food office either to the visitors in person or to their representatives on presentation of passports or travel permits

RATION CONCESSION FOR VISITORS TO BRITAIN

The Ministry of Food has announced a new rationing concession for overseas visitors to Britain. It is in line with the government's policy of making things as easy and pleasant as possible for Britain's guests during their stay. It will now no longer be necessary for them to present any ration cards during the first four weeks of their visit if they are staying in an establishment which provides meals visitors who do not stay in catering establishments will still need to obtain the usual documents. The procedure is now over very simple and takes little time. Temporary ration cards are issued by any local food office either to the visitors in person or to their representatives on presentation of passports or travel permits

SPECIAL METHOD FOR CANNING RASPBERRIES

Wash and pack fruits in glass containers or tin cans; cover with heavy syrup, using the regular method of headspace filed completely Blanch raspberries 3, several thick sprays of newspaper on bottom of a tub and pour in enough boiling water so that the containers are covered by at least 2 inches of water When adding the boiling water, take great care not to pour directly on glass containers. They might brush Cover tub with a thick rug or blanket turning it in well around the sides to keep the heat in. Let stand 10 to 12 hours, Remove and store

TO FREEZE RASPBERRIES

Choose firm, fully ripe berries. Pick them over and wash them, only if necessary. Pack whole in a cold moderately thin (1 to 1½) syrup to cover or in dry sugar using 5 lbs. fruit (about 16 cups) to 1 lb. sugar (two cups). As certain variation from these satisfactorily then others, you should ask your Provincial Department of Agriculture for the variation they recommend.

A moderately thin syrup is made in the proportion of 1 cup of sugar to 1½ cups of water. A headspace of at least ½ inch should be left at top of all containers to allow for expansion during freezing. Freeze immediately after packing. If the food is to be frozen and stored in a locker plant, place each container, as it is packed, in refrigerator or very cold place until all are prepared, then take to locker plant without delay.

CANNING RASPBERRIES

Wash peach containers, cover with boiling moderately thin syrup, leaving a headspace.

A moderately thin syrup is made in the proportion of 1 cup of sugar to 1½ cups of water, this quantity will yield approximately 2 cups of syrup. A quart cooker of raspberries will require 1 to 1½ cups of syrup. All fruits require ½-in. headspace in glass cookers and a ½-in. to in tin cans. Raspberries may be processed in the boiling water bath, pints 15 minutes and quarts 20 minutes or in a thermostatically controlled oven, glass cookers only, at a temperature of 275 degrees F., pints 35 minutes, quarts 40 minutes.

CANNING PEAS

Shell and wash young, tender peas. Cover with boiling water. Bring to boil and boil, covered, 2 minutes. Pack hot, loosely. Add 1 teaspoon of salt to each quart

EVERYBODY'S BUSINESS
by
Don Graham
In the eyes of employers, "lack of initiative" is considered the most serious fault a worker can have. It is an insidious and dangerous

For most of us, pride of achievement and desire for bigger earnings provide plenty of drive. But we may suffer from temporary loss of enthusiasm in our work due to illness, personal problems, or emotional upsets.

At such times it is desirable to take all possible measures to prevent these conditions from becoming chronic. The advice of a physician or close friend may help. So may a frank talk with your employer whose attitude will probably be very understanding.

Sometimes a man has little or no interest in his work. This may not be his fault. A change of job or additional training can help. It all he needs to make him "spark". But for too many men are in a rut because they are just plain lazy. To them I can only say: *You'll be far happier if you give your job everything you've got!*

* * *

The life insurance business in Canada has grown to tremendous proportions because it renders a needed service and is efficiently managed. In 1946, approximately $165,000,000 was paid out in life insurance benefits.

FULLER BRUSHES will tidy up your household tasks—There is one for every purpose—Try them.
E. S. TAYLOR
BOX 10 FORT SASK.

THROUGH CHEMISTRY
Chemistry? How does it help me?
SOME MAY NOT realize it but there is hardly a job that doesn't depend in some degree on chemistry. It often provides the raw material or is a vital element in product treatment. In many cases the finished article is entirely chemical.
Chemistry's contributions to the home and individual are countless. Chlorine purifies the water we drink. Textiles are chemically treated to give them wearing qualities. Chemical fertilizers mean bumper crops. Chemistry produces paint, tans leather. As "Cellophane" it protects things we buy; as nylon or plastics, it serves us endlessly.
This is a chemical age, with the C-I-L oval as symbol of an organization devoted to serving Canadians through chemistry.
For instance... SULPHURIC ACID
among the many chemicals made by C-I-L, sulphuric acid is produced in enormous quantities. Given its name because it was originally made by the burning of Canada's Sulphur Beds (Other Uses: Explosives, Rayon, Metal Refining, Petroleum Refining)

Until November

Mr. Bevin makes no bones about what hangs on the Foreign Ministers Conference in London in November. This Morally may be the world's last hope. And differences are no great that many think our only chance is for a "two-world peace"—the chance that East and West may possibly agree in time.

This, however, is blindness to the fact that we are in an ideological age. As ideology is such passionate belief about a way of life that its adherents will not rest till the whole world adopts it. There can be no two-world ideologies

If we do not want to bow before the Eastern ideology, therefore, or go to war again to defend our Western way of life, we must make some drastic changes in that way between now and November We must develop a way of thinking and living that conquers other minds on ideological grounds There can be "no compromise on principle" as Secretary of State Marshall emphatically says. But there may be some better principle. There may be an idea which other nations will like better than their own and which we, at the same time, like better too

The problem is to find an idea that totalitarian powers agree is better for the state and more controlled than state control, while democracies agree it is freer and more enterprising than free enterprise Inspired enterprise under God's control is the obvious and only possible answer If we ourselves start living under God's guidance to achieve "one-world" internally—that is full agreement in our own domestic, industrial and political affairs—there is still a chance that this will impress the Eastern world in November We may show, therefore, an idea that they like better than their own and thus achieve a one-world peace of

You're less likely to kick the other fellow when you put yourself in his shoes.

A philosophy can be drawn up in words but an ideology must be built up with people

World of Wheat

By R. G. L. STRANGE
Director "The Crop Testing Plan"

TROUBLE ON BRITISH FARMS

Last April 1 flew from Scotland to London and it was hard to realize that I was not back in Canada in mid-winter, for the whole countryside almost up to London was covered in snow, something never before experienced in what for this snow melted, large areas were flooded, and great damage was done about which a report has recently been issued It is estimated the snow and floods spoiled a considerable part of Britain's arable land, that over one million quarter million sheep died in the drifts, thousands head of cattle were lost and that numbers of calves, pigs and poultry were killed 100,000 acres of wheat and 300,000 tons of potatoes had to be written off as a total loss It was considered to be the greatest final tragedy that had ever happened in Britain Large sums were raised by Parliament to aid distressed farmers and to help them rehabilitate their herds then because of the large amount of extra labor required, many thousands of women who had served in the Land Army volunteered to leave their homes and their city jobs and go back to help to re habilitate the farms

It will be seen from all this that while a winter in Canada from mid-December to mid-March and Canadian troops barges are to be supplied by the Rotary Club of Winnipeg Therefore all our contributions will be entirely to the purchase of food. The object of this drive is ten carloads of parcels

The campaign is by no means a small venture—the Rotary Club of Winnipeg feels it is now Canada's turn to help' Britain Hold the Fort" on short rations all through the war After two years of peace she is still dimly in need of essential foods How is to do opportunity whereby all Canadians can do something to provide more food for the people "over there"

DAILY BREAD

The exports on food for health say that it is necessary, every day, for Canadians to eat at least four slices of genuine whole-grain, brown or white "Canada Approved" bread.

The term "Canada Approved" means bread made from flour as milled that much of the vitamins and minerals are retained, and not lost in the "sheets".

EAR INFECTIONS

People with acute or chronic ear-trouble should think twice about going in for a swim. Water may get into the middle ear and may allow entrance of infection, which could then spread to the inner ear and mastoid sinuses ask the family doctor whether it is wise to go swimming and bathing.

Plan Food Parcels For Britain Campaign

Canada Britain should a reasonable amount of supplement during the war years and since the cessation of hostilities. Britain faced an Western attitude Britons have had to fighter their battle on other fronts because their food rationing is now more severe than during the war The coast pour has not been forthcoming as when this snow melted, large areas were flooded, and great damage was done about which a report has recently been issued It is estimated the snow and floods spoiled a considerable part of Britain's arable land, that over one million quarter million sheep died in the drifts, thousands head of cattle were lost and that numbers of calves, pigs and poultry were killed 100,000 acres of wheat and 300,000 tons of potatoes had to be written off as a total loss It was considered to be the greatest final tragedy that had ever happened in Britain Large sums were raised by Parliament to aid distressed farmers and to help them rehabilitate their herds then because of the large amount of extra labor required, many thousands of women who had served in the Land Army volunteered to leave their homes and their city jobs and go back to help to re habilitate the farms

It will be seen from all this that while a winter in Canada from mid-December to mid-March and Canadian troops barges are to be supplied by the Rotary Club of Winnipeg Therefore all our contributions will be entirely to the purchase of food. The object of this drive is ten carloads of parcels

The campaign is by no means a small venture—the Rotary Club of Winnipeg feels it is now Canada's turn to help' Britain Hold the Fort" on short rations all through the war After two years of peace she is still dimly in need of essential foods How is to do opportunity whereby all Canadians can do something to provide more food for the people "over there"

- HINTS ON HEALTH -

TAKE IT EASY

Take it easy. Don't count your self—if you should bang the end from Ten Wheat you take a half-day this year, make it worthwhile.

Medical Authorities point out that people who sit at a desk or workbench for weeks in the year can't expect to benefit by emergency tasking the other two weeks. Snap short of fatigue, is the word from the doctors. Just get mildly tired and then stop. And, to make sure just what exercise will benefit you during your leisure hours, try the check-up test here on the safe side.

WATCH UP THE HOSE

Water forced up the nostrils can carry infection to nose, throat and sinuses. So, any method whatsoever, care should be taken when swimming to keep the nose free. Diving in, the best way of entering the water. Those who have to dive in feet-first, should hold their noses.

Ducks can close their nostrils in the water, but human beings can't. Nor can we protect our eyes under water as some bird-kinds, similar to those possessed by such aquatic birds.

REDUCE SAFELY

If you are overweight, you must be particularly careful how you reduce. Many a reducer, by losing past the age of 40 have a tendency to put on weight. This may or may not be a healthful thing, and depends upon many factors, and only a trained medical person is competent to judge.

IN MEMORIAM

In loving memory of our dear mother Violet Etta Lawrence who passed away July 16, 1944.

You could not stay our mother,
But God has taken one we loved
To His realm so grand.
Ever remembered by Ralph, Helen, Al and Hazel.

In loving memory of our elder Mrs. Violet E. Lawrence who passed away July 16, 1944.

We oft sit and think of her when
We are all alone
For memory is the only friend
That grief can call its own;
Like Ivy on the withered oak,
When all other things decay
Our love for her will still keep
green,
And never fade away.
Lovingly remembered by her sisters and brothers.

WEEKLY CROP REPORT

Issued by the Dominion Bureau of Statistics, Ottawa, July 15, 1947

Crop conditions have been generally favourable during the past week. Warm weather has been beneficial to the growth of all crops. Rainfall has been adequate in most districts, although there are some areas in which more moisture is needed. Haying is in progress in the southern districts and will soon be general throughout the country. Harvesting of fall wheat is underway in the southern districts of Ontario.

Prairie Provinces: Warm weather has been beneficial to the growth of all crops. Rainfall has been adequate in most districts, although there are some areas in which more moisture is needed. Haying is in progress in the southern districts and will soon be general throughout the country. Harvesting of fall wheat is underway in the southern districts of Ontario.

Maritime Provinces: Warm weather has been beneficial to the growth of all crops. Rainfall has been adequate in most districts, although there are some areas in which more moisture is needed. Haying is in progress in the southern districts and will soon be general throughout the country. Harvesting of fall wheat is underway in the southern districts of Ontario.

COTTON TEXTILES MORE PLENTIFUL IN CANADA

Though the current world cotton crop of about $1,500,000 bales is less than 70 per cent of the previous average, supplies of cotton textiles are becoming more plentiful in Canada partly as a result of increased imports from the United States in the first quarter of 1947. As a result of this, the Canadian government has reduced import subsidies on some cotton textile items, and eliminated them on others. Consumption of cotton by Canadian mills appears to have leveled off at a rate of nearly [illegible] bales per year. That is [illegible] one-fifth less than the war time high of more than [illegible]. Much of the increase in textile consumption has been in spun rayon, used by Canadian mills is imported from the United States. Smaller quantities come from Mexico and Brazil.

There should be no tolerance of the intolerable

Provincial Library Victoria, B.C. Province of British Columbia

THE FORT RECORD

VOL. 39 FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, JULY 16, 1947 Subscription $2.00 year, U.S. $3.00

Auto Industry to be Eliminated by Australia

The Commonwealth Government is determined to secure complete elimination of motor manufacturing within Australia Vehicle bodies and many parts and components have been made for years, but the last step the manufacture of chassis, has not been taken up to the present.

In 1940, Australian Consolidated Industries, a concern which had no previous experience in the vehicle industry, contracted with the government to produce an all-Australian car within two years, but this intention was frustrated by the war. The war did, however, provide opportunities for great technical experience to all the companies, and several specific proposals were put forward by them at the post-war conference.

Few of the firms putting forward plans for the production of an all-Australian car have set up plate production dates. One company, however, has stated that it could be in full production on a vehicle 25 per cent Australian, within two years.

The implications of this policy are particularly significant for Canada, as over a period of years her exports of vehicles chassis and parts to Australia have aggregated 25 per cent of the total value of trade with the Commonwealth. In 1945, there were 70 factories engaged in the construction and assembly of motor vehicles, but three-quarters of the assembly was done by three organizations. General Motors-Holden's Ltd. now Canadian controlled by General Motors and utilities, and Maple Leaf trucks. Ford Motor Company of Australia Pty. Ltd. imports Canadian chassis for Ford V-8 and Mercury cars and utilities, and Ford trucks, and Chrysler-Australia Distributors (Australia) Pty. Ltd. use Canadian chassis for Dodge and Fargo trucks, and cars.

Divide Bee Colonies Before End of July

Whether the intention of the beekeeper is to increase honey production or to reduce the number of bees, the method is by division at colonies. It is important that any colony division should not be made during the main honey flow, not later than the last month of July, so that the new colonies may have ample time to become strong before winter. Where honey production is the main consideration, the colony should be divided only once. Where the increase of colonies is the desired object, the following methods may be used, advises C. B. Gooderham, Dominion Apiarist.

At the beginning of the main honey flow when the colony has reached full strength, move all brood in one super together with queen excluder, leaving the queen below on empty combs. If the queen has completed two cycles, place all brood possible in the upper one. Nine days later, split the brood that is in the upper into two frame nuclei, leaving one queen cell in each nucleus—or, better still, destroy all queen cells and introduce a young laying queen to each.

As soon as the colony becomes strong at the beginning of the main honey flow, remove two combs of emerging brood with adhering bees and one with honey; place these in a new hive; fill up with drawn comb, and introduce a queen. Space between the combs taken from the parent colony with empty drawn combs. This can be accomplished one or five times during the honey flow.

Make the divisions in the evening and do not disturb them for at least seven days. Assist weak nuclei with brood from very strong colonies and keep them well supplied with food. When the first flood is raised to the super, the beekeeper should raise a few queens from his best stock in order to have young queens when the division are made, using the super containing brood for finishing the cells.

EYE IN SOYATION

Fall rye is a valuable crop to promote free-cured tobacco in the rotation, particularly where medium rye straw is desired into the soil. According to the experiments carried out at the Dominion Experimental Sub-station at Delhi, Ont., fall wheat is similar to fall rye in some respects but it has not proved as effective in the flue-cured soils as rye.

Around the Town

Rev. and Mrs. W. W. Burton and [illegible] Sunday for Victoria where they will visit with Mr. Burton's parents.

Mr. and Mrs. Fred Williams and son left Tuesday for a two-week vacation at Sylvan Lake, they also plan to attend the stampede at Bassano.

Rev. and Mrs. W. J. Rose will return next week from holidays. Mr. Rose will resume his regular schedule of services on Sunday, August 3rd.

Mrs. S. Palmer and daughter Marion have been visiting with Mr. and Mrs. E. Northrupe of Bassano.

Mr. and Mrs. S. Palmer have had as their guest Mr. J. Palmer of Regina.

Miss Vivian Comeau of Legal is visiting Marion Palmer.

[illegible] will be in church service Sunday, July 27 at the United Church.

Mr. and Mrs. Bob Freer left Sunday to spend a few days visiting friends in Calgary.

Mrs. A McMaster left Saturday for a short visit with her daughter, Mrs. J. Brown of [illegible].

On the occasion of their 25th wedding anniversary, Mr. and Mrs. Joe Ahlstein entered an invitation to their friends and neighbors to attend a tea to be held at their home from 2 to 5 in the afternoon and from 8 to 10 in the evening of Wednesday, August 6.

Mrs. G. Becker left last week for Portland, Oregon, where she will spend the summer visiting with her daughter and son-in-law.

Mr. and Mrs. Harry Gauf and Mrs. A. Brenkenridge visited relatives in Calgary. While there they attended the Calgary Stampede. On return reported the Stampede was great.

Mr. and Mrs. J. Banks and family returned home Sunday from a two-week holiday at Pigeon Lake.

Mr. and Mrs. Ed Gauf and relations left for a two-week trip to the west coast and parts of the [illegible].

Mr. and Mrs. Stewart Banks and family have been visitors with Mrs. Banks's parents, Mr. and Mrs. H. Gauf.

Mr. Jack Wright left Sunday evening on a 1500 mile trip to Dauphin, Manitoba where a family reunion will be held at the home of his brother Mr. F. V. Wright.

Mrs. Bill Gauf and sons of Wetaskiwin have been visiting Mr. and Mrs. Jack Gauf for the past week.

Mrs. J. Gauf arrived home Saturday after spending a week at Edmonton visiting her mother Mrs. R. Fielder.

EFFECTS OF 2-4-D

The application of a 2-4-D formula containing 36 per cent of the acid, at a rate of 10 gallons an acre, damaged grain to best plots at the University of Saskatchewan farm. The treated plants were thinner than untreated grain, and their growth retarded. Flax was killed and barley suffered more than wheat or oats.

Similar tests are being conducted at the University of Manitoba, but authorities there refuse to be quoted until the final results are obtained. The object of the experiments is to find out when to treat crops with 2-4-D, what amount of the spray to use and possibly which form to use.

THE DEADLINE

Miss comes under two inquiring of the schoolmaster how many children he had.

"Four," said the examinee, "and by gosh that's all I'm going to have."

"Why?" asked the census taker.

"I just read in this here almanac that every fifth child born in the world is a Chinese."

NOTICE

In order that the Staff of the Fort Record may enjoy their annual vacation, there will be no issue of the paper during the week of July 28th.

Baseball Club Managers Hold Meet

A meeting of Highway 16 Baseball Club managers was held Friday evening in the Fort with Mr Hugh Allen of Bon Accord as chairman.

A discussion took place regarding the system of scoring to be used in the playoff games, and it was decided to continue with the percentage system that has been used throughout the series because the difference in points between any of the teams was not great and no advantage could be gained through any change.

A game between the Fort and Namao and one between the Fort and Bon Accord were protested and it was decided that these games will have to be replayed. It was also decided that the tie games between Bon Accord and North Edmonton, Fort and Horse Hill also be replayed.

It was stressed at this meeting that these games be played as soon as possible in order that all playoff games could be completed before harvesting begins.

All playoff games will be two out of three with the final game being played on home ground. Also no baseball umpires will be used for all games.

Many Residents Attend Free Show

Marking his first anniversary as owner of The Fort Shows, Mr Chas F. Jones was host to over 600 residents of town and district Saturday evening when the doors of the theatre were thrown open to the public.

In a short address during the course of the evening, Mr. Lowe thanked the people for their patronage during his first year of operation and expressed the hope that they would continue their [illegible].

His aim, he said, was to supply only pictures his patrons most [illegible].

East Edmonton

Mr. and Mrs. Howard Gay were recent visitors at the home of Mr. and Mrs. E. Isherwood.

Myrna Isherwood attended the Y.W.C.A. summer spices camp recently.

Congratulations to Mr. and Mrs. R. E. Curry (nee Ethel Frampton) on the birth of a son June 29th. Kenneth John Elliot, 8 lbs. 12 ozs.

The community extends a speedy recovery to Bob Ritchie who has been confined to his home with sciatic, the past three weeks.

Miss I. E. Briggs has returned home to Vancouver after spending three weeks with her parents, Mr. and Mrs. C. Briggs.

Pleasant View

Mr. and Mrs. Ken Magee left on a trip to Banff, Alta. and Kelowna, B.C.

Mrs. C. de Mille of New Westminster, B.C. is visiting her daughter and son-in-law, Mr. and Mrs. Walter Magee. She will stay with them until the middle of August.

Mr. and Mrs. Harry Magee have returned from Roseberry, Oregon and California where they have been visiting with friends for the past month.

CLEANING FOODS

Among the known causes of tooth decay are sweet, sticky foods, left to ferment around the teeth. Dental authorities have recommended that mouth cleanliness is important for general, as well as oral, health.

After sticky foods, they suggest a salad or perhaps a stalk of celery to clean out the mouth. Also, if it fits in with a person's nutritional requirements, a dessert consisting of a firm, raw fruit will do the trick, leaving the mouth in a much better state at the end of a meal.

America Needs a New Crusader

By R. J. Deachman

world as a first step on that cause [illegible] to economic [illegible] down which we and other countries travelled after the First World War with such disastrous consequences."

"Now, could the United States gain by removing restrictions on imports of raw wool? Nothing whatever. The wool growing business in the United States is now costing the people of that country more than it is worth. There would have been brand gains for the people of the United States from a lower duty on wool. It would have reduced the price of clothing. It would have stimulated trade between the United States, New Zealand, Australia and South Africa. It might very well have been the spark plug which would have started trade moving throughout the world.

Why did the American congress and Senate yield to this temptation? Some years ago Mussolini made this statement: "Majorities are inert, minorities are dynamic". There is the secret for the success of despots. They rally to their own cause the coercive fervour of small groups seeking their own ends, indifferent to the general good. They constitute one of the great dangers, not only to prosperity, but to the peace of the world.

FREEZING WHEAT ENDURES CHAMPION

One hundred and one years ago last February 9—that is on February 9, 1946, Sir Robert Peel, a British statesman and a Conservative, becoming convinced that the time for action had arrived moved

Rebuild Feed Reserves During Summer

"Reserves of feed were mostly used during the past long winter, particularly hay, and it will be necessary to rebuild these reserves this summer. The need for feed reserves is vital to the profitability of the livestock industry. Now is the time to size up the possible roughage supply in relation to the number of cattle or sheep to be fed next winter. Also what possible supplies of feed can be harvested for a reserve, says L. B. Thomson, Dominion Experimental Station, Swift Current, Sask.

In deciding how many cattle can be safely wintered, it is necessary to know the approximate amount of roughage required by each animal of a certain age. When calves are fed under shelter they require 5 to 10 pounds of roughage per day in an average winter, or from 1000 to 1200 pounds of hay per head, depending on the length of the winter, and also if some grazing is available. Yearlings fed hay alone require approximately 1500 to 1800 lbs. for the day period. Older cattle, such as cows and two year olds, require approximately one ton of hay for the same period. Mature cattle do not require rich protein foods, such as alfalfa and cereal, and should be the object to be maintain them and not to encourage growth.

The sources of feed supply are many and varied. The best source to be obtained from native hay on low lying areas, slough bottoms, marshes, etc. Where this source of supply is available. In addition there are the cultivated hays, brome hay, and straw from the grain fields which is a valuable supplement to the hay supply.

Once the estimated winter feed requirements are obtained, it is well to plan the feed reserve. All of the native and cultivated hays can be stored over a period of years without any deterioration in quality or nutritive value. It must, however be protected from the elements. Well stacks so that rain cannot penetrate them and cause spoilage. With the straw part, it is preferable to harvest them loose rather than in sheaves, because they will not bother the bees stacks and by the use mixture of salt and sulphur spread through the first ten feet of the stack has been found completely protect the mice for a 3-year period. There are several methods by which straw can be placed as a reserve, such as baling, combine attachments for bunching and then using the different kinds of baling equipment for stacking. The value of straw as a reserve should not be overlooked, because in nutritive value it ranks very close to the prairie hay. Many farmers are inclined to believe

Feed reserves can be set up in several ways. An intensified effort to enlarge every possible box of roughage will pay dividends in the future. Much information is now available, and farmers interested can obtain such information from their nearest experimental station or agricultural representative.

[illegible] IN SUMMER

To keep the house or office cool this summer, have the shades down, and the window closed, if necessary, on the sunny side, while leaving the window wide open on the shady side, with a fan facing inwards to keep the air moving. Having air flower evaporation, and feels cooler, too.

By following this advice, which the Canadian Institute of Nutrition, Ottawa, and by taking it easy in sense, or loose, clothing, Canadians can be comfortable indoors on the hottest days.

The United States current out crop is estimated at 1,347,382,000 bushels as compared with 1,500,-967,000 bushels harvested in 1946. Barley production is estimated at 97,886,000 bushels as compared with 65,779,000 last year

Canadian Legion to Hold Picnic Aug. 17

At a general meeting of the Canadian Legion, Fort Saskatchewan Branch, held Friday evening, it was decided to hold a picnic for members and their families at Borden Park, Sunday, August 17. A committee of four were named to look after details, and transportation to Edmonton Borden Park was selected as the picnic site after considerable discussion on the merits of Elk Island Park and the Stompeen River.

The meeting also decided to contact the carnival which was to be staged here in mid August, owing to difficulties in contacting the Midwest Shows which are now playing at High Prairie. It was also felt that the time left to arrange the details of such a show was insufficient.

Further business included the decision to call for tenders for painting the Legion Hall, Club Rooms to accommodate the books donated by the W.I. It is hoped that in the near future a permanent hall will be available to the general [illegible].

British Car Aims at Speed Mark of 400 m.p.h.

The special Railton car in which Mr. John Cobb, English speed driver, hopes to beat his own record of 369.7 m.p.h. set up in August, 1935, was on view near London recently. Mr. Cobb is taking the car to the Bonneville salt flats in Utah, U.S.A., where he will make his attempt. He believes that in ideal conditions his car should reach 400 m.p.h. The Railton has two 1350 h.p. Napier sore engines and tires specially designed by the Dunlop Rubber Co. These tires have been tested at the equivalent of 420 m.p.h. for seven miles, and 50 are being sent with the car to allow for trials as well as the record runs. They have a smooth surface and a tread only 1/16th inch thick. The record attempt will form part of the Utah centennial celebrations and will probably take place towards the end of August.

PRAIRIE SOIL FERTILITY

Brown soils of the Canadian prairies have lost 18 per cent in nitrogen and 10 per cent of organic matter since they were first cultivated. This assertion was made by Dr. J. S. Doughty, in charge of the Dominion Experimental Substation at Swift Current, Saskatchewan.

The return of all crop residue to the farm was recommended by Dr. Doughty. Crop retention methods can be comfortable indoors on the hottest days.

The final estimate of Australia's 1946-47 wheat production is 127 million bushels. The 1938-39 average annual production was 190 million bushels.

The Nations Business

By Ottawa Observer

Current political interest in the capital seems to this observer to be:

1. An anxious eye on European developments with a keen realization of how they affect Canada.
2. Observation of the latest foreign policies submitted by the three political parties in the Halifax by-election, and
3. The points, and their significance, of Canada's defence policy outlined in the House of Commons last week by Defence Minister Hon. Brooke Claxton.

The Case of Russia

There is little new or unexpected in the arguments on the reactions of Europe to the "Marshall" plan to rebuild the devasted areas and to bring new hope to that continent's depressed economy. What is noticeable is that Russia is losing even her most blindly devoted and persistent adherents. Practically no one except avowed Communists can explain or defend actions and utterances that can only be labelled stupid. It is noted here that the Vancouver Sun, which has featured the writings of a well known pro-Russian columnist, has felt it desirable to dissociate itself from and to ridicule his opinions in an editorial.

The Defence Policy

It is recognized that Canada's defence needs and defence policy must always be considered in the light of Canada's external or foreign policy. This is a non partisan policy which is supported by the progressive conservative party and by a much less definite and even vacillating way by the socialist party. It is opposed by the social credit and Bloc Populaire parties. The policy was outlined to the House of Commons recently by Rt. Hon. Louis St. Laurent, "The foundation of our international policy must be healthy towards none, and peace and friendship with all".

Of the three main points of defence policy:

1. Defence against aggression;
2. Assist in maintaining law and order at home;
3. Carry out our obligations to the United Nations;

it was noted that number 2 does more fire from the C.C.F. party.

Close observers of socialist party strategy note that the hostility to our defence policy comes from Communists or "fellow travellers" who have infiltrated into that party. It is obviously in conformity with the communistic line which is how Canada must and divided.

The minister's statements that peace time conscription was not a probability was hailed with considerable interest.

Our Review of Government Events of the last few months Continued on Page Four

LOOKING BACKWARD

One of the big wheat crops produced in Alberta was the 167 million bushel contract in 1928. Yet the average farm price in this province for that crop was only 53c a bushel. In that season farmers lost money on every bushel of wheat they produced.

The total value of that magnificent crop was only $88 million. If farmers had received the present limited Wheat Board price for that crop, its value would have been $186 million.

The Canadian Wheat Board is the only guarantee against uncertainty how wheat prices in the future. The speculative system can give you no guaranteed prices for years ahead. If it were in control some years again, the wheat price might very well go down to the 53c figure, the average for 1928.

HARVEST WAGES

Harvest wages, as recommended for Alberta by the Alberta Federation of Agriculture, are standing $8.50, threshing $9.50 for a ten hour day, plus board.

SUMMER SURVEY

While the children have leisure from school and many of the adults, too, have holiday periods, health authorities in Ontario hope advantage will be taken of the chance for a complete dental survey this summer.

Regular oral examinations at this season, and again in a few months when the youngsters have summer vacations, will ensure against dangers to health and comfort. Medical experts remind Canadians that early detection of possible dental trouble is important, and say that the twice-a-year check-up should be generally adopted.

Sometimes in summer when refrigerating facilities are not what one would wish they were, milk and cream sour. This soured milk or cream should be put in good use, not thrown away, because it still contains the valuable nutrients of the fresh product. The Canadian Seed Growers' Association test at Macdonald College, Quebec this summer, measure must be taken, not only against diseases that are now causing damage in this country, but against others to keep them from entering Canada, he said.

The cheapest and most effective method of disease prevention is growing varieties that are resistant to disease. Plant breeders have made considerable progress in producing disease-resistant varieties of some crops, but it is a complicated task, requiring the co-operation of plant pathologists and others with specialized training.

"Where we have no disease resistant varieties of crops, disease free seed should be used. Any seed stock qualifying for one of the higher classes—Foundation, Elite and Registered—should not be a source of disease. When disease appears, prevention measures should be taken immediately. Such measures include sanitation, rotation and isolation," said Dr. Craigie.

Prevention, Not Cure Plant Diseases Urged

There is much truth in the old saying that "an ounce of prevention is worth a pound of cure," and this is especially true in the case of plant diseases, according to Dr. J. H. Craigie, Dominion Botanist, Central Experimental Farm, Ottawa, in an address to the fourth provincial convention of the Canadian Seed Growers' Association held at Macdonald College, Quebec this summer. Measures must be taken, not only against diseases that are now causing damage in this country, but against others to keep them from entering Canada, he said.

The cheapest and most effective method of disease prevention is growing varieties that are resistant to disease. Plant breeders have made considerable progress in producing disease-resistant varieties of some crops, but it is a complicated task, requiring the co-operation of plant pathologists and others with specialized training.

"Where we have no disease resistant varieties of crops, disease free seed should be used. Any seed stock qualifying for one of the higher classes—Foundation, Elite and Registered—should not be a source of disease. When disease appears, prevention measures should be taken immediately. Such measures include sanitation, rotation and isolation," said Dr. Craigie.

Control Methods For Cucumber Beetles

The striped cucumber beetle is the most common and destructive insect attacking cucumbers, squash, pumpkins and melons, says W. G. Hatherman, Division of Entomology, Dominion Department of Agriculture. The beetle is about a quarter inch in length and yellow in color, with a black head and three longitudinal black stripes down the back.

The beetles may be found on the plants from May to October, but the main injury takes place from the time the plants break through the soil until they begin to send out runners. During this critical period, the plants should be inspected every second or third day. If the insects appear numerous, the foliage should be dusted without delay from above and below with calcium arsenate and talc or gypsum, using one part of the arsenate to 15 parts by weight of the talc or gypsum.

Hydrated lime may be substituted for the talc or gypsum, but it tends to taint the plants in certain seasons. The beetles are persistent, so keep the new growth well covered with the plants. Usually three or four applications a few days apart are all that are required for satisfactory control. Some growers prefer a derris dust—one part derris (four per cent rotenone) mixed with four or five parts of talc. Unlike calcium arsenate, derris kills chiefly by contact, so an effort should be made to cover all the insects. To do this, because the beetles often feed on the lower surface of the leaves, the best results will be obtained with a hand duster equipped with a long delivery tube and a curved nozzle-tip which will blow the dust up from underneath.

Q. Does Smoking Affect the Vitality and Irreplaceable to a certain extent?

A. In some cases it does bring about a partial physical incapacity. As a rule none is noted unless fairly severe smoking is indulged in. Vitality as a rule is not lowered, but rather enhanced.

Q. Is it possible for a prisoner-of-war patient to live as long as if he had the use of both lungs?

A. Yes, such a patient may live as long as another having pulmonary tuberculosis without pneumothorax. Pneumothorax is given to prolong life by a measure on arrest of the disease. For ordinary physical activities, one lung is more than sufficient for living.

FOOD DELIVERIES SLOW

Owing to the exceptionally backward season over Eastern Canada and the Prairie Provinces, vegetable deliveries to warehouses have been slow, says the Current Review of Agricultural Conditions in Canada. Early deliveries are reported at being in good condition, showing improvement in preparation. Prices paid are in keeping with values of 1946.

What Price Unity in Labor?

By Robert Lowery

What price labor unity? Can unity come by combining the poorest divided groups in a sole organization with one president and executive board? Will agreement on organizational changes bring oneness? Does unity boost on a fight against anti-union legislation or for enough? Or can the Labor Movement with all its tradition and principles find a more fundamental basis for unity?

Not long ago I had lunch with a nationally known Canadian union official. The question of labor unity came up and my friend made a very interesting observation.

"What we need is Canadian labor," he said, "an ideological unity. We may not be able to iron out all our problems over night, but we can all start shooting at the same brand of communism—the kind that is based on the highest moral principles for which labor has fought."

He was obviously sincere but I wondered how we could make it practical. My friend said he had had the same question in mind until he had read the book "Sleep Have Large". Since then he said he had mapped out his own two-point program for building unity.

The first point was very simple. In his filing cabinet he had a folder full of damaging information against a rival organizer. It was old stuff and he knew this man had changed his opinions a lot in the last years. However, he had kept the file around because he felt it might come in handy some time. Now he said that he had decided to send it back to the organizer as a step toward building trust between them.

His next move was to get together with the president of the union which had been his bitter rival for 20 years. They had fought it out in jurisdictional disputes and on the public platform. "In spite of everything" my friend remarked, "I like that old man and I believe we could work together." He had an inspired idea about how to melt the ice. His rival was a great fisherman. He decided to send him a book he had just read entitled "To Hell with Fishing!"

In the following weeks a genuine reconciliation took place. Not long ago at a joint meeting where a brief was being prepared for presentation to the federal government, men representing labor all over Canada were surprised to see my friend extend a resolution proposed by his one time arch rival.

There is scarcely a headline today which does not bring news of deadlock. Yet the fate of mankind hangs upon our ability to find the solution to deadlock. Labor's job is to give to the world the ideology of teamwork. We have no illusions and great moral principles, but what makes them into a working ideology is the leaders and the rank and file of labor living them out! How?

1. Think out what the Labor Movement can give to Canada and the world when it has unity.

2. Remember that unity starts with you and the fellow you don't get on with.

3. Try an honest apology. It is the highroad to lasting unity.

The prize labor will have to pay for unity may cost many of us on some price and our pet points of view, but with unity within our own ranks labor can become the greatest moral force in uniting the nations.

DRIVE CAREFULLY

Visitors to Parks Exceed Last Year

National parks in Alberta and other provinces will see a record number of visitors this season, in the opinion of federal government officials.

James Smart, of Ottawa, controller of national parks who was on a recent inspection trip to the parks, said that the number of park visitors already is in excess of this time in previous years. Tourists with the big U.S. holiday exodus to Canada, accommodations in the parks have been expanded and more bungalow camps have been opened.

Officials of the Alberta Motor Association have anticipated this heavy tourist movement to Alberta. For that reason they are asking members to give a warm welcome to these visitors and facilitate their needs in every way possible. All A.M.A. members have been asked to take the initiative in seeing that visitors in the province are made comfortable and are given all the information and other data they require.

Much is to be done for these new comers who are eager to see everything of the province about which they have heard so much. When they find that the Alberta people are courteous and accommodating and seek to give them every assistance, they will be certain to return with their friends and help swell the tourist industry now so vital to the province which is spending millions of dollars to improve its highways.

GREEN MANURE

Results of a long term project on the use of red and sweet clovers for green manure at the Dominion Experimental Station, Kapuskasing, Ont., show that sweet clover gave slightly greater returns than red clover, but that both were far surpassed by the application of barnyard manure and that their use would not be economical.

is reason for living has the first step to [illegible] Alberta Leaders [illegible] of Alberta [illegible] possible that the Liberal-Labor group may press a statesman who will do for that country what Sir Robert Peel did for England in 1846. The [illegible] paragraph of Mr. Crusader's letter is to the point of view and the wisdom which guided him in reaching his conclusions.

"This night is to decide between the policy of continual relative or restriction or the freedom and opportunity of production. This night you will select the motive which is to indicate the commercial policy of England. Shall it be 'advance' or 'recede'. Which is the fitter motto for this great Empire? Retire, our position is lost. We stand in the confines of Western Europe the chief customer of which the whole world has to buy. The discoveries of science the improvement of machinery have brought us within the ken of St. Petersburgh, and will soon bring us within the ken of New York. We have an extent of coast greater in proportion to our population than that of any land that has ever seen a nation occupying it. We have an extent of inland navigation and means of internal communication unequalled by any other country. Our mineral strength and superiority from coal to iron, in the sinews of manufacture, give us advantages over every rival in the field of competition, which every fresh capital far exceeds that which they command is ingenuity to call in energy we are reflects to say. Our national character for the free institutions under which we live the liberty of thought and action, the unshackled press, spreading the knowledge of every discovery and of every advance in science—combine with our natural and physical advantages to place us at the head of those which profit by the free interchange of their products. And is this the country to shrink from competition? Is this the country to adopt a retrograde policy? Is this the country which can only flourish in the sickly, artificial atmosphere of protection? Is this the country to stand shivering on the brink of exposure to the healthful breezes of competition?"

Choose your motto: 'Advance' or 'Recede'. Many countries are watching with anxiety the solution you make. Determine for 'Advance', and it will be the watchword which will animate and encourage in every state the friends of liberal and commercial policy . . . . This night, then—if on this night the debate shall close—you will have to decide what are the principles by which your commercial policy is to be regulated. Meet correctly, from a deep conviction, founded not upon the limited experience of the results of every relaxation of restriction and prohibition, I counsel you to set the example of liberality to other countries. Act thus, and it will be in perfect consistency with the course you have hitherto taken. Act thus, and you will provide an additional guarantee for the continued contentment, and happiness, and well-being of the people. Act thus, and you will have done whatever human sagacity can do for the protection of commercial prosperity."

The United States to-day is in a position which would enable it to cut its tariff in two without asking for concessions from other nations. This would do far more to build up world prosperity than anything else which could be done and in world prosperity America will have her share.

Frozen Egg Law Is Boon to Industry

With the introduction of grade standard for frozen eggs for export all poultry products are now under grade regulations. Covered by the regulations are frozen whole eggs or mélanges, a staple commodity of the baking trade, frozen egg yolk, used in compounding of salad dressings, doughnut and ice cream mixes, frozen egg whites, used by bakers and confectioners for meringues and candies.

The chief point in the regulations, says the Current Review of Agricultural Conditions in Canada, is that which deals with the percentage of solids present. To qualify as Grade A, frozen whole egg must have been at least 25.5 per cent solids, frozen egg yolk 43 per cent, and frozen egg whites, 11.5 per cent solids.

These regulations apply only to frozen eggs exported, imported or shipped between provinces. Until the province, by their own legislation, implement these regulations, grading is not required for frozen eggs produced and sold within one province.

The new regulations make it possible, for the egg-breaking plants in Canada, of which there are approximately 90 in number, to market frozen eggs of uniform quality and, besides the names of frozen eggs to buy their supplies with confidence. The importance of the frozen egg industry to the poultryman is that it provides a market for Grade B and Grade C eggs, cracked and dirty eggs too large for ordinary packing material.

CHANGE OF DIET

Some diseases of grain crops cause an annual loss of about $10 million a year to Canadian farmers. This statement was made by Dr. W. C. Broadfoot of the Canadian department of agriculture. Of the 7 different strata of cereals, five can be controlled by the use of mercuric fungicides such as ceresan. The remaining two smuts require a change of diet—the former smut of barley—requires the more exacting hot water treatment for these cereal

DEATH - to common pests
Green Cross Insecticides are both Economical and Time Savers . . . One application properly applied means sure death to all pests that invade vegetable and flower gardens, houses, barns, outbuildings and all places that attract them.

HOW OFTEN?

Do as we do—remember that value is another profession, cultivated and old plants have been established in nursery plots by the Sir Sandford Fleming Experimental Farm System, Indian Head, Sask. Apple crops already have promise in Lake Manitoba, a number of Prairie and Northern Ontario and Quebec districts, as well as in Alberta. During the blooming period of all trees, the plant was visited continually by bees for nectar and pollen.

DO YOU KNOW . . .

Ice Cream may be enjoyed in hundred ways. It is high in food value, delicious and pleasing. Raw materials and refrigeration may be obtained. When Ice Cream is used in a nutritional way that is to universally recognized project, students or adults, it is universally recommended and demanded.

BRITAIN CURTAILS IMPORTS

The United Kingdom Government announced, effective July 1st, the open general license for the importation of a number of fresh fruits and vegetables from certain countries, including Canada and the United States.

Unrestricted imports and requirements of Empire fruits and vegetables not affected by this announcement are those varieties imported on permanent quota, in limited quantities, from Empire countries, oranges, lemons, grapefruit and dehydrated fruits and vegetables with appropriate import licenses. Other restrictive measures were taken by Britain through the increasing increase in customs duties.

Harvesting Alsike Clover

During the past few years the growing of legumes for seed has become a real farm enterprise in many Alberta districts. In 1946 provincial farmers produced 1,000,000 pounds of alsikle seed on approximately 20,000 pounds in 1935. Red clover and alsike have also shown large increases in production. Red clover seed production in 1946 was 1,000,000 pounds in 1946, while alsike seed in 1935 production rose to 1,500,000 pounds in 1946.

Interest in legumes in 1947 and continued during 1946 showed that harvesting some of alsike-seed were for greater than ever necessary, and ways and means of reducing these losses were given considerable attention. Methods of combining combining the alsike seed from crop to a windrow procedure.

"Windrowing with a pan-harvester type of windrower, having a long grabbed bars, and combining when the windrows are dry is a more satisfactory harvesting method. Windrowing must be done while the crop is still fairly green and will settle into a compact windrow. Windrowing of dry material is almost certain to result in blowing of the windrowed seed, possibly a complete loss of the crop. If for any reason the crop is left windrowed before it is fairly dry it is best to leave it straight outside the crop than to risk windrowing."

A report of the study is available in mimeograph form and can be had on request from the Extension Service of the Alberta Department of Agriculture. The title of the mimeograph is "Harvesting Alsike Clover Seed."

The British seed ration has recently been reduced and new every individual in the United Kingdom will be allowed 25c worth of seed weekly as compared with the present ration of 50c worth weekly.

It's not more place we need but more application of the place we have.

World of Wheat

By R. G. L. STRAINES
Director "The Crop Testing Plan"
THE VALUABLE WORK OF THE C.S.G.A.

The annual convention of the Canadian Seed Growers' Association has just concluded. Several interesting features were awarded of the highest honor of the association, that the Robertson Associate Award for pure seed awarded only good seed growing. The honors are—Mr. E. C. Anderson of Carman, Man.; Mr. Thos. J. Murray of Milton, Ont.; A. M. Smith of Wembley, Alta.; Mr. R. T. Gush of Kelvington, Sask.; A. Bartlett of Pilkmore and Mr. Wm. Farquhar of Portage la Prairie. Seed growing is one of the two foundations of food production, the other being the work of the plant breeders and other scientific agriculturists. The association for 42 years has quietly improved the quality of Registered seed, thus increasing the yield, quality and suitability of Canadian grains overseas. Registered seeds are true-to-variety, are of high germination and are usually the very minimum of admixtures.

This year's convention was devoted mainly to the study of how to handle Registered seed free from seed-borne diseases. The question this last year had 2,552 members and registered 4,661 fields of 220 different varieties of cereals, field root, garden vegetables and tobacco. It is also certainly be said that the work of the Canadian Seed Grower's Association is of benefit not only to our farmers and to all of us.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Owing to unfavorable weather in Denmark, poor prospects are very poor and it is anticipated that it will be necessary to import some 7,000,000 bushels of bread grains during the next twelve months. What stocks in Poland are very low and import requirements to the end of September 1947 are expected at approximately 10 million bushels.

Private estimates now place the United States winter carry-over at from 70 to 80 million bushels. The June 1st estimate of the total winter crop was 1,040 million bushels, making the total wheat for this crop year approximately 1,450 million bushels. Of this, some 450 million bushels are required for home consumption, leaving 900 million bushels for export and carry-over.

Nations Business

Continued from Page One

in the United States, where serious clashes have occured between a democratically governed and a Republican Congress, have stimulated much discussion and excitement. We have of course our difficulties, many. While no one contends that our system is not perfect, many claim that it represents the highest and most flexible degree of "government by the people" that the human race has yet evolved.

Compared with that of the United States, which probably comes next in the struggle for a free democratic way of life, the British system of government—parliamentary cabinet—arising from the fact that Members of the Crown are members of the House of Commons. This contributes to a better understanding between the legislative and executive branches of government than in the United States where Cabinet members are not members of Congress. It also has the advantage that Cabinet ministers may be and are questioned by members of Parliament on the floor of the House regarding proposed legislation and government policy. Ministers can and do propose, explain and defend government policy and measures in free-for-all debate with other members of the Commons, a privilege denied United States cabinet members.

Rebate from Parliament

(As the British government Officials) the one of the most "Socialist" with respect to matters of the Commonwealth).

Mr. Gordon, Hong Kong.: May I ask whether Canada was consulted in reference to the change of name of the Government in the British government?

Mr. Mackenzie King: We were informed that the British government intended to make such a change and were asked whether any objection would likely to take. The reply obviously was that any change in title of one of the departments of government was a matter for the British government itself to decide. I might add that the change in title is not one to which any objection could be taken here.

Adversity is not something to be hated. It is something to be consulted.

Keeping Vegetable Gardens Free of Slugs

Slugs are the grey, small-like creatures which romp the leaves of tender vegetables, leaving a slimy trail on the foliage and on the soil beneath the plants. They shun day light and thrive only where there is an abundance of moisture, being most troublesome in rainy seasons, in damp shady corners of the garden, and in low-lying areas of heavy land. Slugs will feed on almost all vegetables, but are particularly fond of beans, lettuce, cabbage and cauliflower. They attack celery in the blanching process. They eat shallow circular pits in the fruits of tomatoes, and in the autumn they bore into the roots of carrots and beets.

Plants in infested soil may be protected by a thin film of hydrated lime which is dusted over the foliage and on the ground in the evening after the sun has gone down and feeding has commenced, says W. G. Matteson, Division of Entomology, Dominion Department of Agriculture. Hydrated lime is effective only when dry, and for this reason a few dustings at intervals of three of four days is much more effective than one heavy application.

The lower as well as the upper surfaces of the leaves, should be covered and the surrounding soil should be soaked in such a way that the slugs will have to crawl through the dust before they can reach the plants or the plants may be sprayed thoroughly with bordeaux mixture. This material is repellent to the slugs and plants kept covered with the spray will be largely protected from attack.

Baits consisting of metaldehyde and bran have given satisfactory control of slugs on small gardens but are too expensive for use under conditions. They may be bought ready mixed at seed and stores and should be used according to the manufacturer's directions.

Around the Town

Mr. and Mrs. George Reimer have as their guest Miss Helen Pugsley of Toronto.

Ruth Marie Krieger, a pupil of Elizabeth P. Krieger, passed her grade three piano Toronto Conservatory of Music exam with honors.

Alma Solonski will start working Monday in Geerts Studio, Edmonton.

Mr and Mrs. Harry L. de Rooy left Saturday for a vacation at Sylvan Lake.

Mrs. Logan O'Brien is acting as camp mother again at the camps at Lake View, Sandy Cooking Lake. Rev W. G. Ross drove her and two Partridge Hill girls, Jane Allen and Jean Hawks, to the lake August 1st for the start of the Girl's Camp. The Boys' Camp begins August 8th.

Mr. and Mrs. Donald Gunn and Margaret Shenton returned by limo after spending three weeks with Mr. and Mrs. E. S. Taylor

Mr. Henry Lindemeyer is attending the Youth Training Instruction Course at Red Deer. He is taking an advanced course in P.T. training for girls.

Mr. A. B. King returned to the Fort Tuesday after a holiday at Windsor Park and Jasper with his son and daughter-in-law, Mr. and Mrs. Edgerton King and family and his son-in-law and daughter Mr. and Mrs. Ronald Phillips and sons.

Mr. and Mrs. Roy Robinson are receiving congratulations on the birth of a son born Sunday, August 3 at the Royal Alex hospital.

Mrs. Frost of Edmonton left Wednesday for Camrose for the past few days with her sister Mrs. McManus.

Considerable damage was done to the home of Mr. and Mrs. C. H. Williams when it was struck by lightning during the severe storm last Sunday.

Mr. and Mrs. Reag are receiving congratulations on the birth of twins, a boy and girl born here Friday, July 25th.

Congratulations are extended at this time to Mr. William Seymour of Fort Saskatchewan who celebrated his 89th birthday, Tuesday, July 29th. Born in County Cork, Ireland in 1858, Mr. Seymour arrived in Fort Saskatchewan in 1906 where he followed his trade as shoemaker until 1936, when he moved to Washateneo, returning here last winter.

Still hale and hearty, Mr. Seymour greatly enjoys working in his garden, and is a regular supporter of the Fort Baseball Team.

The Annual Canal Crops Field Day will be held at the Dominion Experimental Station, Lacombe, Alberta on Thursday, August 4th with the program officially commencing at 1:30 p.m.

Ball Play-offs Aug. 10

The Highway 16 League schedule is over and the following teams are in the playoffs: North Edmonton, Namao, Josephburg and Horse Hill. FINAL STANDING

Team	G	W	L	T
North Edmonton	12	8	3	1
Namao	12	8	4	
Josephburg	12	8	4	
Horse Hill	12	6	5	1
Fort	12	4	6	2
Ben Accord	10	4	5	1
Beverly	10	0	9	

The semi final games will begin on Sunday, August 10 at 2:30 p.m. with Josephburg playing at Namao and Horse Hill at North Edmonton.

On Wednesday, August 13 at 6:45 p.m. the teams again swing into action for the second game in the 2 out of 3 series to decide the winners for the final playoff.

On Wednesday, August 13 the teams will change grounds Namao will play at Josephburg and North Edmonton at Horse Hill.

These should be good games as most games have been, with several games going extra innings to name the 2nd three games required.

Ach very nice day was had for the Josephburg Ball Tournament held on Wednesday, July 30 with about 400 people attending.

Mobile Clinic to Visit Fort

Miss Kathleen Budd of the Canadian Red Cross Society's new Blood Transfusion Service loads baskets of bottles into one of the vehicles of the mobile clinic that will visit Fort Saskatchewan Friday, August 15

Good Hope

A farewell party was held in the school house last Tuesday evening in honor of Mrs. E. Hoper and Miss Hilda Meyer, who have left the community and taken up residence in Edmonton. A good crowd turned out to bid them farewell and enjoyed an evening of dancing.

Immediately following the lunch hour Mr. William Unterschultz on behalf of all present, presented Mrs. Meyer with a lovely 3-tier lamp. On behalf of the Happy Gang, Miss Norma Frey presented Hilda with an electric toaster. Both recipients very suitably thanked everyone. Everyone joined in singing "For They Are Jolly Good Fellows."

Mr. C. Thomas and sons, Warren and Louis of Edmonton are visiting friends and relatives in the district.

Mrs. Earle Cranston entertained recently at a cup and saucer shower in honor of Mrs. Milton Meyer.

Games and contest proved interesting and entertaining during the afternoon. Mrs. Meyer, taking her place in a beautifully decorated chair, was presented with twelve fancy cups and saucers, for which she thanked everyone.

The hostess served a very delicious lunch which brought the afternoon to a fitting climax.

Mr. and Mrs. Ralph Pomeroy and Mr. and Mrs. Clarke Foster of Fort St. John, B.C. visited in the community for a few days last week enroute to Vancouver and Victoria.

On Sunday, July 20, Rev. J. E. Carson performed the christening ceremony for Raymond Earle, youngest son of Mr. and Mrs. Earle Cranston.

Mr. and Mrs. Carl Dittrich and family returned home last week from a two week holiday trip to the west coast.

Mrs. Claire Mullenbacher and daughter Marcia, are visiting relatives in the community the week.

Miss Alice Brant is holidaying with relatives at Newbrook.

Mr. George Simmons of Prairie Lake, B.C. is visiting with his brother Mr. Cecil Simmons of Good Hope.

Mrs. E. Meyer and Miss Hilda Meyer of Edmonton, spent the long week-end with Mr. and Mrs. Milton Meyer.

The grounds and a dance in the school at night ended the days activities.

Results of the Green Josephburg defeated Bruderheim in the first game, 7 to 4. In the second game West Ilik Island defeated Horse Hill 8 to 1. The final game between Josephburg and West Ilik Island ended in a tie, 5 to 5.

Joe Skocyn of Gibbons was the official in charge of these games.

In the softball game between the Partridge Hill and Bruderheim girls, the Partridge Hill team came out on top with a score of 8 to 6.

The [illegible] of Mr. and Mrs. [illegible] sponsored by the Women's [illegible]

Josephburg

Sunday, August 3 will be a day long remembered by our Josephburg people. We met at the church in the early morning and there boarded the truck for Glory Hill, our sister church near Stony Plain. The ride out was very enjoyable since the dust had been settled by a shower the night before and the fields looked refreshed and green. Rev. Krieger delivered the message and two of Glory Hills Young People gave reports on camp activities.

After the service our hosts took us in small groups to their various homes for dinner.

The afternoon was spent playing ball. For the evening, all enjoyed to Lakeshore Beach north west of Stony Plain. The comic beauty of the country can only be appreciated by one who has been there. The narrow road winding up hills and descending again into the valleys is beautiful to say the least for those in the truck.

At the beach we had a short program consisting of singing and a biblical quize. Food once again a welcome boon on the program. We had prepared and heartily enjoyed by all. But unfortunately that little dark cloud with so little silver lining was over us before we were aware. Supper was hardly finished and our Josephburg gang departed with a very few brief word of thanks and appreciation to our hosts.

Scenic beauty was no longer to much enjoyed as the rain came down in torrents as a bunch of people huddled under a moistening canopy. Beautiful winding drives became mere treacheous all the time but Lefty manoeuvered the truck with skill and no mishap befell us.

It is doubtful at this time of writing whether all our young folk have returned to their respective homes. However, since the rain was much needed, the coming to the visit could be suffered calmly. All in all, except for this unpleasant day spent with the Stony Plain people will not be forgotten in a hurry.

East Edmonton

Mr. and Mrs. E. E. Hosford take this opportunity of thanking their many friends and neighbors for the cards received in connection with their home caught fire Thursday, July 24th. A greater disaster was avoided through prompt attention.

Top winners at the Edmonton Exhibition included Mr. Ralph Briggs and Mr. E. E. Hosford.

Mr. E. E. Hosford returned Saturday evening from judging the dairy cattle at the Vermilion Fair.

Congratulations to Irene Weir, Danny Hosford, Jimmy Weir and Joy Briggs who successfully passed their Toronto Conservatory of Music exams.

Mr. Fred Hosford has been after 32 weeks at McMurray and Fabian Depot where he was installing [illegible] and [illegible]

The [illegible] of Mr. and Mrs. [illegible] sponsored by the Women's [illegible]

Mr. and Mrs. Ed Edmonton has been visiting at the home of Mr. and Mrs. C. Hosford for the past few days.

Joesphburg

Mr. and Mrs. Harold Bradley entertained friends from Milton recently. Included among them friends were a couple from Scotland, who were on their way to Canada.

The District sends congratulations to Mr. and Mrs. Walsh on the birth of a daughter.

Bill Dowling is reported to be recovering favorably from his recent illness.

Mr. and Mrs. E. Dowling are away on a motor trip. We hope that Mrs. Dowling is in better health when he comes back.

The United Workers have planned a baby-bond tea for the 13th. All mothers are welcome.

Mrs. Bunk is home for a visit with her two children.

The Maxwell's have had Billy Howatson, from the city, visiting them for several days.

The gardens are growing fast and the hoping is in full swing. Evidence of this can be seen anywhere in the district.

Choir practice is still every Thursday evening at 7 p.m. Choir is at 8 p.m. every Sunday.

Workers club was well attended. The sum of $60.00 was realized from the tea collection and sale of home cooking.

Mrs. Weir and family removed home after spending ten days at Pigeon Lake.

Mrs. Sedlbauer returned home from the girls' camp at Pollie where she was camp mother for two weeks.

Marjory Anthony and Joy Briggs are attending the CGIT camp at Lake View for a week.

Mrs. Reid of Edmonton has been visiting at the home of Mr. and Mrs. C. Hosford for the past few days.

An Opportunity to Save a Life

It is difficult to read a newspaper without reading of accidents and violent deaths. In many cases the difference between life and death for the victims can be blood transfusion. Every hour of the day there is someone who needs blood—your blood!

The Canadian Red Cross Society, carrying on its great humanitarian work in peacetime, as it did during the war, is setting up a Blood Transfusion Service throughout Canada. This new and vital service came into being in Alberta last month. That's where you, as a citizen of this community come in. Next week a mobile clinic of the Blood Transfusion Service will visit this district.

Blood donated to the Canadian Red Cross will be given free to hospitals in Alberta, which in turn will give it free to anyone in need of a blood transfusion. Not one penny will be charged for the blood collected by this service.

The success of the entire scheme depends upon whether YOU respond to the call for blood donors. Anyone between the ages of 18 and 60 can volunteer. There is no pain or discomfort and you are only asked to donate blood twice a year.

Help make this great life saving endeavour a success in this community.

Minutes of M. D. Council Meeting

The Council of the M. D. of Strathcona, No. 20 held its July meeting on the 14th instant with four members in attendance, Mr. Schreyer being on vacation.

Business commenced with the adoption of the minutes of the previous meeting and the Financial Statement for the month of June.

Mr. D. W. Ritchie, District Engineer, Department of Public Works, was present to arrange the expenditure of a special road grant of $600.00 for the improvement of the roads and approaches to the School. He also advised that an additional grant of $4,000.00 was available for other road projects. The Council was instructed to forward a letter of appreciation to the Minister of Public Works for the road grants made available this year.

The Council appointed as a committee to consider the request of R. C. Marshall for an agreement covering the removal of silt from the gravel bar which the district had under lease from the Provincial Government, made its report. The committee viewed the bar in question and recommended that an agreement be entered into which would share the gravel contained

Ardrossan

Mrs. Davidson, an old-timer of this vicinity, has been visiting her friends recently. She was the guest of Mr. and Mrs. O. Andrews.

Mr. and Mrs. Mackay entertained friends from Milton recently. Included among them friends were a couple from Scotland, who were on their way to Canada.

The District sends congratulations to Mr. and Mrs. Walsh on the birth of a daughter.

Bill Dowling is reported to be recovering favorably from his recent illness.

Mr. and Mrs. E. Dowling are away on a motor trip. We hope that Mrs. Dowling is in better health when he comes back.

The United Workers have planned a baby-bond tea for the 13th. All mothers are welcome.

Mrs. Bunk is home for a visit with her two children.

Mrs. Reid of Edmonton has been visiting at the home of Mr. and Mrs. C. Hosford for the past few days.

Unterschultz—Ryan Nuptials Held Recently

Lovely summer flowers and pink and white streamers formed the setting in the Clover Bar Church recently when Miss Mary Ryan, daughter of Mr. and Mrs. John Ryan became the bride of Mr. William Unterschultz, son of Mr. and Mrs. Unterschultz of Josephburg. Rev. M. A. Johnson performed the ceremony.

Entering the church with her father, the bride wore a gown of heavy white satin, featuring a sweetheart neckline and long sleeves which tapered over the wrists. Her full length veil fell from the brim of her gown and was held in place by a headpiece of orange blossoms and she carried a bouquet of red roses and white snapdragons. A single strand of pearls was a single strand of pearls, a gift of the groom.

Miss Victoria Ryan attended her sister as bridesmaid, wearing a slipper length gown of blue embroidered nylon with short puffed sleeves and full skirt of net. She carried a bouquet of pink carnations and green ferns and wore a heart shaped silver locket, gift of the groom.

Mr. Carl Unterschultz, brother of the groom, was best man.

Mrs. Ryan, the bride's mother, wore a navy blue gown of lace and sheer material with white accessories, her corsage was of cream carnations and sweet peas.

Mrs. Unterschultz, mother of the groom, wore a black satin dress with pink lace. Her corsage was of cream carnations and sweet peas.

Mrs. Gilchrist played the wedding march and at the signing of the register Mrs. M. A. Johnson played "Ave Maria." Soloist sang "I'll Walk Beside You."

After the ceremony a reception to 60 guests was held in the church basement. Tables for the buffet lunch were centered with a tiered wedding cake flanked by ice dishes of pink and white.

The toast to the bride was proposed by Rev. M. A. Johnson, to which she in the groom responded very tittingly.

The Women's Auxiliary catered to the lovely wedding supper.

After the reception which was held in the Partridge Hill Hall the couple motored to Jasper.

Mr. and Mrs. J. Aldous Mark 25th Anniversary

Over 150 friends and neighbors visited Mr. and Mrs. Fred Aldous on Wednesday, to extend congratulations to them on their 25th wedding anniversary.

The rooms were tastefully decorated with roses, carnations and summer flowers, also pink and white streamers and wedding bells.

The dining room table was set with an ecru lace cloth and centered with a three tier wedding cake flanked by American Beauty roses in tall silver baskets.

Serving the guests during the afternoon, were Miss Minnie Shannon and Mrs. Geo Frey with Mrs. Philip Sippel and Mrs. Ole Olga Aldous assisting as servitours.

Assisting in the kitchen were Mrs. Herb Moffat and Mrs. Otto Arps poured tea assisted by Mrs. Roy Shanklin, Mrs. Harry Shannon and Mrs. Philip Sippel.

The happy couple received many beautiful gifts.

Mr. and Mrs. Fiona Sippel, who were best man and bridesmaid for Mr. and Mrs. Aldous, were present for the occasion.

Agric. Service Board

There is every evidence of a reasonably good till of weed without any frosts.

Grain and other livestock can now be sprayed with DDT to eliminate flies, lice, etc. By so doing milk production may be increased as much as 25 per cent and beef production 15 lb. per animal daily.

In the event of trying to carry very young pigs on one's milk, the following mixture is recommended: Three pints whole milk, one pint cream, one tablespoonful of cod liver oil and ¼ teaspoon salt. The reason for adding the above mentioned ingredients is because one's milk contains less protein and less fat than cow's milk.

If your pottery house becomes infested with mice, use the following spray: 2 oz. Nicotine Sulphate, 2 oz. Cresole, ½ lb Soft Soap, dissolved in four gallons of water.

SPEEDWAY

You auto racers running at a great rate across the crooked bar. "Why are we running so fast?" asked one.

"Don't you see—it says 'Two curves ahead here'."

Men can only learn at first or their humility will be theirs.

COOLING REMEDIES

To keep cool, health authorities advise light weight and loose clothing, particularly around the neck. To compensate the body for its natural loss of water through perspiration, they prescribe small drinks of water, at frequent intervals.

Second debate, the doctors tell us, will only cause greater misery if taken in excess. To take replace the salt lost to the body through perspiration, and to do it as possible best manner, it is suggested that Canadians take a little apple cider vinegar, two or three a day, with their glass of water. They'll feel cooler then, too.

« Recipes for Milady »

The problem today is not "what shall I have for dinner" but "which vegetables or how many shall I cook". This is the time when every plant seems to be in it's peak of growth. The early vegetables are still producing and some are beginning to develop.

Fresh vegetables are deficient in their variety of color and texture if simply boiled and served with a little butter, but the same vegetable seems entirely new if cooked in a variety of ways.

The delicate texture of peas and carrots is all very well but lacks originality. If these two vegetables are served together why not have the carrots whole and peas served over them or if the whole or sliced carrots are sprinkled with chopped chives and the peas served in a sauce, the result is more interesting.

For cooking most of the summer vegetables a small amount of water in a closely covered pan is recommended and of course the vegetables should be cooked until just tender but they should retain a little of their fresh crispness.

The home economists of the Dominion Department of Agriculture suggest several unusual ways to serve summer vegetables.

If you new potatoes, hot and buttered are sprinkled with freshly chopped mint leaves it adds tempting mint sauce to serve with the roast of lamb and they are especially good too.

R E S

HOT STRING-BEAN SALAD BOWL

1½ lbs. string beans, cut up (4 cups cooked)
2 slices bacon, diced
2 minced green onions
½ tablespoon cider vinegar
½ teaspoon pepper
1 teaspoon salt
1 teaspoon sugar
1 teaspoon dry mustard
1 large bowl lettuce
4 hot hard-cooked eggs, sliced

Cook beans until tender, drain. Saute bacon until crisp. Combine onions, vinegar, pepper, sugar, salt and mustard. Cut up greens in bowl; top with hot beans and eggs. Pour seasoned bacon and fat beans with fat over all. Toss well. Serve 4.

R E S

MACARONI AND VEGETABLE DINNER

½ package elbow macaroni (1½ cups)
2 tablespoons fat
½ cup fine dry bread crumbs
½ cup fat
1/3 cup flour
2½ cups milk
1 teaspoon salt
¼ teaspoon pepper
2 cups
1 cup vinegar
1 teaspoon mustard
6 whole carrots
1 cup cooked green peas
2 cups cooked butter beans

Cook macaroni in boiling salted water until tender, drain. Melt 2 tablespoons fat, add bread crumbs and brown. Add cooked macaroni and mix well. Keep hot. Melt ½ cup fat in top of double boiler, blend in flour, add milk, salt and pepper. Cook stirring constantly, until it thickens. Beat eggs, vinegar and mustard with some of the hot mixture, return to double boiler and cook 2 minutes Arrange vegetables around macaroni on a serving platter, pour sauce over macaroni Six servings

R E S

STUFFED VEGETABLE MARROW

Cut a small marrow in half lengthwise and remove seeds Place marrow halves on a greased baking sheet and fill with the following mixture

2 cups soft stale bread crumbs
1 small onion
½ teaspoon salt
½ teaspoon pepper
½ teaspoon poultry seasoning
2 tablespoons chopped parsley
2 tablespoons melted fat

Bake for 1 hour in a moderate oven, 350 degrees F. Six servings.

R E S

CANNING

When canning fruits by the Cold Pack method, for each quart sealed or allow ½ to 1 cup syrup for such fruits as raspberries, strawberries, gooseberries, cherries and peaches; 1½ to 2 cups syrup for such fruits as apricots, apples, pears, rhubarb. When canning fruit by the Hot Pack method, use the minimum amounts of syrup suggested for Cold Pack

Look what's new in the Goodwins' garden!

Mr. Goodwin's shiny new aluminum wheelbarrow is the envy of the neighborhood. Junior is so proud of a garnish of his aluminum watches. Mrs. Goodwin dotes on her new aluminum trowel . . . and her smart new garden chairs, dining on lunchtime in the shade.
Yes, aluminum is a natural in the garden—so light to handle, so practically rustproof, so enduring. Little wonder it is finding a lot of interesting new uses—in autos and houses, businesses and hobbies . . . Little wonder the Goodwins' neighbours are determined that their own aluminum garden tools are going to be aluminum, too.

EVERYBODY'S BUSINESS

by Don Graham

Invariably, the man who is most eager to learn succeeds most rapidly.

Obviously, then, it is advisable to use all available means of learning more about our jobs.

Experience is the greatest teacher. Books and lectures are a great help. But few realize how much we can learn by observing and talking to people.

The people who can be of most value to us in this way are those who have made, or are making, their mark in this world. From their ideas, successes and methods valuable information can be gleaned. It is usually easy, I find, to get these people to express their views when you approach them intelligently.

Nor should anyone feel that they are humbling themselves by seeking to learn from others. No one can know all the answers.

But those who know most are usually those who are always eager to learn and add to their store of knowledge.

. . .

Over 4,000,000 Canadians have insured the Life Insurance they provide security for themselves and their families. And because no other form of investment can offer such a sound, the number of life insurance policyholders grows, greater yearly.

The Answer to Crisis

In a recent column the Associated Press foreign affairs analyst, Dewitt Mackenzie wrote about "a widespread crusade in Europe to stimulate rehabilitation of moral and spiritual values" He made reference to the World Assembly of Moral Re-Armament which opened at Caux, Switzerland recently.

In the opening address of this assembly, Dr Frank Buchman made some remarks that substantiate what Dewitt Mackenzie was trying about:

"All the world wants the answer. We have reached the moment when, unless we find the answer and bring it quickly to the world, not just one nation but all nations will be overwhelmed Nations desire the fruits of the answer without having the answer The problem is not just the iron curtain, which separates nation from nation, but the steely selfishness that separates man from man and all men from the government of God When men listen to God and obey, steel and iron melt away."

Dr. Buchman pointed out that today men everywhere are waking up to the fact that, "Organized materialism has penetrated every nation, infiltrated their schools and industries, has invaded their offices and government departments, influenced their famines, colleges and even themselves

"Moral Re-armament," he said "has been answering pigs with plan, idea with idea, militant godless materialism with militant inspired ideology for democracy. Now it girdles the globe Here at Caux we see this force in action. It is a force in the war of ideas with training and experience, which under God can equip the statesmen and the industry man with an ideology necessary to remake nations new"

Citing the case of coal, Dr Buchman states that, while British Cabinet Ministers were deploring the lessening of national production, miners who had been trained at Caux and in the coalfields where the MRA dramas, "The Forgotten Factor" had been shown, those won a different picture. In one mine, he said, the six day target was reached in four and a half days In another, the target was passed so often that the miners asked for it to be raised. In yet another, absenteeism over a period of a year, had dropped from twenty per cent to three per cent

"This is not a theory," he concluded, "but a way of life, tested and tried in every circumstance. It is a force that has the power to save and recreate a society on the brink of collapse. Industry with this force of MRA at its head produces enough for the needs of all. Homes with this force in everyday life will secure the moral preparation from whom Armies with this force will give new standards of moral training to their nations. Cabinets and diplomats with this force will be totally effective for they will have the power to turn their enemies into friends Foreign Service arise from the sleep and defeat of apathy and disillusion. This is the only possible hope for world reconstruction."

TAN AND FRECKLES

Artificial measures for hastening fading of tan and freckles are various and may be hazardous, according to health experts.

There is no safe way of removing them prematurely, because they consist of coloring matter, or pigment, which forms a part of the deeper layers of the skin. Only time can erase them, as nature takes its course.

If you have had a becoming tan for the summer beach, you mustn't expect to show a creamy white skin at the first dance in the fall, say the authorities.

World of Wheat

By H. G. L. STRANGE

Director "The Crop Testing Plan"

AN INSIGHTFUL BIRDIE

The bread and flour used by the twelve million people of Canada, rich and poor alike is cheap because it is subsidized Millers buy wheat around 70 cents a bushel a year—at 77½ cents a bushel instead of at the Wheat Board market price of $2.50 The subsidy is in two parts (one part, or 77½ cents a bushel (the difference between $1.50 and $2.50) is paid for by prairie wheat growers only It is announced that that part of the subsidy paid by the farmers of 77½ will be withdrawn, so that soon millers will have to pay $1.55 for wheat for flour and bread consumption in Canada Nothing has been said, however, about the removal of the much greater subsidy of $2.50 a bushel now paid alone by our prairie farmers To continue this subsidy is, it seems to me, foolish; a very wrong and unjust thing, but also quite unnecessary There would seem to be no reason why the well-off Canadian people including the very richest, should have their bread subsidized by prairie wheat growers, thousands of whom this year will suffer from very poor crops

R E S

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

One third of Belgium's winter wheat area—approximately 250,000 acres—has been ploughed up and resown with spring wheat, barley or beetroot Prospects on the remaining two thirds of the area are fair Britain has apparently been unsuccessful in obtaining food shipments from Russia this year, and only vague offers of grains for shipment during the next three years were obtained.

The United States Department of Agriculture now estimates that 1947 wheat crop at 1,455 million bushels, some 25 million above the June estimates—Morocco has been asked to export some 1,333,000 bushels of barley to France during July and August

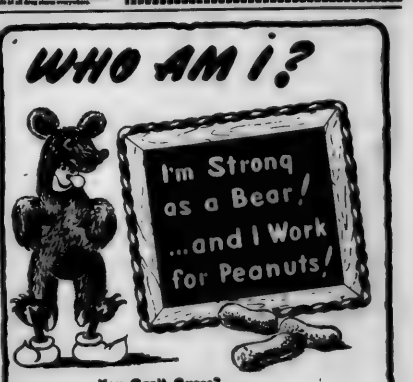
WHO AM I?



You Can't Guess? . . .
Why I'm Reddy Kilowatt
Yes, I'm the little man who is always there - - - ready and willing to do anything you can think up for me. Anything from lighting your home, cleaning your rugs, and cooking your food to pumping water and grinding grain on the farm.
As for my wages, I'm sure you'll agree that what I get paid for doing all these things is pennies compared to most other items on the family budget.
But I'm certainly not complaining. I like to work for you and take as many of the back-breaking, bothersome chores off your shoulders. You bet I'm always "Ready" and willing!
CALGARY POWER LTD
• SERVING ALBERTA •

Partridge Hill

Visitors in the district over the past two weeks included Mr. and Mrs. Bob Holcroft and family, Mr. and Mrs. George Wine and family, Mrs. Flintoff all of Edmonton and Mrs. Hollie Allen of Wheatcroft at the home of Mr. and Mrs. George Chichester.

Mrs. King Powell and Mr. and Mrs. Lloyd Powell and family of Edmonton at the home of Mr. and Mrs. Jos Smith. Mrs. Harry Hanley and children at the home of Mr. and Mrs. V. R. Lawrence, Mr. and Mrs. Bob Allen of Edmonton and Mrs. Merrie Allen and children at the home of grandpa Ostoldstrom.

June Allen and Joan Krahn are attending the girl's camp at Cooking Lake this week.

Mr. and Mrs. E. Hall and family motored to Banff last week, returning home Sunday evening.

Annie Allen of the University Girls' will attended the Alumni Session at the Vermilion School of Agriculture last week-end. They were accompanied by Margaret Allen, Garth and David Ostoldstrom (the Glen and Sheila Allen) and Mrs. Nor. The young people report a very fine time, marred only by the heavy rain through which they journeyed home Sunday evening.

The Partridge Hill girls fast ball team defeated the Bremner girls at Josephburg last Wednesday and played the Lamont team at Lamont on Wednesday.

Miss Irene Hall of Edmonton is spending her vacation at the home of her aunt, Mrs. Anne Ostoldstrom.

Mr. and Mrs. George Ostoldstrom and Mr. and Mrs. Wilmott Allen motored to Vermilion last Friday where they visited Mr and Mrs. Bert Ostoldstrom as well as attending the banquet and dance at the Vermilion School of Agriculture on Friday evening.

The grade 7 and 8 girls are wearing smiles again. All were successful in passing their departmental exams. We extend congratulations to them and their teacher.

Stanley Kober returned home last week from the Lamont Hospital where he underwent an appendix operation.

Mr. and Mrs. Art Frey and Mr. and Mrs. Gof Frey attended the Lamont Fair held Tuesday and Wednesday of this week.

Mrs. Gus Frey exhibited crocheting and knitting and won 1st for a crocheted sweater and two 2nds in knitting, for a bonnet and socks.

Mr. Dave Cranston of Edmonton is holidaying with his daughter and son-in-law, Mr. and Mrs. C. I. Allen.

Miss Mildred Hanson of Edmonton was a last week-end visitor at the home of her sister, Mrs. Ralph Lawrence.

FIELD DAY HELD

A community gathering was held at Partridge Hill Hall on Tuesday, August 5th which consisted of a Soil Conservation Adjustment demonstration by S. C. Acheson, Agricultural Engineer, School of Agriculture, Vermilion.

The Partridge Hill Junior Wheat Club also held its Annual Field day, and plots previously seeded on the farms of Mr. Frank Krahn were compared and discussed in detail by R. J. Whitbread, District Agriculturist, Edmonton.

Mrs. Frank Krahn and Mrs. Morgan Allen were in charge of the W.A. hot dog stand which was well patronized and much appreciated by the 60 odd persons at the Field Day.

Miss C. McIntyre, Home Economist at the Olds School of Agriculture addressed the ladies on canning, cooking and sewing.

At 8:30 some 150 persons gathered at the hall where the National Film Board gave one of their educational and entertaining programs. At this meeting an address was given by Mr. Fred McCalla, member of the Strathcona Agricultural Service Board on the weed situation and the desirability of farmers co-operating to more effectively control this menace. Mr. Montgomery Ward also addressed the meeting and the Vermilion School of Agriculture Band which had been made on the frontage of Mr. Krahn's.

On behalf of the M.D. Council he intimated that the work is done without charge, the farmer merely starting the fence back and cutting off the trees in the fence line.

The program of grazing down the Strathcona district is carried by the Council through the Field Supervisor Mr. Nielsen.

The Chairman, Mr. Wilmott Allen expressed thanks to the visitors who had made the affair so enjoyable and instructive, and [illegible] the Partridge Hall [illegible] Mrs. Krahn [illegible] Mrs. Morgan Allen [illegible] Mrs. Ralph Lawrence [illegible] Mrs. Bert Ostoldstrom [illegible] Mrs. Gus Frey [illegible] Mrs. Art Frey [illegible] Mrs. Gof Frey [illegible] Mrs. Dave Cranston [illegible] Mrs. Nor [illegible] Mrs. Ostoldstrom [illegible] Mrs. Bert Ostoldstrom [illegible] Mrs. Ostoldstrom [illegible] Mrs. Ostoldstrom [illegible] Mrs.

Do You Know The Difference?

The farmer is constantly having to distinguish between friends and foes, but when it comes two closely resemble each other and the advantage of detail is needed in addition to the double wheeler to kill or to let alone.

The Field Bindweed, one of the most serious weeds with which Alberta farmers have to contend, can be readily mistaken for another harmless and rather attractive wild flower—the Hedge Bindweed. Bindweed roots and stems are considerable pasture. It is as well to be sure that it is the Field Bindweed you are classifying before going to the expense and trouble of adopting the remedies.

Once you know the difference between these two plants you will not be likely to mistake one for the other. Both Field Bindweed and Hedge Bindweed have the true "morning glory" flower, but the flowers of the Field Bindweed (the bad one) is smaller than that of the Hedge Bindweed. The best way to tell the difference between these two is by the position of two small leaflets or bracts that grow on the flower stalk just below the flower. On the Field Bindweed these bracts are very small and are about a quarter to half an inch below the flower. On Hedge Bindweed they are much larger. They grow close to the flower and cover the lower part of the flower.

If you find any wild "morning glory" on your farm and are unable to tell whether it is the bad or harmless kind, get in touch with your Field Supervisor or District Agriculturist and have him show you the difference. If you find that it is Field Bindweed, take steps to eradicate it right away.

« Recipes for Milady »

Appetites beg on the approach. more continues to hover around its peak day after day.

There is some difference of opinion as to the efficacy of hot and cool drinks to make one feel cooler in hot weather, but the majority always favors the cold.

Milk in food as well as beverage and cold drinks with a milk base and fruit, spice or chocolate flavor are an excellent way to make sure that every member of the family gets his daily portion of milk. For those who are not fond of plain milk, such drinks are an excellent way of forming the milk habit.

The mild acidity of fruit drinks seems to quench thirst and also add to the general feeling of coolness.

The Home Economists of the Consumer Section, Dominion Department of Agriculture and with the Extension Department of Agriculture, Ottawa, have collected many tempting recipes for cold drinks. Here are a few:

COLD FAKE TOMATOES

Choose firm, ripe tomatoes. Set aside the largest or most even ones for later. Blanch tomatoes 15 to 60 seconds to loosen skins. Remove stem end and peel. Push in pieces, but remove or re-place in cans, adding 1 teaspoon salt per quart cooker or fill-cream the can. Cover with hot tomato juice made by cooking, in a covered pan for 5 minutes, the irregular, broken or very large pieces. Vessels have had stem ends removed and been cut in pieces.) pressing through a sieve or cutter.

Leave ½ inch headspace in glass cookers and ½ inch in the cans. Adjust rubber rings and lids. Process in boiling water bath 25 minutes for pints and 30-minutes for cans and 35 minutes for quarts and 35-minutes for cans.

Because of their acidity, tomatoes may be processed in an oven which has an automatic heat control. Process pints at 275 degrees F., for 35 minutes and quarts for 45 minutes.

* * *

TOMATO JUICE

Wash tomatoes, remove cores, but do not peel, cut tomatoes in pieces. Bring to boil and boil in covered pan 5 minutes. Press through sieve or puree. Bring juice to boiling point. Pour into containers leaving ½ inch headspace in glass cookers and ½ inch in plain tin cans. Add 1 teaspoon salt per quart or 2½-ounce tin can. Adjust rubber rings and lids. Process in boiling water bath for 15 minutes for pints, quarts, 15 and 20-minutes for cans, pints and quarts only, in an oven with automatic heat control for 25 minutes.

RASPBERRY SYRUP

2 quarts raspberries
1 cup water
2 cups sugar

Crush raspberries, add water and simmer 10 minutes in covered pan, stirring through sieve crush. Dissolve sugar in warm syrup. Store in a cool place. Yields about 1 cups syrup.

To serve: Place ¼ cup syrup in glass, add ½ cup of cold water.

Canning Tomatoes

Tomatoes are one of the easiest foods to can successfully, either whole or as juice and their bright color and fresh flavor add interest to many hot dishes during winter months. In addition, canned tomatoes make a nice vegetable served cold or hot, spiced or plain and tomato juice rates high both in palatability and a source of vitamin C.

The following directions for canning tomatoes and juice are recommended by the home economists of the Consumer Section, Dominion Department of Agriculture.

COLD PACK TOMATOES

Choose firm, ripe tomatoes. Set aside the largest or most even ones for later. Blanch tomatoes 15 to 60 seconds to loosen skins. Remove stem end and peel. Push in pieces, but remove or re-place in cans, adding 1 teaspoon salt per quart cooker or fill-cream the can. Cover with hot tomato juice made by cooking, in a covered pan for 5 minutes, the irregular, broken or very large pieces. (Vessels have had stem ends removed and been cut in pieces.) pressing through a sieve or cutter.

Leave ½ inch headspace in glass cookers and ½ inch in the cans. Adjust rubber rings and lids. Process in boiling water bath 25 minutes for pints and 30-minutes for cans and 35 minutes for quarts and 35-minutes for cans.

Because of their acidity, tomatoes may be processed in an oven which has an automatic heat control. Process pints at 275 degrees F., for 35 minutes and quarts for 45 minutes.

* * *

SPICED HONEY MILK

2 teaspoons honey
½ cup milk
Dash of cinnamon or clove
Stir flavoring and honey. Add milk and beat with egg beater. Use serving.

PULLEN HEATERS will Make your household tasks—Easier to one for every purpose—Try them.

The New Industrial Revolution

The world is on the threshold of a new Industrial Revolution.

The first was based on man's discovery that machines could serve him But soon he was called to serve the machine and become its slave Where that happened, the revolution was soul-destroying. Its end was economic breakdown and the atom bomb

In the new Industrial Revolution people are more important than things. Men regain their freedom. This revolution is soul-saving. It releases the full creativeness of all engaged in industry It sets men free to give their best and will build the world that everyone is looking for

There is a bigger chance in industry than between free enterprise and state control. The race battle line is between those who trust people as a means to a material end and those to whom the material and spiritual needs of people are the first concern. It is between those who fight for their own way, whatever the cost to others, and those who fight for the right way, whatever the cost to themselves.

The first Industrial Revolution was made possible by science, human skill and finance. The second can only come by change —change in the human heart. It may call for as much courage in the heart of the capitalist as in the heart of the communist. It may not call for so much change in the heart of the capitalist as in the heart of the communist. It may call for a sizable investment in your John Deere equipment. Don't jeopardize its efficiency by turning the reconditioning jobs over to "just anyone". Let us keep your machines in A-1 running order. Call Higginson, our expert mechanic, with modern shop equipment knows what to do and how to do it — and he'll save you money in the long run. Come in the next time you are in town and let's talk it over.

World of Wheat

By R. G. L. STRANGE
Director "The Crop Testing Plan"

HIGHER PRICES FOR WHEAT

The Hon. Mr. McKinnon recently announced in the House of Commons, that the price to Britain of $1.55 for wheat averaged 77 cents a bushel for the first year than the world price, which means that prairie farmers are short of about 125 million dollars cash on the 1946 crop The Hon. Mr Gardiner, however, states recently that he felt sure Britain would make up this 125 million dollars by paying later such a price over and above the world price that would repay our farmers for the 125 million dollars, and also for what they may be short on this 1947 crop Mr Gardiner also said that the Wheat Board has now on hand to the credit of farmers a surplus of about 150 million dollars cash

In these circumstances, would it not be proper and workable for the Government immediately to increase the price of wheat? Why, not square matters right away in March and still much more to come. does the Government need to wait until the farmers' money is spent and still much more to come. does the Government need to wait until the farmers' money is spent before it is reached as they are now doing? The Government now holds a large surplus of cash belonging to farmers the farmers need it Why not distribute at least 20 cents a bushel on the 1945 and 1946 crops now?

* * *

BULLISH AND BEARISH

Wheat production in Greece is estimated at 18,000,000 bushels, a decline of 4% per cent from the 1946 harvest of 22,500,000 bushels

France's wheat crop for this year, according to recent reports, is expected to be the smallest since 1855.

Wheat acreage in Australia this year totalled 16,500,000 acres, compared with an average of 13,500,000 acres a year before the war, and an average of 9,250,000 acres during the war years.

The acreage sown to wheat in Australia this year totalled 16,500,000 compared with an average of 13,500,000 acres a year before the war, and an average of 9,250,000 acres during the war years.

SPRAYING BY AIRPLANE

An interesting example of large-scale spraying of insecticide by airplane is being undertaken in the Idaho panhandle over an area of 227,000 acres of forest land to prevent the destruction of timber by tussock moths. Originally planned to take 40 days it is expected the entire job can now be done in a much shorter time The area under treatment represents somewhat more than a quarter of the land surface of Prince Edward Island.

The acreage sown to wheat in Australia this year totalled 16,500,000 compared with an average of 13,500,000 acres a year before the war, and an average of 9,250,000 acres during the war years.

New T.B. Weapon

A new weapon against tuberculosis may have been found in long yellow crystals extracted from a lichen popularly known as California Spanish moss.

Announcement of the discovery is made by Dr. Alfred Marshall in Public Health Reports, official publication of the U.S. Public Health Service in Washington. Dr. Marshall's studies were made under the federal health service's tuberculosis control division at the Hopkins Marine Station and the Rockefeller Institute for Medical Research.

The material "appears to retard the progress of the disease" in guinea pigs, Dr. Marshall cautioned. Its status in human tuberculosis is not stated and probably will not be known without further study.

SUMMER APPETITES

If Canadians find the appetite a bit jaded in summer months, authorities on healthful feeding offer ice cream as ideal for whipping up the interest of the palate.

Ice cream is nutritious as well as palatable. It includes, in addition to a mixture of cream and other milk products, such things as starch, sugar, gelatin, gum arabic, flavoring extracts and eggs.

As a further inducement to a meal, nutrients suggest some such delicious "topping" as fresh strawberries on the ice cream.

Taking your hands off the other fellow doesn't mean washing your hands of him.

Weather Forecasting in Canada

Agriculture more directly dependent upon the weather than any other industry With respect to Agriculture particularly, the impact of variation in the weather is felt most severely in areas where the factors limiting production, rainfall and temperature for an ample, vary widely from the average This is the case in Alberta where combinations of extreme weather are not infrequently experienced

For that reason we are interested in progressing being made in long-time weather forecasting Here ever, according to the Financial Post, we cannot look for anything better than a 48 hour forecast for several years at least.

* * *

THE ARCTIC BLIND SPOT

The weather forecaster is not satisfied either but he is doing what he can, about the situation His progress is hampered by the lack of proper and workable "blind spot" in the Arctic, where only six weather stations cover half a million square miles in order to forecast our weather he needs to know what is happening up there

To illustrate, an equivalent area of Canada and the United States is served by 164 stations, while the reports of the 12 stations in the two countries are used in compiling the forecasts available at present

* * *

DEVELOPMENT IS PROCEEDING

In the meantime, Canada's 4 million a year weather man is giving pretty good service.

His forecast is for twice as long as it was before the war, he tells the weather dope, to more specific areas, and nine times out of ten he is right in most things.

Canada's public weather service has taken a great leap ahead from the pre-war days. Then, two offices served the country: one in Vancouver for British Columbia and the other in Toronto for the rest of Canada, employing a total of five chief meteorologists.

Today there are seven main offices across the dominion serving 100 regions, giving 400 forecasts a day and employing 65 meteorologists.

* * *

EXTENSION PLANNED UNDER DIFFICULTY

Nine more stations are planned for the Arctic in the next three years but this will still leave us far behind in comparison with our polar neighbors, the Russians (who have 150 Arctic stations) and the Scandinavians (50).

Which brings us to another reason why we cannot expect "weather a month ahead" for a while. It is the shortage of skilled scientific personnel necessary to man new stations.

On the lack of specialists these facts are noted. High qualifications are demanded but the meteorologists gets less in pay than a bricklayer.

* * *

Mrs. Betty Thorne is expected to arrive home Saturday from Banff where she has been taking a Sunwell course in Lomberjack at the Banff School of Fine Arts.

* * *

Bright Future Assured For Students in Nursing

With the publication of High School examination results, students are looking ahead to their career. Nursing is a profession that is interesting, varied and full of opportunity. Nurses are well paid and are more greatly needed now than ever before. Several small hospitals in Alberta are almost desperate for graduate registered nurses. The proposed health insurance development throughout Canada means an enormous amount of employment after graduation. The entire employment outlook for nurses is very bright and the opportunity to serve others unlimited.

There are 11 hospitals in Alberta that have Schools of Nursing. In order to be admitted as a nurse you must meet certain educational requirements. Specific information regarding an individual hospital must be obtained from the Superintendent of Nurses of that hospital.

All High School Principals, High School Inspectors and District Public Health Nurses have been provided with a new pamphlet, information pamphlet, called "Nursing a Profession" by the Alberta Association of Registered Nurses.

Obtained on Page Four

Legion Picnic Sunday Declared Successful

Members of the Fort Saskatchewan Branch, Canadian Legion, their wives and families, numbering over fifty, held a very enjoyable outing at Borden Park last Sunday.

Transportation was provided by cars and trucks and upon arriving at the park, races for young and old were held with the following results:

Children up to 8 — Jeannette Kandt, Baby Buchanan, Norma Bacon.

Girls 8 to 7 — E. Buchanan, Elaine Staples, Sharon Staples.

Boys 8 to 7 — Kingsley Bacon, Carol Rare, Lloyd Jenkins

Boys and Girls, 7 to 9 — Tommy Bacon, Kingsley Bacon, Shaun Staples

Girls, 9 to 11 — Chris Gray, Evelene Watson

Boys, 9 to 11 Tommy Bacon, Roger Kandt, Allan Chamblin

Girls Open — Chris Gray, Florie Gray, E. Buchanan

Boys Open — George Gray, Jack Brenton, Tommy Bacon

Women's Open — Mrs. Henry Lamoureux, Mrs. Leslie Gordon Mrs Hugh Staples

Men's Open — Alex Gray, Tom Bloke, Henry Lamoureux

Many of these prizes were later went swimming

A very satisfying lunch was then served by the ladies who provided the sandwiches and cake. Coffee, ice cream and salad was provided by the Legion

Later, all walked around to see the animals before departing for home after a successful day.

East Edmonton

Mrs. W. R. Mendero-n, who has been visiting her mother, Mrs. J. Bishop, extends from a holiday at Victoria, has returned to her home in Toronto.

* * *

Mrs. Bishop has also had as her guest, her daughter Beatrice, who with her husband T. C. Hamblington and their small son Darryl, motored from Debarsine, Manitoba for a holiday in Edmonton.

* * *

The community will be glad to hear that Bob Ritchie is progressing nicely after a very serious operation which he underwent a month ago. He expects to remain in hospital a few months yet, and will not be able to return to his garage until spring. We all hope he continues to progress favorably.

* * *

The monthly meeting of the Willing Workers Club was held in the hall. Only a small attendance of members was present as everyone was busy canning.

The meeting was carried on by the vice president Mrs. Scuffield. General business was discussed.

The September meeting will be held in the hall with Mrs. R. Bishop and Mrs. Jackman as hostesses on the 18th.

* * *

Mr. and Mrs. Bob Ritchie and family take this opportunity to thank their many friends and neighbors in the district for the kindness and deeds shown them during Bob's illness.

RR 3 SOUTH EDMONTON

Rev. and Mrs. Edmund Werner, Rudel and wife and Raymond Spahn from Puyallup, Washington, U.S.A., were visitors at the home of Mr. and Mrs. C. Werner, RR 3 South Edmonton for several days recently.

The visitors arrived here two days after the hail hail storm which caused considerable damage to the crops, gardens and resulted in broken windows. This was new to them as they had not seen damage caused by hail before.

On Thursday they left for Brudenheim to visit their aged uncle, Gus Werner, their brother Werner Elk Island Park and other friends. They left later for their home in Puyallup, Washington.

REFINED FOODS

The modern taste for refined foods is deplored by those who make a specialty of nutrition. They say that the nutritive worth of such items as farina, corn meal, cornmeal, white rice, cornflakes and puffed cereals is much reduced by the laborious milling and heat-treatment to which these foods are subjected in the processing, even if there is little change in their caloric value.

Only half of all homes in Canada have a private bath or shower

White Empress Back

When the passenger line Empress of Canada sailed under Jacques Cartier Bridge carrying the St Lawrence at Montreal on July 22, regular passenger service between Canada and the United Kingdom, which was disrupted by the war, was resumed. The day following the Empress of Canada's arrival, Captain Owen Gold, master of the ship (on above) on his bridge as he brought the ship up the river), was interviewed at a luncheon held aboard and attended by leaders of civic, church and commerce (top picture). W. M. Neal, the chairman and president of the Canadian Pacific Railway Company and chairman of Canadian Pacific Steamships, is seen at the microphone as he steered the company's first transition to rebuild its ocean fleet and to continue to be a vital link between Canada, the British Commonwealth and other nations of the world Rt. Hon. C. D. Howe, minister of reconstruction, who proposed the toast to the ship, paid tribute to the war record of the line and its personnel, 85 of whom were decorated for gallantry at sea.

New Game Laws Issued

The Minister of Mines and Resources, Ottawa, has just issued the regulations regarding Migratory Birds for the current year.

A summary of the Regulations as they apply to Alberta follows:

Throughout the Province of Alberta from one-half hour before sunrise September 20 to one-half hour after sunset November 11, both dates inclusive, the season is open on Wilson's Snipe, Ducks, Geese (other than Ross's Geese), Rails and Coots.

There is a close season throughout the year on Elder Ducks, Wood Ducks, Ross's Geese, Cranes, Swans, all shore birds except Wilson's Snipe, and all migratory game birds not mentioned herein.

Migratory game birds killed during the open season may be possessed in Alberta at any time, but the onus of proof that birds possessed were lawfully killed by the person having the birds in possession.

BAG LIMITS

In any day: Ducks, 7; Geese, 5; Coots and Rails, 10; Wilson's Snipe, 5.

In any open season: Ducks, 50; Geese, 25; Rails and Coots, 50; Wilson's Snipe, 50.

No one shall have in his possession at any time more than 14 Ducks, or 15 Geese, or 20 Wilson's Snipe, or 40 Coots and Rails.

No person participating in automatic guns, night-lights, live decoys, etc. are effective as in former years.

The shooting of migratory game birds earlier than one-half hour before sunrise or later than one-half hour after sunset is prohibited.

The buying, selling or attempting to sell any goods worth one hundred yards of the edge of the waters of the North Saskatchewan, Fort Deer, Beaver or South Saskatchewan Rivers is prohibited.

The penalty for violation of the migratory bird laws is a fine of not more than Three Hundred Dollars and not less than Ten Dollars, or imprisonment for a term not exceeding six months, or both fine and imprisonment.

SEEN IN THE NEWS!

Couple Wed Thurs. In Morning Ceremony

In a morning ceremony last Thursday in Our Lady of the Angels Church, Miss Alice Matilda Stuart, who recently arrived from Scotland, became the bride of Mr. Walter Tomaszewski of Fort Saskatchewan. Rev. Father Cuthbert Seward performed the ceremony.

Given in marriage by Mr. Tomaszewski, the groom's father, the bride wore a floor length gown of white satin featuring a sweetheart neckline and bustle. Her long trailing veil was held in place by a corset and she carried a bouquet of pink roses tied with satin ribbon to which was attached a silver horseshoe. Her only jewelry was a gold cross.

The Misses Kathleen Marsh, Sophie Tomaszewski, sister of the groom, Elizabeth Resnak and Isabel Tomaszewski, cousins of the groom, were bridesmaids. They wore floor length gowns of Nile Pink, White and Yellow respectively, with wreaths of roses on their heads as they carried bouquets of fresh flowers and baby's breath tied with tancolor ribbon.

Masters Tom Tomaszewski, brother of the groom, Charles Murphy, Fred Hamilton and Leonard LaPage attended the groom

The ladies of the parish sang hymns during the ceremony, followed the ceremony, with Mrs. Leroy and Mr. Goneffe playing the wedding marches.

"I Love You Truly" was played during the signing of the register

After the ceremony the happy couple left for Calmar, Alberta where a reception was held at the home of the groom's parents.

The couple returned to the Fort Monday and are residing in the Pastor Block.

"PENNY-SNATCHERS"

Pickles, potato chips, pretzels, popcorn and candy are among the concessionary food items which nutritionists style "penny-snatchers". There is little return from such purchases in nutritive value, and these concerned with food through adequate dietary urge Canadians to spend their money on good food.

Wye

We all wish Mrs Webb a speedy recovery back to normal health again, and Mr. Bert Sanford, who is out of hospital after a recent operation.

* * *

The Ladies' Aid held at Mrs. McConnell's for the month of August was very well attended. Seven members present.

The business of theirs was held, President, Mrs. McPherson, Secretary Treasurer, Mrs. Gardiner. Other business was discussed. At the close of the meeting a dainty lunch was served by the hostess.

* * *

Mr. Gene Moore has returned to Vancouver after spending two weeks at home

* * *

The members of the Wye Young Women's Club was held at the home of Mrs. Clarence Sanford Seven members were present and business was discussed.

We were happy to have Gertie back so for another meeting. A delightful lunch was served by the hostesses at the close of the evening.

We also enjoyed having our day at the park with Grace, but only wished more of our members could have been there

* * *

Mr. Sam Holland had a few days illness recently, we are glad to report he is steadily improving

* * *

The Goodwill Club will hold the postponed Tea and Apron Sale in the school, on Wednesday, August 27, from 2:30 till 5. All friends and neighbors are invited to come and have a pleasant afternoon. We have made a goodly number of bright print aprons, now is your chance to stock up.

* * *

The ladies of the district entertained at the home of Mrs. John Lang in compliment to Miss Dollie Pozzas a birthday of August 14. Little Miss Shirley Lynn presented the guest of honor with a miscellaneous parcel and a bouquet of Sweet Peas and the Misses Carol Williams and Jane Summers carried in a decorated basket full of useful gifts. Miss Pozzas thanked the ladies in a few words.

Miss Lang contributed a few contests and the evening ended with a delicious lunch served by Mrs. Lang, Mrs. L. Hall, Mrs. Lang, Mrs. T. Purvis and the Misses Irene Summers, Shirlie Holland and Peggie Lang.

* * *

Miss Mabel Geary is visiting her mother for a few days.

* * *

Industry will continue a cool bed for world recession unless new capital is immune a force for world recovery.

SELL WHAT YOU DON'T WANT THROUGH A WANT AD.

Seventy Donors at Mobile Blood Clinic

The Mobile Clinic of the Red Cross arrived last Friday morning at the Fort with its vehicles all prepared with the necessary equipment and well staffed with Red Cross nurses.

The clinic was operated on the Community Hall and was kept busily busy throughout the day About 70 people went through the clinic to give their blood, with most donors giving the full 500cc.

The clinic has already travelled over British Columbia and is at present touring Alberta, after which it will go to Nova Scotia.

Blood bank depots throughout the country will be the means of saving many lives. Blood, if kept at a temperature near freezing, can still be used in a liquid state for a period of many one days, after which, if not used in this form, it can be made into blood plasma which will answer the same purpose

Road Oiling Effective

For the past few weeks residents of the Fort have been enjoying comparative freedom from dust

Through the co-operation of the garages in town, who contributed 15 liter oil oil, it has been possible to oil the main streets and thus eliminate that clouded up floating cloud from dust raised by passing vehicles.

The oiling of these roads has definitely made a difference to the businesses and homes instead of the usual dust on windows and woodwork, they now have a fresher, cleaner appearance.

Good Hope

The Happy Gang dance of last Friday was a complete success. Everyone thoroughly enjoyed themselves dancing to the music of Bob Hare's orchestra until the last waltz was played. We look forward to your continued support in the coming dances. Remember the spirit of these dances is the future.

* * *

Mrs. R. Terrens and family have returned home from a weeks visit with relatives at Hillcrest and Lloydminster, Alberta.

* * *

Bobby Lang of Olds is visiting with his uncle and brother-in-law, Mr. and Mrs. Milton Meyer.

* * *

Mr. Wm. Gadd spent last week holidaying in Edmonton.

* * *

Mr. Cliff Meyer, who has been employed on a trunk driver at Yellowknife, for the past year, is holidaying at his home here.

* * *

Mr. Gerald Meyer, who has been serving with the (unreadable) Regiment in Germany, returned home last Friday. This is Gerald's first visit how since he left about three and one-half years ago.

* * *

Mr. and Mrs. Norman Wiggins and family of Edmonton paid a flying visit to Mrs. Wiggin's mother, Mrs. J. A. Johnstone last Saturday evening.

Josephburg

On Sunday evening the Young People gathered in the church basement for the last regular meeting in August.

Our president being away on holidays, Miss Norma Frey occupied the chair in a very able manner.

Those absent, may note that the regular meetings in future fall on the first Wednesday and the third Sunday of each month.

A few small items of business in connection with recent activities were cleared up. An album for snap shots has been obtained and when completed will tell a picture story of our camp at Elk Island Park.

* * *

Mrs. Ed Lang is visiting her daughter, Mrs. Ed Lang at Edmonton.

* * *

Mrs. Ed Lang, Mrs. Ed Lang, Mrs. T. Purvis and the Misses Irene Summers, Shirlie Holland and Peggie Lang.

* * *

Miss Mabel Geary is visiting her mother for a few days.

* * *

Industry will continue a cool bed for world recession unless new capital is immune a force for world recovery.

M.D. Council Minutes Continued

...pass.

Three appointees were present and after considering their written and verbal arguments, this Board moved its decision as appeals were heard chiefly on compassionate grounds. It was confirmed that the Assessor's valuation on that the appeals would carry their appeals to the Department of Municipal Affairs for the determination of the provision for a definite ruling.

The sittings of the Court being concluded, the business of the meeting was continued.

The Director of Surveys submitted a plan of proposed Local Areas in the Municipal District, which the Calgary Power Company proposed to construct, and asked for the Council's approval en mass. The proposed plan called for electrification of the south portion of the south half of the Municipal District and a small area north and east of Bremner. As the Council had already passed the necessary by-law granting this permission to the company, it accordingly gave its approval to the plan submitted.

By-laws were passed approving the sale of land to Mr. Anderson to M. W. McLean, the N.E. 27-52-21-4 to F. R. Bryden and Block 14 Thurston Heights to James R. Kerr of Edmonton.

The Council also authorized the sale of Block 72, King School Addition to Mr. Cooper of Jones, Edmonton, for a price of $300.00 per acre. The necessary by-law will be passed at the next meeting.

Permission was granted to Mrs. H. Gosling, Ozone, to cut hay on the E½ 4-52-21-4.

An application to rent the N.E. 24-52-21-4 for 1948 was held in abeyance until letter to the year. The Council requested an application in response a number of law in King George Park. As it felt that this area was to be for development when the county ad recovery was concerned, it also declined an offer to sell a number of lots in King Edward Addition. A delegation from the Mill Creek School District was in attendance to request a hall for the use of their neighborhood. It was left to their councillor, Mr. Schlyen, to see what could be done to meet their request.

The Secretary submitted a circular letter from the Department of Municipal Affairs, Province of Alberta, Prairie Farm Assistance Act regarding applications for assistance under the Act, with instructions that all applications must be in by the 15th of September. To be eligible for this assistance, the average yield of wheat in a township must not be more than eight bushels to the acre. As the district has been very unfortunate in obtaining less on account of hail, the Secretary was instructed to have Mr. Stephens, Fish Inspector, make an investigation of the unharvested fields in a manner of convenience to the farmers so that every advantage may be taken of the Act. Nothing to be done by residents of these areas for any assistance afforded by the Act.

The Secretary was instructed to forward a copy of a circular letter received from the Superintendent of Maintenance regarding environment of equipment for the...ment the maximum remaining roads at railway crossings, to all composers of the district. These applications for Old Age Pensions were approved and received.

Recessed.

After considering numerous other minor matters, reading of correspondence and the passing of accounts and orders totalling close to $15,000.00 the meeting adjourned to meet again on the eighth of September.

Saskatchewan's winter wheat crop has been estimated at 42.5 million bushels. The pre-war average wheat production was 140 million bushels.

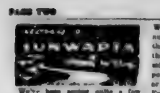
CARD OF THANKS

I wish to thank all of my neighbors and friends in the Josephburg District, who so kindly presented me with a gift which I greatly appreciated, and will treasure very much, as it will be a constant reminder of your good wishes and friendliness.

Mr. Pete Mazurik.



We've been seeing quite a few silver dollars lately. What with tourists covering for the states of Montana and Colorado where silver mining is big business, plus the fact that many Albertans are bringing them back as souvenirs, cash trades are enjoying quite a revival in this part of the country. We even noticed a display recently in a downtown Edmonton window. Several dozen silver dollars were on the window floor, and coupons by were invited to guess the total weight of the money. If we'd kept our own silver dollars acquired recently in the States, we might have had a chance to win the contest.

Weigh our own multiply by the number in the window and—presto! there's the answer. What brings this silver dollar business to our minds of course, is the continued popularity of Canada's silver dollar program. Treasure Trail. Every Friday night at 6:30 the program comes on the air, and before it's over the cost of the silver dollars has received quite a boost. At first, silver dollars might be a good thing to collect for a weekly wage. Might give a gal the idea he had something. Meanwhile, a fellow can listen, and hope to win, on Treasure Trail.

CUT OUT SWEETS

Avoid consuming any of sweets, and concentrate on the toothbrush if you would save your teeth, advise the health authorities.

Science knows that the most effective means of combatting tooth decay is to fill the cavities when they are only pin-point size. A cavity is never too small to fill. There wouldn't be so many cavities as are found in the teeth of modern folk, if people cut down on their consumption of sweets, and used a greater fondness for brushing the teeth.

« Recipes for Milady »

The right pickle adds zest to almost all eggless dishes as well. Pickles are mentioned in Pliny's Writings, as "spiced and preserved cucumbers" and Cleopatra is said to have been very fond of spicy pickles, so the liking for fruit and vegetables preserved in vinegar is not a recently acquired taste.

Pudding does not possess much difficulty if a few rules are observed.

Hollow pickles may result from allowing cucumbers to stand too long after picking. For success in pickling only fresh, good quality vegetables and fruits should be used. Cucumbers and green tomatoes are best if put into brine within twenty-four hours of picking.

Soaking in brine helps to keep the vegetables firm during the succeeding pickling process. Common bay or dairy salt should be used. Salt which has been treated to make it free running causes cloudiness in the brine, hollow and will cause a brownish scum or sediment in jars.

1 cup salt to 2 quarts (10 cups) water makes a good brine. If not strong enough to used pickles will be soft or slippery. If too much salt is used they may shrivel or become tough.

Good quality, clear vinegar is essential if pickles are to have good flavor. Both cider and blended vinegars have good flavor. Pure white spirit vinegar gives better color where light colored vegetables such as onions or cauliflower or pears are used. For uncolored pickles the vinegar is used full strength. If vinegar is too weak the pickles will be soft.

Spices should be used with discretion. If used in excess the bitter flavor may result from too much spice. Whole spices are preferable, but should be used loosely in a bag.

NINE DAY PICKLES

Cut up 5 gallons cucumbers. Plate in brine (1 cup salt to 2 quarts water) to cover, for 3 days.

Put in cold water for 3 days, changing water each day.

Put in fresh vinegar solution, 5 cups water to 1 cup vinegar; add 1 tablespoon alum.

Heat to simmering in this mixture 5 minutes; remove, drain and put in crock.

Boil 2 pints vinegar, 5 cups brown sugar, 1 ounce stick cinnamon, 1 ounce whole cloves, 1 ounce celery seed and pour hot over pickles. Drain, reheat and pour hot over cucumbers each morning for 5 additional mornings. Bottle and seal. Yield: about 5 quarts.

BARBECUE SAUCE

2 quarts tomatoes, cut in pieces
2 large onions, chopped
2 large cloves garlic, chopped
2 tablespoons Worcestershire sauce
1 cup sugar
1 cup vinegar
3 tablespoons horseradish
1 tablespoon salt
1 teaspoon paprika
2 teaspoons dry mustard
Mix all ingredients thoroughly. Simmer over low heat for about 30 minutes. Pour into hot sterilized jars and seal. Yield: about 3 pints.

Canning Peaches

When a quick dessert is called for, there is nothing better than canned fruit. Served plain or with cake or cookies, it is always acceptable. On the other hand if something a little more elaborate is needed, canned fruit forms the base of delicious pies, puddings and sauces.

Following are directions for canning one of the favorite fruits—peaches. Being a cream fruit, peaches need only a thin or moderately thin syrup. This syrup is made in the proportion of 1 cup sugar to 2 cups water (yield 2½ cups syrup), moderately thin syrup 1 cup sugar to 3½ cups water (yield 3 cups syrup).

HOT PACK PEACHES

Blanch peaches 15 to 60 seconds in hot water (sufficient time to loosen skin). Cold dip. Cut in half, remove fruit and pit. Drop peaches into brine or lemon juice solution as cut, quickly as they are prepared, to prevent discoloration. Drain. Add peaches a few at a time, and boil two minutes after syrup returns to boiling. Pack hot in sterilized jars, filling with boiling syrup, leaving ½ inch headspace. Adjust rubbers and lids. Process in the boiling water bath 15 minutes for pints and quarts, or in steam bath 20 minutes for pints, 25 minutes for quarts, and 30 minutes for halves and shapes.

COLD PACK PEACHES

Blanch peaches 15 to 60 seconds in hot water (sufficient time to loosen skin). Cold dip. Cut in half and remove stone and pit. Drop peaches in brine (1 teaspoon salt to 1 quart water) as they are prepared to prevent discoloration.

Drain, leave in halves and pack cups down, or slice and pack in clean hot sealer. Leave ½ inch headspace. Adjust rubbers and lid tops. Process in the boiling water bath 25 minutes for pints and 30 minutes for quarts. Time same as recommended for cold Pack Peaches.

To The Man on The Land

"A Personal Message"

This is a request for greater support for Alberta Pool Elevators in the 1947-48 crop year.

The Alberta Wheat Pool is an Alberta farmers' co-operative organization. It happens that I am chairman of the board of directors. I am a working farmer like yourself. Having been chosen to head this organization, I am doing my best to make it a success.

Every bushel of grain delivered to an Alberta Pool Elevator makes an important contribution to the farm co-operative movement.

The farm co-operative movement is the greatest and most effective effort in self-help.

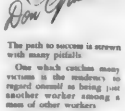
If you are not a patron of Alberta Pool Elevators, I ask you to be one. If at all possible, deliver your grain this season to a Pool elevator. Let us make this Alberta grain co-operative an outstanding success and a monument to the enterprise, solidarity and co-operative spirit of Alberta farmers.

BEN S. PLUMER,
Chairman, Board of Directors,
ALBERTA WHEAT POOL

Alberta Pool Elevators

EVERYBODY'S BUSINESS

by Don Graham



The path to success is strewn with many pitfalls

One which catches many victims is the tendency to regard oneself as being just another worker among a mass of other workers

Such an attitude stifles achievement. Every man should regard himself as an individual with a unique combination of talents and skills. Realizing this he will try to make his own special contribution. Then, and only then, will he begin to labour.

By the same token, it is important to take a positive attitude toward one's job's work. To one man, it is just a matter of so many hours of labor which must be done in order to provide for the necessities of life. To another, each day is an opportunity to prove his skill and value—and so take another step toward his goal.

It won't be long before the second man's attitude pays off in increased income.

* * *

Every increase in income brings with it an opportunity to provide greater financial security through Life Insurance. The wide variety of plans and policies makes it possible to choose one that meets your individual financial requirements.

Excess Profits Tax Act
Standard Profits Claims
NOTICE

Recent amendments to the above Act provide that all standard profits claims must be filed with the Department of National Revenue before 1st September, 1947.

All applications are required to be in such form and contain such information as may be prescribed by the Minister and the Minister may reject an application that is not made in such form or that does not contain such information.

The prescribed forms (E.P.I) are available at all District Income Tax offices of the Dominion Government.

All pertinent information required on the form must be included or attached thereto in schedule form. Tentative or incomplete forms or those filed after 31st August, 1947, will not be accepted.

Mackinac Island

The Moral Re-Armament training centre at Mackinac Island formally opened this week. Many people have come from Washington, New York, the United States and points in Canada. A surrey-pending training centre at Caux-sur-Montreux, in Switzerland, has been in operation for several weeks. Millions of eyes in Europe are turning with hope to Caux. Already 1,000 national leaders and statesmen from 20 countries have arrived.

Moral Re-Armament not only unites all classes but all races. B. K. Mukerjee of India, General Secretary of the 1920 All-India Trade Union Congress—and now acting president of the India Railwaymen's Federation, said he had simply laughed when friends suggested his attending the MRA conference. He wondered now as Indian could fail to see assembly British would outside British who had been rulers of his race for 200 years.

"My hatred and suspicion of the English have been removed within the last two months," he said. "For the first time in my life I felt one of a family at the Assembly with the comments. Caux we have the answer to human problems. Of battle-torn Europe hatred, I am going back to India to fight for MRA and to carry the message from heart to heart throughout the land."

The work at the Coast Assembly recently was given a new goal by Farrar Vickers, British industrial leader and managing director of Vickers (Sth. Lancs.) the men had 45 years experience on the Lords Yard and speaking under auspices of Moral Re-Armament.

"Many, for Armament is the answer to a number of conflicting difficulties, factory conditions, labor unrest, industrial peace or coal production. Moral Re-Armament is the radical change in the individual workman, in you, in me, in the Cabinet Ministry, it becomes a force which will put an end to class warfare and create unity in place of disunity. Moral Re-Armament is the only power which can produce the moral climate in which industrial peace can flourish."

Mr. and Mrs. Consumer!

TEACH THE CHILDREN THE MEANING OF THE WORD

DANGER

Too often a young life is snuffed out by drowning; a child is fatally wounded by firearms; a fire set by little hands playing with matches takes life and property. It is most difficult to remove the causes of accidents, but by intelligent instruction children can be taught that "Danger" is a poor playmate.

SUGGESTED BY
BREWING INDUSTRY OF ALBERTA

Blasting Stumps

One of the easiest and most economical ways of removing stumps is from the use of explosives. The amount of explosive and the conditions in the ground have an important bearing on the effectiveness of the method.

Blasting works most efficiently in moist soil. Dry, gravelly soil is unsatisfactory. Dry, sandy ground, however, when there is a large mass of small fibrous roots interwoven with the stumps, heavy charges can sometimes remove stumps.

Where a single large stump is to be removed, a single charge is usually sufficient. A blasting cap and fuse. Where two or more charges are exploded together (as in stump rows) it is essential to prime them with electric caps since all charges must be fired simultaneously. When the charge consists of several cartridges they should all be placed in the hole together, to prevent earth from getting between them. The primer should be located last or next to last with cap pointing downward or towards the main part of the charge. When several stumps are to be blasted at once, all electric caps should be connected in series and fired with a blasting machine.

For stump blasting purposes, Forcite, Blastol or stumping powder is recommended by Ken Ed, technical service manager of C-I-L's explosives division. He suggests that in dry ground the cartridges should be split and tamped well into the bottom of the holes with a wooden tamping rod. In wet ground stumping powder should not be split but should be loaded intact. Being water resistant, Forcite and Blastol may be split even in wet holes provided the charges are fired reasonably soon after loading. All holes should be steamed to the mouth with sand or earth before firing.

The correct approach to a general rule for loading stumps under the wide range of conditions usually encountered, is to use from one quarter up to one cartridge for each inch of the stump's diameter measured one foot above the ground, never less to Mr. Ed.

W. M. ...
AGENTS OF THE ALBERTA THRESHERMENS ASSOCIATION

Q. At times I have severe tightness of the left lung, upon stooping. What causes this? I am receiving pneumothorax treatment.

A. The pressure within the pleural cavity changes with changing position, and as you stoop you may have your pressure increased sufficiently for you to become conscious of it.

* * *

Q. Would you advise anyone, while taking pneumothorax, to do any kind of manual labor?

A. Yes. People with pneumothorax have been known to perform severe physical labor. Whether or not anyone can do so cannot be determined except by a physician thoroughly familiar with all the facts of relating to the patient and his disease and the labor.

The U.S. Commodity Credit Corporation has been an extensive buyer of wheat on the exchanges of that nation in anticipation of an exportation of 36,710,000 bus. of wheat during the month of Sept.

SMALL!
It Depends Largely on Training
If you are like thousands of other young Canadians today, you'll be looking to the future with all the ambition in the world. To realize that ambition, you will need careful training in all the requisites of modern business.
McTavish Business College in Edmonton offers up-to-date commercial courses, taught by a skilled faculty whose record of past graduates has made a significant impression on employers.

SAFE EXERCISE

No one over 35, and nobody who has been out of training, should undertake strenuous exercise without first having a physical examination.

Medical authorities advise that, unless you have been used to a certain amount of exercise daily, you can't take chances on a sudden upsurge of energy over a week-end or on a vacation.

If exercise leaves you fatigued and depressed, with a rapid heart which does not slow down promptly, and with a trembling feeling in the muscles, you are overdoing it, and should "eat it out" and "slow down." The family doctor should be asked to advise just how much of what exercise would help fit you.

Always Refreshing

That's what everyone says about the drinks at our fountain. They are expertly made, from the best and purest syrups and ice cream, and quickly served. That's what makes the difference between our store and others.

And it's cooler here than most any place else . . . Come in and see!

Holiday in Scotland

A recent interesting feature of the CBC talk series, Our Summer Holiday, was a description by Hon. Ann Coleman, of a trudge-trip she and her two daughters took through Sutherlandshire, Scotland. Mrs. Coleman is pictured above with her daughters, Frances, 8, and Leslie, 5. Our Sunshine Holiday is a series of programs in which women of many countries describe holiday habits in their parts of the world.

Bright Future for Nurses

Continued from Page One

of Registered Nurses, and additional copies are available.

There are two sets of minimum educational requirements for admission to a School of Nursing. Students must have either one of the following:

1. An Alberta High School Graduation Diploma, with not less than 100 points including English 3; Social Studies 3; Chemistry 2; and either Physics 2 or Biology, or an equivalent standing therefor.
2. 27 High School credits, under the regulations of the Alberta Department of Education, which shall include "P" standing or higher in English 1 and 2; one foreign language 1 and 2; Social Studies 1 and 2; Geometry 1; Algebra 1; Health 1 and Physical Education 1; Chemistry 1; Physics 1 or Biology 1, or an equivalent standing therefor.

Students interested in nursing, but who need financial assistance, can apply to Dominion Provincial Student-Aid Grant of $700.00, through the Alberta Association of Registered Nurses, St. Stephen's College, Edmonton.

SILKWORMS FOR ROYAL WEDDING GOWN

It is possible that the material for Princess Elizabeth's wedding gown will be made by Britain's silkworms. At Ledlingston Castle, in Kent, there is a colony of 4,000,000 who have already provided silks for a previous Royal occasion. They made the fabric for the robes worn by the Queen and two Princesses at the Coronation, and cocoons are spinning two miles of thread. Enough raw silk is already set aside for Princess Elizabeth's dress.

Only 1 in 8 Canadian farm homes are equipped with inside running water.

TOOTH TARTAR

Tartar on the teeth is actually lime and other mineral substances from saliva, hardened around decomposing food particles, dead bacteria and dead skin cells from the lining of the mouth. It has a porous structure and an explorer set over it builds up a rough edge against the gums, injuring them by pressure and providing a refuge for germs which can spread further injury.

Last year 60,000 farmers were members of Wheat

School Re-Opening Tuesday, September 2

Tuesday morning, September 2 will be a busy time for boys and girls throughout the district. This is the opening day of school and the hustle and bustle in many homes on the first day will seem unusual after two months holiday.

Three buses, one from Clover Bar, one from Deep Creek and one from Partridge Hall will operate by operating, bringing in High School pupils. It will be their first year in High School for many of these students and it is hoped that they will join with the older students in the activities of the school and help make them a success.

GRADES I and II

Due to lack of accommodation Grades I and II classes will be held in the Union Hall this year.

Workmen have been busy turning the main floor into a class room and installing black boards.

It is hoped that a new school will be erected next year and thus eliminate the necessity of extra accommodation having to be found elsewhere.

The teaching staff of the Fort High and Public School for the coming year is as follows:

Mr. B. Larson, Principal; Mr Ed Rosborough, Vice Principal; Miss P. Gatteridge, Mrs. E. Hollies, Miss M Harrold; Miss V. Lawlor; Miss M Greenhough and Miss F. Robinson.

War Brides Entertained

On Wednesday afternoon the Welcome Home Committee entertained an invitation to the ladies of Fort Saskatchewan and district to the home of Mrs. S. E. Thorne to meet the brides of ex-service men who have recently arrived from Great Britain.

The guests of honor were Mrs. Rod Stewart, Mrs. Wm. Tomaszewski, who were each presented with a cup and saucer.

Tea was poured by Mrs. Earl Phillips and Mrs. R. M. Baron in a setting of beautiful gladioli and asters.

Many called during the afternoon to enjoy a social half hour together.

Partridge Hill

On Monday evening friends and neighbors of Douglas Chrichton met at his home to celebrate with him his 20th birthday.

Rev. and Mrs. Rose were in charge of games and a sing-song of Grandpa's favorite hymns. After which Grandpa reviewed some of the experiences he had during the time spent in a wooden mill. This was followed by a dainty lunch served by Blizabeth Chrichton assisted by his daughter-in-laws. The evening was closed with the singing of "God Be With You Till We Meet Again", followed by a prayer.

Mrs. Hansen and her two daughters, Doris and Verona spent last week with Mr. and Mrs. Ralph Lawrence. On Friday evening before leaving for their home east of Mr. and Mrs. Lawrence was christened by Rev. Rose.

Mrs. Lowell Scott of Kimberly, B.C. was a guest of her mother and father, Mr. and Mrs. E. T. Lawrence.

George Aiken of Red Deer spent his holidays at the home of his parents, Mr and Mrs. C. I. Aiken.

In Minneapolis recently the price of flour from new milled wheat closed from $7.00 a hundred pounds to $6.35.

Around the Town

Mr. and Mrs. J. D. McLean returned home last Friday from Banff and Radium Hot Springs where they have been holidaying for the past three weeks.

Mr. A. B. King left this week for Regina, Saskatchewan, where he will visit for two weeks prior to going to Nelson, Arkansas, to visit his sister Mrs. Brooks who is quite ill. Mrs. Brooks is known here having visited Fort Saskatchewan two years ago

Dr. and Mrs. T. W. E. Henry left last Friday for Penticton, B.C. where they will visit with their son and daughter-in-law.

GRADES I and II

Due to lack of accommodation Grades I and II classes will be held in the Union Hall this year.

Workmen have been busy turning the main floor into a class room and installing black boards.

It is hoped that a new school will be erected next year and thus eliminate the necessity of extra accommodation having to be found elsewhere.

Mr and Mrs. R. M Pederson had children home renewed a Robbins other visitors with Mrs Pederson's parents Mr. and Mrs. C. P. Bradshaw.

Church Services in the Fort and district points will be held at the usual times. Please consult last week's Record.

Congratulations go to Mr. and Mrs. Lawrence Hill on the birth of a baby girl, Thursday, August 21st.

Mrs. J. Lengel and Eugene returned home Saturday after spending a holiday in Edmonton and motoring to Chicago with her mother and father Mr. and Mrs. G. D. Reigh of Edmonton.

Mr. and Mrs. Ben Knowles and Frankie spent the week-end visiting with Mr. and Mrs. Elby and Judson at Lake Sand.

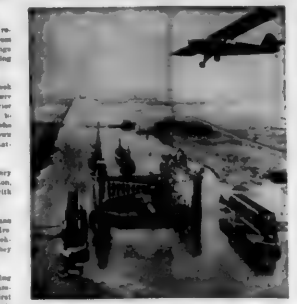
Dr. and Mrs. H. R. MacIntyre and children of Moosejaw, Saskatchewan left for home Thursday, after spending a week visiting Mrs. MacIntyre's parents Dr. and Mrs. Turner.

Mr. Bud Sadler arrived home last Saturday to join his wife who had recently arrived here from England. Bud, who is a Wireless Operator in the Merchant Marine has been away from home for nearly all.

Miss Krebs was the recipient of many beautiful gifts for which she thanked everyone in a few well chosen words, after which a delicious lunch was enjoyed.

Baptism on Sunday at the Redwater Church took place of the twin sons of Mr. and Mrs. Emmanuel Becker of Edmonton.

Largest Floating Dock in the World



A dock built by the British in Bombay intended for the use of the Royal Navy at Malta, was recently towed there by Admiralty tugs. It is so large (it can accommodate a 50,000 ton ship) that it had to be cut in two for passage through the Suez Canal. This picture shows — The first half of the dock being towed through the El Firdan Swing bridge while a RAF spotter flies over the top. The second half of the dock can be seen approaching up the canal in the distance.

Religious Classes For Catholic Children

During the week of August 24th to the 31st, the Catholic children of the district have been attending classes of religious instruction in the Catholic church

Reverend Sisters Irene and Stanislaus, Franciscans Sisters of the Atonement from the orphanage in Edmonton have been conducting the classes. Thirty-two children were present for the opening classes

During the same week Rev. Fr. Cuthbert Seward, O.F.M., Catholic Priest in charge of the church has been making the visitation of all the Catholic people in the district. Latest reports indicate that there are well over fifty families belonging to the Catholic church

Rituals at the offices of the Indian at Saba, Saudi.

The interior of the church was painted in July All contributed to the expenses while the Franciscans lay Brothers generously offered the labor.

Honor Bride Elect

In honor of Miss Nora Krebs bride elect of this month, Mrs. Edward Mohr and Mrs. Adolph Bertz were hostesses to a miscellaneous shower on Sunday evening.

The room was tastefully decorated with summer flowers. Two contests and a "make talk" by Mrs. Big Mohr were enjoyed by all.

Miss Krebs was the recipient of many beautiful gifts for which she thanked everyone in a few well chosen words, after which a delicious lunch was enjoyed.

THIS WEEK IN SPORTS
RECORD REFLECTATIONS

Holiday-makers and business people from everywhere are arriving in much larger number than was ever anticipated. It was reported that about a quarter million would come to Britain this year but on the strength of arrivals so far it now looks as though this figure will be well over 300,000. Nor does this estimate include visitors from Commonwealth countries which will swell the final total by at least 100,000 a month. From January to the end of June arrivals were recorded as 130,000 of which 90,000 were holiday-makers. The influx will be at its heaviest during this month and next when another 80,000 or more are expected.

Nearly half the homes in Canada still use wood as heating fuel.

Legion Executive Meet

A brief meeting of the Canadian Legion executive was held Tuesday evening in the Legion Club House.

An appointment by the Welch Tower Society to rent the Legion Hall for Sunday meetings was refused. It was felt by the executive members present that the opinions expressed by this organization conflicted with the ideals of the Canadian Legion.

Plans of the dance to be held in September were also discussed, and it is hoped by means of added attractions and prizes to make this dance a real success. This however will be considered more fully at a general meeting to be held Tuesday, September 2nd.

TUNNEL UNDER RIVER TYNE

The Minister of Transport formally initiated work on a big pedestrian construction project in Northern Britain recently. This is taking the form of a triple tunnel under the River Tyne, which will mean easier access and better transport facilities for the big industrial area around Newcastle. It will provide separate tunnels for vehicles, cyclists and pedestrians, each about 2650 feet long. There will also be special approach roads four miles in length linking the tunnels with the main traffic routes on either side of the river. An interesting innovation will be twin escalators at each entrance similar to those used in the London underground stations. This is the first example in Britain of lifts being provided for cyclists

A World Statesman

By H. J. DEACHMAN

May I have the pleasure of shocking you by pointing out that Mackenzie King and Hailie Selassie is in the running for a top place in the brand field of world statesmanship.

Asked recently of he wanted aid in reconstruction in Abyssinia, which had been a victim of Italian aggression, he said this reply:

"As the first United Nation to be liberated (Ethiopia) fears that notwithstanding heavy war damages sufficient progress has been made in reconstruction to warrant consideration of the efforts of the United Nations on reconstruction in countries more recently liberated."

Greetings to Haile Selassie but this is not the only occasion on which this statesman has shown his wisdom. Ethiopia joined the League of Nations, September 1923 — later had signed the Kellog Pact and was enabled to secure assistance the League could give. A declaration of war came from Italy in 1935, Italy occupied the capital Addis Ababa May 5, 1936.

Before this happened the Emperor had taken his cause to the League of Nations. This was his message:

"Do the people of the world not yet realize that by fighting on until the bitter end I am not only performing my sacred duty to my people, but standing guard in the best interest of collective security? Are they too blind to see that I have my responsibilities to the whole of humanity to face? I must still hold on until my tardy allies appear. And if they never come, then I say prophetically and without bitterness: The West will perish."

By March 1936 Hitler occupied the Rhineland. He had uncovered the democracies, he to never forget them. In the end Hitler met his fate but the last few words of the Emperor of Ethiopia may yet prove prophetic: "West" meaning, of course, Western Europe, may not perish but it faces now the gravest problem of its long history.

If the United States had been in the League of Nations the spread of Hailie Selassie might not have been necessary. The combined powers of the United States, Britain and France might have applied their persuasive influence upon Mussolini, Hitler would then have known what awaited him. The world might never have felt the impact of the six most tragic years of its history. Have we yet learned the dangers of "too little and too late?" Only time will tell.

Town Council Meeting Held Mon.

The regular monthly meeting of the Town Council of Fort Saskatchewan was held in the Town Hall on the evening of the 25th, August 1947 with the following members present Mayor Magee in the chair and Councillors Johnstone, Walker, Jacox and Dawson

Messrs H. J Brenton and J Kitching were also present in respect to the electric wiring of the Town Hall and after considerable discussion, these gentlemen were requested to absent all the wiring in the Town Hall from the basement to the living rooms above the hall and report to the Council at the next meeting what had to be done in regards to bring the wiring up to the standard of the Electric Wiring Code, and

The request of Mrs Earl Henderson to tear down the lean-to on the house she is at present occupying and construct a coal shed on the rear of the lot was granted. The offer of Mrs. Lowell Scott to save the poplar poles, that had been hauled in from the Calf Course north of the town into stove lengths for the Town Hall use, be accepted, and Mr Buchanan to purchase all logs, passer, etc that was necessary for the job.

It was moved that Councillor Walker be Acting Deputy Mayor for the three months, August, September and October 1947.

The offer of Mrs. Scott to board up the inside and insulate the building that had been drawn from behind the Williamson Block and placed against the skating rink, also to pull the two buildings that were already there and join them to this building.

Bylaw No. 96 providing for granting to the Women's Institute of Fort Saskatchewan the sum of fifty dollars towards the upkeep of the Fort Saskatchewan Community Hall was then third reading, and duly passed.

The question of having Bylaw No. 95 Zoning Bylaw for the town was then thoroughly discussed and the following motion was subsequently adopted:

"That the Building Code for number municipalities as drawn up by the National Research Council of Canada be adopted as the Building Code for Fort Saskatchewan." Moved that By-law No. 94 be given an 1st and 2nd reading."

The meeting then adjourned.

Sandy Lake

Mr. and Mrs. Flint and family to this community. Mrs. Flint will be teaching the school for the remainder of this term and is to residence on the school grounds. Mr Flint is employed at the mine and drives his truck back and forth from Edmonton each day.

Mrs. Dale Wallner and family are visiting at the home of her parents, Mr. and Mrs. S. E. Andrews.

Mr. and Mrs. J. Villetard and Mr and Mrs. E. Roe motored to Rockford Bridge last week-end visiting Mr. and Mrs. Noel Roe.

Honors went to Mr. R. Villetard at Lloydminster Model T races. Congratulations Bob.

Work on Canotaph Nearing Completion

The cutting of names on the Cenotaph of those who made the supreme sacrifice in World War II is rapidly nearing completion

Mr Meadows of Marbleine Basement Ltd. has been working here all week and many people have turned out to watch the work.

The names are first sketched on the marble and then chiseled out. Black enamel is then painted into the letters which makes them stand out against the white background of the marble.

Another method of doing this work is to drill holes in the letters after they have been sketched on the marble and then overlay them with lead. This latter method makes a neater job on roughly finished marble because the letters can all be trimmed off and made

Phyllis, daughter of Mr. and Mrs. Alfred Ellett is at Mactiniac the letters which makes them stand out against the white background of the marble.

Another method of doing this work is to drill holes in the letters after they have been sketched on the marble and then overlay them with lead. This latter method makes a neater job on roughly finished marble because the letters can all be trimmed off and made

The United States has a surplus of 250 million dozen eggs in the hands of the Commodity Credit Corporation, a government agency. A drop in British imports is the cause. The U.S. government may lose $25 million on the deal.

A record shipment of 28,000,000 bushels of grain was shipped out of the north over Northern Alberta Railways during the crop year 1946-47. The previous record made some years ago was about 19

Q. Is it advisable for an advanced case of tuberculosis with cavities to take pneumothorax treatment? How many treatments are necessary and for what length of time? What are the after effects of this treatment?

A. When cavities in the lung do not show a marked tendency to heal, and especially if relatively healthy lung occasionally present in the patients over long periods of time, and providing the patient is suitable otherwise, pneumothorax treatment is indicated. The number of treatments depends upon the thoroughness of the collapse obtained and the rapidity of healing which takes place, and this cannot be foretold. Probably one-half of the patients taking pneumothorax treatment develop fluid on the chest. As a rule this is not of serious consequence. In some instances pus may form in the pleural cavity. This is a serious complication.

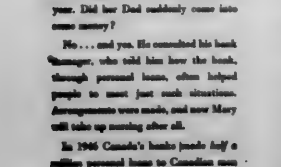
It looked for a while as if a temporary financial problem in the family might keep Mary from finishing "High". If she had to quit school to help the family income that would have meant good-bye to her hopes of becoming a ——

But here she is, starting her final year. Did her Dad suddenly come into some money?

No . . . and yes. He consulted his bank manager, who told him how the bank, through personal loans, often helped people to meet just such situations. Arrangements were made, and now Mary will take up nursing after all.

In 1946 Canada's banks made *half a million* personal loans to Canadian men and women.



SPONSORED BY YOUR CHARTERED BANK

INSIDE HOGS AND BACON FOR BRITAIN

Inside hogs and the conditional breakfast cuts of the Kingdom are to be more plentiful in Britain. This will be the result of the new ration allowances for pigs and poultry just announced by the Minister of Agriculture. Farmers will now be able to keep four pigs where they only kept three last winter and 24 chickens as against 20. Increased rations for feeding stuff rations will come into force from the beginning of next month. The effort of this to-child a title to the ration will make possible a 20 per cent expansion in Britain's pig and poultry population.

ABLE TO EARN

The slogan "Health is Earning Power" has been adopted by National Health authorities in many of their health education centres. Based on the sound principle that health is essential to success in all kinds of life.

No matter how he earn our daily bread, we must have the physical ability to plan and pro-cute our endeavors. While many people in the prime of life under the strain of constant worry, have achieved outstanding success, experts point out that the cost in sleeplessness who paves the rule. In general, one must be healthy to win through certainly to obtain success if and when it is attained

Change, the thing that most of us like least, is the thing that all of us need most.

« Recipes for Milady »

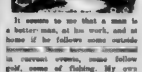
The housewife who has spent the afternoon making "concoctions" or making pickles, often wishes there were no hungry people coming home. Sometimes

The situation is not improved by the extra guests who drop in half an hour before meal time.

The housewife may sit down to a satisfying meal that attracts the eye and lessens the taste and at the same time be on end as the result of a cucumber herself, if she does a little planning and preparation in the morning.

The Home Economists of the Consumer Section, Dominion Department of Agriculture say that there are many ways to arrange this. A boiled ham or beef, served all ready to serve in the raw but or cool collar, and a large jar of salad dressing are first aids in any meal emergency, for with greens from the garden and salad and fruit for dessert, the meal is on the table.

A hot dish stimulates the appetite and adds variety. This may be quickly served if some of the preparation is done ahead of time. Hard cooked eggs may be chopped or sliced in a curry sauce or they may become "a la King" in a plain cream sauce with bits of meat and sweet red peppers. Quartered tomatoes laid on hot buttered toast and covered with a hot



It seems to me that a man is a better man, at his work, at his home if he follows some outside interests. Some become interested in current events, some follow golf, some of fishing. My own preference is an interest in sports. I may be too old to go around the bases, even if I could knock a home-run—but I can certainly follow the antecedent of the game. Baseball now is much improved as if I were working up the event myself. So, like many others I suppose, I've become an air sportsman. When Gordon Williamson comes on the air over CFRN every morning, at 8:15, my cup of coffee grows cold while I follow with vicarious interest the doings of the world of sports. It isn't long before I've had a digest of local events, as that I can argue and discuss sport matters throughout the day, just as though I'd been there in person. Maybe my friends may become bored with my talk of batting averages and pennant chances, but it really gives me something to chat about. Naturally, I take in Williamson resume of sport at 12:45 noon, and I always find my mind while the days results on the broadcast at 11:15 at night before I turn into bed. I ride the Kentucky Derby when it comes along, I rail with the gamblers on CFRN's Friday night fightcasts, and I shout hurrahs with the best golfers when CFRN does a golf broadcast. In fact, I have a whale of a time—all from the comfort of my favorite chair.

Unless we invest everything we've got in the world we trust we will be divested of everything we've got in a world we don't want.

Planning

From "Planned Chaos" By Von Mises

The dilemma is not between automatic forces and planned action. It is between the democratic process of the market on which every individual has his share and the exclusive rule of a dictatorial body. Whatever people do in the market economy, is the execution of their own plans. In this sense every human action means planning. What those calling themselves planners advocate is not the substitution of planned action for letting things go. It is the substitution of the planner's own plan for the plans of his fellow-men. The planner is a potential dictator who wants to deprive all other people of the power to plan and act according to their own plans. He aims at one thing only: the exclusive absolute pre-eminence of his own plan.

Prepare for Winter
Keep your home at an even, steady temperature this winter by installing a
Findlay Oil Heater
If you have electricity in your home you can now enjoy the benefits of cooking on an oil-fired range at approximately 3c per hour, and still burn rubbish or trash and use coal or wood for fuel in an emergency.
INSTALL A
Breese Horizontal Oil Burner
in your range and get Heat — where you want it — when you want it — at the turn of a dial.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"
Written for this Publication

A despatch from London, Mapleleaf, informs us that representatives of the British National Farmers' Union are now having discussions with the British Agricultural Department about wages and a labour force for the farm produce (The price of wheat in Britain was recently $2.24 a bushel. Prices to the Canadian farmer are around $2.24 on the farm.) The object of the farmers' groups is primarily to get more farmers to remain on the land. Many have left the land for the factories, where wages are higher. Many have gone to the cities. Many have gone to Canada. Many have gone to Australia, Africa, and other countries. Many have gone to the United States. Many have gone to other countries. Many have gone to other countries. Many have gone to other countries.

The International Emergency Food Council now consists of Winnipeg informs us that a plan is under consideration to ship wheat from Australia to Europe via the Panama Canal. Many have gone to other countries. Many have gone to other countries. Many have gone to other countries.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The Canadian Government-first official estimate, of the 1947 wheat crop, production for all Canada at 420,725,000 bushels, compared with 420,725,000 bushels for last year. Production on the three prairie provinces is placed at 336 million bushels, some 64 million bushels more than last year's crop of 400 million bushels.

Russia, according to recent reports, has agreed to supply Iceland with approximately 5 million bushels of wheat this year. Turkey's wheat production is now estimated at 124.8 million bushels, compared with 119.4 million produced last year. Mexico's 1947 wheat production is placed at 19.6 million bushels, some 25 per cent above last year's production of 12.7 million bushels.

Compromise is a spineless give and take where no one either gives or takes enough to leave anybody really satisfied.

WHAT CAUSES IN FLAX

Very hot July weather caused heat canker in late roots fields of flax which matured in the flax harvesting of all. The flame coming in contact with the ground developed a slight endeavour growth and caused immature capsules to open and have gotten ripened by some threads.

To overcome this difficulty the Lethbridge Experimental Station suggests that flax should be sown earlier than first reported the same length of growing season as

Many Uses for Fluorescent Paint

The use of fluorescent paint to mark roadsides in hazardous or unsightly areas is increasing.

Modern British homedrics are eliminating the other systems of washing by threads or indelible marks and are using invisible fluorescent paint which shows under ultra-violet light. When parts have been washed and marked correctly, they are passed under ultra-violet lamp which causes the fluorescent pigment to glow and enables the washer to do their work.

Thirty thousand gallons of paint are going into a four-year job of protecting the famous George Washington Bridge against rust and deterioration, and the painting is no work for the timid.

Sixty painters were chosen from a large number of applicants, most of whom dreaded their "vertigo" interested after attempting to paint with long ropes 600 feet above the Hudson River.

The manufacture of varnish in North America goes back to gin back to 1632 when Franklin Knighton and David McClure started production. The first varnish was fluid at Cambridge, Mass. For many years after these formulas for the making of varnish from fossilized resins were carefully guarded secrets.

Eventually synthetic resins matched their appearance and the quality and adaptability of varnish became tremendously increased, in practically all cases today, modern

IN MEMORIAM

In loving memory of Pte. Gordon Charles Bolton who was killed in action in Italy on August 25th, 1944.

They say time heals all sorrow and helps us to forget,
But time so far has only proved we have more cause to miss it.

And courage to bear the blow,
But what it meant to love you,
No one will ever know.

Dearly remembered and sadly missed by Mother, Dad, Sisters and Brothers, Brother-in-law and Nephews.

In loving memory of our dearly beloved son and brother who gave his life for his friends August 13, 1944.—P.O. Ronald Shaw Usher.

We lost a son with a heart of gold,
Dearer to us than words untold.
Unseen by the world, stands by my side and whispers,
Don't cry Mom, death cannot divide.
Happy and smiling, always content.
Loved and respected, wherever he went.
Always loving, thoughtful and kind,
A beautiful memory to left behind.

Always beloved by his loving Dad, Mom, and Brothers Ted, Howard and Jean.

HARD SURFACED ROAD

There are good prospects of a hard surfaced highway being completed by the end of the present construction season from the international boundary at Coutts to Edmonton, according to information which officials of the Alberta Motor Association have received from the public works department.

Certain stretches are being completed and if weather continues suitable for road building, the program will be extended. There are crushing work on surfacing projects.

START YOUNG

Before the age of three passes, is the time to start those visits to the dentist, which should be repeated, thereafter, every 6 months.

If every Canadian child could be put on that path to dental conservation, say the experts, most dental troubles would be prevented, and others would be nipped while they were still trifling.

With regular care by the dentist, plus good home care, chances are excellent that anyone's teeth will last in a healthy condition all through life.

Music Classes In Legion Club Room

A good turnout of Legion Members and guests for a general meeting held Tuesday evening at which considerable business was transacted.

In order that the musical education of Fort and district children be advanced, the members present decided that the rent for the Club Rooms to the music teacher be cut to a bare minimum to cover cleaning expense. The lessons to commence later this month and three evenings a week. The piano belonging to the Canadian Legion, at present in the basement of the Community Hall, is to be removed to the club room for the use of the teacher.

The application of the W.I. to rent the hall once a month for dance purposes was also approved.

In the same breath it was also decided that an older member be given the janitor's job in order that the hall be kept clean. It was agreed that the janitor's salary be fixed at a flat rate per cleaning, no the amount of work done and warrant full time employment.

The Legion at this meeting also went on record as being fully in support of any movement towards the building of a swimming pool. One member, Comrade H. Reuniar, was appointed as a committee to approach other clubs in the Fort in an endeavour to get some action started along this line.

Further business consisted of the election of executive members to fill vacancies, and the appointment of a committee to arrange and handle all arrangements of the dance to be held later this month, full details of which will be released in a few days.

Mansfield

On Sunday, August 20th Rev. Gordon Schmidt was ordained as pastor in charge of the Bethany Lutheran congregation at Beaver Hills. Rev. Mr. Schmidt's predecessor conducted the service.

Rev. G. Schmitz in a recent graduate from the Theological Seminary at St. Louis, Missouri, and this will be his first charge since graduating.

Bethany parish had been served by Rev. E. Wildgrube of Bruderheim since the former pastor Rev. O. R. Baron received the call to Dundurn, Saskatchewan.

Sunday morning the Bethany Lutheran congregation officially welcomed Rev. G. Schmitz at a party in the church basement.

The program opened with the choir singing the hymn "We Bid Thee Welcome to Our Home", after which welcome addresses were given by Mr. Emil Maendorf, congregation president, Mrs. Carl Schindler, president of the Ladies Aid and Mrs. Gunther, president of the Walther League.

Games and a sing song were enjoyed by all present. A very tasty lunch was served by the ladies after which the program ended by singing "God Be with You Till we Meet Again".

Miss Rena Ginther of Edmonton has been visiting at her home here for the past two weeks.

Mr. Walter Eaton and his sister Miss Ida Telfold were week-end visitors at the home of Mr. and Mrs. John Plesher.

Sandy Lake

Mrs. Earnest Dau was hostess to about fifteen ladies at a very enjoyable get acquainted tea in honor of Mrs. Flint, the new school teacher.

Mrs. Flint will be responsible for about thirty children and we feel confident that they will learn much more than the three R's.

Judging by the way Mr. R. Andrews and Sons are getting their grain fields cleared, pioneering in the new venture of ranching, will give more than a hint as the A.L.C. as ably handels us, to Grow Another Hog for Britain.

Mr. and Mrs. W. V. Elliot and the pioneers of Mrs. E. A. Elliot of Vancouver visiting them this week.

Mr. Henry Enders and son Eric have broken more new land this summer than has been done in this district for years.

Wye

Mr. and Mrs. Bill Prosek are spending a few days with Mr. and Mrs. Howard Webb and family.

Mr. and Mrs. Arthur Daly and Thelma Walker spent the week-end with Mr. and Mrs. Del Anderson of Kinsella.

Miss Gerda Klatt spent the week-end with relatives at Spruce Grove.

We hope Mrs. Tom Williams will soon be able to have her arm out of the cast which we have seen her wear for quite some time now.

Eileen Williams is spending a few days with Grandma Bull of Edmonton.

Mr. and Mrs. R. Webb, Jean and Gordon Stannard are visiting at Westlock for the week-end with Mr. and Mrs. Hugh Bebbs.

8 Hour Mosquito Repellent Developed

Two years of laboratory experiments with some 2,000 trial preparations at the Naval Medical Research Institute, Bethesda, Md., have produced a mosquito repellent which jungle tests indicate has an effectiveness of 8 to 10 hours in warding off disease bearing insects. The new compound, "612", is a colorless, oily, odorless liquid slightly thicker than water, was reached mainly through the research studies of two Naval officers: Lieut. Commander Maynel Phipps (MC) U.S.N.R., of Boston, Mass., a former Harvard Medical School staff instructor; and Lieut. (jg) Lev Jachowski, Jr U.S.N.R. a Washington entomologist trained at the University of Michigan Lieut. (jg) Jachowski teaches Lieut. Commander Phipps how to complete the synthesis of "612" the new mosquito repellent. Official U.S. Navy photograph

New Issue of Canada Savings Bonds On Sale Tuesday, Oct. 14th

The decision to offer a second series of Canada Savings Bonds, forecast some time ago, has been confirmed by the Hon. Douglas Abbott, Minister of Finance. The new issue goes on sale on Tuesday, October 14th.

The Minister of Finance stated that the second series of Canada Savings Bonds will be dated November 1st, 1947, and will bear interest at the rate of 2% each year for ten years, They may be redeemed at any time at any bank in Canada for full face value plus interest and will be registered in the owner's name—affording protection against loss. Not more than $1,000 of this series may be registered in any one name.

Mr. Abbott pointed out that the new series will enable the continuance of the Payroll Savings Plan now in operation in thousands of organizations throughout the country, and will also permit its installation by other companies who have been unable to. The new Canada Savings Bonds will also be available for purchase by the general public, who may buy them for cash or on instalments.

Mr. Abbott said that the reception given to Canada Savings Bonds since their introduction last October had provided the main reason for the new offering. Purchases have been made since that time by more than 1,500,000 Canadians. This total includes 623,540 employees who used Payroll Savings Plan facilities provided by their employers.

Although the decision to offer a second series is based primarily on demonstrated public demand for these fund-raising securities, Mr. Abbott stated the government also has in mind the value of widespread holdings of Canada Savings Bonds in the national economy. Present holdings have already rendered more than a million Canadians better able to meet personal emergencies or to carry out personal plans. Such personal reserves are important as an element of strength and stability in the nation.

Preparations for the sale of the second series will be made by the Bank of Canada, and will be similar to those followed for the first series. It is reported that authorized sales agents will include investment dealers and banks and other savings institutions. Experience indicates that employers and the executives of labor organizations, who have consistently provided leadership in the development of the Payroll Savings Plan, will join again in ensuring that its benefits continue. It is also apparent that the favorable comment and support of all public information facilities will be maintained. It was pointed out that this support has always been an important factor in the general response to Canada Savings Bonds.

Every appropriate means of informing the public of the details of the new series will be used. Mr. Abbott stated that it is confident that the people of Canada will again recognize this fine investment opportunity and will make plans to take full advantage of it.

To Hold Tag Day

In remembrance of those who did not return, the city council has approved of Maple Leaf tag day, Saturday, September 6th, in benefit of the Edmonton Home for Ex-servicemen's dependents and sons. At present there are 33 residence at 9536 105A street. The objective is $2,500, and if 10,000 persons each donate a quarter, the day will go over the top. Out-of-town friends may mail their contributions directly to the Secretary, 9536 105a street. This is a grand way in supporting the Alberta soldiers who did not return. Please remember these girls and boys, by being liberal with your contribution on the Maple Leaf Tag Day in Edmonton, next Saturday!

Do not hang heavy loads on pipes in the home. The pull may loosen joints, or strain supports.

Farewell Party Held In Honor Mrs. R. Parker

A number of St. George's W.A. met at the home of Mrs. C. P. Bradshaw last Thursday afternoon to bid farewell to Mrs. R. Parker, secretary of the W.A.

After a very pleasant social hour, tea was served by the hostess assisted by Mrs. (Major) Mrs. L. Brown and Mrs. W. W. Buxton.

Rev. W. W. Buxton spoke a few words expressing his regret that Mr. and Mrs. Parker and family were leaving the Fort and of the part they had filled on the parish since his arrival here. He presented to Mrs. Parker a framed picture on behalf of the members of the W.A. and wished her health and happiness and hoped to be able to continue his acquaintance with her and her family at Oliver.

Mr. Parker expects to commence work a few weeks in Austin as an instructor to all the members he met when they were settled at their new home.

Resume Service Club Meetings in October

The weather is responsible for many things coming to pass. The reopening of the Fort Community Service Club meetings. The recent rains have held up the harvest and as a result many of the farmer members would find it impossible to attend a meeting this month. The date of the first meeting has not yet definitely been decided but will be sometime in mid October and ample notice will be given the members.

The executive of the club hope that all members will turn out for the first meeting and that the club will continue to grow and be of some benefit to the entire district.

Leonard Smaljaist Delivers First Grain

Once again Leonard Smaljaist is the first farmer in the district to deliver grain to the elevator. Leonard rolled in with 160 bushels of barley of good grade last week, which averaged 40 bushels to the acre.

Harvesting in this district has been considerable hampered of late due to rain, but many farmers are now busy getting the last of their crops off.

U.S. High Schools Teach Safe Driving

Better training for new drivers, especially the million and one-half boys and girls who annually graduate from high school is the factor that will help greatly to bring down permanently the high traffic accidents toll, according to a motor car manufacturer.

"As evidence, the official sister of the Automobile Association of America's Automobile Association of over 2,000 Cleveland High School boys and girls, half of whom were taught in high school, "those trained students were involved in half as many traffic accidents as their untrained licensed school mates.

"Many motor truck fleets have embarked on a comprehensive program of driver selection and training that is not only reducing operating costs of their trucks, but is saving thousands of dollars in fewer repairs and lower insurance premiums due to better driving.

"The myth that best little special preparation for driving a car is needed has been exploded. Analysis after analysis shows that new drivers, if poorly trained, are generally involved in serious and costly accidents to an unwarranted degree.

"The official said motor clubs are deeply interested in better training and that many of them are making available to educators and fleet operators the latest information on trends and techniques in driver training. These have been developed over a 15-year period by National AAA Headquarters and are being widely utilized throughout the country."

The St. Mary's Journal-Argus thinks these old stories of "flying canvas" in the press are somewhat outdated. Adding: "Printing of what appears to be authentic reports of these imaginary phenomena being seen on the little side but discredit newspapers and those who produce them."

There are over 250,000 species of insects known today.

Around the Town

Dr. Turner is a patient in the Royal Alex hospital. His many friends wish him a speedy recovery.

The W.I. will hold its first fall meeting Wednesday, September 10 at 3 p.m. in the Legion Club room (upstairs over the Fire Hall). A program has been arranged and grandmothers of the town and district are to be guests of honor. All are very cordially invited.

GAME PROTECTION

With the shooting season fast approaching, the following notice are considered timely

1. Don't shoot before the season opens on September 20th.
2. Don't shoot without a license.
3. Don't shoot more than your share, the game belongs to all of us. Be a sportsman and a gentleman.

Mrs. A. A. Willaston arrived home Sunday after a two months holiday trip spent in her former home province of New Brunswick. While there she visited her sister Mrs. W. H. Coleman, Moncton. On her return trip she also spent some time at the home of her brother Mr. Howard Noble, Detroit Michigan.

Mr. and Mrs. R. Larson and family returned home on Sunday after spending a two week holiday at Portland and Yakima.

Miss Kathleen Erskine started training in the telephone office this week.

Miss Marion Parker has been transferred to the Edmonton telephone offices.

The Annual Flower Service of First United Church will be held at 7:30 p.m. Sunday, September 7th in the Community Hall. The evening service will be held as usual.

Mr. and Mrs. R. Parker moved last week-end to Oliver where they will make their future home.

Mr. and Mrs. Chas. F. Lowe returned last week from Minneapolis where they have been visiting relatives and friends for the past month.

Mr. Chas F. Lowe and Mr. Dick Magor made a business trip to Calgary over the long holiday week-end.

Mrs. George Becker arrived home last week-end from Portland where she has been visiting her daughter and son.

Mr. and Mrs. D. Markle and daughter returned home last week-end from Alberta Beach where they have been holidaying for the past month.

Good Hope

Misses Lorraine Fry and Alice Miller, who have been piloting fruit at Abbotsford, B.C., returned home last week.

Miss Hilda Meyer has begun work at Meery's Beauty Salon in Edmonton.

Mr. and Mrs. A. J. Leitch of Calgary spent the long week-end as guests of Mr. and Mrs. Milton Meyer.

Mr. and Mrs. Basil Fleming and Mr. and Mrs. Gordon Whale of Edmonton spent the week-end at the home of Mr. and Mrs. Sam Torrens.

Miss Velma Meyer is home from Regina on holidays.

The hail adjusters have been visiting our district this past week.

Always use a cutting board when shredding or cutting meat as a slice or slicing fruit on the dashboard or sink to avoid chipping the enamel.

Soot and soaky in the furnace or boiler cost money. Chimneys and furnaces should be cleaned out during the summer, to save fuel bills.

Co-operation is the hope of the world.

Loome Couple Wed August 14th

A very pretty wedding was held in Edmonton on August 14 when Miss Dollie Perrier became the bride of Mr. John Nobsky. Rev. Hoth performed the ceremony.

The bride looked very charming in a floor length gown of white sheer designing a sweetheart neckline. Her long veil was held in place by a bridal wreath and she carried a bouquet of pink roses and carnations.

Miss Della Perrier cousin of the bride was bridesmaid. She wore a floor length gown of lilac sheer with flowered in her hair and carried a bouquet of sweet peas and carnations in pastel shades.

Jack Perrier, brother of the bride, attended the groom.

The reception was held at George Perrier's residence, which was tastefully decorated with pink and white streamers and sweet peas. Over 70 guests gathered to extend good wishes to the happy couple, and many useful presents were received.

Later in the evening a dance was held in Loome Hall which was filled to capacity and a very enjoyable lunch was served.

Out of town visitors were Mr and Mrs. D. Adams of Youngstown, Mr. and Mrs. Jack Bailey and Margaret from B.C., Mr. and Mrs. W. Perrier and children from Vermilion, Mrs. Mrs. G. Ross of children from Camrose, besides many friends and relatives from Edmonton.

Mr. and Mrs. Forester have returned to Edmonton and we hear they find the reclaim very short over there

Ardrossan

The executive of the Community League met at the home of Mr. and Mrs. A. Bell on Tuesday evening, August 19 to discuss the visit of Mr. Bell as commissioner of the Athletic Club and a second meeting with their representatives in attendance failed to make any satisfactory arrangements. The executive feel that the whole matter should be brought before the people who will be expected to help with tractors, machinery, homeware and cars.

A general meeting is called for next Sunday evening in the upstairs of the old hall. Everyone who is interested in hockey or the rink please come out and help us to decide this issue to the satisfaction of all. Come early—believe it or not the last meeting was finished by 10:30!

East Edmonton

Mrs. Corbett has returned home from the coast where she has been holidaying recently.

Mrs. Lenta of Winnipeg has been visiting at the home of her brother and sister-in-law Mr. and Mrs. R. Johnson.

A speedy recovery is wished to Mrs. C. Pugsley who had a nasty fall recently.

Mr. and Mrs. Peter Dane of Calgary visited at the home of Mrs. Dane's father, Mr. Hawkins over the week-end.

The Sunday School picnic was held at the home of Mrs. Wale on August 20, with a large number of children in attendance. A good time was reported by all.

CLEAN DRAINS

Plumbing needs careful watching in any health prevention program in Canadian homes. Public Health officers remind home-owners that accumulations of grease may be dangerous as they may be disagreeable. Plugged pipes and drains are a breeding place for disease.

Much wiser, it is pointed out, to have a plumber go over all the fixtures than to wait for a major breakdown which may threaten the health, as well as the comfort, of the family.

Radiograms

COLGATE OFFERS $1,000 A DAY IN BEST PEARL CONTEST

When Colgate's Happy Gang returns to Canadian airwaves on September 15, Bert Pearl, jovial master of ceremonies, will get the show under way with a bound into contest Bert's calling it his "Name My Puppy" contest and is giving away $1,000 in cash as well as over 120 other wonderful gifts to those lucky contestants that pick the right name for his new puppy!

You, Bert wants to buy a puppy —as yet he's not sure just what breed to buy—so by letting his radio audience and other friends name it for him first, he's hoping to be able to determine the kind of doggie pal he'd like best.

Hats as a Diversion

This is a story of individual enterprise by a widow, starting on, in Britain. It all began during World War II when her son was battling in the skies above Britain against the onslaught of the Nazi Luftwaffe. To take her mind off the war she started to make hats and a few plums of ribbon. A friend admired it and asked Mrs. Risdon to make her one just like it. The customer was that she was now making and selling hats professionally. To-day, her business is expanding and she is making hats for many famous women. She employs two assistants as copyists, but she herself designs every hat and personally makes every model that leaves her salon. And in spite of what is now an assured success Mrs. Risdon will still sit up late the small hours designing hats.

THE SHOW MUST GO ON

An actor decided to give up his career and become a doctor, and is a short while he was achieving a great deal of success.

One day he was performing an operation for appendicitis, and, as usual, the operating theatre was filled with students.

The operation was performed so successfully that, at the end, the students broke into loud applause.

The old actor spirit returned, and the surgeon after bowing his appreciation, hurried back and removed the patient's bandage as an encore!

Fire Toll Near 5 Million Every Year

Fires resulting from faulty stoves, furnaces, boilers or chimneys cost Canadians almost $5,000,000 every year, the Canadian Underwriters' Association and Bureau reports. Over 9,000 fires are caused in Canadian homes every year through carelessness in maintaining or handling heating equipment, and an inefficient appliances.

"Most of these fires can be prevented," he said, "A proper check on furnaces and chimneys during the summer months when the heating season is idle, and repairs to damaged or worn out equipment and crushed chimneys should be thoroughly cleaned during the summer, especially in homes burning soft or low grades of coal. These precautions will also help cut high fuel bills caused by inefficient heating equipment."

A few tips on cleaning the furnace are suggested by the Institute. Once the chimney has been cleaned of its ashes

Preliminary figures released in the Dominion Bureau of Statistics show that there were 6,044,466 hectares or acres of farm land occupied in Canada in 1946 than in 1945. This represents a decline of 4.7 per cent. Improved farm land decreased 95,270 acres, about .5 per cent, from 1945.

Wintering of Bees

Many experienced beekeepers prefer to winter their bees rather than bull them in the fall and start each spring with packaged bees. Some of the main reasons in favor of wintering bees are that under reasonable conditions brood rearing is not encouraged before early spring so the colony is much stronger when the honey flow comes and consequently more honey is obtained. Another reason is that bees vary considerably in ease of handling, gentleness and vicious temper in color and when a new hunger arises his own queens he can winter them readily with a colony and thus maintain and improve the strain continually.

At the Dominion Experimental Station at Scott, Saskatchewan, sharp differences in egg laying capacity or persistency have been observed in different queens and one superior strain has been carried for many years.

For success in wintering bees a strong colony, a good supply of wholesome stores and adequate protection from cold and dampness are essential.

To have a strong colony of young bees it is usually well to replace the old queen with a young mated queen at the end of the honey flow and provide plenty of space in the brood chamber if colonies are for any reason confined to be built in the fall, two weak colonies are better united than to try to winter them as weak as small colonies. The stores of honey should be of the best quality, digestive troubles may occur during the winter. The last honey gathered in the fall is often of poor quality and not satisfactory for winter stores. It is a good practice to remove the greater part of the honey and give sugar syrup for winter stores (one part water to two parts sugar). This may be fed from inverted pails, with perforations left, on the top of the frames after the stores is placed in the outdoor wintering case. Feeding may be continued until the bees will take no more until possibly require about 60 lbs. of sugar per colony.

Protection from cold and changing temperatures may be a degree made for the purpose, a basement of a residence or an outdoor wintering case insulated where it is sheltered from the wind. On the prairies where winter temperatures are usually fairly steady, the wintering case is perhaps one of the most satisfactory methods of protecting bees.

Further details regarding the wintering of bees are given in Publication 631, "Wintering Bees in Canada" obtainable free from the Dominion Experimental Station at Scott, Saskatchewan.

The Dominion bureau of statistics reports that Canada's external trade during the first six months of 1947 was valued $2,602 million, a record high for any similar period.

FRIENDSHIP

If nobody smiled and nobody cheered,
And nobody helped us along;
If each individual looked after himself
And the good things all went to the strong;
If nobody cared just a little for you
And nobody thought about me;
If we stood all alone in the battle of life—
What a dreary old world it would be.

Life's greater because of the friends we have made
And the things which in common we share.
We want to live on, not because of ourselves
But because of people who care
It's giving and doing for somebody else—
On that all Life's splendor depends.
And the joy of the world, when it's all added up,
Is found in the making of friends.

Foreign Trade News

SUPPLIES OF TIN IN CANADA SLOWLY INCREASING

Tin, of vital importance to the food packing industries, is in short supply in Canada, and the current stock position is causing some concern. Production of tin in Canada approximates 600 tons per annum, while requirements of the country total about 1,500 tons. Prior to 1941, imports averaged 1,000 tons a year, most of which was used in the manufacture of solder and babbit metals. Up to that time, all domestic tinplate requirements were filled from abroad, principally from the United Kingdom and to a lesser extent from the United States.

The first hot-dipped tinplate was produced in this country in 1941, and since then production has increased until it now fills about 75 per cent of Canada's tinplate needs. Practically all of this is used in the food-packing industries, which are now entering their period of greatest activity. This is also used extensively in the manufacture of dairy equipment, such as milk pails and cans, telephone and power conduit, electrical instruments and many other products.

Canada receives an allocation of 1,500 tons for the current half of this year to maintain essential stocks for current needs. While this quantity may not be increased it was reported at a recent meeting of the combined Tin Committee in Washington that world production is increasing rapidly This improvement is particularly noticeable in Malaya, the world's largest producer, and in the Belgian Congo, but until production reaches a still higher level, unrestricted use of tin in Canada cannot be permitted.

CANADIAN CUT FLOWERS MAY STILL ENTER U.S.

Because of Canada's efficient insect control and inspection service, cut flowers from this country may continue to enter the United States Certain specified types from all other countries will be admitted only under import permit and inspection to prevent introduction of new and potentially dangerous insect and plant diseases. The quarantine covers all kinds of annuities, perennials, rhododendrons, azaleas, roses and vines.

CANADIAN TRADE OFFICE OPENED IN PAKISTAN

G. A. Browne, assistant Commercial Trade Commissioner at Bombay since June, 1946, has been appointed Acting Trade Commissioner to Pakistan and will open offices in Karachi at once In his present position, he will be Canada's first official representative to the newest self-governing nation in the British Commonwealth.

"LADY NELSON" RETURNS TO CARIBBEAN SERVICE

The "Lady Nelson" recently rejoined her sister ship the "Lady Rodney" in the service between Canada and Bermuda, the British West Indies and British Guiana. The three other "Lady" ships on the pioneer Caribbean run were lost through enemy action. The "Nelsons" and Rodney will operate weekly passenger and cargo liners the Canada Government and the Canadian Government Merchant Marine, between Montreal, Quebec City and Halifax on the Atlantic

What's New in Farm Machinery

Farmers may look forward to new types of power machinery designed to save time and to eliminate many of the back-breaking jobs now being done by hand, reports J. M. Armstrong, agricultural engineer at the Central Experimental Farm at Ottawa.

Power farmers especially will be interested in new tractor-mounted equipment with hydraulic controls to raise and lower the implements. Mountings have been simplified to permit the attachments to be changed quickly, in this way allowing the tractor to be used for a still greater number of jobs. Among the new tractor-mounted implements are plows, cultivators, row crop seeders and planters, sprayers, a potato digger and sugar beet harvester, manure loaders, shovels and power post augers.

In tillage equipment there are new rotary tillage machines, new varieties of blade weeders and improved designs of one-way disc. Spraying developments include movable mounting of tanks on the tractor and the use of rotary pumps.

Near power-operated buying tools include several types of hook rakes, combination loaders, stackers and power shovels. Forage crop harvesters which cut the standing crop and then deliver it to stacking lengths or pick up hay from the windrow to produce chopped hay are available as well as one-man field baiter which automatically ties the bales. Bale loaders, conveyor blowers and wagon lifts or tilt loaders are auxiliary equipment.

In the line of grain harvesting equipment, the self-propelled will be been slightly increased on one or two small combines and a limited number of small self-propelled combines of seven-foot cut have been produced, according to Mr. Armstrong.

Canada's 1946 wool cut amounted to 12 million pounds a reduction of 400,000 pounds from 1945. Reduced output was attributed to a decline in sheep wool production, which was 800,000 pounds below 1945. Farm cash sales of wool were $6,420,000, a decline of over $900,000 from the 1945 level.

EVEN at normal cruising speed, the pistons of your car take a cruel licking. With each explosion one of them gets smacked down with pile-driver force—pressure runs more than a ton and a half. Heat builds up to 600° and higher. And the pistons take this beaten on end — one thousand smacks and more every moment.

Aluminum pistons are made to stand this sort of punishment, and more. That's why they are used in airplane engines, too.

Another reason is their lightness, which in turn means power economy. Here's why: You can push a modern, lightweight aluminum vacuum cleaner back and forth with almost no effort. (An engineer would explain it in terms of low inertia.) And inertia is important in a piston, which must reverse its direction every split second. The less force needed to stop it and head it the other way is that much power saved to drive plane or motor car with that much greater pep and speed.

ALUMINUM COMPANY OF CANADA, LTD.

Producers and Fabricators of Aluminum for Canadian Industry and World Markets

Aluminum Laboratories Limited, our associated company, is continually working on new alloys for new uses. This is just a small part of the all-round research which metallurgists, chemists and engineers carry on in the largest commercial research laboratory in Canada. Their efforts are of direct benefit to Canadian manufacturers, supplying answers to a thousand questions and production problems. For research leads to new products, better products, less expensive products made with aluminum.

Edinburgh Scene of Festival

For four weeks from August 28th to September 13th Edinburgh plays host to visitors from all over the world when the International Festival of Music, Drama, Architecture and Art is held. Here is a view of the Castle, overlooking the Castle Esplanade on the Half-Way House, Princes Street Gardens and the Royal Scottish Academy and National Gallery of Modern Art. Below Princes Street Gardens and Princes Street, with the Scott Monument, Register House and Waverley Station. Edinburgh Castle, where a military tattoo will be held during the festival, can be seen in the background.

Ottawa Journal correspondent Blair Fraser reports that Mackenzie King's visit to Britain will be a small one, consisting of a small party of officials and a minimum of ceremony. He will be met at Montreal by Mrs. Fraser, accompanied by Mrs. Mackenzie King, Mrs. Pickersgill and Mrs. Heeney, wife of the Canadian High Commissioner to London. Mrs. Fraser will remain in Montreal while the party goes on to London. Mackenzie King

ONE AN EXPERT

The trouble "It's a color case who admits that he knows nothing" is credited to an attorney recently, but isn't as true today as at any time. It isn't meant to be an amateur industry when there are experts involved in both you.

Admission of ignorance is sometimes sheer wisdom, and this is certainly true when it comes to self-medication. If a "case who is his own lawyer has a fool for a client", the person who neglects to consult the doctor for an ailment is indeed trifling with fate

A record wheat crop is anticipated in Australia for the 1947-48 season, with the prospect of new crops totalling 15 million acres compared with the usual 11 million.

Turpentine Used in Ancient Times

One of the cheapest and most widely taken-for-granted paint materials—turpentine—is also one of the oldest and most economically used of all such products, with a history that stretches back into antiquity and which makes a lot of modern paint, varnish and lacquer materials appear like upstarts by comparison.

The ancient Egyptians used turpentine but there is nothing to prove that they were the ones to name the original product. Turpentine was well known throughout the middle ages and has been widely used ever since. In fact it had a bearing on the opening up of North America because one of the reasons King James of England had for the colonization of Virginia was that the colony would provide an additional source of turpentine for the Royal Navy.

Today, everybody who has ever lifted a paint brush is probably a thoroughly familiar with turpentine as a lowly but quite important part of many paint products. Yet few people who know its smell, its uses and its qualities have any idea of its origin. Nevertheless, in the comparative simplicity of its manufacture and in its handy availability turpentine is almost unique in the paint industry.

Other materials which go into paint manufacture come from widely-scattered places and, in many cases, as the result of carefully controlled chemical processes.

SEEDTIME HARVEST

P. J. GIBBARD
Director
Lee Elevator Tow Service
Winnipeg, Manitoba

Agricultural Publications

One of the important functions of the Lee Elevator Tow Service is to serve as a general information bureau, on general and farming problems, for farmers, country grain buyers, and others. For this purpose we have established a series of agricultural publications not available from the usual sources. Bulletins and circulars dealing with the following subjects are available: Weeds of Field, Farm and Ornamental Shrubs and Trees, Field Crop Insects, Growing Small Fruits, Grass and Soil Diseases of Cereals, Field Crop Varieties, etc. D.D.T. on the Prairie Farm. Copies may be obtained through any Lee Elevator Agent, or directly from Lee Elevator Tow Service, Winnipeg or Calgary.

An Acknowledgment. It is again a pleasure to acknowledge the generous assistance of many distinguished agricultural men in the preparation of these publications. We have been most fortunate in securing their support and assistance from Lee Elevators Farm Service bulletins and circulars have been prepared by the best agricultural specialists at University, Canada. The information they contain is up-to-date and authoritative and, as a result, they have become extremely popular with the farming public.

Turpentine Used in Ancient Times (continued)

The products of commerce in every part of the world, plus the scientific and technical knowledge of a great many people are all wrapped up in a can of paint. Compared with the intricacies of paint formulation, turpentine is easy.

In the making of destructively distilled turpentine, pine stumps removed from the ground by blasting by steam pulley are heat all dry, without the use of steam and the turpentine is extracted by the heat. Destructively distilled turpentine, the product of an old family, is obtained from the crude waste liquor of paper mills. It is the strongest of all turpentines in solvent power, but has a more pungent odor than its brothers.

Sometimes in the best times to carry out cleaning and repairs of the heating system in the home

Scott-Reynolds Nuptials Held

In a setting of gladioli and mixed summer blooms a very pretty wedding was solemnized at the Ardrossan United Church on Wednesday, August 20th, when Miss Lora Irene Reynolds, only daughter of Mr and Mrs Howard Reynolds became the bride of L.A.C. William Douglas Scott, son of Mr and Mrs George Scott of Erin, Ontario. Rev. H. A. Johnson, pastor at Ardrossan, performed the ceremony.

Given in marriage by her father, the bride looked lovely as she walked down the aisle to the strains of the wedding march, played by Miss Marguerite Burn

The bride wore a gown of white crepe set off by a three-quarter length veil of English net, held in place by a banded coronet. She carried a bouquet of red roses, buds and wore a pearl necklace and ear rings, a gift from the groom

The maid of honor, Miss Lorraine Wright, was dressed in a blue crepe gown, while the bridesmaid, Miss Eleanor Reynolds, cousin of the bride, was attired in a rose pink crepe gown. The flower girl, little Marjorie Woods, wore a gold nylon dress and carried a bouquet of mauve sweet peas.

The groom was attended by Harvey Reynolds, brother of the bride The ushers were Gordon and Jack Reynolds.

The groom's gifts were, to the maid of honor, a gold brooch with ear rings to match; to the bridesmaid, pearl ear rings and bracelet; to the flower girl, a gold bracelet. The best man received a gold bandled knife and each of the ushers a gold tie clip.

After the ceremony a reception to seventy-five guests was held at the home of the bride's parents, where a table was set with a lace cloth and centered with a three tiered wedding cake, flanked by lighted tapers. Mr. Johnson proposed the toast to the bride.

The bridal couple are honeymooning at Temagami and Niagara Falls before taking up their residence in Montreal. The bride's travelling outfit was a tan gown suit with black accessories.

Mrs. G. W. Shimble of Portland, Oregon, grandmother of the bride, was a guest at the wedding.

Arrange Feed and Seed Supplies Now

Crop damage through hail, frost or drought, has occured in many Alberta districts this year. Many farmers may find that they have not sufficient seed for spring planting or enough feed grain to carry their livestock through until another crop is harvested.

Pressure in Eastern Canada purchase large quantities of feed and seed from the West. Since the Alberta crop now being harvested will be moved rapidly to Eastern points, those who require seed and feed should arrange for their orders needs at an early date. There may be considerable difficulty in obtaining seed later in the season. Feed grain may not be available in the amounts needed.

The Field Crops Branch urges farmers who have been unfortunate enough to lose their crops to arrange for feed and seed supplies without delay.

Fultonvale

The Goodwill Club held a successful open aide and tea recently. Mrs. Tom Reed as president, saw to it, that all who attended had an enjoyable time. $48.00 was cleared. The club recently made donations to the Cancer Fund and Red Cross, keep up the good work ladies.

The club meeting for September will be announced later.

Mrs. John Lang returned from a ten-day holiday in Banff. Miss Peggie Lang is in Edmonton attending McTavish Business College.

We regret to say Mr. and Mrs. A. Bass are leaving us. Good luck in your venture folks.

Miss Mable Geary is on the staff of the Leduc High School this term.

Miss Shelia Holland is taking a business course at McTavish.

First Fall Meeting of W.I. Held Wednesday

Tea was served to forty-four members and grandmothers at the first fall meeting of the W I held Wednesday in the Legion Hall This is one of the best turnouts the W.I. have experienced for a number of years.

Mrs. J. D. Mackay, president of the W.I. welcomed the grandmothers and expressed her pleasure at seeing so many present.

The meeting was then called to order and minutes of the last regular meeting were read and adopted.

Mrs Selby Thorne was then asked to tell of her experience at the Banff School of Fine Arts. Mrs. Thorne outlined the work done at the school and exhibited a fine display of leathercraft which she had made while taking a course at the school.

Mrs. R. M Bacon gave two readings which were greatly enjoyed

Tea was then served and a bouquet of flowers was presented to each grandmother present.

On behalf of the grandmothers present, Mrs. Staples thanked the ladies of the W.I. for the delightful afternoon.

Heavy Demand by Farmers for Loans

Loans under the Farm Improvement Loans Act totalled 1,025 for the six-month period ended June 30 The loans were for the construction, alteration and repair of farm buildings in Canada. Seven hundred of these loans were made in Western Canada, 270 in Ontario and 54 in Quebec and the Maritimes.

The Farm Improvement Loans Act is being used extensively for loans for the clearing and breaking of new land and it is estimated that over 100,000 acres of new land will be added to the available acreages for 1948 through these loans.

Up to June 30, a total of 10,120 farmers obtained loans for all purposes in 1947 as compared with 5,680 for the corresponding period of 1946.

Partridge Hill

Mr. and Mrs. Tom Harrold of Edmonton visited Mrs. Harrold's cousin, Mrs. Ralph Lawrence during the Labor Day holiday.

Mr. and Mrs. Ray Cobbledick and Mrs. Bert Cobbledick of Vermilion visited relatives in the district last week-end.

Mr. and Mrs. E. D. Coulbourn and Mrs. C. G. Elliott of Edmonton spent the long week-end holiday at the Coulbourn home.

Mr. and Mrs. Earl Aiton and family of Edmonton were holidaying in the district last week.

Mr. Bob Moore of Vermilion was a visitor at the home of Mr. and Mrs. W. Aiton at the week-end.

We welcome the new teacher, Miss Norma Flintoff and her mother to the district. They have taken up residence in the teacherage.

Five beginners entered the school this term, while five others left to take High School studies in the Fort.

At the morning service last Sunday Andrew Edmond, infant son of Mr. and Mrs. Ed McKnight was christened by Rev. Rees.

Mr. Will Gillison of Wetaskiwin and Mr. J. D. Webb of Edmonton were renewing old acquaintances in the district last week, and incidentally were brushing up on their tennis.

We were surprised Tuesday, September 9 to hear of the sudden passing of Mrs. Clement Davies, who lived in the Ypres Valley district. The sympathy of this district is extended to the bereaved family.

FOOD FOR U.S.

Canada supplied 57 percent of wheat and flour in the United Kingdom ration during 1946; 38.8 percent of bacon and ham; 46 percent of canned salmon; 24.3 percent of cheese; 16 percent of apples 18 percent of eggs, and 11 percent of evaporated milk.

Around the Town

Miss Esther Frederking of Alberta College, Edmonton, was a week-end visitor at the home of Miss Wilson.

Miss Eileen Rice has taken a position with the Alberta Government Telephone at the Fort. She started her new duties Saturday

Jean Pagan left Thursday for London, Ontario to attend University.

Mr and Mrs Henry Lamoureux left on a short holiday Tuesday to Calgary

Cpl. George A Walton arrived from Montreal last week to spend a month's leave with his parents, Mr and Mrs H Walton George is specializing in radar and radio

Alfred Lavoy, who has been working in Tofield while during the summer months, is in Edmonton his studies at the university

Dr. and Mrs T. W. E Henry returned home Sunday after spending a three-week holiday in the United States and Penticton, B.C. In Penticton Dr. and Mrs. Henry were the guests of his son and daughter-in-law

The Sunday School of First United Church will re-open Sunday, September 14th at 11:45 a.m. after being closed for the summer The sessions will be held every Sunday thereafter at the Community Hall until the new church is ready

Mr. A. McManus left Monday for Waskatenau, to assist his son-in-law Mr. J. Brown with harvesting operations.

Mr. Bob Price left Saturday for Lac La Biche where he visited his father who passed away suddenly after a short illness.

Mr. and Mrs. J. Brown, Grant and Shirley of Waskatenau were week-end visitors at the home of Mr. and Mrs. A. McManus. Grant remaining for a short visit with his grandmother.

Mrs. Ernest received with Mrs. MacCrimmon. The bride's mother wore a two-piece afternoon gown of deep gray cut-crepe with a matching hat and a corsage of Talisman roses.

Mr. Chris Pattinson, of Edson, spent the week-end with Mr. Brian. Miss Joyce Broad sang "I'll Walk Beside You." Mr. Alex Smart and

his home. Accompanying him were Mrs. Smart, Miss Smart and Mr. and Mrs. C. P. Bradshaw

Rev. Hover will be guest speaker at the Josephburg Reformed Church on Sunday, September 14.

Messrs. Dick Magor, Dr. Bacon, Dick Bacon and Bob Edwards left Wednesday morning on a business trip to Fort *St.* John. They expect to be away about one week.

New Early Tomato for South Alberta

The relatively short growing season of Alberta has made tomato growing hazardous, and only in certain areas of the province was it possible, by carefully pruning tomato plants, to obtain ripe or three ripe trusses of fruit. Not every gardener was able to bring forth the ripe fruit and where the determinate or self-pruning varieties of tomatoes began to gain prominence, a breeding program was started at the Dominion Experimental Station, Lethbridge to obtain an early ripening, self-pruning type of tomato for Southern Alberta, says I. L. Nonneche, of that station.

The original cross was made with Portland North and Polar Circle, Out of this cross the most outstanding seedling was selected and was numbered L5760. This offspring was almost as early as Northland but is much taller than Polar Circle and with determinate or self-pruning habit of growth. Since that time careful selection of L5760 has been carried out to obtain more uniformity and smoothness of fruit. Today, after seven years of intensive work, there are three outstanding strains which ripen their fruit on the vines in short measured areas.

Selection one, is an extremely early prolific tomato. It has a growing period, the time from when it is transplanted in the field until the first ripe fruit is obtained, of about 56 days under Southern Alberta conditions. Though this selection is very early it is rough and lacks finish.

Selection two, is a much more superior type of tomato than selection one, but what it has gained in quality it has lost in earliness. This tomato is a week or more later in ripening than number one. Like selection one it is very prolific and early ripening, self-pruning type of tomato for Southern Alberta, says I. L. Nonneche, of that station.

Annabell MacCrimmon Bride In Candlelight Service, Monday

Baskets of pink and white asters and lighted tapers formed an attractive setting in First Baptist church Monday evening for the marriage of Miss Annabell MacCrimmon only daughter of Mr and Mrs. D. MacCrimmon, of Scotford, to Mr Donald Terry MacDonald, only son of Mr Donald MacIver of Edmonton, and the late Miss MacIver Rev Daniel Young assisted by Rev. S. D Trites performed the ceremony

Given in marriage by her father, the bride wore a gown of soft white crepe featuring a lace bodice with a yoke of net and lace. The sleeves were long and tapered over the wrists and her veil of English illusion net was held in place by a coronet of orange blossoms, she carried a bouquet of Amerian Beauty roses, and wore as her only jewellery, a cameo pendant, gift of the groom

Maid of honor Miss Catherine Brand cousin of the bride, wore a pink-gold crepe gown, styled on long torso lines, with a square neckline and short sleeves. She wore matching gloves and a small ruffled hat. Her bouquet was a colonial of pink roses and mauve sweet peas. Miss Joyce MacCrimmon and Miss Joyce Love Brand, cousins of the bride, were bridesmaids They were turquoise blue gowns, styled alike with long torso bodices and round necklines They wore matching gloves and hats to complete with a band of Sweetheart rosebuds and they carried colonial bouquets of pink rosebuds, white carnations and heather

Best man was Mr. Malcolm MacCrimmon, and the ushers were Mr. Jack Reynolds and Mr. John Lee Mr. Kenneth MacCrimmon, Mrs. Hector Smith played the wedding march and Mrs. Ernest Brand sang "O Perfect Love" during the service and the Lord's Prayer during the signing of the register.

A reception was held later at the home of Mrs. R. S. Brand, aunt of the bride, where pink and white flowers decorated the reception rooms. The bride's table was centered with a three-tiered wedding cake and flanked by tall pink tapers and bouquets

Mrs. Brand received with Mrs. MacCrimmon. The bride's mother wore a two-piece afternoon gown of deep gray cut-crepe with a matching hat and a corsage of Talisman roses.

Mr. Chris Pattinson, of Edson, spent the week-end with Mr. Brian. Miss Joyce Broad sang "I'll Walk Beside You." Mr. Alex Smart and

his home. Accompanying him were Mrs. Smart, Miss Smart and Mr. and Mrs. C. P. Bradshaw

Rev. Hover will be guest speaker at the Josephburg Reformed Church on Sunday, September 14.

Messrs. Dick Magor, Dr. Bacon, Dick Bacon and Bob Edwards left Wednesday morning on a business trip to Fort *St.* John. They expect to be away about one week.

Fort Shows to Run Three Nights Weekly

Commencing Tuesday, October 7th and continuing each week thereafter, the Fort Shows will operate three nights a week, Tuesday and district three shows each week on Tuesday, Thursday and Saturday evenings.

Mr. Lowe is revising his whole schedule of pictures and it is his intention, in the future, to bring better pictures for your entertainment. Included are some of the pictures to be shown here are: The Julian Story, The Virginian, Sundan, Enchanted Forest and To Each His Own. Dates when these pictures are to appear will be announced later—Don't miss them.

Work Progressing on First United Church

Work is rapidly progressing on the building of the new First United Church here. At the present time men are busy putting in the concrete floor in the basement and it is planned to have this section of the church ready in time for the 65th anniversary which is in October. A special service will be held on this occasion.

Considerable work has yet to be done on the main part of the church, which will not be completed till next year.

Increase British Agricultural Output

The net output of British agriculture increased by about 25 per cent during the war. Intensive mechanization made British agriculture among the most highly mechanized in the world, with 190,000 tractors compared with the pre-war count of 60,000. Output per man-year rose by 10-15 per cent. The problem now is to adjust the industry to post-war needs, while retaining the wartime gains in efficiency and developing them still further.

The governmental policy, both to save foreign exchange and for good farming, is to switch production, as rapidly as the cereals position permits, from the production of crops for direct human consumption to the production of live stock and live-stock products, especially pigs and poultry. The import of $1,000 worth of feeding-stuffs will save nearly $6,000 worth of imports of live-stock products.

Though the world cereal shortage has delayed this policy, it will remain the long-term solution, and as additional feeding-stuffs become available, they will be used to increase pig and poultry breeding stock.

Wye

Mr. and Mrs. Art Emmas of Millet spend Sunday with the folks at home, Mr and Mrs. Bert Bunford.

The meeting of the Girls' Club for September was held at the Thompson home. Eight members were present and some business was transacted. The evening was brought to a close with a tasty lunch served by the hostess.

Mrs. Krammer, Gladys and her girl friend, Una, spent a few days on the farm with the family.

Mr. and Mrs. Ed Fisher from Bay Lakes visited with their folks over the week-end.

Mr. Harry Dickson motored to Vegreville, Sunday to attend the golf tournament there.

Mr. Archie Thompson is a visitor at the home of Mr. and Mrs. J. Thompson.

Hay machining during the first half of 1947 showed 2,889,097 mechanical compared to 2,502,274 in the same period in 1946.

Thompson-Krebs Pledge Vows

Marriage of Mona Marie, third daughter of Mr and Mrs. Rudolph Krebs of Edmonton, to Mr Robert Thomson, youngest son of Mr. and Mrs. William Thomson of Wetaskiwin, Alberta took place in First Presbyterian church Friday, August 29 at 6 p.m. Rev. J. MacBeth Miller performed the double ring ceremony in a setting of summer flowers.

The bride, who was given in marriage by her father, wore a gown of ivory satin, the skirt styled with a peplum and terminating in a long train. The bodice featured a sweetheart neckline and long fitted sleeves and her full-length veil was caught to a beaded crown. Her only jewellery was a string of pearls, the groom's gift, and she carried a bouquet of red roses.

Bridesmaids were Miss Ellen Krebs, sister of the bride, and Miss Jessie Thomson, sister of the groom. They were gowned in mauve floor-length organza and pale green taffeta, respectively, with white lace mitts and matching headbands. They carried bouquets of mauve gladioli comprised their bouquets. Cheryl Krebs, niece of the bride, was flower girl. She was frocked in pink flocked organza and wore a white velvet ribbon in her hair. She carried the ring on a white satin cushion which was trimmed with lace and centred with a bow.

Attending the groom were Mr. James Rankine and Mr. Eric Roberts and ushering the guests were Mr. Ronald Krebs with white ribbons and clusters of flowers were Mr. James Thomson, brother of the groom, and Mr. Ernest Krebs, brother of the bride.

The wedding music was played by Mr. A. Newcombe. During the signing of the register by Mr. T. R. Baxter, aunt of the bride, sang "I'll Walk Beside You."

For her daughter's wedding, Mrs. Krebs chose a light green dress trimmed with ribbon and flowers in shades of green and a corsage of red roses. The groom's mother, Mrs. Thomson, was in a two-piece black crepe ensemble trimmed with rose. She also wore accessories in tone and a corsage of red roses.

A reception for 125 guests was held in the Rathmore room where Mr. Adolph Bocque, the bride's godfather, was master of ceremonies.

Centered with a three-tiered pillared wedding cake, the bride's table was decorated with white tapers and vases of gladioli and sweet pea.

Assisting in the many trips to the United States and the west coast, the bride donned a fine imbroidered dreamboat suit with brown and white accessories. A corsage of red roses was pinned at her shoulder.

The couple will reside in Edmonton.

Canadian Women Time Ever

Canadian women are entering widespread sheep killings on farms in the district southeast of Lacombe, says the Globe.

W. A. Budd reports coyotes have killed about seven of his sheep; Len Bailey has lost about nine; and Bob Fleming has lost about 15.

The coyotes apparently attack their prey in small groups, late at night or early in the morning. They will approach to within a short distance of the farm house.

Coyote numbers have increased and Lacombe district farmers say they are worse than ever this year W. A. Budd shot two coyotes with a rifle this summer, and other neighbors have managed to catch up with the occasional prowler

The Problems of the Lunch Box

The sandwich has been turned on the other lunch box. Too often it has been found to be uninteresting, unappetizing, and above all to be handled in three hands, recommended by Canada's Food rules which are necessary to build healthy, sturdy bodies.

To overcome these deficiencies, many communities have inaugurated school lunch projects, with great success. The homemaker has learned of the necessity of packing lunches which are good to look at, good to eat and good for the child. Here this medium, the child has also acquired proper eating habits.

To pack really good lunches day after day is a big task for the homemaker It requires plenty of planning, particularly at this time of year to give that needed variety The home economists, Consumer Section, Dominion Dept. of Agriculture, have a few suggestions which will simplify your work

Plan a lunch box preparation center in your kitchen. Store all canned and staple foods, also equipment required at this point.

Plan lunches for the next day when serving and preparing the day's meals. This makes possible the preparation of lunch foods while you are other meals.

Sandwich fillings should be prepared the night before and stored in a cool place. Several fillings may be made from one base—such as with a cheese base many flavor with relishes, jellies or hard cooked eggs.

Use fillings that will not cook the bread and do not allow them to run over the edge.

A variety of breads or quick breads add interest to the lunch box.

Wrap in waxed paper all foods not packed in covered containers. Casserole cook in baked custard and fruit gelatine may be packed in the custard cup in which they are baked or molded.

Put salads, creamed or scalloped dishes in a screw top jar

To give added interest and variety slip in a few tid bits from time to time—such as candies, nuts, raisins, dates, or a wedge of cheese

Be sure to serve raw, either a fruit or vegetable each day to provide something fresh and crisp.

SHAVEN IN THE PRICING

"Reuben," said little Elsie, "do men ever go to heaven?"

"Why, of course, dearie; what ever makes you ask that?"

"Cause, maumee, I never see any pictures of angels with whiskers."

"Well," answered her mother, in deep thought, "some men get into heaven, dearie, but only by a close shave."

Northern Highway Ready Next Spring

Completion of the 400-mile northern highway, from Grimshaw to Great Slave Lake as a gravelled road does not appear possible this year.

The highway, estimated to cost $1,500,000, is being built by the provincial and dominion under 6 joint agreement

Reports received by the Alberta Motor Association reveal that a 35-mile section on the Alberta side of the road just before it reaches the boundary of the Northwest Territories, has created many such obstructions, slowing down the work cause. Also, there is an absence of sufficient clay for gravelling purposes, making it necessary for such material to be hauled from a great distance. As a result it will not be possible to complete the section of the road within Alberta before spring

Many of the Alberta sections of the highway has been graveled and has been found to be in good condition.

On the 51-mile stretch in the Hertzberg Territories, the demolition is doing the work and has high hopes of finishing it before freeze-up, providing weather conditions are suitable.

« Recipes for Milady »

Nutritionists say if junior is to make good grades at school he must be well fed. His lunch box must rate high marks when checked against Canada's Food Rules

The lunch should supply its full quota of necessary foods if the day's meals are to add up to 100 per cent. It should contain the protein in the form of meat, fish, cheese, eggs, nuts or dried beans; a fruit or vegetable, frequently raw, and milk in the form of beverage, creamed soup, or dessert, as well as energy foods in the form of Canada-approved bread

Many schools, nowadays, provide either a full lunch or milk or soup for the children. If the full lunch is provided, the responsibility of preparing it is lifted from mother's shoulders. But where no provision is made to serve the midday meal at school, it is up to mother to pack a lunch that "packs a punch"

The home economists of the Consumer Section, Dominion Department of Agriculture offer some suggestions for such mid-meal lunch fillings. They also say that it sometimes making up lunches if a preparation of meals is checked with the equipment such as was

SAVOURY LIVER SANDWICH SPREAD

½ pound of liver (pork or beef)
1 teaspoon salt
2 cups boiling water
[illegible] cooked bacon
½ cup tart cheese
[illegible]
½ teaspoon salt
Pepper

Simmer liver with one teaspoon salt in boiling water for 20 minutes or until tender. Drain and cool. Put liver, cooked bacon and cheese through meat chopper. Add remaining ingredients. Store in refrigerator. Mix well before using. Yield: about 1½ cups spread

PEANUT BUTTER APPLE SPREAD

[illegible] cup peanut butter
½ cup apple sauce
½ cup chopped fresh apple
Mix peanut butter with the apple sauce. Add fresh chopped apple. Spread on either bread or toast. Yield enough for 3 large sand wiches.

NOTE If desired, apple sauce may be omitted and peanut butter blended with a little mayonnaise or salad dressing and chopped fresh apple

FRUIT COTTAGE CHEESE SPREAD

1 cup cottage cheese
½ teaspoon salt
½ cup raisins or drained chopped [illegible]
[illegible] dressing or mayonnaise

Chop fruit. Mix thoroughly with cheese and salt. Moisten with cream or salad dressing to spreading consistency Yield: 1½ cups

PREVENT HUNTING ACCIDENTS

Hunters will soon be heading out in search of ducks, geese and big game, and unfortunately shooting accidents will mar some of these outings.

Too often one hears of persons being killed from guns going off in cars, or while hunters are crossing fences, or shooting in the direction of other hunters.

Never carry loaded guns while driving in cars as there is a grave possibility of a gun discharging when being passed back and forth. Pay particular attention when crossing fences, put the gun through first with the muzzle pointing down and away from you, never pull it through after you.

Carry a loaded gun with the muzzle either pointing down or up and always have the safety catch on. It takes only a second to release the safety catch if game is sighted.

Above all, be sure of your target before you fire. A hunter is no way resembles a deer or moose, but they have been mistaken for one before, and it can happen again.

One final precaution that should never be overlooked, that is, to make sure that upon arriving home your gun is unloaded. Don't just put it in a corner and guess it is, break it open and make sure, then put it out of reach. Most children like to play with guns, with the result that many tragedies have occurred in homes because guns have been left where children can play with them.

There are many gun clubs and sporting organizations throughout the province with members who have the experience and knowledge in the use of firearms. If youth clubs were formed and these members could be prevailed upon to head these clubs and impart some of their knowledge to those attending, many of the accidents caused through improper handling of guns could be eliminated.

New Industry in Scotland

When the "Enterprise Scotland" Exhibition opened in Edinburgh on August 25th visitors saw many examples of goods formerly unknown to the Scottish industry. Those are the products of a number of light industries which have been introduced to the north during recent years as a means of providing more employment for the south of Scotland's "Development Area" and at the same time of expanding Britain's manufacturing potential. One of the new light industries shown at Edinburgh whose exhibits are of particular interest is pottery. These have been made specifically to meet the requirements of overseas markets, for such overseas market has its own very individual taste and these tastes are being studied and are catered for by the fine craftsmen of United Kingdom potteries today just as they were in the past centuries. Production for overseas is today almost the sole occupation of Britain's pottery industry Every decorated ton set or dinner set that is made goes to fulfill an export order. Only plain utility ware is sent to the home market. The exhibitors learned that but opening up for Unified Kingdom chinaware since the end of the war has helped the industry to make a valuable contribution to the national export drive, in the six months ended last June, Britain exported close to $5,000,000 worth of these goods compared with just over $600,000 worth in six months of 1938.

LIME IN KETTLES

To prevent deposits of lime in bottles, place a piece of lime in the bottoms of the kettle. The lime deposits itself on the lime and the lime can be washed off readily from time to time, and the linen re-used.

The Country Editor

By JIM GREENLAY

The Cardston, Alberta, News thinks there are lots of ways Mr Abbott could make life easier for the newspaper, argues that surely the Government doesn't need all the money that is coming in from permits to the fact that 3,136,322 was collected in April, May, June of this year, considerably more than the 1945 1,171,184 collected in the entire months of 1939 . . . It would seem as if Mr. Abbott could do with some lessons in economy

Labor and philosophy from the Cabour Standard, Saskatchewan Organ: "Never forget my friend, that the great men of our province have been good lumbermen, with axes in their hands. Remember that they knew and felt there were no rules to say one man is master over the unmaster hands" be

Social welfare is fine, but it costs money to pipe it, reminders the Essex Country Reporter, columnist: It is very nice when the state gives you a lot of things for nothing. It's a different matter, however, when they present you with the bill in the form of taxes. Nothing is free in this world, except advice and sometimes it costs you money.

Socialism and Communism are the compatible things the Shawinigan, Que., Standard, with these observations in an editorial:

"While socialism make a great outcry about 'purging' their ranks of communists there is a growing feeling among the politically-minded, despite differences in temperament and outlook, the end of the same, as it is becoming more and more difficult to find people who will argue very confidently for 'democracy' socialism. It is apparent that socialism and free enterprise—the right of the individual to seek his own way of life—cannot work together.

The Ehora Express rebukes the Federation of Agriculture for its ban on the manufacture of margarine in Canada:

If there has ever been a cross section of Canada in favor of free trade, it has been the farming section. Duties on farm machinery and other essentials have always been his pet gweige, and how can he justify his stand on oleomargarine when he cannot or will not produce enough butter, only he and the Federation will ever know. But that stand does neither the farmer nor the Federation a kindness, and here as we have always been to see a strong organization formed in the protection of farm interests, we are not equally here to see the farmer sell himself into the custody of the bosses of that organization. It smacks too much of the undesirable elements of trade unionism, which is due for a house-cleaning right now.

BITS HERE AND THERE

At Cranbrook, B.C., Art Hayden pulled a boat from his garden that measured 16½ inches in girth . . . Jack Woodhall, Jr., got a fresh in his garden at Watford, Ont., a vigorous green stalk with two potatoes on the roots and three small green tomatoes growing in the top . . . At Smith's Falls, Ont., everyone including the odd rubber their own Monday morning recently, met a single intoxication charge came up . . . Jackie Macdonald, 11 years, is in the Comox, B.C. hospital . . . he fell through a chimney, two floors, 18 feet . . . Bert McQuarrie, veteran of two wars, starts a one-man industry at Kamloops, B.C., a chocolate and candy factory . . . At Regina, Sask., Leslie Hewey a man read says, "It pays to keep your spare time reading books in the library."

World of Wheat

By S. C. L. STRANGE
Director "The Crop Testing Plan"

FALL RYE AND WINTER WHEAT

Every year a small, but time the Crop Testing Plans and other crop improvement organizations which distribute Registered or Certified seed, receive frantic calls from farmers who wish to purchase fall rye or winter wheat for immediate sowing. It is soon discovered that no supplies of seed are available, for as seldom indeed the case these persons a crop of winter rye or wheat is harvested, and demands are rapidly made by the first week of September There is however a simple method that farmers can adopt to assure themselves a supply of good fall rye or winter wheat seed, which is to put aside these items ten months ahead. Usually there is a good supply available of Registered or Certified fall rye or winter wheat of desirable varieties in October, November and December. These are the months when farmers who have their own threshing machines are busy with their grain crops, and are in a position to set aside the small amount of seed required. Farmers who have their own threshing machines are busy with their grain crops, and are in a position to set aside the small amount of seed required. Farmers who have their own threshing machines are busy with their grain crops, and are in a position to set aside the small amount of seed required.

The British railway companies warn the general public that they are overlooking the claim that it is going to mean at least 65 per cent higher passenger fares than the pre-war rates, and 70 per cent higher freight rates

The Canadian railways are seeking no increase on passenger rates, and 30 per cent on freight rates

Quite clearly, socialism does not expect to work but to be on the dole Labor wages and the dole are to keep pace, but which we are uncertain ing in Canada

ITEMS OF INTEREST IN THE WORLD OF FORESTRY

The Provincial return is to be changed from 7 months 30 to 7 months 15 effective September 1, making it one month and 15 days longer. This means that the men will have more time to work in the winter when to best advantage and during the first month in September.

Argentina recently negotiated limited coal supply with France and Czechoslovakia for a five year period with permit to be determined from time to time.

The United States government is calling upon American farmers to expand his favorite hook, found a ten dollar bill

New Era for Pacific Shipping

Amalgamation by Vancouver shipowners of 44 Canadian war-built "Park" ships opened up a new era in the deep-sea shipping industry of the Dominion, it was announced recently. Over a 20-year period, coastwise shipping services from Atlantic to Pacific ports, and from Vancouver to Vancouver. Not all of these are operating, however, due to the wartime disfigurement of steamship services. With the return of British and foreign shipping to their normal trade routes, however, more and more foreign-flag ships are finding their way into west coast ports. This disintegration of normal services, and the opportunity to purchase modern war-going vessels at a reasonable price gave British Columbia shipping interests the opportunity to enter these services on their own behalf

"On Anxiety Street there are plenty of neighbours."
"It's mighty decent of you, Henry, to take young Bill to school while I'm on my back," said Elsie.
"Yes, it's a real neighbourly act," his wife added.
"Think nothing of it," said Henry. "They say, you know, that on Anxiety Street there are plenty of neighbours. Certainly I've learned a lot about being neighbourly from the business I'm in."
Henry's business . . . the life insurance business . . . is founded on that very thing. It comes to the aid of anxious people in time of trouble or bereavement. Four million people have found that the surest way to peace of mind for themselves and their loved ones is to pool their savings and share in the benefits of a fund which pays out more than half a million dollars every working day to policyholders and beneficiaries.
Life insurance was designed to provide protection for the people through the people's thrift. During the war years its payments to policyholders and beneficiaries in Canada amounted to over One Billion Dollars. Thirty Million Dollars of these payments went to beneficiaries of those who had died on Active Service overseas.
Now you is a life insurance agent. Ask him for advice in planning your future. It is good citizenship to own life insurance.
A message from the Life Insurance Companies in Canada and their agents.

Timely Farm Notes

By R. J. Whitford, District Agriculturist

SALT SPREDS GAINS

Pigs don't need much salt, but it's good business to see that they do have that little bit.

According to a report in the Farm Journal 6 tests have been conducted and the results corrected are rather impressive.

The saving of $7.40 in cost per 100 pounds of gain was about the same as in the earlier tests. The pigs getting all the bone ash they weighed 100 pounds gain, and they gained two and one-half times faster than those without it.

The pigs ate just a little over one-third ounce of salt daily. Each pound of salt saved $5.59 worth of feed.

It's a good idea to keep salt in weather-protected box-feeder, where the pigs can help themselves.

* * *

The Australian wool selling season now ended showed an enterprise return to producers of about $1.10 per pound for greasy wool. This is about 44 per cent increase over the previous year's price.

* * *

INFORMATION ON SELECTION OF AND FITTING BEEF CATTLE

In selecting animals for prospective show materials, particular emphasis should be given to those characters that do not ordinarily alter with improved conditions. Good character, good head and horn, evenness of lines, smoothness of form, natural finishing, style, together with the ability to stand and walk evenly, are features which should be kept in mind. Fat covers a number of defects and improves an animal from the standpoint of thickness and general show conformation, but it does not affect inherent faults, for example, as the head and loins, that are, after all, inherent in an animal.

The question of age in the intermediate classes should be considered. Uniformity in the breeding classes and in some cases in market animals is based on age and the aim should be to have animals born at such a date that they will fit into their respective classes to best advantage. In the case of both junior and senior calves this is especially important, as a matter of two months difference in age is significant. It ceases to make good management.

Frequently final selection for the show is not made until the animals have attained some age, which suggests the advisability of carrying them along under favorable conditions from birth. It is good business, providing a sufficient number are retained each year, to maintain a few additional ones to provide for a wider selection. Obviously it is an advantage to plan to spread the entries over as many classes as possible rather than attempt to fill any one class with several animals. The grand classes are always worth keeping in mind, and in selecting animals all the individual entries one should within reasonable limits give preference to those that will at the same time qualify for the various herd groups together with get-of-sire and progeny of dam. Pairs, trios and entry forms should be in the hands of the exhibitor as early as possible and all entries forwarded well ahead of date of closing. Certificates of registration are called for at times during the show, and one has in mind it is advisable to have either the official pedigrees or copies of these available.

* * *

THOSE PIGS WILL BE HAVE HIM

Even if you don't approach your litters of sucks farrowing reports to the purebred swine production registries, it will pay you to weigh your litters at 56 days. Then, a week weaning weight is the most practical standard a farmer can for selecting sows, for it reflects the sow's ability to farrow, save and rear to these large foot growing litters and that's where the money is. The heaviest litters at 8 months are almost invariably the heaviest litters at 6 months, and it's much easier to weigh and record them at the younger age.

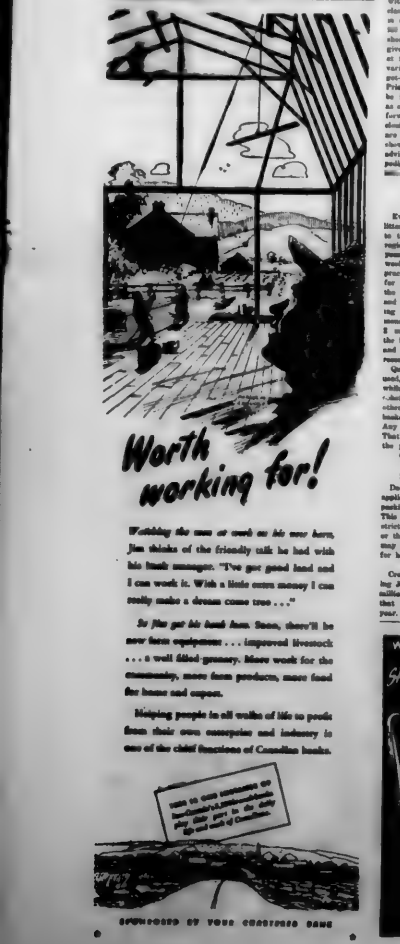
Quite often half-grown males are used, the weigher holding each pig while he stands on the scales, then subtracting his own weight. Another method is to put them in a basket hanging on spring scales. Any way to get them weighed. That's what constitutes a record of the pig's weight at 56 days.

Continued On Page Five

HOG QUOTAS ENDED

Domestic hog quotas which have applied to all Dominion-inspected packing firms have been abolished. This means there will be no restrictions on the slaughter of hogs or the distribution of pork, which may result in larger pork supplies for home consumption.

Creamery butter production during July was estimated to be 4½ million pounds or 8 per cent over that produced during July last year.



Watching the cows at work on his own farm, Jim thinks of the friendly talk he had with his bank manager. "I've got good land and I can work it. With a little extra money I can really make a dream come true . . ."

So Jim got his bank loan. Soon, there'll be new farm equipment . . . improved livestock . . . a well filled granary. More work for the community, more farm products, more food for home and export.

Helping people in all walks of life to profit from their own enterprise and industry is one of the chief functions of Canadian banks.

Radio Personalities

R. B. LAMBERT AND ALENE KAMINS

Now that school is under way, radio people as well as students and teachers have a special interest in school surveys. In the picture above, Mr Lambert, supervisor of school broadcasts for the CBC, and Alene Kamins, 13 year-old radio actress, run through a script in preparation for a new series of National School Broadcasts to burn in October.

LOUIS CREBAR

Toronto pianist and accompanist, who plays for radio listeners as a member of the Toronto Trio. The instrumental group also includes Marcel Bay, cellist, and Murray Adaskin, violinist. A native of London, England, Crebar has been prominent in the musical life of Toronto since he made his radio debut in 1936.

MURRAY ADASKIN

Well-known Canadian violinist and founder and director of the "Toronto Trio" popular string group. Mr. Adaskin has appeared in most of the CBC's major musical programs originating in Toronto.

Early Chicks Now Paying Producers

Poultry raisers were urged early this year by Poultry Services, Dominion Department of Agriculture to buy or hatch chicks a month to two months earlier than usually to us to make eggs available in the fall and winter for export to Great Britain. They are now benefiting by the pay-off. Two cars of new crop eggs were delivered to the Special Products Board on August 28, for shipment to Great Britain against the British egg contract. This was a full month earlier than in 1946, and the 1947 early hatched pullets should enable shipments to continue on delivery throughout the fall and winter, when Britain wants them most and pays a premium for them, say officials of the department.

Announcement has been made officially through the British Food Mission, that the agreement with Canada for sale of eggs and egg products extending to the end of January, 1949, will not be affected by measures being taken by Britain to strengthen her economic position.

POTATOES FOR PORTUGAL

In May, 1947, a new market for Canadian certified seed potatoes was opened up in Portugal when 27,884 bushels of Foundation and Foundation A seed were shipped. This is believed to be the first shipment to that country.

A New Variety of Feed Barley

The choice of feed barleys available to farmers of western Canada was recently increased by the licensing of Vantage barley. This new six-rowed, smooth awned variety was developed at the Dominion Experimental Farm Brandon, as a result of an attempt to improve on the well-known Plumb Variety, says W H Johnston of that station in fact, Vantage resembles Plumb, which is one parent, in general appearance under field conditions and is not greatly different in time of maturity or in height of plant. Vantage yields well and is adapted to a wide variety of soil and climatic conditions. Over a period of five years it has outyielded Plumb four times out of five. Vantage also shows an improved straw strength and a consistently higher bushel weight.

Vantage is expected to be a satisfactory variety for combining. It has been found to shatter very little and to suffer only slight damage from hand dropping. From the standpoint of disease resistance it has both its good and bad points. It is resistant to stem rust, a characteristic that should be added insurance against reduced yields particularly where late seeding is practised. On the other hand, it is susceptible to root rot and to the smut diseases.

Vantage is not suitable for malting purposes. It has failed to meet the requirements of either the Canadian or American malting standards and therefore cannot [illegible] No. 1 Feed.

It is expected that Vantage will replace Plumb as a feed barley in many parts of Manitoba and Saskatchewan. Whether or not Vantage will be a suitable variety for parts of Alberta has not been determined At the present time it is not recommended in that province.

The first distribution of seed is planned for the spring of 1948. It is now known that the extent of this distribution will be much more limited than had previously been planned, because of the damage to increase fields from floods and rainstorms and the relatively high moisture of those seed in one of two fields. The bulk of the seed going out will be from crops grown from hot water treated seed

GIANT BEANS

It is reported in the Australian Newsletter, supp "Agriculture Abroad," that edible beans more than four feet long, weighing up to 14 lbs. each, have been grown in the State of Victoria from seeds brought in from New Guinea. Once set, the beans are said to grow at the rate of 2½ inches a day

Gen. H. D. G. Crerar, head of the Canadian delegation buying Japan recently, said that Canada was reviving interest in the Far East and may soon be trading with Japan.

Timely Farm Notes Continued

Based on Production Registry tests, your best cows should raise 2 or more pigs to a 56-day litter weight of at least 220 lbs. For gilts 18 months of age or younger the standard is 275 lbs. Exceptional litters have gone as high as 370 lbs.

Now is the time to learn which of your sows and sow strains are the most efficient producers.

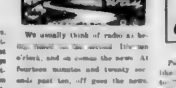
Sow-testing experiments show that the best-producing sows are also the best mothers. Selecting on the producers of hot-weighted litters will automatically build you a herd of gentle, money-making sows.

* * *

BOUGHAGE FOR WINTER FEEDING

"Winter your cattle in the semi-mettime" is an old saying and a true one When cattle are in a good, thrifty condition when a winter comes, they make a better and a more economical condition of the roughage.

The imported cultivated hays are crested wheat, brome, slender wheat, alfalfa, sweet clover, native bluejoint and rough hay. For wintering beef cattle, experiments have shown that all these hays except rough hay have practically equal feeding value. Alfalfa alone has been fed to calves with good results, but when a severe cold spell comes it lacks the heat giving qualities of the other grass hays which are higher in carbohydrates. Alfalfa mixed with any other grass hay makes an excellent feed for all cattle and can be valued 20 per cent better than any single roughage Sweet clover fed alone may cause digestive disturbances and a chronic diarrhoea may occur in calves Sweet clover, however, fed in combination with other roughages is a good winter maintenance ration. The nutritive value of slough grass varies widely It is usually rated 10 per cent below the other hays. When it is fed combination with other hays, it increases the supply and makes a good winter ration. In periods of feed shortages, all secondary hays, such as reed canary, slough grass, have a more value than usually considered.



We usually think of rudeness as the [illegible] the second [illegible] a clock, and [illegible] seven At fourteen minutes and twenty seconds past ten, off goes the news. At ten fifteen on comes the next program, and so on But there's another kind of rudeness that [illegible] over and that can be when [illegible] At least all the best [illegible] are the nouveaux, the producers, and the operators on the individual stations quite a bit of worry. We're talking about the Gillett Fight Bread cents every Friday night at 8:00 Sagmore Kool Kitchen hooked out his opponent at ten minutes past eight The show is over—and the usual canal discharge These pays had made no growth for over a month and were badly out of condition, The seven pigs were penned together and fed a sloppy feed At once they responded. A month later they were smooth and slick, had made good gains and it is reported that they will now reach market weight at not more than three weeks older than the healthy pigs in the land.

* * *

AFTER HARVEST CULTIVATION FOR CONTROL OF WILD OATS

When the rains came in August, this year, Wild Oats and many other annual weeds flourished with the result that Wild Oats are particularly prevalent in many fields of grain

Harvesting operations with [illegible] in many wild oats being cut green and the seed taken off with the threshed grain. But where the wild oats ripened there will be a heavy scattering of seed on the ground. It is advisable to give such stubble field a light dueing immediately behind the binder to cover these so they will be in position to grow this fall, to be destroyed by winter frost, or be the better placed to start growth early in the spring.

NEW CONTROL FOR ROOT ROT

Scientific agriculture has con[illegible] for controlling fungi, which causes black root rot. The soil is treated with a chemical called tetramethyl [illegible] TT for short It is expected to benefit farmers [illegible] The chemical was [illegible] over a period of three years by a research program initiated by a sugar company to check root rot in beet fields It is said to be applicable to all [illegible] crops, tomatoes, melons and tobacco.

Favorable weather reports from Australia indicate a pre-like record harvest for that country of 220 million bushels this year Elsewhere lack of rain in the next few weeks could destroy hope of such a good crop.

CANADA'S health

DON'T "GOBBLE"

Pushing [illegible] scrip-readers like the [illegible] into one can afford to "gobble food, nutrition authorities in Canada are urging the more thorough chewing of food, particularly by children

Only by mastering digestion with the teeth, can people hope to get all the health benefits [illegible] the experts who shudder to think of the speed with which many city dwellers consume their noon-day meal and breakfast

An interesting experiment in time required for proper food disintegration was carried out in England, where the suspects of care-ful study were small children on a nursery school. It was found that not less than 25 minutes was required by a small child to the jaw-bite to a normal mouthful [illegible] Then there was the [illegible] fitted most from their food were taking an average of 15 minutes to eat it

The need of restful environment at mealtimes also figured in the report of the nursery-eat survey It confirmed previous an wledge that meals are most beneficial if eaten in calm surroundings, where there is a minimum of clatter and chatter

* * *

SAVING TEETH

It is not wise to wait until you have teeth ache before calling on the [illegible] authorities to [illegible], particularly parents, shall much use, pain and expense may be saved if teeth are examined periodically, to forestall major oral overhaul

There may be signs of [illegible] to come, even when the teeth are feeling fine, and continuing to [illegible] evidence of trouble The dentist, who is a particularly busy professional man in this after-war period, can soon spot a danger point, and do something about it And, the authorities point out early examination now will usually be brief and painless—much better than waiting until extensive repair is demanded by [illegible]

ward on Behring Coast along the parallel of Dawson City of Yukon District, Canada.

The northern limit of 62 degree latitude for the growing of wheat can probably be pushed back in time so far north as 67 degrees 30 minutes as a result of early ripening hardy strains developed at Kolyma and Yakutsk on the parallel of progress is less than three months in the year and more covers the ground

A Dawsonian Experimental Sub-Station has been established at Whitehorse in the Yukon Territory for the purpose of studying agriculture in the far north of Canada.

Here and There

The sum of $1,200,000 was paid out in death claims by life insurance companies in Canada in the province of Alberta during the six months of 1947.

In making this announcement, the Canadian Life Insurance Officers also announced that during the six month period, Alberta claims on 565 ordinary life policies amounted to $1,297,193 on 112 group policies $134,172 and $26 in

For the whole of Canada, death claims paid during this period totalled $64,874,349 while benefits of all kinds reached the grand total of $92,000,000.

The figures were compiled by the Canadian Life Insurance Officers Association based on the data of companies representing more than 95 per cent of the life insurance in force in Canada.

Carload entries in the 1947 National Belgian Horse Show organized by the Brewing and Malting industries started arriving in late August at the grain inspection branch in Winnipeg.

Early returns show great variations in yield and grade. Fortunately both are better as one moves north and there is likely to be some good quality product for the final judging.

Honey Crop Increase

According to a survey recently completed, 41,982,000 pounds of honey will be produced in Canada in 1947. This estimate includes both light and dark honey and is based on the condition of the colonies during the second and third weeks of August. Much larger crops are expected than in 1946 in all provinces, the greatest improvement being shown in Eastern Canada.

Production by provinces is estimated as follows: Prince Edward Island, 79,000 lbs.; Nova Scotia, 182,000 lbs.; New Brunswick, 286,000 lbs.; Quebec, 6,134,000 lbs.; Ontario, 13,368,000 lbs.; Manitoba 7,782,000 lbs.; Saskatchewan, 3,982,000 lbs.; Alberta 6,839,000 lbs.; and British Columbia, 1,3.0,000 lb.

SUBSTITUTE FOR LINSEED OIL

After four years or research a United Kingdom research team has found what is believed to be a economical commercial substitute for linseed oil, an import that now costs Britain large sums. The end of the long search came when a young virus, growing in the jungle in the British territories of Sierra Leone, Nigeria, and other parts of tropical West Africa, was analyzed. Scientists call it tetraterpillum complorum.

The seeds of the vine have a hard black shell containing a white oil kernel. This kernal contains up to 35 per cent of a cream-colored oil which has the quality and odor of linseed oil. Extensive tests have shown that various paints and varnishes can be made from the oil, which is known as Canophor Oil.

SEND IN THE NEWS!

Insulation of Farm Buildings

Adequate insulation provides increased comfort and healthier living conditions in the home, poultry house or barn. It does this by keeping inside temperatures more uniform and reducing dampness. There is a notable saving of fuel costs in houses that are insulated

R. B. Martin, Extension Agricultural Engineer for the Alberta Department of Agriculture, says that home or non-processed insulating materials such as sawdust, planer shavings, straw and peat have considerable insulating value. The quality of these materials varies greatly however, some have more resistance per pinoto of wood or those that have a lot of fine dust in them, should be avoided Dryness is also important. If these materials are dry when placed in the building and kept dry, they will not deteriorate, but if damp or allowed to become damp they do not dry readily When damp their efficiency is considerably lessened and more important, the life of the building may be shortened 40 to 50 per cent because of the moisture which will bring on decay.

Unless these non-processed insulating materials are chemically treated, there is always a danger of vermin or infestation and due to practical methods of fireproofing them, One treatment that can be used is to add 10 per cent borax mice and other vermin to to sprinkle slaked lime freely in the walls at the time of insulation If these insulating materials are used, they should be dry when applied, and kept dry by the use of vapor barrier applied on the warm

Fighting Diphtheria

Approximately 600 local authorities in England and Wales, are organizing campaigns in support of the Ministry of Health's drive to get children immunized against diphtheria before their first birthday Their slogan is "Diphtheria Costs Lives Immunization Costs Nothing" Since 1941, when a national campaign against diphtheria was launched by the Ministry of Health, remarkable progress has been made. In that year the numbers of cases (18,264) and deaths (472) were again the lowest ever recorded Pre-war figures averaged about 58,000 cases and 2,000 deaths per year The increased for double last year means that for every six children who died from diphtheria before the war, only one died in 1946. The number of cases has fallen by 40 000 Last year nearly half a million children under five years of age were immunized during the total number of children immunized over the campaign's seven years has been 4,500,000. The aim this year is to immunize 500,000 babies before their first birthday

Jean O'Brien Feted at Showers

On Monday evening of this week Mrs. H. Tweedy and Mrs. H. Larsen were co-hostesses at a miscellaneous shower for Miss Jean O'Brien at the home of Mrs. Tweedy.

The guests enjoyed an evening of interesting games and contests. A pantomime was then brought into the room and Jean was asked to tell something of the nature of the work in which her fiance was engaged. To her surprise, upon picking up the sheets, Jean discovered a newly decorated bedroom complete with wall paper which filled with gifts. Lunch was served after which Jean appropriately expressed her thanks.

One evening recently Miss Esther Froehlking entertained for Jean O'Brien with a linen shower There were twelve of her friends from Alberta College present.

Bertier in the season Clari and Violet Chaubunk assisted by Esther Johnson honored Jean with a "surprise" shower, with many of her former classmates present. A jolly evening was spent with games and contests, and she was the recipient of many lovely gifts.

These taking part were: Esther Johnson, Clari and Violet Chaubunk, Ada Williams, Edith Radley, Glenrose Davies, Margaree Hall, Grace Wilson, Elaine Pappas, Kay McLellan, Mrs. Dorey Whitton, Dorothy Horst, Norma Flintoff, Gladys Grambski and Helen Brunti.

East Edmonton

Organize School Safety Patrol in Fort

A School Safety Patrol was organized at the Fort school last Wednesday when Sgt. Muir of the R.C.M.P. assisted by Constable Thomas visited the school. The patrol members have been chosen from grades six, seven and eight and will have control of the whole student body at street intersections during the required periods of the day. They will also control the loading and unloading of the school buses.

On Friday afternoon an educational picture will be shown in the Community Hall which will be followed by the issuing of caps and badges, bands and capes to patrol members, before the staff and students.

All students are responsible to the members of the patrol who in turn are responsible to the Principal, Local Constable and the R.C.M.P.

Accidents involving school children take a heavy toll every year. It is hoped that this patrol here will permit any such occurrence.

S. Cooking Lake

On September 2nd, a radically sunny Tuesday, Franklin School opened its doors to a enthusiastic company of boys and girls, who, surfeited with two months of days on the old farm, were somewhat glad to come back to

Among them were two very happy adventurous voyageurs, deCouvers, entering school for the first time—Victoria Beveridge and Bobby Horton. Bobby is the fourth child of Mr. and Mrs. Horton now in school. Bon voyage to you, Victoria and Bobby!

We were glad to welcome, also, five pupils, visitors at the lake, who were unable to enter school at the beginning of the year. They, too, must glad to find relief in school from the purposeless holidays.

However, Ronald and Phyllis Matteson were called to the city after only a few days, and we fear we shall see no more Jackie, Rosemary and Bruce Watson.

Moreover, we have regretfully transferred our five Waters children to Fultonvale—Neil, Betty, Shirley, Reggie and Lois. But we believe they will be very happy with Miss Hennessy.

In our numbers, starting at 8S, have dwindled to 32, and when the

Minutes of September Meeting Of the M.D. of Strathcona

The September meeting of the Municipal District of Strathcona, No. 20, was held in the Municipal Office on Monday the 8th of September with all members present.

Business commenced by the adoption of the minutes of the meeting held on the 11 of August, 1947 and the Financial Statement for the same month

Consideration was given to the largest statement of the road grading crew. In discussing this statement the Council remembered at some length, ways and means of speeding up the work in order to ensure that the government grant would be earned.

Orders passed by the Council many months ago for new machinery will remain unfilled and it has been decided to purchase a new tandem gang scraper from the A. A. Ware Construction Company for a rental fee of $700 00 per month

At the present time, the earth moving on the road allowance east of Edmonton, which project it hope to complete within a few days, providing weather permits work to be resumed

Mr Jack West, representing the East Edmonton Community Association was in attendance at the meeting of the Council that the association had agreed to accept $800 00 for a strip of land forty feet wide along the north boundary of the recreation site for a right-of-way for the gas company

He intimated that a quotation had been obtained regarding the moving of the Community Hall, made necessary by the construction of a new gas line, which had been estimated at $275.00, plus $225.00 for general damages. This figure had been quoted to the gas company who intimated that they would be prepared to pay the sum provided it covered the purchase of the land outright and not an assignment for a right-of-way.

In the resulting discussion it was pointed out to Mr Weir that if this strip of land was sold outright to the gas company it would deny the community a free right-of-way to the property unless a written agreement was obtained from the company guaranteeing uninterrupted access to and egress to the recreation ground property

It was left to the Secretary to discuss this question with company officials and report back to the Council at its next meeting.

The Secretary advised that one appeal had been received from the Decision of the Court of Revision, which had been forwarded to the Department of Municipal Affairs at OSCA. The date of the hearing of this appeal had not yet been announced by the Department.

In compliance with a request of the Minister of Agriculture, Mr. R. J. Whitbread, District Veterinarian, was appointed by the Council as the representative of the Municipal District of Strathcona on the Service Board in the Municipal District.

An application to purchase 7½ acres in Sequoia Park for $1,500.00 was rejected on the grounds that the offer was too low. The Council considered that a price of $175.00 per acre on this property.

A permit was granted to G. J. Symons Ltd. to operate a meat market on Block 2, Stanley Park sub-division subject to his conforming to the requirements of the Department of Health.

The Council passed a by-law approving the sale of three lots in Block 2, Braemore to the homeowner, Mrs. Sophia Grant, Goderich, Ontario, on payment of all the accrued taxes to the end of 1947.

By-law No. 112, approving the purchase of a cable attachment for the D-8 tractor from the Union Tractor and Equipment Company, Edmonton, for the sum of $1,564.47 was given three readings.

The Secretary introduced the question of the disposal of a dead horse on the road allowance south of Braemore; as well as the removing at large of a number of cows loose throughout the district. He advised that Mr. Dawson, Field Supervisor, had undertaken the task of learning the owners of this animal, as no one else in the district could be obtained to undertake this work. Regarding the stray horses, the Council were at

$630 Donated for New Fire Engine

A special meeting of the Town Council was held Wednesday evening in the Town Hall to deal with the purchase of a new fire truck and the forming of a School Safety Patrol.

A delegation from the Fire Brigade was present requesting the council to purchase a fire truck from the War Assets Corporation.

The price of the crash truck if bought now, would be in the neighborhood of $2,000.00, but could be purchased now for $1,500.00.

Considerable discussion took place regarding the purchase of this truck and the expense it involved.

The delegation was instructed by the members of the Fire Brigade to offer the council a donation of $630 from their funds towards the purchase of this truck. They felt that the added protection residents and business men would receive from another fire truck would do for more good than having the money tied up in bank.

Mr. C. O. Jones donated $630, also a cheque for $20.00 was received from the Fort Hotel.

The delegation pointed out the features of the fire truck that they urged the council to buy. It is equipped for big nozzles, hose and five extinguishers and carries its own water supply that can be pumped through it at rerious at the scene of the fire.

No time is lost in stringing and coupling hose. It's the previous few minutes required to do this work that is quite often the determining factor in whether a building can be saved or becomes a total loss.

With this extra fire protection the property in the surrounding district may also benefit if they so desire. It is planned to hold a meeting in the near future to which the farmers will be invited, and at which a demonstration will be given on the effectiveness of fighting fires with fog nozzles.

Supt. Muir of the R.C.M.P. was present at the meeting and explained the purpose of a school patrol and the part that members of the patrol played in helping to avoid traffic accidents.

He stated that in the eleven years the force had been operating in Edmonton, not one child had been injured by cars or trucks. He also explained the bands, badges and rain capes issued free to the members.

Mayor Blair was assured of the co-operation of the Council and school board and thanked for his part in setting up this patrol.

Fort High Students Hold First Party

A very enjoyable "Hobo" party was held last Friday evening by students of the Fort High. This was the first party held this year, and was instituted in order that the new and old students could become better acquainted. A very nice gesture from those now attending school was an invitation to former Fort High students to come and join in the fun.

The evening was spent in playing games, with prizes being awarded to the best girl and boy hobo, which were won by Miss Prit and Edward Galloway.

Lunch was welcome and was served after which dancing was continued until it was time to go home.

Former Braemer Resident Passes

On September 2nd Cecil Atkinson of Cowan Falls, B.C. passed away in Vancouver, following a short illness.

He leaves to mourn his loss, one brother, George. Funeral services were held in Vancouver on Friday, September 5th.

Prior to moving to Cowan Falls, about six years ago, Mr. Atkinson farmed in the Braemer district for years and is well remembered by residents of the Fort and district.

DANGER AT HOME

Drinking water and cookery do not have the same fatal attraction for children as fire—one of the most dangerous horse for young-sters—but, say the medical authorities, little harm here to burn or sear and very into pot and pans, sometimes with tragic results.

Give toddlers' room plenty of room these protective measures: tighten taps so that children cannot turn them easily; push pots, pans and handles containing cooking water well back, so that they cannot be reached by prying fingers, and save the handles of pots so they have some responsible adult turn their water before a child climbs into it.

In 1946, nine billion dollars was spent in U.S.A. for liquor.

Timely Farm Notes

By R. J. Whitbread, District Agriculturist

WINTER HOUSING OF PIGS

For the average breeder who is growing a moderate number of pigs, the cost of winter housing can be held to a low figure by using well constructed straw sheds and by planning the farrowing dates for summer of the year when temperatures are suitable.

Straw sheds may be supplemented by portable wall cabins or the "A" shaped cabins for housing sows with litters, but if used in cold weather they should be banked with straw. These cabins can be easily moved to fresh land. Both the cabin and straw shed should have an opening in the south to be used for both door and ventilation. This opening should be kept unscreened except in very stormy weather when a burlap bag may be hung over it. Ventilation is important to remove excess moisture and reduce the collection of frost inside.

Straw sheds can be constructed approximately 12 by 14 feet so that in this sized house it is easier to control steam and moisture when pigs are housed in small numbers.

Almost as important as housing is the liberal supply of bedding and in the case of the straw shed, of bedding becomes scarce the pigs damage the walls to obtain bedding unless the inside of the walls are protected by boards or some such material.

If pigs are to arrive at various times in the winter provision should be made for farrowing pens where the temperature can be maintained. A well sheep farrowing until the pigs are at least a week old. For most of better conditions, many pigs have been farrowed in the barn where other stock are housed in sufficient numbers to keep the temperature from becoming two low. Small buildings such as grain bins may be banked with straw and a stove used, but if many pigs are to be farrow in winter some permanent arrangement should be made and perhaps a pig brooder constructed. Plans for a pig brooder may be obtained by writing the Alberta Department of Agriculture.

If a permanent pigpery or pig barn is to be built all available plans should be investigated and permanent buildings inspected wherever possible, including growers' and feeding stallions and pig series at various institutions. The only justification for the outlay of money for a permanent building is reasonable certainty of continuance use over a long period of years.

JUNIOR CALF CLUB

The Junior Calf Feeding programs commences in November with some fifteen calf clubs each having a calf to 600 lb. beef calf and continues till June by which time, under feeding supervision, the calf will have consumed about a ton of chop and weigh 800 to 850 lbs. Boys and girls, ages 12 to 20 years are eligible for membership in each a club.

Supervised calf-feeding has for those clubs cost about 11c to 12c a lb., $60.00 to $80.00. They require about $90.00 worth of feed and sell at premium prices, if well fitted, ranging from 15c to 25c a lb. at auction at the Edmonton Fair, free of any selling price.

R. J. Whitbread, District Agriculturist, Edmonton, is the supervisor in charge of Junior Calf Club activities in the Edmonton area.

URGE MASTITIS CONTROL

No single disease of dairy-there is causing more concern among dairymen than mastitis. This disease is found all over the world where cows are used for milk production. It reduces milk flow, lowers quality of milk, and eliminates from our herds many of the best producing cows.

The control of Mastitis had been given considerable attention by veterinarians, herd owners and governments in many parts of North America. In Alberta, laboratory facilities were established by the Alberta Department of Agriculture in 1946 for the analysis of milk samples from herds in the Edmonton area. In 1947 the service was extended to all areas in the province specializing in milk production. Cows were sampled by a qualified veterinarian and treatment recommended on the basis of laboratory reports.

Cost of treatment seems to have discouraged some herd owners, and a rather limited number have

« Recipes for Milady »

There are so many excellent recipes for green tomato pickles, ripe cucumber, relishes and pepper jellies that it is hard to store away so many jars as possible for winter use.

The home economists of the Department of Agriculture say that in the rush to fill the cellar shelves, many treats are missed which could be enjoyed today. They suggest using green tomatoes, ripe cucumbers, corn and green peppers in seasonal dishes

SEE
CUCUMBER AND PEPPER CASSEROLE

3 cups diced ripe cucumber (3 large 6-in.)
1 green pepper
1 sweet red pepper
2 tablespoons, chopped onion
2 cups bread crumbs
1 teaspoon salt
Pepper
¼ tablespoons butter

Peel, remove seeds and cut cucumber into dice, chop peppers and onion. Arrange cucumber, peppers and onions in layers, sprinkle each layer with bread crumbs, salt and pepper. Top with crumbs, dot with butter and bake 45 minutes at 350 degrees F. Six servings.

SEE
CREOLE CORN

2 cups corn cut from 4 medium cobs
1 3 cup chopped onion
¼ cup chopped green peppers
6 medium tomatoes

Skin and pepper to taste. Cook corn, onion, green peppers and tomatoes in a covered sauce pan for 20 minutes. Season with salt and pepper. Six servings.

SEE
GREEN TOMATO CHEESE
DE ALLOP

6 medium green tomatoes
2 large onions sliced
2 cups bread crumbs
2 teaspoons sugar
2 teaspoons salt
Pepper
½ cup grated cheese

Wash and slice tomatoes. Peel and slice onion. Arrange tomatoes, onions and bread crumbs in layers. Sprinkle each layer with salt, sugar and pepper. Spread grated cheese over top. Bake 30 minutes at 375 degrees F. Six servings.

Canada supplied 87 per cent of wheat and flour in the United Kingdom ration during 1946, 86 per cent of the bacon and ham, 45 per cent of the canned salmon, 34.2 per cent of cheese, 16 per cent of apples, 15 per cent of eggs, and 13 per cent of compounded milk.

Radiograms
TRUE MASTER PRODUCTION
Edmonton's annual master production of showmanship is now in the making. Announcers, writers, producers, musicians and others performed of CJCA and CFRN are again joining hands to present the CJCA Dagmarite Dodgers inside the CFRN Sunwapta Revue in their third annual clash in support of Edmonton's Community Chest.

The two radio stations have made "keen competition" and go at it hammer and tongs on the air, it's rumored—all for a worthy cause. It's the spectacle of spectacles—the master production of the year

adopted the plan. With this in mind, civilians were recruited and used from the Dairy Branch to milk shippers in the Edmonton Milk Shed, pointing out that veterinarians can reduce from if the volume of work is sufficient and collection assured. Two plans are suggested. Plan I has been drawn up on the basis of a minimum of 100 herds which will be handled by veterinarian on the half-time basis. Plan II can be adopted with fewer than 100 herds. Under Plan II emphasis will be somewhat higher than that for which services can be offered under this arrangement.

Don't suppose there are any actual figures on it, but I'll be willing to make five bushels an acre against the crop of 1939 that there are more old-time fiddling and cowboy ballads played everyone from Park Avenue to Ahlbrik. Plus corn potato to boot. It'd be rather hard, consequently, to pick out the top group of this kind in action today. Hard, that is, unless you happen to talk to anyone about the fame of the Pioneers. They're the fellows that ride along with the hare in many western movies —they're the guys that push 'em in at dance halls where names had any exuberance smaller than Paul Whiteman—they're the outfit that pandered such top-notch stars as Roy Rogers, who calls himself King of the Cowboys. They're the fellows, in fact, who set the standard for western singing. Three nights a week over CFRN. I may be partial to their kind of sounds, but when "Tumbleweeds" comes drifting out over the air on Monday, Wednesday or Friday night—I just sort of settle back and listen. It's the theme song of the form of the Pioneers, and for my dough, or bushels as I recollect saying at the beginning, it not only makes them top in their field, it sort of explains why real western music is so universally popular.

Because of feed shortage Canadian hog production is expected to go down next year, according to L. W. Fearnall, chairman of the meat board.

WEDNESDAY, SEPTEMBER 17, 1947

The Country Editor

By JIM GREENSLAT

Ran into quite an interesting paper written by Joseph Lister Bulledge in which he delves into what man's intelligent and unprejudiced habit of speaking of the ago we live in as the Century of the Common Man It is worthy of reprinting Because so many of its are common men, and there are so many things of which we are impatient, we have a rather ill founded confidence that if we had a knowledge of the subject and when some of the rest

THINGS OF INTEREST ABROAD AND CANADA

The North Battleford (Sask.) City council has gone on the air with a series of 13 broadcasts to foster goodwill among the people of the district, paying for time out of the city coffers. The Canadian Radio Antenna says that 1) Americans who "beef" about Canadian roads, good Canadians should patiently point out there are only 11 million Canadians as compared with 140 million Americans. And to argue the advantage of each nation is about the same. Just 60 years ago, Jean-Baptiste Lachere established the St Boniface tinsmithy ballads a junior cloth, he's still there as same—most commendable men on for the first time in history the Winston, (Ont.) Furniture Co gave their employees a half holiday because business is so good. Two of Alex Keith's steers in Cardiac Sask one lay they came a cropper and with his hand while the family was having for her News Quebec's Three Rivers Chronicle "lives exactly spring from the desire of the common man the average man every man to work for his fellow man—not from compulsion alone."

MENTAL RELAXATION

Mental tension is branded by the experts as an enemy of health. Pointing out that such effort as is required in study entails as much, at least of strain as body exertion, the medical authorities advise young people at school or engaging in life's problems to remember that the mind as well as the body now's rest and relaxation

Rest, sleep and recreation are Nature's antidotes for fatigue. They are essential in relieving the strain of continued effort.

Half the world away, Yang Ch'a Yen, boasting the mass education movement of China was facing the same problems. "While we seem to create a new society," he said, "we must not forget that we are doing it with an old society." Orient and Occident stating the same primary truth, that no nation breaks clear of its roots; that implant in the right to rule is an obligation that is not satisfied by the mere changing of the governing group, but that involves

World of Wheat

By H. G. L. STRANGE
Director "The Top Testing Plan"
CHEAP GOOD SEED

Some farmers can't seem to make up their minds whether they want a large quantity of good seed for their own use, or the capacity of producing seed for large amounts of fall wheat registered and farmed of seed.

Every year many farmers there is a scarcity of certified seed available to farmers, some of which is left over in spite of good Registered or Certified seed. These weeks are sometimes accounted as "Straw Testing Plan" and each week some are reinforced to the county that gets much as samples. Farmers from many of the summer Some of these visits take place for the first time in history the Winston, (Ont.) Furniture Co gave their employees a half holiday because business is so good. Two of Alex Keith's steers in Cardiac Sask one lay they came a cropper and with his hand while the family was having for her News Quebec's Three Rivers Chronicle "lives exactly spring from the desire of the common man the average man every man to work for his fellow man—not from compulsion alone."

ITEMS OF INTEREST IN THE WORLD OF FORESTRY

The present century of Western Canada's 1947 wheat crop is near an all-time high with only a few days to go a mean average of 15.1. This is a 1 per cent decrease over 1946, and within 1 per cent of the record high of 15.2 set in 1942.

Russia has agreed to supply Poland with 10 million bushels of grain to help relieve the acute, patrol food shortage, until next summer. Argentina's corn acreage is now officially placed at 8,000,000 acres with the harvested acreage placed at 6,452,000 acres. Production is now placed at 288,357,000 bushels.

UNITED KINGDOM LIMITS STERLING CONVERTIBILITY

Britain has reimposed certain limitations on the convertibility of sterling held by nonsterling area countries, because of the heavy drain of convertibility on her dollar resources. The main significance of this change to Canadian exporters is that they can no longer expect to obtain payment in sterling for shipments to any country outside the sterling area. This represents a return to the positions as it was prior to the beginning of this year.

The change does not in any way affect transactions in sterling between countries and sterling-area countries. Canadians may, as in the past, accept payment in sterling for exports to the sterling area, and this currency may be converted into Canadian dollars through the bank in Canada.

Timely Farm Notes

By R. J. Whitford, District Agriculturist

PARSO DISEASE OF FLAX

Flaxes is the latest disease of flax to attract attention in Western Canada. The disease has been known in Manitoba for several years, but did not appear in Saskatchewan until 1946. It has not been found in Alberta.

What is Parsnip?

Parsnip is a fungus disease of flax. It causes premature ripening and drying of the seed. The disease first appears as small, brown spots on the leaves. Later, the plant takes a bottom tend to fall of, and distinct brown spots appear on the stem. These spots enlarge and coalesce to together to encircle the stem. Finally, alternate bands of brown and green are formed. These mosaic bands are by far the most typical symptom of the disease on older plants. They make it easy to recognize Parsnip late in the season. Parsnip tends to occur in patches or in areas not listed from time to time, 75 can be put to practical use as the acreage farm in this province. They will pay for themselves upon and again in time and labor saved. At a cost of $600 for installation and another $300 for equipment, an average farm electrification unit represents an investment of $1200 That $1200 investment should be used to the fullest extent economically possible.

Mr. Martin goes on an example the case of two neighbors—both with the same number of pumps. One of them uses his electricity merely for lights in the house. His consumption, say 20 kilowatt hours in an average month at the minimum cost of $6.50 His neighbor who has an electric motor on the pump, a pig brooder a hot plate a quarter horse power portable on the farming mill and brush grinder, has 40 cent lights in the house, barn, pumpery, pump house grocery and sheep uses about 90 kilowatt hours in an average month He has a bill of $8.50 (the minimum price 70 kilowatt hours at two cents) of $1.80 to give a total of $6.80 For all the additional energy, the cost to this farmer has been $1.40 per month

Mr Martin will be pleased to offer suggestions on the use of electricity on the farm, and to receive comments with reference to other phases of farm electrification Address your letter to E B Martin, Extension Agricultural Engineer Alberta Department of Agriculture, Edmonton

CANADA'S ESTIMATED APPLE YIELD LOWER THAN 1946

The anticipated Canadian apple yield for 1947 of about 15 million bushels is 23 per cent below the 19,382,000-bushel crop of 1946 Estimates for British Columbia and Nova Scotia point to a decrease of about 20 per cent, whereas a substantial increase is forecast for Ontario.

The extremely wet weather of the past week has been badly on the nerves of the farmers who are trying to get their crops in. Threshing operations have been at a standstill, and standard grade is reported to be growing in the stook. It is hoped a change for better weather will come very soon, before serious damage is done to the crops.

Q. What do you notice on a good smooth brain or garlic?

A. Mouth wrinkles do not have any physiological significance, but often are the heartfelt inhabitants of the mouth indicate some element of the mouth by means of a brush and mild dentrifice, together with thorough cleaning of the teeth is as good as anything. Gargles of ordinary salt water in diluted concentrations are probably as good as any.

S S S

Q. Can tonsils be removed by any medical except the usual surgical procedure?

A. Surgery is the only way for the actual removal of the tonsils. Removal by high frequency current and cautery may be regarded as surgical treatment.

HELICOPTER SAVES WET CHERRY CROP

The latest use for the helicopter in agriculture was demonstrated at Santa Clara Valley, California, when a $250,000 cherry crop was saved, says New Agriculture. There had been a heavy storm on the previous night and the growers feared that the drenched ripening cherries would split and spill when the sun hit them when out. An army helicopter was brought in by the growers. It circled over the tree tops at velocities of 10 miles per hour with its wheels almost touching the tree tops. This served to shake the moisture off the fruit in hours and dried the fruit. The crop was saved but in connection Alameda county, where the growers had not returned plans, the damage to the cherry crop is estimated at $50,000.

COST OF LIVING INDEX

On August 1st the Canadian cost of living index had risen to 152.5, a rise of 11 points in one year. The index is established with a base figure of 100 for the 1935-39 period.

Mr. Martin also spoke on the example the case of two neighbors—both with the same number of pumps. One of them uses his electricity merely for lights in the house. His consumption, say 20 kilowatt hours in an average month at the minimum cost of $6.50 His neighbor who has an electric motor on the pump, a pig brooder a hot plate a quarter horse power portable on the farming mill and brush grinder, has 40 cent lights in the house, barn, pumpery, pump house grocery and sheep uses about 90 kilowatt hours in an average month He has a bill of $8.50 (the minimum price 70 kilowatt hours at two cents) of $1.80 to give a total of $6.80 For all the additional energy, the cost to this farmer has been $1.40 per month

Mr Martin will be pleased to offer suggestions on the use of electricity on the farm, and to receive comments with reference to other phases of farm electrification Address your letter to E B Martin, Extension Agricultural Engineer Alberta Department of Agriculture, Edmonton

CANADA'S ESTIMATED APPLE YIELD LOWER THAN 1946

The anticipated Canadian apple yield for 1947 of about 15 million bushels is 23 per cent below the 19,382,000-bushel crop of 1946 Estimates for British Columbia and Nova Scotia point to a decrease of about 20 per cent, whereas a substantial increase is forecast for Ontario.

THE FORT RECORD

VOL. 39. No. 39. — POST SASKATCHEWAN, ALBERTA, CANADA — WEDNESDAY, SEPT. 24, 1947 — Subscription $2.00 per Year

School Patrol Now Operating Here

Last Friday afternoon the students and staff of the Fort Saskatchewan high organized and the school to the Fort Community Hall under the control of the newly organized School Safety Patrol assisted and directed by the R.C.M.P.

Sgt. Meir of the R.C.M.P. then gave a short lecture, stressing the value of a School Safety Patrol, and outlined the duties of the Patrol and students A very entertaining variety of films were then shown, which promoted the value of safety measures for students and adults, pedestrians and drivers alike.

A large number of accidents happen at points between intersections so the patrol is directing school traffic at intersections and controlling the passage of the students across these points. (Many accidents already adopting the school patrol directions). The patrol also supervises the loading of the school buses.

From a group of thirty six volunteers the following twelve members for the School Safety Patrol were chosen:

Group 1.—Jerrold Larson, Carl Thorne, Glen Walker, Jean Banks, Mona Hegi, Rose Chambers.

Group 2.—Edward Janes, Ronald Thorne, George Henderson, Bhian Gosselin, Beryl Thomlinson, Irene Belinsha,

Capes, badges and arches or belts have been issued through the courtesy of the A.M.A. The patrol will be entertained at a banquet during the Christmas holidays when the two most efficient members of the patrol will be chosen as officers to head each group. Again in June the patrol will be entertained by the A.M.A. at a banquet at the Macdonald Hotel. In addition, the Town of Fort Saskatchewan is providing a free pass to the show each week, to six members of the patrol. Thus the patrol members are being shown some appreciation for the very valuable work they are doing in protecting others from traffic accidents, during rush hours and in all kinds of weather.

S. Cooking Lake

"The woods decay! the woods decay and fall;
The vapors weep their burthen to the ground."

Surely the poet Tennyson composed these on just such a day as these we have known during two weeks or more. Perhaps they came to him as he watched rising evenings glistening with rain and bordered by elms and chestnuts dripping with rain as he passed beneath. Perhaps they came to him as he gazed through the misty windows, as we have through many windows, upon a saturated world frowned down upon by gloomy, grey clouds unbroken by a single ray or stain of blue. However it may have been, his somber lines tell us that he knew well the dismal dreariness of late May our Indian Summer come quickly to dispel our heavy, sadly clouds and to recall to us happier times:—

By all those lovely tokens,
September days are here,
With Summer's best of beauty,
And Autumn's best of cheer.

S S S

We wonder how many veterans around Cooking Lake dreamt last

In Appreciation
I wish to take this opportunity to thank all my neighbors in the Brower district, who during my absence Saturday, assisted in fighting the fire which destroyed my garage and, but for their efforts, would have taken similar toll of other property.
W. C. DALY.

NOTICE

DAYLIGHT SAVING TIME

At midnight Saturday, September 27th the Town of Fort Saskatchewan will revert to Standard Time. Residents are requested to comply by turning clocks back one hour.

Town Council.

Daylight Saving Time Ends Midnight Saturday, September 27th

On Saturday, September 27th, at midnight, residents of Fort Saskatchewan and district can put their clocks back one hour This is the night when all cities and towns throughout the country that have been observing Daylight Saving will revert to Standard Time.

Considerable confusion resulted last year when Daylight Saving Time was first instituted, due to some cities and towns observing it and others not It is to be hoped that next year all cities and towns throughout the country will either adopt Daylight Saving or stay on Standard Time and thus eliminate the confusion created in the past.

Principals of schools throughout the Clover Bar School Division have received notice that schools also start on Standard Time on Monday, September 29th

Fire Truck Delivered

The new fire engine purchased from War Assets by the town arrived here Monday night. The machine, a 1945 Dodge, fourteen modern equipment not usually found in small towns.

Some of the equipment includes a 250 gallon tank, approximately 200 feet of hose, 2 CO2 Tanks, an extension ladder, 1 6-volt siren, 2 spot light and the danger light signal. The pumping capacity of this engine is 350 gallons per minute.

The fire engine may be used as a pumper as well as a tank truck. It is equipped with suction hose, so that water may be pumped into the tank or directly onto the fire, from any water supply such as river, fire hole, lake, slough or water tank, such as used to water livestock.

It is the intention of the Fire Brigade to hold fire practices every two weeks until all the firemen are familiar with the engine.

Saturday morning early, that they were back in France or Belgium or some other battle zone? Just how many, when fully awakened by the noise of firearms, heaved a great and glorious sigh of relief as they realized that those guns were being fired not at them but at the ducks. And how many veterans turned over and went to sleep again, snugly and comfortably cuddled down between their bed clothes and lounged with a great longing to do just that—enjoy another "forty winks".

S S S

The hot lunch is again the order of the day at Franklin School. Inspired and encouraged by the gratifying notice given to the school by Dr. Siemens at our Teachers' Convention last week, when, speaking to a large audience in the Masonic Temple, the doctor warmly praised our hot school lunches, as observed by him and his staff during the past two years, Mistress—Inspired and encouraged by his commendation, Mary Wershuk and Sue Comrie started to cut off one of our dreary days by a very acceptable potato soup. The next day the same girls brought in an appetizing dish of "salmon" potatoes (as I have heard them described). And the third day, when a team of boys took over, baked potatoes will provide the heat and nourishment the average lunch lacks. Our thanks to Dr. Siemens for his kind commendation, and to Sue and Mary for starting us on our winter way!

EAST EDMONTON

Bunny Hosford has left for Vancouver, B.C. to attend the Vancouver Bible School and continue her music studies.

Season's Activities Discussed by Curlers

A meeting of the Fort Curling Club was held Friday evening in the Town Hall

Mr Stan F Lowe, president, was in the chair and Dr W A Johnstone acted as secretary

The meeting was called to order and the minutes of the previous meetings were read and adopted.

Mr Lowe brought up the question of financing the Curling Club He stated that everything purchased up to the present time has been paid for and there is a balance of over $600 still in the bank

It was estimated that an additional $1,000 would still be needed to finish the rink

A discussion was held on the best method of raising funds and it was decided to finish by canvassing the members.

Mr. Ed Richardson was nominated to assist Mr. Fred Sherman in canvassing for funds.

A motion was then made and passed that on completion of canvass, that president, vice-president and secretary-treasurer be empowered to make, by bank loan, or other means, the needed funds to complete the erection of the new curling rink—such loan not to exceed $1000

It was moved and passed that the club close eight pairs of ends.

It was planned to put on a number of draws throughout the winter.

It was agreed to have application forms made and have application forms printed with name. This will give the committee an idea how many members the club will have.

School Flashes

With over one hundred students enrolled, our High School has a busy air of new faces evident and now that we are getting to know one another we are going to hold our election for officers of our Union. Nominations are being received this week and on Friday we will have the various members give campaign speeches followed by the election on Monday. (Look for the results in next week's Record.)

S S S

During the past week we have been reading our new Year Book of which we are very proud. The Year Book staff did a very good job in compiling the material and all Fort Record turned out a very nice publication.

S S S

Mr. Larson and the Chemistry students are busy this week moving the chemistry laboratory equipment to the new location in the basement. This will give room upstairs for setting up the typewriters for the High School and Grade 9 students.

S S S

Mr. J. J. Gillespie, superintendent of schools, visited at the school on Wednesday morning. The Health Unit also visited the school on Wednesday and set up its clinic for the morning. This clinic will be at the school during the morning of every fourth Wednesday of the month from now on.

S S S

The School Safety Patrol is performing its good service in a most efficient manner (see report elsewhere in this issue).

S S S

Last week Fire Chief Thomas and Sgt. Meir of the R.C.M.P. set off the fire alarm at the school when Sgt. Meir, with a stop watch,

Around the Town

Mr. J. S. Taylor arrived home last week from Eastern Canada where he has been visiting for the past month with his prosper brother and his sisters

S S S

Mr. and Mrs. Bob Friar left Wednesday morning for Lodge where his mother has been taken serious-ly ill

S S S

Mr. and Mrs. Booth left Wednesday for Winnipeg to spend a month visiting with their daughter and son-in-law Mr and Mrs W F McDonald

S S S

Congratulations go to Mr. and Mrs. Wm. Fisher on the birth of a boy Tuesday morning, September 23rd at the Misericordia hospital.

S S S

Mr and Mrs A J Maw of Calgary are receiving congratulations on the birth of a son, Kelly Robert, Friday, September 19th

S S S

The first Badminton Club meeting of the season will be held at the home of Mr and Mrs R. P. Knowles on Monday, September 29th at 8 o'clock.

All members and prospective members are requested to attend, as this badminton will get underway as soon as possible

S S S

Ronald Mann, who has been working in the Fort Meat Market during the summer, left this week for the city to attend the University of Alberta.

S S S

Mr. Ed Richardson was nominated to assist Mr. Fred Sherman in canvassing for funds.

A motion was then made and passed that on completion of canvass, that president, vice-president and secretary-treasurer be empowered to make, by bank loan, or other means, the needed funds to complete the erection of the new curling rink—such loan not to exceed $1000

It was moved and passed that the club close eight pairs of ends.

It was planned to put on a number of draws throughout the winter.

It was agreed to have application forms made and have application forms printed with name. This will give the committee an idea how many members the club will have.

S S S

Mr. and Mrs. Ed. Chadsuk had as their guest this week, Mrs. Chadsuk's uncle, Mr. H. Jensen of Viking.

S S S

The United Church W.A. will meet at the home of Mrs. Chas. Lees on Wednesday, October 1st at 2 o'clock.

S S S

There will be a Fire Practice at 7:30 p.m., Sunday September 28th. All resident interested in seeing the new fire truck in operation are invited to attend.

Josephburg

On Sunday evening, September 21st the Young People held their regular meeting with the new president, Carl Strechlein in the chair. There was an exceptionally good attendance which was very gratifying since the previous meeting had a rather small turn out.

The scripture lesson was read from Proverbs Chapter 19 showing that it is better to be poor and honest, than wealthy and a fool.

After the business session ended, the group went upstairs and under the direction of the program committee, had a singing practice.

In October the electric lights are to be dedicated and our group is assisting in getting up the program for the occasion.

S S S

Mr. Ed. Strechlein has completed the time required to clear the school of all students at 47 seconds. This we believe to be a very good record for so many students.

S S S

More than 2,000 fires are caused every year in Canada by faulty stoves, furnaces, boilers or chimneys.

Trowbridge-Stetson Pledge Vows Recently

A wedding of interest to Edmonton and district took place in Sherwin United church here recently, when Miss Florence Dorene Stetson, daughter of Mr. and Mrs. T. F. Burton of Bremner, became the bride of Mr. Willis Joseph Trowbridge, son of Mrs. Joseph Trowbridge and the late Mr. Trowbridge of Chatham, N.B.

The bride is a graduate in Household Economics from the University of Alberta, and is affiliated with Delta Delta Delta sorority. She is at present nutritionist with the National Health and Welfare Department. The groom received his M.A. degree in child psychology and is a graduate of Dalhousie and Columbia Universities. He is now research officer with the National Research Council in Ottawa.

The double-ring ceremony was performed by Rev. F. S Mellhon.

For her nuptials, the bride chose a fuchsia crepe afternoon dress, complemented by grey accessories. A corsage of white gladioli was pinned at her shoulder

As bridesmaid, Miss Alma McCready wore a black and rose sheer frock with black accessories and a corsage of pink roses.

Mr. Dudley Barnes was best man.

After a small reception held at Chateau Learlor, the couple left on a wedding trip to Penguin Falls, Quebec. They will reside in Ottawa.

Town Council Meeting Held Mon

The regular monthly meeting of the Town Council of Fort Saskatchewan was held in the Town Hall, Monday evening, Sept. 22nd, with the following members present: Mayor Magee and Councillors Jones, Dawson, Lowe and Dr Johnstone

The messenger, George Gordon, was present. He assured the Council that he was able to remove all ashes and garbage besides all toilet receptacles as required by him under his contract with the town, the new highway passing the nuisance grounds was the cause of the delay

The minutes of the last meetings of the Town Council held August 28th and September 17th were adopted as read.

Constable Thomas being then present, a lengthy discussion took place in regards to the new fire engine being purchased by the Town.

Constable Thomas asked for an increase in his salary owing to the cost of living being so high, but this matter of increase was left over until a full meeting of the Council was held.

The Financial Statements of the Town and Community Hall Committee for the month of August were read and accepted.

Family plots in the Fort Saskatchewan Cemetery were set at $6.00 per lot, of whatever lots may be in the said family plots.

The following correspondence was then dealt with:—

Applications of Mrs. Mary H. Cantrell and Mrs. Ada Booth for Old Age pensions granted.

Permission granted to Dr Henry to install a septic tank on his premises, providing the overflow can come his own property.

Letter from the Union of Alberta Municipalities, Urban Division Branch, read to the closing of dates for the Annual Convention.

Good Hope

Mr. and Mrs. Emil Miller and family motored to Leduc on Sunday to visit with relatives

S S S

Mr. Norman Miller returned home from Leduc last Saturday where he has been employed for a couple weeks previous to taking up a position with the Imperial Oil Co.

S S S

Messrs. A. Gourlay, J. Saunders and L. Wanders, all of Edmonton, were week-end visitors at the home of Mr. and Mrs. D. Bardsell.

Fort Representative At W. A. Meeting

Mrs. C. R. W Magee was a guest of the Edmonton Diocesan Board of the W.A. at the banquet and meeting held in Christ Church parish hall last Friday evening. Speakers at the meeting included Bp. Bernard, Mrs. W. F. Barfoot, Chancellor and Mrs. Ford and the Dominion Church of the Air.

Earlier in the day the Dominion officers of the W.A. with the members of the Diocesan Board drove to Kapawinon on Lake Wabamun to have lunch and to inspect the Diocesan Camp. This camp was established fifteen years ago and was among the first camps of the dominion to pioneer in the work of providing training and help to leaders and members of different parish groups.

The day spent in Edmonton and district was the concluding day of the four day Dominion Annual Meeting of the W.A. of the fifteen dioce deps of which was held in Calgary.

Calf Club Meeting

On Tuesday, September 30th a Junior Calf Club meeting will be held in the Legion Club Rooms at 8:00. All last year's members are requested to attend as there is prize money to be distributed. The club will be reorganized for the coming year. New members or anyone interested in club work are cordially invited to attend this meeting.

Good Hope

Radiograms

Each year CJCA evolves ways and means of finding, encouraging and developing young musical talent. Working in co-operation with the 7 Bolen Co. (Western) Limited and the Garneau Theatre, one of the oldest talent search programs is to commence September 27 when Bimm's present the opening broadcast of the Good Deal Club.

As the title implies, the show stresses good deals but back of the casual half-hour broadcast is a story of trials, auditions and rehearsals. The program features youthful artists singing, dancing, reading and playing instruments. The finished product is calculated to please all tastes and CJCA studios invite weekly following, of course by rehearsals under direction of Lauries Pearel, prominent in Edmonton musical and drama circles. The Good Deal Club is

Must Tag Big Game

Big game hunters must continue this season to place tags or seals on the animals they shoot as these are required for identification purposes, according to K. S. Rourke, Provincial Game Commissioner.

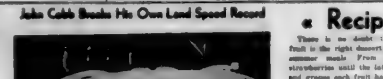
The tags are supplied free of charge to those who obtain big game licences and any hunter who kills one of any left-over 1946 "A's" will be running the risk of prosecution.

It is customary to place the tag or seal in the antlers or ear of the animal as the animal has been shot. This should be done at once so that the hunterman will be fully protected if he is checked up by a game guardian.

The department also has announced the release of more than 4,000 young pheasants in different parts of the province. These birds are from six to ten weeks old and were raised at the Brooks experimental station.

In different districts, an average of 200 of these birds have been released this season.

John Cobb Breaks His Own Land Speed Record



Mr John Cobb of London on September 16th broke his own world's land speed record of 369.7 m.p.h in his Railton Mobil-Special, on the Bonneville Salt Flats, Utah, by attaining an average speed for the two mile run of 394.196 miles per hour. On his second run he achieved the distinction of being the first man to travel over 400 miles per hour on land. His Railton Car has two Napier 12 cylinder engines of 1,250 h.p. The body of the car is completely cut off of the chassis to allow the driver to enter and enable mechanics to refuel and adjust the engines.

Timely Farm Notes

By R. J. Whitford, District Agriculturist

CROP ROTATION EXPERIMENTS

What type of crop rotation gives best results in various parts of the Prairie Provinces? Over thirty years ago the Dominion Experimental Farms attempted to answer this important question by establishing a series of experiments with different rotations on representative soil types in each area. These experiments have been continued substantially unchanged, except for minor improvements, and now provide very reliable information on the best systems of cropping in the different regions of the Prairie Provinces as a whole. Farming is a permanent business and it is important to know what rotations yield the most as reported from different types of rotations, not merely in the immediate future, but over a long period of years.

It is probable that to have a strongly grain growing province a mixed farming rotation including hay or intensified crops to some of the fields is preferable. It should be remembered that a summerfallow be included in a rotation, or is it necessary at all in some regions? If there can hay crops be grown to advantage where what benefit is there from legume crops? What cropping systems control weeds most effectively? How much increase in yield is derived from commercial fertilizer, farm manure and green manure? What effect has different systems of cropping upon the nitrogen supply of the soil?

The experiments conducted on the Dominion Experimental Farms have provided considerable information on these important problems. The results are incled in a recently published bulletin, publication 781, entitled "Crop Rotation in the Prairie Provinces" It may be obtained by writing to the Publicity and Extension Division, Department of Agriculture, Ottawa.

EFFECT OF HEAVY STUBBLE ON NITRATE IN SOIL

The use of the combine harvester returns all the straw to the field and thus adds an appreciable amount of fibrous organic material to the soil. This material when mixed with the soil causes a stimulation of bacterial activity which may result in a lowering of the nitrate content. As nitrates are essential for plant growth, this lowering may cause evidences of nitrate starvation in the crop during the early stages of growth. Such conditions are more likely to occur during a cold wet spring and on heavy land.

Laboratory experiments have shown that when straw was mixed with soil and kept under favorable conditions of moisture and temperature, that the most rapid decomposition occurred during the first two weeks and then gradually slowed down. During the initial period of decomposition there was a reduction in the nitrate content of the soil but after 3 to 4 weeks nitrates began to be accumulated, being formed faster than they were used by the organisms causing the decomposition of the straw.

The working into the soil of a heavy stubble during a summerfallow period may cause an initial reduction in the nitrate concentration but have no detrimental effect, due to this factor, on the crop seeded the following year.

When a heavy stubble is worked into the soil at the time of seeding, as with crop on stubble land, the crop may suffer from a shortage of nitrate during the first 3 or 4 weeks. As a rule this condition is corrected as soon as the soil becomes warm and moisture conditions are favorable.

The benefit of a heavy stubble in controlling soil erosion by wind or water, reducing evaporation and increasing the organic matter content of the soil, outweighs the possible disadvantage of a lowered nitrate content for a period of 3 or 4 weeks.

SEEDING IN THE FALL

Grasses, particularly crested wheat grass, are often seeded in the fall of the year. If the seeding has not been done by September 10th it should be delayed until between October 1st and 15th. The early seeded grass will germinate and over-winter satisfactorily while October seeded grass will be in the ground ready to germinate in the early spring and make full use of the moisture that is available.

Legumes should not be seeded in the fall of the year unless it is done in October after the possibility of germination is past. Legumes that germinate in the fall are almost certain to winter-kill.

Fall seeding should be avoided on land where soil drifting might occur. On dry loose land it would be wiser to delay seeding until early spring or until soil moisture is adequate. Fall seeding into stubble is usually safer than seeding into summerfallow.

RESCUE WHEAT

Next year there will be a substantial volume of Rescue wheat available to the farmers of Western Canada. This wheat is developed by A. W. Platt, of the Dominion government experimental farm at Swift Current, in connection with the ravages of smut. Rescue has a cold stem and this interrupts the smutty life cycle. The main objection to Rescue wheat is that it does not compare with the standard Marquis in quality.

Another wheat being developed by Dominion scientists is said to be resistant to grasshoppers. The scientists are also working on a wheat which will require a shorter ripening period, thus avoiding early frosts.

LONDON AIRPORT TO INSTAL NEW HIGH POWER LIGHTING

Another landing lights 200 times more powerful than any ground level lights previously erected on the runways are being installed along the length of the 2,000 yard main east-west runway at the London Airport. The new system is expected to be ready for use by the end of October or during November. This lighting will be similar to that used in other blind-approach aids which can lead a pilot to within 100 feet of the ground, at which height he should be able to "pick up" the lighting along the edge of the runway. It is hoped that visual landings will be possible at the London Airport in conditions hitherto regarded as impossible.

« Recipes for Milady »

FRUIT FLOATING ISLAND

1 cup fresh or drained canned fruit, diced
1¼ cups milk
2 egg yolks
2 tablespoons sugar
Dash of salt
½ teaspoon vanilla

MERINGUE

2 egg whites
2 tablespoons sugar
Dash of salt

Arrange fruit in six individual serving dishes. Scald milk in double boiler. Beat egg yolks slightly add sugar and salt. Add a little of the hot milk to the egg mixture, then combine with the remaining milk in double boiler. Cook, stirring constantly until the custard coats the spoon about 3 minutes. Remove from heat, add vanilla and pour mixture over fruit. Add salt to egg whites and beat until stiff, but not dry. Gradually beat in the sugar. Half fill a baking dish with boiling water. Float the meringue in six mounds on the hot water cover and bake in a slow oven (325 degrees F.) for 20 minutes. Chill and serve with fresh fruit. Six servings.

CHOCOLATE SPANISH CREAM

1½ tablespoons granulated gelatine
½ cup cold water
2 cups milk
½ teaspoon salt
⅔ cups sugar
1½ ounces unsweetened chocolate (1½ squares)
1 teaspoon vanilla
1 egg white
1/3 cup sugar

Soak gelatine in cold water. Make a custard of egg yolks, salt and milk, melting chocolate in milk. Cook in top of double boiler, stirring constantly, until mixture coats the spoon. Dissolve gelatine in hot custard. Cool and add flavoring. When mixture begins to thicken, fold in meringue made by adding the sugar to the stiffly beaten egg white. Turn into moulds and chill. Six servings.

The Country Editor

By JIM GREENSLAT

Sometimes, when we are prone to fiddle around with 'isms' we lose sight of the fact that here in Canada we have something far greater R C Burbinshaw, C.B.E president of the Canadian Manufacturers' Association, in an address recently, hit the nail right on the head in plain, unvarnished language, thus

"One of the greatest accomplishments in modern history has been the rapid and phenomenal development of the productive capacity of Canada in less than a century this country has risen from obscurity to a position enabling us to a level of high and intensive industrial agricultural production.

We have become one of the world's greatest producers of grain We have become one of the world's greatest producers of electric energy We have become the world's greatest producer of newsprint. We have become one of the great industrial nations of the world. And we enjoy the highest standard of living in the world today It has been a miracle of progress and it has been achieved under a system of free enterprise

The Maple Creek (Sask.) News thinks the same thoughts, only in small town language, but pertinent: "Only people who move around unseeing, or those who are too optimistic, could find themselves into thinking that people would work harder for the government, any government, than they would for a private employer."

Philosophy at the roots from the Cranbrook (B.C.) Courier.

Good fellowship is as old as man. It is one of the elemental things rooted in man with good and evil, love and hate it is more than suspicion—friendship of youth; it is the settled faith of men in men. It knows no boundary of nation, creed or calling, and asks only the open heart, the honest purpose and the cheerful countenance.

There is a moral to the British tax story. Taxation can only go so far before it destroys the sources of its income. "Soak the rich" tax measures have always been popular in democratic countries, but the most of us have overlooked the fact that, when the rich have been taxed out of their wealth, Government must then "soak the poor" to maintain their services. There is only one result, The poor will become poorer.—Orillia Packet and Times.

We need people, says the Elmwood (Man.) Herald: farmers, lumbermen, and miners enough to support 12 to 20 million people. "We need increased population to support the increased and improved roads, railroads, electrical services and other essential services improvements that we must have."

World of Wheat

By W. G. L. STRANGE
Director "The Crop Testing Plan"
THE QUARTERING OF RYE

Some people seem to be quite agitated about the high price of rye But those who are contemplating this luxury here are a few recent pieces of evidence.

The Canada - Soviet private crop reporters stake that on a recent trip over the West he saw in the drought area many fields of wheat with yields so low that the farmers were not harvesting them The fields were abandoned, but that in the same district fields of rye, with similar conditions were being carefully harvested and the grain saved and shipped to market This because the higher price for rye paid to do the harvesting No grain for human consumption was saved

The Saskatoon "Star Phoenix" of September 2nd tells us that a single parcel of rye was purchased from the Prince Albert Lake for the sum of $7,160.00 or $3.23 ½ a bushel It is calculated that about 2,200 bushels of rye is about at present prices to fetch the same amount of money as did this one parcel of rye

A farmer who has done well on rye says that in a recent letter "What a small man rides on my left long and one in my right. For how long a period do you think I will have to take pneumotherax"

A No one. I am glad you can give just whether or not canvas will heal However, the longer they have existed, the less likely is their healing Under the conditions you mention, it may be advisable to continue pneumothorax indefinitely if a good collapse is procured If the collapse is ineffective, it may have to be abandoned early. An effective collapse should be maintained for at least two full years.

Q. Is it all right to lie on the left side at all times when the right lung has been collapsed?

A. Usually, yes. The probabilities, however, are that during sleep you will change position frequently.

U.S. Farm Accidents Take Heavy Toll

Regarded as the most complete figures yet available of accidents on the farm, the sample survey made by the Bureau of Agricultural Economics of the United States Department of Agriculture covers the period from January 1946 The survey covered about 15,000 farmers in 914 counties and was carried out in January, 1947. The sample chosen was designed to obtain figures representative of all the States.

While the figures are subject to later revision, nevertheless the results of the survey would indicate that from October to December, 1945, there were roughly 210,000 accidents that injured people living or working on farms; that the injuries cost a total of $6,750,000 for medical, dental and hospital expenses, and that the time lost from usual activities totalled 4,000,000 days.

The accidents reported included all injuries to persons living or working on farms covered by the survey, counting injuries both on and off the farm. Medical, dental and hospital expenses growing from these accidents amounted to a little more than $64 per person injured. The time lost from usual activities (work for adults and school and play for children) was reported to be about three weeks per farm person injured.

DROUTH IN EUROPE

To add to the accumulation of miseries in Europe a prolonged midsummer drouth seriously damaged pastures and reduced production of pastures, sugar beets and fodder crops. The areas most seriously affected were Norway, Denmark, southern Holland, France, Belgium, the southern half of Germany and parts of Switzerland, Austria and Czechoslovakia. This condition has resulted in a shortage of domestic feed supplies and much livestock will have to be liquidated as a consequence.

Items of Interest in the World of Pedestrian Feet

According to Broomhall's annual survey-Review of the grain trade of the world—the estimated world crop for 1947 amounts to 6,275,000,000 bushels of wheat will be required in world trade this year while new countries supplies amount to only 845 million bushels, giving a deficit of 82.5 million bushels—I may have to be abandoned early. An effective collapse should be maintained for at least two full years.

Q. Is it all right to lie on the left side at all times when the right lung has been collapsed?

A. Usually, yes. The probabilities, however, are that during sleep you will change position frequently.

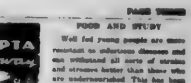
This condition has resulted in a shortage of domestic feed supplies and much livestock will have to be liquidated as a consequence.



Around my house there are three ways to tell that Autumn's here Mr starts pushing winter underwear, I start a new set of records on the year's crop; and everyone starts listening to Bob Hope. I don't suppose the return of the Bob Hope Show to CFRN's fall programs would rank as headline news, but it certainly is one of the brightest events in the house during the month of September. And I don't know but what if you figure the value of laughter as a tonic, you might be able to call the Bob Hope show bigger than front page news. Seems to me that the world needs laughter, needs to get some real Bob Hope humor in it's relations one with another

At any rate, I'm personally sure happy on Tuesday nights about eight o'clock And when I hear that famous "This is Bob breadcrumbs-for-Pepsodent-Hope" come on the air, I feel I'm a member of one big happy family. Yes, I like my comedy fast I like my comedy funny And I like Bob Hope

FLOUR PREDICTION

Canadian flour mills produced 29,318,402 barrels of flour in the 1946-47 crop year as compared with 26,675,341 barrels in the 1945-46 crop year The note a new record for Canada

Total volume of wheat milled during the crop year was 127,084,924 bushels

FOOD AND STUDY

Well fed young people are more resistant to infectious diseases and are withstand all sorts of strains and stresses better than those who are undernourished This has been proven by careful scientific study. Accordingly, Scotch nutritionist urge greater attention to the diet of school children and adolescents.

Particularly when away from home, home influences which ensure adequate feeding, young people should give more than casual thought to their intake of nourishing foods and the variety of the brightest events in the house during the month of September. And I don't know but what if you figure the value of laughter as a tonic, you might be able to call the Bob Hope show bigger than front page news. Seems to me that the world needs laughter, needs to get some real Bob Hope humor in it's relations one with another

SAFETY ENSURED

Alien money young people, at this time of year, will be entering on a round of strenuous sports and will test their capacities to the utmost. Health experts urge care to ensure safety. It is essential that all embarking on undertaking strenuous leave beforehand their minds free and sound.

The only way to ensure safety in sports is to be certified fit to play by a careful medical check-up. Medical officers suggest that it is the duty not only of students themselves, but of parents, teachers and directors if athletics to ensure safety. That young people are not exposed to strain beyond their capabilities. All going in for athletics should obtain a clean bill of health from the family physician.

Plan New Road To B. C. Border

Alberta will have an all-weather road to the B.C. boundary in the Peace River district during the summer in 1948, according to information received by the Alberta Motor Association from the office of Provincial Public Works Department.

Work has been split to start on three sections of the road, starting from the U.S. border by that time, there will be a dirt section from the B.C. border to Dawson Creek, the southern end of the Alaska highway B.C. says it can again build and improve that section until 1949, because it is busy running work on the $6,000,000 Prince George — Dawson Creek road, which will be completed in 1948.

Various Alberta organizations have passed resolutions from time to time stressing the need of the Alberta and B.C. governments taking joint action to provide an all-weather link with the Alaska highway.

In 1945, undoubtedly a still larger number of U.S. tourists will enter Alberta and a large per centage of these will want to drive over at least part of the Alaska highway While that high-way has been improved to general tourist traffic, it is believed that restrictions will be eased to a limited extent next year. Then it is all the more important to speed the gravelling of the connecting links.

FREEDOM LIBERATES

Since the end of the war, the United States and Great Britain have given their people back their respective means of occupation with seven million tons of food coming to Britain and five million tons of this tne grain and flour from the United States, Canada, Argentina and the United Kingdom.

Close forests gently. Excessive pressure on the tap crushes the washer and may damage the seat of the faucet.

Coming Events

Card Party sponsored by Rebekah Lodge No. 52, Wednesday, October 1st at 8.30 p.m. in Union Hall. Everybody Welcome. 24p

ENGAGEMENTS

The engagement is announced of Frances Patricia Gruber, daughter of Mrs. F. H. Willems and the late Mr. Willems of South Edmonton, to Mr. Lester Aldwin Geary, son of Mrs. J. A. Geary and the late Mr. Geary, also of South Edmonton. The wedding will take place on October 15 at 2 p.m. in the Pollonaise Chapel on Rural Route 2, South Edmonton.

Mr. and Mrs. Ed Dugan wish to announce the engagement of their youngest daughter, Dora Margaret to Mr. Arthur Graham, only son of Mr. and Mrs. G. Graham of Vancouver, B.C. Wedding announcement will be made at a later date.

IN MEMORIAM

In loving memory of Barbara McAdie who passed away September 30th, 1944.

As we lived her, so we miss her,
In our memory she is near;
Loved, remembered, longed for always,
Grieving many a silent tear.
Lovingly remembered by her family.

Fultonvale

The wet weather has made the farmers here very lazy, no threshing has been started as yet. Mr. Lyon and other threshers have their outfits ready to go, thus everyone is waiting for better weather and a late beginning for old man winter.

The Goodwill Club will meet Wednesday, October 1st at the home of Mrs Geary Everybody welcome.

We are glad to report little Cathy Hirsch quite well again.

Old neighbors congratulate Mr. and Mrs. H. P Hilker on their 35th wedding anniversary, celebrated recently with a family and friends gathering at their home in Fultonvale.

Mr. Harry Cuthbert was a recent visitor from Vancouver. He reports a growing satisfaction with life in B.C and does not want to return here permanently, but does enjoy seeing his old friends

More than a quarter of a million stems of all kinds are made every year in Canada.

Wye

We hope Mrs Wamberly is feeling much better again since her illness.

The community hockey is rejoiced because of their sister, Mrs. Chess Davies.

Mrs. J. A. Sandford is visiting with her daughters, Mrs. A. Brynes of Millet and Mrs. G. Hansen east and family of Wetaskiwin.

We are to welcome back a new settler again, we hope he won't be long till he will be leaving us again to return to the fair city of Vancouver.

THE FORT RECORD

VOL. II. No. 38. FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, OCTOBER 1, 1947 Subscription $2.00 year, U.S. $3.00

Around the Town

Mr. Ken Robinson spent last Sunday visiting friends at their cottage at Alberta Beach

A very successful dance was held last Friday evening by the Canadian Legion, Fort Saskatchewan Branch.

The $15.00 door prize was won by Mr. Bill Barbett and the spot dance prizes were won by Mr Elwood Mason and partner Mrs Hugh Staples and Mr and Mrs. Bob Boyer Mr. and Mrs. C. H Williams won the attendance prize, also the prize for the oldest couple on the dance floor Winners in the Band Leading Contest were: Mrs. Art Bebeil, Mrs. Ronald Webb and a lady from the city.

Mr Bud Butler has accepted a position with CFRN and is stationed at their transmitter station in Jasper Plane.

Rev. W. W. Byers of Vancouver will be a week-end visitor at the home of Mr. and Mrs. Logan O'Brien and will preach Sunday morning, October 5th, at the services of First United Church in the Community Hall

Mrs. O. Michaux of Seattle, Washington, arrived here Saturday to visit with her parents, Mr. and Mrs. Jos Gaudreault.

Mr. Ralph Lee returned from the North last week to join his wife who preceded him a few weeks ago. Mr. and Mrs. Lee will make their home in Edmonton while Mr. Lee resumes his studies at the University.

Mrs. Jos Carondelet returned home Saturday from Red Deer, where she has been visiting with her daughter and son-in-law, Dr. and Mrs. R. M. Parsons for the past two weeks.

Mrs. A. J. Dawson, who has been a patient in the Royal Alex Hospital for the past few weeks returned home Friday.

Mrs. Harrie Byers left Tuesday for Vancouver where she will holiday for the next six weeks.

The Record regrets that it reported, in last week's issue, that a son was born to Mrs. Wes Fisher instead of Mrs. Norman Fisher.

Mr. and Mrs. James A. MacIntyre, whose marriage took place in Toronto on Saturday, September 20th, spent a short honeymoon in London, Ontario. They are now residing at 324 Brunduik Lodge, Aylmer, Ontario.

Officers elected for the new year are: Roy Galloway, President; Willie Kercher, Vice-President and Ian Galloway, Secretary. Treasurer.

Mr. C. H. Galloway and Mr. R. H. Byers were unanimously elected as auditors.

The club elected to allow feeding of calves according to members choice, the majority have chosen to feed Herefords.

Orders for beef calves have been placed with the Department of Agriculture, who in turn, will select from the best bred herds in Alberta.

Prize money totalling $75 was paid out to members time winding up last year's club activities.

Boys and girls wishing to join the club are requested to contact Mr. Charles Galloway by Wednesday, October 15th.

The election sent local in the same manner as a regular provincial election with returning officer, clerk and scrutineers. In the voting the preferential type ballot was used.

The following students were successful: Clifford Corcoran, President; Joyce Williston, Vice- President; Bobbie Oliver, Sec.-Treas.

The Uil farm population in Jan. 1947 totalled 27,000,000 as compared with 26,250,000 in Jan. 1946.

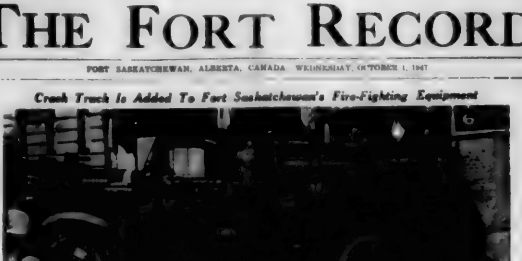
LEGION MEETING

The regular meeting of the Fort Saskatchewan Branch No. 57 Canadian Legion B.E.S.L. will be held in the Legion Hall.

Tuesday, Oct. 7th at 8 p.m.

All members are requested to be present.

Crash Truck Is Added To Fort Saskatchewan's Fire-Fighting Equipment



Taking further precautions against possible fire damage, residents of Fort Saskatchewan have added a third truck—a former R.C.A.F. crash truck—to their fire-fighting equipment. The truck typed was purchased from Fire Chief H. H. Thomas and E. A. Bocquir, secretary of the brigade. Chief Thomas, second from the left, is shown here with the truck in the background.

Badminton Club Hold Annual Meeting

A very successful meeting of the Fort Badminton Club was held at the home of Mrs. B. P. Knowles on Monday evening, when members and prospective members gathered to make plans and elect new officers for the coming season.

Minutes of the last annual meeting and the financial statement were read and adopted.

New officers elected were: Milton Lollicke, President; Mrs. B. P. Knowles, Vice-President; Miss Ruth Shackleton, Secretary-Treasurer; Mrs. S. E. Thrane, Mrs. H Looker, Miss Helen Barr and Ben Knowles were elected as

Prospects for a real good club season very bright this year as many new players are planing to join.

The official opening, also the days and hours of play will be announced as soon as arrangements have been made with the hall committee.

No change was made in the fee which is $5.00, but a junior fee of $2.50 was set to encourage high school students to join the club.

Following the meeting a dainty luncheon was served.

Junior Calf Club Elects New Officers

Seventeen members of the Junior Calf Club met in the Legion Hall Tuesday evening to re-organize the club and elect new officers.

Mr. J. J. Whitbread, District Agriculturist, was present to assist in the reorganization.

Canon d'Easum, Pioneer Anglican Minister Here, Retires to Victoria

The following article is taken from the West Vancouver News and reprinted here at the interest of those who are acquainted with Canon d'Easum in the earlier days.

Many will regret to hear that Canon and Mrs. G. C. d'Easum have left West Vancouver to take up residence with their daughter in Victoria.

Canon d'Easum has had a long and distinguished career as a clergyman in the Anglican Church finds med in 1894, he had a share in the real pioneer work of the church in the Canadian West After serving for a number of years at Fort Saskatchewan he moved to St. Barnabas' Church, Hilshurst, Calgary. He was appointed Canon of St. John, Calgary, in 1904. From 1905 to 1908 he served as Chaplain to the North West Mounted Police, "G" Division, and for a few years was also Chaplain to the 19th Alberta Rifles. Coming to British Columbia, he became Rector and Dean Designate of Holy Trinity Cathedral, New Westminster. He held that position from 1918 to 1936, and during that period he was granted leave of absence in order to go overseas (1916-1919) as an army chaplain. In this chaplaincy service he was attached for the greater part of the time to the 79th Battalion, Winnipeg Grenadiers. After leaving Holy Trinity Cathedral in 1936, Canon d'Easum tried his hand at mission work along the British Columbia coast, and for three years ran the mission boat "Predna" on "Hakon Church" Mission. Following his retirement from full-time work, Canon d'Easum came to live in West Vancouver, and for fifteen years (1932-1947) he has acted as honorary assistant at St. Stephen's Church and has always been most willing to help

Appeal for Funds

The Salvation Army is appealing to all residents of Fort Saskatchewan and district to support their Home Front Appeal that they may carry on their humanitarian work on behalf of the needy.

Volunteers from various organizations have agreed to canvass their membership in these funds.

All those who donate will receive an official receipt with stub attached that can, when filled in with the amount given, be sent in with their income tax forms and be deducted from their income.

Any donation, large or small will be appreciated. Cheques should be made payable to "The Salvation Army Appeal".

East Edmonton

Mr. and Mrs. Will Anderson of Willesonville, Ontario, were recent visitors at the home of Mr. and Mrs. H. Watson.

Mrs. W. T. Watson of Chauvin returned home last week after visiting at the Watson home.

Mrs. Pillman and Mr. and Mrs. Jos Bateman of Alliance, recently visited at the home of daughter and sister, Mrs. George Briggs.

The first dance of the season held in the East Edmonton Hall, was very successful.

Some 11 million pounds of Canadian poultry was exported to U.S. between August 1 and August 16.

Boy Suffers Slight Injury in Car Mishap

Albert Cockerobe suffered slight injury to his right leg on Tuesday evening when he rode his brother's bicycle into the side of a car driven by Mrs. R. Bryce.

Riding the bike, which was without a light, in and out of the ruts at the fire practice Tuesday evening, Albert failed to notice the car approaching from the east on the highway by the Tamac Service Station and ran into the front fender. He fell over and the left front wheel of the car passed over his front wheel and pinned him and the bike under the car and dragged them both a few feet.

The car was lifted off him and Dr. T. W. E. Henry was called. Upon examination it was found that no bones were broken, but he suffered from a few bruises on his right leg and ankle. He was then driven home by Dr. Henry.

Forties early on the time the accident occurred, the car was only travelling approximately 15 to 20 miles per hour and was stopped within a few feet after the impact.

Reading Club Held Semi-Annual Party

An almost perfect attendance marked the semi-annual party of the Fort Women's Reading Club, and all members reported having a fine time

After enjoying "The Enchanted Forest" at our local theatre the club repair a social hour at the home of Mrs. Burton. Here members provided hilarious entertainment, Mrs. Bacon as "Black Mammy with her Beaties" and Mrs. Avery O'Brien as the mystic magician fortune teller "All All Oomp" supplied many laughs with their stunts and were thoroughly enjoyed. Mrs. Thorne conducted a good neighbor quiz, which was entertaining and informative. The prize for being the best neighbor going to Mrs. Frank Smith.

Mrs. C. D. Jacox poured tea and an excellent lunch was provided by the south side group.

Mrs. Johnstone was in charge of party arrangements and was ably assisted by Mrs. S. Thorne, Mrs. H. Walton and Mrs. G. Russel.

The committee wishes to thank Mr. Lowe for reserving seats and Mrs. Burton for so kindly lending her home and for all who helped make the party a success.

Fire Practice Held With New Fire Truck

Members of the Fort Fire Brigade held their first practice Tuesday evening with the new Fire Crash Truck recently purchased by the town from the War Assets Corporation.

Fire Chief Ken Thomas explained the various gauges on the truck and what they operated, also how to use the fog and spray nozzle with which it is equipped.

A machine of this type will be of great value in the fighting of fires. It is equipped with a 350 gallon water tank, hose, fog and spray nozzles and tanks of Carbon Dioxide, complete with hose, along with other necessary fire fighting equipment.

Demonstrations throughout the country have proven that fires fought with fog and spray nozzles and Carbon Dioxide do not last in a few minutes. Also that damage caused by water when used through the ordinary type of hose becomes negligible when fog nozzles are used in fighting the blaze.

The town is indeed fortunate in being able to purchase a piece of equipment at such a reasonable price, and is confident that the citizens as a whole, will approve the action taken by the town council in order to give them greater fire protection.

If residents and farmers in the surrounding district wish to have fire protection they can do so at a very nominal cost.

Plan Special Services For Opening of Church

Work on the construction of the new First United Church is proceeding well, and it is expected that the basement will be ready for use in two weeks. Special services are therefore being planned for Sunday, October 12th. At 11 a.m., Rev. E. H. Birdsall will officiate at the opening and dedication of the new basement, and will give the morning sermon. At 7:30 p.m., Rev. C. E. A. Pennell will preach for the Diamond Jubilee Anniversary Service, inasmuch as the new church is being opened exactly 60 years after the opening of a little log church in Fort Saskatchewan by the former Presbyterian Church. At 9 p.m., there will be a social hour, inaugurating the opening of a huge Church Birthday Cake.

Everybody is most welcome to attend any or all of these services, especially those who were members of the past at this social hour to round out the big day. Quite a number of former Fort people are expected to be present for services and elsewhere for the events in the new building of their old church.

— Shower to Meet Bride

Commencing next Tuesday, October 7th, the Fort Shows will present shows every weekly, Tuesday, Thursday and Saturday

The same picture will be shown on Tuesday and Thursday starting at 8:00 p.m. There will be a change of pictures for the Saturday night show, which will commence at 8:30 p.m.

Combine Bake Cut

Mr. Ken Magee reported early Wednesday morning that all the belts on the delivery of his combine had been cut some time the previous evening. Constable Thomas reported the matter to the R.C.M.P. who are using a blood hound in their investigation.

"They Tell Me"

After a trip to the islands of the Caribbean, where she gathered material and special surprises for a new series of "They Tell Me" programs, commencing Claire Wallace is now here in the CBC's Toronto studios with sponsor Wally King, discussing some technical aspects of her broadcasts.

The Agricultural Service Board

H. L. STETSON, Field Inspector

Needless to say, wet weather during the past month has very seriously delayed farming operations and work on hand being numerfallowed. To all who may find time to do so, we wish to remind you that fall cultivation on your summerfallow is effective in the control of perennial weeds.

A few miles of roadside spraying was done in our municipality during the month of August in an effort to determine whether or not weeds and brush can be destroyed at the same time. The chemical used was 2-4-D at the rate of 1 and 1¼ lbs. of acid per acre. A second application is now being given some of these roadsides—especially where Tand Flax is prevalent.

We wish to suggest an any of our ratepayers who have in mind building or purchasing a weed sprayer that we have information which we feel sure will be valuable to you.

Crops are now being harvested which were treated last spring with 2-4-D. Weed control has been very satisfactory on these fields and we hope to have, in the near future, authentic information as to whether or not yields have been affected.

An interesting fact has come to our attention recently regarding the work of the lowly earthworm. Earthworms pass an average of 10 tons of soil through their bodies on one acre of land each year, in so doing they stir and aerate the soil thus making it more fertile.

Pointing out that Canadian mental hospitals discharge 69 per cent of their patients within one year of admission, and that many patients require only a few weeks of attention, public health experts at Ottawa want the people to know that diseases of the mind can be cured in the great majority of cases.

Mental upset is as definitely an illness as any other type of ailment and say, the doctors, like other troubles it responds best to early treatment.

During 1946, exact shipment from Argentina to world markets amounted to 726,217 metric tons, 6,666,179 bush carcases and 8,216,000 frozen quarters of beef. Of these totals, the United Kingdom received 394,322 metric tonnes, 4,949,949 bush carcases and 8,272,271 quarters of beef, while European countries took most of the remainder.

« Recipes for Milady »

It is amazing how a pound of round steak—much ordinarily serve three or four people may be stretched to make a satisfactory and delicious meal course. Try it. To be sure it does require a little extra effort on the part of the cook but the saving is always worthwhile.

The home economists of the Consumer Section, Dominion Department of Agriculture are experts on making the most of all foods and meat is no exception. Here are several recipes to make such substantial main course dishes.

CHILI CON CARNE STEW

¼ cup fat
1 pound cubed beef
½ cup coarsely chopped green pepper (optional)
2 medium onions sliced
1 cup tomatoes (fresh or canned)
1 teaspoon salt
¼ teaspoon pepper
½ to 1 teaspoon chili powder

Melt fat, add cubed beef and brown. Add celery, green pepper, onions, tomatoes and seasoning if necessary, add hot water to barely cover meat. Cover and simmer 2 to 3 hours. Garnish with a border of mashed potatoes, flat servings.

QUICK BEEF STEW

1 pound hamburger
2 tablespoons fat
2 tablespoons flour
1 cup tomato juice
1 cup diced cooked vegetables
Salt and pepper to taste
Brown meat in hot fat, add flour and brown slightly. Add remaining ingredients and cook 15 minutes, stirring constantly. Serve on split hot biscuits or toast points. Six servings.

BEEF LOAF

1 cup bread crumbs (for lining pan and topping)
2 cups corn (fresh or canned)
1 pound ground beef
1 cup bread crumbs
1 cup finely beaten
½ cup milk
2 tablespoons chopped onions
1½ teaspoons salt
Pinch of cinnamon
Pinch of cloves

Put ½ cup crumbs into bottom and sides of greased loaf pan (reserving ¼ cup for top). Combine all other ingredients and turn into crumbed pan, top with crumbs. Bake in moderate oven 350 degrees F. for 1 hour. Unmold and serve with tomato sauce. Six servings.

STUFFED PEPPER SALADS

1 large green pepper
1 cup cooked rice
½ teaspoon salt
½ teaspoon pepper
1 cup cooked fresh tomatoes (or tomato juice)
2 tablespoons mild flavored fat
2 tablespoons flour
Dash of salt

Wash squash. Cut in halves, remove seeds and pithy portion, and sprinkle with salt. Mix through the meat, cooked rice, pepper and tomatoes. Fill the halves with this mixture. Blend the fat, flour and dash of salt and spread over exposed cut surface of squash. Place in a greased baking dish, cover and bake in a moderate oven, 375 degrees F., for 45 minutes. Remove cover and continue baking 15 to 20 minutes longer or until surface is browned and squash is tender but serving.

World supplies of cereals in terms of wheat are used by the Food and Agriculture Organization to appear small; 695 million bushels below world requirements.

Will Their Sacrifice be in Vain?

Every year fire takes a terrific toll of life and property in Canada. Deplorable as is the loss to property, life loss by fire is nothing short of a crime on our civilization for the reason that in the majority of cases it is so needless.

In 1946, 408 men, women and children paid the supreme sacrifice demanded by the fire demon and in the past ten years 3067 persons have suffered the same fate. Of this latter number, 1206 were children. The number of children who died by fire in 1946 was 166, the highest annual toll in the ten year period 1937-46.

Have these unfortunate victims made their sacrifice in vain? They will have if we do not learn the lessons which these tragedies should teach. For instance, from a study of the causes of fire fatalities we find that 16 children died from fire last year when left alone in their homes. Parents should not, under any circumstances, leave little children or even children of tender age, exposed to the possibility of fire for even a few minutes. We see too that six children were burned to death playing with matches. The responsibility for such happenings is definately that of the parents and more particularly that of the mothers.

We note further in our study that 31 persons died from fires started by stoves, furnaces and heaters; 12 from electrical appliances; 16 from carelessness in smoking; 11 because gasoline was used to kindle a fire; and 18 from the use of kerosene for the same purpose. We could enumerate a dozen or so other reasons for people dying by fire. They all add up to pretty much the same conclusion—needless deaths.

Will we, who hope never to suffer the same fate, learn to be careful with fire in all its phases and thereby help to reduce the terrible toll taken of Canadian lives every year by that dreaded scourge? We can greatly improve our way of life and incidentally live longer if we observe the simple principles of fire prevention that of always being careful.

Domestic supplies of rye in the United States for 1947-48 are approximately 27.7 million bushels.

Except for the 1946-47 crop, year that total is the smallest in 50 years.

MORE FIELD NEEDED

The F.A.O. (Food and Agriculture Organization of the United Nations) met at Geneva to discuss the food needs and supplies for the world. A spokesman for the conference set up figures as there expressed that in order to meet the existing world food crisis the following steps would have to be taken:

1 To make the best use of existing stocks

2 To keep short an increase in the 1948 world harvests

3 To remove handicaps to future production

All this sounds like important business for Canada that she should try to produce these foods for export that the world population of the world mostly require. The most important of these foods is of course wheat. Canada has many people as a seminar are used for the raising of grain. Every farmer is to produce livestock

In view of the situation set out by the Food and Agriculture Organization was of course well known last year, it seems that those who advocated Canadian farmers to decrease their wheat acreage last year were wrong. Surely an effort should be made to put into every farm as we possibly can this spring, and if grains which will feed the most human beings. Rather wheat prices are reasonable and naturally encourage greater production

ITEMS OF INTEREST IN THE WORLD OF FINANCE

It is reported that the elevator capacity at Vancouver is continually deteriorate. It is estimated that at the present rate of clearance over 50 per cent more grain is being cleared than is being taken in.

In Britain's newly announced Agricultural Expansion Program the new levels of production for 1951-52 will be 80 per cent greater than pre-war; 15 per cent better than the 1943-1944 high and an increase of 30 per cent compared with the 1946-47 crop.

The first Argentine official estimate of the acreage seeded to flax is 4, 231,000 compared with 4,708,000 last year.

European crops this year are generally small with the exception of Russia whose crop is about average.

AMA Studies Plan To Check Car Thefts

Measures to check the prevalence of car thefts reported in some centres are receiving the attention of officials of the Alberta Motor Association.

In numerous cases, the theft of the car has meant a serious loss to the owner, especially one who depends on such a vehicle in operating his business. At a time when the number of new cars going on the market is limited, the consequence can be quite serious to the individual owner.

In order to curb the number of car thefts, the Edmonton branch of the A.M.A. is considering a plan of offering cash rewards for the recovery of cars.

Under the plan, there would be a cash reward of $100 in a major case, cash on recovery of the machine and conviction of the thieves. In other cases where merely the finding of an abandoned car was reported, the reward would be in the neighborhood of $25.

The premise of offering rewards was adopted some years ago by some U.S. motor clubs and it was found that this soon acted as a deterrent on the number of car thefts.

V.O.N.

Victorian Order of Nurses for Canada

Fort Saskatchewan Branch

Q. Can one cast too much in taking the cure, and would exercise be beneficial?

A. There comes a time in the treatment of tuberculosis when it is very desirable to have the patient exercise. However this must be decided only by the physician who has the patient in charge and it is dangerous for the patient to take it upon himself to exercise without the advice or guidance of his physician. As a rule, however, more harm is done by too much exercise than too much rest.

Q. Can a nurse with only one lung live and be active?

A. Yes. Nature has endowed us with a superfluity of lung tissue for ordinary pursuits. Many patients receiving pneumothorax treatments here are now completely collapsed and pursuing their work successfully.

8. Cooking Lake

On Saturday last, our Community Hall came to life again to the music of the dance and the unceasing chops of many sharpened feet. For two weeks the unfavorable weather and the equally unfavorable roads had kept many dancers away but Saturday night was silently empty. But the unseasonably bright and hot day of Saturday lured out a good sized crowd and, for this, the last dance, we understand, until some date in November. Before the bidding again, apparently, Community music is still receive its inner cost, its undercover of lumber, which is even now patiently awaiting another Joe Sherrard and his hammer confusion.

The Sunday School struggles on imperfectly and courageously against overwhelming odds of cold and contempt. On Sunday last Mrs. Gudbranson came to the aid of the teacher (not enough kids to attend) and stepped into the gap left by Ray Chubb, who has returned to his duties at Taylorton. Only six children were present again, five girls and one boy. There were also Wheatley's Sunday school and Rose Thom, we regret to say, we cannot keep again, since Rose have removed to the Fort. Rose's place there were Dan Comrie, Irene and Hedda Gaetke. Those are to be highly commended for defying the wet roads in order to be present; Sue especially, who trudges along that same muddy road every Sunday to her school day, rain or shine, breathless heat or stormy, freezing cold. Never absent, never late.

There are door to be seen now-a-days on Pauline Thom's pleasant grounds. But hunters are strictly forbidden, for those first footed ones are boys after rifle swift as deer and truly as conscientious—playing prisoner's base. They are of all sizes, from the tallest to the smallest, the stoutest to the leanest. Victoria Beauvrigo may be seen bounding up these short legs, still a little stiff and slow. And with her race her shadow, Laddie dog, apparently enjoying the running and dodging as much as his little mistress. Then there is Bobbie Horton, our other beginner, dancing to and down in front of Ray Gibson, (jealous guardian of his own private boundary) and tantalizing Ray

Parker Machine Shop Damaged by Fire Sat.

Considerable damage to tools, and equipment ensued early last Saturday morning when fire broke out in the Welding and Machine Shop of Parker Motors Ltd.

Mr. Tom Grant turned in the alarm when he noticed smoke coming through the roof of the Machine Shop. The quick response by the volunteer firemen plus the efficiency of the new Fire Truck, recently purchased by the town, was instrumental in saving the building and contents from being a total loss.

The origin of the fire has not yet been determined. It is thought that it started in the east wall near the roof which was insulated with shavings.

Two hoses, from the new truck, equipped with fog and spray nozzles were brought into play and quickly extinguished the blaze inside. A third hose played water over the roof and kept the fire from spreading.

All tools, equipment and electric motors are being examined and will be replaced where necessary. New wiring is also being installed throughout the building.

It is hoped to have everything working in first class condition within a few days and resume regular service.

W.I. Hear Address By Dr. G. H. Turner

The regular meeting of the W.I. was held Wednesday afternoon in the Legion Hall.

The meeting opened with the reading of the minutes which were adopted. The ballot voted to donate $10 to the Canadian National Institute for the Blind and $5 to the Salvation Army Home Front Appeal.

Following the meeting Dr. G. H. Turner addressed the meeting. His subject was Plants and Insecticides. He explained in detail the collecting and mounting, and exhibited many samples to show how they are mounted.

Tea was later served, which brought to a close, a very interesting afternoon.

East Edmonton

Mrs. F. Sanders, who has rented her home, left for the coast on an extended holiday.

Mr. Robert Sutherland, who recently sold his property in the district, has moved to the city to live.

Mr. and Mrs. Glen Stewart and family are moving back to the district after spending a year at South Cooking Lake for the summer.

The annual banquet of the Board of Trustees of the East Edmonton Hall was held in the hall, Wednesday, October 1st. A very small attendance was present. The financial statement showed a very successful season was had.

The election of officers took place, with the following being elected: Mr. Jack Weir, president; Mr. Geo. Briggs, vice-president; Mr. Stuart Hawkins, Secretary-Treasurer. Another successful year is anticipated.

The second dance of the season was held on October 3rd, it was very well attended in spite of a number threshing in the district. A good time was reported by all present.

Mr. and Mrs. Clark have sold their property and are moving to the coast.

The community extends its congratulations to Mr. Chas. Briggs, who celebrates his 80th birthday this week.

Mr. Bert Faulkner's fiancee, Miss Margaret Cooper of Sheffield, England, arrived in Edmonton last week. They are to married in the near future and will take up residence in the district.

A speedy recovery is wished for Dinky Deshaney, who is ill in the hospital.

Mrs. James Rouse of Miller Lake, Ont., is spending the winter with her daughter and son-in-law, Mr. and Mrs. W. Ottens, this makes four generations at the Ottens home.

Miss Norah Hawkins has returned from Calgary where she attended the graduation exercise of the Training School of Nursing. Miss Hawkins was the first applicant of the school and the first to obtain her diploma.

Friends and neighbors of Bob Ritchie will be pleased to learn that he has returned home from the hospital and is improving nicely.

Around the Town

Mr. and Mrs. George Pinnell had as their guest, last week-end, Mrs. J. H. Strachen of South [illegible] who left for Winnipeg, Tuesday, where she will remain for the winter.

Mrs. von Ilfland returned home by plane last week, after spending a three-week holiday in Grande Prairie, guest of her nieces, Mrs. Parker and Miss Angus.

Members of St. George's W.A. met at the home of Mrs. Tom Holt last Thursday, to make final arrangements for the dinner and dance to be held this Friday night.

Mr. and Mrs. Ivan Tisbree returned home Sunday from the United States, where they have been visiting relatives and friends for the past month.

Thanksgiving Services, with harvest decorations will be held on Sunday, October 12th, at all the points served by Rev. W. D. Ross.

Mr. and Mrs. Orville Robinson of Vancouver are receiving congratulations on the birth of a 10½ lb. baby son, Howard Orville, born Tuesday, September 30th. According to a telephone call received by Mr. and Mrs. F. H. Robinson, both are doing well.

A short service was held at 1:30 p.m., Wednesday, to inter the ashes of the late Mr. and Mrs. Bill Graham in the family plot at the cemetery. Rev. W. W. Buxton officiated. Only a very few intimate friends were present.

Revs. A. E. Aldridge, G. F. Driver, M. S. Kerr and M. L. Wright, are among the former ministers who have sent letters of greeting to be read at First United Church on Sunday, October 19. Two other former ministers, Revs. E. H. Birdsall and C. E. A. Pocock, will be the special speakers that day. At 11 a.m., the new church basement will be opened and dedicated, and at 7:30 p.m. the 60th Anniversary will be celebrated. Finally, at 9 p.m. there will be a social hour, with refreshments served by the W.A.

There will be special music at both services, including the reunion of two well-known vocalists, Mrs. Elizabeth Jones Cameron and Mr. J. W. E. Marble. Mrs. Cameron will sing in the morning, and Mr. Marble at the evening service and social hour.

Partridge Hill Church have conversing withdrawn their usual service in favor of the morning service in the Fort, but Mr. Ross will hold service in Tyson Valley at 3:30 p.m. as usual.

School Flashes

The students executive decided this week that there will be two parties to look forward to in the near future. The first is to be a "Ghoulish Hawkins and Hallowe'en Party" ensemble. The second is to be a Christmas Party.

It was also decided at the meeting that the Student's Union fee this year would be $2.00.

At noon hour, every Tuesday and Thursday, students can be seen (gracefully?) feeding around in the Grade IX room. The dancing is being directed by Miss Lowko and Miss Gariepie.

Mr. Richardson: "Elaine, will you please excuse me animal that exists in the desert."

Elaine: "Well—the dromitory from there."

Mr. Richardson: "Margie, if you saw a brown object in a field, you could you tell if it was a wood chuck or stone?"

Margie: "Go up and kick it! If you stub your toe, you can be sure it's a stone."

Mr. Wm. Ott, Bath and Mr. Art Arndt of Edmonton were visitors in the district, Sunday.

Thrashing is nearing completion in this part of the district, although the weather did hold it up a bit during the week-end.

Barbara Joyce, infant daughter of Mr. and Mrs. Wilfred Maunder, was christened by Rev. Gordon Schutz during the service at

What Does it Mean to You?

What does twenty-five cents dropped into a tag box for the Canadian National Institute for the Blind, means to you? It might mean the postponing of some trivial pleasure, or the relinquishing of some small luxury To the C.N.I.B. however, it itsmans a great deal because it is the accumulation of all the coins dropped into its tag boxes which enables it to carry on its important work.

On Saturday, October 11th, the citizens of Fort Saskatchewan and district will be given the opportunity to share in this worthy humanitarian undertaking The opportunity will be provided by the Fort Saskatchewan Women's Institute which is sponsoring the tag day. The Women's Institute needs your support. Give generously.

The services of the C.N.I.B. are many and varied and are of a specialized character They are designed to assist blind people of all ages, all races, and all creeds. It is overcoming their handicap and to live normal happy lives. Your blind neighbor is an ordinary individual who asks of life the same things you ask of it but who cannot achieve them as readily because of his handicap. He needs advice and help, encouragement and training, all of which are available through the C.N.I.B. His road can be made smoother and brighter by the friendly help of you who see

With your support the C.N.I.B. can provide training and employment, for those blind people who need it. It can supply Braille books and talking book records, to blind readers It can arrange for free radio licenses, reduced fares on trains and buses and for the purchase of radios and other appliances at discounts. It can furnish emergency assistance through proper channels. It can help to prevent blindness by providing corrective glasses and proper treatment for those unable to afford it for themselves

At the present time, the C.N.I.B. is extremely lacking in proper facilities of all kinds in Northern Alberta. Plans for the establish a Northern Alberta Service Centre in Edmonton are already underway and will provide adequate training and workshop facilities, recreational space and residence accommodation. The achieving of this important goal will greatly increase the ability of the organization to intensify its work on behalf of the four hundred and forty-eight blind people in Northern Alberta

The proceeds of the tag day to be held on October 11th will aid in the establishment of this centre as well as in helping to maintain the present Fort C.N.I.B. service. When you are approached to give, remember those who have been denied the precious gift of sight, and express your gratitude for your better fortune by lending your support. This is a vitally important work, which deserves the support of all those who are able to see and in a position to give. Close your eyes—think—give generously.

Ardrossan

The United Workers Chicken Supper on Monday evening was an usual success, with tables groaning with a variety of other good food besides chicken.

A good crowd attended in spite of short notice and the ladies realized the gratifying sum of $57.20. A delightful program followed the supper.

The United Workers will hold their next meeting at Mrs. Carl Richardson's home on Wednesday, October 15th.

We miss our young ladies who have left, temporarily we hope, to continue studies for their various vocations: Elaine Ramsay is attending the University of Alberta, taking Normal training; three others are taking nursing training: Katherine Walsh at Oliver, Marguerite Beresford at the University Hospital and Lois McKenzie at the Royal Alex; Eva Fawcett is at McTavish Business College Una Williams is continuing studies at Commercial High and Eileen Rice is in the Telephone Office at the Fort. We wish them the best of luck and look forward to seeing them on their holidays.

Congratulations go to Mr. J. U. Scott who observed his 82 birthday on Friday, October 10. May he celebrate many more!

We are pleased to hear that Mrs. Gladden Rice and Miss Widdis are back from hospital and we wish them a speedy return to good health.

The Community League is making plans to open the skating rink when that season arrives. Some work has been done on the skating house and it will soon be completed when the harvesting is finished.

Mansfield

Mr. and Mrs. Reinhard Gabert have received congratulations on the birth of a daughter, Wednesday, October 1st.

Mr. Chas. Low is displaying in the Massey-Harris window, potatoes, carrots and a turnip grown in his garden. The potatoes weigh 2¼ lbs. and 2 lbs., the carrots weigh 1¼ lbs. each and the turnip weighs 10 lbs., 14 oz.

Bethany. Lutheran Church, Sunday, October 5th. Mr. and Mrs. Charlie Neuendorf were the child's sponsors.

Canadian Legion Plans Organization of W.A.

On the recommendation of several members of the Ladies Auxiliary to the Legion, at a general meeting Tuesday night, voted in favor of organizing a Women's Auxiliary. The formation of an auxiliary has been discussed at previous meetings, but no action taken, however, some married members have undertaken to get things started, and it is expected that this proposal will shortly become a reality.

Comrade H. Brenton reported that other organizations had been approached by him, and that a swimming pool proposition had been received favorably in all instances.

Reports from the dance committee and Poppy Sales committee will be given at the next meeting. Comrade A. Gray has a number of wrestles ordered, and a program for the sale of poppies underway.

A suggestion that the Legion buy a complete Army hut from War Assets, for use as a club room, was also discussed briefly. A letter has been dispatched to War Assets for more details as to price and disposition of these buildings. The matter was tabled for more thorough discussion at the next meeting.

It was decided to leave all plans for Remembrance Day in the hands of the executive, who will meet in the near future and plan the day's

Oversize Vegetables Grown in This District

The Fort Saskatchewan district has always been recognized as one of the best farming districts in the country and once more, proof of this was received at the Record office Wednesday morning.

Mr. and Mrs. Arthur Krebs report that two of the pumpkins they grew this year weighed 62 and 57 lbs., each.

The pumpkins are oblong shape, 54 inches and 52 inches from tip to tip respectively. Around the centre they measure 46 and 50 inches.

Mrs. Krebs stated that their pumpkins, every year, average between 35 and 50 lbs.

Mr. Emil Klatt, who has been a patient in the Lamont hospital suffering from severe cuts in both legs, received when he was run away with the binder, is recuperating at the home of Mr. and Mrs. Bill Smith.

Few Attend Service Club Meeting

The regular meeting of the Fort Community Service Club was held in the Community hall on Wednesday evening with very few members in attendance.

Considerable discussion took place on the lack of attendance at these meetings and what remedy, if any, could induce more members to turn out. It was felt by some that unless more interest to taken the club should cease to exist.

It was decided to hold the next meeting on Wednesday, November 12th Notices will be mailed to members requesting them to attend this meeting and to decide what is to be done regarding the club.

CGIT Hold First Meeting Mon. Night

On Monday, October 6th the first meeting of the Fort C.G.I.T was held at the home of Rev Ross.

Officers elected for the coming year were: Joyce Galloway, president, Donna Stetson, vice-president; Louise Stackleton, Secretary-Treasurer; Eileen Rice, Song Leader.

Joyce Galloway held of her interesting experiences at camp recruit at Sylvan. Then a sing-song was enjoyed, tape was sung, which brought the meeting to a close.

The next meeting will be held at 7:30 p.m. on Monday, October 20 in the United Church. All new members are welcome

Good Hope

Mr. and Mrs. Ed. Dundale entertained recently at a cup and saucer shower, in honor of Miss Margaret Dundale, whose marriage to Mr. John Kuhn takes place on Saturday, October 25th.

A very tastefully decorated float filled with gifts was drawn in by little Eddie Kuhn. The honored couple very suitably thanked everyone for the many and lovely gifts.

The bonnie moved a bounteous lunch after which everyone sang "For They Are Jolly Good Fellows."

Mr. and Mrs. Jim Johnston were honored at a farewell party in the school last Friday evening, prior to taking up residence in their new home in Edmonton.

The evening was spent playing games and contests, with special prizes, and selections and readings. Mr. Carl Dietrich, on behalf of Mr and Mrs. Johnston's friends and neighbors, expressed regret at losing these two pioneers of the district, and wished them well in their new home. A chesterfield suite was then presented to the departing couple. Mr. and Mrs. Johnston thanked everyone for the lovely gift and the effort which was put forth to make the evening a success.

After everyone partook of a tasty lunch, hands were joined and everybody sang "Meet Be the Tie That Binds".

Congratulations to Mr. and Mrs. L. Edwards on the birth of a son, born Friday, October 3rd.

Threshing is well underway in this district, with many farmers already finished. Due to so much wet weather and second growth, most grains are tough and some lodged.

Mr. Emil Klatt, who has been a patient in the Lamont hospital suffering from severe cuts in both legs, received when he was run away with the binder, is recuperating at the home of Mr. and Mrs. Bill Smith.

Fifty Dollar Fine For Chicken Stealing

Pleading guilty to a charge of stealing 23 chickens, John Demeniuk was fined $50.00 and costs by Magistrate Philips in the Court House here Monday afternoon.

The theft took place last Saturday night from the farm of Henry Frechlegge, who phoned Constable Thomas that he had caught Joe Demeniuk with 23 of his chickens in the car owned by Joe's father.

Constable Manford of the R.C.M.P. at Lamont, who was with Constable Thomas, drove out to the farm and after questioning Joe, who admitted that his friend had stolen the chickens, picked up the father and held a charge of theft against him.

Magistrate Philips, after summing up the evidence, ordered John Demeniuk to pay $15 to Mr. Frechlegge for the loss of some of the chickens which had died, plus the fine and costs.

In the police court here this week, John Hall of Edmonton and Nick Kwapisky of Carrot were both fined $15.00 and costs for speeding through a school zone.

Two More Thieves Arrested Wed. Night

Following a series of thefts, Wednesday night, John Bobbis and Tudor Gordon Cook of Edmonton will appear in the Edmonton Police Court today.

Constable Thomas received a report that a robe, kitchen chair and tools to the value of $25 had been stolen from George Pinnell's car while visiting his parents at Bremner.

Gangster's Garage at Josephburg was also broken into and tools valued at more than $100 were taken.

The same men also tried to steal chickens from Henry Frechlegge but caught them in the act but were unable to hold them. He also phoned Constable Thomas, who in turn notified the R.C.M.P. at Lamont. The officer picked up Constable Thomas, and following the thieves, caught them on the highway into the city.

Farmers are warned by the Alberta department of agriculture to build up food and seed supplies this fall in the belief that there may be some difficulty in obtaining seed and feed later in the season as a result of the severe ravages Canada will require large quantities of western grain and Alberta crops will move rapidly to eastern points.

Theatre Patrons Here To See Best Pictures

The list of pictures recently mailed out to theatregoers by the Fort Shows is evidence that they intend to present for the public's entertainment only the best pictures obtainable. Many of these on the list are pictures that were only released late in 1946 and early in 1947.

We feel sure that this new policy of the Fort Shows, in bringing better pictures to the Fort, will meet with the approval of everyone, whether they are regular patrons or not.

Your continued support in the future will be an added inducement to Mr. Lowe to bring even better pictures whenever possible. adv.

In appreciation . . .

We wish to take this opportunity of thanking the Fort Fire Brigade and all those who helped in fighting the fire at our Welding and Machine Shop last Saturday morning. The prompt action displayed in getting at the root of the blaze saved the building and contents from being a total loss.

PARKER MOTORS LTD.

Line Elevators Urge Higher Prices

Warning that farmers have reached the point where they are no longer prepared to sell their coarse grains at prevailing cash grain prices and that farmers are storing, rather than marketing their oats and barley was entered by Rt. Hon. James G. Gardiner, Minister of Agriculture, in a telegram by the North West Line Elevators Association. Many of those who are dealing in cash grains consider new ceiling of $1.25 a bushel for oats to be determined in the future, at the seller's option, and the other high prices paid the farmers in their attempts of securing full market value for their products, and adds that a further could be liquidated to sell his coarse grains or marketing barley at current ceiling prices.

From dispatches from Ottawa collects that oats are now selling at from $1.30 to $2.00 per bushel and feed barley from $1.60 to $2.00 per bushel in Eastern markets, and are difficult to obtain even at these prices.

Urging an immediate clear cut statement of policy which would remove farmers of market values for coarse grains and feeders adequate supplies, the Line Elevators Association urged Mr. Gardiner as follows:

"During your recent absence in the United States of the very serious situation arising amongst coarse grain producers, we have urged the necessity of immediately influencing the urgent necessity of a clear cut pronouncement of Government policy relating to coarse grains prices for the balance of the current crop year. We have indicated to the Government that the ceiling prices imposed on coarse grains are inadequate and the situation has now reached a critical stage. Farmers are being called upon to accept at least $1.25 per bushel less than their barley is worth and 40 cents per bushel less than their oats are worth. Farmers have reached the point where they are no longer prepared to sell their coarse grains at prevailing ceiling prices and we believe they are fully justified in their attitude. Rather than sell, they are storing their coarse grains awaiting raising or removal of price ceilings and many of those who are disposing of their coarse grains are doing so on the basis of price to be determined in the future at the seller's option. Under this policy the feeder is in a position to determine his costs and we agree with the farmer in taking all legal steps to obtain full value of his coarse grains. Under the advice the trade received from the Feeds Administrator, we have been advised that the Government is prepared to immediately make a definite announcement of policy as to coarse grains prices for the balance of the current crop year, we believe that there will be a serious shortage of stocks available for feeders.

North-West Line Elevators Assn."

Soybean production in the United States has increased fortyfold since 1924.

Prevent Spread Of Poultry Disease

To prevent the spreading of communicable poultry diseases, an Order in Council has been passed, requiring that every owner or operator of a poultry processing plant, or poultry killing plant, or the management of establishments where live poultry are received for any purpose, must clean and disinfect all such crates received in the Canada Approved Poultry Crate, and before leaving the plant, all crates must be cleaned, disinfected and dipped for at least two minutes in a solution of two per cent formalin or other approved disinfectant Unless this is done, the crates must not be removed from the plant premises.

The agreement "Low-poultry Crate" means any crate, box, receptacle, or container used for conveying or transporting live poultry. The words "Approved Disinfectant" means a pest control product that is registered under the Pest Control Products Act and has a strength of not less than two per cent.

Any person who contravenes any provision of this order is guilty of an offence and liable on summary conviction to a fine not exceeding $100 or to imprisonment for a term not exceeding three months or to both fine and imprisonment.

Radiograms

THE BAT-TRICK

Three major pennants records in three different baseball leagues that's the batting record credited to CJCA after giving first place in Canada to Radio Station CJCA broadcasts in Hollandia's Tooth Annual Radio Program.

CJCA's entry was issued as public service done in the past through the medium of Space Floor Mills Radio's Program, featuring "Uncle Mel" Tervo.

Entry was titled "Promotion by Self-Proposition" and reviewed the numerous and varied public services conducted through the year. Presentation stressed the fact that through public service the program propelled itself from just an ordinary entertainment program to one of powerful public service medium.

Two years ago CJCA received the Billboard Award for program promotion. Last year the "Record" came to CJCA in the field of Listener Relations and this year it's the Batting Average as a result of a bat-trick of which we are very proud as it brings CJCA's all-time total to eight major awards—indeed an impressive record for Canadian stations, we believe.

CHILLED KIDNEY

During damp weather, persons should insist on meat children having stockings which at least cover the knees. It is quite right to dress the youngsters in short socks when the weather is fine and warm. That is healthful. But it is not in the child's best interest to have the skin exposed to the room in damp weather with chilled legs.

The authorities suggest that children be made to put on rubbers, too, in wet weather, as a further measure of health conservation.

« Recipes for Milady »

Whoever used the saying "as easy as pie" to mean that the task was simple must have meant "as easy as eating pie" rather than referring to the making of pastry.

To make a perfect pie is the aim and object of every bride and of a host many other women also. The hesitation of an inexperienced cook often means a performance of fear making, re sulting in tough pastry.

The home economists of the Canadian Department of Agriculture say that making good pastry is easily quite easy if certain points are kept in mind. Moreover if there is any doubt they suggest hot water pastry. It never fails.

When foil at a premium and luscious fruits plentiful, deep fruit pies with a top crust or open face pies are the answer to the problem.

HOT WATER PASTRY

4 cup lard or mild-flavored fat
½ cup boiling water
1½ teaspoons salt
2 cups sifted all-purpose flour OR 2 1/3 cups pastry flour

Cream the fat and stir in the boiling water and salt at a time, stirring slightly. Add salt and flour, mixing with a quick, cutting motion; do not stir. Chill before rolling. Makes enough pastry for 2 9-inch pie shells; or 2 dozen 3-inch tart shells.

DEEP DISH PLUM PIE

1 quart fruit (canned without sugar)
¼ teaspoon salt
1-2 cup sugar
½ cup flour
1 teaspoon almond extract
1 tablespoon fat
Pastry

Drain fruit, heat juice to boiling. Mix salt, sugar and flour. Stir slowly into boiling juice. Place drained fruit in a deep baking dish. Pour thickened syrup over fruit. Dot with fat. Roll out plain pastry to ⅛-in. thickness. Make several slits in the centre. Fit pastry over the fruit, press down well over the edges of the baking dish. Cut and finte the edges. Bake 30 minutes in a hot oven, 450 degrees F. Six servings.

APPLE MERINGUE PIE

Pastry
2 large apples, sliced
2 egg yolks
1 cup sugar
1 cup milk
2 tablespoons flour
2 tablespoons sugar

Line a 9-in. pie plate with the pastry. Pare, core and slice apples and place in the pie shell. Beat egg yolks, add sugar and milk. Pour this mixture over apples. Bake in hot oven 425 degrees F. for 10 minutes, then reduce temperature to 350 degrees F and finish cooking longer Top with meringue made from the 2 egg whites and the 2 tablespoons of sugar. Return to moderate oven, 325 degrees F. to brown meringue. Yield one 9-in pie.

WHY JUVENILE ASSURANCE?

The value of insuring your child's life with the Sun Life of Canada is illustrated by the following provisions of the new Sun Life Junior Adjustable Assurance.

- The child receives the advantage of low-cost insurance for the remainder of his life.
- You are protected against expenditure of child's death before age 21 by a death benefit in keeping with the amount of premiums actually required at younger ages.
- At 21, each $1,000 of child's coverage automatically becomes $5,000 Ordinary Life (Endowment or Limited Payment Life plans may be selected if preferred) without medical examination or further premiums.

this twentieth-century metal certainly Gets around!

aluminum is the earth metal! Yet, even there this versatile metal makes itself useful in a dozen ways. That comes in aluminum. So are the paddles. So is the rod, and reel, and the tackle box. Non-rusting, light-weight aluminum is proving itself a natural for an ever-growing list of sports equipment; skis and shoes and hockey sticks and bicycles . . .

And, of course, that's just one small part of the story. From industrial castings to parts of cars, Canadian manufacturers are finding the way to stronger, lighter, more attractive articles of every-day use. Our own development and research is helping them to blaze new trails — plants at their disposal a wealth of technical know-how. Today over six hundred Canadian companies are turning out products made with this miracle metal of the Twentieth Century.

IF YOU NEEDED . . . THE WORLD

Every country in the world is today buying Canadian Aluminum produced at Arvida, Canada, home of the largest Aluminum smelter in the world. The "Alcan" brand has become a trade mark in world trade — and a valuable source of the foreign exchange which Canada needs to cover her own buying abroad.

The Country Editor

By JIM GREENSLAT

The Truro, N.S., News is against the voting age limit down from 21 to 18 years, holding they must not be started on such responsibilities at too immature an age "There have been cases, specially in the past of student movements and these famous showed that in these cases at least all that was required to lead bodies of students down the wrong road was some fantastic doctrine from some irresponsible person not ripe in experience."

Renfrew, Ont., Beacons owes told in an address by George Combs of Alcohol, that nerves, rather than self or party gain should be looked for in politics. In business value instead of profit, making things easy for youth, and play should be a secondary consideration in education. As for religion, it could not be dispensed with in life and should not be dispensed with in life, should be the standard of measurement of all action.

From Noranda, Que., this weekly press item:

Canadians are supposed to be over-generous in their approach with regard to investments. They wonder why so many of the natural resources of their country fall into the hands of strangers, but there would probably be a different tale to tell if Canadians were more venturesome in taking chances. But too many want to get rich quick, and fading that, learn to sixpence the task of controlling Canadian enterprise.

At Woodstock, Sask., Mrs. Ro d'Ipb Hemming decided to alleviate cravings for her strawberry patch for a new car, after some years she finally got one.

World of Wheat

By H. L. STRANGE
Director of Public Utility Plan"

BRITISH WHEAT PRICE INCREASED

The British Government on Aug ust 21st in London announced increased prices for wheat to British farmers in order to induce them to produce more. The price for this year is 200 per bushel, in sterling or taxes. 2. More efficient machinery. 3. Better use of machinery Fullows up with this antidote: It is the responsibility of government to cut government costs and taxes, of management to provide better equipment and of workers to use equipment more efficiently. Of course it's popular to say somebody else should do the price cutting but each of us must examine his soul and decide whether or not he is accepting his own share of responsibility."

HERE AND THERE

At Carleton Place, Ont., R. A Kennedy of New York played the local golf course, which was the 2,634th course he has played on; he is nearly 70 years of age . . . At Wedgeport, N.S. one day four anglers took six giant bluefins with a total weight of one and a half tons . . . Travelling at a

TRADE NEWS LETTER

MANY COMMODITIES FREED FROM EXPORT CONTROL

Many items remain among the Board List, under export control, though the number and manner of sale are still on the diminishing list. Effective September 17 a number of items were deleted from the schedule of Commodities under export control, among the most important of which was the material call.

Regulations for the export of live or dead poultry have been amended exempting shipments valued at $15 or less from the requirement of an export permit. This relaxation has been made in an effort to assist farmers who have a large surplus on hand, following the termination last June of Canada's contract with the United Kingdom to supply 12,500 tons of fowl.

JAPANESE TEA AVAILABLE FOR EXPORT TO CANADA

Japan is looking to Canada and the United States as potential markets for its tea, as the traditional markets of China, Germany and Java are temporarily out of the question for political and economic reasons. It is said that the production of tea in Japan will have to be curtailed in order that 15,000,000 pounds may be made available for export in 1947. Canada imported from Japan in 1939 4,000,000 of 1,000,000 pounds valued at $392,557.

CANADIAN TRADE MISSION TOURING SOUTH AFRICA

Canada's trade mission, headed by the Hon. James A. MacKinnon, Minister of Trade and Commerce, is here touring the principal centres of South Africa. The mission has been discussing with South African government officials and businessmen Canada's trade outlook, her share in UNRRA and post-UNRRA relief, and the desirability of an early restoration of multilateral trade

Addressing members of the Chamber of Commerce and South African Federated Chamber of Industries, Mr. MacKinnon said, "it is fortunate that many of the difficulties that now stand in the way of international trade do not hamper the commercial relations between South Africa and Canada. The currency problem is not so acute, and we can hope to expand our trade still further without running into monetary restrictions. There is plenty of room for expansion, and Canada might well use more of your products. I am thinking of such things as wool, sheep skins, goat skins, maize, fresh and preserved fruits, citrus juices, wines, and brandy, not to mention minerals of many descriptions, including chrome ore which we buy now and coal. Trade, however, requires efforts, as competition is keen."

MEXICO MAY IMPORT MORE CANADIAN CATTLE

Ten per cent of Mexico's total livestock wealth may be lost due to the lack of immediate and aggressive action when hoof and mouth disease made its appearance recently in that country. Statistics show that up to the end of July over 100,000 cattle and 77,000 sheep, swine and goats had to be destroyed. It has been estimated that before the disease is eradicated it will be necessary to kill 1,500,000 to 1,500,000 head of cattle and an equal number of small animals. Present plans call for the replacement of the destroyed draught animals with imported mules and tractors These replacements as well as the required modern accessory machinery are in short supply. Plans are underway to improve the quality of Mexican herds by importing numbers of purebred cattle for breeding stock. Canada exported to Mexico in 1946 farm implements and parts valued at $692,691 and 276 purebred cattle valued at $78,187.

CROPS AND GROWTH

More physical stature does not necessarily signify health, say the doctors. Particularly in children, bright and weight tables may be misleading. Individuals cannot always be measured by yard-sticks and there may be normal development despite evidence of scales and measuring rods.

To ensure normal development, consultation with the family physician is recommended, if parents are worried. Only a medical examination can determine whether there is cause for concern, and whether a child's condition is normal or reveals underlying physical defects.

Market Early Turkeys When Ready

Three gun thousands of early hatched turkeys in Alberta that should be marketed for Thanksgiving, and there are many thousands of additional turkeys that will be ready for marketing not later than the middle of November. C. W. Treves, Poultry Commissioner for the Alberta Department of Agriculture says that in the past there has been the customary practice to consider turkeys as the Christmas commodity, and very few people think of marketing them before that time. The early hatching of pullets in commercial batteries and on the farms has resulted this year in a large number of turkeys that should be marketed now.

Many of the hatchery produced poults come from brood brooded flocks, and the feather quality of this type of turkey is not of a very high standard in many instances. As the turkeys reach maturity and are ready to be put on the market, thousands of these birds develop dry, brittle feathers that break off very easily if the birds are kept two or three weeks beyond the time when they should be marketed, it is not long before they will be full of dry feather stubs, which will put "A" grade birds down to "C" grade because it is impossible to remove these feather stubs.

In addition to the lack of feather quality in many of these brood brooded turkeys, they have been developed for early maturity, and this means that if they are kept four or five weeks past the time when they should be marketed, they become staggy and are graded, by many of the receiving stations, as old birds. Also, many of these birds, as they reach maturity, tend to go off their legs.

The final situation is very serious, says Mr Treves, and poultrymen can not afford to feed any more of these heavy feed consuming birds any longer than is absolutely necessary. Birds that are now well fleshed and fully feathered should be marketed for Thanksgiving, and from now until Christmas time, as the birds develop, they should be dressed for market, but held for the final rush.

FAO Meeting at Geneva

Representatives of 59 nations recently met at the 2nd Conference of the Food and Agriculture Organization of the United Nations (FAO) at Geneva, Switzerland, to consider the world food and agriculture position. In photo (from left to right) F. L. McDougall, Director of FAO; Dr. G. H. R. Barton Deputy Minister, Dominion Department of Agriculture; Dr. Bella Phillips, Head of Animal Industry Branch, FAO Agricultural Division and Dr. J. L. Buck, Head of Utilization Branch, FAO, on the roof terrace of the Palais des Nations.

Mr. Ilsley, Minister of Finance, Hon. James G. Gardiner, Dominion Minister of Agriculture and Canada's delegate to the FAO Conference talking with Viscount the Rt. Hon. Stanley M. Bruce of Australia, Chairman of one of the FAO Commissions.

Timely Farm Notes

By B. J. Whitbred, District Agriculturist

HOW TO MAKE PROFIT ON POULTRY FLOCK

When starting a poultry farm the average farmer, locate in the country or near a small town, will probably find that egg production will be the most suitable and profitable course of interest. If he is wise he will select chickens of a breed known to be good egg producers, rather than choose a breed according to his own or the whim of someone else.

Emphasis on superior meat quality will usually result in premium prices for broilers from restaurants and hotels. Selection of the right type of broiler and proper management are the key notes to success.

The broiler industry requires a rapid growing, rapid feathering bird, which will reach a weight of 2½ to 3 pounds in 12 weeks. There are many breeds, of good meat type, which will not conform to this requirement and are consequently more useful as roasters. Crossbred chickens are popular as broilers because they are frequently faster growing than the parent strains. This may not necessarily be true. While a New Hampshire Barred Rock cross produces a fast growing broiler with good feathering, a cross between New Hampshire and a more slowly growing breed will likely result in a bird that is considerably slower growing than the New Hampshire, consequently, no improvement has been made by or using the breeds, unless it is to some characteristic other than growth.

When birds are raised to the roaster stage they should reach a satisfactory weight and present an attractive carcass, free from blemishes such as breast blisters. Such a product is obtained by starting with good stock and providing proper management. Premiums are paid for top quality eggs and poultry, and their production takes little more effort than raising specimens of inferior quality. There is a rapid transition be-

CATTLE ON FEED

To convert a feeder steer into a properly finished animal, when fed in dry lot, requires about 45 bushels of grain and close to one ton of hay under ordinary conditions.

Dr. J. W. Hove of the Department of Animal Science, University of Alberta, advises that barley is superior to oats for putting grain on cattle, although oats may be used more liberally when cattle are first put on feed. By the time they have been in the feed lot two months, the grain mixture that has given best results in three parts barley, by weight, to one part of oats. Yearling steers wheat on full feed will consume up to 12 to 16 pounds of grain per head daily.

Recent experiments at the University of Alberta have shown that where at least one half of the hay used for cattle finishing consists of alfalfa there is little need to purchase the more expensive protein and mineral supplements. Flax, a farm-grown product, fed ground at the rate of one half to three quarters of a pound per head daily mixed with the grain, has given surprisingly good results in adding thrift and bloom to cattle during a prolonged feeding period.

AVOID FROZEN CREAM

In the marketing of cream, only a clean flavored non-frozen product can demand highest prices, and with the approach of winter additional care will be required to ensure the arrival of the cream at its destination in good condition.

Frozen cream causes loss to both producers and manufacturer. The fat separates and produces mealy textured butter causing the cream to be placed in second grade. Butterfat tests on frozen cream are often inaccurate due to the difficulty of securing representative samples. There is also considerable delay in returning empty cans due to the necessity of thawing the cream gradually at the factory.

The U.S. congress may investigate the speculative boom in grain futures on exchanges in that country. The claim has been made that government grain purchases have been the principal reason for the rise in speculation. With the government buying, [illegible] figure they cannot lose.

BING MOT SURVEY RESULTS ENCOURAGING

With the close of the Bacterial Ring Rot field survey for another year, J. L. Engleshan, Supervisor of Pest Control for the Alberta Department of Agriculture reports increased progress in the control of this disease.

In the southern part of the province, practically all commercial fields were inspected. In the northern section, wet weather and flood conditions necessitated a considerable factory season. As a result, less than half of the potato acreage in the Edmonton district was inspected before the vines were frozen so badly that Bacterial Ring Rot symptoms could not be detected.

In general this season's survey shows further improvement in the Ring Rot situation. While the division has increased somewhat in certain districts, those areas under quarantine have shown a very definite improvement again this year.

Mr. Engleshan stresses that the grower is his best inspector. During the year of introduction infections of Bacterial Ring Rot may be so slight that only the working in the field may discover it. During the second year, if seed from that field is planted the disease will have built up to such an extent that its presence is immediately evident to the observer.

Inspectors report excellent cooperation during the course of the survey. Growers are realizing the serious nature of this disease and every year more and more of them are following control recommendations.

Is your car ready for winter driving?

Winter will soon be here, and unless your car is put in shape for winter driving, you're in for plenty of grief!

Drive in today — we will check your ignition, battery, and timing, also lubricate your car from bumper to bumper with the right grade of Marfax Grease and Texaco Motor Oil for winter driving.

WE CARRY FROST SHIELDS IN ALL SIZES.

Praise School Patrols

Heavy vote of school boy patrols has prevented many motor accidents in Alberta during recent years. This is a type of safety work sponsored by the Alberta Motor Association that is focusing of particular support and commendation on the part of all concerned.

The popularity of the work has been gradually extended to towns and rural centres, while its growth has been marked in urban centres.

In the 11 years since the patrols were first organized in Edmonton, there has not been a major motor accident involving a school child at any intersection where a patrol was on duty. This is a record believed to be outstanding on the continent. Thirty Edmonton public and separate schools now have school boy patrols and the number also includes girl patrols.

In Ontario, communities are more and more adopting the school safety patrol system which has been in operation in large American cities for many years, says the Safety World in Windsor, school patrol boys and girls have been doing a wonderful job, says the Windsor Star.

Note out of a grab-sample of 45 Ontario communities report active school safety patrols in a recent survey made among weekly press editors.

The National Safety Council of the U.S. has made recommendations studies of safety patrols and how they function. Emphasizing the importance of patrol work as an educative experience for the children on duty, the council drew up standard rules for school safety patrols.

PERSONAL NEEDS

No hard and fast rule can be laid down for the treatment of all human ills, due to the difference in individuals, their needs and their varying circumstances.

This is stressed by national health officials, who present the very variety among members of the human race as the best argument in favor of personal medical attention.

"Just as no two fingerprints are ever identical, so no two human beings are exactly alike, nor require the same measures or methods of consideration and care," they say. If everyone was like everyone else, many life processes could be ordered according to rule-of-the-thumb regulations. But, as man is constituted, only the basic principles apply in all that concerns his personality, physical and mental make-up.

A CENTURY BEGINS TO ROLL — Commemorating the historic fact 150 years ago [illegible] inaugurated on the Island of Montreal [illegible] Canadian National Railways presented to the City of Montreal an oil painting by the well known Canadian artist A. Jacobi Scott R.C.A. (Mr. Vaughan left) are His Excellency Viscount Alexander, Governor-General of Canada and Mayor Camillien Houde, K.C. The table decoration, in sharp contrast with the historic scene in the painting — is a model of a modern C.N.R.

SUNWAPTA way

Eve Henderson, noted Canada's outstanding woman's commentator and winner of the Beaver Award for distinguished service in Canadian radio, is to resume her career in Edmonton.

Until recently women's editor of a leading Winnipeg station, Mrs. Henderson resigned this position to move with her family to Edmonton. She had decided to retire from radio realm. But the call of the air waves was too much for Eve, and that is just what officials of Edmonton's progressive radio station, CFRN, were counting on when they approached the new women's commentator and made her a radio offer.

Eve Henderson needs no introduction to Canadian radio, having been associated with radio for a number of years.

Eve's new radio career with CFRN will see her as producer and commentator of the program . . . "In the Women's World" . . . sponsored by C. Woodward Limited, which will be broadcast Monday thru Friday over CFRN at 10:45 a.m.

In addition to her radio program which commenced Monday, October 6th, Eve, who will be known to her radio audience as the new Helen Kent, will be Home Service Director of the Edmonton branch of the C. Woodward Limited department store.

Today's high level farm production takes only two-thirds as much human labor as similar production would have required in 1929.

BUMPER WHEAT AND RICE CROPS IN UNITED STATES

Record United States wheat and rice crops are in prospect for this year, but due to adverse weather conditions the corn crop will be greatly reduced. All-over condition weather is expected near the average for the past nine years, when production has been larger than it is for any similar period. The total crop for harvest in 1947 is 3,000,000,000 bushels, 5 per cent larger than last year.

[illegible] higher yields for farm [illegible] he farm income, including government payments, for the first six months of this year amounted to $11,612,000,000, or almost 25 per cent more than the total for the same period last year. Receipts from livestock and livestock products, at $7,000,000,000 were up almost 40 per cent, while receipts from dairy products increased 30 per cent, and those from crops, 20 per cent.

Turn on Lights

Officials of motor clubs are drawing attention to the need of a large body of motorists immediately that lights should be turned on during the period of twilight, the time between sundown and total darkness.

It is claimed that too many motorists turn on their lights only when they need light to see the road ahead.

During the twilight period, which also is a period of high fatigue, lights are needed as vehicles as warning signals to oncoming traffic. This may be demonstrated on a black-top highway by a black car to produce a situation which amounts to distance non-existence.

AMBER WHEAT

The Dominion Experimental Station at Lethbridge states that over a few farmers in the sandy irrigated area of southern Alberta each bought 10 bushels of Reesor wheat last fall to increase for their own use. Reports to date show that the performance of the variety in 1947 has been generally satisfactory. True it is, that Reesor will [illegible] somewhat lower than that income from sawfly are usually very light as compared with ordinary varities make it a desirable wheat to grow in the recognized sawfly area. Reesor wheat is not recommended in areas where sawfly is not a problem.

There will be a considerable quantity of Reesor wheat available for distribution this autumn, and it is anticipated that the demand for supplies will be high. The Lethbridge Experimental Station will co-operate by forwarding inquiries to the nearest source of Reesor wheat seed

Q. What causes a wheezing noise in the lungs?

A. This is usually due to small particles of mucus which adhere to the tubes and bronchial tubes. Sometimes it may be the result of other things causing partial obstruction of a bronchus, such as bronchial tuberculosis.

Q. What is meant by reinfection?

A. The first or primary infection having been overcome or healed, a second or subsequent infection has taken place

revised 20 per cent, and those from crops, 20 per cent.

To see and to seen on the highway at all times would avert many accidents. Motorists should consider the benefit of parking lights or dimmed headlights at a time when the peculiar rays and shadows of dusk play tricks with vision.

Soon, many communities will resort to Daylight Time and much homeward traffic will then move in a period of twilight. Let fellow motorists know you are on the road. Turn on those lights!

THE FORT RECORD

VOL. 39 No. 38 FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, OCT. 15, 1947

Old Time District Resident Passes

Mr. Henry S. Peters, an old timer of Fort Saskatchewan district, passed away in a city hospital, Tuesday, after a short illness.

Mr. Peters, 66 years old, was born in Grey County, Ontario. He came to the district in 1895 where he remained till the time of his death.

Mr. Peters has always been interested in the welfare of the district, having served as Councillor and Reeve of the Clover Bar district for a number of years, prior to it joining the Municipal District of Sturgeon.

He is survived by his wife, formerly Miss Anne Walker, one son Tom, one granddaughter and one brother, Charles of Grande Prairie. Four brother pre-deceased him.

Funeral services were held Thursday from the R. J. Cowan Co. in the Fort Cemetery. Rev. Hall of W. D. Rose officiated and interment took place in the Fort Saskatchewan cemetery.

Large Attendance Expected at Dedication

So many people have already signified their intention of being present for the opening and dedication of the new basement of First United Church, that church officials have decided to instal a public address system to amplify the sound to persons outside the building. It is reported that the limited seating accommodation in the basement will be taken up early, and that quite a number will require to sit in their cars and listen to the service. The dedicatory service will start at 11 a.m., Sunday, October 19th. Rev. E. H. Birdsall will lead in the dedicatory prayer, and will preach the sermon. Mrs. D. R. Cameron, the former Elizabeth Jones, will be the soloist, and the Junior Choir will render anthems.

A large attendance is anticipated also at 7:30 p.m., the same day, when the 69th Anniversary of the church will be celebrated in the new building. The darkness and cold of that hour, however, may make amplifying equipment inadvisable. Rev. C. E. A. Pocock, who was the minister from 1894 to 1898, will be the guest speaker, with Mr. J. W. E. Marble as soloist, and the Senior Choir rendering anthems.

At 9:30 p.m., a Church Birthday Party will be held. Greetings will be heard from other churches in the community, and refreshments will be served by the W.A., with the ice pouring honors given to old timers of the church.

Partridge Hill Church will withdraw its service and Sunday School for the day, but Rev. W. D. Rose will conduct the usual service at Ypres Valley at 2:30 p.m.

Badminton Season To Open Monday

The official opening of the Fort Badminton Club will take place Monday evening, October 21st.

All members are asked to turn out and join in the fun which will be followed by a social hour.

Josephburg

Josephburg Reformed Church was the scene of a very impressive ceremony on Sunday night, namely the Dedication of the Electric Lights, which was sponsored by the Young People's Association. During the course of the evening, Carl Strobbein, president, introduced the speakers, Rev. Elmer Bender of Two Hills, Alberta, Rev. Krieger and Donald Frey. Special groups which participated were Senior and Junior Choirs and the Ladies Aid.

To bring the evening to a happy climax lunch was served in the basement, during which time Carl Underbuhls, acting as chairman, introduced Carl Strobbein, V.P.A.; Mrs. J. Frey, Pres. of L.A.; Mr. John Mohr, Church Board; Mr. Rud Sippel, Pres. of Light Committee, who all spoke briefly and appropriately.

This marks another milestone in the life-history of the church—namely the installation of electricity in the latter and its property.

South Cooking Lake Junior Red Cross To Make Historic Portfolio of District

The Franklin Branch of the Junior Red Cross held its semi-monthly meeting last Friday afternoon. President Mary Wesniuk opened the meeting by calling on the Sec.-Treas., Maxine Glob to read the minutes of the previous meeting. These were adopted as read.

George Olynyk, circulation manager of the Junior Red Cross magazine reported that magazine subscriptions were very good and that one year subscription had been sold. Since the demand has exceeded George's original supply, he is sending for further copies of the current issue, which he expects to deliver to patrons soon. He is also sending for a supply of Red Cross Calendars for 1948. The proceeds from these sales are devoted to the Crippled Children's Fund. George is to be congratulated on his success as circulation manager.

The new business considered was the making of a Portfolio on South Cooking Lake and district, past and present. Committees were appointed to take charge of the various departments of the work—Compositors, Printers, Artists, etc. When completed the portfolio will be forwarded to Calgary headquarters where it will be exchanged for one already in the office, perhaps from across the seas.

It is hoped that parents, relatives and neighbors, especially the pioneers, will co-operate in this worthwhile enterprise, contributing whatever appropriate material—newspaper clippings, pictures, snaps, etc., they may possess. If desirable, a second copy of the portfolio may be made to become the possession of the district.

Love again at St. Mark's Sunday School! Thanksgiving Sunday, that is. And a day surprisingly sunny and warm for mid October, a day long to be remembered. Yes, it's going to be well, the fire will be kindled again on Sunday and all prepared to welcome our guests.

Said the Warrior King and Sweet Singer "I was glad when they said unto me, Let us go into the house of the Lord."

Former Fort Resident Passes in Vancouver

A former Fort Saskatchewan old timer, Otto Dwight MacLellan, passed away in Vancouver, Saturday, October 4th, 1947, in his 69th year.

Born in Ontario, he came to Alberta in the early 90's, where he resided in this district until 1943, when due to ill heath, he moved to the coast.

He is survived by his loving wife; one son, Donald of Winnipeg; four daughters, Jean at home; Mrs. K. H. Hartney (Alice) of Vancouver; Mrs. W. H. Jones (Margaret) of Seattle; Mrs. A. E. Galloway (Marie of Fort Saskatchewan; one brother Jim of Fort St. John, B.C.; nine four sisters, Miss Lucy of Victoria, Mrs. Margaret Miller of Minneapolis; Mrs. W. S. Spencer of Edmonton; Mrs. A. E. Miller of Duluth; and eight grandchildren.

He was predeceased by a son, Eric, who died overseas in 1944.

Funeral services were held in the Chapel of Mt. Pleasant Undertaking Co., Vancouver, Tuesday, October 7th, and burial took place at Ocean View Burial Park, the very Rev. Cecil Swanson, D.D. officiating.

Pallbearers were: Ian Smith, Duncan Whittam, Vincent Hartney, Mr. W. MacAlpine, Marshall Cunningham and Herb Cunningham.

Beautiful floral tributes were received from the family; Dan, Blandine and children; Flora, Chief, Mary, Doug and Bill; Margaret and Jean; Wallace, Betty, Laura and Ira; Evaline; Duncan, Kay, Ed and Gwen; Beatrice, May and Lorne; Kitty and Jack; Nev and Ken Smith; MacAlpine family; Hattie and Jack; Rolland and

Wye

We wish to extend congratulations to Mr. and Mrs. Gordon Southern on the birth of a daughter, Diana Mabel, also to Mr. and Mrs. Daly on the birth of a daughter.

The October meeting of the Young Women's Club was held at the home of Thelma Walker. Six members were present and two visitors, Mrs. Jos Tomlinson and Mrs. McConnell. Business was discussed and plans made to hold a banner and tea to which we welcome all our old members and the ladies of the district and surrounding districts.

The evening was brought to a close with the serving of refreshments by the hostess. The next meeting will be held at the home of Mrs. Arthur Daly on November 14th.

The district welcomes Mr. and Mrs. Bud Landvik who have taken up residence here.

Mr. and Mrs. O. H. Rife are visiting with Mr. and Mrs. Bert Wilson and Cheryl.

Mr. J. A. Sanford spent a few days at Vegreville visiting with Mr. and Mrs. Stanley Sanford and family.

We all wish Mr. and Mrs. Henry Kreamer and family much success in their new home.

Nancy, Vic, Cam and John; the Mission Inn, Seattle; Jimmie, Mary Craig and family; the boys and girls at Malkins Ld.; Mrs. Hartney and family; Mac and Mary; Lottie and Gertrude.

Around the Town

The WMS will meet at the home of Mrs. Wes Fisher on Tuesday afternoon, October 21st at 2 o'clock.

Mr. and Mrs. R. W. Simons and Bobbie left on Mr. Bud Wilkinson of Edmonton, were wedding visitors at the home of Mr. and Mrs. A. A. Wilkinson.

Mr. Bob LePage returned Tuesday from a business trip to Wind sor, Ontario.

Mrs. Walter Thomas is visiting at the home of her mother-in-law Mr. and Mrs. R. W. Thomas of Calmar, Alberta.

Mrs. Ed. Graham was a visitor at the Fort last weekend Mrs. Graham is former resident who returned from an extended holiday at the Pacific Coast and in the United States.

Mr. and Mrs. Harvey Cranston had as their guest over the long weekend Miss Jackie Southland of Edmonton.

Mrs. Arthur Avery, daughter of Mr. and Mrs. Leonard Browne was a visitor at the home of her parents here Saturday. Mr. Avery who is Editor of the Taber Times accompanied Mrs. Avery to Edmonton where he attended the convention of the Alberta Weekly Newspaper Association.

Mr. Alex Henderson who has been in the N.W.T. during the summer returned home Tuesday where he will remain for the winter.

Mr. A. P. Robinson Sr. is receiving congratulations on the occasion of his 90th birthday.

Congratulations to Mr. and Mrs. H. Wensley on the birth of a son, Thursday, October 16th.

Mrs. Violet Chesshot of Edmonton is spending her two-week holiday at the home of her parents, Mr. and Mrs. Ed. Chesshot.

The Thanksgiving Supper and Dance, sponsored by St. George's W.A. on Friday, October 10th, was very well attended. The ladies of the W.A. and congregation served a delicious chicken dinner at which many former residents of the Fort and district were noticed among the crowd.

The dance, which followed later in the evening, was a huge success, the hall being filled to capacity. The men of the parish handled all the details for the dance. Prizes were awarded for the spot dances.

The members of Princess Rebah Lodge No. 52 wish to thank all those people who attended the Military Whist Drive and Dance Friday, October 8th in the Lodge room.

Double prize were won by Mrs. H. Looker, Mrs. A. Black, Mrs. D. A. Richardson and Mrs. von Hyland. Consolations were won by Mr and Mrs. Goneffe, Mrs. Wes. Fischer and Mrs. Earl Phillips.

The Ladies' Lodge may continue the Military Whist Leverages on the card players seemed quite enthusiastic over future games.

Physical Training Classes, under the direction of Mr. H. Lamarre-Proulx have again been resumed for the winter months. Two classes will be conducted, one for boys and girls under 10 years of age and girls class from 12 years and up. Classes will be held on Monday and Wednesday evenings from 7 to 11.

Exercises will consist of calisthenics, tumbling, vaulting, pyramid building, games and medal events.

School Flashes

The students of the Fort School enjoyed a long weekend due to Thanksgiving holiday.

The noon entertainment has been made a happy success due to the cooperation of the pupils. We greatly appreciate the musical talent which the girls have offered during this hour.

During this school term we will undertake to tell our readers something of the pupils attending Fort High School.

Marjorie Stannard, a girl from town is attending her first year of High School. This dark-haired lass was born in Machin, Saskatchewan on the 20th of June. Among her likes are listening to music and touring Dance. Her dislikes are algebra, manners and chores. If you hear the words "Oh! for heaven's sakes" you'll find Marjorie not far off. She tells us her ambition is to be a nurse. Best of luck to you, Sidney.

Bill Andrula, tall and fair haired, was born May 14, 1932. Hailing from Partridge Hill, Bill is attending his first year of high here. His ambition is to be a radio technician. Among his likes are dancing (with ???) and also all sports, His dislikes, few in number, are school in general and getting up early.

Alberta Weekly Editors Hold Annual Convention in Edmonton

(Special Report by Canadian Printer and Publisher Representative)

Edmonton—The weekly newspapers are performing a major service to their communities, Alberta editors were told by E. E. McCartney of Brampton, managing-director of the Canadian Weekly Newspapers Association, at the annual convention of the Alberta Division, C.W.N.A., which met at the Macdonald Hotel here at the week-end.

The publishers discussed rising costs, shortage of materials and labor, promotion of advertising, then elected officers and named the first life members Trophies and prizes in the Better Newspapers and Commercial Printing competitions were presented.

Mr. McCartney, in his address, said that rural publishers have a large investment in buildings, plant and equipment. He said that the editors of weekly newspapers were performing a service so valuable to their community as other institutions.

The national officer gave facts on national and local advertising and said that space in a good weekly newspaper was well worth one dollar an inch to the advertiser

Cost Are Higher

Clive B. Nesbitt of Brooks, Alberta president, presided over the sessions. Making the annual address, he said that the shortage and difficulties of war years were by no means ended.

"Costs of both materials and labor have risen alarmingly, yet bargues made by the vendors for their service have much too reasonable, particularly advertising rates."

Mr. Nesbitt said that as a group, the weekly newspapers had been in the long fight against inflation which was now here, and that the home town publishers would have to demand more for their services to cover higher costs.

Made Life Members

The Alberta association, which some months ago was incorporated, honored three pioneer editors who had rendered special meritorious services through the years, including the early press organizations preceding the present.

Delegates made these Honorary Life Members Charles Clarke Sr., founder of the High River Times, who began publishing there in territorial days and has served as national president; Sam R. Hodson, veteran publisher of the Okotoks Review, whose illness prevented his presence after attendance at more than forty previous conventions; and A. L. Horton who founded the Vegreville Observer in 1906 and whose editorials are widely quoted. Illuminated addresses will be presented to all three.

The convention stood in silent tribute to the memory of W. H. Schorbolts, for some years publisher of the Rocky Mountain Mountaineer and a past president, who died some weeks ago.

Competition Winners

Results of the annual newspaper and printing competition, held to measure progress in service, were announced at the close:

Better Newspapers Contest, with Grain and Milling Advertising Service shields for each section—Weekly with circulation over 750, first, The Red Deer Advocate; second, The Lacombe Globe; With circulation less than 750, first, The Vulcan Advocate; second, The Banff Crag and Canyon.

Dominion Textile trophy for best front page, first, The Wetaskiwin Times; second, the Red Deer Advocate.

High School

Marjorie Stannard, a girl from town is attending her first year of High School. This dark-haired lass was born in Machin, Saskatchewan on the 20th of June. Among her likes are listening to music and touring Dance. Her dislikes are algebra, manners and chores. If you hear the words "Oh! for heaven's sakes" you'll find Marjorie not far off. She tells us her ambition it to be a nurse. Best of luck to you, Sidney.

Bill Andrula, tall and fair haired, was born May 14, 1932. Hailing from Partridge Hill, Bill is attending his first year of high here. His ambition is to be a radio technician. Among his likes are dancing (with ???) and also all sports, His dislikes, few in number, are school in general and getting up early.

Man Found Floating in River

The body of a man, who was identified as Mike Jevtuchowich, Stone Mountainer and a past president, was taken from the North Saskatchewan river, just east of the Fort, Monday evening.

The body was first seen floating down the river by Ray Whitson. He notified Constable Thomas, who with the assistance of three other men, brought the body to shore.

Dr. T. W. K. Henry, coroner, was called, and after C.I.D. were notified Examination disclosed that the man had been in the water for some considerable time.

A considerable sum of money was also found among the man's possessions.

An undertaker later removed the deceased to the city.

Men Get Prison Terms And Fine for Stealing

John Sokalka and Teder Domaniuk, of Edmonton, who were arrested by Constable Thomas, Wednesday, October 8th, pleaded guilty to three charges of theft before Magistrate McKean and were given six months suspended sentence for theft of desks and chickens from Mr. D. Buchanan, $25 and cost or twenty-one days for theft of chairs from George Pomaski's car, and ten days hard labor at Fort Saskatchewan Gaol for theft of tools from Demster's Garage.

B. M. Cardinal, who appeared in the Police Court here, Wednesday, was charged with causing a disturbance on the night of Monday, October 13th. He was fined $5 and costs.

TO LIVE LONGER

Three rules for continued renewal, or happiness and peace, are given by Ottawa health authorities. They are—live in moderation and wholesome manner—take non-toxic care in all departments of living, and keep in close contact with the family physician, to ensure adequate safeguards against disease and against lowering of the capacity to enjoy life.

"You can't take health with you any more than wealth", the doctors remind us, "but you can use it to improve it you live sensibly and sensibly."

SQUINTS SIGNIFICANT

Medical authorities declare that squinting which develops in infancy should be investigated and treated. No matter how young a child is, he requires special attention for a squint.

If left too long, the vision of the squinting eye may be lost through disuse. This is very likely to occur if nothing is done before the child reaches the age of five or six years.

Winter Care of Combines

The following suggestions on combine care from R. Y. Stephenson, Agricultural Engineer for the Alberta Department of Agriculture, will, if followed, result in reduced operation costs and prolong all period of service.

The first step in preparing the combine for storage is to clean off all dust, grain and straw so that these cannot collect moisture, which if allowed to stay on the machine will soon corrode through the thin metal.

The concaves should be taken off and after all straw and waste are cleaned from under the skids, allowed to dry thoroughly. The canvas should then be re-rolled and hung in a dry place, preferably suspended by wires from rafters so that mice cannot get at them.

If left too long, the vision of the squinting eye may be lost through disuse. This is very likely to occur if nothing is done before the child reaches the age of five or six years.

Canadian lumber shipped overseas was taken out of. The sediment bowl should be drained to get rid of water. The crankcase and filter would be drained to get rid of possible acidic oil. New oil should be put in, and the motor run for a few minutes to distribute the oil.

Following this, each of the spark plugs can be removed and about a pint of light oil poured in each cylinder. The plugs should be replaced and the motor turned over a few times by cant to coat the inside walls with oil. The carburetor should be covered to keep out rain and snow, which, if allowed to enter, will cause rusting.

A few minutes spent in applying a rust proofing material to the guards and knife is well worth while, and will ensure that they are in first class condition for the next season.

Canadian Lumber Popular in Jamaica

Jamaica in the past imported some 15,000,000 board feet of lumber per annum, and until 1939, 14,500,000 or more feet came from the United States, which was by far the largest single supplier. However, in that year Canada shipped over 1,500,000 feet and this country has since maintained in each succeeding year. It is estimated that as soon as other commodities become available Jamaica freely available, imports of lumber should rise to 25,000,000 board feet annually Of this figure Canada should supply at least 50 per cent, providing a reasonable amount of advertising and promotion is undertaken to combat the erroneous belief, traditional in Jamaica, that southern pitch pine is superior to Canadian woods, which have only the rounds of the termite family.

Canadian red cedar shingles are now the only imported shingles on the Jamaican market having completely replaced the more expensive and undesirable American cypress shingle. Canada is no prospect of the cypress shingle becoming available again in the near future, and local collectors of handmade cedar shingles is so small that they are not a significant factor in the trade which once formerly imported almost exclusively in a 6-inch width are now being supplied in 4-inch widths, and the local trade appears to have become accustomed to using the narrow widths. In 1945, there were 6,000,000 shingles imported from Canada, as against 2,722,750 in 1946 and 1,388,384 in 1939.

AIDS FOR EYES

Warning against casual adoption of reading glasses comes from the Canadian public health authorities. In getting a pair of glasses, don't just post them up from a storekeeper, they say. Eyes of the same number, that is, may be sharp but it's false economy to buy glasses which may only aid the vision.

It is noted that many ingrown people for their own eye needs. Only an improper, antiethetical exist, is not qualified to decide for himself what type of lenses his eyes need. They may be too strong or too weak. The only safe way of adopting aids to sight is to have the eyes examined by a medical eye specialist or qualified optometrist.

Good and bad luck is a synonym, in the great majority of instances, for good and bad judgment.—John Chatfield.

Notice to Creditors and Claimants

IN THE MATTER OF The Estate of HAROLINA RIPPEL, late of the Town of Fort Saskatchewan, Province of Alberta, Widow, deceased.

NOTICE is hereby given that all persons having claims against the estate of the above named Karolina Rippel who died on the 7th day of April, 1941 are required to file with the undersigned solicitors by the 15th day of November, A.D., 1947 a full statement duly verified of their claims and of any execution held by them and that after that date the Executor will distribute the assets of the deceased among the parties entitled hereto, having regard only to the claims of which notice has been so given and which have been brought to his knowledge.

DATED this 6th day of October, A.D., 1947.

DOHERTY AND HARPER,

Edmonton, Alberta,
Solicitors for the Executor,
Gustav Frey.

What Makes This Jumping Bean Jump?

A new type of Mexican jumping bean was discovered recently by an inspector of the Plant Protection Division, Dominion Department of Agriculture. A Toronto exhibitor coming from the United States destroyed by the Customs Officer at Fort Erie, Ontario, a carton he had as "Mexican Jumping Beans". The Plant Protection Division Inspector knew that the Mexican Jumping Bean jumps because it contains the living larva of Carpocapsa saltitans, a tiny moth common in Mexico. As Canada allows the importation of living insects only under permit, when considered of practical value, the Mexican Jumping Bean being regarded as a novelty only is, therefore, prohibited.

When the inspector examined the beans in the carton he found instead of the common three cell pods, which provide shelter and food for Carpocapsa saltitans, 1,440 small plastic capsules each much like a bean of my kind in the carton. In each capsule was a tiny ball bearing that made the capsule jump like a cat on a hot griddle. "The best type of jumping bean I've ever seen," said the inspector, "because it does not present any pest problem."

As no agricultural or other restrictions applied, the new species of jumping bean is making its appearance in stores where they are likely to stay such a novelty.

The "genuine" Mexican jumping bean has for years provided a nice profit for those who have sold sidewalk pitches in the United States.

A sample of the new "bean" has been added to the official collection of "insect" interceptions in Ottawa.

I Like a Locker -
Now that the shooting season is here we don't have to worry about storage space . . . Hill takes all the ducks, geese and other game he shoots and just stores it in our locker, which keeps it fresh and tasty and solves the problem of a change in diet during the long winter months.
All the fresh fruit and vegetables we grow in our garden are stored away for winter use and the money we save and having to buy them fresh during the winter, more than offsets the original price of a locker.
I like a locker because I know that our meats, fruit and vegetables are kept fresh, at all times, under the most sanitary conditions.

The Agricultural Service Board

H. L. STETSON, Field Supervisor

There is every evidence of a shortage of seed oats in this Municipality in order to relieve this situation as much as possible, we wish to suggest to all who have oats, that will make seed, to refrain from selling same for any purpose other than seed. We would appreciate being advised whether you will have seed for sale or will be obliged to purchase it.

In the management of a dairy herd, the greatest factor affecting the production of each cow and consequently the year's profit or loss is very well illustrated by the following facts:— The average production of 389,709 cows kept for milk purposes in Alberta, last year, was 4,497 lbs. of milk and 189 lbs. of butterfat. Compared with this, production from 28 herds scores test with the Alberta Department of Agriculture averaged 9,888 lbs. of milk and 398 lbs. of butterfat.

You will notice by these figures that a fairly high producing cow produces almost twice as much as a scrub at very little extra cost. This principle applies with equal force to a flock of laying hens. The greater the production per bird in the line it pays per dozen eggs.

The cheese-maker week by cheese maker pushed quality in our fall creameries in recent years to date, of course, to the fact that they are now receiving in many instances a premium on cream because of the better care exercised. Following are a few comparative figures. (Units are milligrams per metre.)

	CJCA	Station No. 2
Ojibb	4.80	2.60
Gibbons	14.80	11.80
Sandy Lake	2.80	.30
Wainwille	4.80	.60
Lamont	6.80	1.60
Cameron	8.80	2.60
Camrose	2.80	.72
Penolin	2.80	.60
Red Deer	.80	.10

Q. I have been receiving pneumonia treatment for two months and my sanity, the size of a small pea, has not started to heal. Do you think it will heal in time?

A. A sanity which has existed for ten months during pre-antibiotic treatment in all probability will not heal as the result of that treatment alone. Probably additional measures will have to be used.

Q. How long does it usually take one's lung to heal when receiving pneumothorax treatment?

A. This depends upon the amount and character of the tuberculosis and whether or not the pneumothorax is complete or only partial. The duration may be anywhere from six months to three or more years.

Putting away the garden produce for winter use requires considerable effort but keeping these vegetables in good condition is relatively easy, if a few simple rules are carefully followed.

Change in storage arrangement within the available space will make a great difference in the life of vegetables in storage. Temperature is important. Potatoes, if chilled below 38 degrees F., will be sweet when cooked but will sprout and wilt if kept above 42 degrees F., therefore, the ideal storage is between 38 degrees F., and 40 degrees F. Other root vegetables such as beets, carrots, turnips and salsify, keep well if packed in sand and at temperatures between 32 degrees F., and 36 degrees F.

Tomatoes picked when almost mature, yet green, will keep for some time if they are free from insect injury or skin punctures and if they have not been touched by frost.

Mixed and heavy heads of cabbage are in prime condition for storage. Left in the field too long the heads will burst and split when topped or brittle, while heads cut when soft or immature will wilt badly.

Before placing in storage, cut side leaves should be stripped off, as these interfere with ventilation which is one of the most important essentials in the storage of cabbage.

Cabbage heads should be well cooled before placing in storage.

One method of storing cabbage is to bring the heads into the cellar immediately after harvesting and place these roots in moist sand on the floor with heads in an upright position as closely together as possible.

Another method is to cut the heads from the roots, leaving about two inches of stalk attached, and place these trimmed heads on the side shelves of the storage with two inches space all around each head.

A third method is to pile trimmed cabbage heads on the cellar floor in the form of a triangle.

In taking stock of one's physical condition, satisfactory eye consultation and compliance only with those fully qualified to find, understand and prescribe for, possible bodily needs

Human silhouette are not always self-evident, and even minute investigation may give a false sense of security, and entail a possible dangerous delay in taking remedial action, unless carried out by a professional man skilled to interpret all the signs and symptoms at more than "face value".

Others cannot point out, for instance, that small stones and urbos which one is inclined to pass on lightly, and soon forget, may be the very signals by which the body is seeking to direct attention to itself and its problems. When in good health, the normal human being is rarely conscious of his organs and bodily functions. It is only when parts of the human mechanism begin to crush and grate, and pass on sensations of pain, that we become aware of their existence and importance to our comfort and well being. So, says the doctors, be wise and forearmed; those infections from the body that it wants "service". See the tonsils sometimes to ensure that they are not more than minor discomforts.

Inc. Mix all other ingredients to a smooth paste and add enough to hot vinegar, cook stirring until thickened. Mix well with vegetables, re-heat. Bottle while hot

Radiograms

IMPRESSIVE TO SAY THE LEAST!

Since our business is power, clearing and restocking has been a point-of-the-dash competition for radio technicians. Recently, at a field meeting conducted by Heath & MacKinnon, consulting radio engineer, Ottawa, reveal an impressive set of figures that CJCA has ahead of the field in "strength of station".

At 24 set of 32 scores tested, CJCA's signal comes in strongest and most consistently. The next tested' are points strategically located throughout the entire listening area of the Edmonton stations. Following are a few comparative figures. (Units are millivolts per metre.)

	CJCA	Station No. 2
Ojibb	4.80	2.60
Gibbons	14.80	11.80
Sandy Lake	2.80	.30
Wainwille	4.80	.60
Lamont	6.80	1.60
Cameron	8.80	2.60
Camrose	2.80	.72
Penolin	2.80	.60
Red Deer	.80	.10

A Fort Jean conformed that any figure from 5 millivolts up indicates a good signal. Naturally of course, the greater the figure, the better the reception.

EXTRA EYES

To keep up to date rapid developments, young people need extra food, and the authorities say that it is quite right for them to have in-between meal drinks, so long as these consist of the right kinds of food.

Nutrition experts say that such "snacks" may consist of fresh or dried fruit, raw vegetables, crackers and milk or bread, with butter or peanut butter.

Of course, such casual eating should not take the place of full meals. Discretion should be used, to ensure that one does not blunt the appetite for proper luncheon meals at regular hours.

"Where were you on the night of the 17th?"

"I thought I told you to keep away from here," smiled Bob.

"My dear, I never see you any more, since you turned the cellar into a shop," processed Ethel. "If a cop were to ask me where you were on the night of the 17th, I wouldn't even have to think. What a lovely table, Bob! Who's that for?"

"It was to be a surprise for your birthday, but you are what you get for snooping. I've put in every free night for three weeks on it, but I've never been so happy in my life. For years I figured I couldn't afford the tools and the lathe and stuff. But when we got down to a budget that looked after our life insurance and other essentials first, I knew I could indulge myself and do a bit of shopping."

A man with obligations like insurance to pay a freedom from worry that nothing else can give him. Insurance is the cornerstone of systematic saving and budgeting. Once the future of his loved ones is secure, the head of a family can relax and derive pleasure from his holidays.

Have you, by a life insurance agent, ask him for advice in planning your future. It's a good relationship to start life insurance.

WEDNESDAY, OCTOBER 15, 1947

CANADA SAVINGS BONDS

Tuesday, October 14th, was the opening day for the sale of the second series of Canada Savings Bonds, and no doubt, will be successfully subscribed to, as was the first issue.

The limit of $1,000 placed on holdings in any one name makes it possible for the small investor to obtain his share of Canada.

These new bonds pay 2½%, interest for a period of ten years and can be purchased from chartered banks, investment dealers, trust and loan companies and other savings institutions, or on the Payroll Savings Plan, which proved so popular with employees during the first issue.

Another popular feature of these bonds, and one which especially meets with the approval of the small investor is the fact that they may be cashed at any time for full face value, plus interest, at any bank in Canada.

New Chemical to Aid Fruit Growers

Frost growing, never the simplest form of agriculture, is becoming an even more complicated business. In British Columbia, for example, the 30-million dollar fruit industry depends on the survival upon organic chemicals onboard of until a few years ago

Next year, many Okanagan and Similkameen Valley growers will simultaneously control their three most serious apple pests with a mixture of dichlorodiphenyltrichloroethane and tetrachlorodinitrocyclohexylphenolan. The

Frost of these polycyclidres in commonly known as DDT Used alone DDT does a fine job of codling moth control but actually increases the severity of orchard mite infestation DDT kills the natural enemies of the mites but does not kill the mites themselves. Enter the second substance with the even longer name; this is evergreen poisonous to orchard mites but evidently not injurious to several of their natural enemies. Consequently it nicely supplements the fabulous DDT.

The new miticide, known as DNOHP for short, has been under investigation by the Summerland Laboratory of the Division of Entomology, Dominion Department of Agriculture since 1941 but only in 1947 did it come into widespread use. The investigators were satisfied for some time that it was the cheapest highly effective miticide available. But because it has heretofore been used only for other purposes and was highly concentrated they were afraid that growers, by and large, could not be depended upon to weigh accurately the very small amount necessary, one part in 2,000 parts water. Since, in weight, an error of two ounces might result to severe injury to the fruit trees, the fact that practically no injury has occurred in hundreds of grower applications speaks well for the careful work of the British Columbia fruit grower. Next year it is expected that this new aid to the fruit industry will be available in a form specially designed for summer control of orchard mites.

ITEMS OF INTEREST IN THE WORLD OF DOMESTIC FFs

Argentina's second official estimate of wheat acreage now places the seeded acreage at 16,339,000 acres, a drop of 628,000 acres from the first estimate of 16,967,000 acres. World prospects for oats for 1947 has been estimated at 4,12m million bushels, some 5 per cent less than the 1946 production of 4,350 million bushels.

Britain is now negotiating an agreement with Australia under which Australia will supply Britain with 50 million bushels of wheat during the 1947-48 season. World Wheat production for 1947 is now placed at 132 million bushels, 24 per cent above last year's production and the largest since the record production of 171 million bushels in 1943

U.S. CORN CROP

Production of corn in the United States is now expected to be only 2,604 million bushels, the smallest since 1930, and well below the 3 billion bushel crops of the past five years.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"
THE PRICE OF GOOD SEED

Prices for Registered and Certified seed for the year have been established. Representatives of Crop Improvement Associations, such as the "Crop Testing Plan" and of the seed trade distribute seed at no profit to themselves, representatives of Provincial Departments and of the Dominion Plant Products Division recently met and agreed upon maximum prices. The prices to be paid for good grower seed have increased over last year, based on the knowledge that Parliament will make up the price of wheat and make it retroactive for 1946 and 1946, but seed growers do not receive any portion of the differentials from the Wheat Board, so they are obliged to add to the price of seed the benefits they would have received had they sold their seed as grain for elevators. It is hoped, therefore, that when farmers read these higher seed prices they will remember that for the entire time, registered seed growers have been obliged to expand, that they are still receiving but a modest return for their additional work, that the price which is actually the farmer half the price of the seed he buys, and that he cannot buy other commodities at a price which is anywhere near the pre-war level. It is encouraging to note that the present prices are not the peak, and that the price of bread was low that nobody was still complaining of the people's pockets. "Talking of subsidies," Sam says, "it is inevitable that when they come there is a price cited. If oats could be kept from rising by such a simple device as listing them by law, it was done temporarily during the war emergency, no government would hesitate to make that a permanent policy."

Hopefully is the thing in regarding next year's position, declares the Virden Man. Empire-Advance. "In crops constantly to improve oneself, to have an open mind toward new ideas. Thus, one will grow and become a greater and more useful person."

From Cardston, Alta., The News takes the editorial stand that in view of our total debt to Britain, it is our obligation to provide even greater assistance than in the past." We must produce and sell to the very limit of our capacity because a broken Britain would re-veil in a poorer Canada."

There seems to be an unbalance somewhere in our economy, when the savings that are merely "small pointers" to the government are so important to the taxpayer that they are disrupting to budget and preventing him from getting a head, or realizing any savings that are normal man's hope. The government is not acting in the interests of its citizens until it can in some way restore the individuals' ability to pay his bills and save a little Social benefits under government auspices can never bring to man the satisfaction of paying his own way under his own power, and providing for his old age.—High River, Alta., Times.

Fall is here folks, and the Fort Frances, Ont., Times gives it homely treatment, thus. When members of the women's institutes and ladies' organizations from various churches begin advertising their annual chicken suppers, fall has arrived. Townsfolk who have never attended one of these suppers, have a real treat in store for them. How the ladies throughout the district can cook! And what ideas as to men's appetites more with our approval.—Fort Frances Times.

ACROSS COUNTRY

Some people have all the luck, witness Mrs. T. Whitley of Truro, N.S., who has found 54 four-leafed clover and five of the five-leaf variety in her garden . . . s ent owned by Miss Etta Grant of Six Mile Book, U.S., is to its 54th year . . . a pumpkin grown by Darlene Rankaky at Wardner, B.C., weighs 72 lbs. . . . three truckloads of rye brought in by Walter Hanover of Bonnie, Alta., each brought over $600 . . . at Rosebank, near Norden, Man., Mrs. Sam Stewart re-

SEEDTIME and HARVEST
By
Dr. P. J. GISSANE
Director,
Line Elevators Farm Service
Winnipeg, Manitoba
Aids to Better Seed

Germination and Dormant Tests

The importance of germination tests, and other seed tests in assisting farmers to assess the value of their own grain for seeding purposes cannot be over-emphasized This year, particularly, there is so much low grade grain in the country that farmers would be well advised to have the seed they intend to sow next spring tested for a germination. It is true, of course, that seed of wheat, oats, barley and flax may look fine and weatherd and yet germinate strongly—and vice versa may not. It is always wise to have a germination test made.

For the benefit of prairie farmers Line Elevators Farm Service operates a first-class seed laboratory This year it offers a complete seed testing service to growers of wheat, oats, barley, rye and flax. The service includes the following as part of seed tests

1 Germination Different tests ... tion will be made

2 Seeds On request, it ... cent of weed seeds will ... ected

3 Smuts All wheat samples ... be tested for bunt (stinkin smut)

4 Other Diseases. Samples will ... examined for seedling blight and other diseases

5 Mechanical Injury. This test ... important for flax

6 Purity of Variety Varied ... plants tests (growing tests) will be made on wheat and barley seed

Growers should submit ... samples for testing to the nearest Line Elevator agent as soon ... possible, and instruct him as ... what test are required Samples ... should be at least 4 ounces and ... more than 6 ounces of clean seed. The Country Editor

By TIM GREENBLAT

A lot of us short-haired folks don't quite get the boredom of this U.F. dollar shortage business, but we do know something must be wrong. All we can do is read and try to understand it ourselves and explain enough to understand. For instance the President of CPR points out that the company is losing expensive production of goods—and Canada would be sorry to make immigrants welcome at the rate, now reckoning the consumption of the things which we need at present to need abroad. Then the president of Canadian Manufacturers' association offers a sound idea that many raw materials which we now import from the U.S. could well be produced in Canada

Detention and bread prices is treated admirably by the Swift Current Sun, with the suggestion that it is simply ridiculous for the Dominion to wheat for ... in Canada and the result of ... being sent south again. The government has been keeping the ... down by selling ... to mill feed for ... and ... the store which ... the farmer half the price ... he sells it. Then ... has to ... other countries. Now ... a certain ... ing ... ... at a price ... that the ... of bread was ... but nobody was still complaining out of the people ... rockets. "Talking of subsidies," Sam says, "it is inevitable that when they come there is a price cited. If oats could be kept from rising by such a simple device as listing them by law, it was done temporarily during the war emergency, no government would hesitate to make that a permanent policy."

Hopefully is the thing in regarding next year's position, declares the Virden Man. Empire-Advance. "In crops constantly to improve oneself, to have an open mind toward new ideas. Thus, one will grow and become a greater and more useful person."

From Cardston, Alta., The News takes the editorial stand that in view of our total debt to Britain, it is our obligation to provide even greater assistance than in the past." We must produce and sell to the very limit of our capacity because a broken Britain would re-veil in a poorer Canada."

There seems to be an unbalance somewhere in our economy, when the savings that are merely "small pointers" to the government are so important to the taxpayer that they are disrupting to budget and preventing him from getting a head, or realizing any savings that are normal man's hope. The government is not acting in the interests of its citizens until it can in some way restore the individuals' ability to pay his bills and save a little Social benefits under government auspices can never bring to man the satisfaction of paying his own way under his own power, and providing for his old age.—High River, Alta., Times.

Fall is here folks, and the Fort Frances, Ont., Times gives it homely treatment, thus. When members of the women's institutes and ladies' organizations from various churches begin advertising their annual chicken suppers, fall has arrived. Townsfolk who have never attended one of these suppers, have a real treat in store for them. How the ladies throughout the district can cook! And what ideas as to men's appetites more with our approval.—Fort Frances Times.

ACROSS COUNTRY

Some people have all the luck, witness Mrs. T. Whitley of Truro, N.S., who has found 54 four-leafed clover and five of the five-leaf variety in her garden . . . s ent owned by Miss Etta Grant of Six Mile Book, U.S., is to its 54th year . . . a pumpkin grown by Darlene Rankaky at Wardner, B.C., weighs 72 lbs. . . . three truckloads of rye brought in by Walter Hanover of Bonnie, Alta., each brought over $600 . . . at Rosebank, near Norden, Man., Mrs. Sam Stewart re-

No Export Permits For Milfeed, Etc.

On September 15th the Canadian Wheat Board instructed the grain trade that in accordance with advice from the Dominion Department of Agriculture no permits to export oats or barley, whether on ground, would not be approved during the current crop year

The Agriculture Department now announces that the same export restrictions apply to millfeeds, screenings and all kinds, and commercial feeds.

Estimated domestic supplies of commercials feeds are barely sufficient to support the present Canadian livestock on a productive basis. Export of livestock feeds would seriously handicap the feeding of livestock and might force considerable liquidation of farm animals, the effects of which would be widespread not only to farmers but also to consumers generally, and may affect the filling of current meat contracts with Britain, the Department said.

It would appear evident that all available supplies of feeds in Canada will be absorbed at commercial advantages over selling prices which were in effect until recently.

Kansas, hey winter wheat state, reports good conditions for the 1948 crop. Winter wheat seeding is usually completed by September 15. This year on that date much seeding was still to be done. Surfaces are dry, subsoil moisture conditions are below average

May Import Cattle from Scotland

Rumors there has been to outbreak of Foot and Mouth disease in Scotland since early this year, the Agriculture Department has announced that cattle, sheep, goats, swine, ruminants and cervine, up from September 15th may be imported into Canada under the following conditions:

"The animals must be embarked at a Scottish port, and the vessel conveying them must have direct to Canada without touching at an English, Irish or foreign port.

"In addition to the usual health certificates the animals must be accompanied by an affidavit of the shipper declaring that the animals so embarked have been in Scotland for a period of sixty days immediately preceding date of shipment.

"The cattle imported are subject to test by an officer of the shipper that the feed taken on board for feeding these animals on voyage has been grown in Scotland."

Crop increases of from 25 to 200 per cent are reported from the experimental soil around Nagasaki, Japan. This is contrary to the expectations of "short" scientists.

Annual Meeting of Audit Bureau Members in Chicago

The representatives of 3,000 publishers, advertisers and advertising agencies, members of the Audit Bureau of Circulations, with which The Fort Record is affiliated, will hold their thirty-third annual meeting in Chicago, October 16 and 17.

Operating for a third of a century to the outstanding example of successful cooperation between buyers and sellers in an industry, the Bureau's work reflects the benefits of self-regulation and free enterprise in business. Previous to 1914, the year the Audit Bureau was established, advertising was pretty much of a gamble. When merchants and manufacturers bought advertising space in those days there were no standards for measuring the circulations of newspapers and periodicals and no uniform method for auditing and reporting these circulations. Then, in 1914, a group of advertisers, publishers and advertising agencies organized the Audit Bureau, established standards for circulation values and the means for verification. With the advent of the Audit Bureau, advertising was transformed from a field of speculative adventure to one of investment in known values and it became possible, for the first time, for advertisers to buy space with the assurance that they would get what they paid for instead of spending their money on the basis of guesswork and unverified claims.

Circulations Audited

The Audit Bureau, better known as A.B.C., maintains a large staff of experienced circulation auditors who examine and audit the circulation records of all publisher members at regular intervals. The results of these audits are issued in A.B.C. reports which are available to advertisers and advertising agencies for use in buying advertising space. These reports tell how much net paid circulation a publication has, how it was obtained, the price or prices at which it was sold, how and where distributed and many other facts essential to the sound investment of advertising money. Thus, with the aid of A.B.C. reports, advertisers can select the media best suited to their needs, invest their money on the basis of verified information and know just what they get for their advertising dollars.

Today ninety-five per cent of the total circulation of all daily newspapers in the United States and Canada—eighty-eight per cent in Canada is audited by A.B.C. Many weekly newspapers have joined the Bureau in recent years and the movement of verified circulation in the weekly field is growing rapidly. In addition to newspapers the Bureau's publisher membership includes most of the leading magazines, business papers and farm publications in the United States and Canada.

Without the protection made possible by the use of A.B.C. reports it is probable that advertisers would not have invested the large sums in advertising that now characterize our economy. The Audit Bureau therefore, by its participation in the development of American business, is an integral part in the public service performed by the newspapers of America.

SECOND SERIES

Neglected Stoves, Furnaces, Chimneys Cause of Many Fires

Neglected stoves, furnaces, boilers or chimneys account for one-third of all fires in Canadian homes, a spokesman of the Canadian Institute of Plumbing and Heating reports. Other big causes of home fires he listed were the handling of matches and smokers, which also account for one-third. The remaining third comes from started in homes from all other causes.

Fires resulting from faulty or mishandled heating equipment cost Canadians almost $8,000,000 every year, to say nothing of the toll of human life, the spokesman said. These fires total over 9,000 every year. Most of the blame for these fires, which take the lives of 50 or more persons each year, can be laid to neglect in maintaining or handling heating facilities, he added.

Coal Gas Menace

Another cause of fire or life is coal gas. Faulty furnaces and stoves cause dozens of deaths from coal gas in Canada every year, and several hundreds in hospital. In Toronto and Vancouver alone, 21 persons met their deaths from coal gas poisoning in one year. Some of these deaths were caused by carelessness in handling equipment, but others were neglect in having repairs done promptly and efficiently.

"Most of the fires can be prevented," the Institute spokesman said. "A proper check on furnaces and chimneys, and repairs to worn or faulty heating equipment and cracked chimneys, will do much to prevent fires in homes. Chimneys in particular should be thoroughly cleaned before the heating season gets under way, especially in districts having soft or low grade of coal. These precautions will also help cut high fuel bills caused by inefficient heating equipment."

Tip On Chimney

A few tips on cleaning the furnace are suggested by the Institute. First the chimney has been cleaned clean out the pit at the bottom of the chimney. Clean all soot from the pipes connecting the furnace to the chimney. Soot can corrode the pipes.

Pipes should also be checked for holes and loose connections from which obnoxious smoke and dangerous coal gas may escape. The pipes should slope upwards inward the chimney if they slope at all.

Finally, the furnace fire box and heating boiler should be thoroughly cleaned and checked for cracks or other damage. Proper equipment and experience are necessary to make a thorough inspection and cleaning, particularly of the ash pan, say, the Institute points out. Homeowners who are inadequately prepared to cope with the job should call in a qualified contractor.

Further hints are offered for the safest and most efficient method of handling the furnace.

Proper Damper Adjustment

All fuel generates gas when burning. To obtain full heating effect from the fuel, this gas should be completely burned in the furnace. If it is not completely burned and escapes from the furnace into the home, instead of up the chimney, it both wastes fuel and becomes a menace to the household. To ensure maximum combustion a proper adjustment of damper and drafts is necessary. This can be done most efficiently by an automatic thermostat.

All doors on the furnace should fit tightly and the fire door should be opened only when adding fuel. When stoking the fire, do not completely smother the flames. Leave a patch of red coals exposed to ignite gases in the fire pot.

When furnace controls are manually operated, the check and draft dampers should be operated together. The draft should be opened and the check closed for increased heat, and then reversed when the furnace is burning sufficiently strongly.

The turn damper in the smoke pipe should be between the furnace and the check damper. It should be adjusted to obtain sufficient heat in the home, and should not need altering daily. Do not close it to tightly or it will cause the fumes to back up into the furnace, and escape through furnace doors.

FORT SASKATCHEWAN

The Workers of Russia

By E. J. BEACHMAN

This story gives some facts on the earnings of Russian workers, the things they buy, the prices they pay—also the comparative position of the Canadian worker. The figures dealing with Russian conditions are from the "Monthly Labor Review", a publication of the United States Department of Labor. Any conclusions drawn therefrom are, of course, my own.—E. J. D.

Some kind friend, no doubt for the good of my soul, sent me the other day a copy of the "Daily Tribune", the Toronto Communist paper. Reading it will do me no harm—reading what I write about it is not likely to hurt you, let's examine the facts.

On the front page was an item under the caption, "Stow Lowers Prices, Raises Wages". It read as follows:

"While most "free enterprise" nations are in the grip of jet-rocketing prices, the Soviet Union has announced new lower prices in co-operative stores, higher wages, new pension plans for miners and other reforms designed to raise living standards." From the "Daily Tribune", Sept. 30, 1947.

It sounds rather pleasant doesn't it, but in Russia things are not always what they seem. Here is a table of monthly wages in rubles. The increase in wages took place between August, 1946 and October, 1946.

BASIC MONTHLY WAGES (In rubles)

Aug. 1946	Oct. 1946	% Increase
250	350	50
300	400	33
400	500	25
600	700	20
650	750	15
700	790	13
800	880	10
900	980	9
1,000	1,080	9

Prior to this change the average wage of the Soviet worker was 400 rubles per month, very few Soviet workers received as much as 900 rubles per month. The change represented an increase of approximately 25 per cent. As this is the first wage increase since the beginning of the war, and as Canadian wages have gone up between 1939 and 1946 by approximately 60 per cent there is no reason for Canadian workers moving to Russia in order to better their position.

Russia is a country with a multiple price system. If you are a worker with a ration card, you get the things you want to buy at a price substantially lower than you otherwise would. Here are a few items which illustrate pretty clearly what is meant. Supposing a man in Russia wants to get a suit, a pair of shoes, a pair of socks, a shirt and an overcoat, he will find that the commercial price of these commodities run all the way from 3 to over 6 times the price that he would pay in the ration stores. The following table illustrates the difference:

"Commercial store and ration prices in Moscow for selected manufactured consumers' items, December 1946"

Item	C. Price Rubles	R. Price Rubles
Men's wear		
Suit	2,000	600
Shoes	1,200	270
Socks	65	9
Shirt	220	60
Overcoat	5,000	1,000
TOTAL	10,000	3,147

Assume now that an average Russian worker earning 800 rubles per month wanted to buy these items at the ration store he would pay 2,147 rubles, it would therefore take him over four months, if he spent nothing on other things, to purchase this outfit.

How would the Canadian worker get along if he desired the same equipment? This is what he might get. If the prices soom too low or too high look them up at your nearest clothing store—quality and price may vary to some extent in different parts of Canada.

CANADIAN PRICES

Suit	$ 50.00
Shoes	6.00
Socks	2.00
Shirt	4.00
Overcoat	60.00
TOTAL	$124.00

Even at $1,500 a year, $125.00 per month, the Canadian worker would have a dollar over if he took all these items out of his wages for one month. The Communist worker would be slightly more ahead than his goal. After four months he would own 147 rubles. From the standpoint of the worker, Communism doesn't pay.

THE FORT RECORD

Timely Farm Notes

By E. J. Whitbread, District Agriculturist

PREPARE THE YEAR AHEAD FOR SATISFACTORILY PLANTING

Hundreds of farmers on the prairies are taking great satisfaction from shelterbelts they have planted against the cold blasts of winter and the hot winds of summer But there are still many farm homes lacking their protishment completely year in and year out and doing nothing about it. One must be forehanded; you cannot plant trees successfully without having prepared the ground the year ahead.

In view of the permanence of trees, make sure that you plant your shelterbelt at the right place. It should surround all the farm buildings, yards, paddocks and garden. Allow enough space for future development and remember that as the trees grow they encroach surprising on the size of the area within. E. C. Hallman, Superiser of Alberta Department of Agriculture's Farmstead Planning Service, recommends an enclosure of at least four acres for the farmstead on a quarter section farm, and up to ten acres for the larger farms. In general the shelterbelt will best take the form of as nearly square as will fit the circumstances. Allow a strip of land between the trees, side by side, along the west and north against the prevailing winds and from 30 to 40 feet along the other two sides to admit of cultivation as the trees grow larger.

The land must be summerfallowed and the soil brought into good tilth the year previous to planting in order to obtain trees free of charge, application must be made also the year previous, from the Dominion Forest Nursery Station.

Cold weather starting will wear engine parts very quickly The cold weather start adds up to many hours of normal operation The reason is that an engine standing idle for a while will have all the lubricating oil drained into the crankcase. There will be a very thin film of oil on the working parts, and the oil in the crankcase will be cold and very thick and very hard to circulate As soon as the engine starts, this film of oil will be burned off the cylinder walls by the heat of combustion It may take 10 minutes or it may take half an hour for the oil to circulate properly All this time the cylinders and pistons are starved for oil. There will be a very high rate of scuffing between dry pistons and rings against dry cylinder walls As a result of this scuffing, wear will be many times normal

Mr. Stephanson says that a car starting at zero temperature, and requiring 30 minutes to warm up to normal operating temperature, is equivalent to 120 miles of operation under summer conditions The mileage does not show on the car speedometer, but it shows up as decreased engine life

ALBERTA SEED EXHIBITS FOR TORONTO RANK CHECKED

In past years, Alberta seed exhibitors have won a large number of the top prizes at the Toronto Royal and the Chicago International Hay and Grain Show. This has brought honours not only to the individuals who prepared outstanding exhibits but to the province as well

This year an unusually large number of exhibits from the province was anticipated, but unfavorable harvest weather may have discouraged some prospective exhibitors. Those who were able to harvest their grain early and in good condition are advised to make a special effort to prepare an exhibit. Those who have not threshed but have their fields in well capped stooks might still prepare a high class sample of grain. Sheaves could be taken into a machine shed or other suitable building and the unweathered material selected before threshing.

Exhibits must reach the Field Crops Branch, Department of Agriculture, Edmonton, by November 7th for the Toronto Royal, and by November 14th for the Chicago Show.

Additional information about these shows and a mimeograph dealing with the preparation of seed grain for exhibition are available from the Field Crops Branch.

The late W. D. Albright, for years superintendent of Beaverlodge Experimental Station, wrote the following verses in 1941 when the Peace River block was enduring exceptionally bad harvest weather.

"IF"

If you can keep a smile when all about you
The pouring rains are rotting all your hay,
While grain is sprouting in the offdrenched bundles,
And cars mire daily on the King's Highway;

If you watch your feed bins running empty,
And find no chance to thresh a load of grain;
Can see your fellow grooming as a meadow,
With weeds and grass, throughout two months of rain;

If you can wade through barnyards miring deeper,
And see the pigs convert their lots to mud;
If you can feed a cross and get no work done,
While every hope of fairing proves a dud;

If you can see the sun in broad offeigence
Shine forth as if in promise of fair days,
Then dodge behind a snowy cloud, repentant,
And follow rain;

If you can see a summer's work dissolving,
And face a winter minus feed or cash;
Can still maintain the spirit of Thanksgiving,
When every blessed prospect seems to crash;

If you can stand all this and keep your manners
And cheer a fellow farmer to the end,
Yours is the land, and everything that's on it,
And, what is more, you are a brick my friend.

"England has seen dark days before; with a kind of instinct she sees a little better on a cloudy day and, in the storm of battle and enemy she has a surer vigor and a pulse like a cannon."—Emerson.

STUDY WISE

ANGLE OF LIGHT

Continuous eye strain can undermine general health, and may be the cause of a loss of standing in studies Health authorities at Ottawa issue a special warning, at this time, against abuse of the eyes.

The experts declare that artificial light in itself is not harmful. It is detrimental only when it is too weak or when it creates glare

Those who suffer from hot or tired eyes, blurred vision or dull headaches are urged to consult the family doctor, or, if at school, to report these symptoms to the school health authorities. Steps can be taken to make corrections. Modern developments in the field of ocular science afford easy relief for most eye troubles.

COMPARISON IN PRODUCTION

Production of small grains in Ontario this season is estimated at 104,287,000 bushels, or 52,000,000 bushels less than last year

Alberta's production of barley, wheat and oats this year totals 237,000,000 bushels, as compared with 266,000,000 bushels last year.

Impressive Services Mark Anniversary, Dedication, New First United Church

Past members of First United Church from as far away as Kelowna, B.C., and Wainwright, Alberta, joined with present members and adherents in two impressive services last Sunday, marking the dedication of the new church basement on the same day as the 69th Anniversary of the first building this congregation ever had a little log church used from 1907 to 1925. A tiny replica of the original church, made by Mrs. E. M. Moore, graced the top of a large, beautifully decorated "Church Birthday Cake", which was on display during the day and was finally eaten at the social hour after the evening service. The cake was the handiwork of Mrs J. D McLean

Rev. E. H. Birdsall, former minister from 1940 to 1946, and a past Chairman of Edmonton Presbytery, represented the United Church of Canada in receiving the keys of the church from Dr. G. H. Turner, Secretary-Treasurer of the Trustee Board, and returning them to the local congregation after declaring the building dedicated to its sacred function. He later preached an effective sermon to the large assemblage. Assisting him in the service were Rev. C. H. A. Pocock and Rev. D. D. Rose. Mrs. S. H. Thorne was at the piano, and solist Junior Choir sang two sweet little anthems, while Mrs. Don Ray Cameron of Edmonton rendered the vocal solo "Bless This House". Brief greetings were extended by former ministers and from the Old Timers Association were read at both morning and evening services by Mr. Rose

At the evening service, Rev. C. H. A. Pocock, former minister from 1938 to 1940, preached a fine sermon for the Diamond Jubilee Anniversary. Rev. W. D. Ross conducted the service, and Rev. C. H. Finlay assisted. Mr. Finlay had been the pioneer minister of the Clover Bar United Church, from 1905 to 06 and had been acquainted with the Fort Saskatchewan church from 1901. The choir volume of the Senior Choir were heard in two anthems, and there was a male quartet consisting of C. H. Galloway, W. A. Johnstone, W. D. Ross and E. M. LeBlche. Guest soloist was J. W. E. Markle of Edmonton, who had been minister of the church when Mr. Pocock was minister. Mrs. W. D. Ross was at the piano.

At the social hour, Mrs. Floyd M. Baker and Mrs. C. L. Wallace poured tea, while W.A. members passed out refreshments to the crowd. Mrs. E. A. Hocque was hostess at the cutting of the "Church Birthday Cake". Chas F. Lowe then assumed the chair for a program of congratulatory addresses and music The speakers were Mayor C. R. W. Magor, Floyd M. Baker, M.L.A., Warden J. D. McLean, Rev. W. W. Buxton, Rev. Father Cuthbert Howard, Rev. J. F. Krieger, Rev. C. R. A. Pocock; Rev. E. E. Finlay, Rev. M. A. Johnson and Rev W. D Ross, who read numerous congratulations written by Rev. Dr M S. Kerr, former minister 1917-24. Mrs. Cameron and Mr. Markle rendered several more songs.

An added feature of the day was the baptism by Rev. E. H Birdsall, after the morning service, of Susan Alice, infant daughter of Mr. and Mrs. Hugh Staples, and of Jane Dale, infant daughter of Mr. and Mrs. Walter Sherman. A number of relatives and friends were present. It crowned the day's happiness for Mrs Fred Sherman, grandmother of Jane Dale, and President of the W.A., who were responsible for the "Church Birthday Party" A number of other officials were happy too in the knowledge that their efforts had borne fruit: Chas F. Lowe, the indefatigable Building Committee Chairman; F. H. Walton, in charge of estimating and finding building supplies; Harry Lonhur, who personally drew up all plans and specifications; the minister, Rev. W. D Ross; and others too numerous to be named in this account, who had all done their part faithfully.

The various activities of the church can now be carried on in the commodious new basement for as long as may be necessary. But it is planned to proceed with plans on the auditorium as much as weather will allow during the winter, and to finish the whole building in 1948, if possible.

Fort Children Attend Sunday School Rally

Members of St. George's Sunday School attended the Twenty-ninth Annual Sunday School Rally which was held at All Saints' Cathedral last Sunday afternoon at 2 p.m. The address was given by Rev. T. A. C. Smith, supervisor of youth work for Western Canada.

The presentation of prizes and banners, awarded to pupils, was made by Rt. Rev. W. F. Barfoot, Bishop of Edmonton. Among those receiving prizes was George Hall, who won the D.B.R.E. prize for the highest mark on examination in Junior Bible Class. Marjorie Wallace also won an award, the Religious Trust Society award, which will be sent from London, England.

Many thanks are extended to those who provided cars for the transportation of the children.

Junior Dairy Calf Club Organized in E. Edmonton

Some twelve families of Holstein breeders met in East Edmonton School Friday evening, October 17 to organize a Junior Dairy Calf Club which will be sponsored by the Holstein Breeders, Assn. of Alberta. In the first meeting yours contributed prize monies to juniors showing, until their export to Dairy Calf Clubs throughout Alberta.

An outline of the Dairy Calf project was given by E. J. Whitbread, District Agriculturist. Holstein calves born between Sept. 1 and Jan. 1 of this year will be selected, and will be shown under one year of age.

Mr. Mathew Olth, club leader, Mr. Ralph Briggs and Mr. G. M. Olth are the adult committee. The club executive are: Lloyd Hammond, Pres.; Doris Jones, Vice-Pres.; Marvon Wingyere, Sec.-Treas. who will conduct all the club's affairs under the direction of the Club Leader and Mr. Whitbread, Provincial Supervisor.

The club program consists of feeding, training and showing of dairy calf at a special club fair held as a community event. Dairy cattle feeding and judging are the educational features of the program. Members are, upon qualification, eligible to compete in the Provincial Judging Contests which result in a dairy club team going to Dominion Contests at Toronto each year.

Fort Old Timer Marks 90th Birthday

Mr. A. P. Robinson Sr., one of Fort Saskatchewan's pioneer citizens, celebrated his 90th birthday at the home of his daughter, Mrs. J. Bowen, Sunday, October 12th.

Born in Bolton, Northern Ireland, October 12th 1857, and coming to Canada with his parents he settled at Quebec until 1878 in Manitoba at the time of the C.P.R. homestead, he moved to the west and settled in Cannington, North Dakota In the winter of 1882 Mr. Robinson worked on the construction gangs for the Canadian Pacific Railway as it crossed through Saskatchewan Moving from Cannington to Fort Saskatchewan district in 1899, he operated 625 Lamontand Hills from 1901 until 1910 when he traded a Motor truck near Radway Centre in exchange for a section in the town of Fort Saskatchewan and operated a wood yard till later years.

Mr Robinson has a family of three boys, Chas Gray, Vice President, Cecil Thorne. Secretary, Eugene Lupul, Treasurer and Mrs Thomas and Secretary for World Friends' Magazine, Howard Smith. The children decided to make articles for the Christmas Bazaar again, and also to make and send toys or scrap books to the Children's Hospital

A. B. Ring returned from Helena, Arkansas the week where he has been visiting his sister. Mr Ring has cotton harvesting in full swing and is quite enthusiastic about it

Mr. and Mrs. Fred Sherman have as their guest, Mrs Guy Armstrong of Kelowna, B.C.

Dr. and Mrs R M Baron had the three daughters of Mrs. Baron, of Charles Peters of Grand Prairie as their guests over the week-end.

Mrs Tom Lees of Wainwright spent the weekend visiting old friends in the Fort

Mansfield

Mr and Mrs Walter Strauss are receiving congratulations on the birth of a B.B. 2's daughter at the Royal Alex Hospital on Tuesday, October 14th

Marion Alice, infant daughter of Mr and Mrs Rinehard Gebert was christened in the Bruderheim Schalz at Bethany Lutheran Church on Sunday the 5th inst. 19th

We are very glad to hear that Miss Rena Gunther is a patient in the Royal Alex hospital We all wish her a speedy recovery.

On Sunday, October 19th, Mrs Walter Gebert and Miss Marie Gebert entertained at a pantry shower at the latters home in honor of Mrs. Hertha Gebert-bride-elect of the month.

A gaily decorated table centered with a miniature bride and groom served as the setting complement to the bride to be. After an evening of games, the presents were dramatically presented to the honoured guest, for which she graciously thanked everyone present.

The hostesses then served a very dainty lunch

On Monday, October 20th, the Misses Rena and Norma Gunther and Magrie Plosker entertained at a miscellaneous shower honoring Miss Margaret Rinehard, bride-elect of this week, at the home of Mr. and Mrs. Plosker. A decorated wishbone con spraying the table centre piece, served as the setting for the event.

After a contest and game, the group was divided, with the bride-elect and groom-to-be heading one group, Miss Gebert and Philps Adam leading the other, and were gaily bedecked with bridal attire of newspapers. After which they paraded to the Wedding March. The bride-elect was then presented with her gifts, for which she thanked everyone. After a dainty lunch was served, the evening drew to a close with a romantic sing-song

Good Hope

Mr. Ralph Magee returned home last Wednesday from North West Territories where he had been employed for the summer

Mr. Tony Kuhn who has been employed in a lumber mill at Grande Prairie, is spending a two week holiday at his home He will attend the wedding of his brother, John, on October 25th.

Mr. Norman Miller reported for work at Leduc, Monday He expects to be an employee of the Imperial Oil Co.

Mrs. R. Todd was hostess to a shower, recently, at the home of Mrs. S Torrens, in honour of Miss Martha Taylor whose marriage to Mr. Ralph Hoyer takes place soon.

Mrs. R. Warring led the afternoon's entertainment, consisting of contests and games. Mrs. Hoyer, Mrs S Torrens and Mrs. Moyer

Mrs. Todd, in a few words, presented the bride-to-be with many lovely and useful gifts, to which Miss Taylor suitably replied.

A very dainty lunch brought the afternoon to a close.

Miss Margaret Dundale and Mr. John Kuhn were honored at a miscellaneous shower held at Good Hope school last Saturday evening. The evening was enjoyably spent dancing.

For the occasion the school was tastefully decorated in a color scheme of pink and white. A trellis decorated with rambling roses formed the back ground for a wishing well filled with gifts.

John and Margaret appropriately thanked everyone.

The Happy Gang served a very tasty lunch, after which everybody joined hands and sang "For They Are Jolly Good Fellows"

Minutes of M. D. Council Meeting

The October meeting of the council of the Municipal District of Strathcona, No 20 was held in the Municipal Office on Monday, the 13th with all members in attendance

Business commenced with adoption of the minutes of the previous meeting and the Financial Statement for the month of September

Dealing with business arising out of the minutes, the Secretary reported on his interview with Gas Company officials regarding insurance and agrees to the East Edmonton Community Hall, if the cost of way was used to the community He reported that the company would have written into the agreement a clause to the effect which guaranteed uninterrupted access to the hall at all times.

Reporting on the appeal of C.J.C.A to the Alberta Appointment Commission, from the decision of the Court of Revision, the Secretary advised that the Commission had ruled that the broadcasting equipment came under the category of buildings and improvements and as such would be assessed at two-thirds of its value.

The Secretary also reported that he had made a survey of the road division in the N ½ of 35-53-21-4, and that no plan had yet been submitted

In dealing with the request of the Government's District Engineer concerning the sanding of certain roads, the Secretary was instructed to advise him that the Council were quite confident that the total amount would be earned has year by dealing with the proposals, and a brief to the Tax Inquiry Commission. It was felt that this could best be dealt with through the medium of the Alberta Association of Municipal Districts.

Deputy Reeve Sichtave and Councillor Adamson were appointed as a committee to meet with Mr. K. C. Marshall, Alberta Co-operative Products Company, at the site of the District's gravel bar map in Saskatchewan river to consider his proposal of joint development of the gravel in the bar.

The application to purchase the M.E. 34-52-21-4 for $500 was reported on the grounds that the offer was too low The Secretary was instructed to notify the applicant that it was not the policy of the Council to sell any municipowned lands for less than the assessed value other than by public tender.

The application for payment of a battery damaged, when the applicant's car struck a rut in the road, was rejected on the grounds that the condition of the road at the time was due to the abnormally wet weather

Reporting on the proposed naming by-law that had been introduced by the Council at the previous meeting, the Secretary advised that the company with the Assistant-Secretary he had interviewed the Director of Town Planning, Mr J H Hedlestag, regarding the names of the required naming maps. As soon as these maps are received from the Director, the by-law will be duly advanced in preparation for its third reading. The Secretary was instructed to communicate with the Director of Surveys and advise him that he have no approval is given to any plan of sub-division or small acreage he would first obtain the consent of the Council

In the matter of making payment of the rental fee for the Agricultural Service Ground for 1947, the Reeve was instructed to interview interested parties in the community regarding same

With the reading of correspondence and the passing of accounts, the meeting adjourned.

3 lb. Potatoes Grown

The Secretary published recently in reference to potatoes grown by Mr. Chas Lowe brought to light that Mr. Mark Byr resident of Josephburg in this district

Mr. Mark Byr visited the Record office last Saturday and brought with him potatoes from his garden They weighed 3 pounds each, were 14 inches long and 11 ½ in circumference

Mr Mark said that these were the largest potatoes he had ever grown, but his crop of potatoes, this year, were also of fair size.

JOSEPHBURG

With threshing almost over, the members of the Josephburg District are now preparing for their Harvest-Home Festival. On Saturday night the ladies have charge of the church for the big day On Saturday night they will serve it

Guest speakers are expected to be present for the occasion: Rev. Dr. Mantesh Miller from the First Presbyterian Church in Edmonton, Rev H B Rosner from Vegreville, Rev. Stelter from Bruderheim and Rev. Wens from New Sarepta.

The morning service will start at 11 o'clock, the afternoon service at 2:30

PARTRIDGE HILL

Mr. Hugh Phillips of Edmonton has been staying at the home of Mr and Mrs. Arthur Krebs for the past week. Also among the week-end visitors were Mr and Mrs. Lenord Thorne of Edmonton and Mr. and Mrs. Bill Maronik of Smoky Lake.

K. H. THOMAS, Pound-Keeper,
P.O. Fort Saskatchewan, Alberta.

« Recipes for Milady »

The home economists of the Consumers Section, Dominion Department of Agriculture, have contributed a number of suggestions to make cooking honey in cooking

To substitute honey for sugar in making cake, use ½ cup honey for each cup of sugar called for in the recipe and reduce the liquid by one-quarter.

Cakes and candies made with honey retain their freshness well but will not stay crisp.

OB 3¼ cups all-purpose flour
½ teaspoons baking soda
2 teaspoons baking powder
½ teaspoon salt
½ cup chopped walnuts

Cream shortening and milk with honey and sugar. Add vanilla and egg; beating well. Add sifted dry ingredients with nuts. Chill. Then roll into small balls. Place about 2 inches apart on greased baking sheet and flatten with a fork. Bake in a moderately hot oven 375 degrees F., for 10 to 12 minutes. Make about 5 dozen, 2-inch cookies.

HONEY BUTTER SAUCE
2 tablespoons butter
2 tablespoons brown sugar
1 cup liquid honey
2 egg whites

Cream butter and brown sugar. Add honey and egg whites. Beat well. Makes 1½ cups sauce. Honey Butter Sauce is delicious on hot or cold puddings.

"The New Look."

If you are a fashion lover at heart—and, what woman isn't?—you have plenty to think about these days as the battle rages over "the new look." You may have overheard the fact that the new styles of this Fall are significant of more than a little middle, shoulder shadows and hips, and a longer skirt. The "new look" is a luxury look and begins with the very fabrics from which fashions are made.

In dressmaking dreams about new Fall fashions which are supposed to represent a "Return to Elegance", designers had to reckon first with the "stuff" that dreams are made on". As a result, they built both the form of the most interesting fabrics in many seasons. Canadian mills, especially, are centering to produce fabrics of a quality and finish consistent with the new luxury of fashion. Dominating Canadian fabrics are the deftly woven rayons that are so prevalent in the new styles.

Here, in the Fall range, there is interesting variety. Fabrics of sheen—satins, taffetas, velvets, failles and failles—rival dull-finished crepes and jacquards, and rich brocades. Colors which reflect the beauty of a Scotch moorland include ink and bottle greens, purples, mulberry and wine tones, peppery browns, royal blue, mauve-ry grays and neutrals.

Seeing these fabrics in new Fall fashions is proof of their breath-taken. Refreshingly new is the gleam of satin, whether in a coppery brown daytime dress with pannier, a slim-skirted, long-basted black suit for restaurant dining, or an evening dress of aspen color, ingeniously draped faintly.

"VEILED KISSES"

To kiss or not to kiss—that is the question—during a period when epidemics occur. Butter, say the medical men, to "break a heart" by seeming to be "cold" than to flirt with infection, if one if you has a cold.

Medical science warns that influenza and colds are definitely communicable by contact such as osculation can easily be transmitted on a caress. They suggest as anesthesia that, when one has a cold, the partner "play coy, and be careful."

Total wheat exported from August 1st to October 2nd was 19,288,188 bushels.

When I look at our Savings Bonds... I see a modern kitchen

WHAT WOMAN doesn't want to improve her home . . . whether she lives in city or country? . . . Kitchen, bathroom, living room, playroom, verandah . . . there is always something that can be done to make work easier, life more comfortable. But such plans take money — and most women want to be sure they can be properly carried through before they start.
That means savings, and don't where Canada Savings Bonds come in. You may purchase up to $1000 in one year name. They are as safe as Canada, and may be cashed at your bank at full face value any time. They pay 2½% interest for good measure, and are registered in the owner's name for protection in case of loss. They may be bought for cash or on easy instalments.
The whole family can get behind your plans to make your dreams come true with Canada Savings Bonds. Consult your bank or investment dealer today.
You'll never be sorry you saved!
Canada Savings Bonds

EVERYBODY'S BUSINESS
by Don Graham

Have you pitched the next goal in your career?

This may be a job higher up. It may be a broadened field of operation. Or it may be a plan for entering a business, store or other branch that, whichever applies in your case, will improve your living is to choose some goal and work consciously toward it.

But before you start, make sure that you are distinguishing between temporary day-dreams and practical objectives. Then work out a definite plan of operation, collecting all the information you can get on the subject.

It is helpful, to picture yourself as having already attained your goal. This has the effect of making you willing to surmount many temporary difficulty and to think progressively.

Even people who are content with their present status often yearn for a "better life". But they get confused because they do not work towards a goal. If they did, they would soon achieve the success they want.

The main objective of the Dominion Government in Canada is to provide maximum security at the lowest possible cost, which is why it extends the great Old Age Pension — for today over 4,500,000 Canadians are on Dominion pay-checks.

AUCTION SALE
—FOR—
WILFRED KREBS

The Country Editor

By JIM GREENSHAW

BITS ALL OVER CANADA

At Rainy River, that Mr. W Arnould lays claim to consistency having had the pride for best collection of vegetables at the fall fair twenty years in succession. The Yorkton Sask. Enterprise peeks around for another Henry Ford, plaintively editorializing "What the American continent needs today is a good, serviceable car around the $1,000 mark . . . excuses have been blustering in September in the Virden, Man., area while in the same district Th-ma-Tapp in his 90th year has the finest growth of crabapples in the county. Anything can happen at Carleton Place. Out, it seems, and verified by Wm Sandford on the 11th Line of Beckwith Township. A White Holland hen had five eggs, and a bronze gobbler sat on the nest for five weeks, hatched them. Meanwhile the hen had 11 more eggs and signed the gobbler didn't come back for another successful sit . . . The Board of Trade at Kelowna, B.C., always alive, is investigating the possibility of making fine-grade paper out of fruit tree prunings. George McCarger, ex-paratrooper of Edmonton, 21, to win a $200 wager ran all the way from Edmonton to Leduc. Al Westover, B.C., the steamer Gulf Stream put in half an hour ahead of schedule to beat the stork for an expectant mother Radiotelephone hat warned beforehand and the ambulance was waiting . . .

* * *

People are too prone to figure the farmer's costs for him, and they usually underestimate. When he has a crop failure, they are more sorry for themselves that they are for the farmer. When he gets a good crop, they sharpen up their pencils and figure out how much he will make that year, when his expenses are deducted. But they forget to figure his loss on the year or years when he hadn't an ear to thresh.—Cromfell, Sask., Sun.

* * *

From the Hawkesbury, Ont., Echo: "The diamond anniversary of the marriage between Liberal-ism and Russel County was celebrated Thursday night last . . ." A neat way of starting a story, isn't it.

* * *

Alberta's sugar beet production for 1947 is estimated at 305,000 tons from 29,500 acres. This is a reduction of 39,000 tons from last year's production.

PLASTIC LENSES

A London firm has undertaken large-scale production of plastic lenses for spectacles, claiming advantages over glass. They are said to be lighter, more resistant to heat, and cannot splinter. Also, they can be made in any shape, and are therefore more suitable for sunglasses. They are said also to be more resistant to scratching, but the question of whether they are more easily cleaned is being tested by long practical use.

SIGNS OF FLU

No cure was ever found for the common cold, although considerable quantities of money are spent on it every year by the citizens of the country. Anything can help, and it requires a whole cupful of aspirin and inclement weather to cause it.

Canadians are warned that any amount of chill, followed by fever, or by pain in the throat or the eyes, is one of the signs of the flu.

* * *

Canadian wheat exports up to October 2 totalled 112.9 million bushels, as compared with 112.7 million in the same date a year ago.

Agricultural Service Board Minutes

The Agricultural Service Board of the Municipal District of Strathcona, No. 20 held a meeting in the Municipal Office, October 15, 1947. At 2 p.m. the Chairman, Mr. H. Keith, called the meeting to order with the following members in attendance: F. McCalla, Secretary-Manager; R. J. Whitbread, Dist. Agric.; M. L. Sexton, Field Sup., D. Roberts, Sec.

Business opened with consideration of the minutes of the meeting held July 7, 1947, copies of which had been mailed to all members. It was moved that the minutes of the meeting held July 7, 1947, be adopted as read. Moved by ... seconded and confirmed. Carried.

Field Day

Mr. Whitbread reported on the field day that had been held previously at the district Pasture Hill. Bolton and Whitemud. He intimated that at the first named place they had a very good crowd in the afternoon and an excellent meeting in the evening. There was, he said, an insistent demand for information and a request was made that monthly meeting be held at that time. He reported that they enjoyed very much the same experiences at Bent ...

Lamb and Calf Clubs

Dealing with Grass Clubs, he said that the Pairmyre Hill club had 15 members and that the picture would be judged October 21 at 2 p.m. in Fort Saskatchewan, under the auspices of the Fort Community Club.

The Glenora Bee-Fort Saskatchewan Calf Club had 20 members with much interest evidenced in its work. He reported that one member of the members of the Grain Club at Whitemud had been sold but nevertheless it was proposed to hold the fair during the last week in October.

Bees the Soil Campaign

Regarding the "Bees the Soil" campaign, the meeting was informed that there were instructions from the M.D. of Strathcona. Judgings had been completed on three of these and the fourth was completed at the Board, as well as competitors, with the exception of the Judges' suggestions.

Weed Inspectors Order

The Field Supervisor reported on certain lands against which stop-weeding orders had been issued.

Roadside Spraying

The Field Supervisor gave his report on roadside spraying and a meeting with the Manufacturers of 2-4-D weed chemical in regard to road spraying, he said, that the

Judicial Sale of Farm by Tender

PURSUANT to the Order for Sale of The Honourable Mr. Justice Ordinary, and the Direction of the Clerk of the Supreme Court, sealed tenders will be received by the undersigned up to the 1st of Nov. 30, Tp. 54, Rge. 23 W. 4th M. containing 160 acres, more or less, except all mines and minerals.

The land has approximately four miles from Josephburg and three miles from Bon Accord and is partly fenced. There is a well and the following buildings on the property: Log and frame house—20 ft. x 30 ft. Frame barn with gambrel roof —45 ft. x 36 ft. with two lean-tos—12 ft. x 24 ft. and 14 ft. x 36 ft. Granary—24 ft. x 30 ft. with two lean-tos—8 ft. x 16 ft. and 32 ft. x 16 ft. Frame Chicken House—10 ft. x 20 ft. Frame Garage—12 ft. x 16 ft. Approximately 145 acres under cultivation.

Tenders must be enclosed in a sealed envelope marked "Tender re. Pesaro, No. ..." and addressed to A. Simpson, K.C., Clerk of the Supreme Court of Alberta, Edmonton, Alberta, and must be in his hands not later than noon o'clock noon on the 9th. day of November, A.D. 1947.

TERMS OF SALE: Each tender must be accompanied by a marked cheque or cash for 10% of the amount of the tender, $2000.00 of the purchase price may be secured by a first mortgage on the property and the balance paid into Court within sixty days after the acceptance of the tender, without interest.

The deposit of 10% shall be forfeited by the successful purchaser if he fails to carry out the purchase after the acceptance of his tender.

The deposits of unsuccessful tenderers will be returned to them immediately after the opening. The highest or any tender not necessarily accepted.

In all other respects the terms and conditions of sale will be the standing conditions of sale of the Supreme Court of Alberta, insofar as they are applicable.

For further information apply to F. J. A. Bouchet, Esq., Barrister and Solicitor, 101-2 Commercial Building, Edmonton, Alberta.

DATED at the City of Edmonton, in the Province of Alberta, this 9th. day of October, A.D. 1947.

"A. SIMPSON"
Clerk of the Supreme Court

Notice to Creditors and Claimants

IN THE MATTER OF The Estate of EARLE ALFRED RIPPON late of Fort Saskatchewan, in the Province of Alberta, Gentleman, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Earle Alfred Rippon who died on the 7th day of July, 1941 are required to file with the undersigned solicitors by the 25th day of November, A.D. 1947 a full statement duly verified of their claims and of any security held by them and that after that date the Executrix will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

DATED this 6th day of October, A.D. 1947.

DOHERTY AND HARPER,
Solicitors for the Executrix,
Gunter Prop.

East Edmonton

Mr. and Mrs. R. Isbercwood and Norma have gone to the coast for a two-week holiday

* * *

The monthly meeting of the ... and application had not been considered by reason of the fact that the Provincial Government turbine engineer had broken down. Should from the 1st application appear satisfactory.

He outlined the results of conferences held by himself and the Secretary with representatives from the Shortie-Williams Paint Co. and the International Paint and Varnish Co.

2-4-D Conference

They expressed the hope that some tangible results would develop from these conferences which would be conveyed to the Board at future meetings.

Weeds on Railway Right-of-Ways

Dealing with the problem of weeds on railway right-of-ways the Field Supervisor suggested that a concentrated effort would have to be made next year to get railway roadbed officials to make some determined effort to control weeds on their right-of-ways.

Road Signs

It was left to the Field Supervisor as to whether more road signs were necessary to appraise the need grain situation throughout the district and he take whatever action he deemed advisable.

It was moved that a notice be inserted in the Fort Record advising farmers to secure their 1948 seed grain requirements immediately, particularly that of oats. Carried.

The matter of dealing with stop-seeding orders was left in abeyance until after next harvest.

Winter Program

The Field Supervisor reported on pictures taken during the season and stated that about 30 pictures would be available for one next winter On the discussion relative to a program of winter activities, the District Agriculturist, Mr Whitbread was instructed to line-up a program and itinerary for the approaching winter.

The meeting adjourned with the calling of the next meeting in the hands of the chair.

Margaret Alton Wins First Prize In Junior Grain Club Judging Here

Over seventy-five high school students and members of the Junior Grain Club gathered in the basement of the Community Hall Monday night for the judging of samples of Thatcher wheat, prepared by the club members.

Chairman for the occasion was Mr. B. J. Whitbread, who gave a brief talk on Production of Registered Grain in Canada under the Plant Breeding Branch of the Dominion Department of Agriculture.

Mr. J. B. Eaglesham of the Department of Agriculture, who judged the wheat, praised the members for their well prepared samples despite the fact that conditions this year had been very unfavourable.

Club prizes for the best samples were won by Margaret Alton, 1st; Jessie Alton, 2nd and Beelyn Atte 3rd.

Mr. T. J. Duvinotte, Field Man for the Pool Elevators, who are sponsors of the Grain Club, was present He said the Pool Elevators were happy to co-operate and award prizes to the winners of these competitions. He also assured the members for fine samples shown and expressed the hope that they would continue to carry on their good work.

The members wish to thank the Fort Community Service Club for the co-operation their executive has rendered in refreshments tendered them at the close of the contest

S. Cooking Lake

On Tuesday the 21st, the pupils and teacher of Franklin School enjoyed a visit from Mr. C. Bray and Miss Barrie, from the Provincial Department of Health. These gentlemen showed an several interesting and informative films. First, with the assistance of Rudy community singing and the efficient work of Jerry Lesiuk (especially appealing to the younger pupils) they dispelled whatever stiffness and backwardness there may have been in our midst and assisted us into one happy company, eagerly ready for the more instructive films which followed. After each showing, Mr. Bray put test questions to us to discover what facts the presentation of disease the film had registered in our minds, and received gratifying responses. When he said Mr. Bouvier left us before noon, we said goodbye to very good friends whom we have grown to like again and again. We have their promise to return, and next time they may grace a Tea and shower our hot lunch. Don't forget that, Messrs. Bray and Bouvier!

Exceptionally fine weather this October has carried outdoll at Franklin well into November. Temperatures have been tender days. We are trying to develop players to fill up the gaps left by the "stars" we have lost, so that we may have next year a ball team set on worthy of the teams of other years.

* * *

These darker mornings have their good gifts for us rural dwellers. We are enabled to enjoy the evening, ever-wonderful rising of the sun, sometimes swimming up out of the placid waters of Cooking Lake and seeming to have behind him some of his glory in his bath; sometimes rising behind a belt of dark spruce, like a flaming cathedral through the bare wintry branches, making for us a wonderful stained-glass window; to tell us we are in a cathedral of nature's building. The city dweller, that is and imprisoned on every side by buildings of man, seldom enjoy whenever we have eyes to see.

The Agricultural Service Board

M. L. STETSON, Field Supervisor

Notice has been received from our Provincial Government asking everyone to co-operate in an effort to exclude rats from our fair province. Alberta is the only rat-free area in North America, the following reasons are given why we should strive to prevent an encroachment of these destructive humans.

1. There are over $20,000,000 in Canada.
2. They cost $40,000,000 annually to feed.
3. Every year they damage or destroy material valued at $250,000.
4. They are mostly Norway rats.
5. They have 8 litters of 10 young per year.
6. They flourish in cities, towns and on farms.

If you see one, kill it and notify the Division of Entomology, Department of Public Health, Edmonton.

* * *

A regional "Agricultural Service Board" conference was held in Edmonton on October 10th. Ten Field Supervisors were present from the following municipalities: Sturgeon, Lacombe, Morinville, Vermilion River, Wainwright, Strathcona, Westlock, Camrose, Leduc and Wetaskiwin. Eight district agriculturists were also in attendance as well as representatives from the Department of Agriculture.

Field supervisors gave a brief report of their summer's activities and also a report on all Crown Lands in their respective municipalities. The opinion was expressed that the Government would be willing to furnish grass or legume seed to seed down lake shore or any of this and where a weed problem exists.

In discussing methods of control of the five bad weeds it was decided that the use of Fall Rye and 2-4-D following one another.

Full information on the use of cement-sawdust concrete may now be obtained from E. R. Martin, Extension Agricultural Engineer, Department of Agriculture, Edmonton.

With reference to the operation of the farm tractor during the winter months we are advised that cold start is very hard on a tractor and causes more wear than many hours normal operation. The same is true, of course, of a car. Starting a car at a temperature of zero and requiring 30 minutes to warm up is the equivalent of 150 miles of operation under summer conditions.

At last we are getting a few fine days and hope everyone will succeed in completing harvest operations.

Shallow tilling on weedy ground any time before freeze-up is highly recommended. On land where crops have been combined till straw in, rather than burn it off.

School Flashes

The typing classes are running smoothly only for the odd misprint.

* * *

All the goblins and witches will be on the prowl on Hallowe'en night, Friday. It will be the main source of excitement for many pupils.

* * *

Reddie Mawhin's day is looming up. Spring seeding and the boys are acquiring great skill in running to escape the persecution.

* * *

On October 27th at 2:15 p.m. the high school were invited to attend the Annual Junior Grain Show, which includes displays from 13 different exhibitors.

* * *

This week resident teachers Miss W. C. Daniel and Miss J. E. Court are attending observation classes in grades 1 to 9.

* * *

Gordon Jacun, a grade 11 student, has been away since 1941 in Seattle, Washington. He is our fair haired, blue eyed room representative this year. His ambition is to join the American Army (I wonder why). Gordie tells us he likes a girl (or is it plural), dancing, sports and ice cream. He tells us his only dislike is French.

* * *

Joan Jackson is missing from Brownie arrives on the school bus each day. Her birthday is on May 6th. She tells us she is undecided as to her ambition, but her likes are dancing and going to school. Her dislikes are French, long skirts and getting up early.

Regular Meeting of Town Council Monday

The regular meeting of the Council was held Monday evening with all members present. Minutes of the last regular meeting and financial statement for September were read and adopted.

Several requests were made by letter to the Council for street lights and after discussing the matter, it was decided to install the lights. Also Mr. Hunter wants the lights in the centre of the town.

It was moved that communication from the Council at Fort Saskatchewan be closed.

The secretary was instructed to write the office commanding the R.C.M.P. regarding a constable being placed in the town, as also after police matters in the district.

A letter was received from Mrs. Gilmour, residing in ... asking for ... from the Council to take effect as from December 31st, 1947.

After the usual report from the Vermilion Board of Trade asking the Council to send letters to Mr. R. F. Daveron, Vice President of Western Lines, Winnipeg and Mr. F. H. Keefe, General Superintendent, Alberta Lines of the Canadian National Railway requesting that the train that was operated in winter be again re-instated.

It was decided to table the matter of writing the Town Hall for the present.

A Bylaw authorizing a remunerating officer for the coming year was given the first second and third reading and passed.

* * *

Mr. Hunter has been appointed a town hall team set on worthy of the teams of other years.

* * *

These darker mornings have their good gifts for us rural dwellers. We are enabled to enjoy the evening, ever-wonderful rising of the sun, sometimes swimming up out of the placid waters of Cooking Lake and seeming to have behind him some of his glory in his bath; sometimes rising behind a belt of dark spruce, like a flaming cathedral through the bare wintry branches, making for us a wonderful stained-glass window; to tell us we are in a cathedral of nature's building. The city dweller, that is and imprisoned on every side by buildings of man, seldom enjoy whenever we have eyes to see.

Anglican W.A.s Meet at Gibbons

A number of ladies of St. George's W.A. made a trip to Gibbons, Wednesday evening, to attend a meeting of the Gibbons W.A. at which W.A. members of Bon Accord were also present

Rev. Rural Dean Macmillan, Honorary President and Mrs. Tuckmeury, Diocesan President were present to address the meeting Mrs. Chamberlain talked on the work done by the W.A. and Mrs. Tuckmeury gave very interesting address on friends she had made throughout the year. Mrs. Gibbons, President of the Bon Accord W.A. acted as chairman.

Following the meeting an excellent lunch was served by the ladies of the Gibbons W.A.

Wetaskiwin Class Seated

Under the supervision of Mr. Ed. Richardson, wood working classes are now being conducted two nights each week, Tuesdays and Thursdays.

Classes are held in the work shop at the school and all those who are interested are advised to contact Mr. Richardson for full particulars.

School Flashes

The typing classes are running smoothly only for the odd misprint.

Around the Town

Members of the Ladies' Reading Club will meet at the Library Hall on Saturday, November 1st at 3 p.m. Members are asked to bring odd book to exchange

* * *

Mrs. M. J. Devine, who has been in the General Hospital for the past month, returned home on Tuesday.

* * *

The ladies of First United Church W.A. wish to take this opportunity of expressing their sincere thanks to all those who so generously gave food and to those who, in any way, helped to make their food sale such a success

* * *

St. George's W.A. will meet at the home of Mrs. H. Bourne on Wednesday afternoon, November 5th at 2

* * *

Mr. and Mrs. Earl Sherman and children of Lethbridge, who have been visiting with Mr. Sherman's parents, Mr. and Mrs. Fred Sherman, left Thursday morning for Winnipeg where Earl will attend Manitoba University. Young daughter Patsy will remain with her grandparents for another six weeks

* * *

The regular meeting of the First United Church W.A. will be held on Wednesday afternoon, November 3rd at 3 p.m. sharp, at the home of Mrs. J. D. McLean

* * *

Mr. R. F. LeBlanc of Montreal Quebec, spent the week-end visiting Mr. and Mrs. E. B. Staton and Mr. and Mrs. Milton LeBlanc

* * *

Communion services will be held in Partridge Hill and Tofer Valley on Sunday, November 2nd. At the morning service at Tofer Valley, Rev. W. D. Rose will speak on "Past and Future".

* * *

Members of the Y.P.U. and of the Sunday School of First United Church have been up to the city this week to special meetings of the Crusaders' Cavalcade of the United Church.

* * *

A meeting of all players and those interested in curling are requested to attend the meeting in the Legion Hall, Monday, November 3rd at 8 p.m. Skips and rinks will be picked and general organization for the coming season. A full attendance is requested.

Grapes Grown in Fort

It is quite evident from samples brought to the Fort Record office, Wednesday afternoon, that fruit can be grown in the Fort as well as grains and vegetables.

Mrs. R. M. Bacon brought in grapes that she grew in her garden from seeds that were brought from Ontario six years ago. Although not as large as Eastern grapes they nevertheless were a notable plum.

Josephburg

The Josephburg Reformed Church was once more filled to over-flowing capacity when celebrating its Harvest-Home and Mission Festival. The many lovely flowers, the warm sunshine and the happy spirit of everyone gave a pleasant setting to the day.

In the morning service Rev. Rev. Peter Vander Velde preached the sermon with Rev. Krieger assisting. Allan Schneider, Junior and Senior Choirs sang songs and

* * *

At noon the many tables were set three times to accommodate the residents and friends.

Rev. Macbeth Milled M.A., B.D. from the First Presbyterian Church in Edmonton and Rev. T. Stelter from Bruderheim were the main speakers for the afternoon.

Rev. P. R. Beeker and Elmer Thomas, Mr. Markle of Edmonton, Junior and Senior Choirs and the Young People's Association all rendered musical selections.

Needless to say there are many people who require special thanks for time and effort spent in preparation of the day, however, those who were connected with the dinner, decorating and cleaning should deserve special recommendation.

It could well be seen that everyone of the district was able to celebrate Harvest-Home with a thankful heart.

Health Unit Urges Children be Immunized

During the last few weeks two cases of diphtheria were reported to the Edmonton Rural Health District. This should serve as a warning to parents that diphtheria is a threat to the lives of children. Immunization is the only way to protect children against this disease

It is up to you parents to see that your children are protected against diphtheria and other preventable diseases. Immunization is simple, when your child is 6 months old. Your Health Unit provides this service for you. Take advantage of it and protect your children by having them immunized. Clinics are held at the Fort every fourth Wednesday in the month at 11 a.m. and in Beaumont on the first Tuesday in the month at 1 p.m.

Former Resident Passes

Word was received Tuesday by Mr. Jim Reig that his brother-in-law, Mr. Robert Rose of Enfield and a former resident of the Fort, passed away on Tuesday after suffering from a lung daughter Patsy will remain with her grandparents for another six weeks

Funeral services will be held in Enfield interment at 2 p.m. at Howard and McBride Funeral Chapel. Rev. Alber Johns will officiate and interment will take place in the Fort Saskatchewan cemetery

Partridge Hill

Mrs. B. H. Flintoff of Edmonton spent last week-end at her sister's Mr. Geo Ohsiderton.

* * *

Garth and Charles Ohsiderton and Varden Lawrence left last week to attend the Vermilion School of Agriculture for the winter term.

* * *

Mr. and Mrs. Bill Franfen (nee Beatrice Manfield) of Edmonton, visited with Mr. and Mrs. Jos Smith and Mr. and Mrs. Attewell last Sunday

* * *

Dr. and Mrs. Adam of Lamont were visitors at the home of Mr

Origin of the Poppy

The origin of the poppy is extremely fascinating. In Rome myth-logy the red poppy was the symbol of death dedicated to Somnus, the god of sleep.

For centuries the red poppy, which grows wild in Europe, has been associated with the battlefields of Europe, especially Flanders, where it grows abundantly in the wheat and uncultivated fields.

Poppies grew profusely on the battle fields of this territory and superstitious people believed the red flowers came from the blood f the slain Throughout the remaining years, during the period of poppies that sprang up on the battlefields of Ramilies, Landen, Fontenoy and Waterloo.

In 1683 the French under Marshal Luxembourg defeated the Anglo-Dutch under William III at Landen Marsalay in his history of England wrote of this battlefield

"During many months the ground was strewn with shells and bones of men and horses, with fragments of hats and shoes, saddles and holsters The next summer the soil, fertilized by twenty thousand corpses, broke forth into millions of popp-

Reminiscences

The following are excerpts from letters written by former United Church Ministers

At the recent 60th Anniversary of First United Church, time could not be found to read the congratulations specially written for the occasion by various former ministers. The Editor has kindly suggested that I now make known the contents of these letters through a column he will provide for us for a few weeks in The Fort Record. Many thanks Mr. Knowles! W. D. Rose

The United Church Manse minister of First United Church is Rev. D. A. Aldridge, now entered in Calgary. The latter we had was written by a member of his family, who adds, in part: "I am replying for my father, Dr. Aldridge, to your kind letter ... He suffered a mild stroke in mid-July and is now unable to get around as he would like to do. His general health is quite good but his right side isn't normal and restrains his movements to quite an extent.

"Dad often talks over old times with me and I know he has a fond spot in his heart for old days in the pioneer part of the province. He would like to be remembered to his old friends there. Also may I extend an invitation to any of you who come to Calgary to call at our house and chat with Dad and I. We will be thinking of you and wishing you all success in your rebuilding of the church."

A former minister passed away in Edmonton on the very week-end of that anniversary. We had received a letter by Rev. Ernest J. Tate on October 12th, and brief mention of it was made at the service. We later learned that he had breathed his last on Saturday, October 18th. He will be remembered as a bachelor whose minister here, about 1911-12. He married after leaving here, and is now survived by his loving wife and other relations. He had been in retirement in Edmonton for some years.

Next week we will deal with a letter from Rev. Chas. H. Johnson, and Mrs. Wilfred Akins last Sunday

Partridge Hill

Mrs. B. H. Flintoff of Edmonton spent last week-end at her sister's Mr. Geo Ohsiderton.

* * *

Garth and Charles Ohsiderton and Varden Lawrence left last week to attend the Vermilion School of Agriculture for the winter term.

Radiograms

MAKES OF THE
MINIATURE TUBES

The recent Petrolite order to ban recording contracts is typical of the thinking of labor leaders of the 19th century.

Nearly 100 years ago a Britisher invented the Spinning Jenny. Mill workers were alarmed. They feared unemployment. Needless

would replace hand labor. Disaster would result.

But, this didn't happen in fact, the opposite was true. Machines enhanced production costs while increasing output. Millions who previously couldn't afford it were now able to buy cotton goods at a reduced price with a faster budget. Millions more demanded more and more goods.

In other words, machines provided more goods at lower prices and more work for more persons at higher wages than ever before.

A parallel situation is not beyond the impossible in the music industry. The snowball could grow if only Petrillo could see far enough ahead. Every musician could enjoy greener fields if his overlords spent their time bring ing up the loose ends of the present setup instead of dictating a policy that fell by the wayside nearly two centuries ago. It is bound to boomerang with a resounding thud

On October 30th the majority of distillers in the United States will shut down for 60 days in order that grain may be saved for shipment to Europe. It is calculated that approximately 15 million bushels of grain will thus be made available for that purpose

Director-in-Chief

James Gardiner (right) has been appointed Director-in-chief of Agricultural Services, Canada Department of Agriculture, highest post in the Dominion's civil service ever to be filled by open competitive examination. Shown above with Deputy Minister, Arthur Mutchmor of Ottawa, first Supervisor of Extension, Dominion Experimental Station, Swift Current, Saskatchewan, and Dr. Lorne Bonnell, Assistant Minister of Agriculture, Mr. Gardiner is a native of the east who homesteaded in Canadian agricultural West. He is chairman of the Grain Board and secretary of Food Administration Board. He received the award of C.B.E. in 1946. Since the Agricultural Prices Support Board, almost two years ago, he has been its Chairman.

« Recipes for Milady »

Steamed or baked butter pudding and bottles served with hot rich sauces are always favorites and allow for plenty of variety in desserts, especially if the storage shelves are well filled with canned fruits. Searching of steamed pudding, many housemakers like to make their Christmas puddings early and put them away to mellow so that their flavors are well blended. There is also an added advantage in getting some of the chores done early so they are out of the way before the last minute.

One-crust custard and cream pies with meringue satisfy even the sweet tooth. The home economists of the Consumer Section, Dominion Department of Agriculture say that they are pleased to tell all the secrets of a good meringue—one that holds its shape, remains dry, does not shrink or slide on top of the pie filling. The sugar must be thoroughly dissolved in the beaten egg white. The filling should be cool when meringue is spread on so that no steam forms beneath it. The meringue should be anchored by spreading over to the edge of the pastry. If moderately slow oven 325 degrees F., will brown a meringue to a golden color and cook it right through. This requires 12 to 15 minutes.

BUTTERED CHRISTMAS PUDDING

1 cup all-purpose flour OR
1 cup plus 2 tbls. pastry flour
½ teaspoon baking powder
½ teaspoon cinnamon
½ teaspoon cloves
½ teaspoon nutmeg
½ cup raisins
½ cup mixed peel
½ cup candied or maraschino cherries
½ cup suet, OR
½ cup mild flavored fat
½ cup soft, stale bread crumbs
½ cup milk
½ cup molasses

Mix and sift flour, baking powder, soda and spices. Mix fruit and suet (cut in small pieces) or fat into dry ingredients, using hands. Add bread crumbs, molasses and milk Stir until well combined about 1 minute. Turn into a pudding mould, cover and steam 2½ hours. Six to eight servings. Pudding may be made in advance and reheated thoroughly before serving

HOT FLUFFY CHOCOLATE SAUCE

1 square unsweetened chocolate (grated)
1 cup cold milk
1 tablespoon butter
½ cup sugar
¼ teaspoon vanilla
1 tablespoon butter

Add chocolate to milk and heat in double boiler. When chocolate is melted beat with egg beater until mixture is smooth and blended. Mix flour, sugar and salt. Blend with a small amount of milk mixture. Add to remaining milk mixture and return to fire. Cook until smooth and thickened, stirring constantly. Add butter and vanilla. Serve hot

MAPLE PUDDING

6 egg yolks
½ cup maple syrup
½ teaspoon salt
1½ cups milk
1 cup soft, stale bread crumbs (well-packed)
2 egg whites

Beat egg yolks, add ½ cup maple syrup, salt and milk. Pour over bread crumbs Place in a greased baking dish and oven poach at 350 degrees F. for 1 hour or until well set. Cool. Beat egg whites with a pinch of salt. Gradually add remaining ½ cup maple syrup, beating until mixture will hold in peaks. Plain on top of pudding and brown in a slow oven 300 degrees F., for 20 minutes Six servings.

IT PAYS TO ADVERTISE IN THE FORT RECORD

Timely Farm Notes

By R. J. Whitford, District Agriculturist
— SOIL EROSION —

Tests have been made on the effect of soil erosion on crop production. Five soil types, with and without fertilizer were used on a seven-year test with barley.

With three inches of soil added to the surface soil, the fertilized test plot averaged 46.8 bushels to the acre, and the unfertilized plot, 32.3 bushels. When the normal soil was undisturbed, the fertilized plot yielded 45.6 bushels, and the unfertilized, 33.2 bushels. The third soil type, that with three inches of surface soil removed, yielded 37.1 bushels when fertilized, and 26.6 bushels when no fertilizer was used.

TIME TO PREPARE FOR ICE STORAGE

When facilities already exist for making or storing ice on the farm, now is the time before the severe weather sets in to put them in order. On farms and country homes where there are no such facities and it is desired to store ice this winter, there are three common methods for doing the job: (1) the inexpensive rough board enclosure; (2) the more elaborate insulated ice house, and (3) the trowell. The trowell is used only for the making of ice—gradually filling the well with ice from applied water—but so far as is means for storing for household use, the ice well has no advantage over the rough shed. Still the well door provide facilities for cooling milk and other food products suspended from a bar across the mouth of the well above the covered ice. The well should be about 12 feet deep with a diameter to suit requirements. The larger it is, the longer the ice will last. A well six feet in diameter, filled with six feet in depth with ice, will hold about four tons.

But the storage of a few blocks of ice for use later on in the following year is simple when a supply of ice can be cut from a nearby creek or pond. Any unoccupied corner of a shed will serve as a site for a rough-board enclosure. An enclosure ten feet square and eight feet high will hold enough ice to provide 50 pounds per day for 120 days, after allowing for a reasonable amount of wastage. The bottom of the enclosure should be covered with about one foot of sawdust. If the soil beneath is impervious clay it will be all the better if there are a few inches of gravel below the sawdust. In putting in the ice the boards can be taken away from one side and replaced when the ice is in position. A space of one foot, to be filled with sawdust, should be left between the ice and the boards. The ice should also be covered with sawdust. It is the sawdust that keeps the ice from melting, and the drier the ice is the longer it will keep.

SELECTING TURKEYS FOR BREEDING STOCK

Consumers are becoming more aware of desirable meat qualities in turkeys and the satisfaction of the customer should be the objective of those who raise market turkeys, or sell day-old poults to be raised as market turkeys.

The fat and finish of market turkeys is chiefly a matter of feeding and management. The desirable market qualities, such as plumpness and roundness of breast finishing, and general blockiness of body are inherited characteristics. Turkeys must be bred into a flock through rigid selection of breeding stock.

The proper selection of breeding

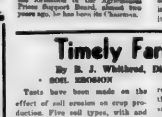
EVERYBODY'S BUSINESS
by
Don Graham



The other day I had an interesting conversation with a piano tuner who was working in my home.

Although I had always thought his profession a rather monotonous one, I was soon to change my mind. For he talked so engagingly about his work, the construction of the instrument and other technical matters, that I found myself becoming genuinely interested.

But what fascinated me most was his great enthusiasm for his work.

This attitude towards one's job is greatly to be desired. Enthusiasm has a magic, warming effect on all of us. And in a worker—be he salesman or carpenter, banker or bank-keeper—it has a tremendous effect on co-operation from employers, customers and all others with whom he comes in contact.

So, especially to youngsters, I would say: Regardless of whatever tendencies and disappointments your work may bring, keep on doing your best!

• • •

Millions of owners and manufacturers of life insurance policies enthusiastically endorse this form of investment for humanity. Agents of the life insurance companies in Canada, too, are enthusiastic about their work because it involves a valuable service.

BUY A POPPY

Next week, November 3rd to 9th, Canadian Legion Members and volunteer workers will be knocking at your door, and as usual around this time of year, will be selling poppies and wreaths in remembrance of the one hundred thousand heroes who gave their lives for Canada in two World Wars.

The making of these poppies gives year-round employment to veterans who are physically unable to earn a living in any other way. It is up to you, not only to see that these men are kept happy and contented, but to assure those in need that they will not be forgotten.

The money received through the sale of poppies is used for one purpose only, to take care of indigent veterans, and widows and orphans of deceased veterans. All veterans, whether they are Legion Members or not, benefit by the sale of poppies.

Buy a poppy and help those who so valiantly served you.

In Flanders' Fields

By Colonel John McRae

In Flanders' fields the poppies blow
Between the crosses, row on row,
That mark our place; and in the sky,
The larks still bravely singing fly,
Scarce heard amidst the guns below.
We are the dead.
Short days ago we lived, felt dawn,
saw sunset glow,
Loved and were loved and now we lie
In Flanders' fields.
Take up our quarrel with the foe,
To you from falling hands we throw
The Torch—be yours to hold it high;
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders' fields.

BRITAIN'S HOUSEWIVES AID IN EXPORT DRIVE

A novel scheme has just been initiated whereby housewives of Britain are harnessing their traditional skill with the needle to the nation's export drive. In all parts of the country they have started work on producing handmade articles of the highest quality for overseas markets. A large order has been placed by a prominent Canadian department store for children's woollen clothing and bedjackets. Delivery was promised within two weeks. The scheme is being organized and directed by the Women's Voluntary Services who are supplying the necessary material and paying for the work at standard rates.

Europe's 1947 corn crop is now estimated at 685 million bushels, some 68 per cent above the low 1946 level of 399 million bushels.

The Country Editor

By JIM GREENHALF

Don't be guilty of making it easy for the child to pass another off against the parent, advises the Perth, Ont., Courier in an editorial, saying "Just as sure as parents develop the teacher and the school system, just so sure will the pupil find a way out from under his tasks. Nobody can expect perfect to let the seeds grow and come up without pushing them out."

The Montreal Board of Trade makes a plea for a massive and a vigorous immigration scheme as the responsibility would be attributed of suitable people to this country, arguing that admission of th se people, under a selective plan, would mean greater prosperity for home and export trade, increased home consumption, greater distribution of purchasing and spending power, employment, and better living standards. Canada is just one cause of governments, industrialists and public utilities, and indeed all walks of life, industrial talent to the national economy. It's very simple this formula

A political sale-gimmick from The Letter Review "To broad terms, what this country needs is a policy of agriculture, industry of the old nation it assumes that it was in existence for the benefit and the school system, just a cure will the pupil find a way out from under his tasks. Nobody can expect perfect to let the seeds grow and come up without pushing them out."

The Montreal Board of Trade makes a plea for a massive and a vigorous immigration scheme as the responsibility would be attributed of suitable people to this country, arguing that admission of th se people, under a selective plan, would mean greater prosperity for home and export trade, increased home consumption, greater distribution of purchasing and spending power, employment, and better living standards. Canada is just one cause of governments, industrialists and public utilities, and indeed all walks of life, industrial talent to the national economy. It's very simple this formula

A political sale-gimmick from The Bulletin wonder if the voters of this country can't do something about it.

The scene from Stonycoak Farm presents a suggestion. "Canada can't install a situation similar to that in Britain by voluntarily taking timely action to restore the 49-hour week before the disparity in farm and urban earnings and prices works great harm to the exchange of food and manufactured products.

A swell hobby Donald Wilby, 20-year old Heatherdown, Alta., farmer has collected one of the largest and most valued birds-egg collections in Canada, which includes 1,300 varieties and about 30 000 eggs

CANADIAN BITS

On the night of October 4, people on ranches around High River, Alta., saw a clearly marked rainbow to the sky at 9:00 p.m., which the moon rising in the east and the High River Times, an important angle is that only people who are alone either were able to see it."

Johnson Camp-bell of Innisfail, Alta., celebrated his 75th birthday and 50th wedding anniversary on the same day

At Prince George, B.C., Jimmy Alexander, 55 year old half-breed Indian was charged with attempted murder of Max McCall, and oddly enough both their names were shown on the jury list called for the trial . . . At the Cut Knife, Sask., hospital two sets of twins were born within six days, making a four sets since April . . . At Blackie, Alta., a six months old White Leghorn pullet came out of hiding proudly leading a procession of 12 baby chicks, and this is vouched for by owner Cecil Kum-lin.

Whoops, my dear . . . from the Nokomis, Sask., Times

A local lady weighed her infant at the hospital one day this week to see what progress it had made. While there she changed diapers. A piece of brown paper was used to wrap the change in, but the paper had been used before and had the name of a young married lady on the outside Entering a store, the parcel was left in error. Upon discovering the error with the name on, a wide awake clerk delivered it to the husband of the addressee. It is not reported what the husband said when he took it back to the clerk.

The minister of agriculture in Saskatchewan warns farmers against the possibility of widespread infestation of grasshoppers next year.

Regulations Regarding Christmas Food Parcels

All parcels entering the United Kingdom are liable to the appropriate rates of duty and or purchase tax There is no exemption for Christmas gifts, trading gifts, or any other sort of gifts. Nor is there any exemption for parcels from a certain value.

The conditions applying to gift parcels are —

a. They must not weigh more than 22 lbs. (20 lbs. if to be sent by parcel post)
b. They must be bona fide unsolicited gifts, and must be marked as such.
c. They must bear an itemized list of contents.

So far as concerns duty and purchase tax, the main points are:—

a. No duty or tax is at present levied on food parcels.
b. Infants' clothing (of cotton or wool) and used clothing (which means a reasonable amount of wear are completely tax free
c. No duty is levied on Christmas goods, with the exception of liquor, tobacco, and a few luxury items: silks, xylon, furs, perfumes, watches, gramophone records, etc.
d. Purchase tax is levied on almost everything not mentioned in b. above. It is difficult to give any useful summary, but speaking very broadly:
1 On basically essential items (clothing of cotton and wool, plain jewellery, etc.) the rate is 16⅔%.
2. On luxury articles (jewellery, silk, fur, cut glass, etc.) the rate is 100% (or in a few cases, xylons being the most important, 33⅓%).
e. Information on rates of duty and purchase Tax is obtainable from the Foreign Tariffs Division, Department of Commerce, or from the United Kingdom High Commissioner's Office, or the United Kingdom Information Office, Ottawa.

As regards the surrender of coupons, the United Kingdom Customs state that "it is not normally the practice at present to ask for the surrender of coupons in respect of gifts of articles subject to rationing in the U.K."

Duty can not be prepaid in Canada. The only way to relieve the recipient of the burden of paying duty is to send a international money order or other similar negotiable paper for the appropriate amount

Main Highways Now Have Centre Lines

More than 900 miles of Alberta's main highways now have a centre line, according to information received by officials of the Alberta Motor Association

This year, this work has been done on the highway between Canmore and Banff, and on the Calgary to Macleod highway, from Edmonton to Wetaskiwin and from Red Deer to Innisfail. Work would have been done if it had been ready for such a line.

The centre line is four inches in width and is of a bandanna type, through glass crystals being sprayed on top of the paint.

Motorists have reported that the centre line has been found most satisfactory and it is believed that it will reduce accidents.

For some time, greater safety measures have been urged for Alberta highways, particularly owing to the increased traffic volume and tendency of some to drive at greater speeds owing to the extension of hard surfacing operations.

Provincial government officials say it is intended to centre line more highways next year.

OPEN QUOTAS

The Wheat Board has announced the abolishment of all delivery quotas on wheat for the balance of the crop year. Producers may now deliver all the grain they wish to any elevator at any delivery point where space is available regardless of the delivery point specified in the permit book.

BRITAIN'S WOMAN PILOTS

Britain is forming a special volunteer corps of women who are qualified pilots. They are being enrolled as members of the Women's Auxiliary Air Force Volunteer Reserve. Uniform and flying clothing are supplied without charge. Those who volunteer for this new corps are required to have completed at least 100 hours solo flying and to be below 30. They are being enrolled for an initial period of two years. It is intended that these trained women pilots shall be employed in flying and communication work in non-operational areas during any period of emergency.

Timely Farm Notes

Continued from Page Two

ing stock is important to the individual breeder, but the responsibilities of those who maintain flocks for the sale of commercial hatching eggs is even greater The public revolting from their eggs will be distributed to a great many growers

Local breeding flocks are closely watched with weak animals culled, which are well rounded with flocking throughout their entire length Selection for this class of birds should commence as they approach maturity as only in this way can early maturing qualities be marked. To insure that the best birds of the flock are retained as breeders, final selection should be made before they are marketed Balanced earnings, as indicated by fullness of breast, medium length of leg and neck, and liberty outline are also important characteristics Those qualities can only be noted as the birds are walking about the pen. Birds with over long necks and legs and wedge shaped bodies should be rigidly culled.

The final selection should include the careful handling of each bird. The bird should be held over a barrel or table by an attendant, and both hands are required to determine the market type of the bird's body The keel bone should be reasonably pliable to the back and should rather sufficiently at the front, to eliminate any tendency to prominence or knobbiness Good breadth of keel in proportion to the size of the bird is desirable Many breeding flocks at the present time have a decided short in keel length Great stress should be placed on breast thickness. This should be a broad "U" through the entire length of the keel bone Large, coarse, deep headed birds should be avoided since their offspring will not possess the comparthose desirable in the dressed bird

Careful attention to these points over a period of years has resulted in a marked improvement in the market type of the turkey flock at the Experimental Station, Swift Current

WINTERTIME IS REPAIR TIME

The many farm repairs are not made during the winter months if the lack of a farm shop is to blame. Many farmers have the farm at this time of year a good farm shop is a necessity With ever increasing amounts of machinery used on the farm the farmer can no longer neglect to provide himself with a suitable place where he can attend to his repairs in comfort

A farm shop need not require a large investment, says R. R. Norton, Agricultural Engineer The essentials are a work floor area (12-ft. by 15-ft. or larger), a method of heating, and good light With the facilities of a good farm shop, repairing is much more fun to be done in the winter Machinery will then be ready before the spring rush starts, time will be saved and better performance will result

THE FORT RECORD

VOL. 39 No. 33. FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, NOV 5, 1947 Subscription $2.00 year, U.S. $3.00

Around the Town

Mr. and Mrs. W. E. Bracken (nee Fern Butler) of Calgary, are receiving congratulations on the birth of a daughter, born November 1st, weighing 7 lbs. 8 oz.

The regular meeting of the W.I. will be held in the Union Hall Wednesday, November 12th at 2 p.m. Short business and a paper on "Famous artists will be given.

Mrs. R. Kosky and daughter Mary Lou of St. Paul, are visiting with Mrs. Kosky's mother Mrs. Truby

Mr. Stan Kimball, who is now teaching at Jasper, was a week-end guest at the home of Mr. and Mrs. L. O'Brien

Badminton players, please note, due to the hall being occupied on Wednesday, November 12th and Wednesday, November 19th, there will be no play on those nights.

All young people of the town and district are cordially invited to be present at a grand social which will be held in the basement of the United Church on Sunday, November 9th at 8:30, sponsored by the Y.P.U.

A strange new variety of Antelope arrived at Saskatchewan from Birmingham, England, known among scientists as Austinius antelopidicus S. The 3 beasts that it has 4 legs to run on and 4 more to jump over any trunk or car in the way. It can travel by land, but strange to say lives on gasoline and cylinder oil. One quart of oil and 20 gals. of gasoline will feed it and maintain it in top condition for 1000 miles of its graceful running at 40 miles per hour.

Mr. Bennie Eaglesen arrived home from Grande Prairie to spend a week with his parents, Mr. and Mrs. Jerry Lee, before resuming his work with the McGregor Telephone and Power Co.

Members of St. George's Parish are invited to meet at the Union Hall, to honor one of its members and to spend a social evening on Friday, November 14 at 8 p.m.

NOTICE TO FARMS AFFECTED BY RURAL HEALTH CLINIC

Dr. H. Simmons wishes to announce that he will not be at his office on the afternoon of Thursday, November 13.

School Flashes

F.H.S. is holding a costumed Hallowe'en and Radio Hawkin's party Friday, November 7 at 8 p.m. in the Community Hall basement. Throughout the day the girls will be decked out in the gruelest clothes they can find, while the boys come to school sporting a hair ribbon. In the evening the students will be entertained with a skit, movies, dancing and lunch. The evening will be rounded up by having the girls escort the boys home.

An executive meeting was held on Wednesday at noon and it was decided that the students union will add the dramatic class financially.

Plans are also being made regarding school sweaters, rings and crests.

WEDNESDAY, NOV. 5, 1947

The many farm repairs are not made during the winter months if the lack of a farm shop is to blame. Many farmers have the farm at this time of year a good farm shop is a necessity With ever increasing amounts of machinery used on the farm the farmer can no longer neglect to provide himself with a suitable place where he can attend to his repairs in comfort

A farm shop need not require a large investment, says R. R. Norton, Agricultural Engineer The essentials are a work floor area (12-ft. by 15-ft. or larger), a method of heating, and good light With the facilities of a good farm shop, repairing is much more fun to be done in the winter Machinery will then be ready before the spring rush starts, time will be saved and better performance will result

Adam-Gobert Pledge Vows Recently

Before an altar decorated with mauve and yellow chrysanthemums, a pretty wedding took place at 2:30 p.m. on Thursday, October 30th, in the Bethany Lutheran Church, when Martha Emilie daughter of Mrs. William Gobert, and the late Mr William Gobert of Bruderheim, became the bride of Philip Adam, son of Mrs. Henry Goertz of Stony Plain. Rev. G. E. Schultz officiated

Given in marriage by her brother, Mr. Walter Gobert, the bride wore a floor length gown of white triple sheer. The bodice was accentuated with a sheer drop-shouldered net yoke designed in bands. The sleeves were long-to-wrist style with tapered over the wrists. Her long flowing veil was held in place with a beaded headpiece. Her only jewellery was a single strand of pearls. She carried a bouquet of red and white roses

She was attended by her sister, Miss Margaret Gobert, who wore a tea length gown of pale-rose faconne crepe, and Miss Emma Adam, sister of the groom, chose ice blue taffeta. Each wore matching flowers in their hair, and carried bouquets of pink roses.

Mr. Henry Klein played the wedding music, and the choir, of which Miss Gobert has been a member, rendered the song "O Ador Ah Creating"

After the ceremony a reception was held at the bride's home to about 125 guests. The tables were laid in glistening white linen, and the bride's table was centred with a beautiful three-tiered wedding cake, and pink and white tapers. The rooms were tastefully decorated in pastel colored streamers and silver wedding bells.

The bride's mother received in a floor length crepe dress and wore a corsage of red roses. The groom's mother wore a nile green flowered silk dress and wore a corsage of red roses.

The young couple will reside on a farm in the district.

November 10th is the deadline for Student Union fees.

We are pleased to have as two new fellow students Beatrice Cameron and Charlie Schneider both hailing from Josephburg.

This week we welcome back Laurence Bubbles after the accident he had in P.T.

Clifford Corcoran, president of the Student Union was born June 20, 1932. He tells his ambition is still a deep dark secret. His likes are apple pie, Donald and clothing. His dislikes, boys in number, long skirts, sauerkraut and purple lipstick. His pet saying is "Don't judge others by yourself".

LaVera Smith, our artist, was born May 10, 1930. Her ambition is to be a teacher. Among her likes are eating, singing alto, long black shiny hair. Her dislike range from high heels to knobby kneed boys. Her pet saying is "you know".

Tobacco was first sold in Europe as a medicine.

Remembrance Day Services Planned

Plans for a Remembrance Day Service on Tuesday, November 11 have been completed by the Fort Saskatchewan Branch, Canadian Legion

They are taking part in the parade, which will include Girl Guides, Brownies and Scouts, if they have a patrol formed, are asked to be at the Legion Hall at 10:15 a.m. The parade will fall-in at 10:30 and will leave the Legion Hall headed by a piper and two drummers. It will proceed south on Griesbach Street, turn west on Legion Ave., to Rose Street and north on Rose Street to Dennis Avenue then west to the Cenotaph.

Ministers will take part in the service are Rev Father C Seward, Rev W. D. Hare, Rev W. W. Bates and Rev Kringen.

The service at the Cenotaph will consist of a prayer, address, playing of Reveille, the sounding of the Last Post and Reveille This will be followed by a wreath laying ceremony. Citizens wishing to place wreaths on the Cenotaph will have the opportunity of doing so after the hymn and before the closing prayer

After the service the parade will return to the Legion Hall where a reception will be held for veterans A reception will also be held for the other organizations taking part at a place to be announced later

Fort Saskatchewan district can well be proud of the fact that during World War II enlistment from this district was among the highest of any district in Alberta

There are over 250 ex-service men in the district and it is hoped that the majority of those will take part in the ceremony to make this the biggest and best Remembrance Day Service ever held

If the weather does not permit the program as outlined, being held at the Cenotaph, those in the parade will march to the Cenotaph were a brief service will be held, they will then march to the Community Hall where the full service will take place.

Operetta Practices To Start Next Week

An invitation is extended to all music lovers who would like to participate in the operetta "O Doctor!", sponsored by St. George's Choir, to attend the first practice to be held next Thursday evening, November 13th, at 8 p.m. at the home of Rev. and Mrs. W. W. Buxton.

It is planned to hold a practice once each week until the date the operetta is presented, which will be sometime in March, next year The undertaking is a big one and better operetta than "Jennie" and will be a full two hour show.

There is considerable acting and musical talent in and around Fort Saskatchewan and we firmly believe that if all this talent were combined into one group, Fort Saskatchewan could present plays and operettas which would compare favorably with any group of players to be found in Alberta. It could be called the "Fort Operetta Society" or any other suitable name and when organized and functioning could take under its wing and sponsor a group of junior players.

The forming of such a society in this town should not be a difficult task. Representatives from the churches and other organizations could be appointed to meet and discuss the possibilities, or if any readers have any suggestions they care to send in that would aid in forming such a society we will gladly publish them.

Whist and Bridge Winners

St. George's W.A. held their second Bridge and Whist Party, Tuesday evening at the home of Mrs. C. H. Williams.

Mrs. H. Butler and Mr. C. H. Williams were the winners at Bridge, with Mrs. Richardson and Mrs. H. E. Sullivan taking away the prizes for Whist.

To complete the evening a very tasty lunch was served.

World production of rye this year is estimated at 1,450 million bushels.

Kuhn-Dusdale Nuptials Held Oct. 25

A very pretty wedding was solemnized in St. Andrew's United Church, Mannfield, on Saturday afternoon, October 25th, when Miss Margaret Dundale, eldest daughter of Mr. and Mrs. Albert Dundale of Bruderheim, became the bride of Mr. John Kuhn, eldest son of Mr. and Mrs. Frank Kuhn of Fort Saskatchewan. Rev. G. Schultz officiated.

The bridal party entered the church to the strains of Lohengrin's Wedding March played by Miss Elsie Dinsmor. The bride looked charming in a floor length gown of white triple sheer, fashioned with an appliqued yoke and round neckline, with fitted bodice and long sleeves. A floral headdress held her veil, which terminated in a train. She carried a bouquet of pink and white carnations, and she wore as her only jewellery a double strand necklace of pearls, a gift of the groom.

As maid of honor, Miss Erma Dundale, sister of the bride, wore a gown of pastel blue sheer with matching chapel veil. Her bouquet was of pink carnations. Miss Marrie Gabert attended as bridesmaid on the Cenotaph will be the opportunity of doing so after the hymn and before the closing prayer

After the service the parade will return to the Legion Hall where a reception will be held for veterans A reception will also be held for the other organizations taking part at a place to be announced later

Fort Saskatchewan district can well be proud of the fact that during World War II enlistment from this district was among the highest of any district in Alberta

Couple Honored At Shower Recently

Miss Martha Taylor and Mr Ralph Magee were honored at a miscellaneous shower in the Good Hope school on Friday evening, October 31th. The school had been prettily decorated in pastel shades for the occasion

Mrs. L. Jones led the evening's entertainment of games and contest, with musical selections.

The honored couple took their places beneath an arch of flowers, as Mildon Meyer presented them with a number of lovely gifts, on behalf of all those present. Ralph and Martha fittingly thanked everyone for the splendid evening.

Following the lunch every one joined in singing "For They Are Jolly Good Fellows".

Legion to Purchase Building for Clubroom

The regular meeting of the Fort Saskatchewan Branch, Canadian Legion was held in the Legion Hall Tuesday evening. Minutes of the regular meeting and special meeting were read and adopted.

The question of purchasing the building in Greenbank from Mr. Boyer was again brought before the meeting and after a lengthy discussion it was decided to purchase the building for a club room.

Mrs. Hood Towers, Provincial Organizer of the Legion Ladies' Auxiliary will visit the Fort on Tuesday, November 18th to assist in forming a Canadian Legion W.A. here.

Reading Club Meeting

A meeting of the Ladies' Reading Club was held last Saturday in the Legion Hall, Mrs. Bowers conducting and the new books for the season distributed.

Officers for the coming year were elected with Mrs. W. A. Johnstone, President; Mrs. H. H. Byers, Vice President; Mrs. G. H. Reimer, Secretary and Mrs. W. W. Buxton, Social Convener.

BUY A POPPY SATURDAY

Reminiscences

The following are excerpts from letters written by former United Church Ministers

Rev Charles H. Johnson has been on from Bridgewater, N.S., as follows

"I had not heard of the fire and I offer my best sympathy and with that congratulations on what has so far been accomplished to make a new and better start.

I was appointed to Fort Saskatchewan in the summer of 1912. At that time I was acting assistant pastor of McDougall Church, Edmonton. My stuff was stored in the basement of that church. It was still the days of horse-drawn vehicles . . . So I rescued a trap and piled it high and, perched on its top to see that nothing was cast loose, made the eighteen miles to the Fort. The driver and I batched that night in the parsonage and the next morning I surveyed the scene

It was not very prepossessing, but there were possibilities. Between the parsonage and the church the high banks of earth had pushed the fence out over the wooden sidewalk until there was only room for one person to pass at a time. Behind the church was a shallow puddle of water 30 or 40 feet square. Behind the parsonage was a small barn with a small building on either side of it. Part of the parsonage was a very rough piece of ground and beyond the fence a vacant lot with a scrawny rain running to the school house. During my three years I completely graded the ground by wheel barrow and hoe . . .

At the end of my first year I had come to the conclusion that there was room for a married assistant and secured Mr. Sidney Pike, now an accredited minister of the Alberta Conference. It was a lonely thing, for later he found a bride in the Fort, as you all know. The field, as I found it, consisted of the Fort every Sunday evening, Riverside and Deep Creek fortnightly on one Sunday and Sunday Hills and Partridge Hill on the other Sunday. With Mr. Pike's coming I took on Yorkville every other Sunday afternoon and a school house half-way to Beaver Hills every 3rd Sunday and changed each to twice a day in the Fort. The two of us, alternated in the town for the day and in the country for the day, so that one horse was able to do the work. The next summer I secured a tent and lumber and set up a preaching place 2 miles north of Beaver Hills and organized a appointment of Deep Creek and Beaver Hills . . . Time has justified the experiment and I heard with great gratification that the Beaver Hills Church was materially moved to that site . . .

One Sunday morning on the way to Riverside (14 miles, was it not?) the linchpin of my buggy broke and I was pitched headlong. I turned a complete somersault and the buggy passed over me. I was able to retrieve it, and reaching the school at the creek found a congregation of 2 young women, both of whom had walked at least 2 miles. With infinite patience they had managed to arrive without carrying 100 pounds of coal on each shoulder . . .

Jessie Alton Honored at Shower

In honor of Miss Jessie Alton a bonie shoot, a rug and accompanying tea was held at the home of Mrs. Alfred Frey on Monday afternoon, November 3rd, when about twenty-five young married ladies gathered to honor the popular bride-to-be.

Games and music were conducted by Mrs. Frey, Mrs. W. D. Hare and Miss Dorothy Antowell and a humorous mock wedding was staged, with Mrs. Frank Smith acting as the dignified parson, Miss Jean Mohr as the nervous groom and Mrs. Harvey Lauzenau as the gorgeous bride.

Each guest had been asked to bring her favorite recipe and these were presented to Miss Alton in an attractive Bride's [illegible] as well as the beautiful china.

Miss Alton thanked the guests fittingly and extended a hearty invitation for all to visit her in the town of Vermilion.

The tea table was attractively laid with a lace cloth, and held a beautiful silver tray with flowers in the centre. Those pouring tea were Mrs. Frank Smith and Mrs. J. A. Alton of Lamont, both aunts of the bride-to-be, and the secretaries of the delirious bunch were Mrs. Harry Smith, Mrs. Morgan Green and Mrs. Harvey Lauzenau.

The rooms were attractively decorated with pink and white streamers and a pink and white chair decked in pink and white for the bride-to-be to sit on.

Gunther-Collins Exchange Vows Oct 25

The [illegible] United Church was the scene of a very pretty wedding on Saturday afternoon, October 25th, when Miss Marion Collins, daughter of Mrs. Anderson Collins, Sangster of Mr. Edward Gunther, Edmonton, Alberta, and Mr. Norman Gunther, second son of Mr. and Mrs. C. Gunther of Lehmberg Heights were united in marriage by Rev. W. A. Johnstone, B.A., B.D. The service of Lehmberg's Bridal March, played by Mrs. Day Warnock, the bridal party took their place before an altar banked long I look on Yorkville every Sunday afternoon and a school house half-way to Beaver Hills every 3rd Sunday and changed each to twice a day in the Fort. The two of us, alternated in the town for the day and in the country for the day, so that one horse was able to do the work. The next summer I secured a tent and lumber and set up a preaching place 2 miles north of Beaver Hills and organized a appointment of Deep Creek and Beaver Hills . . . The Canadian Red Cross will purchase one million dollars worth of food for shipment to Great Britain and continental Europe during the coming winter

EVERYBODY'S BUSINESS
by Don Gobeil

Can be processed!

Indeed it can! And every bit of program can make in the direction of good proper health. Be one effective purpose why I am sure is citizens every conscientious, particularly body in smaller communities, should immediately and could connects to allocate, provide, something in Dr. Henry C. Link, psychologist of New York City, whose latest book on psychology is "becoming to do on the personal problems of things and with people".

For example, you may not be interest in playing bridge. But if you do, it will help you to develop your brain if you have acquired a new skill and have made its acquaintance with other people. And this is made easier for you because you will be engaged in doing something.

Taking part in other activities, church life, music, sports, club life, social gatherings or activities with other people will help you to grow and mature. And this, in turn, will help you achieve more success in your work.

The life insurance companies in Canada play an important part in the economic life of the nation. Every year over 200 million life insurance dollars are loaned in farm and city mortgages, and office buildings, and other projects which promote progress and create jobs.

« Recipes for Milady »

The apple has been used as a symbol of all fruits since the time of Eden. Peaches were, long ago, called Persian apples even though they were probably a native of China. There are also three vegetables which at one time or other have been known as apples. Tomatoes were "Love Apples." Egg plant was called "Mad apple" and potatoes were and in France still are "Ground apples" or pommes de terre.

It is believed that the apple as we know it originated somewhere in south western Europe but they are now cultivated in all temperate countries. Several of the most desirable apples have been developed in Canada.

Whenever or wherever the origin, the apple is the standby fruit of the Canadian household.

His home commander of the Winnipeg section, Dominion Dept. of Agriculture suggests recipes for Canada Fifteen apple desserts half as numerous

* * *

APPLE APPLES

2 medium size tart apples
½ cup brown sugar
½ cup molasses
½ cup tomato catsup
¼ teaspoon salt

Wash, core apples, but do not peel. Cut in half crosswise and place in baking dish. Blend together the brown sugar, molasses, catsup and salt. Pour over apples and dot with butter. Bake in a moderate oven, 350°, until tender about 35 minutes. Turn apples once during baking and baste with sauce. This makes an excellent accompaniment for vegetable plate, fish, meat or poultry. Six servings.

* * *

APPLE MERINGUE

6 medium apples
1½ cups Custard Sauce
1 egg white
2 tablespoons sugar

Apple jelly

Remove cores from apples. Prick the skins, place in a casserole and bake in a moderate oven, 350°. When tender, remove from oven, pour sauce over and around apples. Beat egg whites until stiff but not dry, then beat in sugar. Top each apple with meringue and garnish with spoonful of jelly. Oven-poach in a moderately slow oven, 300°, until meringue is brown, about 10 minutes. Serve hot or cold. Six servings.

* * *

HUNGARIAN APPLE PUDDING

4 large sour apples
2 tablespoons fruit juice
1 cup fine, soft bread crumbs
1 tablespoon butter
2 egg yolks
1-3 cup sugar
½ teaspoon salt
2 egg whites
2 tablespoons sugar

Pare and grate apples. Add fruit juice and blend. Add bread crumbs. Cream butter, add egg yolks, sugar and salt and beat thoroughly. Add to first mixture and combine well. Beat egg whites until light, add remaining sugar gradually, beating until mixture will hold its peak. Fold into first mixture and turn into lightly greased baking dish. Oven-poach in a moderate oven 350°, for 1 hour. Serve with Hard sauce. Six servings.

The 1946 consumption of chemical fertilizers in Canada totalled 542,697 tons. European nations use much greater amounts of such fertilizers. For instance, Denmark's annual consumption is approximately 900,000 tons.

Off Stage Music

Lorio Agostini, Toronto conductor, led the orchestra, accompanying the Stage 47 dramas, when this famous CBC series opened for the new season. He composes incidental music for the plays.

Seal Sale Starts Soon

The fur season Continued and sale will be under way in Alberta next week. 180,000 hunters in the province will receive letters explaining the details of bright, colorful Christmas Seals, the seals that save lives.

R. W. Reeves, president of the Alberta Tuberculosis Association, said that this year's appeal is the greatest yet, and the need for $125,000 this year's objective, is greater than ever.

Mr. Reeves said, "As in the war against fascism, so in the war against tuberculosis. The time to hit the enemy hardest is when he is beginning to falter and fall back. In Canada at least, T.B. is definitely retreating and now is the time to intensify our efforts."

The Tuberculosis Association is calling for more and larger contributions than ever before, reminding the recipients of the Seals that no other appeal is made throughout the year, but that the fight against T.B. continues all year and every year.

To Refund 50 Percent Freight on Feeder Cattle

In order to relieve congestion resulting from the slowing down of cattle marketings during the period of the packing house strike, and to assist in the movement of feeder cattle from areas in Western Canada in which there is insufficient winter feed, the Right Hon. Jean G. Gardiner announced on October 23 that he has arranged for allowance of a refund of 50 per cent of the actual freight charges on carload shipments billed to Eastern Canada during the remainder of the calendar year.

Shipments limited to steers born after January 1st, 1944, and to heifers born after January 1, 1945 may be billed from any point in the provinces of British Columbia, Alberta or Saskatchewan to any point east of the province of Manitoba.

The freight refund will be paid only when the applicant is in a position to certify that the cattle have been retained in his ownership for a period of at least three months from the date of shipment. To facilitate prompt payment of refund, it is important that a shipper be consigned to the prospective applicant. Where the consignee shown on the freight bill is other than the applicant, it will be the obligation of the latter to satisfy the Dominion Department of Agriculture that the said consignee to which application for the freight refund is made are those covered by the accompanying freight bill.

Applications for freight refunds should be made to the Assistant Director Production Service Live Stock, Dominion Department of Agriculture Ottawa, and must be accompanied by receipted freight bills and Waybills on forms furnished by the Department indicating that requirements have been complied with.

WHEAT CLUBS RE-ELECTED

At the Drumheller Junior Grain Club Fair there were a number of well-built club exhibits, one featuring a slogan such as "Better Seed Means More Crops", "Good Seed Is Cheap Seed", "Land Planning and Soil Erosion".

The Kelsford club's winning display told a graphic story of what had been accomplished in the way of producing improved seed in 1943 the members of the Kelsford Junior Wheat Club produced 900 bushels of wheat from their plots By 1945 this seed had increased to the extent of 252,000 bushels and in 1947 had multiplied to the extent that total production reached 40,572,000 bushels of wheat

The reduced rate of duty granted to imports into Canada from the United Kingdom under terms of the War Exchange Conservation act, 1940, are to continue until December 15, 1947.

Why Democracy?

The word democracy has suffered much discredit from two causes.

First, it has been misused and twisted by extremists of right and left who have made it, by turns, a bait for their gibes and a cloak for their nefarious aims.

Second, it has sometimes stood for nothing much except inefficiency because we, who inherited the benefits of democracy, have failed to live in a way that makes democracy possible.

For democracy—in the true sense can only be made up of those who deliberately prefer the good of the whole to their own self-interest. Its reason is not the wide sharing of privileges but the wide sharing of responsibility.

The strength of democracy is the strength of human character. But the evidence of history teaches that even at its best, human character is not enough.

And so today we must look beyond the purely human conception of democracy to the further vision of an inspired democracy in which every individual not only contributes his own best but is also integrated and guided by God himself.

Inspired democracy will not come about by the action of a few leaders appealing to the self-interest of the masses, playing down to human nature instead of pointing man to their true destiny. It can and will come to the leaders and to the millions of ordinary people and families through the new quality of life and the new teamwork which God gives to those who listen to Him and obey Him.

In an inspired democracy every individual, whatever his background or brain power, has an equal chance of playing a decisive part.

For everyone can listen to God.

And everyone whose heart is willing can be used by God here and now in the remaking of the world.

Scottish's should cheer up on their persistent talk about contraits. What the world needs chiefly at present is enterprise and imagination, initiative and vision. The defenders of capitalism are quite right in maintaining that those qualities were given full scope on the capitalism of the past and that this was the reason for its gross material progress of several generations . . . It is up to the socialists to demonstrate . . . that public enterprise is just as possible as private enterprise. The mere taking over of the economy under state control is no guarantee in itself that public enterprise will be forthcoming.—New Glasgow (N.S.) Chronicle.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"
CONTROLS OF COARSE GRAINS PARTIALLY LIFTED

On October 31st Government Controls on coarse grains were partially lifted and loading in oats and barley was resumed on the Winnipeg Grain Exchange open cashout.

Oats have risen from the Government ceiling of 65 cents to the open market price of 90 cents; barley from 98 cents to $1.30. These prices are still below American prices because the Government still prohibits exports of oats and barley to the United States. Prices tend to be kept down, too, because of the Canadian restrict to supply bacon to Britain at relatively cheap prices. To produce these bags at the British contract price oats is limit on the price of oats and barley used to feed these hogs. The whole situation is further confused, for farmers who hauled grain to market prior to October 31st did not participate in the increased prices that have occurred. Obviously, to do justice to all farmers, these price ceilings should have been removed on August 1st last. Farmers, however, who use new hauling coarse grains have benefitted by the removal of price controls. Whether the Government will permit the import of oats and barley in the United States, and whether the Government will assume the losses contract so as to induce hog feeders to continue to feed hogs for Britain, or whether hog feeders will market their unfinished hogs, all remains to be seen.

ITEMS OF INTEREST IN THE WORLD OF POSSIBILITIES

Belgium's spring and winter wheat harvest is now estimated at 4,160,000 bushels, compared with last year's harvest of 18,000,000 bushels—Eire's 1947 wheat acreage is now placed at 360,000 acres, some 48,000 acres below last year's planting of 648,000 acres.

Australia recently signed an agreement with France, under which Australia will supply France with 10,000,000 bushels of wheat to help France maintain her present bread ration—Brazil is now negotiating with Argentina for the purchase of 7,348,000 bushels of wheat with the price reported to be $4.87 U. s. bushel.

Did You Pay Income Tax For 1942?

If so, read this carefully!

The Government of Canada will repay the REFUNDABLE SAVINGS PORTION of 1942 Income Tax by March 31st, 1948. If you are one of those who have refundable savings a cheque will be mailed to you BUT—

Your correct present address is essential!

Current addresses are available for some of those entitled to repayment, but a large number of taxpayers are constantly moving and others marry and their names change.

Cards on which to report changes of address or name are being sent to all householders in Canada. These are being distributed at the present time. Additional cards are available either at your district Income Tax office or your local Post Office. Do nothing if you live at the same address and have the same name as in 1942.

If you are entitled to Refundable Savings on 1942 Income Tax and you have changed your address or name
COMPLETE AND MAIL YOUR CARD AT ONCE!

One Man's Viewpoint

By STAN BOHS of Edmonton

Sponsored by Alberta Livestock Co-operative Limited

A Special Feature of the "A.L.C. Show"—12:15 noon, CJCA

Back during the war days the one period when supplies were short, many restaurants and lunch counters and soda fountains began using throw-away glassware. Now that supplies were about, that eating establishments had to make do, and the public put up with it.

But the war is over and there is no longer any excuse for improper service but unfortunately having acquired the habit, there are still many establishments which are carrying on as they did. A slight chip out of a dish doesn't cause much notice if a small crack in a cup. Yet the health officials who test these things and who know what they are talking about will tell you, that an optic of sterilizing such dishes, those cracks and chips render it still retain sufficient live bacteria to infect anyone that uses them. It isn't simply a case of them being defective, they're actually dangerous and some of the mouth infections that can be contracted are not only serious and painful, but deadly.

It is for this reason that the Department of Health regulations prohibit the use of any cracked, chipped or otherwise damaged vessels or utensils, and the regulation puts it, and it is for this reason that it is an offense for any householder to use such dishes or utensils. This applies to a regulation affecting city or town establishments. It applies to every place in the province that provides food or liquor to the public, it's a regulation that's being observed everywhere and it's time something was done about it.

The Department has inspectors. Many of the municipalities have their own inspectors and while it is their duty to stamp out breaches of health regulations, they certainly can't watch everyone all the time, but the public that is patronizing these establishments can and for this reason it's up to the public to insist upon getting the service it is entitled to receive.

No one would hesitate to complain if they were short-changed. Yet by accepting a cracked cup, a person is risking a much more serious risk than in any short changing. There appears to be a feeling that no one should make a scene about such things. But in the first place why not? You'd make a scene if someone deliberately tried to make you ill and a proprietor who permits broken or cracked dishes to be used is doing just that. He knows the danger because it has been explained to him by the health inspectors. But so far as that goes there is no need for a scene in that sense, one can always refuse to accept something that isn't wanted and no one realizing the actual danger would want a cracked dish. As a matter of fact, if the public began insisting that it receive what it orders and pays for, and if the people began refusing to patronize any establishment that was breaking the law in this way the practice would soon end, but until the public in every town and hamlet insists that it will not be comfortable for any proprietor who permits such assaults in his establishments he will continue to be victimized by every cheap operator who thinks how she can sneak away precautionary measures and make a bit of effort to prevent them won't get the credit they should receive.

As a matter of fact, that can be carried a step further. There are also strict regulations about cleaning and sterilizing dishes before they are used. Yet anyone who has travelled anywhere in this province, and have seen dirty dishes being merely swished under a tap and then used again. Those dishes may look clean and sometimes they don't even look it, but regardless of that, they aren't clean. According to careful tests, those dishes are the source of contaminant almost every serious disease there is.

No one would allow his butcher or grocer to wrap up his food purchases in a dirty used piece of paper, yet for some strange reason, won't insist that his food, we buy in a cafe or lunch counter, in a dirty germ-ridden cup or plate.

It's time we realized that it isn't common sense, but such one of us that must assume responsibility for supporting the efforts of the health department by stamping out these practices. In other words it is really no more than ordinary self protection, to refuse to accept any food that is not properly served and to report each infraction upon discovery.

"Wee Baby" Returns to Scotland

One of the luckiest passengers on board the Canadian Pacific liner Empress of Canada, as she sailed from Montreal for Liverpool recently, was three-year-old David Collins, on his way home to Glasgow, Scotland, after a completely successful operation for a "wee baby" condition. Wee David was rushed to Chicago a few weeks ago, where the delicate operation was successfully carried out at the Children's Memorial Hospital.

Fultonvale

[illegible] Tuesday [illegible] will be spend the winter months on the coast

Mrs. [illegible] Mitchell [illegible] on the occasion of her 21st birthday, with a surprise party at her home. Congratulations to Bea and many happy returns.

Congratulations to Mr. and Mrs. Clarence Dalzer, on the birth of a baby girl.

Mrs. Harry Calfrage of Vancouver was a visitor in the district, renewing old-times with a number of friends.

An appreciative audience was held at the home of Mrs. John Lang in honor of Mrs. Harry Cooper and Mrs. E. Hooper, who are leaving the district soon. The twenty ladies present paid their respects to the guests of honor and each was given a token of remembrance and appreciation.

Tea was served by Mrs. Lang, assisted by Mrs. Tom Reed and Mrs. Beaudry.

Mrs. Wm. Curtis is improving slowly after a very severe illness.

The Goodwill Club will meet Wednesday, November 12th at the home of Mrs. [illegible] Mrs. C. Mitchell will be the hostess.

Mr. and Mrs. Lester Geary have returned to their farm and are busy getting settled in their new home.

The sewing group of the Goodwill Club are asked to organize their work for winter, and turn in reports of sewing activities at the November meeting.

S. Cooking Lake

Hallowe'en was pleasantly spent at Franklin School by an appreciative company of parents and friends, gathered to hear the concert prepared by the boys and girls. First on the program was a short play, an unusual adaptation of The Pied Piper. The leading characters were Mary Wernek, Pied Piper; George Olynyk, Mayor of Hamelin; Tom Krak, Town Crier; Victoria Bauwerdge, the little lame child; and Evelyn Piper, the child's mother. There were ably supported by a strong cast of citizens, who conceded the Mayor in all his doing. Stella Wesenick, Marlene Gibb, Sue Comrie, Stella Wesenick, Ronald Hanson and George Canning. Ray Gibson, Bobby Norton, Lorraine Wernek became repulsive rats and attractive children as the play proceed them.

The play was followed by readings, solos, duets and choruses—all presented by the pupils. There was a dark, dark room, too, in charge of Wizard Steve Stalin, where weird and fearsome "things" were heard and felt.

Lunch brought this Hallowe'en party to a pleasant close, even though there was no boiling water for coffee. The collection in aid of the Christmas Tree Gift Fund amounted to $13.05.

Mrs. Comrie, Mrs. Gibb and Mrs. Gibson were appointed a committee to supervise the purchase of gifts.

Sunday School attendance at St. Mark's Church keeps safely away from Rolling Hill. After two or three weeks of zero temperature there was a rise to 3 above. This remained steady for two weeks, but on Sunday last there was a drop to only 1 above.—Sue Comrie again! Yet the sun has risen upon us from kindly, favorable skies to thaw us out from our coldness and apathy! Another generous supply of Sunday School Papers and attractively colored Lesson Helps and Work Books has been received.

NOTABLE QUOTATION

The negro do not consider that working on Sunday is a sacrilege. They believe, rather, that the great virtue of man lies in his ability to correct his mistakes and continually to make a new start of himself.—Wang-Yang-Ming.

Timely Farm Notes

By R. J. Whitbred, District Agriculturist

BEES HEPERS CONVENTION

F. H. Armstrong, Dominion Honey Grader from Ottawa, will be among the speakers heard by members and friends of the Alberta Beekeepers' Association when they meet in convention at the Macnor Hall, Edmonton, on November 7th and 8th.

The subject of honey grading should prove of particular interest at this time. W. G. le Maistre, Provincial Apiarist for the Alberta Department of Agriculture advises that the grade of honey from some districts this year was not as good as might have been expected. Two reasons for this have been noted. One was that the wax was not properly strained out; and the other, some of the honey was too thin to make a No. 1 grade. "Color and flavor have been excellent", says Mr. le Maistre. "but thin honey becomes No. 2 honey".

As in former years the 1947 meeting will combine convention and short course. Although there are always important resolutions to consider, business is reduced to the minimum so that as much as possible of the program can be devoted to discussion of improved production and management methods. Control of bee diseases and the use of sulphathiazole will be considered, three of the Dominion's outstanding authorities will be in attendance, and many experienced beekeepers will be there to discuss problems in general.

The ladies are always very welcome guests at this convention and special arrangements are being made for their entertainment.

Many of those attending the convention will arrive one day earlier to take part in the annual meeting of the Alberta Honey Producers Co-operative Association, scheduled for November 6th. All meetings will be held in the Macnor Hall, Edmonton the Alberta Honey Producers Co-operative annual meeting at 2 p.m., November 6th, the Alberta Beekeepers' Convention, November 7th and 8th.

WILL YOUR BEED GROW?

Knowing that good seed will be scarce by spring, Alberta farmers are making sure of their supplies now. In this rush for seed there is one point that should not be overlooked—the germination test.

J. E. Birdsall, Supervisor of Crop Improvement for the Alberta Department of Agriculture says that the germination test, always advisable, is more important than ever this year. Whether the seed is from your own fields, from the farm of a neighbor or from any other source, you are advised to make sure that it will germinate satisfactorily. You can test the seed at home, take advantage of the seed testing service offered by the grain companies, or send a few pound sample to the Plant Products Division Dominion Department of Agriculture, Calgary.

Mr. Birdsall points out that there is a fee of 75c charged by the Plant Products Division, but that only tests carried out by this Division are recognized for the sale of seed on grade. Other tests are quite satisfactory for determining germinating ability of a sample to be used by the grower himself.

MILKING METHOD

One way in which milk production can be increased without any additional expenses is suggested by D. H. McCallum, Dairy Commissioner. This consists simply in regular and quick milking. Cows are creatures of habit. They will let down their milk more readily and completely if they are milked at exactly the same time each day. The action of letting down milk is stimulated by hormones. If the cow is not milked quickly the action of the hormones stops and all the milk is not secured at that milking. If this practice is continued the cow will rapidly develop into a stripper and dries off much more quickly than she would with proper milking procedure.

If a milking machine is used, it should not be left on for more than four minutes. If cows are milked by hand the milking should be done as quickly as possible. Any undue noise which will excite the cows at milking time should be avoided, since such disturbance will cause them to hold back their milk.

WORK WITH THE COW

You have probably heard about the Cow Testing Policy conducted by the Dairy Branch of the Alberta Department of Agriculture, but have you considered what it could mean to you?

In Alberta there are about 354,000 cows kept for milking. Their average production last year was 4,087 pounds of milk per cow. If you compare this with the 66 herds recorded under the Cow Testing Policy, you will have some idea of the difference. The cows under test averaged 6,053 pounds of milk as against the general average of 4,087 pounds for the province. Not only that, but the tested cows produced 1,966 pounds of butter fat, while the general average was 140 pounds.

This Cow Testing Policy is not for the big herd owner only. If you have three milking females in a year, you too can take advantage of this service. Cow testing —the keeping of milk records—is the safest and surest basis for intelligent breeding and selection. If you people this with proper feeding you get an improvement in production that may mean the difference between the general average and the top producer.

Full particulars about Alberta's cow testing policy can be obtained from your District Agriculturist or from the Dairy Branch of the Alberta Department of Agriculture.

Considerable quantities of low grade Canadian wheat will be milled into flour this year. The Wheat Board has informed flour mills that if northern and 4 special wheat grades must be purchased on the understanding that they will be milled into flour for human consumption. No sales of such wheat for stock feed will be permitted unless it can be shown that lower grades are not available.

C.N.R. Announces New Appointments

Upper Left: Right, W. C. Owens
Lower Left: W. J. Spalding
Lower Right: C. J. Bolton

The retirement of Walter C. Owens, formerly General Manager of the Western Region of Canadian National Railways, is announced by W. R. Reynolds, vice president. Mr. Owens finishes his railway career with over half a century of service. Succeeding Mr. Owens will be Howard H. Spurring, formerly assistant General Manager. Two further appointments are announced. J. R. McMillan, formerly Superintendent of the Edmonton division, will become assistant to the General Manager, and J. J. Behan, formerly Superintendent of Car Service, who becomes Assistant General Superintendent of Transportation.

PACIFIC SALMON MAY BE EXPORTED FREELY

Permits for the export to any destination of all varieties and forms of Pacific Coast salmon, fresh, frozen, salted, smoked or [illegible] will be issued freely as of Wednesday, October 15th, according to simultaneous announcements by the Export Permit Branch, Ottawa, and the Chief Supervisor of Fisheries, Vancouver. This action has been taken in view of the fact that the pack of canned salmon is now adequate to meet the requirements of the domestic market and the reduced requirements of the British Ministry of Food.

Stress Importance Of Birth Registration

Registrations of births is more important today than it has ever been, according to a bulletin issued by the provincial Department of Public Health. They not now necessary, but only as proof of age in such matters as family allowances, pensions, politics, and superannuation and pension schemes, but they are also required for identification purposes by Canadians seeking entrance to the U.S.

With this new importance for the birth certificate has come a surge of requests for registration from persons, whose parents had neglected the formality, or indeed there was any provision for it, at time of birth.

Unfortunately many such registrations have been falsely sought by aliens not born in Canada as well as by persons who, for some reason wished to establish false ages. War and the formulation of plans for family allowances brought an unsatisfactory situation to a head at the 1944 Dominion-Provincial conference and it was made obligatory for all persons to produce proof, for registered purposes, of the place and date of birth and the identity of his parents, thus bringing the practice all over Canada in line with Alberta vital statistics procedure.

BEEN in a tap shop lately? Or a hardware store? Or a sporting goods department? Then you have noticed the amazing number of things now being made with Aluminum — skates and scooters, knitting needles and clothes pins, cookers and cocktail shakers and curtain rods.

Aluminum is today one of the four most widely used metals in the world . . . for a lot of reasons. It has brought new beauty into architecture and into the kitchen. Its lightness has made work easier — and enabled planes to fly higher and faster.

It has the strength to build bridges — and to make the bearing a two-year-old gives his toys . . . It is the metal of the Twentieth Century.

One hundred years ago Aluminum was more valuable than gold.

Today its low cost creates thousands of everyday uses.

At Arvida, Canada, the largest Aluminum smelter in the world can produce two million pounds of ingot a day. In 1947 Aluminum ends this in Canada than anywhere else in the world. 225 cans out of every ten pounds are available for export. Today Canada's economy is said to every country in the world — a major factor in providing Canada with needed purchasing power abroad.

Good Hope

Mrs. Warbiski, our school teacher, held a very exciting Hallowe'en party last Friday afternoon. Most of the children were dressed in costumes, which added to the fun.

An enjoyable program of games, contests and a sing-song was enjoyed by both children and parents.

The teacher's treat for the afternoon was popcorn and candy.

A delicious lunch, served by the children, brought a pleasant job-gram to a close.

* * *

Mr. and Mrs. Ralph Magee returned to Good Hope last week-end after a short honeymoon. They will leave shortly for Clarence, to attend Bible School.

* * *

Mr. and Mrs. Stuart Cranston of Fort St. John, B.C. who are on their honeymoon, spent a few days with Mr and Mrs. Earle Cranston this week.

Wye

The meeting of the Ladies Red Cross was held at the home of Mrs. J. Thompson. Four members were present and one visitor, Mrs. Bennett. Refined was discussed and plans were made for an afternoon of making aprons for the summer, this to be held at the home of Mrs. Gardiner. A tasty lunch was served by the hostess at the close of the afternoon.

* * *

Mrs. Gordon Southern and baby have been spending a few days with Mr. and Mrs. H. E. Wells.

* * *

Mrs. Gordon West has been visiting her mother, Mrs. R. Gardiner and Dorothy for a short while.

* * *

The high market for rye on the Winnipeg Grain Exchange was set on October 30th, namely $4.12% a bushel. On the same date class 2 wheat sold to countries other than Britain was quoted at $3.31 a bush-

CARD OF THANKS

We would like to take this opportunity to express our most sincere thanks to our many kind friends and neighbors who sent best wishes, telephone messages, and lovely flowers received, during Mrs. Devieg's illness and stay in hospital. We are happy to say Mrs. Devieg is recovering very nicely and it won't be too long until she will be up and about.

Sincerely, the Devieg Family.

SHOULDERS STRAIGHT

In a former age, learned men were often distinguished by that hanging look which seemed to weigh them down with their very learning. Rounded shoulders were as much a distinguishing feature of the savants as their logos of memory. But, say the health enthusiasts, times have now part. When men and women of this generation know that it is so necessary to conserve the health so to absorb it.

Where at study, the modern genius bends say his mind to be

Cameron, W. Penfold, M. Stinson.

Many beautiful floral tributes were received from his loving wife; and friends.

He leaves to mourn his loss besides his loving wife, 4 daughters, Mrs. J. Haley; Mrs. C. Oxley, Edmonton; Mrs. F. Williams, Fort Saskatchewan; Mrs. R. Sewell, Glasgow, Scotland; 1 son, Thomas Swift, Edmonton; 1 sister, Mrs. C. Bronte, Birmingham, England and 9 grandchildren.

The Jolson Story' To be Shown Here

One of the finest life stories of a singer and movie screen is that of Al Jolson, the picture that is to be shown in the Bisal theatre five nights next week.

Considerable comment has been heard about this picture by all fortunate enough to see it, but like much of these good pictures, shown in the city, many country residents are not able to attend them. With this thought in mind and with the sincere desire to show only the best of pictures, Mr. Chas. F. Lowe was prompted to bring this fine entertainment here so that those living in the surrounding district could have the privilege of seeing it.

It's a [illegible] depicting the success and failures in the life of Al Jolson. From the time he was a small boy and we feel sure it will meet with your approval when you visit the local theatre to see it next week. adv

Around the Town

Mr Selby Thorne Jr. spent Remembrance Day at the home of his parents, Mr. and Mrs. Selby Thorne.

* * *

Mr. E. M. Bell, Mr. A. J. Dawson and Mr. W. W Buxton returned home Sunday from a weeks big game hunt near Edson They were successful in bagging two moose

* * *

Miss Glenrose Devers and Miss Grace Wilson were visitors at the Fort Tuesday.

* * *

Over $160 was realized by the Fort Saskatchewan Branch, Canadian Legion through the sale of poppies and wreaths for Remembrance Day

* * *

The annual meeting of the Fort Saskatchewan Hockey Club will be held in the Legion Hall, Tuesday, November 18th at 8 p.m. All hockey players and prospective players are asked to attend.

New Curling Rink To be Completed Soon

Rapid progress is being made on the new curling rink, being erected at the Fort. Trusses for the roof are now arriving and it is expected to have these up by the early part of next week so that workmen can put on the roof

The building is so constructed that it will be free of pillars and can be used for other events during the summer. There will also be a club room and kitchen when finally completed.

The new rink will have four sheets of ice, which will accommodate the 100 members, which is the aim of the club.

It is planned to have a gala opening, the date for which will be set at the special meeting to be held [illegible]

* * *

P.T. Class to Raffle Quilt

The school P.T. class will endeavour to raise funds to take care of the accident which befell Lawrence Brubbins during a P.T. class. An enjoyable time was benefitted to raise this money and at the same time it is hoped that they will be able to purchase an insurance policy to cover any similar mishap. They ask the aid of all residents to help them in this worthwhile cause. Date of draw will be announced later.

Many Attend Remembrance Service

Veterans of both world wars, the Girl Guides and Brownies assembled at the Legion Hall and under Parade Marshall Henry Wenzig and to the beat of drums and bagpipes marched to the cenotaph to take part in the Remembrance Day Service and pay tribute to those who did not return from both conflicts.

Many residents from town and district were present to honor those who fell.

The service was conducted by Rev. Father Seward, Rev. W. D Race and Rev. W W Buxton

Rev. Father Seward addressed

Reminiscences

The following are excerpts from letters written by former United Church Ministers

The following is a continuation of Rev. Charles H. Johnson's letter which appeared in last week's Record

The first New Year Sunday that I was in the Fort I preached on 'The Correction Line.' It was most profitable to myself and perhaps even the suggestion of it now may be of benefit to some . . . Another sermon grew out of the big hotel fire. Some will remember that there was not a breath of air that day. Across the street on the west side was a row of stores, all pitch-roofs, with the eves of one store meeting the eves of the next one. Across their upper stories a false front had been built. Some wise combination stone shingles. We mention this false front and all unused work. At last the hotel was but a mass of cinders in the cellar; but the heat seemed to be over more intense. Suddenly at a point, almost smoke, and that flame broke out under our very feet. The charred woodwork under the metal cornice vent out fire like an erupting volcano and in almost no time the whole of the four or five stores was a dead heap. I know that there was a verse somewhere which would cover the event and soon found it, "A fire not blown shall consume them." So much for hypocrites . . .

In the winter of 1913, the town council, much to my surprise, asked me if I could do anything to start a cadet corps . . . I undertook to do the best I could, and soon had an enrollment of 60. We drilled Friday afternoons and divided into four squads in the evenings, when ten lads would work at signalling, ten at first aid, ten at all the clerical work of a company and it's plans, and ten at target practice. We took 60 to camp at the [illegible] Exhibition Grounds. I pointed out to the officer in command that our tents were pitched on low ground which would surely be swamped if it rained. But he did not wish to disarrange the symmetry of the rows. So it happened. The little burglar shared my tent and I woke to hear his crying. There were several inches of water on his side of the tent, and almost immediately the whole of my line was in an uproar. With dawn came the end of the rain. I continued my lads to be quiet but to rummage the grounds for lumber, stall-doors, or whatever, and by inspection time we had a board walk that would be a credit to regular army arrangement. It was as straight as a string and solid as could be and the wet blankets were neatly arranged on the rails not in equally straight lines. Perhaps this accounts for an invitation from Col. Cruickshanks to come up to headquarters immediately after supper. There the old officer opened his heart to me about the danger of almost immediate war . . .

Of our children only Paisley who was born in the Fort in 1914 grew up. He lives in Kamloops. If I ever drive to Kamloops to see him I will try to take the north route west to Edmonton and will stop to see your new Church, by that time proudly completed.

In 1945 we returned to Nova Scotia. We went to Wentworth, then to Berwick, and then . . . St. John's, Newfoundland . . . Many are in Cape Breton, Guysborough, . . . Grand Pre, and Bridgewater. If all is well I will complete 50 years of active work in the Church next summer. I am preaching four times and driving about 20 miles every Sunday but am happy to say that I do not have an auto nor a pair. I still believe that God uses preaching to save men.

the gathering telling of the service made by those who did not return and urged those present to work towards a better world Wenzig were then placed follow ed by the Last Post and two minutes silence. Reveille was then sounded.

Rev W D Race then offered a prayer which was followed by the hymn "O Valiant Hearts, Who to Your Glory Came" in which all present took part

A brief time was then made available for those who wished to place wreaths at the cenotaph Rev W D Race then lead the ceremony with a prayer

Funeral Services for J. Day Held Nov. 4th

Funeral services for the late James Day of Ardrossan who passed away on November 1st at the home of his daughter, Mrs. R E Laizan, Rowsell at the age of 71 years, were held on Tuesday, November 4 at 2 o'clock from the Hawe and McBride funeral chapel. Reverend H A. Johnson officiated and interment took place in the Fairmount cemetery. Pallbearers were Messrs R Parker, L. Storms, D. Rice, J Walsh, A Mckenzie and J Burnfield

Beside the husband of the deceased were received from The Family, Mr. L. Colbourne and family, Mary Maclaren, Ray and Ivy Bracefleur; The Bursfield family, The Farm ing family; W M. S. Ardrossan, Mr. Wardrop, Mrs. Ervin and family, Hazel and Albert, Mr. and Mrs. Nawcash; Mr. D Cranston, Mr. and Mrs. Leslie Hillman, The Hillman family, Mr. and Mrs. Melvin Hill, Vermilion; Mr. and Mrs. John Reynolds; The Barrett family; Jessie and Bentley; Parker and Jim Morton; The Allan family, Verna and Archie; Mrs. E. L. Haslam, Edmonton; The Bell family; Mr. and Mrs. Stanley Uron and family; Mr. and Mrs. George Ottoway; The Watkins; May and Frank Lobsen; Mr. and Mrs. C. W. Sneene and Lorne; Mary and Dwight Rice and family; Mr. and Mrs. Mark Latam and family; Mr. and Mrs. Morard Reynolds; Ruth and Bert Orr Will and family; G. Adams; C. A. Kotyrie; Olive and R. C. Radway; The Parker family; The Staff of the University Elementary Training [illegible]

Besides his wife, Mr. Day is survived by one son James of Ardrossan, three daughters, Mrs. E. S. Latam of Bremner, Mrs. Morris Ward of Perrywale and Jean of Edmonton; two sisters Miss Margaret Day and Mrs. J. Seargie, both of Aberdeen, Scotland; two brothers, Charles of Montreal, Quebec and Norman of Aberdeen, Scotland, also three grandchildren.

Mansfield

On Sunday, November 2nd the Bethany Lutheran Church held their annual Thanksgiving and Mission festival. Rev. E. Widgrube of Bruderheim was guest speaker for the afternoon and evening services.

During the services the choir rendered the hymns "Praise! Oh Praise Our God as King" and "Soldiers of the Cross Arise".

* * *

The Bethany Walther Leaguers enjoyed a joint business and social evening in the church basement on November 6th. After the usual topics of discussion and business, the evening was spent playing volley ball with games. After demolishing all the balloons the group sat down to a very delicious lunch consisting of pie and coffee. The evening closed with a sing [illegible]

* * *

Mr. and Mrs. Wilfred Gobert and family motored to Castor for a few days to visit Mrs. Gobert's parents.

* * *

Adolf Gobert is the proud owner of a brand new Chevrolet.

* * *

Miss Rena Glother is recuperating at her home here after her recent operation at the Royal Alex Hospital.

DISTRICT BOYS WIN PRIZES AT WHEAT SHOW

Vardon Lawrence and Ray Stetson, members of the Partridge Hill Junior Wheat Club, were listed as having each won a prize in the Junior Junior Wheat Club's standing field crop competition held recently. Vardon won a first and Ray won a second prize.

Royal Wedding Day Draws Near

A charming picture of Her Royal Highness Princess Elizabeth with her fiancee, Lieutenant Philip Mountbatten, R.N. See page [illegible] for details of wedding.

Service Club to Give up Hall Management

The regular meeting of the Fort Community Service Club was held in the Legion Hall, Wednesday evening with approximately twenty-five members present.

The meeting was called to order by Wallace Wetzer Sherman and the minutes of the last regular meeting were read and adopted.

A motion was then made to turn the operation of the hall back to the town. Considerable discussion took place on this motion and it was finally decided to notify the town council that the hall would be turned back to them to operate in thirty days as per agreement made with the town when the hall was first taken over by the Service Club.

A discussion also took place on

School Flashes

Last Friday the members of the School Safety Patrol were given a treat at the Fort Confectionery by the school principal, Mr. Larson.

* * *

The students of the Fort School enjoyed a holiday on Remembrance Day.

* * *

We are looking forward to the play which the Dramatics class is planning to put on during the Christmas season.

* * *

Louise Shackleton, hailing from Yorkville, was born on April 1st. Where she is undecided as to what she wants to do when she gets through high school. Her likes are music, dancing and Josephburg (I wonder why). Her dislikes, three in number, are cold skirts, turnips and Social Studies.

* * *

Ray Stetson, born on May 18, 1933, is one of our Grade 10 students this year. Among his likes are chows, dancing and girls (some that is!!?!) His social invitation is extended to town-agers of the district to join.

* * *

R. E. Hosford sent two head and R. C. Briggs sent three head to Toronto to be entered in the Royal Winter Fair.

ALGEBRA

Algebra is killing me
Some day it surely will,
X-Y makes nothing
But I must study still.
In Geometry there's something,
More than Y's and X's,
I must always get them wrong
Which teacher surely vexes.
With A's and B's, M's and N's,
My brain is in a whirl,
Oh why can't they have mercy
I'm just a little girl.
Now to further complicate
The work that we are given,
They've put brackets in our books
And through this we are driven.
I must return to A's and B's
To add and take away,
Till I write off Algebra
And then, oh happy day.

Holsteiner-Bradford Wed In Morning Ceremony

Before an altar decorated with white and gold chrysanthemums in Our Lady of Lourdes Church at Lamoureux, at 11 a.m. Wednesday, November 12, Rev Father Berthold united in marriage Miss Marguerite Mary Holsteiner Bradford, daughter of Mr. and Mrs. P. Bradford and Mr. Edgar Schulz, son of Mr and Mrs. P Schulz.

Given in marriage by her father, the bride wore a white sa in gown with scalloped neckline and lily waist sleeves. Her floor length veil was fastened with a wreath of flowers and she carried a bouquet of baby chrysanthemums.

The groom was attended by his brother, Mac Bolad

During the ceremony Miss Margaret Campbell, cousin of the groom, played the organ and sang Ave Maria.

At a reception held later at the King Edward Hotel, Mrs. Bradford and Mrs. Schulz received with the bridal party.

Tall tapers and white and gold chrysanthemums decorated the table which was centered by a [illegible] tiered wedding cake.

A wedding dance was held on Wednesday evening at the Community Hall, Fort Saskatchewan.

The couple later left for Vancouver where they will make their home for the winter For going away the bride wore a blue wool three-piece suit with black accessories and a corsage of roses.

Ardrossan

The Ardrossan United Church was the scene of a special service last Sunday, when the infant son of Mr. and Mrs. Gordon Ghost was christened Kendall William.

After the service Mr and Mrs. E Haslam entertained at a dinner party in honor of their grandson, Kendall, also for Mr. and Mrs. James McCurdy who have just returned from Scotland.

* * *

The United Workers will hold their next meeting at the home of Mrs. McKay on Tuesday, November 18th, for the purpose of the tea and banner to be held at Mrs. John Alexander's home. Come on ladies, we all have a cup of tea with us, and who knows, you can do some Christmas [illegible] ing!

* * *

Congratulations are in order for Mrs. Ed Hosford who have a new baby girl in their home.

* * *

We hope Mrs. A. Gillies will soon be sufficiently improved to leave the hospital and return to her home.

WHY

Why do people listen to a radio?
Why do some prefer one program, others another? Those and many more questions are answered in the

EVERYBODY'S BUSINESS.

by Don Gordon

To get ahead in the world you need more than ability, personality and experience. You also need good health.

Nowadays the vital importance of the right diet for good health is being more widely recognized. That's why many people are using less of the heavy starch and more foods and meats of the vitamin-rich raw and leafy vegetables, and fruits.

As for sleep, doctors advise a minimum of eight hours or the average adult.

To most of us, the idea of taking exercise is a chore and a bore. But it is obviously impossible to enjoy robust good health unless we do it. A few minutes spent daily in exercising exercises is especially beneficial to those who have sedentary jobs. Long, brisk walks are also recommended.

Above all, keep your physician given you a complete check-up every year.

All this may have a familiar ring. But I haven't mentioned the importance of life insurance lately because there can be as much as help you with security.

Just as health measures safeguard your physical future, life insurance safeguards the financial future for your self and your family. During the past 10 years the life insurance companies in Canada paid out an average amount of $400,000 to policyholders and beneficiaries every day.

QUALITY HIGH IN LEGISLATIVE LAB

Despite the unfavorable season for the 1947 barley crop and the slightly smaller number of carload shipments to date in the $50,000 National Barley Contest, the quality of entries, so far inspected, is showing unexpectedly high.

Chairman of the contest committee, Prof. T. J. Harrison, who returned last week after three months' absence in Poland as Canadian representative on a mission of the Food and Agriculture Organization, reports that most of the entries received are graded 2 C.W. —Six Row

Equally encouraging is the fact that germination tests of inspected cars are running high. Not all carload lots received have been tested, but of those which had been, up to October 23, Prof. Harrison reports that germination was running from 95 to 99 per cent.

Plant T.B. with Christmas Seals.

« Recipes for Milady »

SAUSAGE VEGETABLE SCALLOP

1 lb sausage meat (or sausage removed from casing)
2 tablespoons flour
1 teaspoon salt
Dash of pepper
2 cups milk
2 cups thinly sliced potatoes
1½ cups grated turnips

Brown sausage meat in frying pan breaking it apart with a fork as it cooks. Remove from pan (drain fat from pan. Mix flour, salt and pepper and blend until smooth with ¼ cup of milk. Pour remaining milk into frying pan and boil. Gradually stir in the flour mixture and cook until thickened, stirring constantly. Place half the sausage meat in the bottom of a casserole, cover with half the potatoes, turnips and onion. Repeat layers. Cover and bake in a moderate oven (350°F.) for 1 hour or until potatoes are tender. Remove cover for last fifteen minutes. Six servings. Top may be sprinkled before baking with bread crumbs mixed with some of the melted sausage fat.

VEGETABLE HARLEQUIN

2 cups cooked, diced turnips
2½ cups cooked, diced potato
4 tablespoons diced, home-canned sweet red pepper (optional)
½ cup top milk
½ teaspoon salt
¼ teaspoon pepper
2 tablespoons melted flavored fat
Combine ingredients and heat thoroughly. Six servings.

TOMATO MARMALADE

3 tablespoons fat
1 teaspoon grated onion
1½ cups tomato pulp
½ teaspoon salt
¼ teaspoon pepper
½ cup grated cheese
2 eggs, well beaten
2 half-inch slices bread
2 tablespoons milk (additional)

Melt 3 tablespoons fat in frying pan, add onion and cook 1 minute. Add tomato pulp, seasonings, cheese and eggs well beaten. Blend in grated cheese, pour over bread, cover and cook 8 to 5 minutes longer or until the mixture thickens. In the meantime remove crusts from bread and cut into small cubes. Brown in melted fat in frying pan. Fold half the cubes into hot mixture. Pour into ramekins or serving dish. Sprinkle remaining cubes on top and serve at once. Six servings.

WHOOPING COUGH

Whooping cough is one of the most serious respiratory diseases, particularly to young children. It kills more infants than diphtheria, scarlet fever and measles combined.

Unless coughing spasms with a "crowing" cough should be regarded with extreme suspicion. The doctor or local health authorities, should be asked about preventive measures against the disease.

The Country Editor

By JIM GREENHAT

The Peace River Record-Gazette is not concerned that settlement of the railway strike will cost everyone more money probably in the long run, so much as the important thing that the unions and the railways negotiated their difficulties on a national scale free from the political interference of nine separate provinces. "Credit for this action is due to unions and railways for the orderly manner they conducted negotiations, setting an example for other unions and reducing the hardship on both employers and employee as well as the public."

N B B

Discussing our economic troubles in Canada, which it holds may bring us to the brink of disaster if the "fifteen planners" take a suggested move of devaluating the dollar. The Trend, Ont. News thinks this will inevitably mean severe export restrictions. "We have cannot live within our own resources; this is being tried in Britain and the country is practically bankrupt . . . Canada must export a big percentage of our wheat, our gold and our manufactured products if we are to bent a depression."

N B B

That's how they think too" says a pamphlet issued by the National Union of Railwaymen entitled "The Battle for Freedom," in part.

"Free government can survive only through the survival of free enterprise. On that survival, too, depends the life of the free labor movement, because organized trade unionism inevitably meets an early death under any form of dictatorship. It should be apparent, then, that the fate of free labor is tied in with free enterprise. But what the average worker needs to realize is that freedom of enterprise is not the sole prerogative of the owners and managers of industry. It is a freedom shared, and one that should be zealously guarded, by every Canadian worker as well. In an economic freedom—the freedom of opportunity."

N B B

The Nanton, Alta., News goes to town on the longer hemlines now in the feminine news, and in the editorial says that skirts have been long before and they've been short before and the results are pretty much the same—when they get tired of the particular style the fashions change. The French have a phrase for it, and they should know, "The more change there is the more there is of the same thing."

N B B

According to the Letter-Review of Fort Erie, Ontario, removal of price control and subsidies on feed grain "should have the effect of perfectly natural factor increase in many food prices and any government which tries to stop this is going to be out of office as soon as the farmers get a chance at it. Quite obviously, what is going to create stress is not a general price increase, but rising prices for food which mean unquestionably increase in material for the wage earner and the farmer. Canadian farmers have, in recent years been deeply referred with the idea that those who process and distribute their food make huge profits so that farmers will reasonably expect to get present or higher prices for food, without the cost of living in the city rising, but the facts are quite contrary."

N B B

Pumping for more men grains the Kamsack Nipawin (Sask.) Press, says: "Because the provided a haven for refugees and displaced persons over a period of centuries England became the greatest country in the world, and so remained for a long time."

N B B

BITS OF INTEREST AROUND CANADA

When Mrs. Sophie Nelson of Hervenstone, Alta., visited her sister at Muskegon, Mich., last fall she left a message for Santa Claus. Her sister reports that on the homesite of Mr. Anderson at Cut Bank she found the rabbit of the North Battleford, Sask., fire department who brigade fame sells gets a call after 26 who's days as rabbits. At Prince George, B.C., Wilson M. appeared for the Crown on a murder charge and his father, Mr. Justice J. O. Wilson, sat on the bench . . . World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plan"

THE PRICE OF REGISTERED SEED

The price of Reg stered seed in the three Prairie Provinces once again has been increased.

The reason for the increase is that as ordinary demand has suddenly sprung up this year from European countries for Canadian Registered certified seed wheat. Many elevators in the exporting countries are bidding quite high to secure the seed. The price set by seed growers themselves, are in accordance with the Plan they have had from the exporting countries in accordance that as much can be expected that in sufficient will be left for the rest of the Canadian farmers to purchase their crops.

Those who are unable to pay

Britain for the second year in succession Pemerton, B.C., has no tax sale on local property . . . Walking with his American records the two Abbotsford B.C. sector 7 the Fancy—she has 7 first, second and third awards—second crop of ripe raspberries on October 28 for Mr Fellows of Amherstburg, Ont. . . . At Admiral Sask., a 7½ year old son has bought 67 pigs lets into the world to help Canada fulfil her bacon contract with

cheese need should, I suggest, find out the name of their nearest neighbour who we need was tossed in "Crop Testing Plan" plots this last summer and whose samples were given an "A" grade which is equal to Certified or Registered. If such farmers still have left in their bins wheat that corresponds with this sample, this would be a good source of supply and at a reasonable price for those other farmers who cannot purchase Certified Registered or Certified seed sealed in the sack (Obviously seed cannot be exported out of Canada and still be available to prairie farmers at the same time

N B B

ITEMS OF INTEREST IN THE WORLD IN 6AF PUNNSPUPPS

In final figures estimate of Argentina's 1947 wheat acreage places the seeded acreage at 13,648,000 acres, compared with the first estimate of 14,007,000 acres and the second estimate of 13,700,000 acres.—The revised official estimate of France's wheat crop now places production at 117,000 000 bushels, compared with the July 1st estimate of 128,000,000 bushels and 1946 final yield of 141,000,000 bushels.

Australia recently signed an agreement under which 19,000,000 bushels of wheat to help France maintain the present bread ration. Spain's 1947 rice harvest is now placed at 12,250,000 bushels, a nine 20 per cent above last year's estimate of 10,270,000 bushels and is the largest harvest in three years.

Timely Farm Notes

By R. J. Whitford, District Agriculturist

WATER CARE OF FARM MACHINERY

If machinery storage room is limited, at least try to shelter those implements with wooden parts, and keep rubber tires and belts under cover, suggests R. J. Whitford, Extension Agriculturist with offices for the Alberta Department of Agriculture.

Provide shelter for rubber tired machinery if possible, and at the same time set up the machine on blocks to take the weight off the rubber mounted wheels. If you have storage is not available for the whole equipment, remove the wheels and put them under cover. If wheels cannot be removed without cut a great deal of trouble, it pays to cover the tires with canvas or tar paper. All belts and rubber parts should be removed and placed under dry cover.

The seed drill box should be cleaned out thoroughly before storing for winter. The feed cups and drive mechanism must and put out of shape if exposed to moisture. If the drill is to be kept outside wrap the box with tar paper or canvas. If this is attempted must also be thoroughly cleaned. When commercial fertilizer has been used, water jobs with [illegible] in the fertilizer is left, the acid eats away at the metal and before long they are ruined.

Sharpening and cutting edges, such as those on plow shares, mould boards, cultivator shovels and disc blades, should be well cleaned and a coating of grease applied. If you run your single disc or one-way up on planks, the disc blades will be kept out of the ground, and rust and corrosion of the edges prevented.

MANY ADVANTAGES INSULATION ON FARMS

Methods of planned insulation are being more generally adopted, not only for the farm home itself, but for all animal shelters on the farm. Insulated houses are more comfortable; they cost less to heat in the winter, and during hot summer days they are more comfortable cool.

Live stock buildings are seldom heated, manual heat being relied upon to keep the buildings, [illegible] related to conserve [illegible] heat as much as possible. Concrete floors will be warmer if they are built over a rubber fill. Gunders have a greater insulating value than gravel, stone, or the earth over which a concrete floor is often

LIME WATER FOR PRESERVING EGGS

Those who wish to preserve eggs while they are low in price until the time of the Christmas trade will find that a solution of lime water will be found quite satisfactory. For making such a solution, one pound of unslaked builders' lime is used. Three or four pounds of lime is sufficient to make five gallons of solution, and this amount is sufficient to preserve 20 to 25 dozen eggs.

The mixture of lime and water should be stirred at intervals of a few hours to secure as much as possible of the lime being dissolved. Allow this mixture to settle thoroughly before using. Only the clear liquid, which is a saturated solution of lime, is used as the preservative.

Only entirely fresh infertile eggs of good quality and sound shells should be preserved. An ordinary earthenware crock of suitable size is the most satisfactory container for this job. Size of lime pails capacity will accommodate approximately 14 dozen eggs.

Eggs should be placed in crock carefully to avoid breaking and cracking shells, and covered over them. Sufficient liquid must be used to completely immerse all the eggs, and these should be tightly covered to exclude air. A thin layer of paraffin on top of the solution and the crock covered with heavy paper and securely tied makes a satisfactory covering. Preserved eggs should be stayed in a cool place and the air-tight covering should be left intact until required for use.

FATTENING HENS

Marketing poultry for meat has proven to be a valuable part of a well rounded farm poultry enterprise. The (plan) profit comes from adopting a fattening program before the birds are dressed for market. The final control method in this fattening program is the use of fattening crates. These crates can be easily constructed. A crate 7 feet, 6 inches long, 20 inches high and 20 inches deep, and divided into three compartments will hold three to six birds per compartment depending on size.

Birds should be in good health before planning to crates and should be fed a fattening mash according to manufacturer's instruction. To secure best gain per pound of feed the birds should not be held in crates more than two weeks.

The commercial method of feeding not only pays a nice profit in weight gained, but it softens muscles, adds to flavor, makes birds more attractive in appearance and tender, juicy and palatable when cooked.

Great Britain has entered into an agreement with Australia to supply 75 million bushels of wheat, principally during the current crop year. The price has not been announced.

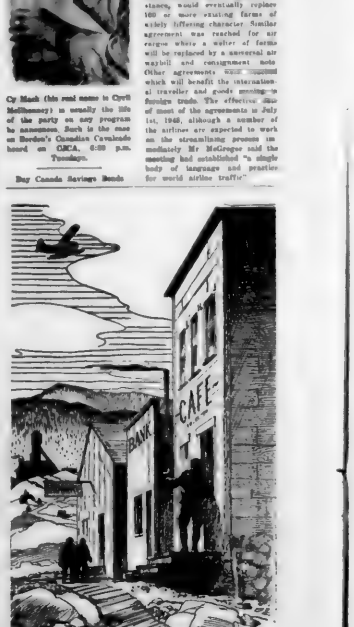
Cy Mack

Cy Mack (the real name is Cyril Mellkemyer) is usually the life of the party on any program he announces. Such is the case on Borden's Canadian Cavalcade heard on CJCA, 6:30 p.m. Tuesdays.

Buy Canada Savings Bonds

TO ELIMINATE INTERNATIONAL AIR TRAFFIC

The think red tape that has sometimes choked efficient engineering operations could soon be the runways will soon be slashed, according to G. R. MacGregor, general traffic manager Trans-Canada Air Lines. He was in Rio de Janeiro in the role of commissioner of a meeting of the regional traffic conference of the International Air Transport Association. He reported the 55 major world airlines represented had reached agreement on a single standard ticket form which would permit a passenger to move virtually anywhere in the world together with a single standard form for his baggage. These two forms, for instance, would eventually replace 100 or more existing forms of widely differing character. Similar agreement was reached for air cargos where a waiter of forms will be replaced by a universal air waybill and consignment note. Other agreements were reached which will benefit the international traveller and goods moving in foreign trade. The effective date of most of the agreements is July 1st, 1968, although a number of the airlines are expected to work on the streamlining process immediately Mr McGregor said the meeting had established "a single body of many guidance and practice for world airline traffic".



a cafe... a laundry...

a Bank

THE VEIN proves rich, a shaft is sunk, and a new mining town springs into life. The main street takes form. Commercial buildings rise.

When such a development occurs, the services of a bank are needed — to handle payrolls, to keep savings accounts and, as the town grows, to furnish bank credit for the needs of the community.

This is a basic pattern in Canada's development. And part of it is the local bank manager, providing those financial services which help Canadian men and women to win the rewards of modern enterprise and modern living.

T.B. CHRISTMAS SEAL CAMPAIGN
ALBERTA TUBERCULOSIS ASSOCIATION
CONQUEST OF TB IS OUR CHRISTMAS SEAL GOAL

Q I understand that the interior of the lung is connected like a sponge in there. Is there not a chance that after pneumothorax the lung may grow together where the diseased tissues are pressed together for a period and heal together at the same time?
A This commonly happens in a collapsed lung and is what is to be hoped for.

Q When is wound by a bilateral collapse?
A Collapse on both sides. During treatment a part of each lung is collapsed.

GRAVE CHILLS

There is a superstition that, when we shudder, it means that someone is "walking on our grave" Actually, if a young person shudders, it may be evidence of a chill—a grave chill, indeed. For chills are not to be "sneezed at", only.

The chilled body is highly susceptible to infection. Parents are warned to ensure that their children avoid chills.

Extraordinarily good talent, large audiences, and generous donations combine to feature the Associated Canadian Travellers "Search for Talent" Show now in the sixth week of its 20-week campaign in aid of the Northern Alberta Crippled Children's Fund. The show, jointly sponsored by the travellers and Radio Station CFRN, is staged at the Capitol Theatre every Saturday night and is a labour affair in memory of which it broadcast over CFRN commencing at 9:30 p.m. The show continues and any such are sure for the [illegible] donating various amounts which are turned over to the Crippled Children's Fund. Among the past month the air wheel travelled to Northcott, Vermilion, Bonnyville and Athabasca playing before jam-packed houses totalling some 2200 appreciative persons. Among any some of the 100 contestants who have competed on the show to date [illegible] right the are child stars Accordionist Evelyn Buckay and songster 14-year-old Garry Benson (middle row) Anne Stewart and Diane Wattie, Eric Nelson and Joan Arthur, (bottom row) Sheila Washington, Howard and John Troutman and Martha Kemp. The A.C.T. Show is scheduled to play in Bonnyville in the near future, so make it a date to attend. Besides seeing a top-notch radio show your pal rooting aids a worthy cause.

A farm in the Battleby district recently sold for $76 an acre, said to be the highest price ever paid for farm land in that region.

Approximately 45 per cent of the U.S. corn crop goes to market in the form of meat.

Farmers Urged Order Montcalm Seed Early

Farmers wishing Montcalm barley for [illegible] seed are urged to get their supplies as soon as possible.

The agreement is made by the Ladies' Improvement Institute sponsored by the Brewing and Malting industries, presumably to ensure it may be anticipated that unless Montcalm is obtained promptly there may be difficulties in commencement in getting adequate supplies later on. Farmers are asked to contact their nearest Montcalm grower, their local agricultural representative, or the field crop commissioner of their provincial department of agriculture.

The variety Montcalm is one of our eligible in the $25,000 National Barley Contests of 1946 and 1947, also sponsored by the Brewing and Malting industries. It is now established as one of the best varieties of malting barley, equal, if not superior to the well-known variety O.A.C. 21. This year it has been giving highly satisfactory yields. Present prospects are that it may prove to be the best high quality malting barley.

This is another reason why farmers are being urged to get seed supplies for next year. Hitherto the variety hasn't been available in commercial quantities. A fair supply is available from the 1947 crop.

Sales of farm implements by manufacturers to wholesalers totalled $61¼ million in Canada last year. This is an increase of 26 per cent over the 1945 total.

These figures do not represent the amount of money Canadian farmers paid for implements. It is calculated that in 1946 the farmers paid approximately $90,500,000 for purchases of implements and spare parts.

AUCTION SALE
Acting on instructions received from
Daniel Blake
the undersigned Auctioneers will sell by Public Auction on the South-West Quarter of 10-51-24, West of the 4th Meridian, located 2 miles South on Calgary Highway No. 2, then 1½ miles East and ½ mile South of Ellerslie.

NOTICE TO VETERANS
YOUR OPPORTUNITY TO APPLY FOR VETERANS INSURANCE IS EXPIRING

If you were discharged prior to February 29, 1943, your application for Veterans Insurance must be accepted by February 29, 1948. If discharged after February 29, 1943, the application must be accepted within three years of the date of your discharge.

FEATURES OF VETERANS INSURANCE

Available in most cases without medical examination; rates comparable to lowest standard rates; available in amounts from $500 to $10,000, premiums payable monthly if desired; re-establishment credit may be used to make payments.

THOSE WHO ARE ELIGIBLE

Among those eligible are all veterans of World War II and in certain cases, their widows; members of the Permanent Forces; certain merchant seamen, Fire Fighters, Ancillary Service Supervisors and Special Operators; those in receipt of war disability pensions.

VI-21

Published under the Authority of
R. Hon. Ian A. Mackenzie, Minister of
THE DEPARTMENT OF VETERANS AFFAIRS

Permanence and Comfort

Concrete that you can cut with a saw and that will hold nails and screws is described by E. B. Martin (Canadian Agricultural Engineer) in [illegible] Department of Agriculture in his new leaflet, "Cement Concrete".

Ordinary concrete floors in pigpens, poultry houses and barns are cold, hard, and often damp. Cement contains moisture in warm air cellar and dryer. Its weight is about one third that of ordinary concrete and its high shock absorbing properties make it very desirable for floors of animal shelters. It is fire resistant and withstands temperatures up to 350 degrees Fahrenheit.

[illegible] is a mixture of portland cement, sawdust and water, with a portion of sand often added to increase resistance to wear. Its uses and how to make it are described in detail in the leaflet. Persons desiring a copy may obtain it from the Extension Service of the Alberta Department of Agriculture, Edmonton.

"I'd like 11,506,651 others to hear this"
"NO post mortems!" warned Ida, glancing at Ruth. "The game's over Brenden, your husband looks as though he has something on his mind."
"I sure have," said Bill. "Only I'd like the other 11,506,651 Canadians to hear this too. Today I got hold of some figures that made me proud of the business I'm in. We Canadians now own more than 10 billion dollars worth of life insurance. And payments? During 1945 alone, the companies paid out about 661½ million dollars to widows, children and other beneficiaries. And another 93 million dollars was paid to living policyholders through matured endowments, annuities, disability claims, annuities and cash surrender values. That's what life insurance is doing for us Canadians.
"Those life insurance benefits helped to pay off mortgages on homes, start youngsters off to college, make older people more comfortable. Even [illegible] has financed those men in life insurance in term of need. Many, many others what are now looking hopeful security through their policies well be glad of it. But I want every living Canadian to realize the importance of Life Insurance."
Every life insurance dollar, while wasting to be paid out to its claimants, is working and growing on the service of the public, creating more jobs and more goods for more Canadians. Of that dollar almost 57 cents is now invested in Government bonds, 5 cents is loaning for municipalities, 20 cents is building industries and public utilities from coast to coast, 8 cents is on loans and other mortgages, another 5 cents is on loans to policy holders, 1½ cents is represented by real estate and 3½ cents is in cash and miscellaneous assets.
Life insurance not only grows in the scope of its protection, year after year, but is continually being employed for socially desirable purposes.
A message from the Life Insurance Companies in Canada and their agents.

Details of Royal Wedding

On November 20, at approximately 11:00 a.m. G.M.T., the marriage of Princess Elizabeth to Lieutenant Philip Mountbatten will be solemnized in Westminster Abbey.

The B.B.C. will suspend all its home and overseas programs for two hours to cover the wedding, and will feature a vivid sound picture of the event with commentators in seven languages. Twenty-one microphones installed throughout the Abbey will pick up every stage of the marriage service, including the bride and groom's responses and an address from the High Altar by the Archbishop of York.

The form of service will be precisely the same as that used for any other couple belonging to the Church of England as the King will give his daughter away like any other father in the British Commonwealth.

The marriage will be held in Westminster Abbey, where there have been very few Royal Weddings since 1380.

The following clergy will take part in the ceremony—The Archbishop of Canterbury; Dean of Westminster; The Precentor, C. M. Armitage, The Archbishop of York.

The Dean of Westminster, the Very Reverend Allen C. Don, D.D., meets the Princess at the door of the Abbey and hands the procession to the Altar The Dean will read the Commencement of the Service. The Archbishop of Canterbury, as Primate of the Church of England will marry Princess Elizabeth and Lieutenant Mountbatten, and the Archbishop of York will give the address. The Dean of Westminster will give the nuptial blessing.

For the central part of the service, that is the actual marriage, the form of solemnization of matrimony in the Book of Common Prayer (1549) will be used. The United Kingdom Parliament did not accept the 1928 revision of the Prayer Book. The remainder of the service will follow the form used at the marriage of the King and Queen in 1923 (hymns and anthems).

The words of the Bride's Vow in the Common Prayer include "to love, cherish and obey", and these words will be used by Princess Elizabeth.

There will be no public expenditure connected with the wedding. The church expenses will be paid by the bridegroom in the customary way, and the remainder will come from the King's private purse. The procession will be nothing more than an ordinary State Procession, for which everything that is needed is at hand.

Only about 100 relatives and friends will attend the wedding breakfast which is paid for by the King.

The Agricultural Service Board

R. L. STETSON, Field Supervisor

Winterkist is a shrubby perennial closely resembling ordinary potato sage. As a forage plant it combines the high protein content of alfalfa, the drought resistance of crested wheat grass, the winter hardiness of Hope grasses, and has also alkali tolerance. It is to be found in combination with native range plants.

The Alberta Crop Experimental Station at Lethbridge has been getting promising results from its work with the development of a rapid seed producing strain of winterfat. The hog difficulty has been that present strains produce little seed.

Mr. J. E. Bednall, secretary of the Alberta Crop Improvement Association advises that the association is faced with a difficult situation this year European and other outside markets are demanding all the registered wheat, oats and barley they can supply Greece cannot afford to ignore the market. This means that the association can supply seed to Alberta farmers only if they place their orders immediately.

In determining the weed seed content of grain when you contemplate cleaning for seed, spread it out on a sheet of white paper. Weed seeds, including wild oats, are much more easily detected in this way.

Tests being carried out at the Dominion Experimental Station, Swift Current, indicate that there is a possibility of the sugar beet industry being given some day to the prairie provinces.

A variety of mushroom for the application of substitute chemicals to weeds in grass fields will be on the market in the near future, don't buy them.

The Agricultural Service Board of this district is carrying on in co-operation with the Provincial Department of Agriculture, will be holding meetings throughout the entire district during the winter months. An announcement will be made in next weeks issue of this paper as to when and where the first of these meetings will be held.

NOTABLE QUOTATIONS

Every man has two educations—that which is given to him, and the other, that which he gives to himself. Of the two the latter is by far the more valuable. Indeed, all that is most worthy in man, he has to work out and conquer for himself. It is that which constitutes our real and best nourishment. What we get from others taught, seldom nourishes the mind like that which we teach ourselves.

The sages do not consider that making no mistakes is a blessing. They believe, rather, that the great sinner of man lies in his ability to correct his mistakes and conclusively to make a new man of himself.

Coming Events

St. George's W.A. will hold a Whist and Bridge Party at Mrs. C. H. Williams' house, Tuesday, November 18th, at 8 p.m.

Dance at Partridge Hill Community Hall, Saturday, November 15th. Sponsored by School Children for Christmas Treats. Brownie Orchestra.

The Good Hope A.F.U. Local will hold its regular meeting on Tuesday, November 18th in the school.

Dance at Wye Hall, Friday, November 21. Sponsored by the Ardrossan Community League. Everybody welcome.

Tickets for the Edmonton Quilt to be Raffled by the School P.T. Clubs are to be purchased from Grade X students. Draw will be announced later. 12c

Around the Town

Messrs. Ernie Thorne, Leonard Thorne, Art Sherman, Wilfred Krebs and Eric Thorne left last Saturday for Creston to hunt big game. The party took their own truck and horses along to bring out any game they shoot

Members of the Edmonton Unit are requested to be on mass Sunday when visiting pigeon from the RCMP barracks will come here for friendly games.

Mr. and Mrs. H. Looker spent Sunday with their daughter and son-in-law Mr and Mrs. J. L. Price of Smoky Lake.

We are glad to report that Mrs. Bruce Kinnaird is confined in a city hospital, is much improved. We hope to see her home soon.

Mr and Mrs. Fred Johns of Leduc were visitors at the home of Mr and Mrs. Ben Knowles last Sunday. Mr Johns is the Editor of the Leduc Representative.

Rev. and Mrs. W. D. Rose had at their guest, over the week-end, Mrs. Rose's mother, Mrs. R. Hogg-Wright, who motored here from Victoria, B.C., to make her home in Edmonton.

Rev. Robt. G. Thompson of Edmonton will speak at all the United Church services of the Fort Saskatchewan Pastoral Charge on Sunday, November 23rd. He will also show moving pictures at the Y.P.U. meeting, Sunday evening. Mr. Thompson is the Secretary of the Associated Temperance Forces of Alberta.

Mr. Robert LaPage left Monday for Windsor and Chicago to attend the Minneapolis-Moline Tractor School. He is one among the thirty dealers, in Northern Alberta, who is taking this course.

Mrs. Mich Bitz and Mrs. S. Morrow left Monday morning for Macklin and Lavoder, Saskatchewan to visit with Mr. Bitz's relatives.

Mr. and Mrs. Alex Larose, formerly of Vermilion, who have been visiting with Mr. Larose's mother and father, Mr. and Mrs. Joe Larose, left for a holiday to Vancouver.

Mrs. Paterson and children, who have been visiting her mother and father, Mr. and Mrs. C. P. Bushell, left Monday to make their home in Edmonton.

We welcome to Fort Saskatchewan Mr. and Mrs. J. Harrison who arrived from the city, Saturday, to make their home here.

CHURCH SERVICES

Sunday Services in the churches will be at the usual times with the exception of Clover Bar United Church which is as follows:

Salisbury
Public Worship . . 11:00 a.m.
Ardrossan
Public Worship . . 1:45 p.m.
Namao
Public Worship . . 3:15 p.m.
Clover Bar
Public Worship . . 8:00 p.m.

At the Athletic Club meeting of Wednesday, November 12th, it was decided to make a skating rink at the school providing parents and those wishing to skate, show enough interest and a willing hand. Carl Hennig was named to be in charge of arrangements, as he "is ready to say " Sure I will be there", whenever he gives you a call.

NOTICE

The Fort Saskatchewan Branch of the Canadian Legion would appreciate the loan of films taken of the Remembrance Day Parade. Please take them to the Secretary of the Legion. Leonard Browne.

AGRICULTURAL SERVICE BOARD

Notice of Meetings

The Extension Service of the Department of Agriculture in co-operation with the Agricultural Service Board of the Municipal District of Strathcona, will hold meetings during the coming week at CASTLE SCHOOL, RADOM SCHOOL and BOLTON SCHOOL, NOVEMBER 25, 26 and DECEMBER 1, respectively, at 8:30 p.m.

Pictures, in color, will be shown by M. L. Stetson, illustrating some of the work carried on by the Service Board during the past year. A topic of much interest will be dealt with by R. J. Whitbread.

EVERYBODY WELCOME

Money Raising Campaign Planned By Curlers to Defray Building Costs

A special meeting of the Fort Carling Club was held in the Legion Hall on Monday evening with thirty members and prospective members present.

Mr. Chas. F. Lowe, president, was in the chair and welcomed all present. He stated that the delay in securing the trusses was due to the contractor being extremely busy, but that he had contacted the contractor Monday who said that he would see that the trusses were erected this week.

Mr. Lowe then asked the secretary, Mr. A. B. King, to read the minutes of the last meeting which were adopted as read. The financial statement was then read, showing that to date $2,616. had been paid out on the new rink. $1,180.00 of this money was raised through loans by members and other members. Mr. Lowe stated that between $1,500 and $2,000 was still needed to complete the rink.

A discussion took place on ways and means of raising this sum, and after several suggestions were put forward, it was decided that the canvassing committee make another entreaty to members present to see if no more money with the result that another $500 was added to the pot.

A motion was then made: "That persons leaving the district would have prior claim on the loan shares"

Ways and means of raising additional money also discussed and it was decided to have an Old Time Dance, a Hockey Match and Fancy Shatters, also if the rink is ready before the 1st of the month to have a Farmer's Banquet This will be held on Friday, December 12th, and a committee of the wives of the curlers, at the same date, twenty-one years ago

During the signing of the register, Mrs. Alfred Frey, a cousin of the bride sang "O Promise Me". The bride looked lovely in a gown of white satin. The bodice featured a high neckline with long sleeves. The skirt was gracefully draped over the wrists Small self-covered buttons fastened the back of the gown. The shirt of which fell in soft folds to the floor. Her veil, which was of silk net, hemstitched and slightly gathered, was pleased to hear you are rebuilding the church and I wish to offer you my warm congratulations and pray that your work and worship may be divinely blessed.

Partridge Hill Couple Honoured at Shower

Mr. and Mrs. Bob Moore were guests of honor at a shower held for them by the community on Thursday evening, November 13th.

After a social hour Mr. V. C. Lawrence, as chairman, extended the good wishes of the community to the young couple, he was followed by Mr. George Ophaldon who, in his jovial manner, gave some good advice to the bride and groom on behalf of those present, presented a basket of gifts which was carried in by Jane Krebs, Jane Alton and Gilda Bissell.

After opening the gifts Mr. and Mrs. Moore, in a few well chosen words, expressed their thanks and invited everyone to call on them at their new home in Vermilion. After singing "For They are Jolly Good Fellows" lunch was served.

Mr. John Gordon returned on Sunday from Waskatenau where he visited with his sister, Mrs. Cresswell, last week.

Dorothy Attwood, Margaret Alton, Jean and Herb Mohr attended the opening recess at the Vermilion School of Agriculture, last Friday evening.

The C.C.F. public meeting held in our community hall on the evening of Memorial Day, attended this reporter the opportunity to meet old and new friends of the Josephburg and Ypres Valley district.

The parents and friends of the boys and girls of Franklin School gathered at the home of Mr. and Mrs. Griffin on Saturday evening to enjoy each other's company in a Whist Drive and, at the same time, to increase the School's Christmas Tree Funds. There were 5 complete tables, At the close of 24 hands the winners were Mr. R. Robertson and Miss Jenny Wenzell, while the pair who fought on honorable near guard retreat (though they didn't retreat) were Mrs. Bowles and Mrs. Nettrouer, the latter having played a man's part in the action.

An excellent lunch, provided and served by the ladies, was enjoyed next to the accompaniment of general conversation. Finally, a collection was taken, amounting to $9.30 and bringing the Christmas funds to $10.30.

Before the company separated, plans were made for at least one more such party before Christmas.

The bodice featured a high neckline with long sleeves. The skirt was gracefully draped over the wrists Small self-covered buttons fastened the back of the gown. The shirt of which fell in soft folds to the floor. Her veil, which was of silk net, hemstitched and slightly gathered, was held in place by a beaded tiara. She carried a bouquet of red roses and white mums. Mr. C. P. Bushell was the groom's best man and wore a double strand of pearls, gift of the groom.

Mrs. Simons, Matron of Edmonton Children's Hospital, was the guest of honor. Her gown of pale mauve taffeta was styled with a sweetheart neckline, short puffed sleeves trimmed with lace and matching silk mittens, and matching tiny hat. Her bouquet was yellow chrysanthemums.

Miss Margaret Alton, sister of the bride, was bridesmaid, and wore a gown of pale blue taffeta, also styled with a sweetheart neckline, and short puffed sleeves, with which she wore long silk mittens. Her blue chapel veil was caught with a wreath of blue flowers and she carried pink and white chrysanthemums.

Little Margaret Anne Frey was flower girl. She was gowned in tea-length daffodil yellow taffeta, styled with a sweetheart neckline, tiny puffed sleeves and green velvet ribbon at the waist. She wore a matching pale bonnet, and carried a small colonial bouquet of pastel chrysanthemums.

The best man was Mr. Ken Sweetman of North Edmonton. Ushers were Mr. Don Bound of Clyde and Mr. Nelson Hicks of Edmonton.

To receive the guests, the bride's

Hockey Club Elects Officers for New Year

The annual meeting and election of officers of the Fort Hockey Club was held Tuesday evening in the Legion hall.

The minutes of the last meeting and the financial statement were read and approved. The club shows a balance on hand of $827

Officers elected for the coming year are: Hon. President, J. D McLean; President, J. A. Bowser; Vice Presidents, L. Jones; Secretary-Treasurer, W. W. Sunden. Executive members are: H. Walton, Fred Sherman and Rol McDougall.

A discussion took place re the team playing games in far away towns and it was decided to deal with this matter at the North West Alberta Legue meeting to be held this coming Saturday in the city. Mr. H. Walton and Rev. W. F. Easton will represent the club at this meeting.

The making of ice has already been started and it is expected that the rink will be ready next week.

Josephburg

For the past two weeks a work crew has been busy erecting two annexes at the Pool Elevator, which were dismantled and moved from Lamont. This will increase the storage capacity by 30,000 bushels and bring the total storage facilities of this elevator to 60,000 bushels, it will also ease the congestion, being plugged for the last few weeks, when railway cars were not available.

Miss Leona Miller is employed in the Victoria Hotel, Bruderheim.

Mr. Glen Hicks of Edmonton is holidaying this week at the home of Mr. and Mrs. Gordon Meyer.

Miss Etta Miller who has been attending school from the home of Mr. and Mrs. Ernest Johnston, returned to her home at Hondo, Alberta, last week.

The Happy Gang Club held their first meeting of the season last Thursday evening. The president, Orville Meyer was in the chair. Owing to the absence of the secretary, Mr. Wrinkler filled the position for the meeting.

Plans for a three hour play were discussed, but owing to scarcity of players it was decided to table these plans until the new year.

A discussion took place regarding a New Years Eve Dance, and it is hoped to hear more of these plans as time goes on.

The next meeting will be held Thursday, November 27th.

Messrs. W. J. Unterschultz, C. Unterschultz, E. Cranston, C. Dietrich, G. Meyer and M. Meyer attended the Clover Bar Constituency C.C.F. convention at South Cooking Lake last Tuesday, November 11th.

Messrs. Ernest and Wesley Johnston left Monday for Grande Prairie where they will be employed at bush work for the winter.

Tuberculosis, first cause of death in Canada in 1900, now ranks 7th.

Moore-Alton Wed In Afternoon Ceremony

Parkview Hill United church was the scene of a pretty wedding on Tuesday afternoon, November 11th at 3 p.m. when Lilah Jessie Mae, eldest daughter of Mr. and Mrs. Norman Alton, became the bride of George Robert Moore, only son of Rev. and Mrs. Lambe Moore of Edmonton. The Rev. W. D. Rose performed the double-ring ceremony.

The bride, who was given in marriage by her father entered the church to the strains of Lohengrin's Wedding March, played by Miss Blanche Attwood, cousin of the bride.

The wedding party stood in front of an alcove formed by pink and white chrysanthemums with a large white wedding bell, at the centre of the bride's parents, at the same date, twenty-one years ago

During the signing of the register, Mrs. Alfred Frey, a cousin of the bride sang "O Promise Me". The bride looked lovely in a gown of white satin. The bodice featured a high neckline with long sleeves. The skirt was gracefully draped over the wrists Small self-covered buttons fastened the back of the gown. The shirt of which fell in soft folds to the floor. Her veil, which was of silk net, hemstitched and slightly gathered, was held in place by a beaded tiara. She carried a bouquet of red roses and white mums. Mr. C. P. Bushell was the groom's best man and wore a double strand of pearls, gift of the groom.

Miss Simons, Matron of Edmonton Children's Hospital, was the guest of honor. Her gown of pale mauve taffeta was styled with a sweetheart neckline, short puffed sleeves trimmed with lace and matching silk mittens, and matching tiny hat. Her bouquet was yellow chrysanthemums.

Miss Margaret Alton, sister of the bride, was bridesmaid, and wore a gown of pale blue taffeta, also styled with a sweetheart neckline, and short puffed sleeves, with which she wore long silk mittens. Her blue chapel veil was caught with a wreath of blue flowers and she carried pink and white chrysanthemums.

Successful Card Party Held

A no-host of the Whist Drive and Bridge Party, sponsored by St. George's W.A., was held Tuesday evening with a very nice crowd attending.

The winners of the evening were: Whist—Mrs. R. E. Godlond and Mr. Bert Bridges; Mrs. C. P. Bushelon and Mrs. B. F. Keenan, who took the place as

Officers elected for the coming year are: Hon. President, J. D McLean; President, J. A. Bowser; Vice Presidents, L. Jones; Secretary-Treasurer, W. W. Sunden. Executive members are: H. Walton, Fred Sherman and Rol McDougall.

A discussion took place re the team playing games in far away towns and it was decided to deal with this matter at the North West Alberta Legue meeting to be held this coming Saturday in the city. Mr. H. Walton and Rev. W. F. Easton will represent the club at this meeting.

The making of ice has already been started and it is expected that the rink will be ready next week.

Good Hope

Mr. and Mrs. J. M. Lang and Bobby of Olds, visited recently with their daughter and son-in-law, Mr. and Mrs. Milton Mayer.

Mr. G. W. Mayer attended the Alberta School Trustees Convention in Calgary last week. He is attending the Municipal and C.C.F. Conventions in Edmonton this week.

Mr. and Mrs. Carl Dittrich and family of Ypres Valley visited relatives in Edmonton last Sunday.

Last Friday evening Mrs. Milton Mayer was honored at a surprise birthday party at her home. Many friends called during the evening to extend good wishes.

During lunch, Irene Bushnell carried in a beautifully decorated birthday cake, the handiwork of Mrs. Earl Cranston, while everyone sang "Happy Birthday to You". The remainder of the evening was spent playing games and contests.

Miss Leona Miller is employed in the Victoria Hotel, Bruderheim.

Mr. Glen Hicks of Edmonton is holidaying this week at the home of Mr. and Mrs. Gordon Meyer.

Miss Etta Miller who has been attending school from the home of Mr. and Mrs. Ernest Johnston, returned to her home at Hondo, Alberta, last week.

Messrs. Ernest and Wesley Johnston left Monday for Grande Prairie where they will be employed at bush work for the winter.

Tuberculosis, first cause of death in Canada in 1900, now ranks 7th.

S. Cooking Lake

A simple Memorial Day Service was conducted by the senior pupils of Franklin School during the morning period of Wednesday, November 10th. Fitting choruses, readings, duets and solos were offered in tribute to all those who, by their immeasurable sacrifices, saved us and our Canada from things, evil things, we cannot imagine.

The parents and friends of the boys and girls of Franklin School gathered at the home of Mr. and Mrs. Griffin on Saturday evening to enjoy each other's company in a Whist Drive and, at the same time, to increase the School's Christmas Tree Funds. There were 5 complete tables, At the close of 24 hands the winners were Mr. R. Robertson and Miss Jenny Wenzell, while the pair who fought an honorable rear guard retreat (though they didn't retreat) were Mrs. Bowles and Mrs. Nettrouer, the latter having played a man's part in the action.

An excellent lunch, provided and served by the ladies, was enjoyed next to the accompaniment of general conversation. Finally, a collection was taken, amounting to $9.30 and bringing the Christmas funds to $10.30.

Before the company separated, plans were made for at least one more such party before Christmas.

Reminiscences

The following are excerpts from letters written by former United Church Missionaries.

Rev. George F Driver was ordained in the Fort from 1915 to 1919 From his present posterate at Kimooty he has written as follows:

I was greatly saddened when I first read about your fire. It was during my pastorate that we built the hall at the rear of th church and also remodled the furnace. My memories of those days are quite numerous However, I shall confine my remarks to a few

Our reception at Fort Saskatchewan was one of the nicest we have ever had. The pastorate was spotlessly clean and tea was on the table The ladies graciously retired and left us to enjoy the cheerful surroundings. Our two girls were born there and the people were very helpful, especially Dr Turner. Mr. T. B. McClellan was our organist and was only surpassed by Mr. Bill who was playing the organ when I was doing it. One thing I recall, with great pleasure, was the fine spirit of friendship and unity existing between the members of the congregation. To those who are still with you, who can recall those pleasant days, I offer my sincere good wishes. I am pleased to hear you are rebuilding the church and I wish to offer you my warm congratulations and pray that your work and worship may be divinely blessed.

Partridge Hill Couple Honoured at Shower

Mr. and Mrs. Bob Moore were guests of honor at a shower held for them by the community on Thursday evening, November 13th.

After a social hour Mr. V. C. Lawrence, as chairman, extended the good wishes of the community to the young couple, he was followed by Mr. George Ophaldon who, in his jovial manner, gave some good advice to the bride and groom on behalf of those present, presented a basket of gifts which was carried in by Jane Krebs, Jane Alton and Gilda Bissell.

After opening the gifts Mr. and Mrs. Moore, in a few well chosen words, expressed their thanks and invited everyone to call on them at their new home in Vermilion. After singing "For They are Jolly Good Fellows" lunch was served.

Mr. John Gordon returned on Sunday from Waskatenau where he visited with his sister, Mrs. Cresswell, last week.

Dorothy Attwood, Margaret Alton, Jean and Herb Mohr attended the opening recess at the Vermilion School of Agriculture, last Friday evening.

The year the name Christmas Seal is being used in Canada, U.S., Great Britain, Brazil, Mexico, Jamaica and British Guiana.

Historical Society Seeks More Material

The Historical Society of Alberta which has been quiescent during the war years, has been revived and is anxious to secure source material from every part of the province relating to the early manufactories, fur traders, explorers and settlers of the North and West of Canada. They wish to obtain and preserve narratives in print, manuscript or otherwise of their travels, adventures, labors and observations.

Any material relating to the above may be sent to W. Everard Edmonds, 11461 91st Ave., Edmonton, Alberta.

Mrs. G. H. Turner Feted At Social Evening Fri.

On Friday evening the congregation of St. George's Parish met for a social evening in the Union Hall in honor of Mrs G. H Turner. Mrs. Turner recently resigned as organist of the Parish church, having served in that capacity for thirteen years.

Military Whist was enjoyed by those present. Later a tasty buffet lunch was served by the ladies, in which was honor being portrayed by Mrs. J Carmichael and coffee honor by Mrs. F Spurr.

On behalf of the congregation, Rev. W. W. Sunden presented Mrs. Turner with a gift and a bouquet of chrysanthemums, and thanked her for her many years of faithful service.

West Elk Island

The West Elk Island Community Club which has been idle during the busy season, has resumed activities. The main item on their agenda is the resumption of activities in the skating rink which is now ready for use The official opening of the skating rink will be on Sunday afternoon, November 23rd, with free skating to music for everyone and anyone who wishes to skate.

The next general meeting of the W.E.I. Club will be held Tuesday, December 2nd. Anyone interested in joining the club is cordially invited to attend.

On Sunday, November 16th the Bethany Lutheran Ladies Aid met at the home of Mrs. Wm. Gabert.

The ladies of the W.E.I. Club met at the home of Mrs. Alfred Dupre on Monday, November 17th. They have decided on selling hot dogs and coffee at all hockey games and skating parties.

Mr. E. Naumbert Sr., Clarence and Ed Chandler Hannibel motored to Lloydminster last week to visit relatives.

On Thursday, November 13th, friends gathered at the home of Miss Glenn Fischer to wish Helene Fischer many happy returns on her birthday.

ANOTHER STAN ROSS CONTROVERSY

What's behind the Lassiter land deal? This question is on the lips of Albertans since the day Stan Ross, CJCA commentator, shook the town out in the open.

Some months ago the provincial government launched upon a 300,000 acre land development project for veterans. C. E. Lassiter was contracted to clear the land, the job to be financed by the government on a cents-per-acre crop-share equipment basis.

The other day Lassiter was informed that the deal is cancelled and that all money owing the government must be repaid in a few days. This was all hush-hush until the Stan Ross "newscoops" got on the job. Stan got the lowdown and passed a few awkward questions relative to the recent development of Alberta since the day Stan Ross, CJCA commentator, shook the town out in the open.

Some months ago the provincial government launched upon a 300,000 acre land development project for veterans. C. E. Lassiter was contracted to clear the land, the

Wildlife Oddities

Wildlife oddities of unusual interest are brought to the attention of the Wildlife service of the Department of Mines and Resources in Ottawa from time to time. A bull frog in Quebec that swallowed two ducklings; a hen in Nova Scotia that returned after three weeks' disappearance with a flock of 9 stately wild ducks, a deer in Prince Albert National Park that chews tobacco; a bear with four cubs that visits the ore trains at Jasper; and many others.

The latest report is from Waterton Lakes National Park, where a cutthroat trout taken by an angler from North Lonsdale Lake during September, contained, among other items of food, a chunky mountain shrew. The shrew is a tiny, furry gray mammal, 4½ inches long, that lives chiefly on insects. The trout weighed 1 lb. 6 ozs., was 15½ inches long and was approximately 7 years old. It was quite fat and in excellent condition.

This is the first record, so far as is known, of a cutthroat trout in a national park having been found to feed on a mammal, save the usual diet of this species consists of insects, other invertebrates and small fish. It is also the first recorded in a national park of a shrew species occurring in an altitude of 7500 feet above sea level. The shrew is a terrestrial species, and how it became available to the trout is not known.

Lonsdale Lake, one of a series of five lakes in a beautiful heart-shaped, hanging valley, is one of the most picturesque spots in Waterton Park. As in other lakes in the park, trout of excellent quality are present in considerable numbers, to the delight of visiting anglers.

MANURE A VALUABLE FARM BY-PRODUCT

Manure is a valuable by-product of the farm. It is estimated that more than 160 million tons of manure, exclusive of bedding material are produced each year by the live stock in Canada. In addition to the nutrients in farmyard manure—nitrogen, phosphorus acid and potash—it adds large quantities of valuable organic matter to the soil and improves the tilth of both light and heavy soils.

It should not be overlooked that manure is a highly perishable product, and care, both in storing and spreading, is necessary to get the full benefit from its use.

During the war, the Dominion Department of Agriculture prepared a pamphlet stressing the value of the proper use of manure in the wartime production programs. With the continued shortage of feedstuffs in many countries and the need for high production of farm products in Canada, the best utilization of manure by Canadian farmers is equally as important now as it was, during the war years. The pamphlet, which deals with the care and preservation of manure, methods of applying, its place in crop rotation, the relative value of fresh and rotted manure, is still available. It may be obtained free by writing to Dominion Department of Agriculture, Ottawa: Ask for Wartime Information Series, Pamphlet 27.

Enrolment at the school of agriculture at Olds and Vermilion totals 200 at each place, one third being girls. One hundred boys had to be refused admission because of lack of accommodation.

◆ Recipes for Milady ◆

The rise and fall of the Roman Empire is regarded as an epoch making sequence in the history of the world. It is no more important to the average housemaker than the rise and fall of a cake.

Cake making has not with a considerable estimate in the last few years. It is pretty hard to make a prize cake with sugar, shortening and eggs all reduced Ration Book Economists of the Consumer Section, Dominion Dept of Agriculture say that with a good balance of ingredients and care in mixing and baking, a good cake may be made with minimum quantities of expensive or hard to-get ingredients.

Shortening may be any kind of these, good-flavoured fat When using unsalted fat a small amount of salt should be added.

When using all-purpose flour instead of cake flour in a cake 1 cup less 2 tablespoons less sifted all-purpose flour is used to replace each cup of sifted cake flour For example, of a recipe calls for 2 cups sifted cake flour only 1¾ cups of sifted all-purpose flour should be used.

Now that there is plenty of sugar the very plain cake may be dressed up some, confectioners sugar icing and some of the recipes requiring more sugar be used For those who have a supply of honey which is not quite accept able table one, a spice cake is suggested.

CHOCOLATE ROLL
4 egg whites
1 cup sugar
4 egg yolks
4 tablespoons cold water
4 tablespoons cocoa
¼ cup cake or pastry flour
1 teaspoon baking powder
½ teaspoon salt
½ teaspoon vanilla
1 cup whipped cream
2 tablespoons powdered sugar

Beat egg whites until stiff and add sugar gradually, beating constantly. Beat egg yolks with cold water and blend with first mixture Sift together the dry ingredients and fold into first mixture with the vanilla Line shallow pan (10 inches x 15 x 2 inches) with waxed paper allowing edge if paper to extend 2 ins. above sides of pan. Grease pan and paper thoroughly Pour batter into pan and bake in a moderate oven (350 F.) 15 minutes. Turn out on a damp cloth, remove paper from edges and roll cake in cloth at first fold roll cold cream and spread with whipped cream to which the powdered sugar has been added Re-roll and chill

SPICE CAKE
½ cup lard
1 cup sugar (less 1 tbsp.)
2 eggs
½ cup sour milk
1 cup all purpose flour
2 teaspoons baking powder
½ teaspoon baking soda
1 teaspoon ground cinnamon
½ teaspoon ground cloves
½ teaspoon ground ginger
½ teaspoon salt
1 cup honey

Cream lard well and add honey gradually then add well beaten eggs. Beat well. Mix and sift all dry ingredients and add alternately with the milk. Bake in two 9 inch layer pans at 375° F. for 35 minutes or in a loaf pan 9x9ins. for about 45 minutes at 350°

The Country Editor

By JIM GREENHALF

A trite suggestion in the Vidette-Improvement (Man.): If every elector was given a dollar to vote there would be a 100 per cent turnout Then the dollar could be added to the taxes and the elector would never miss it.

* * *

The Bonnyville, Que., Express says they have a lot of DP's in their own town, people who cannot find a place to live They say that there is a lot of howling in the cities about the housing shortage, no one pays any attention to the dire need in the country.

* * *

It finds it difficult to adhere to sentiment and speak kindly to our neighbors when we have to pay $3 worth of the Christmas Sabbath . . . the other weather of history has been that no salmon and no commodity has received the systematic and copious visitation of this day.

* * *

Several B.C. high schools have instituted courses in automobile driving Commenting on the Shawnigan, B.C. Herald says: Most youngsters learn to drive on the city or on students of supervision ought to be established. We explain why such new generation repeats the driving faults of the last generation By high scores let their heads on reckless driving, and by such methods as the schools by an accredited, scientific course can bring the price, and the there after while emphasizing the importance of sufficient and expert instruction, the high accident rate of other will over the highway.

* * *

The Rocky A'ir Bulletin says it this way: If some influential man in the government pays a visit to the country, he is sure to get there ahead of the committee. The visit coincides with the arrival of the factors of supply and demand throughout the world when the farmer can get what he wants. Then, there are fun times enough for all. Then, there are fun times enough for all. Then, there are fun times enough for all. Then, there are fun times enough for all.

* * *

Lately there has been a pinching on the Sabbath Day says the Inter Times-Advertiser. During the Sunday hours we hear the sound of the hammer and saw, and sometimes the hum of farm machinery. For really know the full worth of the Christmas Sabbath . . . the other weather of history has been that no salmon and no commodity has received the systematic and copious visitation of this day.

World of Wheat

By H. G. L. STRANGE

Director "The Crop Testing Plan"

$2.00 WHEAT ARRIVES

About a year ago a prominent person in Western Canada made the prediction that if the wheat interim market were to remain speculative would soon push the price of wheat up to $2.00, which in turn would rapidly bring about an international.

Well, not only $2.00 wheat but $2.25 wheat has arrived, not push ed up by speculation, but by the sales of the Canadian Government itself and bring the price to the Canadian government, through the agency the Wheat Board. The Canadian wheat to all countries in the world except the United States. At one time, it didn't have an even wheat at the disposal of the government gentleman Frederick Gardiner said: "And I don't know where we are going to get enough grain to meet the demands that are coming from all parts of the world." Mr. Gardiner was then chairman of the Canada Wheat Board. Now he is Canada's High Commissioner to Australia.

Russia has agreed to deliver to France some 16.6 million bushels of wheat from the 1947 crop. This approximately one third of the 50 million bushels sought by France. Britain's wheat requirements from Canada total 80 million . . . per cent of Britain's share the high price.

EVERYBODY'S BUSINESS by Don Graham

When playing many games, you get better results by "following through". And if you want to be successful, you will apply that principle to your job, too.

This means doing a thorough job—seeing that you have done all you can do to make it good before it leaves your hands.

Doing so may involve only some very slight extra effort. Double-checking some measurements, for instance, may be a small matter. And your work won't be apparent. But it may save time and money—the price of errors. And sooner or later people will learn that they can depend on you.

On the other hand, you may have to work hours overtime in order to follow through on some jobs. Or you may need to keep an eye on other operations which are not part of your job but have a bearing on it.

However, if you're really ambitious, you'll willingly go to considerable lengths in order to make every job a really O.K. job!

* * *

The modern life insurance agent not only brings the need for financial security to people's attention . . . he follows through by helping them plan a practical program that is adapted to the individual's requirements.

CROP REGISTERED SEED SALE

In 1947, 110,000 bushels of registered seed were purchased by Alberta farmers with a view to improving the quality of grain grown on their farms. Registered seed bears the stamp of approval of the Canadian Seed Growers Association. It is seed with a pedigree a pedigree tracing directly to pure seed produced by a Canadian University or Experimental station, and increased by expert field growers.

The secretary of the Alberta Crop Improvement Association, J. B. Birdsall, advises that this year the Association is faced with a difficult situation European and other outside markets are demanding all the registered wheat, oats and barley we can supply Need is being moved for export, and greater extent be supported to overload the latter for their crops. This means that the Association can supply seed to Alberta farmers only if they place their order immediately.

In past years over 70 percent of Alberta farmers placed their orders after January 1st, but this year delay will almost certainly result in disappointment. If you want registered seed see your elevator agent now

VALUE OF SUGAR BEET CROP

Southern Alberta sugar beet growers will receive about $14 a ton for their beets this years as compared with $12.05 for the 1946 beet—estimated

The 1947 estimated sugar beet production is 979,00 tons, worth some $6,860,000 Best sugar production, estimated at 16,000,000 lb.

Mr. and Mrs. B. J. Chisholm accompanied by Mrs. Smelser and Mrs. Geary of Lacombe motored to the coast where they joined friends on the cruise.

The community attends to your needs

Friday to Mrs. W. R. Purdy in her recent bereavement upon the death of her mother and father.

Friday Dorothy has returned home from the hospital and is progressing nicely.

A good crowd attended the dance held in the hall Friday night. An enjoyable time was had by young and old.

The monthly meeting of the Willing Workers Club was held at the home of Mrs. W. B. Chamberlain on Wednesday, November 12, with a good attendance present.

The meeting was opened by Vice-Pres. Mrs. Sandford, followed by a very interesting talk given by Mrs. Jackson on The United Nations.

Plans for a wallet dance to be held in the hall early in December were made. Lunch was then served by the hostess.

Wedding Continued

mother wore a royal blue rose point ensemble with black accessories and small feather model hat in keeping tones. She wore pink carnations and pink and white chrysanthemums. The groom's mother chose a brown crepe afternoon dress, featured by a satin panel in soft tones and matching hat and accessories. Her corsage was white chrysanthemums and pastel roses.

A reception to over 200 guests was held in the Partridge Hill community hall.

Miss Rhoda Lawrence of Edmonton and Mrs. Alfred Frey displayed the many wedding gifts. Miss Dorothy Attewell was in charge of the guest book.

The bridal table was laid in cream lace and centred with a three-tiered wedding cake, embedded in vases of pink and white and white button chrysanthemums.

The tea table was laid in white linen, centred with a silver of pink and white asters and mounting tapers. Pouring tea were Mrs. J. A. Allen of Lamont and Mrs. Frank Smith, both aunts of the bride. Cutting the tea was Mrs. R. E. Swetnam of Vermilion, in charge of serving were Mesdames L. E. Hicks, J. W. Attewell, Cliff Allen, Geo. Osbaldeston and G. Frey. Those attending the bridal table were Miss Nancy Allen and Miss Grace Smith, cousins of the bride, and Miss Margaret Hodges, bridal servitrean included friends of the bride and groom.

Mrs. D. Rae was toastmaster. Toast to the bride was proposed by Dr. J. A. Allen, to which the groom replied. Other toasts were proposed by Mrs. C. H. Plaskett of Edmonton, Mr. Harold Allen, Lamont, and Mr. Wm. Osbaldeston, Partridge Hill.

For away the bride wore a dusty rose, all-pink crepe dress topped with a fur-trimmed coat of dusty rose and off-the-face hat in matching shade. Her accessories were black and she wore a corsage of pink roses.

After a short honeymoon in Edmonton, Mr. and Mrs. Hooven, who are both 1947 graduates of the Vermilion School of Agriculture, will take up residence at Vermilion, where the groom is foreman at the school farm.

Out-of-District guests came from Vermilion, Lamont, Edmonton, Heath, Lamont, Wainwright, Calgary and Saskatoon.

Around the Town

Mr. and Mrs. R. O. Wilkinson (nee Lois Wilson) are receiving congratulations on the birth of a daughter, born Wednesday, November 5th at the Royal Alex Hospital.

The St. George's W.A. will hold their meeting at the Rectory, Wednesday, December 3rd at 8 o'clock.

Mr. Fred Shilton accompanied by his son Elvin, left last week for Vancouver where they will visit relatives and friends.

Miss Ada Williston's appointment has been accepted at St. Paul's Hospital, Vancouver. She commences per training in January's time.

The regular meeting of the United Church W.A. will be held at the home of Mrs. Selby Thorne, Wednesday, December 3 at 2 p.m.

Mr. and Mrs. C. D. Jones have as their guest, for the next two weeks, Miss Barbara Shaw of Vancouver, B.C.

Mr C. H. Whiteman who has not been well for the past few weeks, has gone to the General Hospital for a checkup.

Miss Otile McKinnon of Victoria, B.C., has been a guest, for the past week, at the home of her parents, Mr. and Mrs. A. McKinnon of Fort Saskatchewan.

Mr. and Mrs. S. Whiteon of Ahsmbala, Alberta are visiting for a few days at the home of Mr. and Mrs. C. H. Whiteman.

On behalf of the Ladies' Auxiliary, Mrs. Frey Berg made the presentation to Mrs. Osbaldeston and Mrs. Morgan Alton and congratulations going to Mrs. W. Alton and Mr. Ed. McKnight.

On Sunday, November 23rd, Dr. Gossage will be the guest speaker at the Anglican Church Service at 11 a.m. Holy Communion will be held at 10 a.m.

The evening service of First United Church on Sunday, November 30th will feature one of a set of lectures under the "Church in the City Streets". Other services of the day are as usual. The lecture slides will be shown at Partridge Hill Church on Monday at 8:00 p.m. Rev. Shaw owns and operates the lantern.

A very enjoyable afternoon was had last Sunday when approximately seventy members of the R.C.M.P. Badminton Club visited the Fort for a series of friendly games.

Mrs. T. W. H. Henry did an excellent job of refereeing the games which resulted in many hard fought battles with honors fairly divided.

Coffee was served during the afternoon by the club members under the supervision of the social convener, Mrs. R. P. Knowles.

Mr. John Lupul attended the Dominion Government Poultry Judging School at Olds from November 3 to 7 inclusive.

Mr. and Mrs. Dave Roberts, Secretary-Treasurer of the Municipal District of Strathcona who was re-elected Secretary of the Alberta Association of Municipal Districts at their 26th Convention held in the Macdonald Hotel [illegible]

Farewell Party for Mr. and Mrs. G. Frey

On Tuesday evening, the eve of their departure from this district, Mr. and Mrs. Geo. Frey were guests of honor at a social held in the Partridge Hill Hall.

On behalf of the community, a number of those present expressed their appreciation to Mr. and Mrs. Frey for the help they had given in the district.

As a token of remembrance, Mr. and Mrs. Frey were presented with a tri-light lamp. They thanked everyone and assured them that the kettle would always be on and invited them to call for a social cup of tea.

Everyone joined in and sang "For They are Jolly Good Fellows".

Progressive Whist was played during the evening with honors going to Mrs. George Osbaldeston and Mr. Morgan Alton and consolations going to Mrs. W. Alton and Mr. Ed. McKnight.

The evening was brought to a close with the singing of Auld Lang Syne.

Mr. and Mrs. Frey have made their new home in Fort Saskatchewan.

Mr. and Mrs. U. Osbaldeston spent the week-end visiting friends in the district.

About 75 persons attended the supper last Friday night, sponsored by the W.A. Following the meal Rev. W. D. Rose and Mr. Jack Shaw [illegible] lantern slides which were greatly enjoyed.

School classes for grading and marketing of poultry, held last week at the packing houses in [illegible]

Come in and see what nice things we have, or order from our new catalogue. Our wholesale list is one of the best in Canada and the prices are reasonable. L. D. von Hffland. adv1.2

Re-Elected 'Ass's Secretary

Mr. Dave Roberts, Secretary-Treasurer of the Municipal District of Strathcona who was re-elected Secretary of the Alberta Association of Municipal Districts at their 26th Convention held in the Macdonald Hotel [illegible]

M.D. Council Meeting held Nov. 10

The council of the Municipal District of Strathcona, No. 20 held its November meeting on the tenth and eleventh, with all members in attendance.

Business commenced with the adoption of the minutes of the previous meeting and the Financial Statement for the month of October.

Mr Moper reported that no settlement had yet been arrived at concerning gravel obtained from the Fischer pit, but that negotiations were still being carried on.

Mr Schiewe and Mr Adamson reported that in company with the Secretary-Treasurer they had met Mr R. C. Marshall, Alberta Concrete Products at the site of the district's gravel bar on the river to investigate the proposition of doing the gravel with the company which Mr Marshall had expressed the desire to exploit. They reported to the Council the terms which Mr Marshall had proposed, namely, that he would stock pile for the district's use twenty per cent of all gravel obtained from the bar.

After going very fully into the question, the committee recommended that in view of the scarcity of gravel for road purposes in the district, and the inadequate sum which would be obtained under Mr. Marshall's proposal, that the Council decline to enter into the proposed agreement. The Council concurred in the committee's [illegible]

The Reeve, reporting on the matter of erecting Cenotaph in Recreation Ground, advised that a committee meeting was being held that evening, at which the board matter would be settled.

The committee of the Council appointed to investigate the appeal of H. Lambert against the amount of damages claimed to have been done by his cattle horses, reported that an inspection had been made of the stacks of hay reported damaged and it found that he damage had been discovered [illegible] the assessment of the claim be referred to the owner of the impounded animals.

Mr J. Pitt, proprietor of Josh's Confectionery was in attendance to lodge a protest against the manner in which the grader operator of Rod removed the shale from the west of his store.

Later in the afternoon the Council visited the site in question and [illegible] Mr. Pitt's contention was found to be without good basis.

The Secretary reported that Mr Lenders had called in at the office and requested him to advise the Council that he is not prepared to offer an entry into his land for the purpose of widening the ditch after this year, unless the Council is prepared to pay him for the full amount of the cost of constructing the ditch Mr Lenders also referred to the published report of the minutes of a previous meeting, when the word "deepening" was used and which should have read "widening".

The Secretary also reported that Mrs. Gardiner had instructed him to convey to the Council her objection to having any work done on the ditch if it meant the flooding of her land.

In view of the conflicting opinions expressed, the Secretary was instructed to take the matter up with the Director of Water Resources and report back at the next meeting.

West Elk Island

The opening of the W.I. skating rink on Sunday, November 23rd will be a happy occasion with everything good ice and fine music. A large crowd of enthusiastic skaters spent an enjoyable afternoon and also the evening skating.

The ladies of the club supplied the hungry skaters with coffee and hot dogs garnished with onions and mustard.

Sunday afternoons and evenings as well as Wednesday afternoons are the scheduled skating nights.

Hockey practices have been scheduled for Monday evenings, if any hockey minded boys are interested please be on hand, you're always welcome.

Don't forget the general meeting of the W.I. Club on Tuesday, December 2nd at the Memorial hall.

Mr. and Mrs. Adolf Gobert, Mrs. Wm. Gobert and Margaret spent the week-end visiting relatives at Bloomsbury.

Mrs. Robert Hare and Pearson spent an enjoyable week-end visiting relatives at Sherwood

On Monday, November 24th a large number of friends and relatives met at the home of Miss Clara Phelps to wish her many happy returns on her birthday. The evening was spent playing whist.

The winners at whist were Mrs. Bill Dunkle for the ladies and Mr. George Coolenger for the men. Consolation prizes went to Mrs. Ben Thomas and Irwin Thomas.

It has been decided that the Christmas party will be held on December 19th at the hall. Each pupil is permitted, if they so desire, to invite two friends.

The Executive has decided that a Year Book will be published this [illegible]

The census cards are very slit—sent time, and we are waiting (patiently?) for our report cards.

The Hendon Unit visited the school Wednesday.

Margaret (Marcia) Ivy Robinson, born November 20, is a tall blond, blue eyed, grade 11 beauty, loving books but "Hate" Math, with colors, horses, the color blue and new shoes of stockings following closely. Among her dislikes are cowboy shows and chores. She is appointed to investigate the amount of damages claimed to have been done by her cattle horses, reported that an inspection had been made of the stacks of hay reported damaged and it found that he damage had been discovered [illegible] the assessment of the claim be referred to the owner of the impounded animals.

Mr J. Pitt, proprietor of Josh's Confectionery was in attendance to lodge a protest against the manner in which the grader operator of Rod removed the shale from the west of his store.

Later in the afternoon the Council visited the site in question and [illegible] Mr. Pitt's contention was found to be without good basis.

The Secretary reported that Mr Lenders had called in at the office and requested him to advise the Council that he is not prepared to offer an entry into his land for the purpose of widening the ditch after this year, unless the Council is prepared to pay him for the full amount of the cost of constructing the ditch Mr Lenders also referred to the published report of the minutes of a previous meeting, when the word "deepening" was used and which should have read "widening".

The Secretary also reported that Mrs. Gardiner had instructed him to convey to the Council her objection to having any work done on the ditch if it meant the flooding of her land.

In view of the conflicting opinions expressed, the Secretary was instructed to take the matter up with the Director of Water Resources and report back at the next meeting.

Continued on Page Two

Bremner

Over one hundred friends and relatives gathered at the home of Mr. and Mrs. Wm. Schreter to bid farewell to Mr. and Mrs. C. H. McGhee who have resided here for a number of years and their absence will be greatly missed in the neighborhood.

Mr. and Mrs. McGhee were presented with a coffee table, Alfred a Parker pen and Misses Rita and Ruth Schreter with a chesterfield couch. Lunch was then served and best wishes extended to the family for every success in their new home.

Mr. and Mrs. McGhee and family left Saturday morning by car for their new home.

The lady members of the Two by Two Club gathered at the home of Rev. and Mrs. Johnston and spent a very enjoyable hour over the tea cups. A basketball shower was presented to baby Linda Carol on behalf of the club members.

Congratulations are extended to Mr. and Mrs. R. G. Bulwer on the birth of a son, Allan Robert, born November 6th at Lamont Hospital, also to Mr. and Mrs. Robert Alexander on the birth of a daughter, born November 5th.

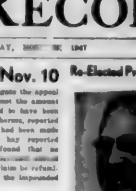
The monthly meeting of the Clover Bar U.F.A. and U.F.W.A. was held at the home of Mr. and Mrs. L. Myers. Considerable business was discussed and plans made for winter activities. The annual meeting will be held at Mr. and Mrs. G. R. Marler's home.

"Somethings" "Nothings" "What do you do?"
"I keep house, serub, scour, bake, wash dishes, cook, do the laundry, iron and sew."
Then the census taker listed her: "Housekeeper—no compensation."
Seems as her ambition is to become a secretary.

Jim Rolph was born August 8, 1931 in Lamont. He tells us his likes are dancing, skating and skiing. His one dislike is quarling girls (!?) His secret ambition is still a deep dark secret. (Time will tell, he tells us.)

Christmas Seals are Due.

Re-Elected Pres. N.W.H.L.



Mr. A. B. King, re-elected President of the Northwest Hockey League for a third term.

Four Teams in North Section Hockey Loop

The annual meeting of the Northwest Hockey League was held in the Y.M.C.A. Building, Edmonton, Saturday night. Representatives from seven clubs were in attendance. It was decided to divide the League into two sections, the winners of the two groups to play off for the League Championship and the MacKay Cup, which is now held by Calmar.

Registration date for clubs was set at Monday, December 1st. The following teams are now expected to form the League: Thorsby, Calmar, Stony Plain and Leduc in the south. Meanwhile, Namao, Fort Saskatchewan and the North Edmonton will represent the north.

Mr A. B. King, was re-elected President for a third term, Bill Alton of Thorsby, Vice President and Rodge Algaugh of Leduc, Secretary-Treasurer for a third time.

Rev. W. W. Buxton, Mr. F. H. Walton and Bill Oliver were delegates from Fort Saskatchewan.

Bud Williston Awarded R.E.M. for War Service

At a special ceremony at R.M.C.A. Nanoose on Monday morning, at which friends and relatives were present to witness the investiture, Leading Stoker Amistead Bud Williston, Navy Veteran of World War II, was presented the R.E.M. by Rear Admiral E. R. Mainguy, Commanding Officer, Pacific Coast.

Bud was decorated for his devotion to duty in Europe, termed as "Meritorious Service".

WORTH REPEATING

A small Fort boy (grade one) when quizzed by an older on the reason for last Thursday's school holiday, replied with the naivety and sublime disinterest of a small boy, "I think the principal is getting married."

The U.S. Govt. is expected to ask farmers to plant approximately 6.5% more land to livestock feed grain next year in an effort to replenish supplies cut short by the year's corn crop.

Reminiscences

The following are excerpts from letters written by former United Church Ministers.

Rev. Dr. M. S. Kerr was minister at the Fort from 1917 to 1926. He is now retired, and moved this fall from Vancouver to Toronto. Just before moving, he wrote this letter:

It was most kind of you to invite me to send you some reminiscences of my pastorate in Fort Saskatchewan. I had not finished my college course when I received a call to the Presbyterian church there. How strange are the ways of Divine Providence! I had intended to return to Scotland after graduation, but that call changed all my future.

I was ordained in the old church by the Edmonton Presbytery, Dr McQueen being the leading part in the ceremony. Among ministers present was Rev. George Driver, pastor of what is now the Methodist church. For two years I carried on alone until I was married. I have always looked on that as a couple-up—a church alone, but my wife tells me she evolved just in time to save the church from ruin!

Our marriage was one of the highlights of my ministry. We often look at the photo of our guests, the whole congregation, and recall the wonderful kindness of our congregation on that occasion.

What a home that old manse was! It had six outside doors, and underneath it were subterranean caverns in which provisions, coal, potatoes, etc. could be obtained in a snap, might be stored. For years no one had ever entered them, and when I lifted one of the trap doors I understood why enclosed "This is the Black Hole of Calcutta!" There was not an ounce of ventilation in the whole building, which extended by grafts-tions to what seemed like half a mile. In the one cellar, that was in use, there was no room to store any coal, so I carried the coal from the garage, through the passageways, through the kitchen, through the dining room, through the hall, way down the steps under into the cellar. We were so young and happy that it never occurred to us to complain.

Oddtimers will recall that there was only one garden between us and the railway station. From our windows we could see the tracks crossing the bridge or hear it approach from the east, sometimes long before it emerged to travel we never rested till we had to. This meant racing across the garden. Once Mrs. Kerr's sister was with us and the usual race took place. My wife jumped on the train as it just passed us. Immediately the train began to move. She went along the corridor and jumped off, right on the top of the cowcatcher. Then she fell flat on his back on the platform. The train moved on, until it was discovered that it was minus the conductor, then a lad was made to retrieve him. My wife graciously dusted him down, in a more apologetic fashion than when she dusted me down, and "All aboard" was called for the second time by the con-

LEGION MEETING

The regular meeting of the Fort Saskatchewan Branch No. 27 Canadian Legion B.E.S.L. will be held in the Legion Hall.

Tuesday Dec. 2nd at 8 p.m.

All members are requested to be present.

AGRICULTURAL SERVICE BOARD

Notice of Meetings

The Extension Service of the Department of Agriculture in co-operation with the Agricultural Service Board of the Municipal District of Strathcona, will hold meetings, starting week of BOLTON SCHOOL, MONDAY, DECEMBER 1st, MANSFIELD SCHOOL, FRIDAY, DECEMBER 5th at 8:30 p.m.

Pictures, in color, will be shown by M. L. Stetson, illustrating some of the work carried on by the Service Board during the past year. A topic of much interest will be dealt with by R. J. Whitbread.

EVERYBODY WELCOME

Radiograms

WELL ABOVE AVERAGE

The monthly report by Elliott-Haynes survey once again reveals the national popularity of program in order of popularity are Happy Gang, Ma Perkins, Big Sister, Pepper Young, Right to Happiness, Life Can Be Beautiful, Road of Life, Chairs Wesbitt, Lorenzo and Laura Limited.

Evening programs are listed as follows:—Lux Radio Theatre, Charlie McCarthy, Mother and Mother, Fred Allen, Gunsmoke, Amos 'n Andy, Charlie Chan, Bob Hope.

Amber, Take It or Leave It, Kraft Music Hall and Bob Hope.

All ten daytime programs are on CJCA as well as the top six plus the sixth program on the evening list.

Of the 17 listed programs rated on a national rank, CJCA's ratings on 10 far exceed the national average; three are slightly below and four are about the average. Only six programs are listed as failures.—Lux Radio Theatre, Charlie McCarthy, Mother and Mother, Fred Allen, Gunsmoke, Amos 'n Andy, Charlie Chan.

In the daytime schedule the picture is equally impressive with eleven heads, one transcription and one network show enjoying a "top rank" rating, based on the Elliott- Haynes national report.

M.D. Minutes Con't

Cooking Lake property owners committee was held together with the minutes of their last general meeting. The Council declined to accept their request for a credit of $25.00 to purchase stamps and stationery as the minimum would not approve of disbursements made in such a manner

Mr Wm. Pehaba was in attendance to urge the Council to do the necessary work on his road in order to prevent a flood condition in the spring. He intimated that he to flood conditions in the spring he had been compelled during past spring seasons to travel additional miles to get to his market.

After considering the request a motion was carried that the account be paid.

During the afternoon the Council entered to inspect the district's machinery and the work of laying a concrete floor in the building.

All members of the Council were appointed as official delegates to the Annual Convention of Municipal Districts.

Arrangements were made for the holding of the Annual Meeting and the election of Councillor for Division No. 5.

It was decided to hold the Annual Meeting in the Community Hall, Fort Saskatchewan, on the third Saturday in February, 1948.

Mr H. Lotten was appointed as Returning Officer to conduct the elections.

With the passing of payments and accounts and the reading of sundry correspondence, the meeting adjourned at 5:30 p.m.

World of Wheat

By E. S. L. SPRARGUE

Director "The Crop Testing Plan"

The "Crop Testing Plan" has now compiled the analysis of a large number of growing samples of barley, and samples representing a field of barley which farmers thought in every instance was true-to-type and which was found to be contaminated the malting premium. The results are as follows: 70.5% of the samples classified as "A". That is to say they were true-to-type of a good variety; 17.6% classified as "B" meaning that these grains were beginning to be mixed with inferior varieties, and 11.9% graded "C" and "Rejected" which means that they did not consist of any one variety, but were mixtures of varieties which certainly could not grade as malting barley. 5.6% of the samples were found to be of an entirely different variety than the farmers thought they were growing. O.A.C. was the most popular variety with 40% of all the samples, Peatland with 21%; Olli was third with 14%, and Hanchen and Montcalm fourth and fifth respectively with 8 and 3.2%

The results show a considerable improvement over last year when only 54% graded "A". There is, however, still room for betterment. The use of registered seed is the only method that will ensure a crop true-to variety.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The third official estimate of Canada's wheat crop now places production at 340,000,000 bushels for all of Canada, compared with 420,415,700,000 bushels harvested last year. Production on the prairie provinces is now placed at 315 million bushels or 74 million bushels below last year's crop of 389 million.

The third official estimate of China's 1947 rice crop places production at 2,854 million bushels, slightly above last year's 2,800 million bushels.

The Test of Neighborliness

Dynamic Minorities Are the Achilles Heel of Democracies

by R. J. DEACHMAN

The real test of a neighbor lies in our approval or disapproval of his propensity. Is there any other country, other than the United States, which the average Canadian would prefer as a neighbor? There are always, as a question of this kind, some cranks who love to express a divergent opinion yet I doubt if there would be many in Canada who would be willing to exchange the United States, as a neighbor, for any other country in the world.

The virtues of the American people are obvious. They are kindly and generous. If some sudden disaster were to strike this country they would be among the border with beautiful aid almost as soon as it happened. Their immense wealth enables them to express their feeling with a magnificence impossible in any other country. It would be difficult to over-estimate the great advantage of neighbors such as this upon [illegible] ed southern border, speaking the same language, dynamic as either war or peace and distinguished alike by the kindness of their minds and the goodness of their hearts.

Despite these facts, I am, I think, right in pointing out some other peculiar weaknesses in the political and economic existence of the American people. Their attitude in matters of foreign affairs sometimes time may make it impossible, from their own point of view With their greater wealth and stronger economic position the advancer should come from them and he made not in a spirit of hard bargaining but by frank admission that while both would gain from greater freedom of exchange, America, as the larger nation,

What You Should Know about TRAVEL RATIONING

Why?

Canada's supply of U.S. dollars will no longer stretch far enough to permit all the purchases of goods and services or all the travel in the United States that has taken place in the past. It is, therefore, necessary to reduce our expenditures of U.S. dollars in many different ways. As one of these steps, the Government has decided that the use of U.S. dollars for pleasure travel spending must be reduced. To ensure this reduction in a way that is fair to all, an annual "travel ration" has been established. As in the past — a Form H permit is required by anyone holding out of Canada more than $10 U.S. or more than a total of $25 in Canadian and foreign currencies.

Pleasure Travel

Regulations now provide that the maximum amount of U.S. dollars which any Canadian resident may obtain for pleasure travel purposes is $150 per year. In the case of children of eleven years and under, the amount is $100. There is no restriction on the number of trips on which this annual allowance is not exceeded. Any U.S. dollars obtained for one trip and not used on that trip must be brought back to Canada and exchanged for Canadian dollars at a bank immediately on return. No credit for these funds can be allowed against the annual ration for subsequent trips.

Personal Purchases of U.S. Goods

A Canadian tourist should remember that the new restrictions apply to imports from the United States covers his personal purchases there. He may not bring back any merchandise which has now been prohibited or which may only be imported on a quota basis. The list of goods covered by the new import restrictions is an extensive one. Tourists contemplating any particular purchase in the United States would be wise, before leaving the country, to ask Canadian Customs Officials if the purchase will be admitted.

A Few **Christmas** Gift Suggestions

For ladies and girls . . .

Dresser Sets

A good selection for the Christmas shopper. Choose one. It is bound to please. Lovely designs and soft colors. 3-piece and 5-piece sets, $3.45 to $24.75.

NYLON HAIR BRUSHES $1.50 to $5.95

POLISH AND MANICURE SETS

A gift every woman loves to receive. In smart leather cases. Prices range from 50c to $12.50.

Toilet Water and Colognes, 50c to $5.00
Perfumes 35c to $12.00

Make her supremely happy this Christmas. Choose one of these nationally known cosmetic sets—a gift that she'll truly appreciate

Adrienne Sets, $1.00 to $20.00
Richard Hudnut Sets, $3.00 and up
Cosmetic Sets for the Junior Miss, 50c to $2.00
Cashmere Bouquet Sets, 75c and up
Max Factor Hollywood Sets $4.95 to $11.35
Tuya, imported Sets, $5.25 up

COMPACTS, $1.95 AND UP

We have a varied number of styles in lovely white and yellow metals. Make your selection now for best choice.

WOMEN'S QUILTED PARKAS

Keep out the chilly winds with one of these quilted parkas. They have plaid linings and fur collars. Priced at $12.45.

WOMEN'S STADIUM BOOTS

Just what's needed for winter weather. They're made of rubber and are Fleece lined, at only, pair $4.95.

Nylon Hose

New shades in a good range of sizes, pair, $1.40 and $1.65.

WOOL GLOVES AND MITTS

These well made finely knit gloves and mitts will keep your hands warm. They're plain and checked patterns and priced at, pair 95c, $1.25, $1.75 and $2.65.

HANDBAGS

Put one of these on the Christmas Tree for her. Styles of many kinds in black, brown and navy colors. Priced from $4.95 to $12.45.

For men and boys . . .

Men's Scarves

We have a fine assortment of scarves to choose from. Plain and fancy patterns, some with fringed ends. Priced at $1.95, $2.45, $3.00, $4.00 and $5.00.

Men's Dress Shirts

Striped Patterns in a good range of sizes. Priced at $2.45 and $2.75.

Men's Dress Gloves

Give him a pair of these fine grained Horsehide or Cabretta Dress Gloves. Priced at $2.95 and $3.75.

Wool Windbreakers

Men's two-tone wool windbreakers, each $10.25.

Suede Jackets

Just what Dad would like for curling. Colors of dark or light brown, each $19.75.

Men's Dress Socks

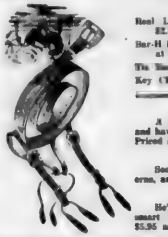
These are always a timely gift. We have many patterns to choose from in various weights of wool. Priced at, per pair, 55c, 95c, $1.35 and $2.25

Hickok Belts

Real Leather Belts Initial Buckle, at $2.50, $3.00 and $3.50.

Bar-H Belts with Silver Buckle and Tips at $1.50 and $2.00.

Tie Bars ..... $1.50, $2.00 and $2.50
Key Chains ..... $2.00 and $2.50



MEN'S PARKAS

A gift any man will be proud to wear. They are khaki color and have fleece hoodsets, also detachable hoods and are warmly lined. Priced at $21.95.

MEN'S WOOL OVERSHIRTS

See these G.W.G. wool overshirts in a variety of checked patterns, and a good range of sizes, each, $7.45.

SMITHBILT AND LEWIS HATS

He'll have that dressed up feeling when he wears one of these smart hats. A good choice of colors and all sizes. Priced at $5.95 and $6.95.

Gifts for All The Family

MEN'S AND LADIES' WATCHES

◆ Recipes for Milady ◆

What shortcut turns a cake to bone a few weeks ago "sugar cutting is off?" With that came of frustration that prevented the making of favorite desserts, sugar and spice, the first thought was that no one could bake to build a sugar supply maximum. Command came over rode the idea and we realized that the upkeep would consist of the usual rather make or dessert.

All authorities on nutrition have repeatedly made the statement that, prior to rationing, Canadians had been eating much more sugar than necessary. During those five years we have been trained to appreciate fruit and beverages for their fine natural flavor, unmasked by sweetness.

His home economists of the Dominion Department of Agriculture have brought out of their files many desserts that have been carefully put away for several years.

* * *

APPLE UP-SIDE-DOWN CAKE

½ cup butter
½ cup brown sugar
—
½ cup butter

½ cup white sugar
1 egg
½ cup molasses
1 cup all-purpose flour
2 apples
1 teaspoon baking powder
½ teaspoon soda
½ teaspoon salt
1 teaspoon ginger
½ teaspoon cinnamon
½ cup boiling water

Melt ½ cup butter in baking dish add the brown sugar and cook together. Pare and core apples. Cut each apple in half to make two thick rings. Arrange rings of apples in butter and sugar mixture. Cream ½ cup butter. Add white sugar and cream well together. Add well beaten egg and molasses. Beat thoroughly. Sift dry ingredients and add to mixture. Lastly add boiling water, mixing quickly. Pour over apples in baking dish and bake in moderate oven 350° for 45 minutes. Serve plain.

* * *

CREAM PUFFS

2 tablespoons butter
1 cup boiling water
1 cup sifted all purpose flour
1 cup plus 2 tbsp. sifted pastry flour
¼ teaspoon salt
3 eggs

Put fat and water in a saucepan and heat until fat is melted. Mix flour and salt and add all at once, stirring vigorously until mixture forms a ball in the centre of the pan. Remove from heat, cool slightly and add unbeaten eggs, one at a time, beating thoroughly after each addition. Mixture should be stiff. Drop by spoonfuls, onto a greased baking sheet and bake in a hot oven, 400 degrees F., until puffed and golden, about 15 minutes. Reduce heat to 275 degrees F., and continue baking until puffs are firm, about 30 minutes. Cool, slit and fill as desired with whipped cream, custard or fruit filling. Makes 12 puffs.

NOTE: If using butter, omit salt.

* * *

CHEESE BEEF

2 tablespoons cocoa
2 tablespoons cornstarch
1 cup sugar
Pinch of salt
1¼ cups boiling water
1 egg yolk
1 teaspoon vanilla
1 egg white
½ cup whipping cream

Mix cocoa, cornstarch, sugar and salt. Add boiling water and cook, stirring constantly, until mixture thickens. Remove from heat. When cool, fold in vanilla, stiffly beaten egg white and whipped cream. Pour into sherbet glasses. Chill. Six servings.

Shifting our responsibility can make democracy lose balance.

This man is easy to meet...

AND GOOD TO KNOW!

Here is your bank manager. Serving you is his job—and he is as proud of serving you well as you are proud of your own work.

If you need credit for business or personal reasons—talk things over with him. He will respect your confidence. His knowledge and experience, with the whole organization of the bank behind him, can provide for you a wealth of information on conditions in Canada and elsewhere too, if you need it.

Your bank manager is easy to meet—and a good man to know!

WINTER HOUSING OF LAYING PULLETS

Three main principles are desirable for the permanent winter housing of laying pullets: 1. a concrete floor, 2. at least a quarter of the south wall glass and a good curtain, 3. a straw loft above a slatted ceiling. For prairie conditions, the walls of the house should be insulated as the house is started or banked with straw that the building is practically wind-proof, particularly on the north and west.

A concrete floor is desirable as a sanitary measure as it can be washed and disinfected more satisfactorily than a wood or earth floor. If a liberal quantity of chaffy litter is used and changed as necessary to keep dry, the concrete floor is satisfactory even for litters scratched.

Glass is important to admit sunlight and heat. Many houses are too dark for winter conditions, and shorten the day for the laying stock. Special glass to admit vitamin D from the sun is not needed now as the vitamin in the fish oil used in its feed.

Cotton provides ventilation without cold in windy weather, and and in mild weather some of the cotton may be opened during the day by having the frames hinged at the top to permit their opening to the ceiling. By this means, additional ventilation may be had if admitted and ventilation is improved.

Slatted ceiling and straw loft take care of much of the moisture in the air and help to prevent the collection of frost on the walls. The birds will continue laying normally during reasonably cold weather if the house can be kept from becoming too moist. A damp, frosty house indicates inadequate ventilation or insulation or both.

At the Scott Station some experimental work has been done in the ventilation of a laying house 20 feet wide and 50 feet long, but to date the house 16 feet wide have been easier to keep dry in severe winter weather.

* * *

SEED THE SHARP SLOPES TO MEADOW

The owner of many a steep sloping field has the option of seeding it down to meadow or seeing it gullied to ribbons.

About 1926 a smooth hillside, now included in the Dominion Experimental Station at Beaverlodge, Alberta, showed signs of developing ditches down the almost imperceptible runways. Year by year the shallow drain deepened as more black soil washed away, more gray sub-soil appeared and more ruts were left strewn on top. The owner saw that if he continued cropping this field to grain, erosion would soon ruin it. Eight or nine years ago he seeded it, without nurse-crop, to a mixture of about 1 lb. of common brome grass and 5 pounds of alfalfa per acre. The field has cut from half a ton to

New Salt Plant Under Construction at Elk Point

Alberta's own independent salt plant now under construction at Elk Point some 20 miles south east of St. Paul is well on the way to completion, states M. M. Porter of Calgary, president of the recently formed Alberta Salt Co. Ltd. Through this wholly owned subsidiary, three of Alberta's largest independent oil companies expand their activities to develop an other natural resource in the West. The three companies are Anglo-Canadian Oil Co. Ltd. and Home Oil Co. Ltd. with head offices in Calgary and the C. & E. Corporation, with head office in Winnipeg all are western companies, active in operating in the West and concentrating their activities in developing the West.

Through the enterprise of these three companies, which instead of disposing of their properties to outside interests, chose to develop them, the West, for the first time now has its own wholly Western owned Western managed salt supply.

Two salt wells have already been completed at the plant. Also three natural gas wells. And the main building, the power unit, and the salt evaporation plant, are practically completed. These buildings are of steel and brick construction. The salt evaporation plant, being three stories, with a total area of 12 acres. This the building in which the brine, pumped from company's wells, will pass through the various stages of evaporation. By scientific control and regulation of these stages the company will produce a cowhide box, from fine free flowing table salt to the coarser salts for farm and industrial use. Also salt bocks for livestock. Both plain and iodized salts will be produced.

Atlas Tires, Tubes and Batteries

Don't take chances with worn-out tires . . . Replace your car or truck with Atlas Tires, we have them in all sizes.

NOTICE TO VETERANS

YOUR APPLICATION FOR VETERANS INSURANCE SHOULD BE IN NOW

If you were discharged prior to February 29, 1948, your application for Veterans Insurance must be accepted by February 29, 1948. If discharged after February 29, 1948, the application must be accepted within three years of the date of your discharge.

MEMBERS OF VETERANS INSURANCE

Available to most ex-service men and women who were in the armed forces on active service between September 10, 1939 and March 31, 1947, and who were discharged or released from the forces under conditions other than dishonourable.

THOSE WHO ARE ELIGIBLE

Among those eligible are all members of the Canadian Active Service Forces, Regular Army, Reserve Army, Air Force, Navy, Nursing Sisters, Auxiliary Services, Merchant Navy and Special Operations, drafted in respect of war disability pensioners.

Timely Farm Notes Continued

almost completely stopped. The meadow stand is still good and the seasonal crop was taken in 1946.

"Alfalfa may be introduced by Alberta farmers," Mr. Porter said. "Would yield a greater monetary return to farmers than grain farming or mixed farming and in disaster, for the gullies cut by running water would not be used as the fields by passers-by. Also it would extend into the flat land because it, requiring some of the finest and most arable soils, would be free from destruction from the hopper land. A strong alfalfa situation would mean all farmers cutting and drying the moisture that finds upon it. This preserves hay or pasture. When the hillside meadows needs renewing the attention is to plough only half the slope at a time and to seed it promptly back to meadow.

Permanent agriculture means the clothing of steep lands with meadow and with forest. Over grazing, at least, meadow is likely to be more profitable than forest and probably more effective in erosion control and in soil building.

DECEMBER SURVEY

Many farm organizations throughout are making use of information supplied by officials of provincial Departments of Agriculture, Universities, Experimental Stations and other services. Within the next two or three weeks the farmers of Canada will themselves have an opportunity to provide information.

The December Live Stock and Poultry survey conducted by the Dominion Bureau of Statistics will soon be under way. Thousands of farmers across Canada will receive forms with requests for information. The world Food and Agriculture Organization depends upon the Bureau to supply up-to-date information on Canada's Agricultural industry. The Bureau in turn depending on your co-operation. Survey forms will be mailed around the last week in November. Your co-operation in completing and returning your form promptly will be appreciated.

GOOSE BREEDING ON THE FARM

In these days of labor shortage, it is surprising that more farmers do not raise a flock of geese each year, says A. G. Taylor, Poultry Division, Central Experimental Farm, Ottawa. Raising geese on the farm requires little cash outlay and comparatively little labor. The two essentials to success are present on the farm as another side. They are, free range, and plenty of green feed.

Housing geese is not an expensive item, as any place that will keep them out of the snow and free from draughts is satisfactory. They require no special feeding, and will eat any kind of coarse grain. Bulk of their feed should be in the form of green feed such as cabbage, mangels, clover or alfalfa hay which has been cut early and is well cured.

Geese are not so readily subject to disease as hens or turkeys and gosslings are hardy and grow rapidly. The only special care they require is for about a week after hatching time, when they should be kept dry and moderately warm. The breeds of geese best adapted to farm conditions and market requirements are the Toulouse and Embden. The Toulouse is grey in color, the Embden is white.

Sometimes mixed breeders are better than very large specimens. Breeding geese should be selected about the middle of November or before harassing for market economy. The best market for geese is the Christmas or New Year trade or when the weather is cold. Geese feed better on concentrates when the temperature is below freezing and about three weeks feeding will put them in prime shape for killing. A bulletin on Goose Raising may be obtained from the Immediate Department of Agriculture, Ottawa. Ask for publication 511—Geese Raising.

Reminiscences Con't

doctor, who was really a good sport. Later when he would see Mrs. Kerr on the train he would look away and say "Jump now if you want to."

I had another memorable experience in that old manse. One day I received an urgent call to go to Edmonton, but the daily train had passed through and the roads were blocked so that my car could not get through. Dismissing, I set in my trusty cutting a sermon on the text, "Can any good thing come out of Nazareth, Lord?" I could tone all the freight trains go by but none going east, so I gave up looking. I heard a train stop at the station, and considering preoccupied me till Ian and took out the window imagine my surprise to see it was a passenger train. Rushing, I made the usual race across the garden and jumped on it just as it was moving out. It was full of soldiers going to Alberta and had just stopped for water. Needless to say this incident supplied a very apt illustration for my sermon the following Sunday.

It was on the old manse that I had my first marriage. I had filled out the papers in the study, and thoughtlessly had left them there when we went into the dining room to perform the ceremony. With the party was a small child who started rummaging in the study, and eventually reaching the kitchen, literally had I began to read the marriage lines. I looked around and I had left the papers with the parties' names in the study. What every was I to do? Without my marriage and here I was going to make a mockie of it. Was my face red? Fortunately, I had memorized, there was a head search in the kitchen, followed by resistance wail. As from the manse papers. "The child, the child," I cried. "We must see what has happened." While the parties ran to the kitchen I ran to the study and secured the papers. They all apologized to me for the unseemly interruption, and I graciously accepted them. I did and mind a bit.

Every other Sunday I preached in the pulpit up to about 1914. I was assisted in this section by Mr. Brigham. She was a most remarkable old lady. Through rain and sunshine, storm and snow, she never once failed me. I hear her and her horse and buggy with a great gratitude. Anxious to make a good impression on my first visit I asked the people to dress up. Imagine my dismay when I turned the corner of the church and drove my to find it was "Held the Fort, for I am coming." I shall never forget the grim smile which they sang it, but they were not to be denied my for my more reluctance, though later on a prisoner asked for sermon. I was pleased to be able to see what it was and found the chorus was, "Clear the darkened windows, and let the Spirit in, and the blessed sunshine in." By this time I was getting hardboiled and did not succumb. However, I was asked anyone to accompany me to the jail, but one Sunday a good-looking man came to church and sang. During the sermon some prisoners began to pass something to him, which I thought was a note unknown, but I was no policeman, and the preacher was there to cope with that. So the good lady began to frown and shake her head. Thereupon the prisoners began to make the most grotesque and funny faces at her. Finally my preacher, how I got through my sermon I don't know, only that noticed the number of visitors for all time coming.

We had and dogs at the Fort, too, for there was a pack of them. One Sunday morning when telegrams arrived telling of a death in Fort Saskatchewan. That morning I could not preach the sermon I had prepared—only gave some broken words of comfort to the bereaved parents. Among those to whom and failings came was Mr. and Mrs. R. Walton. Mr. Walton was a fine Christian man and highly honored elder in our church. The funerals of these dear friends of mine have always strengthened me greatly in that harvesting hour.

When I was at the Fort I was chaplain of the local Boy Scout Troop, commissioned by Oscar Lo—— One day I was surprised to see before I left by presenting me, at Oscar's instigation, with a big Testament. Considering all the Bible. Recently I added all my Shakespeare books, but that book I never shall sell. It has been the most useful book in all my library, and I want Oscar to know how much I have appreciated it all through the years.

When you read these rambling notes we shall be in Toronto, just now we are in the midst of packing and preparing to move to join our daughter in Toronto. Though still further removed from you by distance, we shall not be much removed. When one of the English queens died she said Calais would be written on her heart. So shall it ever be with us and Fort Saskatchewan. We commend you all to the loving care of our Heavenly Father and give you all the consolation that we used to give you when we were with you. I shall read "The Lord bless you and keep you. The Lord make His face to shine upon you and be gracious unto you. The Lord lift up His light of His countenance upon you, and give you peace."

SCHOOL LUNCHES

Teachers with the health and happiness of their pupils at heart will be interested to learn that a film-strip is available in Canada, showing simple ways of planning a program of children's midday meals at school.

This aid to teaching and to good health may be obtained through provincial or municipal health authorities. It is entitled, "The Good School Lunch."

Film on Weekly Paper Being Made

The vital role of the Canadian weekly newspaper in the life of the community and the nation now will get recognition on the motion picture screen. A film, still unfinished and currently in the stage of being edited, is to be produced by the National Film Board depicting the important position held in each community by the weekly paper.

When released, the film will be available to film councils and film libraries and to being distributed by the National Film Board to weekly newspapers in the Dominion—a process that could result in confusion and defeat the purposes of the film if the production will center around a single publication and use it to tell the story of all weeklies. Norman Parker, NFB director and his production team spent several weeks filming the personality and machinery of Vernon, B.C., concentrating on the Vernon News. The News, well-known to all weekly publishers and editors, was elected as representative of all Canadian weeklies. Release dates for the film have not been set.

THE FORT RECORD

Reminiscences

The following are excerpts from letters written by former United Church Ministers.

Rev. Arthur H. Rowe was in the ministry at Fort Saskatchewan in recent letter. He recalls many of the people and happenings associated with his ministry in Fort Saskatchewan during the years 1919 to 1922.

We met at Fort Saskatchewan the [illegible] of the Fort. Everybody knows by me at any new pastorate The Town Band was marching and playing with its fine and accustomed air. We were greatly lifted, especially as we had been rather tired. We had been faced with the threatened strike of freight-handlers and the consequent unwillingness of the railways to accept our freight for shipment. We had also come over by Model T passenger service from Edmonton and Hardcastle a rather longer trek than now appears, in those days of speed and more speed. That thrilling, inspiring band did give us cheer. Some time later I heard a report that we had reached the Fort on a Sunday. Anyhow the music of the band was uplifting!

Some of the finest memories, aside from the individuals, recall from those days of a quarter century ago, and more, are The Joint Young People's meeting, the Partridge Hill, in conjunction with that fine Christian gentleman and minister, Rev. G. W. Langille, then living at Ardrossan, and combining with me in leadership of a Y.P.S. that was formed long before church union took place.

Our Y.P.S. Dramatics Club of Fort Saskatchewan Methodist Church did excellent service in the church and to the young people, with its most acceptable plays and musical light operas. We could always have music with the McClellans, Buchanans, Mr. Rowe and others. We had always a comedy man and sometimes a villain in Jack McLean, who could always back in the spotlight. We did not worry over money nor histrionic accomplishment either when we needed that sort of help and we had Reg. Hanson. And every one happy gang of devoted young folk we had then—I hope now there are no good ones, as probably there are!

The Tonic Square that was interchurch, and had every fellow as Wallace Foster, Langley, Jones, Andrew and Kelly Walker, Gerald Bullock, Donald Sutherland, Harry Widman, Donald Blythe and the Reiss boys. One summer we went camping to Elk Island Lake and the lads had everyone amused with the parrot at the Supervisor's home to which we were invited for entertainment one evening. Then wonderful what things the bird discussed with eagerness as he surveyed the boys. That was one of my finest groups of fine fellows!

Mr. George Hanson helped me build a fence around the church and parsonage grounds. Afterwards while I was painting it, William Osbaldeston came along looking unhappily for threesmen to complete that good harvest in his area out there. The minister volunteered, to the boss's surprise, and went along to the finish. While fieldpitching on that big outfit, and while wilting round in the sunshine how those Partridge Hill pie-makers used to encourage the pastor by bringing along 90 degrees at a time of luscious butterscotch, lemon or pumpkin pie—even beyond and above the usual lunch! Mr. Hanson helped the minister dig a new well behind the parsonage, and one afternoon while George was remiskeying, he let the rope slip through his hands on the windlass. A bestiality of clay from eighteen feet down, which had been at the pulley, came suddenly past the face of the narrator down to the new well, and he had to exhort his good comrade not to throw mud at him in that manner! The elderly brother was profuse in apologies.

After the good Fort baseball team had beaten a team of local boys in Edmonton, one Larry Thomond had made them all out of his capable pitching hand, they decided to even matters in a return game at the Fort. Very secretly they signed up a pro pitcher from the Edmonton Western League team, lately disbanded. This lad had been the fastest pitcher of the old AA Western League with Jersey City. When the Edmonton lads arrived at the Fort one afternoon the minister was returning from country calls out north of the river, and Larry said, "Come on over to the park, Mr. Rowe." After supper, the minister went, and was greeted into service, by the Fort team was man short in the opening innings. Larry connected once and one of the fast pitches hit the minister's hat. Those were the only times the lambs hit anything that afternoon. After that Larry used to say, "Well, you and I are the only ones who hit him!"

One might go on, and he might quote happily recalled things from our Boys' Camp at Elk Island, and some of the finest and best are not numbered on this good earth now, and their going was too sad for feelings to be agitated unduly. Those were good times, but for God's people there is always the abundant future. God bless you every one!

Christmas Seals save lives.

Lady Carlers Elect Officers for New Year

The Ladies' Curling Club held their first meeting of the season at the home of Mrs. C. P. Bradshaw to discuss business for the coming year.

Election of officers for 1947 and 1948 took place with Mrs. Bradshaw, President; Mrs. Allanach, Vice President; Mrs. T. Bell, Secretary-Treasurer; Mrs. Shackleton, Draw Committee; Miss Helen Reay, Mrs. Richardson, Mrs. Melville, Mrs. Dennis, Entertainment Committee.

Ten Indies would like to hear from any person who would like to curl this season. Please get in touch with Mrs. T. Bell.

The meeting was brought to a close with a dainty lunch served by the hostess.

Leduc Girl Wins Gov.-General's Medal

Miss Evelyn Elsie Schmidt of the Strathcona School District is the winner of the Governor-General's Bronze Medal for the year 1947. This medal is awarded each year for the Grade IX student with the highest standing in the Departmental Examinations in the school districts and in competition with the 320 students who are enrolled in this examinations. For the current school year, Miss Schmidt is enrolled in Grade X in the Leduc High School.

Four other students to receive the "H" rating were Andrew Allan Black of Fort Saskatchewan, Clifford Branch Elsner of Upton Valley School, Elizabeth Allan of East Clover Bar School and David Jones of East Edmonton Base Line School.

Good Hope

The Happy Gang held their regular meeting on Thursday evening, November 27. It was decided to cancel the New Year Eve dance this year. Names were drawn for Christmas presents. It was also decided to buy a bond with the club's savings. The next meeting will be held Thursday, December 11th.

Mr. Earle Cranston was very much surprised last Saturday evening when a party of young folks gathered to celebrate his birthday.

Games and contests of all kinds proved enjoyable entertainment for all.

At midnight Mesdames C. Dittrich, D. Bechtold and M. Meyer served a very dainty lunch. Mrs. Carl Dittrich made the birthday cake which graced the centre of the table.

To bring the evening to a fitting climax, everyone joined in singing, "Happy Birthday to You".

Mr. and Mrs. George Rae of Edmonton were week-end visitors at the home of Mr. and Mrs. A. Brant.

The regular A.P.U. meeting will be held Tuesday evening, December 9th in the schoolhouse, when the delegate will report on the annual A.P.U. convention which is being held in Edmonton this week.

Mrs. E. Meyer of Edmonton is spending this week with Mr. and Mrs. Melton Meyer.

Mr. and Mrs. H. King of Spedden, Alberta, spent last week-end with Mr. and Mrs. Milton Meyer.

All the members of the executive of the Good Hope Women's Institute arrived at the Fort one afternoon last week to interview the minister concerning the matter of a new well behind the parsonage, and one afternoon while George was remiskeying, he let the rope slip through his hands on the windlass. A bestiality of clay from eighteen feet down, which had been at the pulley, came suddenly past the face of the narrator down to the new well, and he had to exhort his good comrade not to throw mud at him in that manner! The elderly brother was profuse in apologies.

After the good Fort baseball team had beaten a team of local boys in Edmonton, one Larry Thomond had made them all out of his capable pitching hand, they decided to even matters in a return game at the Fort. Very secretly they signed up a pro pitcher from the Edmonton Western League team, lately disbanded. This lad had been the fastest pitcher of the old AA Western League with Jersey City. When the Edmonton lads

Firemen's Annual Banquet And Smoker Declared 'Blazing' Success

Over thirty five were present at the Annual Banquet of the Fort Fire Brigade held Wednesday evening in the Fort Hotel included in the program were two songs by Mrs. A. A. Wilkins (Chairman of the Local School Board on behalf of the members, expressed appreciation to the Council and Fire Brigade for the invitation extended them.

Following the banquet the members held a smoker in the Legion Hall. All joined in a sing song led by Henry Lamoureux accompanied by Carmel Abraham at the piano. Short speeches were given by several men of the town. There also piano solo by Wilf Lamoureux and others.

Several members were called on for impromptu. They expressed their appreciation of the banquet and smoker which would [illegible] enjoying them. Mayor [illegible] Lamoureux on behalf of the members.

School Board Gives Resume Year's Work

The Substantial Meeting of the Custer Hall School District No. [illegible] held on Monday evening, November 24th, 1947. Mr. [illegible] was well represented but Subdivision No. 6 which includes the Fort had no representative present.

Mr. H. Hennig was re-elected unanimously as Board Member for Subdivision No. 1 for another term. The present Board Member for Subdivision No. 6 Mr. E. A. Bouque of Fort Saskatchewan has one more year before completion of his two year term in office.

A resume of the year's work by the Board was heard and the financial statement [illegible] Mr. [illegible] Treasurer. Mr. T. Holt; Secretary Mrs. A. D. Smith-Educational Secretary, Mrs. I. Browne, Little Helpers Secretary, Mrs. Stannard.

It was shown, by the reports of the activities of the organization, that a very successful year was had.

Funeral held for William Osbaldeston

Services were held Tuesday afternoon, December 2nd at Partridge Hills United Church for William Osbaldeston, who passed away Saturday, November 29 at the age of 69 years.

He is survived by three sons, Albert and George both of Fort Saskatchewan, Albert of Vermilion; two daughters, Mrs. Robt. Ah of Edmonton and Miss Elizabeth Osbaldeston of Fort Saskatchewan; one sister, Mrs. Thomas Boell of Lansing, Michigan; 10 grandchildren and 2 great grandchildren. Rev. W. D. Race officiated and interment took place in Fort Saskatchewan cemetery.

Mr. Osbaldeston came to Partridge Hill district in 1900 from Fairview Dale, Ontario, and farmed there ever since. He is one of the district's real old timers and his passing will be greatly missed by his many friends and neighbors.

Makes Presentation to Rev. and Mrs. W. D. Race

Following the United Church choir practice held Wednesday evening, Mr. Chas. Galloway, on behalf of all the choir members, presented to Rev. and Mrs. W. D. Race, a chenille bedspread in appreciation of the assistance they have rendered.

Rev. Race, on behalf of himself and Mrs. Race, replied fittingly, thanking the members for their kindness.

Refreshments were then served which brought a very enjoyable evening to a close.

MORE FEED GRAINS NEEDED

The U.S. department of agriculture in a address farmers in that nation to plant 156 million acres to corn, oats, barley and grain sorghums for the 1948 crop. This total 92 million acres is to be under corn.

The 1948 wheat goal in U.S. is 75 million acres.

The dept. would recommend a smaller acreage but it anticipates a demand for food in part of world.

INOCULATION CLINIC HERE

The Inoculation Clinic for Fort Saskatchewan will be held on Wednesday, December 17th, from 10:30 to 12:00 a.m.

The offices of the Edmonton Rural Health Unit will be closed from Wednesday noon, December 24th to Monday, December 29th.

S. Cooking Lake

Our Community Hall is now comfortable in the winter underpinning which has been added a few weeks ago and is well prepared for all the winds that blow. Prominent among the many noticeable features recently added are: a quite business-like stove, a well-built kotch chimney, a kitchen, a check room, and a balcony for the orchestra and spectators. Congratulations to builder Joe Sorbord, to the small but loyal committee who helped him through many a cold day, and to all who have contributed in any way whatever to the erection and completion of our Community Hall.

A wedding dance on Wednesday night, November 26th, gave the newly-completed building a fitting house-warming. The happy couple are Walter Machel of Leduc and Violet Madeleine of Douglas. The marriage ceremony, of which we have not the details, was held in [illegible].

The Annual General Meeting was held on the Friday evening following. After the adoption of the minutes, read by Secretary-Treasurer Wm. Millard, President Joe Sicbud called for nominations for members of the executive for 1947-48. The following were elected: President, Joe Sicbud, (returned to office in spite of his wish to give place to another); Vice Presidents, Messrs. Henry Uglow, Frank Gibson, and A. Gibb; Secretary-Treasurer, Mr. Wilson, succeeding Mr. Millard, who begged leave to resign.

The second card party in support of Franklin Christmas Tree was even more popular than the first. Eight decks of playing cards, fickle in fortune as always, kept 32 players animated and socially entertained through 24 hands, when the winners were declared: Mrs. Robt. Bell and Mr. Frank Gibson. The consolation prizes went to Miss Mary Wesniuk and Mr. Robt. Bell.

Then followed another socially happy event—the timely lunch, provided and served by the ladies. (Perhaps some evening the men will demonstrate what their talents are in this function.) The generous collection raises our Christmas Funds to $28.05.

Around the Town

Mrs. Winfield is visiting with friends in the east.

Mrs. Anne Black left by plane on Monday for Grande Prairie to visit with relatives.

The Fort Young People will hold a skating party on Sunday night, November 7th, at 8. There will be music and a lunch will be served after skating.

The School P.T. Class wishes to thank the community for a very generous support of their raffle and to announce that the draw will be made Friday, December 12, the evening of the school party.

Dr. R. M. Bacon returned home Tuesday night from the Toronto Royal Fair, having been sent as Alberta entrant in Angus Heifer and Senior Yearling Bull classes. Mrs. Bacon has been away a month.

Mrs. Jos Carscadden, who has been in poor health for the past two weeks, is reported to be steadily improving.

The Women's Institute will hold its regular meeting in the United Church Hall, Wednesday, December 10th, at 2 p.m. A full attendance is requested and members are asked to bring small articles for a bazaar table. Bridge will be played during the afternoon and visitors are welcome.

Mr. Chas F. Lowe, Mr. Jim Banks and a number of farmers around the district attended the Massey-Harris 100th Anniversary celebration held in the city Tuesday.

Mrs. A. Stetson, who suffered cuts, bruises and shock in a recent accident, is reported to be progressing favorably.

Dr. and Mrs. T. W. E. Henry have as their guest, Mrs. Henry's mother, Mrs. J. M. Hutton of Toronto.

Mrs. Bourg Stetzler, who has been confined to hospital for the past month, arrived home last week-end and is now much improved.

Mrs. Harry Peters has now moved into the Fort for the winter and is residing at the home of Mr. and Mrs. George Cranston.

We wish herewith to extend an error committed in last week's Record.

In the Council Briefs it was stated that a check for $25 was received from Parker Motors, a donation for fire fighting equip-

United Church W.A. Installs New Officers

The annual meeting and election of officers of the United Church W.A. was held Wednesday afternoon at the home of Mrs. Selby Thorne.

The reports covering the 1947 activities of the organization showed that a very successful year was had.

The following officers were installed, all were re-elected by acclamation with the exception of the secretary Honorary President Mrs. R. M. Bacon, President, Mrs. Wood Sherman, Vice President, Mrs. L. O'Brien, Secretary, Mrs. R. Rasmussen and Treasurer, Mrs. B. B. Smith.

The W.A. wish to thank all those who gave donations and in any way helped to make their year so successful.

Local Men Return From Successful Hunt

The Thorne Brothers, Eric of Morinville, Leonard of Edmonton, Ernie of the Fort, Art Simmons and Will Krebs of Bruderheim returned last Sunday evening from one of the most successful hunting trips they have ever experienced.

Though hunting was difficult due to lack of snow, each man was able to fill his bag limit. They report that moose are also plentiful this season.

Due to lateness of fall, the moose had not thought out town in enticing numbers.

The boys say they are going back next year and hope they will have a snowstorm enough to again get their limit.

Assistant Fort Patrol Officer Ward has now moved into Fort.

The editor expresses his regrets.

Another in the series of Card Parties, sponsored by St. George's W.A., was held Tuesday night at the home of Mrs. C. H. Williams. A successful evening is reported with the following winners. Bridge: Mrs. W. A. Johnstone, 1st playing as a man, and Mrs. W. A. McLellan Whist; Mrs. E. S. Taylor, 1st prize, Mrs. Gedlund, playing as a man.

Come in and see what nice things we have, or order from our new catalogue. Our Fur Service is one of the best in Canada and the prices are reasonable. L. D. and Ifflund. 2-adv.

The U.S. government, through the Commodity Credit Corporation has purchased a billion bushels of grain during the last two years. The bulk of this has been exported.

Machine Age Now Affecting Aussie Hens

The beginner of the queer poultry-man—dirty eggs through the hens trampled on them with muddy feet—comes to be an ally on Australian farms as in Canada. So the Egg Board of Victoria offered £500 prize for a test that would clear the egg before the hen could muddy it up. As a result, the Board's office in Melbourne now got shattered up with an array of models, each of them calculated to upset the equanimity of even the most solid hen, says the Australian Home.

One model incorporates a draw-bridge, guard-rails, collection box, and conveyor belt. As soon as the hen lays an egg, it rolls down a chute to the conveyor belt. The hen must cross the drawbridge to leave the nest. Her weight causes the drawbridge to drop and not to motion the gears which carry the egg along the conveyor belt and into the collection box. Some models, says the Herald, utilize sound contacts and hearpins. Others are masterpieces of the mental-mother's art.

BIG CARESFUL

An unique apparatus the danger of fires in farm houses overcome. Such an occurrence should be avoided at all costs as it imperils human life as well as causing property loss.

The use of coal oil and gasoline is a startling fires is proven to the most common cause of farm fires. He fire should ever be started with these dangerous fluids. It may take a minute or no longer to start the fire in the ordinary way, but the risk is greatly minimized.

The first launch with T.Trans-Pacific Mail Sale was held in 1947 in the 30 years since, the death rate From Streptococcus has been cut from 80 to 60 per 100,000

Christmas Mail for the United Kingdom

A record shipment of mail, largest ever to leave a Canadian port, was served to the United Kingdom on the Canadian Pacific cargo-passenger ship Beaverford which sailed from Montreal for Liverpool November 22nd with 10,756 bags of parcel post, in addition to 30,350 bags of regular cargo, including the heavy dunkhead of bags, sheets shoes, and 25 passengers. In the above picture, the last bags of mail in the record shipment, which totalled 600 tons, are being stowed 102,410 cubic feet of space, were being loaded. The mail, a large part of which is made up of Christmas parcels, is packed 25 feet deep in the hold

The Agricultural Service Board

R. L. STETSON, Field Supervisor

For the information of those ratepayers who may be interested in registered or certified seed grains we submit the following prices list as supplied by the Department of Agriculture. Prices cover seeds and freight prepaid to any railway point in Alberta.

Variation	Grade	Price per Bu. Delivered
Wheat		
Marquis, Thatcher, Red Bobs, Garnet.	1st Gen. Reg. No. 1	$6.25
	1st Gen. Reg. No. 2	$5.00
	Registered No. 1	$4.50
	Registered No. 2	$4.25
Oats		
Legacy, Victory, Banner, Eagle Ajax Lorain	1st Gen. Reg. No. 1	$2.75
	1st Gen. Reg. No. 2	$2.50
	Registered No. 1	$2.25
	Registered No. 2	$2.00
Barley		
O.A.C. 21, Newall, Trebi, Titan, O81, Sanalta	1st Gen. Reg. No. 1	$2.25
	1st Gen. Reg. No. 2	$2.00
	Certified No. 1	$2.75
	Certified No. 2	$1.50
Flax		
Redwing, Bison, Royal	Registered No. 1	$3.00
	Registered No. 2	$7.75
	Certified No. 1	$7.50
	Certified No. 2	$7.00
Manitoba	Reg. No. 1 or 2	$5.00
	Certified No. 1 or 2	$3.00
Warrior	Certified No. 1	$3.50
	Certified No. 2	$2.50

Minimum quantities for preparation of freight must be 6 bushels of wheat; 12 bushels of oats; 8 bushels of barley and 6 bushels of flax.

Major-General Kennedy, chairman of the Eastern Rockies Forest Conservation Board in addressing the Alberta Association of Municipal Districts Annual Convention, a few days ago made some very significant statements. He asserted that although Alberta is a comparatively new province the waste of her forest resources has proceeded at an alarming rate and more cure would have to be exercised in the future. He reminded us of the various benefits of our forest's aside from the lumber we obtain from them. Our forests are an agency in preventing extreme flood conditions and maintaining the level of the water table in wells. They prevent erosion. They provide a habitat for wild life and a place of recreation for our people.

Dealing with the preservation of the fertility of our agricultural resources, Major-General Kennedy stated that one cubic foot of soil in the province of Ontario weighs 75 lbs. as much today as it did originally due to depletion of organic matter. This is a very significant fact and should be taken seriously by those of us who have land under our care in the newer sections of Canada.

When the danger signals of increased weed infestation, decreased grain yields, erosion from either wind or water begin to appear, it is time for us to think about diffusion, soil utilization. Legumes, grasses, the return of all our straw and other trash as well as manure wherever possible, to the soil, are all sound practices. Increased weed infestations and decreased yields are synonymous.

At the recent Manitoba poultry conference held in Winnipeg, the consensus of opinion seemed to be that only through high egg production and the most efficient management methods on the part of producers, could the industry survive the present period of readjustment.

To cure feather pulling, in the laying flock, increase hopper space and feed chopped alfalfa, soaked overnight, all the birds will eat.

SENTINELS OF SCIENCE

Sentinels are posted at the very threshold of biological science, so that Canadians may live better, safer and longer. Soldiers of disease-prevention guard the quality and safety of everything we eat and drink and even of what goes into our drugs and medicines.

National Health watchdogs in laboratory, on inspection staffs and in administrative posts work with provincial, municipal and rural health authorities, with the specialist and the scientific engineer in his field, to ensure a healthier Dominion.

NIBBLES AT NOON

Health authorities have a special message for the business girls. In order to work properly and to enjoy life more fully, they should know that the noon-day meal is as important as a substantial breakfast, which helps start the day right.

"Girls, don't make it just a soft drink and a tasty sandwich," the experts plead. "A good lunch should include hot dishes, when available, with milk, meat or meat alternates, fruit, especially Vitamin B bread, vegetables and fruit." There is just no value in a mere nibble at noon.

Bread rationing is to continue in Great Britain for another two months at least. Such rationing has reduced flour consumption by ten per cent.

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plot"
PEACE OF COARSE GRAINS

Under the International Wheat Agreement, which lifted on January 31st, 1947, and those grains were put back on the open markets, farmers who are selling oats and barley have received from 30 to 50 cents a bushel more than they did under the government ceiling prices. Eastern feeders of livestock, particularly of hogs, are protesting vigorously against these increased prices of Western coarse grains. They are having difficulty, they tell us, in feeding hogs at a profit with present selling prices for hogs as translated by the Canadian Wheat Board. Eastern farmers who have specialized on hogs are pressure on Canada.

No there Eastern feeders are demanding that the low government ceiling prices shall be put back. This, of course, may be all very well for Eastern feeders, but it would be tough and hard on our prairie producers of coarse grains who greatly appreciate the increased returns.

There is, of course, a much simpler and better way to remedy the situation which is for the government to increase the price of hogs that are being sent to Britain. After all it was the government and not our farmers which made the contract. Why should our prairie farmers alone subsidize hog hogs to Britain?

Farmers who with present high-er prices on coarse grains do receive the situation which is for the government to increase the price of hogs that are being sent to Britain. After all it was the government and not our farmers which made the contract. Why should our prairie farmers alone subsidize hog hogs to Britain?

Farmers who with present high-er prices on coarse grains do receive the situation which is for the government to increase the price of hogs that are being sent to Britain. After all it was the government and not our farmers which made the contract. Why should our prairie farmers alone subsidize hog hogs to Britain?

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Argentina's wheat production is now estimated at 184 million bushels, some 22 million bushels below last year's production of 206 million bushels. The exportable surplus is expected to amount to 75 million bushels.

Under a recent agreement Australia has undertaken to supply France with 50 million bushels of wheat over a period of five years, including 9 million bushels of wheat from this year's crop. The price is to be based on the cost of American wheat, C.I.F. French ports; shipments are expected to begin at the end of November.

The Country Editor

By JIM GREENBLAT

In these days of distorted thinking and wishful thinking we can think of nothing better than to depart a little from the usual weekly bill of fare to regret just two short items which appeal to us as clear thinking to straighten out some confused thinking. The first is from the editorial pages of a current issue of Kiwanis magazine and is entitled, just, "Private Enterprise." Here it is:

Joe was out of a job, but undismayed. He bought a bucket, a brush and a squeegee and went down Main street asking for windows to wash. He washed them well; he was courteous and he was dependable. In a few weeks he had to hire an assistant. Today he has 20 men working for him and is making twenty thousand a year. Is that too much? Should the government come in and regulate his business?

Bob was an inventor in a small way. dog wells. He thought up an improvement for a pump. After he got it patented, he started making it on a small way to sell locally. It was a good improvement; he built a plant and began making pumps. That shop now employs a hundred people and he is making money hand over fist. Is he making too much? Should the government come in and regulate his earnings?

Harry started a small grocery store in a little town. The town grew and he was courteous to his customers and needed. He added on, as his grocery store grew with the town and he opened a second store in the other end of town. Because he kept prices down and courtesy and service up, he soon commanded the public business of that town and became a wealthy man. Did he deserve his success? Should the government come in and regulate his business?

Bob was an inventor in a small way. dog wells. He thought up an improvement for a pump. After he got it patented, he started making it on a small way to sell locally. It was a good improvement; he built a plant and began making pumps. That shop now employs a hundred people and he is making money hand over fist. Is he making too much? Should the government come in and regulate his earnings?

Harry started a small grocery store in a little town. The town grew and he was courteous to his customers and needed. He added on, as his grocery store grew with the town and he opened a second store in the other end of town. Because he kept prices down and courtesy and service up, he soon commanded the public business of that town and became a wealthy man. Did he deserve his success? Should the government come in and regulate his business?

Both are examples of the private enterprise system in which they share equally.

Private enterprise is the key to all the prosperity of our individual country. The fact that our success is limited only by our own ability and energy is what makes this continent the finest place in the world in which to live.

The second article is from The Rotarian, published at Evanston, Ont. by John Atkins. The one is entitled, "You did it in war you can't do it in peace."

We have fats fail and legs de-serts them, those who believe that private enterprise cannot solve economic problem fail back on, "you did it in peace." They accuse democratic governments of serving the interests of "capitalist" at the expense of the "people." Who are the capitalists and who are the people is never clarified. In democratic capitalism, where almost everyone is a capitalist, definitions spell big confusion.

It is clear that what "you" did in the war, you can't do in peace. You can't compel people to work at assigned tasks, at fixed wages, in specified locations, for stated hours. "You" cannot force one million of Canada's fittest young people to give up their freedom and to abandon every personal interest to serve any national peacetime purpose. "You" cannot impose the sacrifices of energy, time and money which millions made gladly to save a free Canada.

"You" cannot control wages, prices, production and marketing in a democracy for an extended period, except for defence purposes. "You" cannot do it because people will not tolerate it. "You" cannot carry on a democratic government for any majority which does not preserve the rights of minorities. When majorities deny the rights of minorities, democracy dies and totalitarianism supplants it. "You" did it in war but you cannot do it in peace because Canadians won't stand for it; and the people who are demanding "it" would be the first to rebel if "it" included the price of their services.

MR. FARMER—YOU BE JUDGE AND JURY, TOO!

During the world-wide depression of the thirties, prices for everything, including wheat, went crashing down. Millions of people all over the world were unemployed. So many United States banks failed that President Roosevelt closed all banks for a whole to avoid nation-wide panic. Since that time, certain people in Western Canada have never ceased to attack The Winnipeg Grain Exchange and blame its Members for the then low world price of wheat.

Our Members had no more to do with that low price than you did. It was caused by the world-wide depression and the excess of supply of wheat over demand which many people couldn't even afford to buy bread. Every fair-minded farmer knows that, despite years of misleading and contrary propaganda put out by the leaders of the "Pools."

Up to now, The Winnipeg Grain Exchange has ignored this misleading propaganda, but the time has come to refute it. So, in a series of advertisements (of which this is the first). The Exchange will tell you how its Members operate and answer some of the questions asked at farmers' meetings. These advertisements will appear in this paper and in leading farm papers for some months to come. Please read them.

You have heard the "Pools" side often enough. Now read our side and be Judge and Jury in the matter. The Members do not fear your verdict.

Meantime, mail the coupon below for a free copy of the booklet "An Explanation of the Canadian Wheat Board Act 1935 and Amendments Thereto." It's important for you to know how you are now being regulated and controlled.

To The Winnipeg Grain Exchange,
Winnipeg, Manitoba.
Please mail booklet to which you refer above.

WHY DID JESUS CHRIST DIE ON CALVARY'S CROSS?
—TO TAKE THE PUNISHMENT FOR YOUR SIN—
HOW CAN YOU BE SAVED?
1. REPENT—Luke 13:3.
2. BELIEVE—1 Corinthians 15:3 and 4.
(a) That Jesus Christ died on Calvary to take the punishment for your sin.
(b) That He rose from the dead.
3. SIMPLY say "THANK YOU" to the Lord for doing His precious BLOOD on Calvary to take the punishment for your sin. Matthew 26:28; 1 John 1:7-10.
4. Confess Christ Before Men. Matt. 10:32 and 33.
Romans 10:9 and 10.
HOW DO YOU KNOW YOU ARE SAVED?
JOHN 1.12
"But as many as received Him to them gave He power to become the sons of God, even to them that believe on His name."
YOUR PART "Whosoever BELIEVETH IN Him."
GOD'S WORD — "SHALL NOT PERISH but have everlasting life."—John 3:16.
NOTE: There is only one way into heaven — through the shed blood of Jesus Christ—Matt 26:28
There is no other WAY John 14.6

NOTICE TO VETERANS
INTERESTED IN TRAINING
If you are planning on taking vocational training under the Veterans Rehabilitation Act, you should apply immediately, as the right to apply, with very few exceptions, ends December 31, 1947. Applications may be made to the nearest district of the Department of Veterans Affairs in person or by mail, or to the Veterans Bureau at the nearest office of the National Employment Service.
The regulations referred to above are set forth in Order in Council P.C. 4050 dated 6th June, 1945, and Order in Council P.C. 5492 dated 18th July, 1946.
The right Honourable Ian A. Mackenzie, P.C., K.C., M.P., Minister of Veterans Affairs.

6th Consecutive Patronage Dividend To Pioneer Customers
If you delivered grain to us between August 1st, 1946, and July 31st, 1947, kindly call at our elevator and receive your patronage cheque.
We have paid a patronage dividend each year since the 1941 crop on all grain delivered to Pioneer elevators.
It is also our intention to pay a patronage dividend on this year's business, if our elevator earnings permit.
Patronage Dividends Paid in Cash Each Year Since 1941

ALBERTA FIRST

CJOA has just completed planting best to 22 cubic centimetres experimenting the chosen ACMO (All-Canada mutually operated) strain. In the course of the conference some interesting facts were learned. In following up on that they:

1. Alberta is first in so many things the catalogue of facts would fill a fair sized book. Alberta has, as a matter of cold-blooded statistics, more than any other province in Canada.

2. Irrigation is practised on a greater scale in Alberta than in any other province, and in a comparatively small area of the Canadian total sugar is grown in Alberta.

3. For the first six months of the present year Alberta contributed 4,338,442 barrels of the total Canadian oil output of 5,801,000.

4. Alberta is so far ahead in coal reserves that it has been said that the province is virtually one vast coal bed.

5. So also is natural gas—one can hardly have a hole anywhere in the province without striking it.

6. The number of world championships that have been won at bay of time has run extravagance. Every inch does seem to match how Esso at the last minute. Then, with fruit cakes and puddings, a time of unbelievable and lavishness of fresh and spicy odds much flavor and moisture.

There is more dried fruit, more sugar and more butter for Christmas cookery this year, than has been available for some time. The friends in the British Isles will appreciate their share of this year's goodies. It is too late now to get them over in time for Christmas but cakes and puddings of this type keep well and sweet and can be sent many months at any time of year.

* * *

STEAMED CARROT PUDDING

½ cup brown sugar
1 cup bread crumbs
1 cup all-purpose flour
½ teaspoons baking powder
1 teaspoon soda
2 cups raisins
½ cup chopped, mixed peel
½ teaspoon cinnamon
½ teaspoon cloves
½ teaspoon nutmeg
1 cup finely grated raw potato
1 cup finely grated raw carrot
1 ½ cup milk

Mix and sift dry ingredients. Add raisins and peel to the flour mixture. Stir until the fruit is well coated. Stir in the potato, carrot and milk, making well. Fill half-pint greased moulds, 2/3 full and cover tightly. Steam 2 to 2½ hours. Six servings.

* * *

DARK CHRISTMAS CAKE

2 2/3 cups all-purpose flour
OR 3 cups pastry flour
1 teaspoon baking powder
½ teaspoon cloves
½ teaspoon cinnamon
½ teaspoon mace
1 cup shortening
½ cups brown sugar
5 well beaten eggs
1 cup candied cherries
1 cup candied figs
2 cups raisins
2 1/2 cup each of candied citron, orange and lemon peel
½ cup honey
½ cup molasses
½ cup cider or orange juice
1 teaspoon vanilla
1 teaspoon grated flavouring
½ cup blanched almonds

Sift flour, baking powder and spices together three times. Cream shortening thoroughly, add sugar gradually, cream together till light and fluffy. Add eggs, fruit, peel, honey, molasses and orange or cider juice. Add dry ingredients gradually. Turn into mixture into two pans 9-in. by 6-in. by 3-in., which have been lined with thick thicknesses of greased paper. Bake at 250 degrees F., for 3½ hours. Makes 3, 3½ pound cakes.

* * *

LIGHT CHRISTMAS CAKE

1½ cups butter
2 cups fine granulated sugar
6 eggs
2 cups bleached sultana raisins
½ cup chopped citron peel
2 cups chopped red glazed cherries
6½ cups all-purpose flour
OR 4 cups pastry flour
1 cup milk
1 teaspoon baking powder

Cream butter well, add sugar gradually and cream thoroughly. Add eggs one at a time beating well between each addition. Dredge the prepared fruits with part of the flour. Sift and add baking powder with the rest of the flour and add to the creamed mixture. Add fruit. Line a 9 by 9-inch, first cake tin or 2, 4-pound honey pails with two thicknesses of greased brown paper, line with a slow oven 300 degrees F., for approximately 2 hours.

NOTE: Butter may be replaced by shortening and salt increased to 1 teaspoon.

ORGANIC CONTENT OF SOILS

Projects designed to measure the amount to which green and legumes will restore fibre and organic content to the soils, long devoted to grain growing, were started on the district experiment sub-stations in southwestern Manitoba in 1936. Soil samples for analysis were taken to the depth of one foot before the fields were seeded to grass and immediately after the grass was ploughed. Calculations were made on the basis of total organic matter, rather than the percentage of coarse root fibre. The work so far accomplished has provided valuable information on how effectively re-grassing can be employed to restore soils structure and fertility.

On a deep, medium soil where the organic content of virgin gumbo is approximately 13 per cent, land that has grown grain exclusively for nearly 70 years contained 2 per cent humus. The same land when seeded to brome grass and left for four years, had an organic content of 8 per cent. On medium heavy clay loam at Goodlands, virgin prairie averaged 8 per cent, old grain land that had been cultivated to wind erosion 3 percent, and the same soil after lying in brome grass four years had 4 per cent.

On a light, fine silt loam, virgin prairie tested 6 per cent organic matter. Land used exclusively for grain for 40 years, and severely eroded by wind contained 3 per cent. This same land seeded to crested wheat grass for seven years was raised to 4 per cent. Sandy loam soil held little more than 1 per cent organic matter in its virgin state. Fifty years of grain crop and severe wind erosion reduced this to 1.3 per cent. Four years of brome grass brought the humus content back to 3 per cent, and alfalfa down to water seems to 3 per cent.

These figures illustrate that half a century or more of a grain-fallow management has seriously depleted the organic content of soils in southwestern Manitoba, and though re-grassing helps to partially restore fertility, it would have to be done at regular intervals to maintain even a low organic level.

Canada produces about 250 million pounds of animal and vegetable oils and fats, but consumption is just about twice that figure.

Q. Is the lung of any use after pneumectomy?

A. Usually the lung is diminished about one-fourth of its size, although greater contractions are often seen. This of course causes only when the diaphragm rises in the chest. The remaining lung is perfectly safe.

* * *

Q. Does a pneumectomy throw a great strain on the opposite lung?

A. No, there should be little if any strain on the opposite side.

* * *

ORGANIC CONTENT OF SOILS

Projects designed to measure the amount to which green and legumes will restore fibre and organic content to the soils, long devoted to grain growing, were started on the district experiment sub-stations in southwestern Manitoba in 1936. Soil samples for analysis were taken to the depth of one foot before the fields were seeded to grass and immediately after the grass was ploughed. Calculations were made on the basis of total organic matter, rather than the percentage of coarse root fibre. The work so far accomplished has provided valuable information on how effectively re-grassing can be employed to restore soils structure and fertility.

On a deep, medium soil where the organic content of virgin gumbo is approximately 13 per cent, land that has grown grain exclusively for nearly 70 years contained 2 per cent humus. The same land when seeded to brome grass and left for four years, had an organic content of 8 per cent. On medium heavy clay loam at Goodlands, virgin prairie averaged 8 per cent, old grain land that had been cultivated to wind erosion 3 percent, and the same soil after lying in brome grass four years had 4 per cent.

On a light, fine silt loam, virgin prairie tested 6 per cent organic matter. Land used exclusively for grain for 40 years, and severely eroded by wind contained 3 per cent. This same land seeded to crested wheat grass for seven years was raised to 4 per cent. Sandy loam soil held little more than 1 per cent organic matter in its virgin state. Bill Jones handling rack on the factory floor. Mrs. Jones pushing her "pram"—both know the energy-saving lightness of Aluminium. The magic combination of lightness-with-strength finds new applications every day. All along the line, Aluminium is reducing effort, increasing productivity. We have entered the age of light metals.

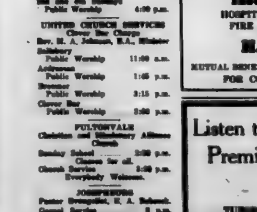
Canadians are in a unique position to enjoy the benefits of this new age. Within our borders we have the largest Aluminium paper plant in the world — ample for all our needs with lots left over for export. And this paper is available to Canadian manufacturers at lower cost than anywhere else in the world. Today over six hundred independent manufacturers of everything from tank cars to chicken pins are turning out exciting new products made with this Versatile Modern Metal.



We are endlessly exploring the rich possibilities of Aluminium—finding better methods, studying new uses, finds better ways to help its customers, producers and others who make the aluminium products you use in your home and at work, and which find their way to the market places of the world.

Ardrossan Bride-Elect Honoured

On Saturday evening, November 22nd, Ruth Evelyn Fawcett, our bride elect of this month, was the guest of honor at a shower, at the home of Mr and Mrs R. McKay. The apartment rooms were decorated with pink and white streamers and silver tinsel with white wedding bell.

The evening commenced with a social hour and contests followed by entertainment which consisted of a reading by Mrs. E. Dowling, an instrumental by Ruth Bree and a chorus by the C.G.I.T. girls Miss Marguerite Beresford then played Lohengrin's Wedding March, while a quartet of Evelyn's former school pals trooped in and took part in a mock wedding ceremony, with Mr. Cyril Jacques as "preacher"

With a rending of special wishes for the bride, Mrs M. B. Parker presented her with a Bible, a gift from the United Workers and the C.G.I.T. girls

To climax the evening's events a small Christmas tree from which the gifts was wheeled in by Frances Rae and Cathie Bell. After opening the parcels, Miss Fawcett very suitably thanked everyone for the beautiful and useful gifts

A sumptuous lunch was served by the hostess to end a very un-

Seal Sales Slightly Higher to Date

Christmas Seal receipts for the province, up to November 30th were $33,000.00 This is slightly higher than at the same period last year, but is still far short of the objective of $120,000

Complete success of this drive is necessary if about 2 cap and 3 per cent tuberculosis services are to be continued

The work of this organization deserves the support of everybody and they ask that all contributions be sent in as soon as possible

BACK ARE RISKY

Any odd piece of cloth for wiping the eyes, nose or any other part of the body, just won't do we are warned by health experts. They remind mothers of industry, particularly against the danger of spreading infection from communal roller towels or by using rags or soiled handkerchiefs.

Where disposable towels are not standard equipment in a work shop or office, mothers are advised to provide themselves with clean individual towels, or a special supply of sanitary tissue.

* * *

The Ardrossan Community League held a general meeting Monday, November 24. The meeting was informed that the basement for the new hall was dug and plans could now be made for building. A building committee was formed to purchase lumber. The question of purchasing light was discussed and it was decided not to buy those at the present time.

The social committee is busy arranging entertainment for the winter watch for announcements of whist drives and dances.

Six tables were played at the last whist drive First prizes went to Mrs Joy and Mr Scott and consolations to Barbara Allen and Mr C. Hamilton

At the Wye dance a profit of $25.00 was realized which makes such an undertaking worthwhile from a financial standpoint

Increase Yields
with this New National Grain
SPRAYER

Nine years of research on chemical spraying of crops result in this new, 1948 sprayer. The National Grain Company, pioneers in research on chemical weed control, proudly present this specially-designed sprayer, which gives maximum results at low costs.

$395.00 Delivered complete in Prairie Provinces. Mounted on sturdy two-wheel trailer with 1½ H.P. motor and pump.

Sprayer in operation gives complete coverage with 2, 4-D at the rate of 4 to 10 gallons of spray solution per acre. Easily sprays 10 or more acres per hour.

PRACTICAL

The problem of manufacturing a practical sprayer at a reasonable price has been solved. A machine that operates at a low gallonage at a pressure even farmer can afford.

ECONOMICAL

Moderately priced to pay its own cost quickly in cleaner, heavier crops. Well designed and ruggedly built for long usage. Extra equipment for special jobs at low cost. Save time, labor, water, chemicals.

...more features mean a BETTER sprayer—at Low Cost!

A complete unit, mounted on trailer ready in an instant to tow behind your truck or tractor. Wands 200 lb. Swivelling, 100 Imperial Gallon aluminum tank. Can be used to spray fence rows, bushes, barns, livestock, gardens, etc., with extra equipment at small additional cost. Quick-designed nozzles give more complete spray with less loss of chemical. Boom is 32 feet long—four 8 foot sections, folds for passage through gates and is adjustable for heights. Separate valve controls—one side can be used for spraying weeds.

Examine all other makes carefully, then compare any machine with the National Grain Sprayer. On both a value basis and a performance basis, you'll be convinced that this is the best sprayer buy on the market.

Cash in on Latest Farming Methods

Weed control with chemicals has made great progress in the past year. This new National Grain Sprayer is designed to make use of its newest discoveries. Definitely makes crops richer, heavier—gives more profit from farming.

The Nation's Business

By Ottawa Observer

With Canada's parliament opening this week there's much speculation here about the attitude the opposition parties in the House of Commons will take toward the government's plan to promote a real cooperation of all Canadians as the working out of the program, they need by little dislocation.

In support of this cooperation it is recalled that cooperation during the war years had enabled Canada to double the production of goods over the six previous years and to put one million men and women into active service. It is also remembered that new jobs were created as the years of reconversion to absorb all demobilized men and women as well as those who had been employed in war industry leaving us in a position of full employment today. This was achieved by cooperation of all Canadians in spite of the prevalent view of the socialist leader that business, of itself, was evil.

It is emphasized immediately after the war, that the government's program of reconstruction and development was based on the assumption that business would make full use of its opportunities. Government spending was to be kept down to a minimum and the government was to withdraw from many fields of economic activity in which it had entered during the war.

The new cards by M. Sec. C. D. Howe in asking for the hospitality of all Canadian people has made a deep impression. "Provided we can have the whole hearted cooperation of all Canadians in the working out of the program, there need be little dislocation."

In support of this cooperation it is recalled that cooperation during the war years had enabled Canada to double the production of goods over the six previous years and to put one million men and women into active service. It is also remembered that new jobs were created as the years of reconversion to absorb all demobilized men and women as well as those who had been employed in war industry leaving us in a position of full employment today. This was achieved by cooperation of all Canadians in spite of the prevalent view of the socialist leader that business, of itself, was evil.

It is emphasized immediately after the war, that the government's program of reconstruction and development was based on the assumption that business would make full use of its opportunities. Government spending was to be kept down to a minimum and the government was to withdraw from many fields of economic activity in which it had entered during the war.

Ardrossan

A number of friends and neighbors surprised Mr. and Mrs. J. Borsfield with a party on the occasion of their 47th wedding anniversary on Friday, November 28.

On behalf of the United Workers Mrs. D. Rice presented Mrs. Borsfield with a bouquet of mums. The entire evening was also provided the couple with a purse. Lunch was served by the ladies after a most enjoyable evening.

A few relatives and close friends called at the home of Mr. and Mrs. H. Friel on Saturday to congratulate them on their 40th wedding anniversary.

The guests of honor were presented with a photo glass mirror with the best wishes of ev ryone for many more anniversaries.

The Community League held another whist party in the old hall last night. First prize went to Mrs. H. Walsh and a gentleman working at the local elevator.

Lunch was served by the social committee and another enjoyable evening. Watch for announcement of next week's whist drive.

A farewell party was held in the hall for Karl Sebenalla who left for Germany on Monday. He has been to spend the winter with his mother in Germany and return in the spring.

The executive of the Community League held another meeting on Tuesday evening at the home of Mr. and Mrs. A. Bell. They decided to hold skating on Wednesday and Saturday evenings and free skating on Saturday afternoons for small children. Season individual and family tickets are on sale. Refreshments will be served on Saturday evenings Sunday skating or hockey would be limited to moonlight only. The men would like to see more members come out to help with the flooding and many other jobs to be done yet. So far a limited few have done a great deal. Get in touch with Mr. Bell and find out what you can do to help.

Yorkville

On Tuesday evening, December 9 at 8:30 p.m. a meeting conducted by B. J. Whitbread, District Agricultural Supervisor, will be held in the Yorkville School. Mr. Whitbread will deal with a subject of much interest and Mr Stetson will illustrate his talk with local pictures in color. A very cordial invitation is attended to ladies as well as gentlemen to attend.

The district Calf Club held a meeting Tuesday evening in the Yorkville School. After the rules were settled for the members represented all calves in good health. The club leaders and district agriculturist plan a tour of inspection later in the month.

Messrs. J. P. Galloway, T. F. Stetson and H. A. Stetson attended the Massey-Harris Banquet at the Macdonald Hotel, Tuesday evening. All reported having had a very enjoyable evening.

Mrs. Norah Mackinlay has accepted a position on the staff of the Royal Alex in the new nurses' residence wing.

A free demonstration was put on by the Y.M.C.A. and Health and Recreation Branch of the Province of Alberta in the hall on November 21. The group showed the people of the district what could be done with different age groups. A tap dance was given by Marvin Ritchie and a brilliant display of tumbling by representatives of the Y.M.C.A.

An organization meeting for Health and Recreation was held in the hall on November 26. Preliminary plans where made to hold classes for pre-school age, school age and ladies. Committees for business, financial and preparation were chosen.

The classes are to be held every Thursday in the hall.

Livestock is grown on more than 5 million farms in the U.S. and provides the largest source of income for the American farmer.

Reminiscences

The following are excerpts from letters written by former United Church Ministers.

The last of our letters of reason accesses is from Rev. R. L. Wright, now living in retirement at Hamilton, Ontario. He was in Fort Saskatchewan from 1912 to 1920, thus proving to be the last Methodist minister to be in the town. Mr. Wright took place on 1925. He has now written us as follows:

I had four happy and somewhat eventful years in Fort Saskatchewan. The church and parsonage was erected under the leadership of Rev Dr. A. E. Aldridge. It was the third pastoral charge in which I had the privilege of using what he had installed and commissioned in power days. On all three no man got a better welcome than he when he returned for an anniversary. I might add that on the 3rd I left a doubt that I had the pleasure of writing "finis" to during my pastorate the last hundred dollars due on the church at Fort Saskatchewan was given me by the widow of Mr. Mason in fulfillment of his wishes This had been borrowed, I think, when the hall was built during Rev. George Driver's time.

My introduction to the Fort was due partly to the fact that Mr. Osbaldeston was looking for a minister at conference who had a long nose. I told him I thought I could qualify. He replied, "If you are the Rev. M. L. Wright you can. I have an invitation from the Board of Fort Saskatchewan for you to be our preacher for the next four years." Well, I accepted, and the Stationing Committee appointed me. It was the beginning of the first depression after the First World War. The farmers that spring paid one dollar a bushel for

Whitemud

The Whitemud Students' Union sponsored a hardtime dance on November 28th, which was a huge success. Prizes were presented to the best dressed hardtimers. First prize for women went to Mrs. H. Winkleman and second prize went to Hilda Grove. First prize for the men went to Mr. H. Tomkinson and second prize went to Mrs. Wm. Bosler. Among those present were twenty-eight University students. Everyone reported a good time.

We are sorry to report that Mr. and Mrs. Wm. Schieve have left the district to take up residence in St. Albert. We wish them the best of luck.

Mr. and Mrs. F. Bennett have spent the last week in Edmonton. Mr. Bennett was attending the A.F.U. Convention.

At present Mrs. John Krupa and her daughter Jean are visiting relatives in Niagra Falls, Ontario.

The pupils of the Whitemud School are busy making preparations for their forthcoming Christmas concert.

Chatter:—Seamone of the dark nights, Gladys had a hard fall when she slipped on a patch of unseen ice.—Martin finds it difficult to peddle a bicycle down an icy hill without falling.—Hilda and Lois having a mild argument over a pet kitten.

Good Hope

Mrs. Carl Dittrich was hostess to the Ypres Valley W.A. last Wednesday afternoon. A good crowd was in attendance with several new members from Good Hope.

The election of officers resulted as follows:

President, Mrs. Carl Dittrich; Vice President, Mrs. Milton Moyer; Secretary Treasurer, Mrs. Peter Gunn; Flower Committee, Mrs. Bert Davies and Mrs. Gordon Meyer.

The next meeting will be held at Mrs. Wm. Gunn on Wednesday afternoon, January 21st.

The hostess served a very sumptuous lunch to bring the afternoon to a close.

Mr. and Mrs. Gordon Meyer, Helen and Orville, motored to Vilna over the week-end to visit with Mr. and Mrs. Fred Bennett.

Howatt-Fawcett Nuptials December 1st

At 7:30, Monday, December 1st, the Agent Ice Lighthouse was the scene of a lovely double ring ceremony, when Rev H. C. Alcock united Miss Ruth Evelyn, eldest daughter of Mr. and Mrs. Lofius Fawcett of Androssan and Mr. Earl Samuel Howatt, only son of the late Mr. and Mrs. E. T. Howatt of Hanna, in holy matrimony.

Given in marriage by her father, the bride wore a floor length white satin gown which featured long, lily pointed sleeves, a sweetheart neckline and buttons down the back to her waist. A bustle at the back fell into a shirt slightly satin and her floor length, silk net veil was held in place by a spray of white orange blossoms. Her only jewellery was a three strand string of pearls, gift of the groom. She carried a bouquet of white carnations and pink rosebuds.

The bridesmaids, Miss Eva Fawcett, sister of the bride and Miss Farine Howatt, sister of the groom, were gowned in floor length pink and blue sheer gowns, respectively. They carried bouquets of rose and pink carnations and their matching shoulder length veils were held in place by a band of white apple blossoms.

Supporting the bridegroom was Bob Haggard as best man and Fred Fawcett, brother of the bride, as head usher. Assisting as ushers were William Fawcett, Allan Hay, Tom Hodgins and Harvey Alexander.

Mendelssohn's Wedding March was played by Mrs. Pearl Glanville. The groom's choice, Miss Lillian Howatt sang "The Wedding Prayer", during the signing of the register.

The bride's mother received the guests in a royal blue crepe afternoon dress and black accessories. Her corsage was of red rosebuds. Mrs. Ekmsora Tague, aunt of the groom, received in a deep blue, two piece afternoon dress with navy accessories and a corsage of deep pink rosebuds.

A reception for forty-five guests was held in the Masonic temple, at which Mrs. H. C. Alcock sang "Oh Promise Me". The only decorations being the bride's and bridesmaids' bouquets on either side of the three tiered wedding cake.

A toast to the bride was given by Mr. George Fawcett, uncle of the bride, and Rev. Alcock proposed the toast to the happy couple.

After a short honeymoon in Calgary, Mr. and Mrs. Howatt will take up residence at 10321 108 St., Edmonton.

For her travelling costume the bride chose a burgundy wool suit with black accessories and top coat. Her corsage was of pink rosebuds and white carnations.

Out of town guests were Leslie and Tom Hodgins of Manola, Mr. and Mrs Alfred Pederson and Miss Clarice Hinman of Bloomsbury. Among messages of congratulations received by the couple were

Hockey Club at Ardrossan Disbanded

The Ardrossan Athletic Club, years ago one of the shining lights in the depression affair of the district, has disbanded Club equipment will be sold and proceeds distributed amongst last season's players, who have been released.

It was stated that it would be impossible for the club to carry on in view of the policy adopted in regards to hockey by the Ardrossan Community League, new owners and users of the skating rink. As last season's attendance on Sunday afternoon games was not very large it was felt that this year's attendance at games which were to be limited to Sunday afternoons only, would not be sufficient to offset the necessary expenses incurred by the team. Further, it was pointed out, that the visiting teams would not welcome the innovation of having to play so early in the day, as would be necessary under the new policy. It was therefore apparent that nothing less than cessation of senior hockey playing could be done.

Yorkville

Mrs. Larmour is visiting at the home of Mrs. J. K. Galloway.

A capacity crowd attended a meeting held in Yorkville School under the auspices of the Agricultural Service Board of the 8 rathcona Municipality. The meeting was addressed on the subject of Soil Fertilization by Mr. Stetson and Jr. Fontaine, the District Agricultural from Morinville and Stagg-ton, who substituted for Mr. Whitbread who is ill. Their addresses were illustrated by coloured slides which were greatly appreciated by all those present. Many questions were ably answered by the speakers.

two telegrams from relatives of the bride in Ireland.

Australia's sheep population has shown a progressive decrease year by year since 1943 when sheep and lambs numbered 124 million, to 1947 when they numbered 96 million.

Bremner

The annual meeting of the Clover Bar U.F.A and U.F.W.A. was held at the home of Mr and Mrs. J. R. Maclen.

The U.F.A. officers elected for the new year are:

Hon. G. R. Marler, President; Mr. F. T. Jackman, Vice President; Mr. F. H. Bowne, Secretary Treasurer; Mrs. L. Myers, Mr. Hemsley and Mr. Clarke and E. Keith, directors.

The U.F.W.A officers elected for the new year are:

Mrs. C. H. Wilkinson, President; Mrs. T. Marler, Vice President; Mrs. R. C. Marler, Secretary; Mrs. G. R Marler, Treasurer; Mrs. D. Davison, Red Cross Representative; Mrs. D. Baines, Mrs. L. Myers, Mrs. W. Schreiber, Mrs. F. McCalla, Mrs. S. Lotan, directors.

Instead of the usual gift exchange, each member left a package.

Around the Town

Miss Jean Brown of Toronto, is visiting at the home of her uncle and aunt Mr. and Mrs. Fenton Rowse. Miss Brown plans to remain for a month.

Congratulations are extended to Mr. and Mrs. L. Lambert (nee Dorothy Pollard) on the birth of a daughter at the Royal Alex Hospital on Friday November 28th.

A rash of lady visitors consisting of Miss Hick, also Mrs. Roy Shandler on, third, Mrs. Allmark, second from Mr. Stapler, lead play, a rink of Alberta Avenue ladies defeated the town ladies by a last minute comeback to win.

Miss Rita Sherman of Toronto is expected to arrive home this week-end and will Christmas with her parents.

Congratulations are being extended to Mr. and Mrs. Ernie Walker on the birth of a daughter, born Friday, December 5th at the Royal Alex Hospital.

The Sunday School concert will be held in the Community Hall on Tuesday, December 16th, at 7:30 p.m., the local C.G.I.T. group will be a welcome addition to Fort United Church. They will use the National Christmas Vesper Service annually prepared by their movement and used by many hundreds of C.G.I.T. groups. It includes carol singing, a Christmas story, and a candle-light dog service. The public are cordially invited to attend.

Mr Henry Lorenz, Mr. Bert Lorenz and Mr Art Pinsell left this week for Athabasca for a big game shoot.

Joan Banks Named for School Patrol Program

Joan Banks, daughter of Mr. and Mrs. Jim Banks, will have the honor of representing all districts on the program at a School Safety Patrol presentation to be sponsored by CKUA and sponsored by the Y.M.C.A. on Sunday, December 21 at 1:30.

We understand that a boy in the city has been chosen to represent all city School Safety Patrols in the province and he and Joan will tell their listening audience what it they play in helping to prevent accidents.

Those who do not understand the purpose of these patrols will certainly be enlightened if they listen to the broadcast and they will be amazed at the record achieved by these young boys and girls in protecting the busy school intersections in the cities and towns throughout the province.

Council Amend Community Hall Rental at Special Meeting Monday

A special meeting of the Council was held Monday morning in the Town Hall with all Councillors present.

The following delegates were present in connection with the price charged for renting of the Community Hall: Mr A. B King, Mr. Fred Sherman, Mr. Art Simmons from the Curling Club, Mr. Bobby Towns representing First United Church Choir; Mrs. R. M. Brown, Mrs. Grace Thorne, United Church W.A.; Mrs. M Broome, Mrs. C. W. R. Magor, Mrs. C. F. Bradshaw, St. George's W.A.; Mr. Walter Sherman represented the Service Club.

All delegates present at the meeting were there with one request, that of getting the hall at a lower rate than the $5.50 proposition.

A lengthy discussion took place in which all present regarding ways and means of operating the hall so that it paid its own way without having to draw from the Town's General Funds.

It was claimed that during the eighteen months the Service Club operated the hall at a flat rate, that they did not lose money, and it was felt the hall could still be run on the same basis.

The following motion was finally made by J. A. Dawson and adopted

"That the Community Hall be operated on the basis of rates as established by the Service Club. The 24th of May, 1948 and New Year's Eve, 1948 to be reserved for community projects. The rates established to be subject to review at anytime. This motion to remain in effect from November 30th, 1947."

The purpose behind this motion is: That every organization in Ardrossan

Ardrossan

A large crowd attended the brush party at the McKay home last week. Mrs. R. McKay and Mrs. H. Parker were joint hostesses on behalf of the United Workers.

Everyone enjoyed Mrs. Warring's most interesting program and demonstration of bonsbes. Mrs. W. Walker won the prize in the contest. According to the club plan of the Wenrever Co., a small percentage of the sales was turned over to the United Workers—this netted the society about $18.00 for the evening. The pyrex bowls which were presented to the hostesses were turned over to the Community League. They were raffled and brought in $10.00 for the League treasury—this money to be placed in the building fund. The lucky ticket picked by Master Lloyd Rice gave the bowls to Mrs. L. Fawcett.

A dainty lunch was served by the hostesses assisted by other members of the United Workers.

The Baker School children held a What Drive in the old hall on Friday evening. Seven films were played. First prize went to Miss Tommy Walsh and Mr C. Hamilton, consolation going to Mr. A. Bell and Miss Barbara Allen. The prizes were automes and re-automes and the youngsters finally had $25.00 for their Christmas treats.

Lunch was served by the girls.

East Edmonton

The whist drive held in the hall Saturday evening was very well attended. Ladies' first was won by Mrs. C. Prather, Ladies' consolation was by Joyce Stewart, Mr. Glen Stewart and Mr. Gordon Briggs tied and had to draw for first, Mr. Stewart being the lucky one, Gunn's consolation went to David Diamond.

Mr. George Gibb, Mr. R. C. Briggs and Mr. G. H. Briggs motored to Red Deer, Monday, to attend the Annual Meeting of the Holstein-Friesian Association.

Congratulations go to Mr. R. C. Briggs on winning 1st prize with his yearling heifer and 6th prize with his three year old at the Toronto Royal Fair. The 1st prize heifer was sold and flown to Buenos Aires, Argentina.

Mrs. J. Anderson is spending the week-end at her brother's at New Sarepta.

Elect Mrs. Williston New W. I. President

The annual meeting and election of officers of the W.I. was held Wednesday afternoon in the Union Hall. The following were elected to office for the ensuing year: Honorary President, Mrs. J. D. McLean; President, Mrs. A. A. Williston; Vice President, Mrs. R. M. Boone, Secretary, Mrs. F. H. Wallen; Treasurer, Mrs. H. Looker; Directors, Mesdames Hill, Holt, McLean, Westover, Gobleboone, Miss Atkinson; Cemetery Committee, Mrs. C. R. W. Magor; Home Comfort Secretary, Mrs. T. W. E. Henry.

Following the meeting a bridge party was held by the members with prizes going to Mrs. J. Westover, first and Mrs. S. M. Boone, second.

A dainty lunch was served, bringing an enjoyable afternoon to a close.

Fort Badminton Club Visits RCMP Sunday

A very enjoyable time was had last Sunday afternoon when almost twenty members of the Fort Badminton Club visited the R.C.M.P. barracks, Edmonton, for a series of games.

Playing on their spacious centre floor amidst the high ceiling is somewhat different to our own hall, but on the whole our players gave a good account of themselves.

During the afternoon, tea was served by the lady members.

S. Cooking Lake

Our thoughts are with Mrs. Beauchesne and her young daughter Victoria, for they have lost a dear husband and grandmother, Mrs. Parsons, who died suddenly last week in Edmonton after only a few hours illness. Her death is made incomprehensible more sad in that she had but recently been married again and that her new happiness has been cut so suddenly and so soon. Our sympathy goes out to Mr. Parsons, Mrs. Beauchesne and Vicky.

How Franklin School is regretting the departure of Vicky to an Edmonton School. In the first three months with us she has won for herself, by her winsome charm, an affectionate place with her schoolmates and teacher. Our regrets are tempered, however, by the hopeful probability that she may return to us, like the farmers and birds, in the springtime, and, like them, bring us gladness.

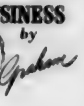
New Potato Harvester at Work

The above picture shows a new Bain potato harvester being demonstrated. The machine is the biggest self-propelled digger and a conveyor and sacking mechanism to deliver the potatoes either loose or trailer, these sections can be separated easily for transport purposes, the whole mechanism being driven by a Chrysler six-cylinder engine. Power of the harvester, a front caster wheel, is mounted by two angle rotor to which floating fingers, whose shape is governed by guide rings, act as lifting shovels and lift the potatoes along the elevator where operatives remove the tops and pick off tubers and place them on a section of the conveyor which delivers the potatoes into a row trailer. Stones and clods are left on the conveyor and returned to the ground by the final separator can be seated if necessary. Bagging can be done at the rate of 80 cwt. per hour on a 9 ton per acre plot.

Time your chore in a hen expert demand for cereal seed grain, and registered wheat is bringing $4.50 a bushel.

EVERYBODY'S BUSINESS

by Don Graham



Does the man who rushes through his work really accomplish more?

Very rarely, I think. For such a man is using emotion instead of his head. He considers emotion an inane second of efficiency. Before he finishes one thing he is mentally rushing on to the next. So he never does anything thoroughly.

Moreover, the unfortunate effects of such a temperament are felt in many directions. By his nervous tension and rapid-fire speech, Mr. Rush creates a feeling of tension and confusion in other people. Then he multiplies his own inefficiency.

Speed is desirable only when it is the result of sound planning, increased skill, and the elimination of waste motion.

Timely Farm Notes

By R. J. Whitbread, District Agriculturist

REWARD FOR YOU THIS DOING: THINGS WELL

On Friday, November 28, ninety of the brightest young people in Canada opened up a week of sightseeing and competition which had included an audience with Mr. Ilsley, the Governor General and Lady Alexander, tea with the United States Ambassador, a trip to Niagara Falls, a tour of the Houses of Parliament and Central Experimental Farm in Ottawa, and visits to meat packing and flour machinery plants.

This was the conclusion of the 17th annual national contests for boys' and girls' farm clubs held under the direction of the Canadian Council on Boys' and Girls' Club Work, representing all provinces, 48 4-member teams competed on judging contests and oral examinations held in conjunction with the Royal Winter Fair, Toronto. Then began the round of educational and entertaining adventures the like of which few adults, much less boys and girls ever enjoy in a lifetime.

"You have enjoyed this opportunity, because you have done some things well," the Governor-General reminded by Dr. G. S. H. Barton, Deputy Minister, Dominion Department of Agriculture and Canada's representative on the world food council of FAO, as he addressed a group of distinguished youth in Ottawa.

As exponents of the art of doing things well, the boys returned to the Swiss with whom he spent several weeks last summer while attending the Third FAO Conference in Geneva. Describing that visit kept city and its happy inhabitants, he spoke admiringly of the Swiss love of the land and pride in work which most countries seem to have lost. He lauded the spirit which the Swiss display in doing even the humblest task well.

"Farming offers the greatest opportunity for happiness," declared Dr. Barton told rural club members, "the opportunity for building real homes, but the soil and the home."

GOOD SEED CLAIM REQUIRED

Growers who have good seed grain that may be eligible for Registered Seed Certificates for commercial grades are urged by the Field Crops Branch to have it cleaned and bagged at once without delay. If left too long there may be difficulty in having inspection made in time, and there is no approval security at the time required the bulk of inspected seed may result in an increase in the use of infected grades with a consequent lowering of quality in the 1948 crops.

Before seed can be given final inspection under the Seed Grain Production Division, a germination test establishing the viability of the seed must have been made by that division. Growers are required to send at least a one pound sample of their seed to the Field Products Division Immigration building, Calgary, for a germination test. The sample must be representative of the lot from which it was taken, and a fee of 50c must accompany the sample.

Growers should forward their samples early so that when ready for inspection services they will not have to wait for evidence of satisfactory germination.

BOOT LICE AND RED MITES OF POULTRY

If the birds, house and equipment are treated once and the treatment it repeated in ten days time and again in thirty days, and then once every four months, there should be few if any of these parasites to be found in any flock, says C. W. Weeks, Poultry Commissioner. In fact, if the three treatments in thirty days are thoroughly and effectively carried out the fourth treatment is practised, there should be none of these parasites to be found.

Body Lice

Several species of body lice affect domestic poultry. All are equipped with biting mouth parts and live upon the skin and feathers of the birds and spend their entire life on the fowl. They are extremely active, thus causing constant irritation. They are most easily detected around the vent and under the wings.

Treatment

The most common remedy is the use of nicotine sulphate, commonly referred to as Black Leaf 40. A small amount is painted along the top of the roosts just before roosting time. The warmth of the bird's body causes the fumes to rise through the feathers, killing the lice. Treatment should be repeated in ten days' time to destroy lice that have hatched after the first treatment.

Sodium Fluoride is often used as a dust, a pinch being placed under the vent and wings. Ointments also are used, but the nicotine sulphate treatment will be found to be the most efficient.

Red Mites

Unlike lice, the [illegible] mite does not live on the birds and is a blood sucker. It hides under the perches, in cracks along the walls, or in dark corners and is the most active during the day, and feeds on the birds at night. When present in any number, the under side of the roosts and along wall cracks show an accumulation of greyish material. Thoroughly spray the walls, drop boards, nests and roosts with a good disinfectant solution (three parts coal oil to one part creolin carbolic) paying particular attention to cracks and crevices. Paint the inner joints and ends of the roosts with a strong disinfectant.

At this time of year particular attention should be given to the growing pullets and cockerels, and to the range shelters. Young stock will not develop rapidly and evenly unless kept clean and free from parasites.

Reminiscences

Continued from Page One

seed oats, and in the fall, after paying the one pence for help and threshing got no more than twenty cents a bushel for their oats. Ben Beaver Hills, Deep Creek, Partridge Hill and other pioneers paid my salary every month as well as the extra pennies. They got back all their former resources, not their income I think it was one of the best examples of Christian Stewardship I have ever seen. Nor did they remain way from church, for at the evening service we flocked in for the joy of the Lord is our strength." . . .

I never forget the Fort Saskatchewan Choir. Mr. McClellan was leading; his daughter, Mrs. Bangay, was organist. Then my son Roger, twelve years old, took the organ for three years. Mr McClellan led the Sunday School Superintendency and Kelly Walker was Secretary . . . He was a member of my "New Canaan" Club, a good most helpful club. Mr. and Mrs. Ernest Ben Sutherland and he were always on hand when there was entertainment to be had and oats during camping . . .

When I came to the Fort the Good was a Presbyterian meeting place. Mr McLean—Jack I like to call him—was head guard then, and was also janitor. He had a rum-down place, into a real producing farm. I followed his work as Deputy Warden and Warden until the Coal Co., as the Town Fathers who spent a year in it used to call it, "The Best Hospital") was by the prisoners' labor and lifesaving turned into one of our pioneer for tourist visitation Just may not have known it, but I think of two young men who were turned from a life of crime to that of good citizens by his kindly interest.

One of the highlights of my [illegible] if invitated by body lice and their roosting quarters are infested with mites. They should be kept in mind that these parasites also are carriers of many of our poultry diseases.

pastorate was a Saturday morning service in the church by a negro quintette and a negro preacher when the congregations filled the church to overflowing There were thirteen of them who had dinner at the parsonage, with no fear of the hordes or of race discrimination . . .

I do not believe with the poets that "Forever and forever we are born to remembering better days." Neither do I believe that "the former days were the better days" My message to the congregation is the words of the Psalmist, "This is the day which the Lord hath made, and we will rejoice and be glad in it for the joy of the Lord is our strength." . . .

Plan Driver Course In School Program

Development of driver training is receiving the attention of officials of the Alberta Motor Association This is a program that has been expanded on a wide scale in the U.S. and it is regarded as having played an important role in safe driving observance on an increased scale

The plan has been discussed with officials of the Edmonton public school board and as a result, it is planned to associate whether arrangements can be made with the provincial department of the education for high school students to be given credits for such work in pursuing the high school course. It would be of several weeks duration combining lectures in the class room with actual driving instruction.

Recently a representative of the American Automobile Association was prepared to establish a teacher training school in Vancouver to serve teachers from B.C. and the prairie provinces. This would be of several weeks duration combining lectures in the class room with actual driving instruction. Under the plan the teachers would return to handle driver training courses for their students. Such teacher training schools have been operated in the U.S. with highly satisfactory results.

This would be another step on the road to making young people better and more competent drivers and reducing the costly accident toll each year.

SELL WHAT YOU DON'T WANT THROUGH A WANT AD.

Food Is a Weapon

Europe's starving millions make it obvious that food is one of the greatest weapons today Since Alberta is a great food producing area it plays a vital part in world affairs.

Our future relationships with other countries depend on whether that harvested farmers and others in remembering better days."

Neither do I believe that "the former days were the better days" My message to the congregation is the words of the Psalmist, "This is the day which the Lord hath made, and we will rejoice and be glad in it for the joy of the Lord is our strength." . . .

WEDNESDAY, DECEMBER 10, 1947

The Community Hall

The motion adopted by the Council at Monday's special meeting on the striking of the Community Hall at a flat rate instead of the 50-50 rate on the net proceeds as announced in last week's Record will, we feel sure, meet with the approval of all organizations.

The proposition put forth was, that all organizations unite together and get behind the May 24th and New Year's celebrations, and the entire proceeds from these two days tie be turned over to the Town to help defray expenses in operating the Hall

The approximate cost of operating the Hall for a year is $2000, which includes heat, light and power, fuel, wages and insurance, but does not allow for depreciation There should be at the very least another $400 added on each year for depreciation, otherwise there will be no reserve funds available for repairs and replacement to the Hall unless the money is taken from the general account of the town, which is of course the tax payers money.

It is now up to those organization to see that enough money is raised on these two days, otherwise it will be necessary to raise the rate schedule for the Hall. On the other hand it is possible that the rate, now in effect can be reduced considerably, but it will mean that everyone will have to dig in and make these two days a financial success

The 50-50 rate never was popular with any of the organizations, dispite the fact that if there was no profit, no rent was paid. They would sooner pay a flat rate and limit their chance of a loss, or of making a good profit on whatever entertainment they put on

It is our opinion, that in reverting to a flat rental for the Hall, any grievances that any organization may have held will be eliminated and a more harmonious feeling will prevail.

World of Wheat

By R. L. STRANGE

Director of "The Top Twisting Plan"

ADDITIONAL DEMAND BALANCES ADDITIONAL SUPPLY

Some people certainly do not like it when they are told that if a man did not make a historical agreement with Britain to take 100 million bushels of wheat this 100 million bushels would have been dumped upon the open market which, at one stroke, would have caused world wheat prices to collapse like a push of earth.

Those who think this way I courteously suggest are in error for they have been ill advised, for they forget that if there had been no agreement, and had the two million bushels a year been thrown onto the open market, Britain would have had to come to the open market to buy that 100 million and so the selling price of the additional amount would have been moderately balanced by a rise in price to Britain for the 100 million. The additional amount therefore would have been no more than with the additional demand and the world price of what would not have been affected.

Conversely, as is the case at present when 100 million bushels from Canada are withheld from the world market Britain does not have to buy 100 million bushels less but has to buy the 100 million bushels from other countries at the world price. Therefore would have been no more demand than with the additional supply and the world price of what would not have been affected.

Conversely, as is the case at present when 100 million bushels from Canada are withheld from the world market Britain does not have to buy 100 million bushels less but has to buy the 100 million bushels from other countries at the world price.

ITEMS OF INTEREST IN THE WORLD OF INDUSTRY

The United Kingdom is now negotiating with Australia for the purchase of 50 million bushels of wheat from the present crop and is exploring the possibilities of a long term agreement. Negotiations as to prices has been reached.

Russia has fixed the grain acreage from six governments which had in order to stimulate grain production, and bring food into the cities

China's expanded wheat acreage, and slightly above average yields, produced a wheat crop of 360 million bushels, some 45 million above the 1946 crop of 309 million bushels and some 20 per cent above average.

Trapdoor Stairs Cause Many Farm Accidents

Farm accidents and their causes are analyzed in a recent report of the Dominion Bureau of Statistics dealing with non-fatal accidents on Canadian farms for the 12 months ended June 1, 1947.

It is estimated that there were 87,200 accidents on farm homes, and 30,000 of these were to men. The most frequent injury arose from falls, and the most frequent reason was the existence of open trap doors and inadequate protected stairs. Injury from falls was more of a hazard to young and old persons than to those in intermediate age groups. On the other hand, injury from cutting and piercing tools and from crushing, which were almost as frequent as injuries from falls, occurred most often among persons between 20 to 44 years of age, and were most sustained while handling agricultural machinery.

Miscellaneous accidents totalled 10,000 and a frequent cause was injury from horses. Bursting of tractors and other engines, automobile accidents, and poisonous gas, also figured among the miscellaneous causes.

Accidents were most frequent in fields and woodlots where nearly 60 per cent occured. Barns, and outbuildings were the next most common place of accident, followed by accidents off the farm, and lastly by injuries sustained in the farm house. Though accidents which occur off the farm may not be considered to be farm accidents in a strict sense, they are so closely associated with rural life that they cannot be excluded. Accidents in this class include automobile accidents, falls from horses and bicycles, runaway teams and falls while travelling to and from the farm.

WEEDS ARE PROLIFIC

Early weeds, such as mustard, can produce two crops of seed a year, and each plant produces hundreds of viable seeds, which, unlike the seeds of cultivated plants, can remain alive in the soil for many years. Mustard seed has been known to remain alive for 50 years. Perennial weeds reproduced by seed and by root stalk. A minute section of the root of couch grass is capable of producing a new plant.

Pay Last Respects to William Oxbaldeston

Honoring the esteem in which he was held in the district, large numbers of friends and neighbors gathered at the Partridge Hill Community Hall on Tuesday, December 2 to pay their last respects to Mr William Oxbaldeston, a pioneer of the district, who passed away November 28th at the age of 69 years, 3 months.

Mr. Oxbaldeston was born in Bromfield, Shrop Country, Ontario, on August 25, 1898. As a young man he homesteaded at Cherry Bound, Ontario. After farming for some years in Ontario he, with his family of eight, came west settling in the Partridge Hill district on April 1st, 1908, where he lived on the home farm until his death. Mr. Oxbaldeston or "Grandpa" as he was known to many, will be keenly missed in the district. He took a keen interest in all community affairs, the church and Sunday School claiming his special attention. He served as Sunday School Superintendent for ten years in Ontario and for nearly thirty years in the Partridge Hill Sunday School. He was, for many years, Elder in the former Methodist church and following union he was chosen as Elder in which he continued until his death.

He was president of the Bible Society organization, and upon retiring from that office a year ago he was presented with a Life Membership in the British and Foreign Bible Society. For eight years he served as Councillor in the Municipal District of Clover Bar, and for a number of years as Weed Inspector.

The funeral service was conducted by Rev W. D Ross Interment took place in the Fort Saskatchewan Cemetery. Pallbearers were six grandsons of the deceased, Leonard Allen, Kenneth Allen, Earl Allen, Arnold Allen, Bill Johnson and George Wheat.

He leaves to mourn his passing, two daughters, Mrs. Robt Allen of Edmonton, Mrs. [illegible] of Fort Saskatchewan; three sons, Albert of Vermilion, Amos and George of Fort Saskatchewan; one sister, Mrs. Thomas Small of Lansing, Michigan, also 26 grandchildren and 24 great grandchildren.

Many beautiful floral offerings were received.

SMALL BEGINNINGS

Small mistakes can develop into major miseries. That, the medical profession reminds Canadians, is particularly true in health matters. Seemingly trivial ailments may easily develop into serious illness. "Colds", for instance, pave the way for a host of afflictions, such as sinusitis, bronchitis and pneumonia.

The doctors warn us that it is wise to guard against the apparently minor ailments, and to take prompt action when they occur, to avert dangerous complications.

POULTRY EXPORT CONTROLS LIKELY TO BE REMOVED

Export permits for dressed poultry are now being granted freely, and there is every likelihood that poultry will be removed from control entirely in the near future. During 1946 a contract was signed with the United Kingdom for 15,000,000 pounds of dressed poultry, to be supplied through the Special Products Board. This contract was carried over into 1947, and when completed last July, a little more than the 12,000,000 pounds had been shipped. The completion of this contract with the United Kingdom, and the fact that it will not likely be renewed in view of the dollar crisis, has resulted in the relaxation of export controls over live and dressed poultry.

AMERICAN RAILWAYS AVOID BORDER CONGESTION

The Association of American Railroads has placed an embargo on shipments from the United States to Canada, other than coal, petroleum products and other commodities for which satisfactory evidence can be produced to show that their importation into Canada will not be prohibited. This action was taken in an effort to prevent the congestion of railroad equipment at border points, and follows the imposition by Canada of restrictions on imports.

MONEY

"Organized free individualism has its opportunity to prove its worth in the world as never before as against state controls. If it fails it will be due to the selfishness of those who control dollars and sterling; money must be made the servant of mankind and not its master, and if it is utilized so as to pull the world through to present difficulties it will indicate that our system is on the right road."

This pronouncement came from the Rt. Hon. J. G. Gardiner, Minister of Agriculture, as he spoke to the Rotary Club of Montreal and answered three daily papers which had questioned his right or competence to speak on matters other than agriculture. Observers here are satisfied that the action of United States and Britain in working out the Marshall plan for European recovery proves that the free democracies will live up to the high ideal proposed and that Canada will do its full part.

Radiograms

IT WAS WORTH IT

In the cold hours of Thursday, November 20, several dreary-eyed CJOA-Ites went to their posts nearly 3 hours earlier—3:00 a.m. to be exact. At 4:00 they relayed the actuality broadcast of the Royal wedding to many listeners—more than we originally predicted. Their efforts were worthwhile as indicated by letter (one of many reproduced hereunder):

"Thanks many, many times for operating your station at 4:00 a.m. today, thereby enabling my wife and me to be "In London". The reception (radio I mean) was marvellous and no doubt many others enjoyed those two hours as we did; you fellows made it possible for us because our set does not 'go places'."

Flight 702 with Christmas Seals.

◆ Recipes for Milady ◆

Chicken dinner for Sunday or any other day is always relished by every member of the family.

The homemaker becomes a magician when, with a long handled spoon, instead of a wand, she turns a scowling fowl into chicken pie, fricasseed chicken or oven roast chicken. Just as the magician with his quick, sure movements deceives but delights his audience, she may, by following the correct procedure, please her family.

The home economists of the Canada Packers Service, Montreal, Department of Agriculture, offer a few hints to help in the home economy.

It may be that there are some old fowl that are not paying their way and should be culled from the flock or the quantity of fowl on the market at an attractive price may appeal to the good buyer.

BRAISED CHICKEN

1 chicken, 2½ to 4 pounds
¼ cup flour
1 teaspoon salt
2 tablespoons mild-flavored fat
1½ cups hot water or scalded milk
Salt and pepper
Paprika
Chopped parsley

Cut fowl into serving pieces. Place flour and salt in a paper bag with pieces and shake until meat is coated. Brown in the hot fat. Remove browned pieces to a casserole, sprinkle with salt, pepper and paprika. Dot each piece with a bit of fat, add the water and cover closely. Bake in a moderate slow oven, 325 degrees F., for 1½ to 2 hours, or cook in a heavy pan on top of the stove. Remove chicken to a hot platter and surround with a ring of buttered noodles. Thicken remaining liquid with a little flour stirring until smooth and adding a little more liquid if necessary. Serve over chicken. Six servings.

CHICKEN JOHNNY CAKE

2 tablespoons chicken fat or other fat
2 cups diced cooked chicken
½ cup corn meal
1½ cups sifted pastry flour
1 tablespoon sugar
½ teaspoon salt
2 teaspoons baking powder
1 teaspoon celery seed or celery salt
1 beaten egg
¾ cup milk
1 tablespoon minced parsley
1 cup melted chicken fat or other fat.

Melt the 2 tablespoons fat in a 10x10 inch baking pan. Spread the chicken evenly over the bottom of the pan. Sift dry ingredients into bowl. Add egg, milk and parsley, stirring lightly until well blended. Pour batter over chicken, spreading evenly. Bake in a very hot oven, 425 degrees F., for 20 to 30 minutes. Unmould, invert on platter and serve from baking dish. Garnish with parsley and pimento. Serve immediately with chicken or giblet gravy or seasoned cream sauce made with part chicken stock. Six servings.

DROP THAT KNIFE!

Housewarkers, spare the knife, when attacking the vegetables. Health authorities say that you will save health as well as time, by not peeling them. If the skins are left on vegetables the vitamins and minerals are kept right where they belong and do not simply escape into cooking water.

And of course eat the skins, too. That is where the best of the food value will be found. For complete safety the skins when they are to be eaten should be scrubbed thoroughly before cooking.

ITEMS OF CANADIANA

At Red Deer, Alberta, the Advocate draws a big headline as 87 divorce cases appear on the Supreme docket there . . . Pictou, N.S. produces the champion gabber, John L. Sommel, who from a pore of land 45 ft by 16 harvested 3 spuds, 4 pork rinkes, 17 pecks tomatoes, 500 head lettuce, 4 peck stirring beans, 5 lbs. seed beans, 7 peeks spuds, 3 quarts of alps, 102 lbs carro's, 14 mangels . . .

The Bow-Lum, Sask., Eagle, reports that 2 daughters of Thos. McGaughlan of Gimsdlen, aged 12 and 6 on horses ran down two coyotes and were in at the kill . . . starting early in Lynda Lake Nicholson of Estevan, Sask., was at three months was up for her first plane ride with her parents who are keeping a log-book of flying time for her for the future when it is ready to take become a moving day in Verdun, Man., where R Corbbin decided to build a house. When it was completed they moved in, then the L. H. Lacy's who were living in a run around house moved next door and into the house vacated by Corbbin. The store where the Lacys moved from was rebuilt and renovated, and the No Art Beauty Salon moved from their location next the Royal Bank to the new shop. It is possible that by Ted's barber shop to move into the building vacated by the beauty salon, which had been purchased by Mr. Trollvog . . . Mr and Mrs. J H. Passmore of Pearsland, B.C. built themselves a 27-foot trailer with four rooms which can all be bedrooms, and started off for California . . . Remembrance Day residents of Wanda, Man., remembering drought years when Lumpkin sent vegetables to the dried out areas, recuperated by sending a load of vegetables to the district for those flooded out this year . . .

Reports the Grenfell, Sask., Sun, about a meeting down the line near there. The speaker tried to reanimate a bored and sleepy audience with "now I pause to ask myself one final question". A voice from the back of the hall cried, "you'll not get an intelligent answer".

The Peace River Record-Gazette is equated because less than 200 people turned out to a meeting at which a rational order of a politician to read out the beginning of a and it was a big figure in the world had had big enough to accommodate people would have been available . . .

The big event Maple Creek News takes it comes to opening politicians always has a good audience, as there's a guest speaker . . .

Social studies speakers are given to reading about the down trodden Westerner, forced out of their homes by the grasping mortgage and loan companies. We take leave to assure here that many years and we do not know of a single family thrown out into the streets of the town, or a single farm family clutched out into the cold by a sheriff's posse by those greedy monsters. We have plenty of CCF policies in and around Maple Creek from them we would be glad to learn of specific families put out of their homes by these alleged rapacious companies. Any person can use a wealth of words to pull the old sob stuff, but facts, not gab, is what tells the correct story.

To the point is the Prince Albert Herald with this observation. "The Communists must find it difficult to convince the average Canadian that he or she is having a rough time. At any rate, the theatre, the race track, the beer parlors and all the spots for real recreation are

UNIVERSITY OF MANITOBA Imports Devon Sheep to Improve Canadian Strain.

An interesting new sheep — the Devon Closewool — arrived at Winnipeg over Canadian National Railways; the work conscientious the University of Manitoba. As far as is known the sheep arrived here are the first to be brought to the North American continent.

The Devon Closewool is a young breed in England, the breed society having been formed in 1932, and dates back to crosses between Devon Longwool and Exmoor Horn. The animals are adaptable to a wide range of climate and wide treatment and thrive well on high and open pasture. It is hoped they will be the answer to the Canadian sheepmen's search for a new type and breed.

It is the university's intention to test the Devon Closewool in the pure state and also undertake some crossing. No breeding stock will be released until the sheep has been proven under Canadian conditions.

It is a white faced breed without horns; early maturing, medium in size, short legged and stocky with well developed head quarters. The wool is a low medium staple popular with British manufacturers. The National Association of Sheep Breeders of Great Britain donated the sheep to the university, which received transport as [illegible]

Farm Fires Cost Over $10 Million Annually

CLEANLINESS

Personal cleanliness, the medical people remind us, helps prevent the spread of communicable diseases. It also minimizes the danger of skin ailments, reducing the risk of infecting wounds.

Public health authorities remind Canadians that personal cleanliness means sanitary living and working quarters, and, of course, clean linen and outer clothing, as well as good hygiene of skin, hair, nail, teeth and feet.

Always considerable seasonal variation, the late spring and summer bring the seasons in which fires are most frequent. Nearly half of all farm fires occur in the 4 months of May to August.

Yes Kiddies, There is a Reddy Kilowatt!

Yes, those really is a Reddy Kilowatt. He exists as certainly as modern comforts, conveniences and economies of electric service exist . . . and you know how real they are and how much they add to the enjoyment of living. There are some who say he cannot be but they are offended by the suspicion of a sceptical eye. They think nothing can be which cannot be seen.

Nobody sees Reddy Kilowatt, but then who has seen Santa Claus coming down the chimney? Just as Santa symbolizes a beautiful feeling of goodwill and of giving to others, so does Reddy Kilowatt stand for all the many wonderful things that electricity accomplishes for humanity.

You could turn apart your electric motor but you would find only wheels, gears and shafts. You wouldn't see Reddy Kilowatt but without him those wheels wouldn't turn and the wires leading to your lamps and appliances would be without purpose.

Life would indeed be dreary without Reddy Kilowatt. It would be as dreary as though there were no Santa children. There would be hard, heart-breaking work to do . . . many hours of toil to the end by the fireplace.

Yes, there is a Reddy Kilowatt! Thank goodness he lives, and lives forever. A thousand years from now he will continue to make glad the hearts of people and make lighter their everyday burdens.

On Sunday, November 30th, Dianna Lynn, infant daughter of Mr and Mrs. Walter Stroman was christened at the Bethany Lutheran Church by Rev Gordon Schultz Mr and Mrs Elmer Strauss of [illegible] were the sponsors.

Mr and Mrs. Karl [illegible] were hosts to a group of friends and relatives on Monday, December 1st, honoring them on their 30th wedding anniversary. The couple were recipients of many lovely gifts for which they gratefully thanked everyone.

Miss [illegible] has returned to Edmonton to resume her duties at the Y.W.C.A.

On Tuesday, December 2nd the W.E.I. Club held their general meeting at the Mansfield school. The club's constitution was presented and accepted Herbert Gabert was elected to the position of second vice president, a capacity which had not been filled since the [illegible] was formed.

Mr and Mrs. John Inkster and [illegible] of Beaumont were week-end visitors at the home of Mr. and Mrs. John Fleming.

The Bruderheim hockey team visited the W.E.I. hockey club on Monday evening, December 8th. The Bruderheim boys showed a new display of well organized hockey. The local boys played gamely, but do need more reinforcements, more practice and a new goal stick. Yes, the score was quite one-sided, but wait until the locals really get organized. Remember boys hockey practice Monday evenings.

Bremner

ago of food for an overseas parcel.

The treasurers of the locals reported a good bank balance.

Mr. and Mrs. G. R. Marler were chosen as delegates to the Annual U.F.A. Convention held in Edmonton.

Born to Mr. and Mrs. Keith Allen on Monday November 29th a son, also to Mr. and Mrs. L. Schuster, Sunday, November 30th a son.

The Rosemary and Clover Bar Two by Two (Mrs. Allen) received a telephone whist December 3rd.

Mrs. F. G. Allen held a quilting party at her home recently. A few ladies of the district were invited to help her complete it.

Mr. R. C. Marler has just returned from a business trip to Ottawa.

Pupils of Clover Bar Centre, with their teacher Miss Beatrice Reynolds, are holding a Christmas Concert this year. Watch for the date.

The Country Editor

Continued from Page Five

spending are hard put to it to find room for their patrons."

Another publication has figures to indicate that this nation is hardly suffering from a terrible shortage of purchasing power, owing to low incomes . . . points out that in 1946, the Canadian people spent $1.3 billion on food, compared with $917 million in 1939; on clothing, $1.0 billion in 1946 as compared with $619 million in 1939; on household operation and utilities, $993 million in 1946 compared with $717 million in 1939; on tobacco and alcoholic beverages, $993 million in 1946, compared with $684 million in 1939.

Clipped, but gently: The happy couple left the wedding, were photographed, with proofs being promised in a few days. But the photographer got his prints mixed. When the envelope was duly opened by the bride inside were several candles of a baby lying on a rug, with the inscription on the back of the picture "Please state clearly which size you want, and how many."

School Flashes

Sgt. Muir of the R.C.M.P. was down this week to observe the School Patrol in action.

The first game of the three team house league was played last Wednesday after school.

Supt. J. J. Lobban visited the school on inspection duties in Miss E. Lowbe's room last week.

Do better thinking for people and you will think better of them.

Outline Work of Agric. Service Boards

The work of Alberta Agricultural Service Boards was outlined recently by W Lobay, Supervisor of these Boards for the Alberta Department of Agriculture. Mr Lobay points out that although Service Boards in Alberta have been in operation for only 5 years they are already showing what they can do in meeting the weed and [illegible] problems of their communities.

In carrying out the broad objectives of soil conservation and weed control the Agricultural Service Boards have done much to help the farmer with his immediate problems. They help to obtain clean seed of good quality for the district. Some of them operate seed cleaning equipment. Forage seed is obtained and distributed. Arrangements are made to fill gullies on fields where there is danger of further erosion. Demonstration fields are established in various parts of each Municipality to show best soil use in the district. The Field Supervisor and the District Agriculturist keep farmers posted on weed chemicals and spraying equipment.

Largely through the efforts of the Service Board, some municipalities are back-sloping roads and are finding, much to their surprise, that the costs incurred in building back-sloped roads are not significantly higher than the costs incurred in building the straight back road. Some Boards aid in farmstead planning and in helping out the young beginning farmer in establish himself. Kodachrome slides are taken during summer months and are used for illustration at the winter meetings sponsored by the Boards. A continuous educational program keeps the farmers up-to-date on all matters that have to do with good farming. Service Board activities are many, and [illegible] are available to [illegible] every [illegible] in the municipality.

Tuberculosis takes 10 Canadian lives every day. In 1946 the death [illegible]

The United Church Sunday Schools in town and at Good Hope will hold Christmas programs at their respective meeting hours this Sunday.

F.H.S. Curlers Enter Prov-Dom Competition

There has been established through the generosity of the Winnipeg Free Press and Telier, Pearson and Carson (Can.) Ltd., the means of declaring a High School Curling Champion for Western Canada.

A rink has been chosen by the principal, Mr. Larson, composed of the following: George Holt, Joay McLellan, Graham O'Brien and Elwood Galloway to represent the Fort High School in the bonspiel with the following prizes and awards—

a. For the District Winner—
Four Felt Coats
b. For the Northern Winner—
1. Four Bronze Miniatures of Curling Figures.
2. Four Felt Coats.
c. For the Provincial Winner—
1. The Taylor Pearson Carson (Canada) Ltd. Trophy.
2. Four Silver Miniatures of Curling Figures.
3. Four Jackets and Sweaters with Felt Crests.
4. Expenses to Winnipeg for the Dominion Finals.

All expenses up to the provincial playoffs are to be borne by the rink itself and if successful the rink will travel to Winnipeg for the Dominion Finals at the expense of Taylor Pearson Carson (Can.) Ltd

This bonspiel is also sponsored by the High School Curling Committee of which Dr. W. H. Swift, Deputy Minister of Education, is chairman and by the Alberta Curling Association with which the Fort Saskatchewan Curling Club is affiliated.

Fort Team Wins First League Game

A small crowd witnessed the first League game to be played this season, Wednesday evening, when the Fort tangl d with the Namao Team. The Fort was the victor with a score of 2 to 1, with honors going to Ted Parada, assisted by W. Thomson and Ed Gauf and H. Calvert, assisted by Ed Gauf and W. Buxton. The one Namao goal was scored by Cliff Cosnier from S. Samis.

The first period was quite slow, but the second proved to be faster when T. d made the first goal and also got two minutes for cross checking. There was more action in the third period as both teams were pushing for goals. The Fort made their second goal early in the period but this was followed shortly by Namao who sneaked one in. This kept our boys on the move but they succeeded in holding their lead—keep it up, huh?

It is understood that the Brenner Hockey Team has joined the League, which will result in some schedule being drawn up.

FORT CURLING CLUB MEETING HELD MONDAY

A meeting of the Fort Curling Club was held Monday evening in the Curling Rink with a large number present. In all probability there will be 24 rinks from the country, 24 from the town and 6 ladies' rinks. The list of rinks will be published at a later date when they are all made up.

Large Assemblage Celebrate 25th Anniversary Rebekah Lodge

On Wednesday evening, December 10th, Princess Rebekah Lodge No. 82, celebrated 25 years of successful Oddfellowship. A number of old Rebekahs and Oddfellows were among those present for the occasion and renewed old acquaintances.

A short programme was followed for the evening's entertainment, which was highlighted by the presentation of a corsage of roses to the only charter member present, Sister Minnie Simmons, Past Noble Grand. Sister Katherine Dennis, Past Noble Grand, made the presentation on behalf of the officers and members present.

Sister Simmons after thanking the members, let her thoughts run back over the past years and told of several interesting reminiscences. Brother W. G. Shera, Past Grand Master, now deputy, was recalled by many of those present for the wonderful work he did for the lodges in the first years of its existence here

Municipal Council Minutes

The Council of the Municipal District of Strathcona held its meeting on Monday and Tuesday, the 8th and 9th of December, with all members in attendance.

The minutes of the previous meeting were adopted as well as the Financial Statement for the month of November.

The Secretary submitted a notice stating the Council that the Board of Public Utility Commission would hear the application of the residents of Pleasant View to have their sub-division annexed by the city. The hearing will be held in the Civic Block on Wednesday, the 17 h of December at 10 o'clock a.m.

Considerable time was spent in discussing the Public Works Statement for the month of November as well as the crew's statement for that month.

The Council reviewed at some length the various clauses of insurance carried on buildings, property and equipment owned by the district. It was felt that an effort should be made to consolidate all the policies now held into one general policy for the district. It was also pointed out that at the recent convention a resolution was passed urging the Executive of that body to investigate some form of public liability insurance at a much cheaper rate than that which is now in effect.

Pending the proposed consolidation of the district's insurance policies, the Secretary was authorized to place insurance to the extent of $30,000.00 on the road equipment owned by the district

An order was placed with the Westcel Products for part of the district's culvert requirements for 1948

Mr R. Hennig, Chairman of the Clover Bar School Division was in attendance to discuss the possibility of having the Council gravel a school bus route along the township line from Tyne Valley School, then west four miles and north to where it intersects the Partridge Hills road. He advised that the request was due to the inability of the division to get a teacher for that school to replace the one who had recently left without notice.

In the resulting discussion it was pointed out that the major part of the district's gravelling program for 1947 which had just been finished at an approximate cost of $27,000.00 would in all probability be used dry school house. While the Council was anxious to co-operate in every way to insure that all children of the district would receive a proper education, it felt it could not commit itself to this project for the time being. Mr. Adamson was a committee appointed to investigate the offer

Large Crowd Here for 'Spiel and Official Opening New Curling Rink

Fort Saskatchewan can now boast of having one of the Finest curling rinks of any town in Alberta. The new four-sheet rink which has been under construction for some time was officially opened Friday evening, December 12th and was attended by curling enthusiasts of the town and district and visiting rinks from Edmonton, Elk Island, Lamont and Bruderheim.

Much of the credit for the new rink goes to president, Mr Clive Low. Mr. J. D. McLeod, secretary Mr A. B. King and Mr. Percy Sherman who were in charge of financing the project

Major C. E. W. Hager, in a brief speech, commended the curling club for its enterprise and hoped that all circles in the town and district would make fullest use of the new rink. Others who spoke along similar lines were J. D McLeod, honorary president of the club Bruce Hamilton of Edmonton, president of the Alberta Curling association; president Charles F. Lowe, Rev W. D Race, club chaplain and George Mackichan of the Edmonton Journal.

Mr. Arnold Cornwallace, oldest members of the Fort Club had the honor of throwing the first rock at the formal opening

Earlier in the day 12 rinks competed in a Farmers' Bonspiel featuring primary and secondary competitions, but only one—the secondary—was completed. In this event the rink skipped by H A Schultz of Bruderheim won from the quartette skipped by Her Chick of Horse Hills 8 to 3 in a game that went over six ends. The winning rink: Skip H. A. Schultz, Bert Schultz, R. F Schultz and Ted Sampert.

Skip Joe Lesnick of the Fort and skip William Thomas of Josephburg will play off in the primary final at a later date.

Following is a complete list of skips competing in the Farmers Bonspiel:

Jim Douglas of Fort Saskatchewan, William Thomas of Josephburg, Charles Galloway of Fort Saskatchewan, Ray Hutchison of Fort Saskatchewan, H. A. Schultz of Bruderheim, Ed Underschultz of Sentford, Jules Brackman of Horse Hills, David Bolejoli of Fort Saskatchewan, Her Chick of Horse Hills, Rene Lepage of Fort Saskatchewan and James Almond of Fort Saskatchewan

Visiting rinks who played following the ceremonies were skipped by Ted Rowes of the Granite (an R.C.M.P. quartette) J. A. Hills of the Edmonton Club, Arnold Carcoodon of the Royal, Dr. R. I. Love of Elk Island, H. D. Strang of Bruderheim, Jack Moore of Lamont, Roy Hartley of Edmonton Thistle, Herb Cosnef of the Edmonton Club and Harry Robertson with an Imperial Oil aggregation. Bill White, president of the Edmonton Royal and former Fort Saskatchewan resident, was also among the visitors

The Club wish to thank Mr. George Pannell for installing a lead speaker that made it possible for all present to hear the official ceremonies

During the evening a large crowd was on hand to watch the fast moving exhibition game between the Fort and Morinville Hockey Teams The Fort came out on top with the score ending at 6 to 4. Referees were Bob Hanby and Bob Gauf.

To wind up an eventful day to Old Time dancing was held in the Community Hall. The door prize was won by Bertha Pinker and the cake raffled by the Girl's Club was won by Fred Cramaner. Lunch was served in the basement by members of the Ladies Curling Club

The annual meeting of the Bremner W.A. met a. the home of Mrs. F Laiam.

Several storm windows have been purchased for the church.

The following officers were elected for the new year: Mrs. S. G. Radway, President; Mrs. R. Duncan, Vice President; Mrs. A. Veloso, Secretary, Mrs. A. Daly, Treasurer; also Mrs. C. H. Wilkinson, Mrs. Cooper, Mrs. C. H. Wilkinson, W.M.S. Representative; Mrs S. Loisan, Cradle Roll.

The January meeting will be held at Mrs. F. Laiam's.

Mr. and Mrs. Mark Loisan returned home last week from a visit in the east

◆ Recipes for Milady ◆

Pronto are compelled to write of beautiful and soul stirring pictures or episodes of life, put sentimentally words are written of simple, everyday things. As Rupert Brooke described in "The strong crust of friendly bread" or his poem "The Great Lover" do the aroma of freshly baked bread with its tender, crisp, crust may well call forth poetic thoughts today.

With the many exigencies of modern living, the task of bread baking has almost gone from the home. The home economist of the Consumer Section, Dominion Department of Agriculture say that with up to-date methods it is easy to provide hot rolls or special types of quick bread without taking too much time from the daily routine.

BUTTERSCOTCH CRUNCH COFFEE MUFFINS

1½ cups sifted all-purpose flour OR 1 2 3 cups sifted pastry flour
¼ cup sugar
2 teaspoons baking powder
½ teaspoon salt
1 egg
½ cup milk
2 tablespoons melted shortening
½ cup butterscotch crunch topping

Sift together dry ingredients. Beat egg, add milk and shortening. Stir into dry ingredients. Mix only enough to moisten flour. Pour into lightly greased muffin tins. Sprinkle with the following topping. Bake in hot oven, 400 degrees F., 25 to 30 minutes. Yield: 9 muffins

BUTTERSCOTCH CRUNCH TOPPING

1½ tablespoons butter
¼ cup brown sugar
¼ tablespoon flour
½ teaspoon vanilla
1 cup cornflakes or wheat flakes

Melt the butter and stir into it the combined sugar and flour. Add the water and cook over low heat, stirring to blend, for about 3 minutes. Quickly pour over the cereal, mixing thoroughly. Spread in a shallow pan and cool. Sprinkle over muffins.

LUNCHEON CHEESE CAKES

2 cakes compressed yeast
½ cup of lukewarm water
1 tablespoon sugar
1 cup shortening
1 teaspoon salt
2 eggs
1 1 2 cups grated cheese
1½ teaspoons dry mustard
1¾ cups all-purpose flour

Dissolve yeast in lukewarm water and sugar. Cream shortening and salt together. Add eggs unbeaten, one at a time, and beat well after each addition. Add grated cheese and beat until thoroughly blended. Add dissolved yeast. Sift together the mustard and flour and add gradually to first mixture. Beat well Drop a heaping teaspoonful into greased muffin pans or onto a greased baking sheet, allowing about 2 inches space between each. Let rise until light and spongy, about 1 hour. Bake in a moderately hot oven, 375 degrees F., for 20 minutes. Makes 24 rolls.

OATMEAL FARLS (SCONES)

1 cup rolled pastry flour
2 teaspoons baking powder
½ teaspoon salt
1 cup fine oatmeal
3 tablespoons milk-flavored fat
2 2 cup milk

Sift together the flour, baking powder and salt. Add oatmeal. Blend in the fat and add milk. Knead lightly on a floured board until smooth. Roll to ¼-in. thickness and cut into triangular shapes or rounds. Brush top of each with milk and bake in a hot oven, 425 degrees F. for 15 minutes. Makes 12 medium-sized Farls or Scones.

EXTENDED HOLIDAY

EATON employees throughout Canada will enjoy an extended Christmas holiday this year.

All Company premises will be closed Christmas Day (Thursday, December 25) and the Friday and Saturday following, reopening 9:30 o'clock Monday morning, December 29.

This will enable employees to share the advantages of the long week-end, extending from Wednesday evening, 5:30 o'clock, to Monday morning.

Do your Christmas shopping as early as possible during usual store hours, which will be extended with no night shopping, and then, please provide for your week-end needs to carry you over the extended holiday period. Thank you.

Extra staff will aid in ensuring the best service.

T. EATON Co.

Timely Farm Notes

By E. J. Whitbread, District Agriculturist

GREATER ATTENTION TO SEED GRAIN REQUIRED

Choice of variety, good attention to cleaning of home grown grain are among the recommendations of the Alberta Department of Agriculture.

There are so many varieties, that careful study is required to choose those best suited to the conditions under which they are to be grown and for the best use that is to be made of them. A study of the different varieties is beyond the means and training of the practical farmer. It requires the assignment of specialists who devote their time to crop improvement tests and experiments at our agricultural and experimental stations. Each year, the results of variety tests in this province are assembled by the Alberta Varietal Sensation Committee and are then passed on to the farmer in the form of a published list of recommended varieties.

Unless good seed is employed, any attention given to the selection of crop varieties is lost. Good seed must be free from impurities and must possess strong germination to the cleaning and treatment of home-grown seed grain offers one of the most important measures towards crop improvement on many farms in Alberta. Seed cleaning is not difficult, with the result that insufficient care and time are devoted to this work. Where the ordinary fanning mill is in good working order, and carefully adjusted to meet the special requirements of a particular seed sample, a reasonably good grade of seed can be obtained.

THE FARM SHELTERBELT

Farmers wishing to plant a shelterbelt must be beforehanded in making application for trees. The Dominion Forestry Station at Indian Head, Saskatchewan, supplies Caragana, Green Ash, American Elm and Russian Poplar trees free of charge. Evergreen trees cost one cent each. Applications on printed forms must be submitted by the end of February. The land must be summerfallowed and the trees are supplied the following spring. If trees are required for 1948 a decision should be made to Indian Head before the end of March 1948.

In spite of the permanency of trees many say that they are planted in the right place. Now is a good time to make plans. A plan of the whole farmstead should be carefully drafted on paper by a scale of say 20 yards to the inch. Only in this way can the area to be endowed and the location of the various plantings be determined. Farmers who desire assistance in planning their home grounds should consult the Farm-stead Planning Service, Alberta Department of Agriculture, Edmonton.

ADVANTAGES OF FORAGE CROP MIXTURES

Mixtures of forage crops can be used to advantage, advises J. E. Birdsall, Supervisor of Crop Improvement. Many fields now sown to Brome, Crested Wheat Grass or Timothy alone, not producing as large yields as they should, and is the feed as nutritious as it might

HOW MUCH SUGAR?

Many adults required milk only as a children's beverage. They know that it is essential for development of the youngsters but feel that they have outgrown it, while their much warmth and acquire a taste for other beverages.

Actually every soldiers learned, during the days that milk has many merits and it is a favorite drink with athletes too.

Milk the nutritious authorities remind us, provides just about everything in food value—calcium, protein, minerals, large amounts of vitamin A, and some of the other vitamins. It is definitely a food for all ages.

Up until November 1 not over 5% of the intended wheat acreage was seeded in the six states of Nebraska Kansas, Oklahoma, New Mexico, Texas and Colorado.

Distributed Responsibility

Distribute the wealth—that is the totalitarian cry. Distribute the responsibility, that is the democratic way. They are both quite different but both tend to break down.

Those who favor equal distribution of wealth lose interest when they find how little wealth they get and begin to live under ruinous scarcity. Those who favor democratic sharing of responsibility lose interest when they find how much responsibility they get. They revert to irresponsible grabbing for themselves—an open invitation to dictators and bureaucrats to step in and take control.

This vicious cycle can be broken in the democratic way only by men who place responsibility for others ahead of rights, ease, and comfort for themselves. There are farmers who harvest unprofitable crops to that others may have more to eat. There are wholesalers who move surplus stock at prices which benefit, not the purchaser. There are manufacturers who put people before profits and produce to meet human needs rather than a fin ancier's approval. There are retailers who, in spite of rising costs, take as much less as they can themselves in order to hold down the rising price spiral.

Such men, dividing the responsibility for conserving and creating wealth instead of securing responsibility for dividing wealth, are the men who hold democracy against totalitarian invasion. Are you taking your share of this vital responsibility? Or are you simply demanding a larger share of democracy's benefits while paying nothing of its costs?

If we're in a dying world it's because we set a dying pace (except where our own desires are concerned

World of Wheat

By H. G. L. STRANGE
Director "The Crop Testing Plant"

IMPROVEMENT IN WHEAT QUALITY

The "Crop Testing Plant" has just finished the compilation of the quality of last year's crop, of which each sample representing a field of when produced this past year has been grown. Figures show that over 50 per cent of all the samples tested graded "A" compared with 34 per cent in 1946, 21 per cent in 1945 and 38 per cent for 1944 (but remember a steady yearly improvement from 21 per cent of the samples however, still grade only "C" and "Feed".

Of the samples tested with 47 per cent last year, 29 per cent in 1945 and 17 per cent in 1944 again a steady increase in percentage of these last two "C" and "Mixtures" and yet at the same time indicating there is still considerable room for further improvement for a farmer growing a "C" or "Mixtures" crop unquestionably must receive the full returns he should from his variety and grade but even when there is the highest percentage of "A's" with 66 per cent. Therefore farmers with 66 per cent. Reasons and Apex each with 61 per cent, farmers in the most favorable variety group only 21 per cent of "A's" 3.75 per cent of all the samples tested were of a grade entirely different from the variety the farmer thought he was growing, again here a considerable room for improvement.

ITEMS OF INTEREST IN THE WORLD OF POSSIBILITIES

World production of wheat in 1947 amounts to 2,70[illegible] bushels, slightly over 5,325 million bushels or 1,965 million less than the 1935-39 average. Of 2,365 million bushels that production is placed at 3,805 million bushels—somewhat below the 1946 production of 3,945 million and the 1935-39 average of 4,300 million bushels.

Russia's 1947 wheat production is now estimated at 975 million bushels, compared with 780 million harvested in 1946, and the pre-war average of 1,340 million bushels. Official estimates now place South Africa's wheat production at 13.3 million bushels, some 4.4 million above last year's production, and 2.9 million above the 1935-39 average of 103 million bushels.

Cheaper Christmas Travel

A Christmas travel package will be offered to patrons of the Canadian National Railways Tickets will be on sale at the rate of single fare and one half for the round trip from Saturday, December 20, 1947, up to and including January 1, 1948, and will be good to return leaving destination up to midnight, Wednesday, January 7, 1948. These low fares will apply between all stations in Canada and tickets will be good in all classes of accommodation.

T.B. Seal Sale Reminders in Mail

Reminders are now in the mail to all those who received Christmas Seals last year in connection with the campaign against tuberculosis, according to officials of the Alberta Tuberculosis Association, as it is expected that the annual sale will be launched in the province with contributions amounting to thousands of dollars. To date, however, only a few have been received.

These letters, some 12,000 being mailed throughout the province, remind recipients of making a contribution to the campaign against tuberculosis, fight against which has claimed the lives of many of another, delayed sending of the letter, hoped that the gentle reminders now in the mail would be sufficient to bring in the contributions.

Christmas Seals sold this year in the province totalled $145,000. With this the association hopes to extend its campaign of education and prevention and to expand its research program and its educational activities.

Greetings from the
BREWING INDUSTRY OF ALBERTA

Come And See Us At Work, Farmers
"Let There Be Light" Between Us
You've heard a lot of untruthful things said about The Winnipeg Grain Exchange and its Members and operations. But we should like you to come in and see us personally and discover how our Members operate for your benefit. Ask questions of the President or the Secretary, or any other Member of You will get straight answers. The more you know about The Exchange, the less likely you are to be influenced by Pool propaganda against The Exchange and the quicker you will want to get top world prices for your wheat, instead of a controlled price far below the open market price.
"Let there be light" between you and us. We are your agents. You cannot travel from Chino to Peru to sell grain. Our Members do that for you, in more than sixty countries of the world.
And remember, we have no more to do with "fixing" prices for wheat, oats or barley than you have. World supply and demand governs prices. You, too, are a well-informed man, know this
You and our Members are in the grain business together. You produce it—we find markets for it. Without you, we could not exist (neither could the Pools). Without us, how could you find markets?
We favour a floor price for wheat administered by the Canadian Wheat Board—but we think you should have the opportunity to get top world prices, through the open market, NOW to offset possible lower prices a few years from now, when world supply overtakes demand, and also to offset the losses you took in the depressed thirties. Meanwhile mail the coupon below for a booklet explaining the Canadian Wheat Board Act and how you are regulated and controlled by it.
To The Winnipeg Grain Exchange,
Winnipeg, Manitoba.
Please mail booklet to which you refer above.

Andrassen Correspondent Clarifies Rink Situation

As reporter of the Andrassen Community League I would like to correct an erroneous impression created by a representative of the late Athletic Club in an article in the last copy of the Record, Wednesday, December 10th, 1947.

In regard to the Hockey Team, the executive of the League had no intention of hampering it in any way, but it is strongly felt by everyone in the community, that there must not be hockey games during church and Sunday School hours. If Sunday morning is not suitable the hockey team might use the rink any other afternoon and also Monday, Tuesday, Thursday and Friday evenings.

Last year the Athletic Club was given $50 by the Guild, proceeds of the rink the year before and they obtained 1 year's grant from the Municipality which amounted to $75. The money was used for hockey and rink equipment which should rightfully belong to the community. Now the club has sold this equipment, divided the proceeds and put in their individual pockets. Is this any way to use funds?

In my opinion this money should be used to get a hand team back on the ice and I am sure arrangements could be made regarding a game and practice schedule if the boys would like to meet the league executive and talk it over

The Community League held a whist drive on December 10 Seven tables were played. First prizes went to Miss Warnock and Arthur Dowling. Consolation were received by Percy Jackman and Miss C Hamilton. Lunch was served by the committee. A total of $9.00 was cleared.

Timely Farm Notes

Continued from Page Two

ba. Rich, yield and nutritive value can be improved by growing with the grasses, one or more legumes such as Alsatic, Sweet Clover or Alsike. In the mixture, where a legume is being grown alone, the addition of a grass in many cases would be desirable. Timothy, perennial Crested Wheat or Creeping Red Fescue, would add fibre to the soil. A grass such a Brome fill in any small vacant areas where the legumes have not become established, and prevent weeds from occupying these spots. Grasses mixed with Alfalfa make it easier to store and harvest for hay They provide variety in the live stimulation and help to prevent bloating.

In the case of seed production or to supply a special demand for alfalfa hay, mixtures are not desirable, but for general purposes a mixture of at least one grass and one legume should be grown. Such a mixture has a wider adaptation, is more effective in controlling weeds, results in greater soil improvement and produces better feed than if each is grown either grasses or legumes grown alone.

Brookville

Brookville Busy Bees held a very successful Banner and Tea recently. A total of $92.35 was made for the club The money realized from the quilt was $27.51 which was given to the school children for Christmas treats.

Mr and Mrs. Gaymer have moved to the farmer Palmer place.

We have new [illegible] on the Gaymer place

Mr. and Mrs. F. Sanders and family have left the district.

The last club meeting was held at the home of Mr. Harvey with eleven members and one visitor present. Election of officers took place.

The next meeting will be held at the home of Mrs. Fred Schoen on January 14th.

West Elk Island

The Bethany Lutheran Ladies Aid will meet at the home of Mrs. Julius Jeske on Sunday evening December 21st.

Mr. Robert Hare and Mr. Wm. Schneider attended a hockey league meeting at Lamont on Saturday evening. A league consisting of six teams was formed, these being: Bruderheim, Lamont, Chipman, Pauline, Ross Creek and West Elk Island.

The complete schedule of games has not been tabulated yet, but the first league game will be played Sunday afternoon, December 21 with West Elk Island at Paulus

Partridge Hill

The W.A. and W.M.S. meeting was held on Thursday December 11th at the home of Mrs. Wilmot Allen.

A box of clothing was packed to send to Miss Ada Sandell for relief work at Kenora Miss Sandell was for many years matron at the Lamont Hospital and was stationed to her post at Kenora.

A pleasant feature of the meeting was the presentation of a Life Membership to Mrs. Winnifrith Ochs-Jenkins.

The following officers were installed for 1948: President, Mrs. V. R. Lawrence, 1st Vice President, Mrs. A. Whitson; 2nd Vice President, Mrs. H. Lawrence; Secretary-Treasurer, Mrs. Horgan Assistant; Friendship Secretary, Mrs. C. Allen; Missionary Monthly Secretary, Mrs. J. Gordon

Mr. W. Gillman of Wetaskiwin and Mr. J. B. Webb of Edmonton were renewing acquaintances in the district last week

Mr. and Mrs. Ralph Lawrence travelled to Cadomin last Friday to attend the wedding of Mrs Lawrence's sister Verona [illegible] which took place on Saturday

We regret to hear of the death of Rudy Hechen, brother of Mrs. Carl Krebs, last Sunday We extend the sympathy of the district to Mr. Krebs

MERRY CHRISTMAS

Christmas Messages from the Churches

REV. FR. C. SEWARD, O.F.M.

Christmas, the happiest day of the year may, unfortunately, become the saddest. It was a happy day for a few poor and simple shepherds on the first Christmas night over 1900 years ago. It was a sad day for most of the Chosen People of God. That night this people missed the opportunity of a lifetime, that of recognising and receiving into their midst their God and Saviour.

For thousands of years God had foretold the coming of His Divine Son upon earth. He had raised up the Jewish nation and had selected a tribe and a family from which His Son should be born. The time and place of His birth had been made known. Yet, when the fulness of time had arrived and the Son of God was born the majority of the Chosen People failed to recognize Him. "There is no room in the inn." This people had missed the opportunity of a lifetime. They had made their own plans, they had drawn up their own methods of identification for the reception of their God and Saviour. They wanted a King surrounded with glory—Christ came in humility. They wanted a rich and powerful King—Christ came in poverty and weakness. They wanted a 'superman'—Christ came clothed in our own human flesh, subject to our own weaknesses and infirmities, like unto us in all things save sin.

Christmas may still be a day of sadness and lost opportunities for many. Man is always inclined to dictate to God. Man is ever liable to draw up his own conditions for the coming of God into his heart and soul. Man forgets that there are many 'Christmases' in life when God visits him. His visit may be in trials intended to cleanse and detach our hearts from sin, in sufferings to give us a share of His Passion, in poverty to make us realize that only one treasure is worthwhile, the possession of Jesus and Himself in eternity. Few christians recognize the visit of their God in such circumstances. The Chosen people made that mistake also.

The best Christmas gift we could desire is the spirit of faith and docility of the shepherds of Bethlehem. They understood the words of the herald angel: "Peace on earth to men of good will." They accepted their Saviour on His own terms. They went back to their homes rejoicing over what they had seen and heard. The Chosen People, having missed the opportunity of recognizing their God on the first Christmas night began to forge a chain of blindness which resulted in their final rejection by God Himself.

May Christmas 1947 be a day of happiness, not sadness, a day of light, not blindness, to all men groping amidst the darkness of hatred and injustice in their desire to find Christ, the Light and the Saviour of the world.

REV. W. W. BUXTON

Vast changes have come over this world since the humble birth of our Saviour at Bethlehem. But the great good news which the manger had to give still rings out with timeless and universal appeal—"God so loved the world that he gave His only begotten Son". So we are not alone we know that God cares, that God loves, that this is God's world. These great facts are at the heart of the Christmas Story.

A thousand facts may seem to deny all this—the throb of pain, confusion and conflict in our own experience often makes us wonder. But Christmas comes and reveals to us divine possibilities, both for ourselves, our homes, communities and for this disordered world. If suspicion and fear and intrigue seem to dominate our lives and our relationships with others here at home and abroad it is because we do not fully accept Christmas as the festival when Jesus Christ, the only begotten Son of God, was born into the world, that is, when love was incarnate and dwelt among us. This perfect love, born of God, if accepted into our lives, dispels all darkness and fear, all conflict and confusion. Love is the prerequisite of good will—peace follows, peace of mind, spirit, community and society at large. "Peace on earth to men of good will".

With this assurance in our hearts let us come to our worship and hail the announcement of the Birth of Christ as among the greatest tidings that ever came to us from God. Let us make as our own the words which were applied to Him in prophecy centuries before His coming in the flesh. "His name shall be called Wonderful, Councillor, the Mighty God, the Everlasting Father, the Prince of Peace.

REV. W. D. RACE

The Editor has again invited me to send a Christmas message to my parishioners and friends through the columns of the Fort Record. I gladly accept, and I express to you all my best wishes for a truly merry Christmas and a deeply happy New Year.

We are busy people these days, happily busy. Buying and exchanging gifts and greetings, dispensing Christmas cheer to the needy, showing an interest in Christmas programs, planning what our own family and friends will do to celebrate the big day itself—all of this leaves us with little spare time. But when we have a few minutes, let us be sure to use them to relax from the noise and excitement, to be quiet in the centre of our being while we meditate on God's wondrous gift to man, the Babe of Bethlehem. Otherwise we shall be weary and disillusioned when the season is over, simply because our practice of Christmas has been separated from the real life and meaning of the occasion. A little boy put his hand on a ten-cent Christ Child, part of a creche on sale in a department store. "What is it?" he asked his mother, who had him by the hand. "C'mon, c'mon," replied the worried woman. "You don't want that!" And she dragged him grimly away, her mind dark with giftthoughts. And that is the attitude of many of us at this season. Our minds are upon everything but the Christ Child, and we would be embarrassed to have the Christ Child mentioned in connection with some of our Christmas activities. No wonder the day is a disappointment to us.

Let there be gaiety to our Christmas, then, not through the false drowning of care in self-indulgence, but through the natural pleasure of expressing friendliness. Let Santa Claus have his innings, by all means, but let us especially remember the One whose birthday Christmas is, and who was "among us as one that serves".

This is not to suggest that we should, or can, forget the struggles of a world still torn and bleeding after the war. It is possible for our religion to evaporate in sentimental rapture when we gaze upon the glorious innocence of Christ's infancy. But if it were only that a Child had been born long ago, there would be no Christmas 1947. Fundamental to any Christmas celebration is the fact that the Child became the Man of Galilee, the Man who reminded everyone of the importance of his fellowmen, and showed by words and deeds of living truth what could be done to build a world of brothers. Men grimly intent on solving world problems have concluded with C. B. Shaw, "I see no way out of the world's troubles but the way Jesus would have found had He undertaken the work of a modern practical statesman." And men who believe in Him know that He does the work of a modern practical statesman by guiding all those who desire it to a solution of their troubles large and small as they are willing to do His will. To thus acclaim His rightful Lordship is to make Christmas 1947 more meaningful, and the New Year bright with hope for all the world.

May you one and all have a Christmas joy that is deep and abiding!

Light should be right to favor our sight. To avoid eyestrain, Canadians are advised not to read or study in light which is too dim, nor when it is causing glare on the material in hand.

See the specialists. "Your eyes will last a lifetime if you look after them. There is no substitute for clear vision."

Joy be With You

at Christmas and throughout all the days of the New Year to come

How Santa got his Name

Santa Claus is an American corruption of "San Nicolaas", the Dutch form of St. Nicholas, patron saint of children. St. Nicholas Day, December 6th, is still celebrated in Holland with many customs associated with Christmas On St. Nicholas' Eve, Dutch youngsters put out their big wooden shoes, filled with grain for his reindeer He is supposed to come in the night, take the grain and replace it with gifts. St. Nicholas Day customs, brought to America by early Dutch colonists, soon became part of the general Christmas observance

Popular Christmas Carols

It Came Upon the Midnight Clear

It came upon the midnight clear,
That glorious song of old,
From angels bending near the earth
To touch their harps of gold
Peace on earth good will to men
From heaven's all-gracious King
The world in solemn stillness lay
To hear the angels sing

Still through the cloven skies they come
With peaceful wings unfurled,
And still their heavenly music floats
O'er all the weary world.
Above its sad and lowly plains
They bend on hovering wing,
And ever o'er its Babel sounds
The blessed angels sing

Yet with the woes of sin and strife
The world has suffered long;
Beneath the angel-strain have rolled
Two thousand years of wrong;
And men at war with men hear not
The words of peace they bring
O hasten now ye men of strife,
And hear the angels sing

And ye, beneath life's crushing load
Whose forms are bending low,
Who toil along the climbing way
With painful steps and slow,
Look now for glad and golden hours
Come swiftly on the wing:
O rest beside the weary road,
And hear the angels sing.

For lo, the days are hastening on,
By prophets seen of old,
When, with the ever circling years
Shall come the time foretold,
When the new heaven and earth
Shall own
The Prince of Peace their King,
And the whole world send back
the song
Which now the angels sing.

* * *

O Little Town of Bethlehem

O little town of Bethlehem, how
still we see thee lie;
Above thy deep and dreamless
sleep the silent stars go by:
Yet in thy dark streets shineth the
everlasting Light;
The hopes and fears of all the
years are met in thee to-night.

For Christ is born of Mary; and
gathered all above,
While mortals sleep, the angels
keep their watch of wondering
love.
O morning stars, together pro-
claim the Holy Birth,
And praises sing to God the King,
and peace to men on earth!

How silently, how silently the won-
drous Gift is given!
So God imparts to human hearts
the blessings of His heaven:
No ear may hear His coming, but
in this world of sin,
Where meek souls will receive Him,
still the dear Christ enters in.

O Holy Child of Bethlehem! de-
scend to us, we pray;
Cast out our sin, and enter in, be
born in us today.
We hear the Christmas angels the
great glad tidings tell:
Oh come to us, abide with us, Our
Lord, Emmanuel.

God Rest Ye, Merry Gentlemen

God rest ye merry gentlemen, let
nothing you dismay,
Remember Christ our Saviour was
born on Christmas day
To save us all from Satan's power
when we were gone astray

Chorus
Oh! tidings of comfort and joy,
comfort and joy.
Oh! tidings of comfort and joy.

In Bethlehem, in Jewry,
This blessed Babe was born,
And laid within a manger,
Upon this blessed morn;
To whom His Mother Mary,
Did nothing take in scorn.
O tidings, etc

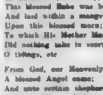
From God, our Heavenly Father,
A blessed Angel came;
And unto certain shepherds
Brought tidings of the same:
How that in Bethlehem was born
The Son of God by name
O tidings, etc.

"Fear not then," said the Angel,
"Let nothing you affright,
This day is born a Saviour
Of a pure Virgin bright,
To free all those who trust in Him,
From Satan's power and might."
O tidings, etc

The shepherds at those tidings
Rejoiced much in mind,
And left their flocks a-feeding,
In tempest, storm and wind;
And went to Bethlehem straight-
way,
The Son of God to find.
O tidings, etc.

And when they came to Bethlehem,
Where our dear Saviour lay,
They found Him in a manger,
Where oxen feed on hay;
His Mother Mary kneeling down,
Unto the Lord did pray.
O tidings, etc.

Now to the Lord sing praises,
All you within this place,
And with true love and brotherhood
Each other now embrace;
This holy tide of Christmas
All other doth deface.
O tidings, etc.



Silent Night

Silent night, Holy night.
All is calm, all is bright
Round yon Virgin Mother and
Child.
Holy infant so tender and mild,
Sleep in heavenly peace,
Sleep in heavenly peace.

Silent night, Holy night,
Shepherds quake at the sight,
Glories stream from heaven afar,
Heavenly hosts sing Alleluia;
Christ, the Saviour is born,
Christ, the Saviour is born.

Silent night, Holy night,
Son of God, love's pure light,
Radiant beams from Thy holy face
With the dawn of redeeming grace,
Jesus, Lord at thy birth,
Jesus, Lord at thy birth.

6,000 Lbs. Xmas Pudding

Using a recipe said to have originated in England hundreds of years ago, the Canadian National Railways has prepared 6,000 lbs. of Christmas pudding. The principal ingredients of the recipe include 1,200 lbs. of raisins, 675 lbs. of sugar, 600 lbs. each of suet, currants, mixed peel, bread crumbs and dates, 300 lbs. each of flour, prunes and carrots, 1,000 lemons, 2,000 eggs and 225 pounds of assorted spices. The job was completed December 1, and the finished product is now safely packed away in cans until December 25th. The C.N.R. expects 25,000 guests for dinner on Christmas Day in its dining cars

THESE THINGS ARE CHRISTMAS

The familiar Christmas Carols we sing every year, and never tire of . . . Silent Night . . . Oh, Come All Ye Faithful . . . The First Noel . . . all the lovely songs rendered in church, at home, and wherever two people are gathered . . .

The Child-like traditions which young and old enjoy . . . the stockings at the fireplace . . . the poem, "Twas the Night Before Christmas" (Dickens' Christmas Carol . . . the tree gleaming in the parlor . . . the secrecy and expectancy of bright faces

The last-minute rush in everything we do . . . rushing to meet the mailman . . . rushing to meet the train . . . rush to get more multi-colored lights that glitter and reflect the beauty of the most beautiful-of-all-seasons

The beautiful spirit of giving . . . giving not only presents, or money to the poor . . . but giving our love, our willingness to help, our benevolence, our friendship to all, these things are Christmas.

Honor Two United Church Workers

Mrs. Selby Thorne and Miss Ruth Shackleton were honored by the congregation of First United Church with presentations made at the conclusion of the Sunday evening service, December 21st Mrs Thorne's Junior Choir had just rendered four Christmas choruses during the service. Mr J. F. Galloway, in presenting her with a coffee table, declared that it expressed the church's appreciation of her faithful work playing for the morning services throughout the year and conducting so creditably the Junior Choir. Dr G. H. Turner made the presentation to Miss Shackleton, explaining that she had for a number of years acted as Secretary-Treasurer of the church, and had very capably handled unsuccessful cards, which lately had been much heavier by reason of the building of the new church. He read to her a printed address of appreciation which had been prepared setting forth these things, and with it presented to her a gold watch, with the good wishes of the congregation. Both ladies, though taken by surprise, replied fittingly, and then proceeded to unwind the gifts to the many friends who came forward to add their personal greeting to what had been said.

Fultonvale

A Merry Christmas and a Happy New Year to all residents of the district is extended by the Fultonvale Goodwill Club.

Mr. and Mrs. Harry Cooper, old timers, are now residing in Vancouver

We welcome Mr. and Mrs. Enfield and family to the district. They are the new owners of Harry Cooper's farm

Miss Hennessy's Christmas Concert was greatly enjoyed by all. The electric Christmas tree lights, the electricity being supplied by Mr. Spooner's small plant, were particularly appreciated.

Congratulations to Mr. and Mrs. Don Miller on the birth of a baby boy, Wade

Mr. and Mrs. Harry L. deZeeuw left Tuesday for Red Deer to spend Christmas with Mrs. deZeeuw's parents, Mr and Mrs. G Thompson

Mr. T. W. C. Henry left Saturday morning for his home in Penticton, B. C.

Mr. John T. Higgins of Edmonton will spend Christmas with his sister in-law Mrs. Eve Brown. Mr. Higgins recently arrived from Bristol, England to make his home in Edmonton

School Children Hold Christmas Concert

Last Friday evening at seven o'clock the teachers and students of grades 1 to 8 of the Fort Saskatchewan School presented a short Christmas program in the Community Hall to parents of the school children.

The program was opened by the singing of O Canada, after which Mr. Larsen presented the teachers, Miss Johnson, Miss Greenhough and Miss Lewko to the audience.

Numbers included—A Christmas pageant, by the Jr. Rooms, staged the symbolic setting for the time of the year; A short recitation by 4 badly treated dolls, "Old Christmas Dolls"; A colorful and musical drill entitled "A Wee Bit of Irish Green" by the grade 5 and 6 class. In the cast of 20, the girls were arrayed in the 3 primary colors while the boys were resplendent in white trousers, top hats and gloves, and green jackets; A short play entitled "The Christmas Candles" with symbolic costumes and candle virus was presented by the grade 3 and 4 class; A duet by Annette and Helen Wiesgerber; A play, "Santa's Fairies" was splendidly done by the grade 1 and 2 classes in very lovely costumes.

The program was outstanding in that the costumes were most exquisite, for which the teachers and parents are to be greatly praised. The children also responded well to all their parts.

The evening was brought to a happy close by the appearance of Santa who distributed gifts to the children

Following the Christmas Concert the Fort High School held their Christmas party.

Free Show Christmas Nite

In appreciation for the patronage shown throughout the year, Mr. Chas. F. Lowe is opening the doors of his theatre on Christmas evening and invites one and all to attend the free show. The picture to be shown is Pinocchio, which we feel sure many people, although they may have seen it, will be delighted to see it again.

Mr. Lowe also wishes to state that during the year 1948, all persons 70 years old and over will be given a free pass which will entitle them to attend the show free, any night there are pictures shown. Mr. Lowe requests all those of this age and over please hand their name to him.

Mr. Lowe wishes one and all a very merry Christmas and a happy and prosperous New Year

Mission Band Hold Christmas Party

The members of the Golden Rule Mission Band held their annual Christmas party at the church on Tuesday afternoon, December 16th. Besides a program of songs and recitations there was a Fish Pond and Basket Social. Thomas and Kenny Thomas The members of the W.M.S. had been invited as guests and they were asked to count the contents of the "Mite Boxes which the members had brought. Mrs. O'Brien, the W.M.S. president, was amazed that $7.47 had been counted and she thanked the children for their splendid help in the spreading of the gospel through our missionaries. Words of appreciation of Mrs. Rose's leadership of the Mission Band was given by Mrs. O'Brien on behalf of the W.M.S. Upon the arrival of Santa Claus each child was given a small gift. The party ended with a delicious lunch served by the assistant hostesses Mrs. A. Gray, Mrs. W. Thomas and Mrs J. Thompson.

Whitemud

We are glad to say that Elmer Hiller came back from his hunting trip one back rather

At a recent meeting in the Whitemud School parents of the district heard Dr. Brown's talk on dental health problems They also saw pictures of the Boy's Nutrition Camp at Lacombe

Birth of Jesus has Inspired Song Writers for Hundreds of Years

A great many Christmas songs are in existence, for the birth of Jesus has been a subject that has appealed strongly to song writers for hundreds of years, both in this and other lands. The Christmas season is one of singing, and perhaps to extent much round sufficient congress all others, for the thoughts, feels and memories of the season have a tendency to stir human hearts to song.

The first Christmas song was, of course, that sung by the angel heard by the fields near Bethlehem on the night of the Saviour's birth. There have been changes for an indefinite period of ages; the facts about them and their writers which is a proposal to prove still, no doubt, powerful of interest to all singers and lovers of music.

"While Shepherds Watched Their Flocks By Night."

"Hark, the Glad Sounds! The Saviour Comes."

"Hark, the Herald Angles Sing!"

"Christmas Awake! Salute the Happy Morn."

"Angels from the Realms of Glory."

The writer of the first was Nahum Tate, born in Dublin 1652. He died in hard circumstances, in fact, he was hiding from his creditors, in Southwark, London. The end came on August 12, 1715. In conjunction with D. N. Brady he wrote a metrical version of the Psalms which became widely known. In 1702 in a supplement to the work Tate connected with it famous Christmas song. The tune that is generally used for this known as "Methuen (Mt.)" which appeared in Alison's Psalter, 1800.

Dr Doddridge, a man of eminent mental powers, but who engaged in his labors as a minister and religious teacher he developed remarkable talents, wrote on December 26, 1755, the seven song in the list. He was born in London in 1702, and died in Lisbon on October 26, 1751. He was a most successful hymn writer, and a number from his pen now have a permanent place among the standard hymns of all English-speaking countries. "O Happy Day That Fixed My Choice" has not especially good reason to love the man and praise God for him."

Charles Wesley was the writer of the third song. He was born on December 29, 1708 at Epworth, in Lincolnshire, and he was the brother of, and co-worker with, John Wesley. The latter, as far as Christianity is concerned, was the founder of Methodism, and Charles Wesley was the poet of the movement; among his 7,000 verses are some of the world's most famous hymns, as "Jesus, Lover of My Soul," "Then Shepherd of Israel and Hear," "Come, Thou Redeemer of Israel," "Hark, the Herald Angels Sing!" ranks among the best efforts and the tune is taken from the works of the celebrated composer, Mendelssohn.

Dr John Byrom was the writer of the fourth song in the list. He was born in 1691 at Kersall, near Manchester, and died there in 1763. In early manhood he gave himself to the study of medicine, but in later years became a successful teacher of shorthand of his own invention. He had a fiery religion and was highly respected. His Christmas song appeared in 1750. The original copy is framed and hangs in the Chetham Library, Manchester.

James Montgomery was a religious poet, born in the Moravian grained great praise from friends and readers of a serious turn of mind, but more violent and condemnatory criticism from a considerable number of eminent literary men. Lord Macaulay being the most distinguished of these. He was born at Irvine, Ayrshire, November 4, 1771, and died in Sheffield, April 30, 1854. It was in his paper, called "Iris," that "Angels from the Realms of Glory" appeared on December 24, 1816. It is his best known poem, and in many ways its merits give it a place among the finest Christmas songs ever written. Other songs on other subjects by him also rank high, as "Servant of God, Well Done!" and "Stand Up and Bless the Lord."

◆ Recipes for Milady ◆

With every home in the country wanting everything with family and [illegible] there will be many [illegible] to be passed and in the [illegible] Dish, the Chef] men [illegible] ... have a festive touch. The hostess who can enjoy the [illegible] week [illegible] must have a few extra tricks up her sleeve so she can, with little extra effort, [illegible] a simple meal into holiday fare.

Perhaps this may be done with [illegible] and the cold meat dish, date or by the addition of a crisp and colorful salad.

The home economists of the [illegible] Summer Section, Dominion Department of Agriculture have ideas for colorful salad combinations. Jellied Beet or Cranberry Salad with garnish of parsley or cress; Apple and Celery Salad with some of the red skin left on the apple, garnish with green pepper and watercress. Shredded cabbage salad [illegible] Finely [illegible] a little of the gelatine mixture into lightly greased moulds and arrange [illegible] sections to form a pattern. Allow to set before adding cabbage and the rest of the gelatine mixture.

Vegetable garnishes may be made ahead and kept cool for a last minute touch.

VEGETABLE GARNISHES

Carrots:—

Fill's Wash and scape or thinly peel large carrots. Make slits a quarter of an inch deep and a quarter of an inch apart, lengthwise around carrot. Cut in paper thin slices, and chill in cold water until the slices frill.

Curls: Cut in paper thin shavings lengthwise from cleaned, scraped or peeled carrots. This is easy to do with a small vegetable peeler. Curl around the finger and chill in cold water. Thin shavings of turnips may be curled the same way.

Celery:—

Celery Boats—Separate stalks from bunch. Wash thoroughly. Fill with colored cream cheese or peanut butter. Replace stalks as in original bunch. Wrap in wax paper, chill and store in half an inch slices.

Cauliflower Flowers:—

Wash head of cauliflower thoroughly, separate flowerets, [illegible] thoroughly. Store until [illegible] Serve as [illegible] or dip into [illegible] sauce.

Celery Salad will keep several days and will give that added touch when occasion demands.

HOLIDAY SALAD

1 20-oz. tin tomato juice
1 teaspoon Worcestershire sauce
2 teaspoons lemon juice
Salt to taste
2 tablespoons gelatine
½ cup cold water
1½ cups diced, cooked potatoes
1 2 cup diced celery
1 tablespoon chopper green pepper (optional)
1½ tablespoons chopped onion
Salt and pepper
Mayonnaise or salad dressing to moisten

Combine seasonings with tomato juice, heat to boiling, add lemon juice. Meanwhile soften gelatine in cold water then add to boiling tomato juice. Oil or grease a flat bottomed round mould, put in half the tomato mixture and allow to set firmly. Arrange on this the potato salad, cover with remaining portion of tomato jelly. Chill till firmly set. Unmould to serve. [illegible]

APPLE JUICE SALAD

2 tablespoons gelatine
2 cups cold apple juice
½ cups apple juice
½ teaspoon salt
2 tablespoons lemon juice
1 tablespoons sugar
½ cup finely chopped celery
½ cup chopped apples
2 tablespoons finely chopped green pepper
1 2 cup finely chopped peanuts

Soak gelatine in ½ cup cold apple juice for 5 minutes. Heat remaining apple juice to boiling point, add soaked gelatine and stir until dissolved. Add salt, sugar and vinegar, blend well. When mixture begins to set, fold in remaining ingredients. Pour into moistened moulds and chill. Unmould on lettuce or salad greens and garnish with apple wedges. Crackers sprinkled with grated cheese are served to especially good with apple salads. Six servings.

The Candle in the Forest

The Small Girl's mother had a bag white bowl in her lap, and she was cutting up vegetables. The aroma were the hardest, because one cried a little over them.

"But our tears will be pearls," said the Small Girl's mother, and they laughed at that and dried their eyes and found the carrots much easier, and the potatoes the easiest of all.

Then the Next-Door-Neighbor came in and said "What are you doing?"

"We are making a beefsteak pie for our Christmas dinner," said the Small Girl's mother.

"And the onions are silver, and the carrots gold, and the potatoes every," said the Small Girl.

"I am sure I don't know what you are talking about," said the Next-Door-Neighbor. "We are going to have turkey for Christmas and oysters, and cranberries and celery."

The Small Girl laughed and clapped her hands. "But we are going to have a Christmas pie—and the onions are silver and the carrots gold—"

"I am sure that once," said the Next-Door-Neighbor, "and I should think you'd want something different anything of the kind."

"But they are," said the Small Girl, with shining eyes and rosy cheeks.

"Run along darling," said the Small Girl's mother, "and find your Pussy-Purr-up. He's out in the cold. And you can put on your red sweater and red cap."

So the Small Girl hopped away like a happy robin and the Next-Door-Neighbor said, "If you had acted like a sensible creature, I shouldn't have asked you for the run', but now I want it as soon as possible."

The Small Girl's mother was silent for a moment, then she said, "I am sorry, it ought to be sensible to make the best of things, when you are poor."

But the Next-Door-Neighbor flung up her head and marched out of the front door, and it slammed behind her and ran in wild echoes in the little house.

And the Small Girl's mother stood there alone in the middle of the floor, and her eyes were like the sea in a storm.

But presently the door opened, and the Small Girl, looking like a red-breasted robin, hopped in, and after her came a great black cat with his tail in the air, and he said, "Purr-up," which gave him his name. Then Falsheart put his big vegetable-s, and then they put them with the pound of steak to simmer on the back of the stove.

After that, the Small Girl had her supper of bread and milk, and Pussy-Purr-up had milk in a saucer on the hearth, and the Small Girl climbed up in her mother's lap and said, "Tell me a story."

But the Small Girl's mother said, "Won't it be nicer to talk about Christmas presents?"

And the Small Girl sat up and said "Lots."

And the Mother said, Let's tell each other what we'd rather have in the whole wide world."

"Oh, let's," said the Small Girl "And I'll tell you first that I want a doll—and I want it to have a pink dress—and I want it to have eyes that open and shut—and I want it to have shoes and stockings—and I want it to have curly hair"

The Small Girl's mother said, "I would rather have a diamond ring."

"Well," said mother, "we could run down to the church and order the chair and cut his tail off with the carving knife, and at the very least we could cut him up like a crow."

The Small Girl [illegible]

"And he wouldn't be a real cat."

"No, just a chocolate one, with cream inside."

"Do you think I'll get one for Christmas?"

"I'm not sure."

"Would he be rorer than a doll?"

The Small Girl's mother hesitated, then told the truth. "My darling I've saved up the money for a doll, but the Next-Door-Neighbor wants the rent."

"Hasn't Daddy any more money?"

"Poor Daddy has been sick so long."

"But he's well now."

"I know, But he has no pay money for doctors, and money for medicine, and money for your red sweater, and money for milk for Pussy-Purr-up, and money for our beefy-oak pie."

"The Girl-Next-Door says we're poor, Mother."

"We are rich, my darling. We have love, and each other, and Pussy-Purr-up."

And then the Small Girl laughed, she told him of her own self where she came to the part about the Next Door Neighbor and the rent, she said, "I am telling you this because it has a happy ending." And he put his hands over her's and said, "Everything with you has a happy ending."

"Well this is a happy ending," said the Small Girl's mother, with all the sapphires in her eyes emphasizing it. "Because when I went over to pay the rent I was feeling how poor we were, and wishing that I had a pink doll for baby, and books for you, and—and—and a warm carpet to carry us away from work and worry. Then I went into the kitchen—and it was full of shadows.

But she did not let herself sit among them. She wrapped herself in a great cape and went out into the cold dusk. A band dull orange was showing back of the trees, where the sun had burned down.

She went straight from her little house to the big house of the Next-Door-Neighbor and rang the bell at the back entrance. A maid let her into the kitchen, and there was the Next-Door-Neighbor, and the two women who worked for her, and her 15 year old daughter.

And the Next-Door-Neighbor said "We are trying to get as much done as possible tonight. We are having twelve people for Christmas dinner tomorrow."

And the daughter, who was all dressed up and had an apron tied about her, said in a sharp voice, "I can't see why you don't let the maids work for you."

And the Next Door Neighbor said, "I have always worked. There [illegible]

The Candle in the Forest

Continued From Page Five

a little rosebe that they were making at once on hand it was done it looked like a manger indeed. They took an old silver cake and placed it where it was torn and tattered tissue covered the edges till it looked all new and shiny. Then put the star and a long white candle in the centre and set it away. Then the mother brought out the chocolate mixture.

"We will put this on the cloth she said, "where her eyes will rest on it first thing in the morning."

So they put it there, and it seem ed as natural as life, so that Pussy Purr-up positively lifted his chops and sat in front of the cloth as if to keep his eye on the chocolate mixture.

And the mother said, "She was lovely about giving up the doll, and she will love the tree."

"We'll have to put up very early," said the father.

"And you'll have to run about and get everything ready."

Well, they got up before dawn the next morning, and so did the Girl Next Door. She stood on the front step of the little house, blowing on her hands and beating them. She blew dark wraith s out of pale shine in the heavens, which didn't matter, as it came from the stars as it heralded the dawn, it was just a supernal silver glow that set the girl's heart to beating.

Then suddenly some one came around the corner, some one tall and thin, with a cap on his head and a rosy beard to his chin.

"Hello!", he said. "A Merry Christmas."

It was the Small Girl's father and he went into the house and turned on a light, and there was the table set for four The Father said, "I'm sure we have got a plane for you. We must eat something before we go out."

The Girl said, "Are we going out? I came to see the tree."

"We are going out to see the tree."

Before the Girl Next Door could ask any question, the Small Girl's mother appeared, her finger on her lips and said, "Sh-h-h," and she she began to recite in a hushed voice. Anthony Dirksey Dark

There was a little cry and the sound of dancing feet, and the Small Girl came flying in

"Oh, mother, mother, the moons is on the cloth The moons is on the cloth."

Well, it seemed to the Girl Next Door that she had never seen anything so exciting or the things that followed The cher-date mousse went up the cloth and ember the chair and would have had its tail cut off except that the Small Girl begged to save it

"I want to keep it as it is mother"

And playing this game as if it were the most important thing in the whole wide world were the Small Girl's mother and father, all laughing and flushed

The Girl Next Door held her breath for fear she would wake up from this entrancing dream and find herself in her own big home where no one played games

The Small Girl absolutely refused to eat the mousse. "He s my darling Christmas mouse, mother"

So her mother said, "Well, I'll put him on the cloth again, where Fuzzy-Wuzzy can't get him while we use our

"Oh, are we going out?" said the Small Girl, round eyed

"Yes."

"Where are we going?"

"To find Christmas."

That was all the mother would tell So they had breakfast and everything tasted perfectly delicious to the Girl Next Door. But first they bowed their heads, and the father said, "Dear Christ child, on this Christmas morning bless these children and help us all to keep our hearts young and full of love for Thee."

The Girl Next Door, when she lifted her head, had a funny feeling as if she wanted to cry, and yet it was a lovely feeling, all warm and comfortable

As soon as they had finished breakfast, away they went, down into the wood back of the house, and when they were deep in the wood, the Small Girl's father took out of his pocket a little flute and began to play. Suddenly the piping ceased, and a hush fell over the wood. It was so still that they could almost hear each other breathe, so still that when a light flamed suddenly in that open space it burned without a flicker The light came from a white candle that was set in the top of a small living tree. Above the tree a star caught the light of the candle and shone in silver splendor At the foot of the tree was a little cleared space and in the midst of it, the manger

There was a long silence while they all looked at it and then the Small Girl's mother said softly "Everything speaks to us of God Let us bring Him our gifts on the birthday of the baby Jesus, for Him our home and all the happy hours that we have had I bring those loved ones." And because the Girl was standing a little apart, she reached out and drew her close.

The father spoke, "I bring my new found strength of body and the greater strength that comes from love. I want to so work and live that there will be more happy hours, and oh may I help other men to see that this is life."

Small Girl had been looking at the star and the cradle. "I feel as if sings inside," she said, "and I'm so glad for—well just for every thing I was thinking about all of the story you told about when he grew up and played with the other boys and made them happy. I'd like to be like that. Is that a gift?"

There were tears in the eyes of the mother and father and of the girl next door, When she spoke there was a catch in her voice and the words tumbled over one another.

"I didn't know things could be like this. Before the star and the manger were always so far away and today they are here. I've always thought people had to have things to be happy but you're happier than I've ever seen anyone before. Do you mind if I say B—

IN MEMORIAM

In loving memory of Pilot Officer Frederick Stanley Dennis who lost his life over Essen in World War II, December 30, 1944. We have only your memory, dear boy,
To remember our whole life through;
But the sweetness will linger forever,
As we treasure the image of you.
Dad, Mother and Family.

In loving memory of Pilot Officer Frederick Stanley Dennis who lost his life over Essen in World War II, December 30, 1944. I think of him in silence,
His name I oft recall
There is nothing left to answer,
But his picture on the wall.
Lovingly remembered by his wife Bive and son Ricky, and Mrs' M. Hall and family of Edinburgh, Scotland.

A MERRY CHRISTMAS and a HAPPY, PROSPEROUS NEW YEAR
Collins' Barber Shop

From now on, month by month
YOUR WAR SAVINGS CERTIFICATES
can be cashed!

The payoff on War Savings Certificates has begun. Right now all War Savings Certificates issued in May 1940 are being redeemed by the Canadian Government at their full face value.

On or after December 15th, you can redeem all War Savings Certificates issued in June 1940 . . . and so on, month by month, for the next few years.

If you are among the thrifty people who own War Savings Certificates, NOW is the time to look them over, sort them out by months and as they fall due, endorse them and mail to Ottawa as described on the back of each Certificate. A cheque for the full face value of each Certificate will be sent to you in due course.

But here is another suggestion...

Have The Royal Bank of Canada do all this "office work" and saving for you. Save yourself the bother of searching out the right pieces of paper each month, endorsing them and mailing them off to Ottawa.

Then's what you do: Bring all your War Savings Certificates which you have at home or in your safe deposit box, to your nearest Royal Bank Branch. We'll put them in our vaults for safekeeping.

As the Certificates fall due, we will cash them for you and deposit the full face value (which includes interest) to the savings account of the registered owner(s), automatically. If you have to attend with us, we will open one for you for this purpose.

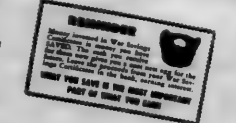
SAFEKEEPING CHARGES FOR WAR SAVINGS CERTIFICATES, INCLUDING AUTOMATIC REDEMPTION WHEN DUE—

For each	$50 Certificate	15c
"	$100 "	20c
"	$200 "	30c
"	$500 "	50c
"	$1000 "	75c
"	$5000 "	$3.00

All your Certificates are already lodged with us for safekeeping, we will arrange for their automatic redemption, as described above, at a nominal charge of 4c per Certificate, regardless of the face value.

The end of this service, including safekeeping until your Certificates mature, is free, as the following table shows.

YOUR ADVANTAGES OF THIS LARGER-SAVING SERVICE. IT IS AVAILABLE TO YOU AT ANY BRANCH OF THE ROYAL BANK OF CANADA



THE ROYAL BANK OF CANADA

Hail to the New Year 1948!
May its joy and happiness live in the hearts of mankind always! We extend to you and yours our sincere wishes for prosperity and health in the coming year.
A HAPPY NEW YEAR
Expressed by
BREWING INDUSTRY OF ALBERTA

UNEMPLOYMENT INSURANCE COVERAGE EXTENDED

(Authority, P.C. 5881, dated December 3rd, 1947)

ON AND AFTER January 1st, 1948, every employee in insurable employment paid by the month whose annual remuneration is not exceed $3,120.00 will be insured under the Unemployment Insurance Act.

AT PRESENT those paid by the month whose annual remuneration is $2,400.00 or less are insured under the Act.

THE CHANGE will not affect the coverage of all hourly, daily and piece rated employees and those paid on a mileage basis, who will continue to be insured regardless of earnings.

WEEKLY RATED employees whose earnings are expected to be $3,120.00 or less per year will continue to be insured under the Act.

UNEMPLOYMENT INSURANCE COMMISSION
J. G. Bisson, Chief Commissioner
R. J. Tallon, Commissioner — C. A. L. Henderson, Commissioner

WINTER AIR

Cold weather won't hurt you—if you are fit and properly clothed. Health officers say that, unless the family physician has given specific instructions to the contrary, we should all get out of doors as much as possible, even on winter days.

The lungs crave fresh air. So, bundled up to avoid catching cold, the person in normal health has everything to gain by getting outside, even in the coldest weather, and breathing deeply of nature's own tonic of air.

SHIP OF HOPE

Beginning early in 1948, new Canadians to the number of 800 displaced persons and other immigrants will arrive on this country with each voyage of the Canadian Pacific Steamships' 16-knot Beaverdale. Jean Beaverdale, now about completed her refitting berth at Bevel, Quebec. Formerly the German vessel Hanseatic of the Hamburg American Line, she was captured, virtually undamaged, by Allied forces at a North Sea fjord where she had acted as repair and "mother" ship to U-boats seeking their fjords of refuge for the duration. Under reparations payment Master of the Beaverdale is Captain G. O. Baugh, O.B.E., R.D., a Royal Canadian Navy veteran of the Battle of the Atlantic, who quite possibly tangled with some submarines which had been based alongside his present command.

Cordial Wishes for a Merry Christmas

The Fine Art of Bell Ringing

The fine art of bell ringing for [illegible] is a very [illegible] interestingly enough was born in the Mother Land. It requires that With the help of Providence withstood the shock [illegible] would be invaders, and [illegible] rated to the world that this indeed was "Britain's finest hour." If any people have a right to ring the bells on Christmas Day, the day of the coming of the Prince of Peace it is the gallant people of the "Light Little Island" in the midst of the blue

Canada has a preference for chimes and carillons on which tunes are played from a keyboard, and in which the unmoving bells are rung by striking them with a clapper But the English early appreciated the joys of swinging the bells by pulling them with ropes, and only the English have thoroughly accepted bells, not as rigid pieces of metal to be hammered, but as instruments to be swung rhythmically, months upwards to the sky.

Change-ringing is so-called, of course, because the ringers continually change according to a method, the order in which they ring They begin by ringing rounds — that is, they ring their six, eight, or twelve bells in straightforward order, but after that they never repeat themselves until they arrive into rounds again.

The possible number of changes without repetition on ding, dong, bell (8 bells) is only six. With four bells the limit extends to twenty-four (4 by 6), and with five bells to one hundred and twenty (5 by 24). The rather alarming limit-number of changes on the twelve bells of St Paul's is exactly 479,001,600. The composition of peals (a peal is reckoned as five thousand changes or over, anything less is a series of a peal, the smallest called a "touch") is the art of arranging the changes into various patterns based on a fundamental principle or method.

The earliest method, which is still widely used in different forms, was Stedman's A Cambridge printer, Stedman wrote the first books on the technique of campanology. His "Tintinnalogia," published in 1668, was dedicated to "The Noble Society of College Youths", and when the became Master of the Society in 1682, the College Youths travelled to Cambridge to ring there, in his honor, his "method" for the first time. The record number of changes in that method was conducted some few years ago by Mr Langdon of St Paul's Cathedral. Mr Langdon conducted the ringers at St Lawrence Appleton, for close on twelve hours and a half, when they concluded a peal of Stedman Caters of 21,365 changes, the longest length ever rung by one set of men.

It is sometimes asked, "How heavy are the bells which can be swung by the English method?" The tenor, or heaviest bell of the twelve bells of St. Paul's (which is the headquarters of the College Youths—a society of campanologists) is over three ton. Though two of the middle aged Youths will swing it apparently with as much ease as a muffin bell, they are, of course, a secret behind this seemi pulling of three tons odd of metal These privileged to climb into the handsome bell-chamber of St. Paul's will probably be asked to ring bell eight, which weighs a mere twenty-two hundredweight. Yet pull as they may, they never can sound the faintest note.

The secret is that the great bell must first be brought mouth upwards to the sky. The bell-ringer has then only to accelerate the momentum of its fall towards earth and to help swing the bell mouth upwards again. The bells, by the way, are never swung in a complete circle, but swing backwards and forwards. By a well-calculated pull, the College Youths check even the tenor as it is about to complete the circle, and pull it back over the balance to fall in the reverse direction

Choose to give your best when you are or you won't be chosen to go anywhere else

A Portrait Of Christmas
Trees a-glow, with colored lights—be-ribboned gifts heaped beneath the tree—stacks of greeting cards from friends and loved ones—the heart-stirring melody of Christmas carols—stockings hung upon the mantle—the promise of a princely feast on the morrow—but, first Santa's visit and the mad scramble of eager children to see what he has brought. This is Christmas. May all of this be yours—and to it we add our warmest greetings and kindest wishes.

Health and the Public Mind

By R. J. DEACHMAN

I would like to see our medical men have a little more pride in their accomplishments. They have made marvellous progress in the last few years. The world owes them much but why do they take themselves so seriously and why do they hang crepe on everything they touch? It's a symbol of death not of life. As medical men, interested in health of mind and body, they should keep it out of everything they write, speak and think.

A few days ago Dr. W. G. Blair, M.P., the dolorous member for Lanark County, Ontario, a man who ought to know better, made this statement:

"It is a matter of profound concern to me that the health of the people is being subordinated by our government to political expediency. There are thousands of people dying unnecessarily each year, there are children being left motherless or fatherless, families are being broken with all the sorrows and distress that follows because our Federal administration is engaged in a quarrel of its own making with the governments of that country's two most populous provinces".

* * *

I am not writing in defence of the government Governments frequently make mistakes—at times they blunder stupidly. They ought to be blamed for the things they do badly and praised for the things they do fairly well. One of the gravest mistakes of democracy is the tendency to demand stupid and ridiculous things from their governments. When time proves those efforts worthless, they promptly ask for more of the same type.

When governments with the assistance of doctors, nurses and medical scientists do a good job some people expect to see the abolition of death. I am opposed to that. I do not want eternal life on earth in two reasons. I would get bitterly sad living each succeeding generation trying to save the world find me every time that it breaks out again in a two place hell bound as usual.

The Canada Year Book for 1936 gives the death rate in a number of countries for 1933 and 1934. The rate in 1934, in Canada, was 9.4 per thousand of population. Saskatchewan, Alberta, Manitoba were under 8 per thousand, the lowest of any in the recorded list. Even there was no large country more than fractionally lower than Canada. The Union of South Africa (white) was 9.2 per thousand, the United States 10.7.

The story gets better as we go on. Take the figures for 1945, as the nearest to that date the figures of distant countries are rarely down to date. Now arrange them in order of merit, with the countries with the lowest rate at the head of the list.

Union of South Africa (1944)	9.3
Canada (1946)	9.4
Uruguay (1942)	9.4
Australia (1945)	9.8
New Zealand (1945)	10.0
Denmark (1944)	10.3
Norway (1946)	10.4
United States (1945)	10.6

The whole list contains the names of 60 countries and in health as measured by the death rate per 1,000 of population South Africa is tops" with 9.3—Canada scored with 9.4. Some of our provinces, especially Alberta and Saskatchewan, owing to a lower age composition are even lower than the Dominion average. Uruguay, in South America, classed as between Argentina and Brazil, owes its low rate to its climate, one of the most healthful in the world.

Pretty good isn't it? The 1946 issue of "The Canada Year Book [illegible]

"Other European countries in which the death rate has fallen to very low levels are the Netherlands, Iceland, Norway, Sweden and Switzerland. The death rate is also extremely low in Canada, the United States, Australia and New Zealand."

A country as large as Canada with a diverse population has a bigger problem than the smaller countries. We are doing pretty well.

* * *

Does all this mean that we should rest on our oars, drift with the tide and take our chances? The fact that we have made such great progress should stimulate us to greater effort. At the same time it is well to remember we do not make progress by belittling our past achievements nor by suggesting that nothing has been done when in reality we may only mean that we were not there when it happened.

DECEMBER

"The silence of December is upon us. There is no fly-buzz nor bee-hum even on the midday air, no insect while nor trump when evening comes. The wind may rattle the oak's dry leaves, but the sibilant whisper through full-foliaged trees is a mid-summer memory. The dawn clamour of the crows no longer awakens, nor does the sweet matin song of the robin. . . .

"The owl hoots among the hemlocks on a lonely hillside, and country dwellers may listen late to the fleet-span rapping of a fox. But their voices only punctuate the silence, which lies deep in the valleys where frogs, not so long ago, thronged the darkness. Even the streams are mute, their current slowed by frost in the ground at their beginnings and ice fringing their quiet pools.

"The woodchuck sleeps. Chipmunks doze in their fluff-lined beds. Gray squirrels go chatterless about their tree-top roundels. The silent rabbit even avoids the rustling leaf. . . .

"And, where the cold strikes nasty and bites deep, the crack of expanding ice and the groan of rocks slowly riven by the silent frost. The waning year does not creak on its hinges." From—The New York Times.

Christmas Tree of Recent Vintage

Few people realize that the Christmas tree, as we know it today, came to England as recently as Queen Victoria's time. Albert, her prince consort, is credited with introducing this charming custom to the English. The practice of decorating a fir tree and lighting it with candles was an old German one. Other festive Christmas greens, such as holly, ivy and bay, date back to ancient Saxon religious rites. Mistletoe goes back to the Druids of England and in the early English Christian church was used as a symbol of peace and goodwill.

Hark the Herald Angels Sing

Hark! the herald angels sing,
"Glory to the new-born king"
Peace on earth, and mercy mild,
God and sinners reconciled
Joyful all ye nations rise,
Join the triumph of the skies;
With the angelic host proclaim
"Christ is born in Bethlehem."

Hark! the herald angels sing,
Glory to the new-born king.

Christ, by highest heaven adored,
Christ, the ever lasting Lord;
Late in time, behold Him come,
Off-spring of the Virgin's womb.
Veiled in flesh the God head see!
Hail the Incarnate Deity!
Pleased as man with men to dwell
Jesus and Emmanuel.

Hark! the herald angels sing,
Glory to the new-born king.

Hail, the heavenly prince of peace.
Hail the Sun of righteousness!
Light of life to all He brings,
Risen with healing in His wings.
Mild He lays His glory by
Born that man no more may die,
Born to raise the sons of earth,
Born to give them second birth.

Hark! the herald angels sing,
Glory to the new-born king.

THE FORT RECORD

VOL. 39, No. 37. FORT SASKATCHEWAN, ALBERTA, CANADA WEDNESDAY, JANUARY 7, 1948

Around the Town .

Mr. and Mrs. A. A. Bitz had as their Christmas guests Mr. Bitz's parents, Mr and Mrs. W. Bitz of Donegal, Sask., his sister and brother-in-law Mr. and Mrs. Blaine Liebel, also of Donegal. Jacob Bitz of Lemsar, was also visiting them.

Mr. Armand Decoteau of Lacombe, spent Christmas with his mother-in-law and his father-in-law, Mr. and Mrs. [illegible]

Congratulations are extended to Mr. and Mrs. A Decoteau, on the birth of a daughter, Marie Jeannette Odelie, born Dec 30th.

P.T. Classes were resumed on Monday and Wednesday of this week after being closed for the Christmas season.

The following were the prize winners at the Legion Masquerade Ball held in the Fort Community Hall, Friday, December 26th: for best original costumes, Miss Maxine Hazel Fox and Mr. Gilbert Fox; for best comic costumes, Mr. Cecil Lyle and Mr. Ted Parada. Mr. V. Gerwas of Mayor Hills won the $10 door prize. Mr. A. Thomas won the cake raffled by the Girl's Baseball Team.

Mrs. Harry Peters has received the sad news of the death in Ontario of her sister, Mrs. C. S Leitman, formerly of Fort Saskatchewan.

Mr. and Mrs. Larsen and children are spending Christmas holidays at Irma and the New Years' holiday at Saskatoon.

Mr. and Mrs. E. Stuart Taylor have returned from Irma where they spent Christmas and New Years with their daughter and son-in-law, Mr. and Mrs. Donald Cram.

Mr. and Mrs. C. H. Williams left for Victoria, Thursday where they plan to stay until Mr. Williams regains his health.

Mr. and Mrs. Gordon Reid and son Keith of Clarahelen visited friends in the Fort and district during the holidays.

Mr. Charles Reay, who is stationed at the R.C.M.P. barracks at Regina, was home for a few days during the holidays.

Mr. T. H. Siddall was a guest at the home of Mr. and Mrs. L. O'Brien on his way back to Jasper during the holidays.

Mr. and Mrs. Jolanda Justice are receiving congratulations on the birth of a baby girl, Irma Lynn, born Tuesday, January 6th in the Royal Alex hospital.

The comforter donated by Mr. E. Ramsay, retail trustee, to the School P.T. Class was drawn at the High School Annual Christmas party on Friday, December 19th. Mr. Sid Morland, assistant C.M.H. agent held the lucky ticket, No. 69.

Mr. and Mrs. H. Looker and Marjorie spent Christmas with Mr. and Mrs. J. L. Price and family of Sunday Lake.

The Annual Church [illegible] meeting will be held Monday, January 12th in the church at 8 o'clock.

Business includes planning the completion of the new church. All members and adherents are urged to attend.

The regular W.I. monthly meeting will be held Wednesday, January 14 in the Union Hall. One item of business to be dealt with is the

MUNICIPAL DISTRICT OF STRATHCONA NO. 20

NOTICE OF ADOPTION OF ASSESSMENT

Notice is hereby given that the Assessment in effect for the year 1947 has been adopted for the year 1948.

Any person desirous of appealing against the assessment on any land must lodge his complaint in writing with the Secretary Treasurer of the Municipal District prior to the 31st day of January 1948. No appeals can be considered after that date.

D. ROBERTS
Secretary Treasurer
Bank of Commerce Chambers
Edmonton South, Alberta.

Legion Plan Social Evening

Following a motion that was moved and adopted at the regular December meeting of the Canadian Legion, plans for the social evening to be held Friday, January 16 are almost complete.

The entertainment will take the form of a guest speaker from the city along with local talent to entertain with songs and music for dancing. Luncheon will also be served.

Invitations have been sent to all ex-service men and their wives to attend, but as the committee feel that their list is not complete, they wish to extend a hearty welcome to all ex-service men and their wives regardless of whether they received an invitation or not. Invitations have also been sent to other organizations in town.

This is a new venture for the Legion. Instead of the usual smoker, it was felt that something of this nature would bring closer cooperation, not only between the newly formed Women's Auxiliary of the Legion, but also with every other organization in the town, because it is only through cooperation of all organizations that any one of them can operate successfully.

We feel sure, that the program that so far has been outlined to us, will meet with everyone's approval, and urge all ex-service men and their wives who can possibly attend to do so.

Banquet Held For School Safety Patrol

On December 27th at 7:30 the A.M.A. were hosts at a banquet held in the Fort Hotel, to the Fort Saskatchewan School Safety Patrol.

Present at the banquet were: Warden McLean, chairman; Mr. C. H. Grant R.C., President of the Edmonton Branch of the Alberta Motor Association; Mr. W. C. Cates, Secretary of the Alberta Motor Association; Mr. Grant Painter; Constable Thomas; Mr. S. Larsen, School Principal; Sergeant J. Muir, R.C.M.P. and the members of the Patrol, Irma Schinbe, Beryl Theoriaenen, Bibiane Geoffrie, Edvard Jones, Ronald Thorne, Jean Banks, Mona Hegi, Rose Chambers, Cecil Thorne, Glen Walker, Jerrold Larsen.

After the delicious banquet the officials spoke briefly in commendation of the work of the Patrol. Each Patrol member was presented with a lovely gift by the Association. The recording in which Jean Banks took a part was also played, through the kindness of Sgt. Muir. The success of the banquet was the awarding of new badges to two members of the Patrol. Jerrold Larsen and Irene Schinbe were appointed to the rank of Lieutenant and will be in charge of the two divisions of the Patrol until the end of the term in June.

question of [illegible] the Canadian Constitution at the Conference of Commoners and it is hoped that a full attendance will be present to discuss this matter. Mr. Selby Thorne will give a short report on her visit to Warspite W.I. at this meeting.

Miss Rita Sherman who has been visiting with her parents for the past three weeks left Wednesday evening for Toronto. Enroute, she will stop at Winnipeg for a few days to visit with Mr. and Mrs. Earl Sherman.

Great Britain has entered into a one year agreement with Australia for the purchase of 80 million bushels of wheat at a price of 22.72 a bushel, f.o.b. Australian ports.

Canadian Legion Appoint Officers

The regular meeting of the Fort Saskatchewan Branch of Canadian Legion was held Tuesday evening in the Legion Hall

Minutes of the last regular and executive meetings were read and adopted. The Financial Statement for 1947 was also read and adopted.

Reports of various committees were given and approved.

It was moved that the Legion year all legitimate expenses of curling rinks be entered in the Provincial Command playoff.

Election of officers then took place and the following elected for 1948: Rod McDougall, President; Hugh Simpson, Vice President; Henry Lemarquand, 2nd Vice President; G. M. Gallant, Secretary-Treasurer; A. Kennedy, Leslie Gordon, Harry Bremner, Leonard Brown and Harold Buchanan, executive. Rev. Father Seward was appointed padre. Entertainment committee was re-elected by acclamation. Building committee, Tom Stone, Harry Bremner, R. Wallace, Membership committee, Leslie Gordon, Alex Kennedy, Hugh Stephen. Sick committee, Henry Lemarquand, R. Wallace, G. Miller. Poppie Wreath committee A. Gray, G. Welsh.

Bromner - Fort Tied For N.W.H.L. Lead

The standing of the Northern Section of the Northwest Hockey League as at January 7:

	When Played	Won	Tied	Lost
Bromner	4	1	0	3
Fort	4	2	0	2
Morinville	4	2	0	2
Namao	0	5	0	0

Bromner protested the game of December 28th with Morinville, claiming Morinville used 13 players instead of 14 as required by regulations. This game will be replayed if either team requires the points to get in the play-offs.

It has been decided to declare the section winners in the league by playing the two top teams, home and home games with total goals to count. The two section winners will then play best two out of three for the League Championship. The first two games to be home and home games and if a third is necessary it will be played on neutral ice.

English Girl Seeks Pen Pal in this District

The following communication was received by the Record from a young girl in England looking for a boy or girl pen-pal in the Fort. Dear Sir:

I would be grateful if you would endeavour to locate for me a boy or girl pen-friend in your town.

My interests are reading, swimming, all outdoor sports and music.

I am fourteen years old.

Thank you very much

Yours sincerely,
Valerie Illingworth
60, Woodland Gardens,
Isleworth,
Middlesex,
England

Here people are content by looking on letters than by all our endless and vain

Fort Team Win Three Of Four Latest Games

The brand of hockey displayed by Fort Legion has been steadily improving during the season and quite hockey followers a sense of pride when they go to support their team.

The boys are really connecting with their passes and if they continue to pile up winning points as they have done in the last three games they will definately be in the play-offs.

On Friday afternoon, December 26th the Fort team trimmed by Bromner to the tune of 7 to 3, but in the evening they played Monday, December 29 they showed their colors and redeemed themselves by defeating Bromner 6 to 3.

On Monday, January 5 the Fort team journeyed to Bromner, and once more demonstrated the game could admit it was ode of the finest hockey the boys have played this season. They were in top form and every man was right on the job to take advantage of every play with the result that they emerged the victors with a final tally of 2 to 1.

Approximately 200 people witnessed the game played Wednesday evening against Morinville when the boys turned in another excellent performance.

The game started out slow but the tempo increased after Morinville scored a goal in the first two minutes of play, a lead they held until the wizards blew to end the first period.

The second period was a different story. The Fort boys pulled up their socks and put on the pressure and wound up the period with two goals to their credit.

To clinch the game a little more accurately they added another goal in the third period and although Morinville pulled out their goalie to play 6 on 5 outside they could not add to their one goal, and the game ended with the Fort leading 3 to 2.

Anglican Church Christmas Party Held

Members of St. George's Sunday School had a very enjoyable Christmas party last Friday afternoon.

After singing at the rink they adjourned to the Union Hall where a delicious supper was served. Following this, Rev. W. Barton, as a substitute for Santa Claus, distributed gifts from the gaily decorated tree. He also made two awards for the pupil's work, these were to Marjorie Walker, an award by the Religious Tract Society for success in writing Sunday School examination papers, and to Tom and Gladys Holt an award for highest attendance during the year.

Dick Magee then showed the children a group of his colored slides depicting scenes of Jasper and the Skyrgees. This brought a very happy afternoon and evening to a close.

CAUSE OF FIRES FREE

Defective chimneys and flues were the principal cause of house fires on farms in the 12 months ending June, 1947. In that period some 2,000 farm fires occurred. It is estimated that the use of inflammable liquids such as coal oil and gasoline caused 900 fires.

Old Time Fort Resident Passes

Funeral services for one of Fort Saskatchewan's old time residents, Mr. Caroline Barker, who passed away Saturday, December 27th at the age of 69 years in a city hospital, was held Wednesday, December 31st at the Josephburg Reformed Church.

Mrs Barker, who has lived here about forty years, will be greatly missed by her many friend's in town and surrounding district. She is survived by one son, Geo Barker and one daughter, Mrs. Harvey Sealy, both of Portland, Oregon, six grandchildren and one great grandchild also one brother, Henry Mohr of Fort Saskatchewan and one sister, Mrs Katherine Bogel of Vancouver Her husband predeceased her in April 1935.

Rev. J. F. Krieger officiated, assisted by Rev. W. D. Bass and interment took place in the Josephberry Cemetery

Many beautiful floral tributes were received.

Whitemud

Mr. and Mrs. J. Grove spent the past week visiting relatives and friends in the city.

Betty and Marion Krupa have returned to the city after spending their holidays at home.

Gladys Blount spent the New Year holiday at the home of Mr. and Mrs. Frank De Gaust of Sedgewick.

We are sorry to report that Elmer Miller is still in the hospital. Hope you will soon be well Elmer.

Congratulations to Mr. and Mrs. Norman Blount, formerly of this district, on the birth of a son.

Mr. and Mrs. Bill Schiewe of St. Albert, were visitors at the home of Mr. and Mrs. Helmut Schiewe.

Mr. and Mrs. Mike Krupa have left to spend their Christmas holidays in Vancouver.

The Christmas concert sponsored by the Whitemud students was quite a success. We hope the audience enjoyed the program as much as the students enjoyed putting it on. We also wish to thank the teachers, Miss Verstraete and Mr. Ross for arranging the program.

CHATTER

There were happy smiles on the faces of students as they left for a two week holiday . . . Mr. Ross was out hunting for a Christmas tree . . . Lawrence is missing quite a few school days. He claims he's got spring fever . . . Jean was wondering if Santa really meant to be good to her this year . . . Santa was making everyone happy at Whitemud on Dec. 22. Thanks a lot and hope to see you next year. Lawrence and Leon claim they do not mind the homework. Ha ha ah ah

Hilda and Lois were observed enjoying a toboggan ride down on the oil well . . . new Julius too, during his usual Sunday walk to the mine.

Old Time Fort Resident Passes

Funeral services for one of Fort Saskatchewan's old time residents, Mr. Caroline Barker, who passed away Saturday, December 27th at the age of 69 years in a city hospital, was held Wednesday, December 31st at the Josephberg Reformed Church.

Mrs Barker, who has lived here about forty years, will be greatly missed by her many friend's in town and surrounding district. She is survived by one son, Geo Barker and one daughter, Mrs. Harvey Sealy, both of Portland, Oregon, six grandchildren and one great grandchild also one brother, Henry Mohr of Fort Saskatchewan and one sister, Mrs Katherine Bogel of Vancouver Her husband predeceased her in April 1935.

Rev. J. F. Krieger officiated, assisted by Rev. W. D. Bass and interment took place in the Josephberry Cemetery

Many beautiful floral tributes were received.

Several Face Charges Result of Disturbances

The Court House at Fort Saskatchewan will be a busy spot on Saturday with several persons appearing to answer charges laid.

As a result of a New Year's Eve fracas, four men will face charges of assault. The alleged assault took place in the basement of the Fort Community Hall where a number of town residents received injuries in the disturbance.

Two other cases to be heard are those of Barney Thomas who is charged with pointing a gun at one Bill Coleman and Charles Bateman who is charged with leaving the scene.

Blaze Destroys Partridge Hill Store

Fire of unknown origin destroyed the store and service station operated by John Fischer at Partridge Hill on Christmas Eve.

The blaze was first noticed in the early evening by a neighbor who immediately phoned other residents, but by the time they arrived the blaze was so fierce that it was impossible to save any of the buildings or contents. The building was partially covered by insurance.

Money has been contributed by residents of the district and in the Fort to help Mr. Fischer get re-established.

Partridge Hill

It was a great shock to this district when about 9:30 p.m. on Christmas Eve the alarm carried word that the Fischer store was on fire. Although all available help was summoned the fire had gained such headway that nothing could be saved. Mr. and Mrs. Fischer lost all their goods. Fire had gained such headway that nothing could be saved. Mr. and Mrs. Fischer lost all their goods. [illegible] and Sunday when they took up residence in the house formerly occupied by Mrs. Hamilton. We hope, before long, they will be re-established at the old site on the corner.

Mrs. C. H. Flintoff and Miss Olive Hall of Edmonton were Christmas guests at the home of Mr. and Mrs. [illegible] Cobbledick.

Vaden Lewis of Charles and Garth Cobbledick returned to Vermilion on Sunday night after spending the holidays at their home here.

Vernon, Ted and David Cobbledick of Edmonton also spent part of the holidays at their respective homes.

Mr. and Mrs. Bob Moore of Vermilion were Christmas guests at the home of Mrs. Moore's parents, Mr. and Mrs. W. Allen.

Mrs. R. Flintoff and Norma spent Christmas with Mr. and Mrs. Francis Flintoff of Pendennis.

Mrs. McPherson of Lamont is visiting her daughter, Mrs. Aldred Frey this week.

The children are enjoying riding on the new Greyhound bus recently acquired by Johnny Fischer. Though much longer than the old one, it is neatly filled to capacity.

Timely Farm Notes

By R. J. Whitford, District Agriculturist
SEED BELP INCREASE CLOVER SEED YIELD

Experiments have been undertaken at the Dominion Experimental Station, Prince George, B.C., to determine the value and need for honey bees in the seed production of alsike clover. It was found that where honey bees were present the yield of alsike seed was twenty times as high as where no bees were present. In the fields where both native wild bees and honey bees were present in large numbers the yield of seed was higher. The [illegible] was high, where only [illegible] bees were present production fell, sometimes to a most unsatisfactory

3 Clover top fall—Of the above not more than one-third fall, leaving the clover compared to about completion with alsike seed production against the time when early pollination means may be found to insufficient conditions.

CRUSHING DIFFICULTIES IN WINTER MONTHS

The most disheartening part of farm bookkeeping comes when the cream refuses to whip, no matter. Prolonged churning seems to be the common experience with farm butter-makers at one time or another. Difficulties described in the only experienced during the fall and winter months when cows or cows farrow or a combination of these, are responsible. The causes of the difficulty, together with remedies, are outlined by O. E. Sh...

The three stars of CBC Vancouver's gay nineties program, Lobster Square to Broadway, take time out to pose for the photographer. Conductor Henry Bryce offers a gallant arm to songstress Belle Mellman, while Eric Vale on The Old Stage shows that he still has an eye for feminine type. Lobster Square to Broadway boasts a large American audience besides its Canadian fans.

"Our Children"

Every family has its own problems in the upbringing of children. Some problems are serious, others are not. As parents we often ask "Was my method of dealing with Johnnie today the wisest one? Am I showing him the road to healthy and happy living?" Sometimes it is difficult to determine just how serious our problem is, for it is always hard to size up a situation of which we ourselves are a part. This is especially so when it centres about someone we love. In such cases discussion with others having similar problems is often helpful. Would it not benefit us to talk about a few of these difficulties in the columns of this paper. We could try to arrive at some satisfactory means of dealing with the most serious. In each of the next three issues of The Fort Record there will be an article concerning a Up-local problem. The editorial Board and the results are described as distinctly encouraging. The National Civil Board laboratories are being asked to design a special wireless set suitable for all cellery [illegible] [illegible]

pearance of the article dealt with.

Please address your suggestions to: Dr. H. Siemens, Edmonton Rural Health Unit, Qu'Appelle Building, Edmonton.

Funeral Services Held For Josephburg Child

Funeral services were held Saturday, Dec. 27 for Richard Allen Fry, two months old son of Mr. and Mrs. Walter Frey of Josephburg. He is survived by his parents, one sister, Judy, his grandparents Mr. and Mrs. E. Frey and Mr. and Mrs. Adolph Becker all of Josephburg. Rev. J. Krueger officiated at the service which took place in the Josephburg Reformed Church. Interment was made in the Josephburg cemetery.

1 2 3

RADIO RESCUE APPARATUS FOR MINES

Important tests of new apparatus for speeding mine rescue work were carried out in the Pittsburgh experimental station of the U.S. Bureau of Mines. To refuse, warm and heat. Spread very lightly on bread, and use with meat or any sandwich filling which is not too highly seasoned. Yield, about two-thirds cup.

1 2 3

HAM AND BRAN SANDWICH SPREAD

2 cups baked ground ham
1 cup cooked ham, finely chopped
½ cup diced celery
2 tablespoons chili sauce
1 teaspoon horseradish
½ teaspoon salt

Combine ingredients and blend together lightly. Yield, 2 cups.

1 2 3

DILLY SANDWICH FILLING

1 teaspoon prepared mustard
¼ cup salad dressing
1 cup sliced or diced ripe banana

Pickling the lunch box is a problem this days of the week where children must remain at school for the noon meal.

Fortunately many school pupils now a hot drink or soup is supplied the central kitchen. If this service is not provided it is necessary to have hot cocoa or soup, in a thermos bottle, especially during cold winter months.

The lunch at school must be as generous and well-balanced as that served at home. Salads, baked beans, hard-cooked eggs may make the main course but sandwiches are usually the most part of the [illegible] meal.

Sandwiches are more interesting made with fresh, partially Canadian Approved (white or brown.) Buttered butter spreads to better advantage. The home economists of the Consumer Section, Dom. Dept. of Agriculture suggest using the seasoned sandwich butter on the bread with meat or any other filling that is to be served with sandwiches. This spread also stretches butter. It will keep a week or so, if stored in a cold place.

Fillings for the sandwiches must be substantial and spread generously.

1 2 3

SEASONED SANDWICH BUTTER

½ cup butter
Yolk of one egg
½ teaspoon paprika
½ teaspoon mustard
Few grains cayenne
½ teaspoon Worcestershire sauce
½ teaspoon salt
2 tablespoons vinegar, a few drops at a time.

Cream butter and egg yolk. Add other ingredients as listed, and store in cool place. This will keep for a week or more. To soften, warm and heat. Spread very lightly on bread, and use with meat or any sandwich filling which is not too highly seasoned. Yield, about two-thirds cup.

1 2 3

HAM AND BRAN SANDWICH SPREAD

2 cups baked ground ham
1 cup cooked ham, finely chopped
½ cup diced celery
2 tablespoons chili sauce
1 teaspoon horseradish
½ teaspoon salt

Combine ingredients and blend together lightly. Yield, 2 cups.

1 2 3

DILLY SANDWICH FILLING

1 teaspoon prepared mustard
¼ cup salad dressing
1 cup sliced or diced ripe banana

◆ Recipes for Milady ◆

Tuna shredded cabbage
½ cup chopped sweet or dill pickles
½ teaspoon salt

Combine prepared mustard with salad dressing. Scrape and banana into first mixture and blend only enough to coat fruit. Mix together the cabbage, sweet or dill pickles and salt. Add the first mixture and toss together lightly. Sufficient for six sandwiches.

Radiograms

AMAZING COINCIDENCIE

It is quite something when one local listener wins a national radio prize, but when two local fans win prizes on the same program, it's news. And when the two prizes are the two major prizes—one the cash-value prize, the other the big prize of the day—then it's quite amazing.

This happened on the Lucky Liston cards' program recently. Two Edmonton listeners were the big winners. Mrs. R. T. Dunn, 11816-128 Street was the day's big cash—a Pfaltzin fur for necklines. Mrs. Mary B. Clarke, 11630-39 Street really cashed in when her name was drawn for the huge cumulative prize. She won 10 pairs of nylons, Graham Kemptex, Interwoven Washing Machine, Bonhart Cedar Hope Chest, Filter-Queen Vacuum Cleaner and six kitchen appliances. We wonder if the ladies believe in Santa Claus?

More than half of the production of flour in Canada is going into the export trade, the principal purchasers being the United Kingdom India and Italy in that order.

Three Men Testify

All "Co-op" Officials
All favour keeping Grain Exchanges open
All want "Futures" markets continued

Read what two of them said before United States Congressional Committee on December 4th and what Mr. Davis said in St. Louis recently.

Testimony of Mr. Herman Skyberg:

Mr. Herman Skyberg, President of the Farmers' Co-operative Marketing Association of East Grand Forks, Minnesota, said,

"The Grain Exchange marketing system in the Grand Forks area is working satisfactorily. We are opposed to any change in the present system which we see is the meaning of the Exchange.

Mr. Crawford said his members did not favour closing what is sometimes called "Futures" markets, as [illegible] [illegible]

"The speculative given to their services, breadth and liquidity and that the grain business is conducted in an orderly manner by the Grain Exchange. We are opposed to any change in the present system which we see is the meaning of the Exchange.

Testimony of Mr. Roy Crawford:

Mr. Roy Crawford, General Manager of a large Kansas Co-operative with 250 locals said,

"The "futures" market of the Grain Exchange is our only protection. Outside City and to some extent Chicago) are what is called "cash" markets and of the present distributive system which we see is the meaning of the Exchange.

Mr. Crawford said his members did not favour closing what is sometimes called "Futures" markets, as [illegible] [illegible]

"The speculative given to their services, breadth and liquidity and that the grain business is conducted in an orderly manner by the Grain Exchange. We are opposed to any change in the present system which we see is the meaning of the Exchange.

Statement of Mr. John H. Davis:

Speaking in St. Louis recently, John H. Davis, Executive Vice-President of National Council of Co-operatives, said,

"The principle role of government in a large-scale agricultural policy should be to [illegible] education and [illegible] assistance. We should depend on free enterprise to provide the machinery. We don't call it a planned economy. We don't like extensive production restrictions and price controls on agricultural products. The government's function is of adjustment, including the mechanism of controls and subsidies for us to encourage such as removed in part. However, we hope to clear up for away as possible from restriction of production and subsidizing of prices."

Space does not permit printing the full testimony. If you wish to have it, mail Coupon below

Because these businesses do [illegible] "Pools" want to close the Winnipeg Grain Exchange, although between them, they own ten memberships in it. And their members are actively [illegible] in the "futures" market for coarse grains every day. Does this concern you, Mr. Farmer? The simple fact is that the Leaders of the Pools want to close the Exchange to get a vice-like monopoly control.

Farmers are officially invited to visit the Exchange during trading hours, 9:30 to 1:15 p.m. Ask to see the President or Secretary, or any other member. Ask questions. Straight answers will be given.

All our members favour a "floor" price for wheat administered by the Canadian Wheat Board. But they also believe that farmers should be given the opportunity to get top market prices NOW, although some farmers, while prices are high.

The more farmers know about the Exchange, the better it will be for all concerned. Meantime mail the coupon below for booklet explaining the Canadian Wheat Board Act and how you are regulated and controlled by it, in its present form.

MR. FARMER—
Mail this coupon *NOW*
to learn how you and
your grain are regulated
and controlled.

To The Winnipeg Grain Exchange, X
Winnipeg, Manitoba.
Please mail booklet to which you refer above.

WEDNESDAY, JANUARY 7, 1948

INCREASED ALLOWANCES

The recent announcement by the Federal Government of increased allowances for civil servants, pensioners, veterans and ex-servicemen's widows' is welcome, but long overdue. The $30 per month increase that has been made, and which is retroactive to October 1st, is still not great enough to meet the increased cost of living, which has risen about 40 percent since 1939.

While the increase granted to civil servants and the armed forces personnel will help to meet the rising costs, the flat increase of $10.00 per month for disabled veterans and ex-servicemen's widows' is far from adequate, especially to those who have families to provide for. After one pays the ordinary household expenses such as rent, heat, light and water, very little of the $70 per month they will now get will be left from which to buy the necessary essential items of food required to raise healthy families.

In Mr. King's announcement there was a hint that further increases may be made. Let us hope that disabled veterans and widows are among those to receive these additional increases.

One cannot help but note that in the announcement made by the government, no provision was made to increase the allowance of student veterans. Just because these veterans chose to increase their knowledge in order that they may obtain better positions, is no reason why they should be discriminated against. They also feel the pinch created by rising prices, and should be included with those who are to receive these increases. Let us hope that the additional increases will be announced soon and that the student veterans are included in the list.

The New Farm Account Book

The new Farm Account Book, now available free to Canadian farmers at all Post Offices, is one of the most remarkable publications ever devised by a government. It is a blank farm account book to help Canadian farmers keep track of their business the whole year round.

The new Farm Account Book is a securely-bound 64-page volume, 9 by 12-ins. in size. Following an introduction, there are 16 pages of information on farmers' income tax and 52 lined and headed blank pages on which he can list his transactions from week to week.

The last section begins with receipts from the sale of crops and ends and covers most other items handled by farmers—livestock, poultry, honey, hides, manure and a dozen other sundry sales.

The next section deals with expenses for seeds, feeds, livestock, custom work, rent, supplies, wages and tools. There are blank columns for capital and revenue from stocks and bonds. The foreword explains how the farmer can calculate his "net worth" and determine what progress, or lack of progress, he has made during the year.

In a few minutes the farmer can put down his day's or week's transactions with a minimum of trouble. The new Farm Account Book can save many farmers money in that it can take the place of an expert. In fact, to have a similar accounting system installed by an expert would be beyond the scope of most men on the land.

INCOME TAX INFORMATION

The 16 pages of farmers' income tax information, which has the advantages of being official, are in question and answer form. In general, the theme is that all Canadians who benefit from the nation's vast resources and facilities should contribute to their upkeep and that graduated income tax is the fairest method known to obtain their revenue. The key-note is stated on page 7, is "fairness and decency."

In this spirit many of the questions show the farmer the best method of taking advantage of every exemption to which he is entitled. If he is dissatisfied finally with decisions of local or national authorities, he is shown how to reach the independent Appeal Board.

Business men in towns and cities seek taxation and legal advice from the same highly qualified sources, in order to assure exemptions due to them are claimed. This, of course, is perfectly proper because the Income War Tax Act, being economically sound, careful by states those exemptions to prevent the tax burden falling unequitably on any one person, either individual's or business. Now farmers are given easily-understood official advice to enable them to take advantage of their tax rights.

The introduction of the Farm Income Book gives some of the many reasons for income tax—items like payment for victory in the world-wars, social services, family allowances and the beneficial works of several government departments. Other questions and answers deal with direct tax problems. These are sample questions:

What about income tax anyway?
What is its justification?
What assurance have I that I will get fair play?
Why may I claim $100 for some of my children and $300 for others?

How much should I deduct for personal use of my automobile?

FEATURES OF THE BOOKLET

The farmer's income tax return is a six-page form which at first glance looks fairly complicated. The new Farm Account Book helps in simplifying this by numbering its headings to agree with the numbers on the tax return itself. For instance, one of the pages is devoted to expenses under which the farmer lists his payments of wages and board for hired help, he is referred directly to the exact spot where these items should be listed on his income tax return form. Similarly, each column of sales, expenses and other items is numbered to correspond with the items on the income tax return.

Another feature is the "Schedule of Depreciation Rates" on page 14 where some 75 different items on the farm are listed with their correct maximum rate of depreciation. The barn is expected to last 40 years—Rate 2½ per cent per annum, but the farmer's truck is given a 30 per cent—or a life of five years.

The "three year average", which was first introduced in 1946, is explained in detail. By this system the farmer gets a chance to match good and bad years.

WILL SAVE TIME

The new Farm Account Book will be 1948's biggest and best give-away. The most precious possession of the farmer is time. This book is laid out to save the farmer hours of time, temper and worry. It is simple and direct and at the end of the year the farmer should be able to tell at a glance whether or not he made money—and whether or not his income is taxable in view of the many exemptions explained to him in the guide.

Letters to the Editor

COALITION OR CONFUSION

Editor, Fort Record
Sir:

Apparently Alberta is on the eve of another Provincial General Election. I wonder if other young Reformed Men (in fact all young Albertans of voting age) find themselves as confused and befuddled as I do.

From its inception and through to date, I have been unable to accept the philosophy or administration of the Social Credit Government. In their recent convention in Calgary they re-affirmed by the delegates that they still intend to implement their original Social Credit platform and promises. I have felt that the penal or monetary theories of our Social Credit Government have retarded the industrial and social development of Alberta. Proof of that is impossible it is only one man's opinion. Apparently however, it is one that is shared by many others in Alberta who, since 1935, have tried to express their opinion through Political Channels. Through two General Elections the Independents, Party movement has failed markedly to accomplish that purpose.

Returning from overseas service, I was interested to note that The Liberal Party had decided to re-enter the Provincial Field under its own separate banner. The Independent Party, announced by their President Mr. J. Percy Page, had decided to give up partisanship in the Political Field as a separate entity. Now Sir, I find myself confused, discouraged and disgusted at the unprincipled manner in which the pronouncements that they are going to re-enter the Provincial Party would appear to be a capitulation to the Liberals, Socreds, CCF and LPP. The Conservative Party alone has had nothing to say!

The original principles of the Independent movement was to weld together all in opposition to the iniquitous principles of the B.C., C.C.F., and L.P. Parties. Through up and down existence, during peace and war years, the Independents did enjoy the full support of both Liberals and Conservatives, they have failed to weld them, with the liberals definitely back in the field on their own, the Independents first disbanded and suddenly resurrected,—what chance is there for any of them to win?

For some years now we in Alberta have had, in both B.C. and Manitoba—a successful example of what COALITION can do. Why can not the Independent supporters and Executive take their cue from that. Why do they not try only to persuade both Liberals and Conservatives to get together to the extent of either one or the other party running a candidate in each Constituency—the sole opponent to the Social Credit, C.C.F. and L.P.P. candidates.

Listening recently on the radio to Mr. J. Percy Page, the Independent Party Leader, he urged electors and constituents to forget Party labels and seek "the man"—"Get the best man possible in each constituency, irrespective of his political affiliations, and all get behind him and elect him as the Independent for each constituency". Certainly, I say, get the best man possible. But, if that man is worth anything at all, he has his own political convictions and leanings—and those are no mystery to his fellow constituents. So get that man who by have hated, to run him as what he is—either a Liberal or Conservative (running pledged to support a Coalition Govt.) Have the two old parties agree not only to refrain from opposing him but to get out and really work to get him elected. From that we might be able to elect a Coalition Govt. (worked out on a pre-election basis of elected candidates) that should work as smoothly here as it has in B.C. and Manitoba.

How about an end to Confusion in Alberta's anti - funny - money ranks? It is up to the ordinary citizen to take an interest and a stand in the matter. Mail the idea over in the back of your mind and let's start out the New Year with an end to Confusion. Coalition may be the answer. If you think so, make sure you let all your local party heads know your opinion.

Respectfully, Sir
Confused Veteran

STRENGTHENING 2,4-D

Horticulturists conducting experiments at the Michigan agriculture experimental station found that a mixture of the chemical weed killer, 2,4-D, and a specially treated onion juice covered a greater area and increased the strength of the weed killer from 10 to 25 times.

World of Wheat

By E. G. L. STRANGE
Director "The Crop Testing Plan"
THIS HUNGRY WORLD

Week by week, for the last two years, we have been told about this hungry world, that bread is rationed in almost all overseas countries, and that millions of people are receiving an efficient bread (considering all that it seems queer to read that this Dominion Government at the recent Dom Prov Agricultural Conference made no recommendation to increase in Canadian wheat acreage The Govt. "presumed the conference would use the same targets (acreages as set) year." Last year, it will be remembered in spite of the great world shortage of wheat, increased Dom. Prov. Conference recommended an acreage of 19 mill. a below the acreage that was seeded in 1946. Is not Canada then, one might ask, to assume some responsibility in increasing the production of man's most needed food crop? The acreage sown to wheat, it will be remembered, will support five times as many people as the same acreage sown to grains which are fed to livestock Wheat is the food the world is now crying for Canada could easily, and without any strain, grow an additional 5 million acres to wheat this coming spring and after 10 million acres of summer-fallow to help to provide for a hungry world The U.S.A. have increased wheat acreage by 6 million acres. Should not Canada also do her full share?

1 2 3

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Argentina recently sold 12 million bushels of barley at a price believed to be around $2.27 a bushel F.A.S. port . . . The United States barley production for 1947 is now placed at 85,180,000 bushels, compared with last year's production of 91,907,000 bushels, and the 1935-39 average of 96,502,000 bus.

Algeria's 1947 oat harvest amounted to 8,500,000 bushels, somewhat below the 1946 harvest of 9,970,000 bushels, and the 1935-39 average of 10,350,000 bushels . . . The American and British zones of Germany expects the arrival of 1,562,333 bushels of grain in December, including 2,681,333 bushels of wheat, 30,800 tons of flour and 1,252,333 bushels of other cereals. There will be only small quantities of oats, barley and no maize.

BACK IN THE NEWS

"Just Mary"

Autographing copies of Mary Grannan's latest "Magpie Muggins" and "Just Mary" books are Beryl Braithwaite, juvenile star of "Muggins Muggins" weekly CBC drama broadcast for children and Mary Grannan, the CBC's "Just Mary".

CANADIAN WHEAT CHAMP

Mrs. Amy Grace Kelsey, of Erickson, in the Crester district of B.C., [illegible] world wheat queen, won the Canadian championship at the Royal Winter Fair in Toronto recently Her sample of Reward spring wheat, grown between rows on a [illegible] acre fruit ranch, was adjudged superior to all other entries. Mrs. Kelsey will also defend her championship at the Chicago international exhibition.

FREE HEARING AIDS FOR THE DEAF

When the National Health Act comes into effect in Britain next July, the Ministry of Health is planning the free issue of a new hearing aid. It is a result of three years' experimental work by the Electro Acoustics Committee of the Medical Research Council, and arrangements have now been made for large scale manufacture of a cheap and efficient hearing aid. It will satisfy the needs of 90% of the deaf people in Britain.

Demanding women make comrades of men. Appealing women make devotees of men. Either make democracy impractical.

FARM ACCOUNT BOOK
at Your Local Post Office
You'll like this NEW Farm Account Book. It's so simple and direct. You don't have to be a bookkeeper to use it. A few minutes each week are enough to set down your farm transactions—the money you receive or the money you spend. At the end of the year, it will give you a clear picture of how you made or lost money.

Saves Money for You

Answers questions you want to know about Income Tax, too. Everyone with a taxable income must file an Income Tax Return on or before the 30th day of April in each year, showing his net income for the preceding year. The Farm Account Book enables you to take advantage of all the deductions and exemptions. Provides a record from which you can average your income over a three-year period. If you are liable to taxation under the Income Tax Act and have a year of loss, you will be able to change the loss against the profits of the previous year or the next three years as shown by the records you keep in your Farm Account Book.

You won't need to pay an expert to prepare your Income Tax Return if you keep the simple records mentioned in correspondence with the items on the Income Tax Return. You will also find the Account Book useful in keeping your records, even though you are not liable under the Income Tax Act.

Get Your Free Book Now

Don't delay. Your local Post Office has an Account Book for you. Get it now. It's important that you have it to start the new year. Get the habit of all allowances that the law permits. Profit from the knowledge gained from keeping proper records. It's free—and you will find it most useful. Call at your Post Office at the first opportunity for your Account Book.

DEPARTMENT OF NATIONAL REVENUE
(Taxation Division)

Tariff Reductions Pave Way For Canadian Trade Expansion

Tariff concessions granted by Canada and the United States under the I.T.O. agreements will affect a major part of the trade between these two countries. Reductions by the United States from the general level of the tariff schedules to the lowest point in its years.

Concessions have been obtained on practically every item in the United States tariff of which Canada is the principal supplier and Canada gained many benefits through concessions which the United States negotiated with other countries. For example, the reduction in the United States tariff on fresh beef and veal obtained by Australia, extends substantially to all countries signing the Geneva Agreement.

On many commodities which Canada exports in quantity to the United States market, the maximum concessions have been obtained. In addition, the United States has undertaken to relax or remove quantitative restrictions on other than agricultural products. Action has been retained from duty to fix a bushel and the annual quota of 200,000 bushels will be removed. Cattle rancers will be permitted to ship 400,000 head of cattle at quota rates of duty instead of 225,000 head as at present, and the duty on exports in excess of the quota has been reduced from 2 to 1½ per pound.

In 1946, lumber exports from Canada to the United States were valued at almost $60,000,000 and this important industry will benefit from a 50 per cent duty and tax reduction on most soft lumber. In the case of red cedar shingles, the quota has been abolished by the United States, and this commodity then becomes entitled to free entry.

The Canadian fishing industry will benefit from the United States concessions on nearly all species and preparations of fish, certain branches of the industry, which this spring were faced with a sharp drop in demand will now have greater access to the American market. Substantial tariff concessions have also been obtained in the United States for products of the Canadian mining and smelting industry, and for a great many of our manufactured goods. Only a few of the hundreds of advant-

Oxford - the City of Learning

The Wren Room at Oxford, old-world room in Europe, has recently been added to its ancient age as the home of the University Musical Club. Built in 1710, it is a simple stone building in Holywell Street, one of the most famous thoroughfares in this city of learning.

For more than 700 years Oxford has housed statesmen, historians, writers, law-makers and empire-builders. Spend a few days exploring Oxford, seeing its mellow towers, domes, spires, its green lawns, fine gardens and ancient byways and you feel somehow in touch with the past. Time has not spoilt this city of learning, and its grey-gold walls, its seclusion, and its gateways leading to peaceful, lovely quadrangles, have not changed for hundreds of years. For seven centuries Oxford has been building colleges and from the 13th to the 17th centuries only three or four times did a generation pass without a new one being built. University, Merton and Balliol can claim to be the oldest colleges—at University College the poet Shelley spent his wildest year and today there is a beautiful marble memorial to him in its quadrangle

IMPRESSIVE GATES

The most impressive sight at Balliol is the great oak gates made about 250 years ago by a group of English carpenters. The beauty of Merton's gardens is unforgettable.

Visitors' pilgrimages often begin at Magdalen Bridge which runs across the River Cherwell, and extends to the foot of the far-famed Magdalen Tower and into the winding High. The High, by the way, is Oxford's most important street which leads to the corner called Carfax where four streets meet like the points of a star. Facing Carfax is an ancient tower, all that is left of the last medieval church of St. Martin which Shakespeare knew, and close by at No. 3, Cornmarket, is a room in which Shakespeare slept.

Enough Farm Seeds For 1948 Requirements

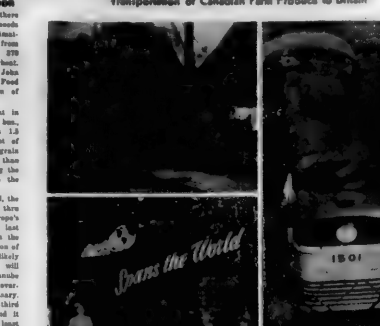
Sufficient quantities of practically all kinds of seeds are available to all engaged in agriculture in Canada to meet requirements in 1948 and surpluses of most kinds are available for export, stated the report on seeds made to the Dominion - Provincial Agricultural Conference held in Ottawa the first week in December, to plan the 1948 farm production program. World production of many kinds of seeds, however, is much less than requirements. This is especially true with respect to winter wheat, red clover, spring vetch, sugar beet and several kinds of root and vegetable seeds.

Red and alsike clover seeds are still under international allocation, consequently they are under export permit control. Individual export control quotas are registered and certified grades of seeds of cereals, field peas, field beans, corn and oil bearing seeds of Eastern Canada origin. These seeds grown in Western Canada may, however, be exported under a general export permit up to the end of the current seed year.

(Canadian) C.A.R.E. has been in operation for one year and in that time has sent 50,000 C.A.R.E. parcels to friends, relatives and other needy folks in hungry Europe. The value of this food and other supplies is $500,000.

Oxford - the City of Learning

Transportation of Canadian Farm Produce to Britain



Monument of Canadian food and food products from the farms of the Dominion to the United Kingdom was job of the year for Canadian Pacific railway and steamship facilities. Top left picture shows shows New Brunswick potatoes being loaded on the Beaverburn, one of the Canadian Pacific's fleet of cargo ships which has come to be known as the "B.I." (Bread Line) fleet on the other side. Bottom left picture shows one of the new Canadian Pacific diesel-electric road engine which was tested by the C.P.R. under all types of operating conditions to see if and where it would be used to advantage over steam power.

Canadian Pacific slogan "Spans the World" appeared Pictures at right above. 1,200 horse power

The crop of the southern hemisphere is now coming on. Australia's wheat crop is a record breaker and has been estimated as high as 850 million bushels. The Argentinian wheat crop is disappointing. Broomhall has estimated it at 154 million bushels compared with 326 million in 1946. Australia will likely have 170 million bushels available for export and Argentina about 75 million.

Conditions have improved in the U.S. winter wheat belt, but it is doubtful if that country will produce the huge crops which have been characteristic of the past few years. The 1947 winter crop is also totaled 1.4 billion bushels, and about 500 million bushels of that will be exported from the U.S.A.

There has not been much change in the Canadian situation, and outside of Canada's commitments of 160 million bus. of wheat for the U.K., there will probably be not much more than 50 million bushels available for export to other countries.

Christmas fuel dollars fight T.B.
The contribution you intended to send must join the fight until you send it. Do it now.

The Wheat Situation

In the present crop year there is a deficit between maximum needs of importing countries and estimated supplies of bread grains from exporters of approximately 270 million bushels in terms of wheat. This is the calculation of Sir John Orr, director general of the Food and Agriculture Organization of the United Nations.

World production of wheat in 1947 is estimated at 5.5 billion bus., while rye production totals 1.5 billion bushels. The continent of Europe, however, had a good crop of about one-third less than the average production during the period 1935-39. Those lies the great grain deficit area.

As far as can be determined, the wheat shortage will continue thru the 1948-49 crop year. Europe's crop may fare better than last year's, but the dislocation on the continent, caused by the erection of arbitrary political zones, will likely mean that western Europe will not be able to look to the Danube Basne for supplies, and heavy overseas importations will be necessary. Germany has lost about one-third of her agricultural area, and it has been calculated that at least 1.60 million bushels of wheat will have to be imported to feed the German people.

The crop of the southern hemisphere is now coming on. Australia's wheat crop is a record breaker and has been estimated as high as 850 million bushels. The Argentinian wheat crop is disappointing. Broomhall has estimated it at 154 million bushels compared with 326 million in 1946. Australia will likely have 170 million bushels available for export and Argentina about 75 million.

Conditions have improved in the U.S. winter wheat belt, but it is doubtful if that country will produce the huge crops which have been characteristic of the past few years. The 1947 winter crop is also totaled 1.4 billion bushels, and about 500 million bushels of that will be exported from the U.S.A.

There has not been much change in the Canadian situation, and outside of Canada's commitments of 160 million bus. of wheat for the U.K., there will probably be not much more than 50 million bushels available for export to other countries.

By JIM GREENBLAT

FROM HERE AND THERE

An oldtime 2-cylinder 1909 Reo has been shipped to North Battleford, Sask., for the provincial museum . . . 89 year of age, J. A. White still travels the wesg ern highlines, as he did years ago with team and covered wagons on his 100th birthday, C. T. Dayhis of Haney, B.C., received telegrams from the King and Queen and from Prime Minister King . . . the annual ratepayer's meeting at Wetaskiwin, Alta., this year was streamlined with an added attraction being movies of city projects

At Radville, Sask., there is no rivalry when the Masonic and Oddfellows get together to build a lodge hall, members working evenings to do the job mostly . . . at Rural Music parity of Big Stick in Sask., in the vote for reeve there are 210 possible votes, and it ended up with Albert Jaster and Walter McInnes each getting 105 the winner was "pulled out of a hat."

* * *

The Vernon, B.C. News sympathizes with the plight of Canada's Reserve Army in a period of world unrest far greater than in the years preceding 1939, when that: "Appeals for universal compulsory military training do not penetrate the fastness of government. Canada will be singularly fortunate indeed, if, in the not unlikely event of further world convulsions, we are again given three years to mobilise our strength."

* * *

The modern farmer is a chemist, veterinarian, electrician, agronomist, meteorologist rolled up in one, says the Rosetown, Sask., Eagle. "The sun and wind, rain and snow are his friends and enemies at the same time and he has to know how to utilize them to his advantage."

* * *

Clipped, but true: ". . . Where we, on this continent, part company with the Socialist and Communist is in our conviction that the restrictions should not discourage or defeat initiative or destroy basic freedoms. That is the test of our system—healthy enterprise, increasing production and a higher standard, plus whether the control which we exercise is honest and efficient."

* * *

The Canadian Statesman of Bowmanville, Ont., says: "Unselfish service will benefit the giver. This is no true that it requires no qualifying comment. Have you tried it lately?"

* * *

The Vegreville Observer is somewhat pessimistic in an editorial on strikes, concludes: "Shorter hours, less work, more pay seems to be the universal motto these days. Everybody seems to be headed in the same direction, and unless some different attitude towards work becomes evident in the near future, everybody is due to be in the inevitable collapse."

* * *

Well, folks, we had just scraped together seventy dollars to take care of our contribution to free medical service when we read about "court or no court" would uphold their legislation in some way even if declared illegal. Atta boy, Douglas—we always did love a rebel; taking our lead from you we are going to hang to that seventy bucks and challenge the Saskatchewan authorities, court or no court, to force payment. But why we? No, on reflection we will set our premier an example of good citizenship by complying with the law, even when it happens to be a law that doesn't meet with our approval. — From Maple Creek News.

* * *

The Printed Word takes umbrage with the sometimes made statement the communists in Canada are often "well-meaning." Says: "If such a person is a Canadian before he is a communist he is not a communist. Any person who is a Canadian first may be well-meaning even if the rest of us think him insane in his ideas. But no communist is a Canadian first."

* * *

When you see a town where the streets are kept clean and sunlight-ly firstrape are forbidden and every new home and business building is as modern and attractive as the owner could afford to make it and home owners plant trees and flowers to beautify their yards, you know the people aren't wholly selfish. Shaunavon Standard.

Lost Certificates

The Canadian Wheat Board keeps on file duplicates of every participation certificate issued to farmers when they deliver grain. If you have lost a certificate it does not mean that you lose any money or that you have to wait long. Special arrangements will be made whereby you will be able to get the payment's due on the lost certificate.

At the annual Wheat Pool convention Mr. McIver, chief commissioner for the Wheat Board, was asked why it was necessary for farmers to send in their certificates when a payment was due. Mr. McIver replied that the procedure was the only way that records could be accurately kept and that any other method would lead to endless confusion.

DIGS 50 TON COAL IN 6 HOURS

William Williams, 27 year old miner of Aberfan, South Wales, created a new record Dec. 12 when he dug 50 tons of coal in six hours. He had to stop because he ran out of trams. Williams has thus almost doubled the record average shift production of 25 tons 15 cwt. set by Edward Maybank, also of South Wales, a week before, working 4½ shifts. Williams next target is to hew 100 tons in five shifts. Williams used a powerdrill pick and handloaded his record 50 tons.

...MBER CHICKS HARDY, BUT DON'T OVER-ORDER

Poultry branch, Alberta Dept. of Agriculture, advises against delay ... ordering, if reasonably early chicks are desired. Nearly all hatcheries report heavy bookings of orders, some into the month of May.

Do not order more chicks than you can raise successfully, and do not overcrowd the brooder house. Many people, last year, ordered far more chicks than they were prepared to raise properly. This meant that they suffered an abnormal loss and somebody else had to do without chicks. It is far more profitable and satisfactory to raise a smaller number with a little loss and have better birds at maturity, than to attempt to raise them under crowded conditions. Crowding always results in severe losses and inferior quality birds at maturity. Check over your brooding facilities. If you have over-ordered, your order can easily be reduced. Give someone else a chance to get the chicks you may lose.

The proper time for the purchase of chicks to start to make good quality pullets and cockerels is when he receives the chicks and takes them from the box. Any setback a chick may receive is reflected throughout it's life, if it lives.

This is a good time to overhaul the brooder house and stove. Use plenty of disinfectant in the brooder house. Have everything ready and the stove in operation three or four days before the chicks are expected. If you have not already received a copy of Leaflet No. 58 on "Brooding and Rearing of Chicks and Poults", same may be obtained on request from the Extension Service, Dept. of Agriculture, Edmonton.

Britain's Winter Sports

United Kingdom sports enthusiasts who will not be going to Switzerland this year are planning to foregather in Scotland. Arrangements are being made by the Scottish Tourist Board in cooperation with the Central Council of Physical Recreation and the Scottish Ski Club to provide full facilities for both experts and beginners. Scotland has four areas excellently suited for skiing. These are in the highking districts near Loch Tay and Glen Lyon, the former where the mountains rise to over 4,000 feet. The Central Council of Physical Recreation are planning an all-year-round school to be sited at the foot of the Cairngorms. Here instruction will be given in ice-climbing and skiing during the winter months and in mountaineering in summer. Regular skiing instructors are also to be appointed at various centres throughout Scotland. 400 hotels are cooperating in this plan to improve the general enjoyment the excellent winter sport possibilities which Scotland offers after. They are pledging themselves to provide guests with comfort as well as enjoyment; for example, sufficient supplies of log fuel are being built up to guarantee a fire in every bedroom during the winter irrespective of coal allocations.

Canada lost thousands of dollars to the U.S. through the heavy wolf-killing in rye over the Manitoba border last fall. A total of 697,207 head of rye was imported from the U.S. during October alone. The higher Canadian price yielded the sellers $1 a bushel profit.

PLAY AS A CASH CROP FOR NORTHERN AREAS

Until a few years ago flaxseed has not been grown to any great extent in northern districts. This is probably because most farmers had little experience in growing the crop, and felt that the growing season was too short for flaxseed to mature. On some farms the presence of wild oats has prevented the successful production of the crop.

By experiments conducted at the Dominion Experimental Station, Scott, Saskatchewan, it has been found possible to mature the earlier varieties of flax, and where wild oats are not a problem, obtain yields which at present prices would give a better net return than wheat. Other advantages of flaxseed over wheat production for those areas are: less acreage is required where farms are small.

What we make of our home is more important than what we make it of.

Beauty of Canadian Fall Scenes Will Attract Visitors

Canadian Pacific Railway Company's Empress of Scotland, largest liner on the Canadian run, will be one of the ships which will bring visitors to Canada next fall to see the beauty of Canadian fall scenes. Many visitors will be attracted by the Canadian Pacific's "Fall Colour Cruises" which will be operated on the Great Lakes and the St. Lawrence River.

West Elk Island

After the Christmas and New Year's festivities, everything is gradually returning to normal, and everyone returning to everyday activities. One of the most interesting bits of news that circulated the happy Christmas spirit was the fine work done up at the home and little store, owned and operated by J. I. Pinder at Fortridge Hill.

Mr. Robert Hore and Fenton visited relatives in Wainwright during the Christmas holidays.

Griesbach

The Greisbach U.F.W.A. held their monthly meeting at the home of Mrs. Stan Walker, December 12th with 13 members present.

With the election of officers at hand the following were elected Mrs. Roy Shackleton, President; Mrs. N. Walker, Vice President; Mrs. Stan Walker re-elected Secretary-Treasurer; Mrs. Fred Turner, Mrs. K. Ellips and Miss Sparks, Entertainment Committee and Mrs. S. J. Melville, News Reporter.

Mrs. Stan Walker was appointed to attend the U.F.W.A. convention in Edmonton, January 13 to 16.

Stewart Shackleton, who is attending the Vermilion School of Agriculture, was home to spend the Christmas holidays.

Mr. and Mrs. Bob Talash and Colin of Clyde, visited for New Year's at the home of Mr. and Mrs. Roy Shackleton.

Miss Mamie Cunnanen is visiting for a few days with her brother at Willingdon.

Large Order of Christmas Dinners Prepared for Hotel Guests

It was quite a tall order to provide traditional and hearty Christmas dinners for the thousands of guests registered in the Canadian Pacific Railway's coast-to-coast chain of hotels, and judging from the picture of one of the buffets at the Chateau Frontenac in Quebec City, presided over by chef de cuisine Adolphe Richard, (right), and his assistant Fredy Tom, the 17,000 odd sitting down to the feast did not skip up on the job. Turkey headed the list of food ordered—7,500 pounds, or over three tons, of it, followed by 5,775 pounds of beef, 495 pounds of geese, 1,775 pounds of plum pudding, 605 pounds of fruit cake, 255 pounds of mincemeat and 316 pounds of nuts. Three thousand pounds of turkey went to the Royal York in Toronto, the Palliser in Calgary's cattle country ordered 1,000 pounds of beef and the Chateau Laurier waffle line in Kentville, N.S., planned for 75 pounds of lobster. Two roasting pigs were on the menu at Victoria's Empress Hotel for the Christmas pageant of old England.

East Edmonton

Miss Bunny Hackett has returned to the roost after spending the holidays with her parents Mr. and Mrs. B. E. Hackett.

A spooky mystery is wished Mr. G. Buffet who underwent an operation recently.

The Christmas party in the hall last Monday was well attended. The films show by the University of Alberta were enjoyed by young and old, Miss Bunny Hackett doing a solo, then the school girls led the round dance singing accompanied by Mrs. Chamberlain at the piano. Santa paid a visit to the children and each received a nice bag of candy and nuts to the children of the district.

The community extends its sympathy to Mrs. C. Pook who recently lost her brother.

A spooky mystery is wished Mrs. Af. Gibson who is a patient in the General Hospital.

We are sorry to hear that Mrs. E. Hammerschmidt is on sick leave from teaching for a month. We wish her a speedy recovery and she also will soon be back with her pupils.

The old school bell will be ringing on Monday, calling all the pupils back to work again after two weeks holidays.

Mr. and Mrs. R. A. Craig left for the west coast to spend Christmas with their two daughters and families. They expect to be away for three months.

The dance held in the hall on Boxing Day was attended by a good crowd. Everybody enjoyed a good time.

A number of outdoors enjoyed a bright Christmas, the electricity being turned on one week previous.

Mr. Jim Anderson arrived home for the Christmas from Fort St. John. He expects to return by plane Monday, accompanied by Mrs. Anderson who plans to spend a couple of months in the north.

Congratulations are extended to Mr. and Mr. Richards of Edmonton (nee Irene Sanford) on the birth of a son, Helen Churchill.

School Flashes

Monday morning saw the students bright and beaming after their enjoyable Christmas holidays.

The desks in the grade X room have been rearranged to allow for better lighting.

The Dramatic class is now working with Miss Sylvia Sparks' pupils. Even Miss Cartwright admits that the boys are allowing her a little monkey-ing on.

The herbicide 2,4-D can be used for killing rose bushes as enlightened and cold counsel is needed when if the roots are sprayed before Christmas. If the roots are transplanted roses, it will cause kink, if any damage to the crops, provided that treatment is given after the crops are 5 inches and but before they reach the shot blade stage.

It is generally accepted that the other types of 2,4-D are more active as weed killers than the ether available types.

Coming Events

McDougall Church Y.P.U. presents Hearts and Blossoms, Wednesday January 14 at 8:15 p.m. in the Fort Community Hall. Proceeds to aid First United Church Building Fund. 17c,2d,7c

ENGAGEMENTS

Mr. and Mrs. Joe Atheim of Fort Saskatchewan wish to announce the engagement of their youngest daughter, Olga Philipina to Emil A. Jacobs of Edmonton, formerly of Fort Saskatchewan. The wedding will take place on February 4, 1948 at the Roman Catholic Church, Fort Saskatchewan.

IN MEMORIAM

In loving memory of Mrs. Emil Neumaier, who passed away on the 7th day of January, 1945.

They say time heals all sorrows,
And helps us to forget,
But time so far has only proved,
How much we miss you yet.
God gave us strength to take it,
And courage to bear the blow,
But what it meant to lose you,
No one will ever know.

Ever remembered by her loving husband and family.

In loving memory of Stanley Dennis who went home Christmas Eve, December 24th, 1939.

Those whom we love go out of sight
But never out of mind;
They are cherished in the hearts,
Of those they have behind.
Loving and kind in all his ways,
Upright and just to the end of his days,
Sincere and true in heart and mind,
Beautiful memories he left behind.
God is Love.
Lovingly remembered by his wife, Katherine.

CO-OPERATIVE EFFORT

Although, at Confederation in 1867, when the original Provinces united, responsibility for health stewardship as between federal and local authorities in Canada was defined only broadly, successive national and provincial administrations of vision have erected wide and efficient health structures with a minimum of overlapping.

Treatment and health services generally have remained the prime responsibilities of the Provinces, as was intended. To its constitutional role of guarding against importation of disease and its normal in Canada, the federal authority has added numerous services extending leadership and assistance to the local authorities in their specific problems.

The self-important people are important only to themselves.

Bremner

The November meeting of the Tow by Tree Club was held at the home of Rev and Mrs. M. A. Johnson. An hour of singing was enjoyed before the meeting.

Bethel Sunday School Concert held tonight the evening in a dance.

The next meeting will be held at Mr and Mrs G. Kuppe Every Sunday School is invited to the to the annual meeting.

The Bremner Skating Rink opened during the Christmas holidays. A large crowd was in attendance. Hot dogs and soft drinks were sold during the evenings. There will be skating every Saturday night as well as afternoons.

The Central Union held the Christmas party, Monday night, December 29th. A number of carol singers were present on by the children Santa Claus visited the children and treats were handed out.

A good deal of credit is due to Miss Margaret Hackett for the pains she has taken in preparing for the two performances.

Among the visitors home for the Christmas holidays were Ruth Jackson and Reggie Marler from Vermilion, Mr. and Mrs H. Pauli, and Minerva Marler.

Special music was supplied by the Bremner Choir for the Christmas Sunday Service. Mr. Johnson's text was appropriate for the festive season.

Mr. John Galloway celebrated his 90th birthday, December 27. A birthday cake with 90 candles was made by his daughter, Mrs. A. Bedell. His family and a number of friends called on him during the afternoon and evening.

Around the Town

Miss Alice Miller is a new recruit at the Telephone Office.

Miss Gwen Wilson and Miss Glenrose Dewey of Edmonton, were visitors at the home of Glenrose's parents, Mr. and Mrs. H. T. Dewey last week-end.

Mr. Bill Walker spent last week-end with his parents here

The Women's Institute meeting will be held Monday, January 19 in the church at 8 o'clock

There are no changes in the Fort Saskatchewan bus time.

Mrs. Fred Rohn of Fawcett was the week-end guest of her daughter, Frieda, at the home of Rev and Mrs. W. D. Race.

At the evening service of First United Church, Sunday, January 18th, leaders alides will be shown on the work of the Canadian national missionary, Dr. Robt McClure, while in charge of an ambulance unit in Free China during the recent war.

Miss Marjorie Lasher of Ottawa who has been visiting with her parents, Mr. and Mrs. H. Looker, the past month, left for Ottawa this week.

S. Cooking Lake

Favored with a sunny, kindly Monday morning, Franklin School reopened its doors on January 5th to welcome her boys and girls and teacher, after their Christmas holidays. Only three of their number were absent, and they because of illness.

Seen after school hour to their studies the senior students met to make plans for the raising of funds to purchase a radio-gramophone for the school, in order that we might listen in to the entertaining and instructive programs prepared for schools by the Department of Education; and also that, in the absence of a piano (a major loss) we might, the more readily, add a number of new songs to our already rich store. After thoughtful discussion it was decided to hold a series of fortnightly whist drives at the home of Mr. and Mrs. Griffin. Mrs. Day's are also to be the second to the making of posters announcing the first party.

Cooking Lake is glad to note the steady recovery Mrs. Uglow is making back to strength after her operation and we take this opportunity, on behalf of the district, to wish her many happy years of restored health.

The writer of this column craves the indulgence of the editor that he may wish for all his readers A Happy New Year.

TOBACCO IN 1720

The first record crop of tobacco in Canada was in 1720, when total production was 68,000 pounds. In 1940 the total yield was 141,384,000 pounds, from 110,338 acres, valued at $40,872,000.

THANK YOU!
Mr. and Mrs. John I. Fischer and Eddie and Robert Fischer wish to take this opportunity of thanking the Partridge Hill Community Club and Glee Club and all other persons who so kindly contributed to help us get re-established in the district.

MUNICIPAL DISTRICT OF STRATHCONA NO. 83

NOTICE OF ADOPTION OF ASSESSMENT

Notice is hereby given that the Assessment in effect for the year 1947 has been adopted for the year 1948.

Any person desirious of appealing against the assessment on any land must lodge his complaint in writing with the Secretary Treasurer of the Municipal District prior to the 31st day of January 1948. No appeals can be considered after that date.

D. HODGKISTS
Secretary Treasurer

Edmonton South, Alberta.

Fort Fur Breeder Wins 8 Ribbons

A record entry of 1,200 fox and mink pelts valued at $100,000 were displayed recently at the 10th Annual Alberta Fox and Mink Show of the Alberta Fur Breeders' Association. We were privileged to view the entries of Harris Byers, well-known fur breeder of Fort Saskatchewan.

Out of 11 pelts entered, seven of which were fox, including one un-shed pair, and five mink, Mr Byers captured eight prizes. A feat we feel sure he must be proud of and for which we congratulate him.

Among the ribbons won for the fox pelts were: 2nd for a Cross pelt, 4th for a Pearl Platinum, 5th for a matched Platinum Silver pair and 6th for a Platinum Silver.

In the mink event Mr Byers won the Reserve Championship for a Glacier Blue, 1st for a Silverblu, 2nd for a Glacier Blue and 7th with another Silverblu.

In awarding a little information cards, and which we pass on to our readers, we asked Mr. Byers what a mink coat would cost made of Glacier Blue pelts. He informed us it would cost between $17,000 and $20,000 One pelt of this type of mink is worth in the neighborhood of $100.

'Hearts and Blossoms' Well Received Here

The McDougall United Church Young People's operetta production of "Hearts and Blossoms", sponsored by the Senior Choir of First United Church and presented to a capacity audience here Wednesday night sparkled with melody, light drama and comedy.

Under the direction of James Pritchard, members of the cast did splendid work. Audrey Stansbury and T. Roberts, in the leading parts, along with those in the main roles, gave fine performances and received solid support from the chorus.

Following the play the ladies of the Senior Choir, under their social convenor, Mrs. Ray Shackleton, provided a dainty lunch for members of the cast.

Rev. W. D. Race acted as chairman and thanked the players for their generosity in absorbing all expenses in connection with putting on the operetta in order that the entire proceeds could be used in the building of the new church here.

Miscellaneous Shower Held for Olga Atheim

On Tuesday evening approximately thirteen girls dropes out to the home of Mr. and Mrs. J. Atheim for a surprise miscellaneous shower given in honor of their daughter Olga, who is to be married early in February.

During the course of the evening games and a sing song were enjoyed by all. A lovely lunch was served after which Olga was presented with many lovely gifts for which she thanked everyone.

During the past 10 years Western Canada's annual production of wheat has fluctuated from 156 million bushels to 322 million bushels. In Alberta the variation has been between 61 million bushels and 190 million bushels.

Griesbach

Mrs. Stan Walker attended the U.F.W.A. Convention in Edmonton.

Griesbach ladies' and men's rinks were hosts to two Edmonton rinks on Monday. The city rinks, consisted of Mr. and Mrs. Burl Dingle, Mr. and Mrs. Bob Cortford, Mr. and Mrs. Frank Lagrie and Mr. and Mrs. Herb Conford. After the game all were entertained at the home of Mr. and Mrs. Stan Melville to a chicken dinner which was enjoyed by all.

There is considerable excitement around in regards to the trip to Manville and Lloydminster on Thursday. Quite a number are planning on going from here.

Life is made up, not of great sacrifices or duties, but of little things, in which smiles and kindness, and small obligations given habitually, are what preserve the heart and secure comfort.—William Dewy.

Fines Imposed on City Pair For Part in New Year's Eve Fracas

The court room at Fort Saskatchewan was packed Saturday afternoon to hear charges laid against Thomas A McKenzie and Donald Maither for assault, and against Charles Norman for illegal betting and Henry Thomas for pointing a gun.

Magistrate Philip and Magistrate McCullough were on the bench and Mr. John Hart of the Attorney General's Department was prosecuting counsel. Mr. T. Purvis, K.C. was counsel for Thomas A McKenzie.

The first case to be heard was that of Constable Hall against Charles Norman for wife beating. The accused pleaded guilty and was fined $20 and costs or 30 days in jail.

Several other charges laid against these two men were with drawn

Harvey Thompson of Manitoba

Fort Swamps Nameo, Loses to Bremner 3-2

The Fort Hockey Team chalked up another victory Wednesday night when they defeated the Bremner team into ramp to the tune of 3 to 1.

Shortly after the whistle blew Howard Calvert set the pace by scoring the first goal unassisted. From then on there was no stopping the boys.

The two scoring goals were Calvert 2, Lucas 1, Glover 1, Burton 1, Hall 1, Goodwin 1.

Bremner Forfeit was put out of action in the third period when he was hit about unmentionables and received a net over his eye.

According to reports Thursday evening audience here Wednesday night sparkled with melody, light drama and comedy.

Under the direction of James Pritchard, members of the cast did splendid work. Audrey Stansbury and T. Roberts, in the leading parts, along with those in the main roles, gave fine performances and received solid support from the chorus.

Following the play the ladies of the Senior Choir, under their social convenor, Mrs. Ray Shackleton, provided a dainty lunch for members of the cast.

Can. Legion W.A. Elect Slate of Officers

The Ladies Auxiliary of the Fort Saskatchewan Branch Canadian Legion held their annual meeting and election of officers in the Legion Hall Tuesday, January 13

Officers elected for the coming term are: President, Mrs Madeleine Sutherland; 1st Vice President, Mrs Olive Lacombe; 2nd Vice President, Mrs Ruth Hackett; Secretary-Treasurer, Mrs Alex Thomas, Executive Members, Mrs. C. Millar, Mrs. Tom Hare, Mrs. Lena Walls, Mrs. George Hall and Mrs. Mercereau.

Mrs. Sutherland held the regular monthly meeting on the 2nd Monday in January, at which the next meeting will be held in the Legion Hall on February 10th.

The committee is reminded to all wives and sisters of veterans to join the newly formed Ladies Auxiliary

Partridge Hill

The January meeting of the W.A. and W.M.S. was held Thursday, the 8th at the home of Mrs. J. W. Attewell

Reports for the year 1947 were read by the secretary and their organizations had a good year, finances were in a healthy condition.

Following the business meeting the presentation of a china cup and saucer was made to the retiring President and Secretary, Mrs. Anson Cobaldstone and Mrs. Alfred Frey.

The Annual Meeting of the Partridge Hill congregation of the United Church was held in the church last Friday evening, January 9th.

Reports of the different departments of the church were given and showed a favorable year in each department.

The following officers were elected for 1948: Stewards Mr. Geo. Cobaldstone and Mr. Charles Cobaldstone, Mrs. Anson Cobaldstone, Church Caretaker; Secretary J. W. Attewell.

The Annual Meeting of the Community Club was held in the hall on Monday evening. The financial report showed that the club had had a good year both finance ally and socially. Seven progressive social and business activities had been held in the hall during the year.

The following officers were elected for 1948: President, Mr. V. R. Lawrence; Secretary, Mrs. Attewell, Treasurer, Mr. W. Alton; Hall Board, Mr. Arthur Krebs, Mr. Geo. Cobaldstone and Mr. Alf Frey.

Mr. and Mrs. J. Fischer spent last week-end at Tomahawk where they visited Mrs. Fischer's parents, Mr. and Mrs. Hinz.

Miss Irma Perzel has returned from the coast and is visiting with her sister, Mrs. J. Fischer.

The Misses Mary Smith and Dorothy Attewell are visitors in Edmonton for a few days.

The G.C.C. candidate for this constituency, Mr. Arason, of Hay Lakes, has been making a tour of the district this week.

A home has been purchased and moved to the site of the former Partridge Hill Store. Mr. and Mrs. Fischer expect to move this week weather being favorable.

Lloydminster - Fort Hockey Game Thurs.

Approximately 150 hockey fans boarded the special train at 5 p.m. Thursday bound for Lloydminster to boost the Fort Team in their exhibition game with the Lloydminster Huskies.

This is the first time in a number of years that a venture of this nature has been undertaken from the Fort and has resulted in considerable excitement being shown by residents in town and throughout the district.

Most hockey players in town closed Thursday afternoon in honor of the annual Wednesday closing to allow employees to take advantage of this occasion.

Volunteer musicians intend to enliven the trip by taking along their instruments, but private bid this we expect to see a merry crowd disembark in the wee small hours of Friday morning

Curlers Plan Two Spiels in Near Future

A meeting of the Fort Curling Club was held Friday, January 9, and called to order by Mr. Chas. Lowe After dealing with the minutes and the Treasurer's report, a full discussion of finances was made by the president, Mr. Lowe.

A vote was taken by members who have made loans and it was agreed to repay Mr. Calvert's loan of $200 first.

It was moved that a bonspiel be held, commencing February 23, at 2 p.m. and that Mr. Calvert be the Manager, A. B. King and Fred Sherwood Billeting Committee and Chas Lowe, A. B. King and Fred Sherwood Finance Committee. Members of unions, Art Simmons suggested that four competitions be held as follows: Visitors, Merchants, Grand Challenge and Consolation.

Plans were made for a mixed bonspiel to commence Monday, January 26. The fee to be $1.00 per rink. Ernie Thorne and Jim Hooks were appointed to pick the rinks for the spiel.

It was moved that a fee of $1.00 per sheet be charged for Sunday games. This fee to go to the caretaker.

The meeting adjourned at 10:45 p.m.

Wet harvest weather has been plaguing Australian farmers and has caused serious losses.

AGRICULTURAL SERVICE BOARD
Notice of Meetings
The Extension Service of the Department of Agriculture in co-operation with the Agricultural Service Board of the Municipal District of Strathcona, will hold meetings during the week of
SOUTH COOKING LAKE COMMUNITY HALL, TUESDAY, JANUARY 20
FULTONVALE SCHOOL, FRIDAY, JANUARY 23
at 8:30 p.m.
Pictures in color will be shown by M. L. Stetson, illustrating some of the work carried on by the Service Board during the past year. Soil fertility and crop rotation will be dealt with by R. J. Whitbread, District Agriculturist.
EVERYBODY WELCOME

Annual Meeting
of the
Ardrossan Community League
will be held
Wednesday, January 21
at 8 p.m.
IN THE OLD HALL
ELECTION OF OFFICERS AND DISCUSSION OF PLANS FOR THIS YEAR WILL TAKE PLACE
COME ONE — COME ALL

Beaver Hills Church Hold Annual Meeting

The Annual Meeting of Beaver Hills United Church was held in the church on Tuesday evening, January 6th, with Rev W. D. Race in the chair and Mrs Ed Underchalts acting as secretary.

Reports rendered showed that 1947 had been a good year financially, particularly for the W.A., who had cleared $200 from parsonage effects and the play "Rock Cote". But the church had contracted to lose people from its congregation and the Sunday school soon had been discouraging $1 was accordingly decided that services be discontinued indefinitely, but that Beaver Hills people would still assume much the same responsibility for the salary of the minister, and also attend the services of neighboring United Churches. Stewards elected for the ensuing year were Mr. Ira Fisher, Mr. Wm C. Fisher, Mrs. Henry Visscher, Mr. Ed Underchalts, with Mrs. Ira Fisher as Treasurer.

The W.A. will continue to meet regularly, with Mrs. Ira Fisher continuing as President, and Mrs. Ed Underchalts as Secretary-Treasurer.

A delicious lunch was served by the W.A ladies to conclude the congregational meeting.

The next W.A. meeting will be held at the home of Mrs. Reg. Fisher on Wednesday, January 28.

Josephburg Y.P.A. Enjoy Sleighing Party

On Sunday, January 18th, the Josephburg Y.P.A. gathered at the home of the President, Irvin Thomas, where everybody climbed on a sleigh and headed for Edmonton. Many delight the group departed with Dan Frey and his six-mule team and wagon. On the entire trip of twelve miles, there were several chilly chortles and yells—even one frightened horse was revived amidst roars of laughter

When the party returned to the Thomas home a table of delicious food awaited the new hungry group who merely had to eat, everything was so well prepared.

During the lunch sing-song which followed, Melva Nolf thanked the hosts for having given the use of their home for the lunch. The singing of some hymns brought the evening to a suitable close—After which everyone departed for home, rather sleepy, yet very satisfied.

Timely Farm Notes

By R. J. Whitbread, District Agriculturist
JUNIOR SEED FAIR

Dates of the 1948 Provincial Junior Seed Fair have been announced, January 28th, 29th and 30th, at the Exhibition Grounds, Calgary. This is one of the big events at which the boys and girls of Alberta exhibit samples of oats, wheat, feed barley, malting barley and flax seed. Last year nearly 350 samples were exhibited.

G. S. Black, Supervisor of Junior Activities for the Alberta Department of Agriculture points out that no contest is open to any farm boy and girl whether a Junior Club member or not. Contestants must be over 12 and under 21 years of age. Many extensive prizes and special awards are offered, and the experience gained in events of this kind goes far towards preparing contestants for the shows at The Royal and Chicago.

Those who wish to prepare a sample of grain for the Provincial Junior Seed Fairs should contact their authorities without delay. Only one quart of grain is required for each exhibit. Full information can be obtained from District Agriculturists, or from the Supervisor of Junior Activities, Alberta Department of Agriculture, Edmonton.

* * *

WASTE

H. J. Mather, supervisor of soil conservation for the Alberta Department of Agriculture, mentions a farm practice, all too common this fall, that is in direct opposition to soil conservation. We are told continually that our soils need fibre, that they need organic matter, but in spite of this, thousands of pounds of plant food and fibre that should go into the soil go up in smoke.

Stubble burning clears off the trash and makes it easier to cultivate, but every time you fire the stubble you are destroying between two and four dollars worth of plant food per acre. You ought to replace the plant food with fertilizer, but you can't buy organic matter. It is that organic matter that catches and holds the rain drops in the course of every shower, returns to the soil some of the elements needed for the crops to follow. Both the soil of its organic matter and you reduce the water holding and water holding capacity of the soil. If the soil is unable to absorb the rain as it falls, you get run-off and water erosion. Look at fibre in the soil paves the way for soil drifting.

The longer the stubble the greater will be the waste by burning. Mr. Mather points out that handling heavy stubble is not the problem these days that it used to be. Many of our farmers have banished stubble from crops of 60 to 70 bushels to the straw without difficulty. They use the tiller and keep the trash where it belongs.

* * *

LIFE OF SEEDS UNDER THE SOIL

Many weed seeds, as farmers know too well, can remain alive in the soil for years.

Buried Seed Tests

In 1879 weed seeds were buried in an iron bottle of several different kinds of weed seeds. At intervals of five years one bottle of each kind of seed was dug up and germination tests were made with the seeds. Seeds of Wild Mustard showed still germination after 50 years in the soil. After a burial period of 60 years, seeds of several other important weeds were still alive.

One of the most extensive burial of weed investigations on which reliable information is available was initiated, in 1902, by officials of the United States Department of Agriculture. In that year, seeds of many different plants were placed in sterile soil in flower pots and buried outside at different depths. The pots were dug up and seed germination tests made after 1, 3, 5, 10, 15, 20 and 39 years. After 20 years burial in soil a fairly large proportion of the seeds of several important weeds were still alive. A point of interest is that seeds of certain weeds showed little or no germination after a relatively short burial period (3 years), but considerable germination after a long burial period (20 years).

The Dominion Experimental Station authorities, Swift Current, made an extensive study of the germination of weed seeds in cultivated soil. They concluded that the relative period of seed dormancy is one of the greatest single factors contributing to the seriousness of a weed.

From the results of a number of roll lab buried seed investigations it is possible to draw the following important conclusions. Depth of burial and size of seed have little effect on the longevity of seed made in the soil. Seeds of cultivated plants, especially of cereals, perish quickly in the soil, while seeds of certain perennial weeds retain their vitality for long periods. This means, of course, that perennial weeds cannot be controlled merely by plowing the seeds under, for the seeds will retain any practical crop rotation.

◆ Recipes for Milady ◆

The feeling of satisfaction at having the roast collar well filled with crumbs, turnips, beets and parsnips as well as potatoes, warm off as the winter progresses. If served every day "plain boiled" these vegetables do become monotonous but with a few quick trains of seasoning or with a different method the same vegetable may be served two or even three times a week and seem like a different vegetable.

A sprinkle of celery salt, paprika, chopped parsley, curry powder, nutmeg or mustard olive sauces retain the natural flavor. Cheese sauce, or plain cream sauce blend well with vegetables.

The home economists of the consumer section, Dom Dept of Agriculture have many interesting recipes for vegetable dishes. Here are three good ones.

TURNIP CASSEROLE

2 cups boiled mashed turnips
1 tablespoon butter
1 tablespoon sugar
1 teaspoon salt
Dash of pepper
1 cup soft bread crumbs
2 eggs

Mix together turnips, butter, sugar, salt, pepper, three quarters cup of bread crumbs and beaten eggs. Place in greased casserole, sprinkle with remaining quarter cup of bread crumbs. Bake in a moderate oven, 350F. for 25 minutes or until top is lightly browned. Six servings.

* * *

BEETS POQUANTES

2 tablespoons fat
1½ cups liquid from canned beets or water
1 to 2 tablespoons brown sugar
½ teaspoon salt
½ tablespoon cornstarch
2 tablespoons vinegar

Melt fat in saucepan. Blend in flour and beet juice or water. Cook, stirring constantly until thickened. Add sugar, salt, horseradish and beets. Heat thoroughly and serve. Six servings.

* * *

PANNED SHREDDED CARROTS

2 cups unpeeled carrots (about 3 medium carrots)
½ teaspoon salt
1 inch of pepper
Pinch of curry powder
1 teaspoon vinegar
1 tablespoon butter

Melt fat in heavy pan. Mix carrots with seasonings and vinegar. Add water and cover tightly. Cook slowly for until tender, about 15-20 minutes stirring occasionally. Six servings.

Answering Your Questions ABOUT IMPORT CONTROL

Most of the countries which are Canada's regular customers have not recovered sufficiently from the war to pay, in the normal way, for all the goods they need, despite extensive help from the United States. Nor are they able to send us enough of their goods to balance accounts—or to pay us in the kind of currency which we, in Canada, can use to buy goods in other countries.

At the same time, Canada has been buying more goods than ever before from the United States and other countries (including U.S. dollars). This is because these goods were not obtainable elsewhere and because of demand pent-up during the war.

Buying from the United States or U.S. dollar areas must, therefore, be reduced until our trading again balances.

To meet this emergency, purchases of goods and services or expenditures for travel, which must be paid for with U.S. dollars, are now subject to control.

IF YOU ARE AN IMPORTER OF CONSUMER GOODS and wish to find out what goods are (1) prohibited, (2) subject to quota, or (3) unaffected by controls, see or write your nearest Collector of Customs and Excise.

IF YOU WISH TO IMPORT GOODS SUBJECT TO QUOTA and wish to establish your quota entitlement to import, or need goods urgently, see or write your nearest Collector of Customs and Excise. Quota application forms (C. 11) and instructions for completing them, are available at Customs Offices. These applications must be filed with the Collector of Customs and Excise.

IF YOU WISH INFORMATION ON THE AMOUNT OF YOUR GOODS, after your requirements have been filed with your Collector of Customs and Excise, all correspondence about the establishment of quotas or about the consignment hereafter, through import prohibitions should be directed to Emergency Import Control Division, Department of Finance, 490 Sussex Drive, Ottawa. Quotas are issued on a quarterly basis and any unused portion may be cancelled over into the following quarter.

IF YOU ARE AN IMPORTER OF PRODUCTION PARTS, INDUSTRIAL GOODS, plant, machinery or other capital goods or automobiles, and wish to know the import restrictions or duty affecting them, write or see Emergency Import Control Division (Capital Goods), Department of Reconstruction and Supply, 350 Wellington Street, Ottawa.

IF YOU INTEND TO TRAVEL OUTSIDE CANADA and wish to know about the amount of money available for this purpose, consult any Travel Bureau, Exchange Control Board at Ottawa, Montreal, Toronto, Windsor, Vancouver. If you wish information of purchase of goods while travelling in countries outside Canada, consult the nearest Collector of Customs and Excise before departure.

IF YOU ARE A MANUFACTURER, WHOLESALER OR RETAILER and have information about trade terms, or about the list of goods to which they supply, consult the nearest Collector of Customs and Excise.

IF YOU NEED OTHER ASSISTANCE OR ANSWERS consult the Foreign Trade Service, Department of Trade and Commerce (Import Division), Ottawa. If you have any supply problems arising from import quota restrictions, through the Goods Conservation Service, the Import Division is endeavouring to arrange increased supplies from the United Kingdom and other "non-dollar" countries.

IF YOU ARE A PROFESSIONAL and wish information on available chemicals, books which have unavailable substitutes written in them, new publications or other information which has been published by the Government of Canada and Provinces, see or write the nearest Collector of Customs and Excise, the Director of the Department of National Health and Welfare may be obtained from your Provincial Health Department or local health unit.

The administration of these emergency import controls is the responsibility of various departments of the Government of Canada. Every effort is given to all Canadian citizens by complying with the following import control regulations with a minimum of inconvenience to their business and personal affairs.

Douglas Abbott
Minister of Finance.

Our Children
"SUSAN SUE"
"What are we going to do about Susan," Mrs. Peters asked her husband. "She grows more quiet and shy every day. This afternoon I thought both the children were ice skating until Johnnie came home alone. Then I found Susan in the back bedroom, curled up reading, as usual. I asked her why she had not gone out on such a lovely day and she just murmured that she'd rather read. Johnnie began to tease her about not skating as well as he does so she jumped up and ran in her own room, crying. She is still crying up there and doesn't want to come down for supper. She is really a problem, Miss Graham, her teacher, is worried too. She tells me Susan doesn't enjoy taking part in games or group activities as Johnnie does. She still leads her class but she is quite too sensitive When the teacher speaks to her she blushes with embarrassment and she goes out of her way to avoid reading or doing anything before the class.
"I can't understand what has happened. You know quiet, unnatural little Susan was always our model child. It was boisterous Johnnie who got into all the trouble. But lately I've felt I don't know Susan at all and I certainly don't know how to handle her."
Have you any suggestions Mrs. Peters might find helpful. If you have, please send them to:
Dr. H. Zinnes, Education Rural Health Unit, 604 Apsotle Building, Edmonton, Alberta.
The problems will grow when we don't.

AMBASSADORS OF GOODWILL

The stage that residents of Fort Saskatchewan and district are planning in chartering a special train Thursday to take the Fort Hockey Teams and its boosters to Lloydminster for a friendly game is one that helps to cement good-fellowship between towns in Alberta.

This is a revival of the old days when it was a common occurrence for special trains to come to the Fort for the May 24th celebrations and also for the occasional hockey game.

Apart from the good-fellowship that will result from this trip, the towns themselves will receive considerable publicity that also helps to boost a town and place it in the spotlight.

The keenness, shown by the number who are going, proves definitely that they are behind their team and also wish to act in the roll of goodwill ambassadors.

NEW LOOK MAKES OSTRICH POPULAR

Feathers are again in fashion, and as a result, South Africa is rebuilding its ostrich industry. During the past few years the demand for feathers and other ostrich products has been steady, and this branch of farming has expanded to the Union. Sales were resumed after the Royal Visit last year, and soon the ostrich may well help the boost at the thought of it sing its plumage to the new look.

World of Wheat

By R. G. L. STRANGE

Director "The Crop Testing Plan"

THE GROWING DISCONTENT

The Parliament of Canada reassembles at Ottawa on Jan. 26th. An important subject for debate will be an increase in the price of wheat. Rumor has it that the Government will recommend an increase of 20 cents a bushel to pay farmers the full $1.56 which Britain is paying and which Canadian millers are paying to make flour for the people's use in Canada.

A survey made by the Senate Grain Committee last September showed that 55% of the farmers were dissatisfied with the $1.56 price. In October "The Country Guide" showed 65% of wheat growers were dissatisfied, and an even earlier survey taken by the Searle Grain Company showed that 76% demanded the removal of the ceiling. Work by which Mr. Gardiner has made a name for himself as an able farmers should be the only people supposed to subsidize the Imperial Army forces in "Malaya." Edith M. Smith, Secretary of the Geographic Board of Alberta. The Legislature Library, Edmonton."

Yours sincerely,
H. M. Long
Chairman of the Board.

TOLL OF TENSION

Health statisticians report that one-quarter of all deaths occurring after the age of 50 are due to what they call "essential hypertension." In layman's language, that means simply high blood pressure without apparent cause.

Concerning this ailment, it has also been established that emotional factors play an important and often determining role.

Public health authorities therefore are beginning to recognize that mental health which is the most important single element in emotional adjustment.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The British Ministry of Food recently signed Trade Agreements with Russia will receive 25 million bushels of coarse grains instead of the 14½ million bushels first on the list. Previously Russia had refused to make any definite promises of deliveries. Russia has also been asked to consider a long-term long-range trade talks in May. World flax seed production in 1947 is now placed at 128.8 million bushels some 19% above the 1946 production of 108.3 millions, but below the 1935-39 average of 132.3 million. China's 1947 rice harvest is now officially estimated at 2,814 million bushels, compared with 2,776 million bushels harvested in 1946, and the 100 million bushels above previous estimates of the 1947 production, but only 96% of the pre-war 1935-39 average.

FEATURED FOODS

People who run boarding houses or restaurants usually stick to old "stand-bys" which they think most people want. The customer, of course, is always right. Canadian health officers suggest that purchase of eating places, therefore, order healthful foods and thus create a demand for them.

EVERYBODY'S BUSINESS
by Don Graham
Many men make the mistake of regarding themselves as completely self-contained.
Actually, all of us depend in some degree on other people in order to make a living. In most jobs we are part of a large or small group of workers. Or else we deal with customers or some group requiring our services.
And no matter how skilled a man may be as a worker, he cannot reach maximum success unless he has harmonious relations with those with whom he works.
This means being co-operative and willing on the job. It means being interested in other people's ideas and methods . . . and being tolerant when they differ from yours. And it means being cheerful and friendly.
Nobody loves the know-all type of opponent. But the man who is really co-operative builds goodwill in all directions. And by learning more because he is receptive to good advice and ideas from a wider variety of sources. No wonder employers prefer his kind! No wonder he means with greater success!
Life insurance is a co-operative risk-sharing plan which enables people to provide against the uncertainties of life — a task generally impossible for the individual to accomplish by himself.

'PIONEER' ANNOUNCES DISTRIBUTION OF FORTUITOUS PROFIT ON OATS AND BARLEY SOLD UNDER PRICE CEILINGS

All customers of 'Pioneer' Elevators are requested to call at their elevator and receive a cheque covering an additional payment on oats and barley delivered during the current crop season, between August 1st and October 21st, 1947, when price ceilings were in effect.

This payment is an interim distribution of the fortuitous profit made by the Company on oats and barley which it had on hand, and unsold, when price ceilings were removed on October 21st.

This payment is 12 cents on oats and 10 cents on barley.

Final payment will be made at a later date.

IT PAYS TO PULL TO THE 'PIONEER'

The government has also promised to make some adjustment to farmers on oats and barley delivered at ceiling prices between August 1st and October 31st, 1947. We trust they will take definite action to implement this promise in the near future.

PIONEER GRAIN COMPANY LIMITED

Larry Wozniuk, grade 10 student, was born January 5, 1935. She has no her ambition is to be a private secretary. Good luck to you Larry. Her likes are dancing, skating, reading, water sports pen and working in the Post Office. Her only two dislikes are composition days and the "Wee Lesh"

Kitsch made his grand entrance into the world September 18, 1951. He tells us his likes are dancing, listening to music, the "Wee Lesh" and Chemistry. His dislikes are dainty dishes and French. He can see only confusion in to own a Cadillac, like pat saying is "I dunno!"

Mr. Sam Taverna is around again after suffering with pneumonia since Christmas.

The Annual Congregational Meeting of the United Church at Good Hope will be held Sunday, January 20 immediately following the 2:30 service.

Over a period of about twelve years, the value of Canadian exports of manufactured goods to the Union of South Africa has grown from a negligible figure to over $3,000,000. In 1946, drawn rashly with rubs on the list of all commodities exported to South Africa from Canada, and the Union was our best customer by a wide margin, taking 30% of all dresses and 40% of the all trial rich manufacturers which we exported.

Following the wartime shortages, South African buyers happened off in 1946, with the result that in many cases inventories were overloaded, but these purchases tapered off in 1947. But stocks are now returning to normal, and it is expected that 1948 will again be a big year for Canadian dress sales to South Africa.

Canada and the United States are South Africa's two principal suppliers of artificial silk, wool and cotton dresses, and our share of the market in 1946 was 30%, increasing to 40% in the first seven months of 1947. This is an indication of the ability of Canadian manufacturers to supply dresses of style, quality and reasonable price, to meet the requirements of South African women.

THE BLARNEY

Murphy had been carried in heading the blasting powder in the quarry and Duffy had been deputed to break the news gently to the widow.

"Mrs. Murphy," he said, "can't it today the fellow calls for the weekly payment of Murphy's life insurance?"

"Is it," answered Mrs. Murphy. "Well now, a word in your ear," said Duffy. "Have yo um snap your fingers at the fellow today."

Good Hope

Messrs. E. Johnston and R. Todd have been employed in a lumber camp since Christmas.

Mr. Norman Miller of Leduc, spent four days last week with at his home here.

Mr. Sam Taverna is around again after suffering with pneumonia since Christmas.

The Annual Congregational Meeting of the United Church at Good Hope will be held Sunday, January 20 immediately following the 2:30 service.

SOUTH AFRICAN WOMEN LIKE CANADIAN DRESSES

Over a period of about twelve years, the value of Canadian exports of manufactured goods to the Union of South Africa has grown from a negligible figure to over $3,000,000. In 1946, drawn rashly with rubs on the list of all commodities exported to South Africa from Canada, and the Union was our best customer by a wide margin, taking 30% of all dresses and 40% of the all trial rich manufacturers which we exported.

Following the wartime shortages, South African buyers happened off in 1946, with the result that in many cases inventories were overloaded, but these purchases tapered off in 1947. But stocks are now returning to normal, and it is expected that 1948 will again be a big year for Canadian dress sales to South Africa.

Canada and the United States are South Africa's two principal suppliers of artificial silk, wool and cotton dresses, and our share of the market in 1946 was 30%, increasing to 40% in the first seven months of 1947. This is an indication of the ability of Canadian manufacturers to supply dresses of style, quality and reasonable price, to meet the requirements of South African women.

THE BLARNEY

Murphy had been carried in heading the blasting powder in the quarry and Duffy had been deputed to break the news gently to the widow.

"Mrs. Murphy," he said, "can't it today the fellow calls for the weekly payment of Murphy's life insurance?"

"Is it," answered Mrs. Murphy. "Well now, a word in your ear," said Duffy. "Have yo um snap your fingers at the fellow today."

ANNOUNCEMENT

Mr. A. Kennedy, Mr. L. Gordon and Mr. E. Robinson wish to announce that they have established their business and will henceforth operate under the name of United Truck Service.

The new firm will continue to do General Hauling and Coal Trucking, and express the hope that they may continue to serve their many customers and friends.

BRITISH PLAN FOR AGRICULTURE

The British government is planning to increase the output of milk, eggs, beef and veal by 50 per cent over pre-war production, and hopes the goal will be realized by 1952.

Wheat production will be allowed to decline from the peak war year of 1942-44 when acreage reached 2 million, but will be maintained at an acreage of 2¼ million acres, or 60 per cent above the pre-war average.

Barley production will be increased from a pre-war acreage of 819,000 to 1¼ million acres, and the acreage under oats, which averaged 1.2 million in 1939, will probably be more than doubled.

Around the Town

The First United W.A will hold their regular meeting on Wednesday, February 6th at the home of Mrs Cecil Lyle. Pot holders and

Jack Brenton has joined the permanent force of the RCAF and will leave Monday to begin his training at Trenton, Ontario

Mr. and Mrs Whitson of Alcantrale are spending a few days visiting Mrs. Magee in the Fort

Mr W Seymour returned home Tuesday from the Lamont hospital where he spent the past ten days Mr Seymour, 80 years of age, reports he is "fit as a fiddle"

Mrs. J P Johnson of Hughenden, Alberta spent a few days here visiting with her daughter and son-in-law, Mr and Mrs Milton Lolliche.

The Fort Canadian Legion rink defeated the Legion Millet rink at Millet 19 to 0 on Tuesday night in the Bonspiel sponsored by the Legion Command.

Hockey fans had a thrilling, fast moving game come out on Sunday to witness the Married Men vs the Single Men at 2 p.m. at the Fort.

We are pleased to report that Mrs. Jot Ouroucoules, who has been in hospital for a check-up, returned home this week.

Bride-Elect Feted at Shower

On Wednesday evening Mrs. L. Hill and Mrs. T. Holt were co-hostesses at the lovely home of Mrs. L. Hill in honor of Miss Olga Albiston, a bride elect of February.

A lovely time was spent playing guessing games and singing, after which the bride-to-be was led into the dining room where a variety of useful gifts were presented to her.

In a few well chosen words Miss Albiston thanked those present for the lovely gifts she received.

A delicious lunch was served by the hostesses, assisted by Mrs. Von Hiffand, to bring a pleasant evening to a close.

Partridge Hill

The Alberta Wheat Pool meeting at Partridge Hill on Monday evening was well attended. Mr. Dahlstrom of the Field Service Division was in charge and showed some very interesting motion pictures, including comics for the kiddies. A brief interesting review of operations of the Pool and the benefits of co-operation was given, which was followed by a question period. The Alberta Field Crops Commissioner, Mr. A. M. Wilson gave a short talk on the problem of weed control when grain is cleaned for seed at present.

Mr. Dahlenzi promised to be back with more pictures on February 9 at the Junior Farmers' meeting, and we are looking forward to that date.

Mr and Mrs. Bob Moore of Vermilion were visitors at the home of Mrs. Mossy's parents, Mr. and Mrs. Wilmot Allen last week-end.

A number of young people of Partridge Hill and Good Hope are practicing a play under the direction of Rev. Race. We expect to be more of this in the near fu.

Our teacher, Miss Norma Fitzsaff, has recently had four young teachers taking practice training with her. Last week Miss Grace Robertson, and this week Miss Virginia Reed, both are attending the University at Edmonton.

Mr. George Cheshbleston has been confined to his bed with pleurisy. We wish him a quick recovery.

Josephburg

The Annual Meeting of the congregation was held in the church with Rev. Klinger acting as Chairman and John Mohr as Secretary.

Annual reports were given by their respective officials as to the finances.

All officers were re-elected by acclamation: Mr. Joseph Thomas as Elder for a three-year term, to serve with Rod Berg and Ed. Frey.

Mr. Wm. Thomas as Deacon for a three-year term to serve with Fred Thomas and John Mohr. Mr. Walter Mohr as Treasurer for one year. Mr. Walter Frey as Collector for one year. Mr. David Thomas as Trustee for three years to serve with Sig. Mohr and Albert Unterschul. Mr. Rod Rippel as Sunday School Superintendent for the ensuing year.

Various discussions followed and it was decided to increase the fire insurance on buildings on the church property.

Although various improvements were made and electric lights installed the church is in a healthy

Griesbach

The Griesbach U.F.W.A. held it's monthly meeting at the home of Mrs. James Allanach with ten members present and one visitor. The candidate to the convention gave her report, which was very interesting.

Mr. and Mrs. Joe Pierce are home again after spending a few days with relations at Red Deer.

Mrs. Jack Armstrong has left for Vancouver where she will visit her daughter and son-in-law, Mr. and Mrs. Arnold Porterfield.

Many men make money but money never made a man.

Free Milk for School Children

The decision of the W.I. to once again supply milk to the school children will, we feel sure, meet with the approval of all parents.

There are 74 pupils in grades 1 to 6 who will receive the milk In discussing this matter the executive felt that the funds available were not adequate enough to carry this program through alone and supply milk to all children. They contact of the Women's Auxiliary of the Legion and also the Canadian Legion executive to enlist their aid. A meeting of the executive of these three organizations was held recently and the W.I. members explained the problem facing them and the amount of money required to supply this milk

The Legion's W.A. and Legion executive were 100 per cent behind the W.I in their undertaking and after discussing ways and means the Legion executive decided to supply the milk.

We understand this milk will be supplied at wholesale price to the W.I. with just the cost bringing

Support this worthwhile undertaking of these organizations. Give your children the same opportunity that city children receive.

Morinville - Fort Battle to 1-1 Draw

A large crowd was on hand Wednesday evening to witness one of the fastest games seen this season when Morinville and the Fort tangled.

From the drop of the puck both teams were in there struggling for points but the first period ended in a draw.

The crowd went wild when Beaton scored from an assist by Logan and Galvenz. The boys kept their lead until well into the third period, when Jamison of the Morinville team slipped the rubber past the Fort goalie to tie up the

The Fort boys were really in there pushing right up to the end but could not break the tie.

On Monday night the Fort Hockey boys journeyed to Namao and came home the victors, the score being 5 to 3. The scores were made by Hubert G. assisted by Bob G. and Burton assisted by Calvert.

School Flashes

Curling rinks have been organized this week throughout the

A school party consisting of singing, dancing and lunching has been planned for this coming Friday.

The Health Clinic has been visiting us this week.

J. J. LeBlanc visited the school Tuesday on inspection duties.

Mr. J. Goodchild, Dr. Gillies and Mr. Jamison made an arithmetic survey Tuesday on grades one to nine.

Swiss E. Grandahl jumped from the pan into the fire on July 19, 1951. She is big, blonde and beautiful. This year's ambition is to pass "physics". She tells us her likes are dairies (things you eat, of course), of farmers of the dairies, and collecting soups. Her dislikes are opera singers, wearing stockings, and meat. Whenever you hear these words "I nearly died" you can be sure its Helen!

Bremner

The annual meeting of the Bremner-Clover Bar Two by Two club met at the home of Mr. and Mrs. G. Krupp.

The following officers were elected for 1948:

President, Mr. Donald Hutton; Vice President, Mr. Gordon Krupp; Secretary-Treasurer, Mrs. G. Marler; Flower Fund, Mrs. L. Schreter and Mrs. D. Burton, Caterers, Mrs. A. Latam and Mrs. F. Beorse.

Business was discussed and some reports made.

A theatre party was planned, to take place in two weeks.

The membership dues were received with ten paid up couples.

An hour of cards and singing followed by a hearty lunch brought the evening to a close.

British wheat producers will receive a minimum price of $2.48 a bushel not for their 1948 wheat production, in addition they will receive a bonus of $2d an acre for the first 10 acres seeded to wheat.

Fort Couple Wed Fifty Years

Mr. and Mrs. Adolphus Lamoureux, who observed their 50th Wedding Anniversary recently They are well-known residents of the district, also to the Mallaig district where they farmed for 27 years.

Gala Reception for Couple On Occasion of Golden Wedding

A large number, 600 persons attended the reception and dance held on the Community Hall Friday evening to honor Mr. and Mrs. Adolphus Lamoureux on their 50th Wedding Anniversary

As the couple entered the hall they were met by Jean Bastin and Arthur Beaupre. Mrs. Lamoureux was presented with a bouquet of flowers and Mr. Lamoureux a flower for his buttonhole. The couple then walked up the aisle made by the guests and congratulations were showered upon them.

Rev. Father C. Seward gave the address of welcome and wished them many more years of happiness. Mayor Magee and Mr. Red Milnegail gave short addresses. Mr J. D. McLean, on behalf of the and Mrs. Lamoureux, thanked the people for their splendid reception and for the gifts accorded them. Mr. McLean expressed his and everyone's wish that the couple have many more happy years of married life. Mr. Lamoureux then, on behalf of his wife and himself thanked them for their presents, their thoughtfulness and well-wishes. He said the reception they had received would remain with them always.

S. Cooking Lake

The Agricultural Service Board of the M.D. of Strathcona in co-operation with the Extension Service of the Department of Agriculture held a successful meeting in the new Community Hall on Tuesday evening, January 29th. With Mr. Stetson as able commentator, slides were shown depicting the methods of damage done by soil erosion, others showed the loss to crops due to weeds, while still other slides showed the machinery used to combat the said weeds. Next several pictures were put on the screen showing the practical results of careful planting of windbreaks, shelter belts and fence lines.

Mr. Whitbread, District Agriculturist, succeeded Mr. Stetson and gave us an interesting and informative address on a variety of topics, all showing the beneficial work being done by the Agricultural Service Board in conjunction with the Department of Agriculture.

The meeting was then thrown open to questions and general discussion, a privilege of which several farmers of the district readily took advantage. A hearty vote of thanks to Messrs. Stetson and Whitbread brought the meeting to a close.

Happy news from Castlegar, B.C.! Mr. and Mrs. Dunn (Faith, as she is customarily known at the Cooking Lake) have a new daughter. The happy arrival of this young person has wide-spreading results, for her coming has given Mr. and Mrs. Ruddleston another granddaughter; Mrs. Uglow another great granddaughter; and Miss Amy Uglow, Henry and Arthur another niece. What happy complications one small young lady can bring about! They begin early, don't they boys!

Owing to the prevalence of flu, (a very unwelcome visitor) and also to the sudden, untimely uprising of a brief, but boisterous wind which driving snow and frost about drive to raise funds for the purchase of a much-needed radio-phonograph for Franklin School was not held last Saturday. However this popular party will be held at a later date to be announced shortly. The radio fund now stands at $17, made up of $15 realizing from the Christmas party, plus $2 contributed on Saturday by friends of the school.

Ypres Valley Church Hold Annual Meeting

The Annual Meeting of Ypres Valley United Church was held at the home of Mr. and Mrs. Carl Dittrich on Tuesday evening, January 29th. Financial reports of the Ladies' Aid and the Board of Stewards were encouraging, but there was considerable discussion over Rev W. D. Race's report of discouraging attendance at the Sunday services. It was finally decided that unless the average attendance improved by Easter, the services at Ypres Valley would then be indefinitely cancelled. Milton Hoyer resigned from the Board of Stewards in view of his connection with the new Good Hope United Church. Mrs. Fred Davies was re-elected to the Board, which was asked to continue to work through 1948 whether or not the regular services continue The Ladies' Aid voted a special sum to enable the congregation to meet its full quota of the Missionary and Maintenance Fund, and the meeting voted appreciation of their efforts in all directions.

The services are on the 1st, 3rd and 5th Sundays of the month at 2:30 p.m. in Ypres Valley School. Let's turn out, friends, and see if we can't keep them.

Tanks on tractors and gun engines should be kept full of fuel in cold weather. Air will condense and create moisture in an empty tank.

Council Meeting Held January 26

The regular monthly meeting of the Town Council of Fort Saskatchewan was held on the Town Hall on the evening of January 26, 1948, with the following members present: Mayor Magee, Councillors Love, Dawson, Walton and Dr. Johnstone.

Messrs. Reagan and E. Thomas were present and briefly outlined to the Council some Fire fighting equipment they had, and would be willing to sell this equipment to the Town, also to exchange all the most basic the Town possessed for new hose at a rate of two used lengths for one new hose. This matter was left over until further on in the meeting and then Mr. Reagan would be advised the first thing the following morning the decision of the Council.

The Council authorized the Mayor to ask the Attorney General to grant a permanent warrant to the Town Police to search any prisons or vehicle in Alberta for liquor.

The following correspondence was then dealt with:—Request of St. George's Parish Church to have the Lane at the rear closed in the name of the town transferred to them, as all back taxes had been paid on this property, was granted.

The request of P. Robinson Jr. to have his license fee of $5.00 for 1947 cancelled owing to other people selling wood without paying this business but was not granted as council could not do this as a by-law had been passed levying a business Tax for the year.

The secretary was instructed to write requesting a refund from the W.C.V. asking for a grant of $1000.00, informing them that their request for $2000.00 was not in the final meeting of the new council this year.

The offer of W. Rogers to purchase the house and out-buildings on Lot 19 in Block 31 Plan O for $125.00 was considered with the provision that Mr. Rogers deposit the sum of $50.00 in addition to the purchase price. This money is to be returned after the buildings have been removed and the lot cleaned up.

The secretary was instructed to send a letter to the Department of Trade and Industry advising them that the Council had no objection to a license being granted to Raymond Wallis to operate a retail lumber business and planning mill in town.

THANK YOU

Mr. and Mrs. Adolphus Lamoureux wish to take this opportunity of expressing their sincere thanks to all, for the messages of congratulation and gifts presented to them on the occasion of their 50th Wedding Anniversary.

LEGION MEETING

The Annual Meeting and Election of Officers of the Fort Saskatchewan Branch No. 27 Canadian Legion B.E.S.L. will be held in the Legion Hall.

Tuesday, Feb. 3rd at 8 p.m.

All members are requested to be present.

AGRICULTURAL SERVICE BOARD

Notice of Meetings

The Extension Service of the Department of Agriculture in co-operation with the Agricultural Service Board of the Municipal District of Strathcona, will hold meetings during the coming week at

WIBBLEDON SCHOOL, TUESDAY, FEB. 3rd
COLCHESTER SCHOOL, FRIDAY, FEB. 6th
at 8:30 p.m.

Pictures in color will be shown by M. L. Stetson, illustrating some of the work carried on by the Service Board during the past year. Soil fertility and crop rotation will be dealt with by R. J. Whitbread, District Agriculturist.

EVERYBODY WELCOME

The average farm in Western Canada is still owner to one—like of them being another man. It has 2 horses, 10 head of cattle, 7 pigs, a sheep and 100 head of poultry. Between 1940 and 1946 the average western farm increased in size by 51 acres.

In Western Canada 10 per cent of all farms own one or more tractors, 20 per cent own one or more trucks, and 14 per cent have combines.

◆ Recipes for Milady ◆

The Canadian apple crop for 1947 was estimated at fifteen million bushels. That estimate does not include many, many bushels grown for home consumption on farms and small orchards. In any case it was one of the largest crops ever produced.

When we remember that a rich if rarely small proportion of these apples were exported we realize that a lot of apples will be enjoyed in Canada this winter.

So much has been said about apples that they need no special advertising. Good apples sell themselves both on the market and on the table. A good apple pie is first choice of most men for dessert. Most winter varieties of apples cook well and may be used in hundreds of ways.

Here are three recipes from the home economists of the Consumer Section, Dominion Department of Agriculture.

FARINA APPLE SAUCE PUDDING

2 eggs
2 cups cooked farina
1 cup cooked apple sauce, unsweetened
1 teaspoon cinnamon
2 egg whites
2 tablespoons sugar

Beat egg yolks, add the 4 tablespoons sugar and salt, beat. Add crumbs and spice then fold into farina-apple sauce mixture. Pour into a buttered casserole, place in baking dish. Sprinkle with remaining 2 tablespoons sugar and top with egg whites. Bake in a moderately slow oven 325 degrees F. for 35 minutes or until apples are tender and pudding is delicately browned. Serve warm.

BAKED APPLES SUPREME

3 large apples (preferably red)
1 cup sugar
1 cup water
2 tablespoons mincemeat or jam

Wash apples and cut in half crosswise; scoop out core, being careful not to break the skin. Boil sugar and water 5 minutes. Arrange apples in shallow baking dish. Fill centre of each with mincemeat or jam, and pour syrup over all. Cover and bake in moderate oven 350 degrees F., until tender, about 25 minutes. Remove apples to serving dish, and boil syrup till slightly thickened. Pour over apples and chill. Six servings.

FRUIT CAKE

1 teaspoon cinnamon
Few grains nutmeg (optional)
1 ½ cups brown sugar
1 teaspoon vanilla

Sprinkle eggs, beat yolks and add cereal, apple sauce, spices, sugar and vanilla, beat thoroughly. Fold in the stiffly beaten egg whites. Pour into a greased baking dish set in a pan of hot water and cook slowly in a moderate oven, 350 degrees F., until set, about 35 minutes. Six servings.

APPLE CRUMB PUDDING

2 egg yolks
2 tablespoons sugar
Grated rind of one lemon
½ cup fine bread or cracker crumbs
½ teaspoon spice (cinnamon or nutmeg) or dash of clove
2 egg whites
2 tablespoons sugar

Beat egg yolks, add the 4 tablespoons sugar and salt, beat. Add crumbs and spice then fold into stiffly beaten egg whites. Peel, core and slice apples; place in baking dish. Sprinkle with remainder of 2 tablespoons sugar and top with egg mixture. Bake in a moderately slow oven 325 degrees F. for 35 minutes or until apples are tender and pudding is delicately browned. 6-8 servings.

MUNICIPAL DISTRICT OF STRATHCONA No. 83

NOTICE OF PREPARATION OF ASSESSMENT ROLL 1948

Notice is hereby given that the assessment of the previous year has been adopted under the provisions of The Assessment Act, and that the assessment roll of the said municipality has been duly prepared, and that if any person thinks that any property has been improperly assessed or omitted too high, or too low, or that his name or the name of any other person has been wrongfully entered upon or omitted from the roll, he may at any time prior to the 31st day of January, notify the secretary-treasurer in writing of the particulars and grounds of his complaint.

H. ROBERTS,
Secretary-Treasurer.

From now on, month by month

YOUR WAR SAVINGS CERTIFICATES

can be cashed!

THE payoff on War Savings Certificates has begun. If you are among the thrifty people who own War Savings Certificates, NOW is the time to look them over, sort them out by months and as they fall due, endorse them and mail to Ottawa as described on the back of each Certificate. A cheque for the full face value of each Certificate will be sent to you in due course.

But here is another suggestion...

Have the Royal Bank of Canada do all this "office work" and saving for you. Save yourself the bother of searching out the right pieces of paper each month, endorsing them and mailing them off to Ottawa.

Simply what you do: Bring all your War Savings Certificates which you have at home or in your safe deposit box, to your nearest Royal Bank Branch. We will put them in our vaults for safekeeping.

As the Certificates fall due, we will cash them for you and deposit the full face value (which includes interest) in the savings account of the registered owner, automatically. If you have an account with us, we will open one for you for this purpose.

The cost of this service, including safekeeping and collection, is extremely low, as the following table shows:

For each $ 50 Certificate.....	10c
" " 100 "	20c
" " 500 "	50c
" " 1000 "	75c
" " 5000 "	75c
" " 10000 "	$1.00

All your Certificates are already lodged with us for safekeeping, we will cash for their automatic redemption, as described above, at a nominal charge of 50 per Certificate, regardless of the face value.

CHARGES FOR WAR SAVINGS CERTIFICATES, DELIVERED AND/OR HAVE REDEMPTION THEIR DUE—

TAKE ADVANTAGE OF THIS LABOUR-SAVING SERVICE. IT IS AVAILABLE TO YOU AT ANY BRANCH OF THE ROYAL BANK OF CANADA

THE ROYAL BANK OF CANADA

POST SASKATCHEWAN BRANCH - - - D. MACKIE, Manager

Our Children

"Merry new Peter or pun'll be late again," and Mrs. Roberts.

Well why not by late thought Peter, I don't want to go to school anyway. Even when I'm early it doesn't do any good. First comes spelling. Even when I have studied there's some real hard the night before, I just never get them all right. Teacher says I'm lazy and if I don't do better my little sister Elsie will catch up to me. Now, even Dad and Mother think I'm not trying and they could me too. No matter what I do it's always wrong and someone gets after me. I'll just have to show them I don't care.

The Roberts are an average family living in a comfortable home. Peter has always been healthy, though he was slower at walking and talking than the other children. He is eleven now and in grade four for the second year. So far he has given no particular behaviour trouble but Peter's mother is worried. Seeing Peter is looking for ways to show people he just won't take endless scoldings and like it.

What do you think is the cause of Peter's perplexity? What steps could be taken to help Peter? Please send your reply to:

Dr. H. Siemens, Edmonton Royal Health Unit, Qu'Appelle Building, Edmonton, Alberta.

FARM OWNERSHIP IN U.S.A.

In the United States, 61 per cent of U.S. 70 per cent are operated by owners, according to a recent release by the U.S. department of agriculture. This is the highest percentage since 1930. The peak in the fluctuating years was in 1920 when the percentage was 68.4.

The good prices for agricultural products prevailing in the U.S. in recent years have been responsible for the increased farm ownership.

Timely Farm Notes

By R. J. Whitford, District Agriculturist

Five Strathcona 10 H. "Have the Soil Tomorrow" contests were guests at the annual banquet of the Edmonton Chamber of Commerce on Tuesday, January 20th. Five of those received cash awards based upon the scoring of their farms in August, 1947, by judges from the Alberta Department of Agriculture.

A short resume of the contest was given by the chairman prior to the presentation of the prizes. It was pointed out that the rainfall was very favorable conditions of the value of forage crops in the central districts, soil erosion and many districts of Alberta.

The awards were given to the contestants who have adopted such good farming methods as are conducive to this end.

K. Keith, Reeve, presented the Municipal prize of $25.00 to E. Koppel, his being the farm selected for possibility of greatest improvement under the proposed plan for bringing this about.

J. E. Duggan, Chairman of the Agricultural Section, Edmonton Chamber of Commerce is President of the "Save the Soil campaign" committee. R. J. Whitford, District Agriculturist is Secretary. The Agricultural Field Supervisors of the municipalities concerned are members of the committee together with the provincial supervisors of Soil Conservation and Agricultural Service Boards.

A full report of the campaign activities in 1947 will be given at the Edmonton Agricultural Short Course to be held February 24, 25 and 26.

The contest will continue again in 1948 when there will be similar prizes awarded for the first year farms.

The contestants of 1947 will be interviewed with respect to the carrying on of a permanent pasture and cropping system on their farms for a period of not shorter than five years. This will be under the supervision and co-operation with the District Agriculturist in whose territory the farmer operates.

ORDER SEED GRAIN NOW

Field Crops Commissioner, A. H. Wilson urges Alberta farmers to take immediate action to obtain their seed grain requirements. Farmers in certain districts are already having trouble in filling their needs. Late August frosts in the Peace River country in 1947 affected the germination to such a degree that many samples are showing less than a 50 per cent. In other districts of the province, hail destroyed a great deal of crops. Farmers in these districts must look elsewhere for seed supplies.

The farmer who has seed for sale has a ready market in Eastern Canada. Quebec and some of the Maritime Provinces are looking to Western Canada for seed and in particular, as well as other crops seeds. Buyers for the Eastern market are now busy selecting grain that will be suitable for seed, and earlier a will soon be on their way to farmers in Eastern Canada. The highest quality seed is the first to find a market. Every dollar is likely to mean poorer quality grain to grow another year's crop.

Farmers who have seed grain for sale cannot be expected to hold their grain indefinitely on the chance that it might be needed close to home. The only solution for those with seed difficulties is to order it now while quality seed is still available. If you are unable to locate satisfactory seed in your district discuss the matter with your District Agriculturist.

FIELD CROP VARIETIES FOR ALBERTA

Recommendations of the Alberta Varietal Kontrol Committee for 1948 are now available from District Agriculturists and from the

EXTRA MONEY FOR FARMERS

The announcement that initial wheat payments are to be boosted from the present price of $1.55 a bushel to at least $1.65 a bushel is welcome news to Western farmers. Based on the 30 point increase, the amount to be distributed to the 250,000 prairie farmers will be $230,000,000 or an average of $1,000.

Many farmers will, not doubt, receive considerably more than $1,000. With this extra money coming they will be able to carry out at least some of the improvements on their farms that they have longed to do. Others will use the money to buy more modern equipment that will help to lighten their tasks.

MILK FOR SCHOOL CHILDREN

In the near future members of the Fort Saskatchewan Branch, Canadian Legion will be canvassing residents of the town for donations to supply school children in Grades 1 to 4 with milk every morning.

A project of this nature has been carried out in city schools for a number of years and has proved highly successful.

It has been found that, besides the nutritious value the children get from this milk, it also acts as a pick-up.

The amount needed to carry out this project for the balance of the winter months is approximately $200. Any surplus solicited over this amount will be placed in a trust account to be used next winter for the same purpose.

When these canvassers call don't turn them down—remember, these children need strong healthy bodies to go through life and now is the time to build these bod es up resulting in greater response by children to their lessons.

For all your Printing Requirements Phone 88 or call at the Record Office.

HIGH PRICES AND INFLATION

There is much talk about the high price of food To anyone the public the government has placed ceilings on butter and meats This will please the housewife It is to be remembered, however, that the ceiling prices are lower than the market and considerably lower than the U.S.A market All this means, therefore, that the Canadian farmer, besides protecting people with cheap what is meat, cheap lard as well as providing them with cheaper butter and meats than the market would require. We do not however, hear if any efforts be being made by the government to put a ceiling on the prices of things that farmers have to buy Some think they ceiling prices will help to control inflation

High prices are not the cause, nor only the effect of inflation, for inflation merely means there is more money in the hands of people that there are goods in buy it. Government is the source of inflation can best be cured by great er production but keeping down the cost of producing items to market products and not to increase it. Many such ways think that the best way to cure inflation is to let prices go where they will Then increases production and decreases demand, and so naturally cures the inflation and brings lower prices.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The United States Department of Agriculture has estimated that seed plantings in California, Texas and Arizona a. 394,000 acres, a 20 per cent increase over last year's plantings, and some 188,000 acres above the government's 1943 goal of 270,000 acres.

The United Kingdom's wheat acreage goal for 1948 is set at 2,500,000 acres compared with 2,163,000 acres in 1947 and the 1944 wartime peak of 3,329,000 acres.

Argentina's 1947-48 wheat crop is now estimated at above 250 million bushels by the private Buenos Aires grain exchange. This is the largest crop since pre-war years.

Rumania's winter wheat acreage on December 15 was placed at 6,450,000 acres, compared with the pre-war average of 6,900,00 acres from a much larger territory.

WRITING CONTEST

Details have been issued of the Creative Writing Competition for Alberta Schools for 1947-48

This competition is sponsored jointly by the University of Alberta's Banff School of Fine Arts and the Provincial Chapter of the Imperial Order Daughters of the Empire, in co-operation with the Department of Extension of the University of Alberta and the Banff School of Fine Arts Writers' Conference.

Prizes to the total value of $425 are offered, for entries which include school Year Books, and individual entries of poetry, short stories and Alberta background essays. All entries are graded according to the age of the competitors.

For the first time this year two of the prizes will consist of scholarships, to the value of $100 each, tenable at the 1948 session of the Banff School of Fine Arts Writers' Conference.

BELGIUM CELLS AT THE OLYMPIAD

In the high jump events at the Olympic Games which will be held in London in 1948 invisible rays passing between the posts and parallel up to six bonn coils, will record the exact height of the jump achieved. The results of all other track events will also be recorded electrically. For example, long jumps, track events and even fencing. The modern mechanical means used for this purpose should avoid any possibility of error in judgement.

HOW TO PREVENT FIRES

Most fire losses occurring, arise from causes easily preventable. You can reduce your probability of loss by attention to the following simple precautions . . .

1. Provide metal containers for hot ashes and prohibit the use of wooden receptacles.
2. Keep cellars, closets and stairways free from loose wrapping paper or other highly combustible material.
3. Equip your property so that it is easy to turn off current when leaving electric irons and other heating appliances, even for a short time.
4. Use only good standard fuses and never permit the substitution of coins or wires for blown fuses.
5. Examine metal flues periodically and see that they are removed before they are badly weakened by internal rust or otherwise.
6. See that accumulations of soot are removed from your chimneys at least once in each year, preferably before lighting fires in the fall.
7. Make sure that gasoline and other inflammable fluids, are kept out of rooms where there are open fires or flames of any kind.
8. Keep open lights (candles, gas) and portable electric heaters away from curtains or other inflammable material which may come in contact with them.
9. Keep your supply of matches in a closed metal receptacle and out of reach of the children.

SUGGESTED BY
BREWING INDUSTRY OF ALBERTA

OPPOSES SPECULATION

George Robertson, secretary of the Saskatchewan Wheat Pool, told a senate committee in Washington that Western Canadian farmers do not want speculators wheat marketing restored. His presentation was in relation to that of H. G. L. Strange, representative of a Western Canadian elevator company who had previously told the senate committee that Western Canadian farmers were extremely dissatisfied with the Canadian Wheat Board's method of marketing.

UNEMPLOYMENT INSURANCE SUSPENSION 31 TAX

Collection by the Alberta government of the $1.50 tax imposed last year on all licensed automobiles for the purpose of building up an unemployment indemnity fund should be suspended, in the opinion of officials of the Alberta Motor Association.

This fund is understood to amount to around $500,000 while payments this year for the purpose of unemployment pursuant to legislation passed in motor accidents have been negligible.

In Manitoba, the provincial authorities have decided that payment of a $1.50 fee into the fund should be temporarily suspended, owing to the large amount in the reserve and the small number of claims.

A.M.A officials feel that action by the provincial authorities in Alberta would be fully justified, in view of the similar situation here.

It is expected that representations will be made to the provincial government prior to the opening of the regular session of the legislature on February 12

Some time ago it was announced that new amending legislation dealing with the accident indemnity be passed at the 1947 session will be

EVERYBODY'S BUSINESS

by Don Gordon

Curiosity — how helpful the can be. It has led many men to its great things.

Because Dr. Lister wondered why so many patients died after operations, he discovered that germs cause infection, and developed modern aseptic procedures. Because Edison's curiosity about color and how people buy, led Woolworth to develop a new kind of store which grew into a multibillion dollar chain.

She may make some profitable discoveries by asking yourself (and others) questions about everything from customers' wants to market trends. Knowledge is Power. The more you learn, provided you have the ability to use such knowledge, increases your chances of your employer when you may start you on a new and exciting career.

And don't forget to be curious about people, too. A study of their wants, wants, behaviour and motives can be equally rewarding.

Are you curious about what happens to life insurance dollars? Savings effected by insurance and thrifty life insurance premiums provide funds for investment in a wide variety of public improvements, such as new schools, highways, power lines, homes, farms and ranches.

"PIONEER" ANNOUNCES DISTRIBUTION OF FORTUITOUS PROFIT ON OATS AND BARLEY SOLD UNDER PRICE CEILINGS

All customers of 'Pioneer' Elevators are requested to call at their elevator and receive a cheque covering an additional payment on oats and barley delivered during the current crop season, between August 1st and October 21st, 1947, when price ceilings were in effect.

This payment is an interim distribution of the fortuitous profit made by the Company on oats and barley which it had on hand, and unsold, when price ceilings were removed on October 21st.

This payment is 13 cents on oats and 10 cents on barley.

Final payment will be made at a later date.

IT PAYS TO PULL TO THE 'PIONEER'

The government has also promised to make some adjustment to farmers on oats and barley delivered at ceiling prices between August 1st and October 21st, 1947. We trust they will take definite action to implement this promise in the near future.

PIONEER GRAIN COMPANY LIMITED

HOUSEWIVES AT WORK

Why do so many women stand at their work? Standing makes 14 per cent more energy than sitting. Mrs. MacLeod, Supervisor of the Home Economics Service suggests sitting for all the lengthy jobs in the home—jobs such as ironing, polishing silver, preparing vegetables and fruits, hand sewing, baking, etc.

She says that women usually tend because so many kitchens and laundries are not arranged for comfort in sitting. Too often the only seat in a high stool where the worker must perch precariously, and feel insufficient. There is no back support and the worker must bend and sufficiently over her work.

Mrs. Macdonald suggests that a convenient sit-down arrangement for a small kitchen is a pull-out board under the regular working counter at a level of 28 to 29½ inches from the floor, to use with a straight chair of ordinary height. In larger kitchens a short work counter may be built at this lower height with space underneath for knees and feet. Many home economists continue to stand long hours in their ironing because they think it makes the job go faster. This is true only if the board is the wrong height for sitting. A bit of comfortable ironing board which can be lowered to sitting height ideal. There, if the roll of specially cushion is placed within easy reach of one hand and a rush for finished clothes within reach of the other, ironing can be done just as fast when sitting as when standing with much saving of energy.

For plans and directions for building the Labor-saving Adjustable Ironing Board and for other suggestions for time and labor savers when doing housework, write to the Home Economics Service, Alberta Department of Agriculture, Parliament Buildings, Edmonton.

Funeral Services for Arthur Harvey, Jan. 19th

Funeral services for Arthur Harvey of Andrassan, who passed away January 16th, aged 59 years, were held on Monday afternoon at 2 o'clock at Steward and McBride's Chapel. Rev. T. H. Lee officiated and interment took place in the Soldier's Plot in the Edmonton Cemetery. Pall bearers were Messrs. J. Walsh, D. MacKay, S. Kinch, K. Horton and H. Webb.

He is survived by his wife; one son Stanley and one daughter Jean both of Edmonton.

Younger; Mrs. MacConnell, Archie and Harold; Bill and Lydia; Mr. and Walter and Pat; Joe, Cathryn and Alastair; Mrs. R. Horton and Arthur; Mr. A. E. Clark; Staff Veterans Land Act, Edmonton Regional Office; Mr. and Mrs. Joe Harrison and family; The Jacques family; Lal and Geordie Paterson; Verna and Archie and family.

Old-Timer, Mrs. T Mohr Passes Away January 19

Mrs. Theresa Mohr, beloved wife of Mr. Nicholas Mohr of Fort Saskatchewan, passed away in the Lamont hospital on January 18 at the age of 72 years.

She is survived by her husband and four children; two sons, Mr. Gustav Weber of Edmonton and Mr. Adolf Weber of Fort Saskatchewan, two daughters, Mrs. Emma Knapp of Bloomsbury and Mrs. Bill Vanstone of Calgary.

The funeral service was held in the Josephsburg Reformed Church, Rev. J. Krieger officiated.

The pallbearers were Messrs. Werner Weber, Irwin Mohr, Wilfred Bruitzke, Walter Bruitzke, Richard Mohr and Bernard Mohr.

Beautiful floral tributes were received from: Loving Husband; Rosie and Hentie and family; Gustav and Emma and family; Adolf and Natalie and family; Elizabeth and Bill and family; George and Christina and family; Mavis and Carl and family; Betty and Fred and family; Katie, Erna and boys; Roland and Jean; Mrs. Mosey; Will and Holmes; Margaret, Marlon and Marvin; George and Annie and family; Raymond and Hannah; Albert and Blanche; Gertie and Hennessy; Leopold and [illegible] and Mrs. R. Hennig.

Results Show Graded Schools Best

GRADE IX INSTRUCTION

Of the 254 pupils, who were enrolled in Grade IX in schools in the Josephsburg Inspectorate and Edmonton Separate School District, 203 were in the Departmental Examination for their grade with the following results

H	3	3 per cent
A	22	22 per cent
B	26	26 per cent
C	40	21 per cent
D	36	15 per cent

Approximately one-third of the Grade IX students in the Province are enrolled in school divisions, which comprise organized and graded rural schools and consolidated and village schools, while two-thirds attend one-room rural schools and villages without the school divisions. The distribution for the Province is made which school attendance, is the same examination places 5 per cent with an H rating and only 8 per cent with a D rating, that is, failure in the examination. These comparative figures substantiate in a large measure the growing impression that the one room ungraded school having pupils in all nine grades places students under a handicap and offers meagre facilities and too restricted instruction time to the pupils, who still have to patronize them.

HIGH SCHOOL INSTITUTION

High school work is not offered in any of the one-room ungraded schools of the Division Grade X to XII pupils attend one-room schools and during the examination year 1947-48, fourteen of these centres are giving instruction in the grade. For Grades XI and XII, the great majority of those students attend at the three central high school Divisions operated by Fort Saskatchewan, Leduc and Calmar, with the members living at or adjacent from these three points transported to and from school daily at public cost. A few also brings twenty students to an Edmonton high school for guidance in Grades XI and XII In addition to this, sixty-five students, scattered throughout the Division make independent arrangements in all but outside high schools and the fee up to a maximum of $60 a year is absorbed by the Division.

In the Departmental Examinations [illegible] Grade XII students [illegible] The question papers [illegible] Of 185 of these papers, the required pass mark was fifty or better.

By JIM GREENHALF

HORSELY TIDINGS AROUND THE COUNTRY

Al Molfort, Sault., they have a beef eating colt, made up of Hol Mower, 900 lbs., Tom Mat-ock, 300-lb. Ram Rapper, 500 and Ram Rapper, 500 . . . Al Admiral, Sask., Art Williams couldn't understand why his new 2 was tipping up, until he apprehended two of his pups "milking" her . . . The Carleton Place Canadian has an obituary for Teddy, a little curber spaniel, who had the enviable record of having returned over a dozen golf balls during its three years of life . . . Records at Brooks, Alta., at Ole Sederdahl's farm auction; grass take, $12,000, a tractor bought for $1300, new, brought $2000, a Mah ean brought $250, an old manure spreader, $200 . . . The Calgary Herald method y celebrations that under the present income tax system in Canada it doesn't pay to be work hard; it doesn't pay to be intelligent and it doesn't pay to be productive . . . which cannot be remedied (evasions) by putting people in jail . . . Dana'd Kapha of Bonfield, Sask., found a gopher on top of the snow on the prairie, put it in the back seat of his car, same to room on arrival found it had eaten three large holes in the upholstery, disappeared.

Coming to but for private initiative in this ill' ld world is The Printed Word, puts it this way:

"When, four years ago, 47 per cent of the Canadian people answered in a Gallup poll that they preferred private enterprise to Government ownership of industries and 39 per cent voted the other way, it looked as though this country were quite seriously drifting up the Socialist idea of Government ownership of all enterprises. A few months later the same poll on the same subject showed 65 per cent for private enterprise and only 26 per cent against it. Impressive."

"A pat story is that this is the last chance for private enterprise and that it is now on trial. Private enterprise is not on trial in Canada. It is our accepted system of society and what remains is to make sure that it works

"The 8 outlets promised us that, at the end of the war, there would be no immediate return of the depression, which they said, was all the fault of private enterprise. Looking back, it may be realized that private enterprise did not create the drought, nor the low prices for wheat, alone it was during the depression that Governments took charge of wheat marketing. Private enterprise did not create the international gold crash in 1931. Private enterprise was not responsible for the chaos and uncertainty created by Hitler's seizure of power in Germany

"Where private enterprise may have failed during the depression was in a lack of courage. Looking back, it is impossible to understand why there was ever any unemployment in this country, even in the disturbed conditions before the Second World War.

"Above all, what about suggesting that it is not likely this country is going to prosper unless the people who risk their money in enterprise are allowed to make reasonable profits, which enable them and expand these enterprises"

The principle of fully informing the people concerning important departures from established practice in the conduct of civic administration is sound, and a safe one to follow, claims the Huntsville, Ont., Forester. "If new principles are to be introduced, radically affecting his personal interests, he becomes a convert to its merits only through a full discussion of its purposes, and he wants the right to reject it, its appeal is unimpressive."

Rodgerstoms
VPOAI

The Hanover, Ont., Post, gives some sound advice this week:

"Some of us have been so eager on our faith for democracy that we have been ready to condemn anyone who disagreed with us. We have been so certain of the rightness of our own opinions and beliefs that we have been impatient with those who could not see eye to eye with us. We have been so sure that we knew all the answers that we were unwilling to listen to the views of others. And we have been so certain that our opinions were right, even when they were opinions based on prejudice and ignorance, that we have been unwilling to change our minds when we were shown the facts.

"We do not mean to imply that we should have no opinions. We should have opinions and we should express them. But we should be willing to change our opinions when we are shown that they are wrong. We should be willing to listen to the views of others. We should be willing to change our minds when we are shown that we are wrong. We should be willing to admit that we are wrong when we are shown that we are wrong

POINTING THE PATH

Good playgoups, good health, good habits of eating, sleeping and exercise, admittedly favor attainment of a pleasing personality. On the other hand habitual violation of the laws of moderation with respect to work, food, rest and recreation, contributes to worry, inefficiency and ill-health.

Approximating these facts, Canada's Health authorities, as a public service, are acting all through information to point paths to healthful, happy living.

Alberta contains 10 per cent of the cultivated land of Canada and 10 per cent of the cultivated land of the western provinces, including Manitoba, Saskatchewan and British Columbia.

Canadian Built Ships Carry World Trade

Canadian shipyards are making a substantial contribution to the restoration of world trade and the industrial development of this country. Some forty vessels were completed during the last year, and the value of tonnage sales in the first eleven months was $19,000,000. Total deliveries consisted of lumber cargo vessels, three passenger and car ferries, two collieries, one tanker, one tug, three lumbers and fourteen barges. In addition, there are fourteen vessels presently under construction for Canadian and foreign firms.

This is a far cry from prewar years, when Canadian shipyards employed only about 1,500 men, who did little more than repair work. During the war, Canadian shipyards employed 16,000. This number has levelled off to 10,000 but it is four times the 1939 total. The Canadian shipyard industry is trying to maintain this high level of construction and its efforts during and after the war have helped to place Canada fifth among the world's shopping centres.

Ardrossan

The Annual Meeting of the Ardrossan Community League was held in the old hall on Wednesday evening. A good crowd turned out and a lively meeting ensued. Reports were read by the various committees on last year's activities. The skating rink is holding its own financially and is the scene of much activity for the young people. The Treasurer's report showed a total of $1,732.89 in the bank, $1,459.09 of which is in the building fund.

The building committee have purchased enough lumber, cement, nails, etc. to complete the concession and sheet the walls of the proposed new hall. This met with the approval of the meeting who hope to be formed that the material would be delivered in the near future.

Election of officers took place with the following being re-elected by acclamation: Pres. M. W. (Bert) McLeay; Vice-Pres. A. Bell; Treas. A. McKinlay. The new Secretary is E. Warnock. Executive consists of Mr. Jackman, Mr. Friel and Mrs. Hodgkinson.

New Social and Sports Committees were elected and these are already mapping out entertaining broad parties last Tuesday evening is the old hall. This was in aid of the Ardrossan Community League and Mrs. Jackman and Mrs. Williams were hostesses for the occasion. Despite a small crowd the venture proved successful from a financial standpoint. The league netted $7.30 from sales and an additional $20.40 from a number of prizes were then raffled which was won by Mrs. A. Bell. Lunch was served by the ladies.

* * *

We are pleased to hear that Mr. E. Hendrickson is home from hospital. Two other members of our community, Mrs. Harvey and Mr. T. Jackman are still convalescing in the hospital.

Good Hope

The Happy Gang Club held its second meeting on Friday evening, January 25th, in the school.

The following slate of officers was elected for the coming year: Pres., Orville Lang; Vice-Pres., Alvin Frey; Secretary, Alice Brost; Treasurer, Norma Frey; Piano Committee, Mrs. D. Rudolph; Gun Committee, Vernon Frey.

The next regular meeting will be held Wednesday, February 6th.

* * *

The congregation which has been attending United Church services at Good Hope, held a meeting Sunday afternoon for the purpose of electing officers for 1946. Rev. W. D. Ross was in the chair and Mrs. H. Meyer acted as secretary.

Since the services held at Good Hope in 1947 will proved a success, it was decided to apply to the official board for permission to become a congregational charge. If this permission is granted the board of Stewards will be Mr. D. Bushnell and H. Meyer.

Services will be held the same as last year, 2nd and 4th Sundays of each month at 2:30 p.m. Sunday School at 1:00 p.m.

* * *

Mr. Ernie Johnston returned home over the week-end from Grande Prairie, where he had been employed in a lumber camp.

West Elk Island

At the regular meeting of the Bethany Community League held on Thursday, January 22, a slide lecture on "Creation and the Fall of Man" was enjoyed by the members. It was decided to have one slide lecture monthly on Books of the Old and New Testaments.

* * *

Walther Leaguers, remember the Winter Conference at Concordia College, February 8 to 9, and please don't forget the talent quest.

* * *

Miss Rena Gardner was a visitor at her home here last week.

Several members of W.M.S. Club are very busy rehearsing for the play "Hill-Billy Courtship" which they hope to present in the near future. Announcements if presentation will be made shortly. It's a delightful comedy don't miss it.

* * *

Unless I am very much in error when I do wrong, I will soon quit being sorry.

S. S. No. 4 Fort Saskatchewan

Q. Is there any treatment for Osteomyelitis?

A. Ultraviolet ray applied locally through the bronchoscope, contention with silver nitrate and penicillin locally have been used by various physicians with reported success. Ultraviolet ray, applied to the whole body, and a high vitamin diet, also have been tried with reported success. Pneumococcus and streptococcus antitoxin therapy have been recommended when the disease was confined to the bronchus and did not involve the trachea. Some physicians are loathe to use collapse therapy because of the possibility of bronchiectasis and contamination infection taking place in the lung in back of a closed bronchus. Partial cleavage of the bronchus due to some formation from ulceration may be treated by dilatation of the bronchus. Sometimes aspiration of the secretions from the lung distal to the ulcerated or small bronchus is necessary. Some surgeons say that many bronchial ulcerations heal spontaneously and that treatment does but little if any good.

IN THE BAG

It's in the bag! Yes, your very health may depend upon the bag or lunch box in which you carry your mid-day meal. If you take home-prepared food to work, health authorities suggest that you make sure you have a "parcel of health."

A good lunch, of course, should include milk, fruit or vegetable or both, meat, fish, poultry, egg, cheese, nuts or beans and buttered "Canada Approved" (or whole wheat) bread.

If you can't vote all these to the office or shop, health officers urge you to manage to get them at your work-place.

Excursion Trip Highly Successful

Elsie, the numerous comments board in and around the Fort a wonderful time was had by all who boarded the special train for Lloydminster last Thursday.

The trip both coming and going is one that will long be remembered. Some played bridge, others remained from coach to coach breaking-up with hilarious song which helped to while away the hours.

A more congenial crowd could not be found and the behaviour of everyone is a credit to the town and district. In the opinion of the C.P.R. travelling auditor on the train, it was one of the best excursions he has ever taken out.

From coming home, all are willing to go on another trip of the same nature.

The hockey played at Lloydminster was played full of thrills because of the closeness of the scores. Our boys put on an excellent show and a very good exhibition game of hockey for which they definitely should have won, but as it was, the game ended 5 to 5 for Lloydminster

Twelve enthusiastic curlers dropped off at Mannville to play their skill against Mannville rinks but they were taken into camp. However, the curlers of Mannville from the people of Mannville was well worth the licking they took.

Nothing is so contagious as enthusiasm, it bowes scores it charms brutes. Enthusiasm is the genius of sincerity, and truth accomplishes no victories without it. —Bulwer-Lytton.

Minutes of Regular Meeting of Municipal District of Strathcona

The Council of the Municipal District of Strathcona, No. 83 held its January meeting on Monday, the 13th, with all members in attendance.

The minutes of the three-day meeting held in December were adopted as submitted by the Secretary, as well the Financial Statement for the month of December.

The Secretary advised that no response had been received to the advertisement that had been inserted, offering for sale the Tournesan sprayer and power control unit. The Council instructed the Secretary to re-advertise it at a later date.

The Council by resolution adopted the recommendation that proceeds in 1947 for the year 1946.

The Council considered at some length the question of revising the assessment that had been established during the new general assessment made in 1945. It resulted that it was extremely difficult to correct some rather manifest inequalities in valuations that had been established in different parts of the district without disturbing the general assessment as made in 1945. It was decided that the Council, as members of the Court of Revision, should personally inspect a number of quarter sections where the valuations reflected the inequalities in that particular locality. It is anticipated that the matter of making a complete new assessment of farm lands in the district will be taken up with the Provincial Director of Assessments.

As Mr. R. Low, Assessor for the district preferred not to undertake the work of assessing this year, the Secretary was appointed Assessor of the work of re-valuating new buildings and Stock-in-Trade for 1946. Mr. Low agreed to render any assistance that he could in this work.

With the extensive industrial development that is taking place in the district, the Council tentatively discussed the appointment of a permanent Assessor for the Municipal District.

The Council agreed to handle grass seed on the same basis as previous years. Grass seed will be carried by the Eastbank Brand Warehouse, South Edmonton and the Fort Flour and Feed Store, Fort Saskatchewan. It is suggested that anyone requiring grass seed make known his requirements to the Municipal Office as soon as possible.

The Council approved three applications for Old Age Pensions.

Mr. H. Sargent, Ardrossan, was in attendance to urge that the road to his farm be improved.

Mr. F. H. Baker, M.L.A., at the request of the Council, was present to discuss the possibilities of indoctrinating certain industrial concerns establishing themselves within the limits of the Municipal District.

Deputy Reeve Schwirse and Councillor Adamson were a committee appointed to interview Alberta Concrete Products concerning the unauthorized removal of gravel from the District's gravel bar in the river.

The Council spent some considerable time surveying the Public Work statement for 1947, together with the Financial Statement for that year. The Financial Statement will appear in the Fort Record as soon as the Auditors complete the audit for 1947.

With the reading of correspondence, passing of payabeds and accounts the meeting adjourned at 5:45, to meet again on Friday, the ninth of February, 1946.

MUNICIPAL DISTRICT OF STRATHCONA No. 83

NOTICE OF PREPARATION OF ASSESSMENT ROLL 1946

Notice is hereby given that the assessment of the previous year has been adopted under the provisions of The Assessment Act, and that the assessment roll of the said municipality has been duly prepared, and that if any person thinks that any property has been wrongfully assessed, or assessed too high, or too low, or that his name or the name of any other person has been wrongfully entered upon or omitted from the roll, he may at any time prior to the 31st day of January, notify the secretary-treasurer in writing of the particulars and grounds of his complaint.

D. ROBERTS,
Secretary-Treasurer.

United Church Annual Meeting

There was a fairly good attend ance at the United church, January 16th, when the Annual Meeting of First United Church was held in the hall. Rev. H. Bates was chairman and Miss Ruth Shackleton, secretary.

Reports of 1947 activities were presented as prepared by the secretaries of the various organizations.

All reports were encouraging, but the greatest interest naturally centred on the whole hold of the rebuilding of the church The W.A. helped by community support of a "Kitchen Shower" have provided a nice [illegible] towards this. The tables were tastefully decorated with baby mouse and daffodils and Mrs. J. D. McLean was chairman for the occasion

Mr. McLean, in his remarks as chairman, thanked the ladies for the honor accorded him and said that the new venture, which was experiment by the Legion, [illegible] was a success.

* * *

Major Magee in his toast to the Legion stressed the fact that only by pulling together would there be unity. He hoped that the Legion would have more of these socials in the future. Father Wood, in behalf of the members for the honor they had bestowed upon him in electing him their guest, in a few words pledged the support of his parishioners in any undertaking that would further the interests of the Legion and also for any other organization who were working for the welfare of the community

Comrade Magee Prowse, in his opening remarks as guest speaker, thanked them in all for inviting him to attend the meeting. He addressing Legion members who was one of the finest socials he had ever attended

Mr Prowse then spoke on the work the many branches of the Legion are doing and what they still could do that would be of benefit to the members.

There are 6,000 branches of the Legion in Canada with a membership of 300,000 He said the members should not remember and be leaders in community undertakings. They should work for peace and understanding

He praised veterans of the first war for the work they did in helping to get the benefits that so many of the young men of the 2nd World War are receiving 25,000 of these men are attending universities which will enable them to get better positions

The cost of educating these men is $165,000,000, but he said, these men, when their education is completed, would be in the higher salary brackets and in ten years would contribute back to the government, through income tax, three times the amount it cost to educate them.

He urged all veterans to join the Legion and work for their own good and for the good of all mankind.

Mr Henry Lamoureux thanked the executive for their and during his term as president. He then introduced Mr. Ray McDougall, the new president, who expressed the hope that the members would give him their support to build the Legion to a still better organization.

Following is the program for the evening:

Chairman's Address
Toast to the King
Toast to the Legion

Program:

Solo—Miss Frankie Knowles
Address—Father Seward
Piano Solo—Mrs. H Lamoureux
Solo—Mrs. H. Bouton
Community Singing—Led by H Lamoureux
Solo—Mrs. G. Webb

Mrs. H. Lamoureux and Mrs. R. Webb accompanied at the piano.

The Agricultural Service Board

M. L. STETSON, Field Supervisor

Our Municipality has again adopted the policy of handing grass seed, and hopes to further the present year The following prices quoted by the Provincial Department of Agriculture may be of in-

Alfalfa Registered, 60c per lb.	
Common, 45c per lb.	
Sweet Clover (Yellow or White blossom) 18c per lb.	
Alsike Clover, Certified, 45c per lb.	
Alsikevale Clover, Certified, 40c per lb.	
Brome Grass, Certified, 16c per lb.	
Timothy, 11½c per lb.	
Creeping Red Fescue, 25c per lb.	
Alfalfa Sweet Clover Mix, 25c per lb.	
Alsike Timothy Mix, 9½c per lb.	

It is advisable to place your orders as soon as possible. For those who wish to take delivery of seed at Fort Saskatchewan, advise John Sime (Fort Fraser and Pool) of your requirements. To those who wish to take delivery of seed at Edmonton, place your orders at the Municipal Office, South Edmonton

In the province of Manitoba Wild Oats produced in the year 1946 was 18 million bushels. Let us resolve to sow the cleanest seed possible. While dealing with this subject we wish to advise you of a "Blanket" Wild Oat machine, for taking Wild Oats out of tame Oats, obtainable from A. J. MacDonald, 9718 104 Street, Edmonton. We have a sample of oats which were cleaned by one of these machines and they are well cleaned.

Agricultural Service Board meetings are now being held throughout the Municipality, watch for announcements as to date and place. Come out and discuss your problems. When everybody expresses their views we all profit.

An Agricultural Short Course is now being arranged for February 24, 25 and 26, further announcements will be made later.

Bremner

The regular monthly meetings of the Clover Bar UFA and UFWA were held at the home of Mr. and Mrs. F. T. Jackson.

The delegates to the annual convention held in Edmonton, Mrs. F. R. McCuia, Mrs. T. Marler and Mr. C. B. Marler, gave their reports. They reported a very full convention and a good attendance.

A hearty lunch brought the interesting evening to a close.

* * *

Miss Marjory Wilkinson, who is nursing in Kelowna, B.C., was home visiting her parents.

* * *

Miss Esther Wray has gone to Victoria, B.C. for a month in visit her father and mother.

* * *

Mr. Frank Andrews and Mr. Lewis Bodell have gone to Kelowna B.C. for an outing.

* * *

Mr. R. C. Marler left on a business trip to Winnipeg last week.

* * *

A shower was held in honor of Miss Gladys Dawson, a bride of the near future, at the home of Mr. and Mrs. Ray Schroter, with Mrs. H. R. McCalla and Miss Frances Schroter as co-hostesses. The guest of honor was the recipient of many beautiful gifts. Following this lunch was served. Assisting with the serving were the Misses Ellen Scott, Mona Marler, Helen and Jean Schroter.

* * *

Congratulations are extended to Mr. and Mrs. Ray McGhan on the birth of a son, Eric.

* * *

A number of the school children of the district are home with whooping cough.

East Edmonton

The monthly meeting of the Willing Workers was held at the home of Mrs. Geo. Briggs on Wednesday, January 16. A good attendance was present in spite of the stormy weather.

General business was discussed and plans laid for three whist drives to be held in the next two months, the meeting to close with a social evening.

* * *

Miss Gladys Hawkins returned home from Lethbridge on Wednesday after visiting her aunt and uncle, Mr. and Mrs. Pete Dunn.

* * *

A whist drive was held on Saturday night in the hall with Mrs. Isherwood and Mrs. Weir as hostesses. A fair crowd was in attendance with prizes going to: Ladies 1st, Mrs. Briggs; Ladies' Consolation, Mrs. T. Kowalchuk. Gent's 1st, Mr. W. Kowalchuk; Consolation to Miss B. Coffield playing as a guest.

* * *

The Plywood Training classes have been resumed after the holidays for pre-school and school children. Classes are held in the hall and the school under leaders from the Provincial Recreation Centre.

* * *

Disclosures made to US Congress revealed that 90 public officials were speculating in grain last Sept.

Comrade J. Harper Prowse Guest Speaker at Legion Social

Something new was instituted last Friday evening, January 18th, when the Annual Meeting of First United Church was held in the hall. Rev. H. Bates was chairman and Miss Ruth Shackleton, secretary.

Reports of 1947 activities were presented as prepared by the secretaries of the various organizations.

All reports were encouraging, but the greatest interest naturally centred on the whole hold of the rebuilding of the church The W.A. helped by community support of a "Kitchen Shower" have provided a nice [illegible] towards this. The tables were tastefully decorated with baby mouse and daffodils and Mrs. J. D. McLean was chairman for the occasion

Mr. McLean, in his remarks as chairman, thanked the ladies for the honor accorded him and said that the new venture, which was experiment by the Legion, [illegible] was a success.

* * *

Major Magee in his toast to the Legion stressed the fact that only by pulling together would there be unity. He hoped that the Legion would have more of these socials in the future. Ardrossan Man Passes Away Suddenly

On Friday, January 18th Mr. Arthur Harvey of Ardrossan passed away at the age of 58 years. Mr. Harvey was well known throughout the district, having resided there following the first World War.

He is survived by his wife, one son Gourlay and one daughter Jean, both of Ardrossan.

Funeral services were held Monday afternoon at 2 o'clock in Howard and McBride's Chapel. Interment took place in the Soldier's Plot of the Edmonton Cemetery.

Yorkville

Mrs. F. Marsden is visiting her daughter and son-in-law, Mr. and Mrs. Armand Doucette of Lamont.

* * *

The Fort Saskatchewan UFWA held their monthly meeting at the home of Mrs. Harry Stetson, Wednesday afternoon. It was attended by almost all members and 4 visitors. We would like to draw to the attention of the members that it was decided to hold all future meetings on the 2nd Wednesday in each month.

Mrs. J. Jenkins very kindly donated a fruit cake to the local to be raffled. It was also decided that as many members as possible hold card parties in their homes. $20 to be donated to the W.I. for the Fort Saskatchewan Cemetery.

Mrs. Kerwood Galloway and Mrs. Geo. Williams very ingeniously entertained the members with various items of interest gleaned from their attendance at the UFWA conference last Thursday.

A very encouraging letter was read from Mr. Donald Galloway in which he very kindly promised to organize a Junior UFA in the near future, this was in reply to a request from the lady of the local. We very much appreciate this kindly offer as we fully realize his time is very much occupied.

A very dainty lunch was served by the hostess and a pleasant half hour spent over the tea cups.

Co-operation has proved itself a valuable vehicle upon operate only through democratic unity.

Guides, Brownies To Meet Saturday

The Fort Saskatchewan Girl Guides and Brownies will hold a get-together on Saturday afternoon, January 26th. The purpose of this meeting is that the mothers and friends of the movement will have an opportunity to meet Mrs. E. H Gardner, the Provincial Commissioner. Miss Beth Rutland, Field Secretary, Miss Betty Mantle, Provincial Secretary and Mrs. Taylor, Division Commissioner.

Mrs. Gardner and Miss Rutland will give talks on the Guide Movement after which refreshments will be served.

It is to be hoped that all mothers of Guides and Brownies, those with daughters too young to join a Brownie, and any other interested friends will be there.

The girls will meet at 2:00 p.m. in the basement of the Community Hall and the parents are asked to come at 2:30 p.m.

S. Cooking Lake

Last week Franklin Sehgal was home recently and interesting visit. Not only did we have our first student-teacher visit us, but we had also Mrs. Hauverstad and Jonsson of the Faculty of Education.

Following is the program for the evening:

Chairman's Address
Toast to the King
Toast to the Legion

Program:

THE WINNIPEG GRAIN EXCHANGE IS A MEETING PLACE—

Because their business is done on a large scale, the Grain Exchange is another by a town or village merchant whose business may be measured in mill and that perhaps go to four (5).

The Exchange itself neither buys nor sells grain. Nor is it a bank, broker or speculator.

Membership in the Trade is sought by persons or firms in the country's leading industry—grain growing. Farmers, bankers, shippers, millers, exporters, elevator operators, and others who have had long experience in handling grain, may be admitted to membership upon the decision of the Directors in any way or another.

The rules are many, but there are a few main ones governing all members. Each must be loyal to the Exchange and abide by Canada Grain Act, Exchange Company, Co-operative Act, Provincial Sales of Goods Act, etc.

All "deals" are members of the Exchange and not all of the other. Every transaction is made on the floor of the Exchange.

The Exchange has been in operation for many years and is the greatest institution of its kind in the world.

Everything that is bought and sold on the Exchange floor is graded by a government licensed inspector. Grades are established by the Canada Grain Act and administered by the Board of Grain Commissioners for Canada.

USE OF LARD

The superiorities of that millions of cases of pastry will be consumed in Canada during the 1948 crop season, Dr. T. R. Parsyphenko, of the University of Saskatchewan, stated authority on breads and the use of LARD, advises Saskatoon not to apply the trade talking chemical until crops have reached at least 3 ins. It should not be applied after crops have reached the full shot blade stage.

The secret seems to be in the use of LARD. Lard is a shortening that is more than a shortening. It is a "tenderizer" for all sorts of cuts about the dairy — so light, so easy to digest, so delicious, for meats and cereals and breads, it is equivalent to putting on a shield of sweet and wonderful goodness.

In the kitchen, too, it saves endless labour in cooking vegetables and breads and pastries. Yes, lard is a real "helpful" for the farm's best cooks. Johnny's parents have discovered its many outstanding advantages.

1 teaspoon salt
1 cup sour milk

Cream shortening and sugar. Add molasses. Sift flour with soda, ginger, cinnamon, cloves, nutmeg and salt, and add alternately to first mixture, about 4 cups flour will be enough. Chill dough in the refrigerator overnight, or for several hours. Roll out on a floured board about ¼-in. thick. Cut with a round, 3-in. cookie cutter. Place on a greased baking sheet for enough apart to prevent cookies from coming together during baking. Bake in a moderately hot oven, 375 degrees F., for 8 to 10 minutes. Makes 36 3-in. cookies.

WHEAT GAT CRUNCHES

1 3 cup mild-flavored fat
½ cup brown sugar
1 cup whole wheat flour
¼ teaspoon salt
1 cup rolled oats
½ cup warm water
½ teaspoon baking soda
¼ teaspoon salt

Cream fat and sugar thoroughly. Mix flour, salt and rolled oats and add alternately with the water in which the baking soda has been dissolved. Add vanilla. Drop from a teaspoon onto a greased cookie sheet and flatten with a fork. Bake in a moderate oven, 350 degrees F., for 10 to 12 minutes. Makes 2 dozen cookies.

GUMDROP BARS

1 cup either all-purpose flour
½ teaspoon salt
1 teaspoon baking powder
2 2 cup gumdrops
2 eggs
1 cup brown sugar
½ teaspoon almond flavoring

Sift flour, salt and baking powder. Cut gumdrops in slices, mix with flour. Beat eggs until light, add sugar and flavoring. Stir in flour with gumdrops. Spread in a greased pan 9 by 12. Bake at 350 degrees F., for 30 minutes. Cool. Cut in bars. Makes 50 to 60 bars.

Command liberty by the way we live and thereby be best used to defend it with our lives.

'Our Children'

WINNIE WHOPPER

"New Winnie, what really did happen at that party? You know Mother and Daddy must know."

Mrs. Ramsay's little five year old daughter had just come in from her friend's birthday party and was telling her mother about it. Some of the things she described were fantastic to say the least Though Mr. Ramsay was not alarmed over them, still thought he should take steps to break Winnie of the habit, for she thought at five years her little girl should be learning to stick more closely to facts.

Mrs Milton had a Winnie who told stories too. Her daughter was twelve years old. She was such a big girl she was often mistaken for fourteen or fifteen, and this seemed to make things even worse. Mrs. Milton was very worried about her Winnie, not so much because she was awkward and less attractive than her little sister, but because more and more often lately Winnie's stories had to be checked. Only last week she had told her teacher that Mrs. Milton was very ill and had been rushed to the hospital, though she knew her mother was perfectly well. That was not the first time one of her stories had caused the family embarrassment Mrs. Milton wondered what she should do for the best

What suggestion would you have for helping Mr. Ramsay with her daughter Winnie? What suggestions would you have for helping Mrs. Miltonwith her Winnie?

Please send suggestions to:

Dr. H. Siemens, Edmonton Rural Health Unit, Qu'Appelle Building, Edmonton, Alberta.

Radiograms

THAT ENDLESS STREAM

There seems to be no end to the amount and variety of public service offered daily by CJCA. A check through only three seconds (except Sunday) will reveal a number of spots daily such as follows:

Daily thought on 15 minutes
64 time checks
20 temperature readings
12 hockey scores
Health League Report, 10 mins.
30 Rainbow for 6 public service organizations re coming events
2 City Police "lost persons" announcements
1 "lost wallet" announcement
2 "lost parcel" Radio's
Consumers' League lotterysw, 5 minutes

Then, of course, thanks to Edmonton City Banking and other local and national sponsors, public service shounds on numerous sponsored programs BOB's Club Calendar offers a public service to an average of 106 welfare organizations in Northern Alberta monthly. Yes, radio is an indispensible institution

French acreage of winter grain crops for the 1948 harvest are estimated at 12,466,000 acres compared with 12,099,000 a year ago.

Johnny feels so BIG!

Johnny doesn't know why he is able to carry so many of the chores with pails. "Abracadabra" means nothing to him now. In milk, when he grows up. For this healthful thing does more than make cows to make farm work easier.
This light-bodied thing wears 'r rust or being left out all kinds of farm implements and equipment to outdoor labour and last longer — for such things as milk cans, garden hoses, fishing, reading, eating, grazing, cheese.
It is a "necessity" for all sorts of cures about the dairy — so light, so easy to digest, so delicious, for meats and cereals and breads, it is equivalent to putting on a shield of sweet and wonderful goodness.
In the kitchen, too, it saves endless labour in cooking vegetables and breads and pastries. Yes, lard is a real "helpful" for the farm's best cooks. Johnny's parents have discovered its many outstanding advantages.
Where does Aluminum come from?
All basic raw materials are imported, mainly from British Guiana, Cryolite from Greenland, Fluorspar from Newfoundland. Canada makes use of her waterpower and manpower to turn them into Aluminum — ores up as mined resources of her own. All these, "ingredients" are brought together at the model city of Arvida, Canada, home of the largest aluminum-producing plant in the world.

THE 1947 CANADA YEAR BOOK

The first post-war 1947 Canadian Year Book is now available to the public.

This new addition will no doubt give a much fuller account on many subjects than was possible in the previous one issued during the war in 1946 and will be a valuable source of information to all who are concerned with Canadian affairs.

In the letter received referring to the new issue it is interesting to note that the price of this book still remains at $2.00 despite the fact that paper and all other items connected with printing have risen considerably

Teachers, university students and ministers may obtain a paper-bound copy at a special price of $1.00.

Those desiring a copy may obtain one by applying to Dominion Statistician, Dominion Bureau of Statistics, Ottawa.

PLEASURE IN LEISURE

Leisure is not a luxury—you earn it. Therefore, say the health authorities, make it work for you and pay dividends. Canadians are urged to cultivate their leisure intelligently — to fill the increasingly ample hours away from work with hobbies and interests which will give them satisfaction and will entitle to balanced and healthful living.

Medical authorities advise against compulsion in leisure, but suggest that everyone strive to find fields of spare-time activity suited to individual tastes and circumstances.

Unless large quantities of wheat can be made available to European nations during the balance of crop year, cuts in bread rations in key European countries are likely

Timely Farm Notes

By B. J. Whitbred, District Agriculturist

TESTS WITH FEEDS FOR WEANING PIGS

One of the problems in successful swine raising is to keep pigs growing steadily after weaning. This sometimes occurs at this time including scurfiness and slow growth, causing a severe setback to the pigs. Studies have been made by the Animal Husbandry Division, Central Experimental Farm, Ottawa, with various kinds of feed

In one experiment testing different feeds for weaned pigs, one lot was fed a mixture plus 1½ pounds of skimmilk for each pound of grain. Another lot was fed only one-half as much skimmilk, while a third lot was fed a mixed protein supplement instead of the milk. The results indicated that milk is not essential for weaning pigs if a protein supplement of good quality is fed in sufficient quantity. The lot on mixed protein supplement made the fastest and most economical gains. Of the two milk fed lots, the lots receiving the greater quantity of milk proved the more satisfactory. The pigs in all lots were healthy and vigorous, but in the higher protein lots (high milk and high protein supplement) they appeared somewhat more thrifty as shown by more fat and healthier skin and hair.

GETTING TOGETHER

"Producer-Consumer co-operation can go further towards guaranteeing quality of food products than can the use of any other method", says J. L. Eagleshan, Supervisor of Post Control for the Alberta Department of Agriculture. He speaks of the changes that have occurred since the time when the average potato grower put everything that he produced in the bag without much thought for the person who bought his products. Today Alberta potato growers and government agencies are working together to provide a higher quality product with less waste and greater freedom from disease.

Alberta table potatoes are commonly sold under two grades: Canada No. 1 and Canada No. 2. Canada No. 1 potatoes have to be such that not more than 5 per cent of the potato is wasted in preparation for the table—and that 5 per cent includes the peel. For the Canada No. 2 grade 10 per cent of wastage is allowed. Neither grade permits inclusion of potatoes damaged by frost, sun-burn, decay, or similar defects.

The consumer can do a great deal towards maintaining quality of Alberta potatoes if when buying, he asks for Canada No. 1 or Canada No. 2 grade. The laws of Canada insist that potatoes sold in closed containers must be labelled to show the grade for which they qualify. Avoid potatoes for which the grade is not clearly shown. Potatoes are graded for

HEAVY DUTY OILS

Heavy duty oils for engine lubrication have been popular. Their chief use is in engines that are working under heavy loads or for long periods of operation at fairly high operating temperatures.

E. H. Marvin, Extension Agricultural Engineer for the Alberta Department of Agriculture says that these heavy duty oils clean out the carbon formed during the operation of the engine. They hold the free carbon in suspension rather than allowing it to accumulate in the cylinders and crankcase. Because of this property, care is required when changing over from ordinary oil to heavy duty oil. There are just four points to be kept in mind.

First, fill the crankcase with

New National Grain
SPRAYER
Pays its low cost quickly in heavier, richer crops—after nine years of research in chemical weed control this sprayer has been designed specially to do a complete, efficient job. Ruggedly built for long usage. A profitable investment.

$395.00 Delivered in Prairie Provinces. Mounted on sturdy two-wheel trailer with 1½ H.P. Motor and Pump.
Operates at low gallonage spraying 3, 4-D at 15b zote of 4 to 10 gallons of spray solution per acre. Economical in time, labor, water and chemical consumption.

Designed primarily for field spraying with selective weed killing chemicals. Readily adaptable with low-cost equipment to many other farm uses. One valve controls the flow to either one or both booms. By adjusting this valve, one boom may be kicked out of the way, the other used for roadside or fence row spraying.

110 Qualified Teachers In Clover Bar Division

When the schools opened in January the teaching staff consisted of 118 regularly qualified teachers and seven supervisors with correspondence school courses also employed for the seven rooms, where it had not been possible to engage fully qualified teachers. On the first of May, however, the seven supervisors were replaced by graduates of the Edmonton Faculty of Education and the staff was complete for the remaining two months of the term. At the end of the June term, 32 teachers resigned from the staff, one teacher on war leave sent in her resignation, two teachers on temporary contract left the Division and the Board terminated one contract to secure 4 vacancies to be filled. For September, the Board and the Teacher Representatives negotiated a new salary schedule and with a more generous scale of remuneration, it was possible to engage sufficient teachers to complete the teaching staff for the reopening of schools. May this be accepted as a hopeful indication that the Lower Grades Teacher shortage has been passed, and that from now on, it will be easier not only to fill vacancies but also some degree of selection will be permissible through a wider field of applicants.

Of the 120 members of the teaching staff, 46 are married women, many of whom have left their home duties temporarily to help in alleviating the restricted teacher supply but who will leave the schools as soon as they can be replaced. Eleven recent graduates of the Faculty of Education have established in the appointments made to the staff during the summer holidays.

The qualifications of the present members of the teaching staff are:

High School Certificates with University Training	7
First Class Certificate	28
Second Class Certificate	34
Elementary and Intermediate Certificate	51
Letter of Authority	1
Total	120

* * *

Bolton, Parkside and Agricola school districts were closed during the whole year, and with the reopening of schools in September, it became expedient to close three more ungraded schools, namely Conjuring Creek, North Clover Bar and Pine. In all but one district, the pupils were carried by a school van to a adjoining operating schools, and in the case of Agricola, the parents of children were paid a daily allowance in lieu of conveyance on the understanding that they make their own arrangements to bring their children to school as no school van is available. Through van transportation, from the home school to more specialized centres, the senior departments of the two one-room schools at Sprucedale, Kuiu and Jordan Hill were not reopened in September. An additional room in temporary quarters was added to the plant at Calmar to bring the total number of rooms at that centre to seven.

Timely Farm Notes

Continued From Page Three

heavy 600 cc. oil, operate for 15 minutes, then drain. Next refill with fresh oil and operate for two hours, then drain. Refill with fresh oil, operate 10 hours and drain. Refill again with fresh oil, install a new filter cartridge, and operate an extra period by the instruction book for future oil changes.

Here is the reason for these several changes. When you first put in this heavy duty oil, it will loosen up and dissolve the carbon that has been accumulating in your engine during the use of the ordinary oil. If, after the first filling, you run the engine too long before draining, the oil will become so thick with this dissolved carbon that the lubrication system may be blocked—with disastrous results.

Around the Town

The First United W.A. will hold their regular meeting on Wednesday, February 6th at the home of Mrs. Cecil Lyle. Pot holders and towels.

* * *

Jack Brenton has joined the permanent force of the RCAF and will leave Monday to begin his training at Toronto, Ontario.

* * *

Mr. and Mrs. Whitson of Alcomdale are spending a few days visiting Mrs. Magee in the Fort.

* * *

Mr. W. Seymour returned home Tuesday from the Lamont hospital where he spent the past ten days. Mr. Seymour, 68 years of age, reports he is "fit as a fiddle."

* * *

Mrs. J. P. Cowan of Hughenden, Alberta spent a few days here visiting with her daughter and son-in-law, Mr. and Mrs. Milton LaBlicha.

* * *

The Fort Canadian Legion rink defeated the Legion Millet rink at Millet 12 to 8 on Tuesday night in the Bonspiel sponsored by the Legion Command.

* * *

Hockey fans! For a thrilling, fast moving game come out on Sunday to watch the Redcoats of Mon. vs the Single Men at 2 p.m. at the Fort.

* * *

We are pleased to report that Mrs. Jot Carscadden, who has been in hospital for a check-up, returned home this week.

Bride-Elect Feted at Shower

On Wednesday evening Mrs. L. Hill and Mrs. Ed. Wyer were hostesses at a shower at the home of Mrs. L. Hill in honor of Miss Olga Aitchison, a bride elect of February.

A lovely time was spent playing guessing games and singing, after which the bride-to-be was led into the dining room where a variety of useful gifts were presented to her.

In a few well chosen words Miss Aitkens thanked those present for the lovely gifts she received.

A dainty lunch was served by the hostesses, assisted by Mrs. Von Iffland, to bring a pleasant evening to a close.

Partridge Hill

The Alberta Wheat Pool meeting at Partridge Hill on Monday evening was well attended. Mr. Dabinett of the Field Service division was in charge and showed some very interesting motion pictures, including comics for the kiddies. A brief interesting review of operations of the Pool and the benefits of co-operation was given, which was followed by a question period. The Alberta Co-op Creps Commissioner, Mr. A. M. Wilson gave a short talk on the problem of weed control when grain is cleaned for seed at elevators.

Mr. Dabinett promised to be back with more pictures on February 9 at the Partridge Grain Club meeting, and we are looking forward to that date.

* * *

Mr. and Mrs. Bob Moore of Vermilion were visitors at the home of Mrs. Moore's parents, Mr. and Mrs. Wilmot Allen last week-end.

* * *

A number of young people of Partridge Hill and Good Hope are practicing a play under the direction of Mrs. Rose. We expect to hear more of this as time goes on.

* * *

One member, Miss Norma Flintoff, has recently had four young teachers taking practice training with her. Last week Miss Grace Fleming did this week Miss Virginia Hunt, both are attending the University at Edmonton.

* * *

Mr. George Cheboldaieff has been confined to his bed with pleurisy. We wish him a quick recovery.

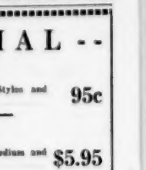
C.C.F. Candidate



ALFRED G. ARNTSON

Mr. Arntson is the C.C.F. Candidate for the Clover Bar Constituency. He was born at Hay Lakes in 1910 and attended school there, later taking a business course at Alberta College. For a short time he was in the civil service but returned to his farm at Hay Lakes. He served in the RCAF from 1941 to 1943.

Mr. Arntson has been a member of the C.C.F. for the past six years and is keenly interested in economics.

His hobbies are reading and baseball.

List of Games Played by Fort in Woman's Bonspiel

The following is the list of games played by the Fort Lady Curlers in the recent bonspiel held in Edmonton.

Josephburg

The Annual Meeting of the congregation was held in the church on Sunday Rev. Krieger acting as chairman and John Mohr as Secretary.

Annual reports were given by their respective officials as to the finances.

All officers were re-elected by acclamation: Mr. Joseph Thomas as Elder for a three-year term, to serve with Rod Berg and Ed. Frey.

Mr. Wm. Thomas as Deacon for a three-year term to serve with Fred Thomas and John Mohr. Mr. Walter Mohr as Treasurer for one year. Mr. Walter Frey as Collector for one year, Mr. David Thomas as Trustee for three years to serve with Sid. Mohr and Albert Untereschultz. Mr. A. M. Wilson gave a short talk on the problem of weed control when grain is cleaned for seed at elevators.

Various discussions followed and it was decided to increase the fire insurances on buildings on the church property.

Although various improvements were made and electric lights installed the church is in a healthy financial condition.

Griesbach

The Griesbach U.F.W.A. held its monthly meeting at the home of Mrs. James Affleruch with ten members present and one visitor. The candidate to the convention gave her report, which was very interesting.

* * *

Mr. and Mrs. Joe Pierce are home again after spending a few days with relatives at Red Deer.

* * *

Mrs. Jack Armstrong has left for Vancouver where she will visit her daughter and son-in-law, Mr. and Mrs. Arnold Porterfield.

Many men make money but money never made a man.

LEGION MEETING

The Annual Meeting and Election of Officers of the Fort Saskatchewan Branch No. 27 Canadian Legion B.E.S.L. will be held in the Legion Hall.

Tuesday, Feb. 3rd at 8 p.m.

All members are requested to be present.

Free Milk for School Children

The decision of the W.I. to enter the free milk to the school children will, we feel sure, meet with the approval of all parents.

There are 74 pupils in grades 1 to 4 who will receive this milk. In discussing this matter the executive felt that their funds were not adequate enough to carry this program through alone and supply milk to all children. They contacted the Women's Auxiliary of the Legion and also the Canadian Legion executive to enlist their aid. A meeting of the executive of these three organizations met recently and the W.I. members explained the problem facing them and the amount of money required to supply this milk.

The Legion W.A. and Legion executive were 100 per cent behind the W.I. in their undertaking and the Legion executive, thanked the Legion offered to raise the money needed.

We understand this milk will be supplied at wholesale price to the W.I. with just the cost bringing it here added.

Arthur Rouque, this worthwhile undertaking of these organizations.— Give your children the same opportunity that city children receive.

Marinville - Fort Battle to 1-1 Draw

A large crowd was on hand Wednesday evening to witness one of the fastest games seen this season when Marinville and the Fort tangled.

From the drop of the puck both teams were in there struggling for points but the first period ended scoreless.

The second went wild when Bunson scored from an assist by Logan and Calvert. The boys kept their lead until well into the third period, when Jamison of the Marinville team slipped the rubber past the Fort goalie to tie up the score.

The Fort boys were really in there pushing right up to the end but could not break the deadlock.

On Monday night the Fort Hockey boys journeyed to Nanaimo and downed the Miners, the score being 2 to 1. The scores were made by Robert G. assisted by Bob G. and Burton assisted by Calvert.

School Flashes

Curling rinks have been organized this week throughout the school.

A school party consisting of skating, dancing and lunching has been planned for this coming Friday.

The Health Clinic has been visiting us this past week.

J. J. LeBlanc visited the school Tuesday on inspection duties.

Mr. G. Bannerman, Dr. Gillies and Mr. Jansson made an arithmetic survey Tuesday on grades one to six.

* * *

Helen K. Grandahl jumped from the pan into the fire on July 19, 1931. She is big, blonde and beautiful. This year's ambition is to pass "physics". She tells us her likes are dates (dinners eat, of course), evening dresses and collecting snaps. Her dislikes are opera singers, wearing stockings, and boast. Whenever you hear these words "I nearly died" you can be sure its Helen!

Bremner

The annual meeting of the Bremner - Clover Bar Twp by Two club was held at the home of Mr. and Mrs. G. Kropp.

The following officers were elected for 1945:

President, Mr. Donald Hutton; Vice President, Mr. Gordon Kropp; Secretary-Treasurer, Mrs. G. Marier; Flower Fund, Mrs. L. Schroter and Mrs. D. Hutton, Caterers, Mrs. A. Laine and Mrs. F. Bourne.

Business was discussed and some reports made.

A theatre party was planned, to take place in two weeks.

The membership dues were received with ten paid up couples.

One hour of cards and singing followed by a hearty lunch brought the evening to a close.

British wheat producers will receive a minimum price of $2.40 a bushel not for their 1945 wheat production, in addition they will receive a bonus of $15 an acre for the first 10 acres seeded to wheat.

Fort Couple Wed Fifty Years

Mr. and Mrs. Adolphus Lamoureux, who observed their 50th Wedding Anniversary recently. They are well-known residents of this district, also in the Malmig district where they farmed for 37 years.

Gala Reception for Couple On Occasion of Golden Wedding

Approximately 800 persons attended the reception and dance held in the Community Hall Friday evening to honor Mr. and Mrs. Adolphus Lamoureux, on their 50th Wedding Anniversary.

As the couple entered the hall they were met by Jean Burke and Arthur Rouque. Mrs. Lamoureux was presented with a bouquet of flowers and Mr. Lamoureux a flower for his buttonhole. The couple then walked up the aisle made by these present and congratulations were showered upon them.

Rev. Father C. Seward gave the address of welcome and wished them many more years of happiness. Mayor Magee and Mr. Rod McDougall gave short addresses. Mr. J. D. McLean, on behalf of Mr. and Mrs. Lamoureux, thanked the people for their splendid turnout for the reception accorded the couple, for their generous gifts and everyone's wish that the couple have many more happy years of married life. Mr. Lamoureux then, on behalf of his wife and himself thanked those present for their thoughtfulness and well-wishes. He said the reception they had received would remain with them always.

The Agricultural Service Board of the M.D. of Strathcona in co-operation with the Extension Service of the Department of Agriculture held a successful meeting in the new Community Hall last Tuesday evening, January 30th. With Mr. Stetson in charge, various slides were shown depicting the serious damage done by soil erosion, others showed the loss in crops due to weeds, while still other slides showed the machinery used to combat the said weeds. Next several pictures were thrown on the screen showing the charming results of careful planting of windbreaks, shrubs and flower beds.

Mr. Whitbread, District Agricultural, succeeded Mr. Stetson and gave on an interesting and informative address on a variety of topics, all showing the beneficial work being done by the Agricultural Service Board in co-operation with the Department of Agriculture.

The meeting was then thrown open to questions and general discussion, a privilege which several farmers of the district readily took advantage. A hearty vote of thanks to Messrs. Stetson and Whitbread brought the meeting to a close.

* * *

Happy news from Castlegar, B.C.! Mr. and Mrs. Dunn (Faith, so she is generally known at Beech Cooking Lake) have one her daughter. The happy arrival of this young person has wide-spreading results, for her coming has given Mr. and Mrs. Huddleston another granddaughter; Mrs. Ugiow another great - granddaughter; and Miss Amy Ugiow, Henry and Arthur another niece. What happy complications! Small young lady one being about! They begin early, don't they boys!

* * *

Owing to the prevalence of flu, (a very unwelcome visitor) and also to the sudden, untimely upcring of a brief, but bitter snowstorm and with driving snow, our first whist drive to raise funds for the purchase of a much-needed radio-phonograph for Franklin School was not held last Saturday. However this popular party will be held at a later date to be announced shortly. The radio fund now stands at $17, made up of $15 remaining from the Christmas party, plus $2 contributed on Saturday by friends of the school.

Council Meeting Held January 26

The regular monthly meeting of the Town Council of Fort Saskatchewan was held in the Town Hall on the evening of January 26, 1945, with the following members present: Mayor Magee, Councillors Lowe, Dancsok, Walker and Dr. Johnstone.

Messrs. Reeque and K. Thomas were present and kindly outlined to the Council some Fire fighting equipment they had, and would be willing to sell this equipment to the Town, also to exchange all the used hose the Town possessed for new hose at a rate of two used lengths for one new length. The matter was left over until further on in the meeting and then Mr. Reeque would be advised the first thing the following morning the decision of the Council.

The Council authorized the Mayor and Secretary General to grant a permanent warrant to Constable Thomas to search any cars or vehicle in Alberta for liquor.

The following correspondence was then dealt with:—Request of St. George's Parish Church to have their land that is at present in the name of the Town transferred to them, as all back taxes had been paid on this property, was granted.

The request of P. Bilodeau to have his business tax of $5.00 for 1947 cancelled owing to other people selling wood without paying this business tax was not granted as counsel could not do this as a Bylaw had been passed levying a business Tax for the year.

The secretary was instructed to acknowledge the letter from the Department of Health of $180.00, informing them that their request would be brought up at the first meeting of the new council this year.

The offer of W. Siegers to purchase the house and lots 9-10-11-12 in Block 21 Plan O for $125.00 was accepted with the provision that Mr. Siegers deposit the sum of $25.00 in addition to the purchase price. This money to be refunded after the buildings have been removed and the lot cleaned up.

The secretary was instructed to send a letter to the Department of Trade and Industry advising them that the Council had no objection to a Mr. Norman Lindquist in Bayond Wallis to operate a retail lumber business and planing mill in town.

Ypres Valley Church Hold Annual Meeting

The Annual Meeting of Ypres Valley United Church was held at the home of Mr. and Mrs. Carl Dietrich on Tuesday evening, January 30th. Financial reports of the Ladies' Aid and the Board of Stewards were encouraging, but there was considerable discussion over Rev. W. D. Boos's report of discouraging attendance at the Sunday services. It was finally decided that unless the average attendance improved by Easter, the services in Ypres Valley would then be definitely cancelled. Milton Noyer resigned from the Board of Stewards in view of his connection with the new Good Hope United Church. Mrs. Fred Davies was re-elected to the Board, which now acted to reelect its work through 1946 whether or not the regular services continue. The Ladies' Aid voted a special sum to enable the congregation to meet its full quota of the Missionary and Maintenance Fund, and the meeting voiced appreciation of their efforts in all directions.

The services are on the 1st, 3rd and 5th Sundays of the month at 2:30 p.m. in Ypres Valley School. Let's turn out, friends, and see if we can't keep them.

* * *

Tanks on tractors and gas engines should be kept full of fuel in cold weather, Air will condense and create moisture in an empty tank

THANK YOU

Mr. and Mrs. Adolphus Lamoureux wish to take this opportunity of expressing their sincere thanks to all, for the messages of congratulation and gifts presented to them on the occasion of their 50th Wedding Anniversary.

AGRICULTURAL SERVICE BOARD

Notice of Meetings

The Extension Service of the Department of Agriculture in co-operation with the Agricultural Service Board of the Municipal District of Strathcona, will hold meetings during the coming week at

WIMBLEDON SCHOOL, TUESDAY, FEB. 3rd

COLCHESTER SCHOOL, FRIDAY, FEB. 6th

at 8:30 p.m.

Pictures in color will be shown by M. L. Stetson, illustrating some of the work carried on by the Service Board during the past year. Soil fertility and crop rotation will be dealt with by R. J. Whitbread, District Agriculturist.

EVERYBODY WELCOME

The average farm in Western Canada is 400 acres in size—114 of these being under cultivation. It has 5 horses, 14 head of cattle, 7 pigs, 1 sheep and 100 head of poultry. Between 1940 and 1946 the average wheat farm increased in size by 31 acres.

In Western Canada 52 per cent of all farms own one or more tractors, 39 per cent own one or more trucks, and 14 per cent have combines.

◆ Recipes for Milady ◆

APPLE CRUMB PUDDING

2 cups apples
1 tablespoon sugar
Dash of salt
½ cup fine bread or cracker crumbs
½ teaspoon spice (cinnamon or nutmeg) or dash of cloves
1 egg white
2 medium apples
2 tablespoons sugar

Beat egg yolks, add the 4 tablespoons sugar and salt, beat. Add crumbs and spice then fold into stiffly beaten egg whites. Peel, core and slice apples; place in baking dish. Sprinkle with remaining 2 tablespoons sugar and top with egg mixture. Bake in a moderately slow oven 325 degrees F., for 25 minutes or until apples are tender and top is delicately browned. Six servings.

BAKED APPLES SUPREME

2 large apples (preferably red)
1 tsp sugar
1 cup water
3 tablespoons mincemeat or jam

Wash apples and cut in half crosswise; scoop out core, being careful not to break the skin. Boil sugar and water 5 minutes. Arrange apples in shallow baking dish. Fill centre of each with mincemeat or jam, and pour syrup over all. Cover and bake in moderate oven 350 degrees F., until tender, about 25 minutes. Remove apples to serving dishes, and boil syrup till slightly thickened. Pour over apples and chill. Six servings.

APPLE CHIFFON PIE

1 tablespoon gelatine
Few grains cooking (optional)
1 ½ cup brown sugar
1 teaspoon vanilla
Separate the eggs, beat yolks and add cereal, apple sauce, spices, sugar and vanilla; beat thoroughly. Fold in the stiffly beaten egg whites. Pour into a greased baking dish, set in a pan of hot water and bake custard in a moderate oven, (350 degrees F., until set, about 35 minutes. Six servings.

FARINA APPLE SAUCE PUDDING

2 cups
2 cups cooked farina
1 cup cooked apple sauce, unsweetened

MUNICIPAL DISTRICT OF STRATHCONA No. 83

NOTICE OF PREPARATION OF ASSESSMENT ROLL 1948

Notice is hereby given that the assessment of the previous year has been adopted under the provisions of The Assessment Act, and that the assessment roll of the said municipality has been duly prepared, and that if any person thinks that any property has been improperly, or unreasonably assessed, or too high, or too low, or that his name or the name of any other person has been wrongfully entered upon or omitted from the roll he may at any time prior to the 31st day of January, notify the secretary-treasurer in writing of the particulars and grounds of his complaint.

H. ROBERTS,
Secretary-Treasurer.

From now on, month by month

YOUR WAR SAVINGS CERTIFICATES

can be cashed!

THE payoff on War Savings Certificates has begun. If you are among the thrifty people who own War Savings Certificates, NOW is the time to look them over, sort them out by months and as they fall due, endorse them and mail to Ottawa as described on the back of each Certificate. A cheque for the full face value of each Certificate will be sent to you in due course.

But here is another suggestion...

Have the Royal Bank of Canada do all this "office work" and sorting for you. Save yourself the bother of searching out the right pieces of paper each month, endorsing them and mailing them off to Ottawa.

Here's what you do: Bring all your War Savings Certificates which you have at home or in your safe deposit box, to your nearest Royal Bank. We will put them in our vaults for safekeeping.

As the Certificates fall due, we will cash them for you and deposit the full face value (which includes interest) to the savings account of the registered owner, automatically. If you have no account with us, we will open one for you for this purpose.

The cost of this service, including safekeeping until your Certificates mature, is low, as the following table shows:

SAFEKEEPING CHARGES FOR WAR SAVINGS CERTIFICATES, INCLUDING AUTOMATIC REDEMPTION UPON DUE-DATE

For each $50 Certificate	75¢
" " $100 "	$1.00
" " $200 "	$1.50
" " $500 "	$2.00
" " $1000 "	$3.00

• If your Certificates are already lodged with us for safekeeping, we will arrange for their automatic redemption, as described above, at a nominal charge of ½ per Certificate, regardless of the face value.

TAKE ADVANTAGE OF THIS LABOUR-SAVING SERVICE. IT IS AVAILABLE TO YOU AT ANY BRANCH OF THE ROYAL BANK OF CANADA

THE ROYAL BANK OF CANADA

FORT SASKATCHEWAN BRANCH — — — D. MACKIE, Manager

'Our Children'

"Sherry now Peter or you'll be late again," said Mrs. Robarts.

Well why not be late thought Peter, I don't want to go to school anyway. Even when I'm early it doesn't do any good. First comes arithmetic and then comes history and I can't see what use they are to me. That little Bobby who sits ahead of me is dumb when I've only half the work and he gets 100 nearly every day. At recess it's not so bad playing ball, even if they do put me out in the field and I don't get up to bat so often. But after recess comes spelling. Even when I have studied those words real hard the night before, I just never get them all right. Teacher says I'm lazy and if I don't do better my little sister Elsie will catch up to me. Now, even Dad and Mother think I'm not trying and they could see me. No matter what I do it's always wrong and someone gets after me. I'll just have to show them I don't care.

The Roberts are an average family living in a comfortable home. Peter has always been healthy, though he was clever at writing and talking than the other children. He is eleven now and in grade four for the second year, for he has been given no particular behaviour trouble but danger signs are appearing. Peter is the type that will show people he just won't take useless scoldings and like it.

What do you think is the cause of Peter's perplexity? What steps could be taken to help Peter? Please send your reply to:

Dr. H. Siemens, Edmonton Rural Health Unit, Qu'Appelle Building, Edmonton, Alberta.

FARM OWNERSHIP IN U.S.A.

Of the 5,000,000 farms in the U.S. 70 per cent are owned by the owners, according to a recent release by the U.S. department of agriculture. This is the highest percentage since 1890. The peak in the intervening years was in 1930 when the percentage was 61.4.

The good prices for agricultural products prevailing in the U.S. in recent years, have been responsible for the increased farm ownership.

Timely Farm Notes

By R. J. Whitbread, District Agriculturist

Fire Stockman M.D., "Have the Soil Conservation" extended, were guests at the annual banquet of the Edmonton Chamber of Commerce on Tuesday, January 20th. Five of these received cash awards based upon the scoring of their farms in August, 1947, by judges from the Alberta Department of Agriculture.

A short resume of the contest was given by the chairman prior to the presentation of the prizes. It was pointed out that the results were from farmers who had the value of forage crops in the control of weeds, soil erosion and maintenance of fertility.

The awards were given to the contestants who have adopted such good farming methods as are conducive to this end.

E. Keith, Reeve, presented the Municipal prize of $50.00 to E. Bappel, his being the farm selected for possibility of greatest improvement under the proposed plan for bringing this about.

J. J. Dugmore, Chairman of the Agricultural Section, Edmonton, Chamber of Commerce is President of the "Save the Soil Campaign" committee. R. J. Whitbread, District Agriculturist is Secretary. The Agricultural Field Supervisors of the municipalities concerned are members of this committee together with the provincial supervisors of Soil Conservation and Agricultural Service Boards.

A full report of the campaign activities in 1947 will be given at the Edmonton Agricultural Short Course to be held February 24, 25 and 26.

The contest will continue again in 1948 when there will be similar prizes awarded for the first four entrants.

The contestants of 1947 will be interviewed with respect to the carrying on of a permanent planned cropping system on their farms for a period of shorter than five years. This will be under the

EXTRA MONEY FOR FARMERS

The announcement that initial wheat payments are to be boosted from the present price of $1.55 a bushel to at least $1.65 a bushel is welcome news to Western farmers. Based on the 30 cent increase, the amount to be distributed to the 230,000 prairie farmers will be $230,000,000 or an average of $1,000.

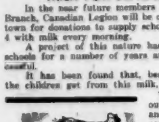
Many farmers will, not doubt, receive considerably more than $1,000. With this extra money coming they will be able to carry out at least some of the improvements on their farms that they have longed to do. Others will use the money to buy more modern equipment that will help to lighten their tasks.

MILK FOR SCHOOL CHILDREN

In the near future members of the Fort Saskatchewan Branch, Canadian Legion will be canvassing residents of the town for donations to supply school children in Grades 1 to 4 with milk every morning.

A project of this nature has been carried out in city schools for a number of years and has proved highly successful.

It has been found that, besides the nutritious value the children get from this milk, it also acts as a pick-up



Give your car a BREAK
Today's high compression automobile engine generates terrific cylinder heat. World of Wheat

By R. G. L. STRASSER
Director "The Crop Testing Plan"

HIGH PRICES AND INFLATION

There is much talk about the high price of food. To appease the public the government has placed ceilings on butter and meats. This will please the housewife. It is to be remembered, however, that the ceiling prices are lower than the market and considerably lower than the U.S.A. market. All this means, therefore, that the Canadian farmer, besides providing the people with cheap wheat to make cheap bread, is also providing them with cheaper butter and meats than the market would register. We do not, however, hear of any efforts being made by the government to put a ceiling on the prices of things that farmers have to buy. Some think these ceiling prices will help to control inflation.

High prices are not the cause, but only the effect of inflation, for inflation merely means there is more money in the hands of people that there are goods to buy; a greater demand than supply. Inflation can best be cured by production—not deflation, but keeping down the prices of products tends to curtail production and not to increase it. Many authorities think that the best way to cure inflation is to let prices go where they would increase production and decrease demand, and so naturally cures the inflation and brings lower prices.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

The United States Department of Agriculture has estimated flax seed production in California, Texas and Arizona at 304,000 acres, a 66 per cent increase over last year's plantings, and some 125,000 acres above the government's 1948 goal of 270,000 acres.

The United Kingdom's wheat acreage goal for 1948 is set at 2,500,000 acres compared with 2,163,000 acres in 1947 and the 1944 wartime peak of 3,220,000 acres.

Argentina's 1947-48 wheat crop is now estimated at above 250 million bushels by the private trade, and is expected to be the best crop since pre-war years.

Rumania's winter wheat acreage on December 15 was placed at 6,450,000 acres, compared with the pre-war average of 8,900,000 acres from a much larger territory.

WRITING CONTEST

Details have been announced of the Creative Writing Competition for Alberta Schools for 1947-48.

This competition is sponsored jointly by the University of Alberta's Banff School of Fine Arts and the Provincial Chapter of the Imperial Order Daughters of the Empire, in co-operation with the Department of Extension of the University of Alberta and the Banff School of Fine Arts Writers' Conference.

Prizes to the total value of $435 are offered, for entries which include school Year Books, and individual entries of poetry, short stories and Alberta background essays. All entries are graded according to the age of the competitors.

For the first time this year two of the prizes will consist of scholarships, to the value of $100 each, tenable at the 1948 session of the Banff School of Fine Arts Writers' Conference.

Wye

We are sorry to hear Miss Doris Webb is in the Isolation hospital with scarlet fever. We wish you a quick recovery to normal health Doris.

Miss Agnes McIntyre is visiting with Mr. and Mrs. Walter Kraemer and family.

Mrs. Howard Webb is visiting her daughter in San Diego, California.

Mrs. McCormick is spending a few days with her daughter, Mrs. Sid Jones and family.

The Ladies' Meeting was held January 14 at the home of Mrs. Gardiner. Six members were present and three new members, Mrs. J. McIntyre, Mrs. Partington and Mrs. L. McGhan, joined the club. The annual box of clothing, etc., will be taken to the Red Cross to be distributed to the needy.

The afternoon was brought to a close by a delicious lunch served by the hostess.

Whitemud

The Whitemud Maple Leafs were proud winners when they defeated Sprucedale 4-3 in a recent hockey game. Martin Krupa did a splendid job in goal, only letting in three many shots on goal on by. Goals were scored for the Maple Leafs by Lawrence Krupa, Ronnie Bienert and Art Schlowe.

Mr. and Mrs. Mike Krupa have returned home from their trip to the West Coast.

Mrs. W. A. Crewe and Lois spent Sunday visiting friends and relatives in New Norway.

Mrs. P. De Smet is visiting at the home of her parents, Mr. and Mrs. F. Bienert.

We saw—Raymond referreeing a good hockey game—Stan taking his usual walk across the creek—A group of girls cheering on the home team at a hockey game—Ivy taking her usual walk to town.

HOW TO PREVENT FIRES

Most fire losses occurring, arise from causes easily preventable. You can reduce your probability of loss by attention to the following simple precautions . . .

1. Provide metal containers for hot ashes and prohibit the use of wooden receptacles.
2. Keep cellars, closets and stairways free from loose wrapping paper or other highly combustible material.
3. Equip your property so that it is easy to turn off current when leaving electric irons and other heating appliances, even for a short time.
4. Use only good standard fuses and never permit the substitution of coins or wires for blown fuses.
5. Examine metal flues periodically and see that they are removed before they are badly weakened by internal rust or otherwise.
6. See that accumulations of soot are removed from your chimneys at least once in each year, preferably before lighting fires in the fall.
7. Make sure that gasoline and other inflammable fluids are kept out of rooms where there are open fires or flames of any kind.
8. Keep open lights (candles, gas) and portable electric heaters away from curtains or other inflammable material which may come in contact with them.
9. Keep your supply of matches in a closed metal receptacle and out of reach of the children.

EVERYBODY'S BUSINESS

by Don Graham

Curiosity may have killed the cat, but it has led many men to do great things.

Because Dr. Lister wondered why so many patients died after operations, he discovered that germs cause infection, and developed modern surgical practice. For our modern lighting we can thank Edison's curiosity about electricity. Again, curiosity about what and how people buy, led Woolworth to develop a new kind of store which grew into a multi-million dollar chain.

May you make some personable discoveries by asking yourself (and others) questions about everything from messages to market trends. Knowledge is Power. The more you learn, provided you have the ability to use such knowledge, increases your value to your employer and may start you on a new and exciting career.

And don't forget to be curious about people, too. A study of their tastes, wants, behaviour and motivations can be equally rewarding.

Are you curious about what happens to life insurance dollars? Savings effected by Canadians through their life insurance premiums provide funds for investments in a wide variety of public enterprises, such as new schools, highways, power plants, harbours, homes and farms.

w37

URGE SUSPENSION OF TAX

Collection by the Alberta government of the $1.00 fee imposed last year on all licensed motorists for the purpose of building up an accident indemnity fund should be suspended, in the opinion of officials of the Alberta Motor Association.

The fund is estimated to now amount to around $100,000 while payments this year for the purpose of compensating persons injured in motor accidents have been negligible.

In Manitoba, the provincial authorities have decided that payment of a $1.00 fee into the fund should be temporarily suspended, owing to the large amount in the reserve and the small number of claims.

A.M.A. officials feel that action by the provincial authorities in Alberta would be fully justified, in view of the similar situation here.

It is expected that representations will be made to the provincial government prior to the opening of the regular session of the legislature on February 12.

Some time ago it was ridiculed that new sanitary legislation dealing with the accident indemnity be passed at the 1947 session will be introduced.

SIT-DOWN JOBS FOR HOUSEWIVES AT WORK

Why do so many women stand at their work? Standing takes 14 per cent more energy than sitting, Mrs. Macdonald, Supervisor of the Home Economics Services, suggests sitting for all the lengthy jobs in one place—jobs such as ironing, polishing, preparing vegetables and fruits, hand mixing cakes, biscuit, etc.

She says that women usually and because so many kitchens and laundries are not arranged for convenient sitting. Too often the only seat is a high stool where the worker must perch precariously, with feet dangling. There is no back support and the worker must bend uncomfortably over her work.

Mrs. Macdonald suggests that a convenient sit-down arrangement for a small kitchen is a pull-out board under the regular working counter at a level of 28 to 30½ inches from the floor, to use with a straight chair of ordinary height. In larger kitchens a short work counter may be built at this lower height with space underneath for chair and feet. Many housewives continue to stand long hours to do their ironing because they think it makes their dresses fresher and to save only if the board is the wrong height for sitting. A built-in adjustable ironing board which can be lowered sitting height is ideal. Then, if the roll of sprinkled clothes is placed within easy reach of the hand and a rack for finished clothes within reach of the other, ironing can be done just as fast when sitting as when standing with much saving of energy.

For plans and directions for building the Labor-saving Adjustable Ironing Board and for other suggestions for time and labor savers when doing housework, write to the Home Economics Service, Alberta Department of Agriculture, Parliament Buildings, Edmonton.

Funeral Services for Arthur Harvey, Jan. 19th

Funeral services for Arthur Harvey of Andrewsan, who passed away January 16th, aged 59 years, were held on Monday afternoon at 2 o'clock at Howard and McBride's Chapel. Rev. T. B. Davies officiating and interment took place in the Soldier's Plot in the...Edmonton Cemetery. The pallbearers were: W. Scott, J. Fulton, J. Bailey, S. Kinch, K. Horton and H. Webb.

He is survived by his wife; one son Gourlay and one daughter Jean Belle of Andrewsan.

Many beautiful floral tributes were received from: Loving Wife and children; Mrs. Minnie Gourlay and Clara, Carl and Josie, Lee and Jessie; Rose and Frank, Pat and Jim, Kathleen and Bert Watts, Hanlon and No3, The Olsons and Bentzes; Roger and Dorothy Parker; Mrs. Young Women's Club; Betty, Chris and Allan; Mr. and Mrs. Storms and Lorne; Mr. and Mrs. K. Old-Timer, Mrs. T Mohr Passes Away January 18

Mrs. Theresa Mohr, beloved wife of Mr. Nicholas Mohr of Fort Saskatchewan, passed away in the Lamont hospital on January 18 at the age of 73 years.

She is survived by her husband and four children; two sons, Mr. Gustav Weber of Edmonton and Mr. Adolf Weber of Fort Saskatchewan, two daughters, Mrs. Martin Kropp of Rosenberg and Mrs. Bill Vanstone of Calgary.

The funeral service was held in the Josephburg Reformed Church, Rev. J. Krieger officiated.

The pallbearers were Messrs. Werner Weber, Irwin Mohr, Wilfred Brotchie, Walter Brotchie, Richard Mohr and Bernard Mohr.

Beautiful floral tributes were received from: Loving Husband, Rosie and Martin and family; Gustav and Emma and family; Adolf and Natalie and family; Elizabeth and Bill and family; George and Christine and family; Marie and Carl and family; Emily and Pete and family; Katie, Eva and boys; Roland and Joan; Mrs. Mens; Wife and Helena; Margaret, Marion and Marvin; George and Annie and family; Rosamond and Hannah; Albert and Eleanore; David and Eleanore; Leopold and Emma and Mr. and Mrs. S. Hennig.

Results Show Graded Schools Best

GRADE IX INSTRUCTION

Of the 254 pupils, who were enrolled in Grade IX in schools in the Josephburg, 222 wrote on the Departmental Examination for this grade with the following results:

H	3	2 per cent
A	53	23 per cent
B	91	39 per cent
C	51	22 per cent
D	24	15 per cent

Approximately one-third of the Grade IX students in the Division are enrolled in school divisions, which comprise ungraded and graded rural schools and some town and village schools, while two-thirds attend in the cities, towns and villages without the school divisions. The distribution for the latter group, graded schools almost exclusively, in the same examination places 5 per cent with an H rating and only 8 per cent with a D rating, that is, failure in the examination. These comparative figures substantiate in a large measure a growing impression that the one room school failure having pupils in all nine grades places students under a handicap and offers meagre facilities and too restricted instruction time to the pupils, who still have to pursue it.

x x x

HIGH SCHOOL INSTRUCTION

High school work is not offered in any of the one room ungraded schools of the Division. Grade X is taught in the two and three room schools and during the examination year 1947-48, fourteen of these centres are giving instruction in the grade. For Grades XI and XII, the great majority of these students attend at the three centres within the Division, namely, Fort Saskatchewan, Lodge and Calmar, with the members living at a distance from these three points transported to and from school daily by school vans. A van also brings twenty students to an Edmonton high school for guidance in Grades XI and XII. In addition to the above, a few students, scattered throughout the Division make independent arrangements to attend outside high schools and the fee up to a maximum of $50 a year is absorbed by the Division.

In the Departmental Examinations of June, Ardrossan Grade XII students wrote on 336 question papers on eight different subjects. On 195 of these papers, the required pass mark was fully or better.

"PIONEER" ANNOUNCES DISTRIBUTION OF FORTUITOUS PROFIT ON OATS AND BARLEY SOLD UNDER PRICE CEILINGS
All customers of 'Pioneer' Elevators are requested to call at their elevator and receive a cheque covering an additional payment on oats and barley delivered during the current crop season, between August 1st and October 21st, 1947, when price ceilings were in effect.
This payment is an interim distribution of the fortuitous profit made by the Company on oats and barley which it had on hand, and unsold, when price ceilings were removed on October 21st.
This payment is 12 cents on oats and 10 cents on barley.
Final payment will be made at a later date.
IT PAYS TO PULL TO THE 'PIONEER'
The government has also promised to make some adjustment to farmers on oats and barley delivered at ceiling prices between August 1st and October 21st, 1947. We trust they will take definite action to implement this promise in the near future.

HOMELY ITEMS AROUND THE COUNTRY

At Meifort, Sask., they have a beef curling rink, made up of Bill Moore, 200 lbs.; Tom McGrath, 240; Stan Bryant, 240 and Ray Moore, 220 . . . At Admiral, Sask., Art Williams couldn't understand why his cow was drying up, until he approbended two of his pups "milking" her . . . The Carleton Place Canadian has an obituary for Toddy, a little cocker spaniel, who had the enviable record of having contracted over a 1,000 golf balls during its three years of life . . . Records at Brooks, Alta., at Ole Eidenbach's farm auction: grass oats, $12,000; a tractor bought for $1300, new, brought $3000; a milch cow brought $250, no old mares sprender, $200 . . . The Calgary Herald morbidly editorializes that under the present income tax system in Canada it doesn't pay to be work hard; it doesn't pay to be intelligent and it doesn't pay to be productive . . . which cannot be remedied (evasion) by putting people in jail . . . Donald Kaplan of Bienfait, Sask., found a pheasant on top of the snow on the prairie, put it in the back seat of his car, came to town . . . on arrival found it had eaten three holes in the upholstery, disappeared.

x x x

Coming to bat for private initiative in this ill 'nd world is The Printed Word, puts it this way:

"When, four years ago, 47 per cent of the Canadian people answered in a Gallup poll that they preferred private enterprise to Government control, and 37 per cent were undecided, while only 16 per cent voted the other way, it looked as though this country were quite seriously taking up the Socialist idea of Government ownership of all enterprises. A few weeks ago a number poll on the same subject showed 65 per cent for private enterprise and only 22 per cent against it.

"The principle of fully informing the people concerning important departures from established practice in the conduct of civic administration is sound, and a safe one to follow, claims the Huntsville, Ont., Forester. "If new principles are to be introduced, radically affecting his personal interests, he becomes a convert to its merits only through a full discussion of its purposes, and he wants the right to reject it, its appeal is unconvincing."

The Hanover, Ont., Post, gives some sound advice, thusly:

"Some of us have been so eager in our fight for democracy that we have been ready to still every adverse voice forgetting that nothing lives in a vacuum. No cause that cannot be defended is worth defending . . . We have sometimes been so conscious of the rights of labor that we overlooked the one big right of labor to produce the actual. And that is that these rights must come from those who produce. The chief right of labor and that the quality of that effort, and of the integrity and the responsibility towards it, alone make those rights secure."

Timely Farm Notes

Continued From Page Two

Field Crops Branch of the Alberta Department of Agriculture, Included in the list are varieties of wheat, oats, barley and flax recommended for each of the four soil zones of the province. A brief description of the qualities of the recommended varieties is given, including comparative yields, disease resistance, maturing ability, and general characteristics.

The information prepared in leaflet form, will not only prove valuable to those considering a change of seed during the present year, but will also serve as a guide to all interested in the profitable crop production. The circular, "Field Crop Varieties for Alberta" can be obtained without charge from District Agriculturist or from the Field Crops Branch of the Alberta Department of Agriculture, Edmonton.

x x x

PROVINCIAL CREAM COMPETITION

Prizes provided by the United Grain Growers Ltd., and the Alberta Dairymen's Association (Producers Section) will be awarded to winners in the Provincial Cream Competition to be held previous to the Annual Dairy Convention.

Entries for this competition must arrive in Edmonton by 9:00 a.m., Wednesday, January 29. Shipments that arrive a day or so early will be placed in cold storage until judging commences.

This competition will be open to all cream shippers in Alberta and provides an excellent opportunity to show ability in production of a sweet, clean, high quality product. Competitors may submit either a 5 gallon or 2 gallon can of cream with a minimum of 20 pounds. Full particulars of the competition together with details of shipment and method of scoring can be had from local cream'eries.

As in previous years, general and sectional meetings will be held and a special programme is again being arranged for the lady visitors. One member from each of the 23 Dairy Calf Clubs has been invited to attend as guest of the Association.

Since accommodation at the time of the convention is likely to be limited, those planning to attend are advised to make reservations early. The chairman of the accommodation committee is A. T. Potter, Northern Alberta Dairy Pool, Edmonton.

CATTLE GRUBS

Cattle Grubs that hatched from eggs laid by the flies during last summer are now causing lack of thrift in many Alberta herds. Cattle grub infestation means a waste of feed, reduced milk production and damaged hides. Although nothing can be done to relieve the situation now, much can be done to prevent a recurrence.

Every grub that is allowed to leave its host and develop into a heel fly is a potential threat to economical production. Within a few weeks the grubs will appear in lumps on the backs of the cattle. Soon after, they will open breathing holes in the lumps and remain there for a short time before escaping. Only during this short period can a successful attack be made against them.

A simple treatment with a derris powder preparation will destroy the grubs and help to provide warble free pastures in 1948. Discuss control measures with your District Agriculturist and be ready for action when the time arrives.

RECREATION'S RELEASE

Anything which brings stimulating, pleasurable relaxation is recreation. One man's work may be another's play—it's a matter of tastes and aptitudes.

Health authorities say that recreation may be closely related, and make particular contribution, to our daily labor, so long as it is pursued as a personal interest and not merely as a continuation of work, in other words, don't work at play. Relax, with pleasurable pastimes, for real benefit.

IT PAYS TO ADVERTISE IN THE FORT RECORD

BOOKER DOUBLE BURNER
The new improved patented BOOKER DOUBLE BURNER is the most modern, scientific extractor of heat units from coal on the market. This all cast, soft coal, self-feeder is designed to burn the cheapest of Western Coals . . . IT BURNS THE GAS . . . . giving:—
Intensified Heat
Positive Combustion
Less Ash
Rigid Economy
Instant Control
Abundant Circulation
34-ins. H, 18-ins. W, 17-ins. D
Nothing to compare with it in value and efficiency . . . . Superiority in every respect over all others.

Radiograms
CFCA's News Bureau slogan is "First with the news." Even this far-reaching slogan takes a back seat in relation to the "firsts" rapidly being accumulated by the producers of "The ALC Show."
Some of their past accomplishments have been amazing. They have been recognized by Variety as their "Honorable Mention" list last year. But a recent accomplishment tops them all. ALC's vast radio following had the thrill of hearing a Federal Minister featured on their program.
Rt. Honorable James G. Gardiner, Federal Minister of Agriculture was coming to Alberta to attend a series of conferences and meetings. Alert to the opportunity, Miss L. H. O'Neill, Publicity Director of the Alberta Livestock Co-operative Ltd., and producer of the ALC Show, made a very pointed request, to wit: "Alberta's farm population must have immediate answer to following four questions on the American Market Situation. An inviting you to reply to Alberta producers on ALC Show—Lethbridge, Calgary, Edmonton and Grande Prairie, Tuesday, January 28."

Mr. Gardiner consented. His talk was recorded at Lethbridge and carried on the regular ALC Show on all four stations.
Comments were soon rolling in from farmers, packers, government officials, commission men, broadcasters, syndicated officials and housewives. All comments carried the following thought—"We now have a better understanding of what opening the American market involves."
We doubt if any sponsored program in Canada has ever had the privilege of featuring a Rt. Honorable Minister of the times.

JUICE FOR JUVENILES

To resist infection during the cold, dark days of winter, children need the vitamins in cod liver oil and orange juice every day. No matter how healthy the children may appear now, they will not continue to do well unless they get these vitamins.

Cod liver oil is rich in vitamins A and D, and helps children resist colds and other ills. It helps to form bones and teeth. Orange juice, too, contributes to all-round health and vitality.

When in Edmonton . . . SHOP AT

10063 103 St., Just South of Jasper — Phone 26090

THIS IS AN EMERGENCY
. . . let's treat it as such!
CANADA is heavily "in the red" in present trading with the U.S. dollar area. In our total trade with the world we are in a good position but not in that part which is done with U.S. dollar countries. Other countries with whom we do business cannot pay us in full, either in cash or in goods, for the things they buy from us.
This situation is made more serious than ever before because so many countries, our regular customers, have not recovered from the war. It may be some time yet before they get on their feet sufficiently to help put things right. Meantime, we must find ways and means of balancing our own books and reducing our U.S. dollar deficit.
There are two things we can do at the moment . . . cut down unnecessary purchases from the U.S. dollar area and increase our production of goods that can be sold to those countries to balance accounts. It's an emergency and should be treated as such.
TO KEEP OUR INDUSTRIES HUMMING . . . OUR LIVING STANDARD HIGH, WE NEED PETROLEUM, COAL, COTTON, STEEL AND SIMILAR ESSENTIAL THINGS

WE CAN PAY FOR THESE THINGS IF WE CURTAIL OUR SPENDING ON IMPORTED NON-ESSENTIALS OR TRIMMINGS . . . AT LEAST FOR AWHILE
YOU AS A CANADIAN CAN HELP
1. Do not order goods by mail from other countries . . . do not buy goods to bring home when you travel outside Canada. See also Item 2.
2. If you find goods you purchase is absolutely necessary, Collector of Customs and Excise beforehand, to learn whether the item is prohibited.
3. Look for alternatives or substitutes for the items which are temporarily prohibited.
4. If certain goods seem to be in short supply, do not overlook the possibility that it is seasonal, or merely a local condition, or perhaps brought about by entirely temporary factors.
5. Be sure to obtain the Tariff Item Number from your Collector of Customs and Excise before pursuing any inquiry. Quote this number in all correspondence.
6. IF WE TACKLE THIS PROBLEM IN THE SAME SPIRIT OF CO-OPERATION DEMONSTRATED DURING THE WAR YEARS IT CAN BE SOLVED WITH LONG-TERM BENEFIT TO EVERY CANADIAN.

POINTING THE PATH

Good physique, good health, good habits of eating, sleeping and exercise, admittedly favor attainment of a pleasing personality. On the other hand habitual violation of the laws of moderation with respect to work, food, rest and recreation contributes to worry, inefficiency and ill-health.

Appreciating these facts, Canada's Health authorities, as a public service, are using all media of information to point paths to healthful, happy living.

Alberta contains 10 per cent of the cultivated land of Canada and 20 per cent of the cultivated land of the western provinces, including Manitoba, Saskatchewan and British Columbia.

Canadian Built Ships Carry World Trade

Canadian shipyards are making a substantial contribution to the restoration of world trade and the industrial development of this country. Some forty vessels were completed during the last year, and the value of foreign sales in the first eleven months was $18,000,000. Total deliveries consisted of fourteen cargo vessels, three passenger and car ferries, two passenger vessels, two colliers, one tanker, one tug, three trawlers and fourteen barges. In addition, there are fourteen vessels presently under construction for Canadian and foreign firms.

This is a far cry from prewar years, when Canadian shipyards employed only about 3,500 men, who did little more than repair work. During the war, Canadian shipyards employed 58,000. This number has levelled off to 16,000 but it is four times the 1939 total. The Canadian shipping industry is trying to maintain this high level of construction and its efforts during and since the war have helped to place Canada fifth among the world's shipping nations.

Ardrossan

The Annual Meeting of the Ardrossan Community League was held in the old hall on Wednesday evening. A good crowd turned out and a lively meeting ensued. Reports were made by the various committees on last year's activities. The skating rink is holding its own financially with scores of much activity for the young people. The Treasurer's report showed a total of $1,425.00 on hand at the beginning of this being in the building fund.

The building committee have purchased enough lumber, cement, nails, etc. to complete the walls and about the walls of the proposed new hall. This met with the approval of the meeting who were informed that the material would be delivered in the near future.

Several short addresses took place with the following being re-elected by acclamation: Pres. M. W. (Rusty) McLeod; Vice-Pres. A. Bell; Treas. A. McKenzie. The new Secretary is R. Warnock. Executive consists of Mrs. Jackman, Mr. M. Friel and Mr. Ralph Reynolds.

New Social and Sports Committees were elected and these are already mapping out interesting programs for next year. Mr. Earl Reynolds was elected to choose a committee to organize a skating carnival for February—watch for announcement.

Lunch was served by the ladies.

x x x

Mrs. Warring held another of her interesting and entertaining lunch parties last Tuesday evening in the old hall. This was in aid of the Ardrossan Community League and Mrs. Jackman and Mrs. Williams were hostesses for the occasion. Despite a small crowd the venture proved successful form a financial standpoint. The league netted $7.25 from sales and an additional $10.46 from a package of prizes ware that was raffled which was won by Mrs. A. Bell. Lunch was served by the ladies.

x x x

We are pleased to hear that Mr. E. Haskin is home from hospital. Two other members of our community, Mrs. Harvey and Mr. T. Jackman are still convalescing in the hospital.

Good Hope

The Happy Gang Club held its annual meeting on Friday evening, *January 23rd*, in the school

The following slate of officers was elected for the ensuing year: Pres., Orville Moyer; Vice-Pres., Alvin Frey; Secretary, Alice Brent; Treasurer, Norma Frey; Flower Committee, Mrs. D. Bushnell; Gas Committee, Vernon Frey.

The next regular meeting will be held Wednesday, February 4th.

x x x

The congregation which has been attending United Church services at Good Hope, held a meeting Sunday afternoon for the purpose of making plans for 1948. Rev. W. D. Rose was in the chair and Mrs. M. Moyer acted as secretary.

Since the services held at Good Hope in 1947 proved a success, it was decided to apply to the official board for permission to become a recognized preaching point. If this permission is granted the board of Stewards will be Mr. D. Bushnell and M. Moyer.

Services will be held the same as last year, 2nd and 4th Sundays of each month at 2:30 p.m. Sunday School at 1:00 p.m.

x x x

Born to Mr. and Mrs. E. C. (Ted) Malcolm of Rose Creek, at Lamont hospital on Friday, January 23, a daughter.

Walther Leaguers, remember the Winter Conference at Concordia College, February 6 to 8, and please don't forget the talent quest.

x x x

Miss Rena Gardner was a visitor at her home here last week.

Several members of W.E.I. Club ten.

x x x

are very busy rehearsing for the play "Hill-Billy Courtship" which they hope to present in the near future. Announcements of presentation will be made shortly. It's a delightful comedy don't miss it.

Unless I am sorry enough to quit when I do wrong, I will soon quit being sorry.

Fultonvale

Mr. Bogue is looking well after a short illness in the University hospital, glad to see you better Sir.

x x x

Mrs. James Lynn has returned to the district after several weeks in the city. Congratulations to Mr. and Mrs. Lynn on the birth of a son, Glenn Arthur, brother for Kenny and June.

x x x

Miss Joy Bogue is at home for a few weeks.

x x x

The sympathy of the district is extended to Mrs. Hilde Fauth, whose mother passed away this month.

x x x

Mr. and Mrs. Tom Reed entertained friends at cards recently. The prizes went to Mr. Dennis Booth, Mrs. C. Marin, Mr. R. Hildebrand and Mrs. Dennis Booth.

x x x

Mrs. Carrie is reported to be progressing favorably, but as yet, unable to return to her home.

x x x

Mr. and Mrs. C. White had their daughter and son-in-law, Mr. and Mrs. E. Ashbridge of Edmonton as their guests last week-end. Mr. White who was ill for a few days this month is feeling much better.

x x x

Little Harry Lynn is recovering nicely after a severe illness.

x x x

Mrs. White, Mrs. Jack Lynn and Mrs. Lang called on the newly weds, Mr. and Mrs. Lester Geary recently.

x x x

The Agricultural meeting held at Fultonvale recently was attended by most of the prominent farmers of the district. Mr. Whitbread our District Agriculturist, gave a very instructive and interesting lecture, and the pictures and address presented by Mr. Stetson were interesting and well received. Those present were: Messrs A. Donaldson and sons, J. Bateman, H. Hinch, R. Freeman, A. Hahn, T. Purvis, J. Lang, G. Buss, E. Hoppe, A. Carotnhi, H. Hacking, W. Mc-Gregor, S. and M. Nacarenko, W. Spitzer, H. Hahn and F. Hacking. Mrs. J. Lang and Mrs. H. Hacking represented the ladies. Children present were: Carol Pearson, Florence Bateman, Arden Buss, Don Spitzer, Ken Lynn, Bert Hacking and Larry Pearson.

You can't point on your face the joy you don't have in your heart.

CHRISTMAS SEAL

SPONSORED BY THE ALBERTA TUBERCULOSIS ASSOCIATION

Q. Is there any treatment for Tuberculosis of the Throat?

A. Ultraviolet ray applied locally through the bronchoscope, cauterization with silver nitrate and electrocautery have been used by various physicians with reported success. Ultraviolet ray applied to the whole body, and a super-vitamin diet, also have been tried with reported success. Pneumothorax and other forms of collapse therapy have been controlled when the disease was confined to the bronchial tree did not involve the trachea. Some physicians are loathe to use collapse therapy because of the possibility of bronchiectasis and nontuberculous infection taking place in the lung in back of a closed bronchus. Partial closure of the bronchus due to scar formation from ulceration may be treated by dilatation of the bronchus. Sometimes simple aspiration of the secretions from the lung distal to the ulcerated or closed bronchus will relieve symptoms say that many bronchial ulcerations heal spontaneously and that treatment does but little if any good.

IN THE BAG

It's in the bag! Yes, your very health may depend upon the bag or lunch box in which you carry your mid-day meal. Are you home-prepared food to work, health authorities suggest that you make sure you have a "parcel of health."

A good lunch, of course, should include one hot food or vegetable or both, meat, fish, poultry, eggs cheese, peas or beans and buttered "Canada Approved" (or whole wheat) bread.

If you can't tote all these to the office or shop, health officers urge you to arrange to get them at your work-place.

Promising marriages fail by not keeping the promises.
